(Copyright, 1911, The Bobbs-Merrill Company)

Carrington glanced in the direction of the keel boat and an instant later saw Slosson clamber over its side. The tavern-keeper crossed to the cabin, where he was met by Bess, who placed in his hands what seemed to be a wooden bowl. With this he slouched off to one of the outbuildings, which he entered. Ten or fifteen minutes slipped by, then he came from the shed and after securing the door, returned to the cabin. He was again met by Bess, who relieved him of the bowl; they exchanged a few words and Slosson walked away and afterward disappeared over the side of the keel boat.

This much was clear to the Kentuckian: food had been taken to some one in the shed—to Betty and the boy!—more likely to George.

He waited now for the night to come, and to him the sun seemed fixed in the heavens. At Belle Plain Tom Ware was watching it with a shuddering sense of the swiftness of its flight. But at last the tops of the tall trees obscured it; it sank quickly then and blazed a ball of fire beyond the Arkansas coast, while its dying glory spread aslant the heavens, turning the flanks of the gray clouds to violet and purple and gold.

With the first approach of darkness Carrington made his way to the shed. Hidden in the shadow he paused to listen, and fancied he heard difficult breathing from within. The door creaked hideously on its wooden hinges when he pushed it open, but as it swung back the last remnant of the day's light showed him some dark object lying prone on the dirt floor. He reached down and his hand rested on a man's booted foot.

"George—" Carrington spoke softly, but the man on the floor gave no sign that he heard, and Carrington's questioning touch stealing higher he found that George—if it were George—was lying on his side with his arms and legs securely bound. Thinking he slept, the Kentuckian shook him gently to arouse him.

"George?" he repeated, still bending above him. This time an inarticulate murmur answered him. At the same instant the woolly head of the negro came under his fingers and he discovered the reason of his silence. He was as securely gagged as he was bound.

"Hush!" he grimly warned.

"What are you doin' here?" demanded the girl, as she endeavored to shake off his hand, but Carrington drew her into the shed, and closing the door, set his back against it. There was a brief silence during which Bess regarded the Kentuckian with a kind of stolid fearlessness. She was the first to speak. "I reckon you-all have come after Miss Malroy," she observed quietly.

"Then you reckon right," answered Carrington. The girl studied him from her level brows.

"And you-all think you can take her away from here," she speculated. "I ain't afraid of yo' knife—you-all might use it fast enough on a man, but not on me. I'll help you," she added. Carrington gave her an incredulous glance. "You don't believe me? That would fetch our men up from the keel boat. No—yo-all's knife wouldn't stop me!"

"Don't be too sure of that," said Carrington sternly. The girl met the menace of his words with soft, full-throated laughter.

"Why, yo' hand's shakin' now, Mr. Carrington!"

"You know me?"

"Yes, I seen you once at Boggs'." She made an impatient movement. "You can't do nothing against them fo' men unless I help you. Miss Malroy's to go down river tonight; they're only waiting fo' a pilot—you-all's got to act quick!"

Carrington hesitated.

"Why do you want Miss Malroy to escape?" he said.

The girl's mood changed abruptly. She scowled at him.

"I reckon that's a private matter. Ain't it enough fo' you-all to know that I do? I'm showing how it can be done. Them four men on the keel boat are strangers in these parts, they're waiting fo' a pilot, but they don't know who he'll be. I've heard you-all was a river-man; what's to hinder yo' taking the pilot's place? Looks like yo' was willing to risk yo' life fo' Miss Malroy or you wouldn't be here."

"I'm ready," said Carrington, his hand on the door.

"No, you ain't—jest yet," interposed the girl hastily. "Listen to me first. They's a dugout tied up 'bout a hundred yards above the keel boat; you must get that to cross in to the other side of the bayou, then when yo're ready to come back yo're to whistle three times—it's the signal we're expecting—and I'll row across fo' you in one of the skiffs."

"Can you see Miss Malroy in the meantime?"

"If I want to, they's nothin' to hinder me," responded Bess sullenly.

"Tell her then—" began Carrington, but Bess interrupted him.

"I know what yo' want. She ain't to cry out or nothin' when she sees you-all. I got sense enough fo' that."

Carrington looked at her curiously.

"This may be a serious business for your people," he said significantly, and watched her narrowly.

"And you-all may get killed. I reckin if yo' want to do anything bad enough you don't mind much what comes after," she answered with a hard little laugh, as she went from the shed.

"Come!" said Carrington to the negro, when he had seen the cabin door close on Bess and her lantern; and they stole across the clearing. Reaching the bayou side they began a noiseless search for the dugout, which they quickly found, and Carrington turned to George. "Can you swim?" he asked.

"Yes, Mas'r."

"Then go down into the water and drag the canoe farther along the shore—and for God's sake, no sound!" he cautioned.

They placed a second hundred yards betwen themselves and the keel boat in this manner, then he had George bring the dug-out to the bank, and they embarked. Keeping within the shadow of the trees that fringed the shore, Carrington paddled silently about the head of the bayou.

"George," he at length said, bending toward the negro; "my horse is tied in the woods on the right-hand side of the road just where you were taken from the carriage last night—you can be at Belle Plain inside of an hour."

"Look here, Mas'r Ca'ington, those folks yonder is kin to Boss Hicks. If he gets his hand on me first don't you reckon he'll stop my mouth? I been here heaps of times fotchin' letters fo' Mas'r Tom," added George.

"Who were the letters for?" asked the Kentuckian, greatly surprised.

"They was fo' that Captain Murrell; seems like him and Mas'r Tom was mixed up in a sight of business."

"When was this—recently?" inquired Carrington. He was turning over this astonishing statement of the slave over in his mind.

"Well, no, Mas'r; seems like they ain't so thick here recently."

"I reckon you'd better keep away from the big house yet a while," said Carrington. "Instead of going there, stop at the Belle Plain landing. You'll find a raft tied up to the shore; it belongs to a man named Cavendish. Tell him what you know—that I've found Miss Malroy and the boy; tell him to cast off and drift down here. I'll run the keel boat aground the first chance I get, so tell him to keep a sharp lookout."

CHAPTER XXVIII.

The Keel Boat.

A few minutes later they had separated, George to hurry away in search back along the shore until he gained a point opposite the clearing. He whistled shrilly three times, and after an interval of waiting heard the splash of oars and presently saw a skiff steal out of the gloom.

"Who's there?" It was Bess who asked the question.

"Carrington," he answered.

"Lucky you ain't met the other man!" she said as she swept her skiff alongside the bank.

"Lucky for him, you mean. I'll take the oars," added Carrington, as he entered the skiff.

Slowly the clearing lifted out of the darkness, then the keel boat became distinguishable; and Carrington checked the skiff by a backward stroke of the oars.

"Hello!" he called.

There was no immediate answer to his hail, and he called again as he sent the skiff forward. He felt that he was risking all now.

"What do you want?" asked a surly voice.

"You want Slosson!" quickly prompted the girl in a whisper.

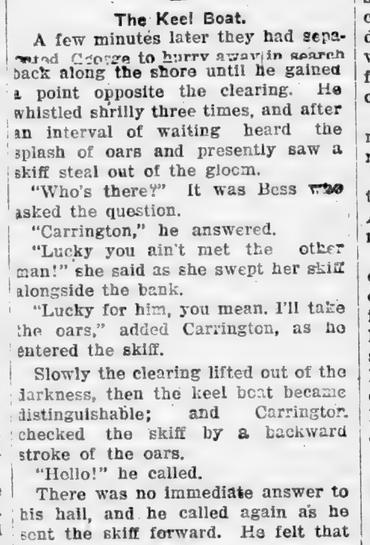
"I want to see Slosson!" said Carrington glibly and with confidence, and once more he checked the skiff.

"Who be you?"

"Murrell sent you," prompted the girl again, in a hurried whisper.

"Murrell—" And in his astonishment Carrington spoke aloud.

"Murrell?" cried the voice sharply.



"Who's There?" It Was Bess Who Asked the Question.

"—sent me!" said Carrington quickly, as though completing an unfinished sentence. The girl laughed nervously under her breath.

"How closter!" came the sullen command, and the Kentuckian did as he was bidden. Four men stood in the bow of the keel boat, a lantern was raised aloft and by its light they looked him over. There was a moment's silence broken by Carrington, who asked:

"Which one of you is Slosson?" And he sprang lightly aboard the keel boat.

"I'm Slosson," answered the man with the lantern. The previous night Mr. Slosson had been somewhat under the enlivening and elevating influence of corn whisky, but now he was his own cheerless self, and rather jaded by the passing of the hours which he had sacrificed to an irksome responsibility. "What word do you fetch from the captain, brother?" he demanded.

"Miss Malroy is to be taken down river," responded Carrington.

Slosson swore with surpassing fluency.

"Say, we're five able-bodied men risking our necks to oblige him! You can get married a damn sight easier than this if you go about it right—I've done it lots of times." Not understanding the significance of Slosson's allusion to his own matrimonial career, Carrington held his peace. The tavern-keeper swore again with unimpaired vigor. "You'll find mighty few men with more experience than me," he asserted, shaking his head. "But if you say the word—"

"I'm all for getting shut of this!" answered Carrington promptly, with a sweep of his arm. "I call these pretty close quarters!"

Still shaking his head and muttering, the tavern-keeper sprang ashore and mounted the bank, where his slouching figure quickly lost itself in the night.

(To be continued)

THOUGHT HE GAVE THE SIGN

But Old Gentleman Naturally Was Indignant at Mistake of Drug Clerk.

A well-dressed old man walked into a corner drug store the other day, mopped his brow with a handkerchief and took a seat at the soda fountain. The clerk faced him expectantly.

"I am very thirsty," he remarked as he drummed on the counter. "I don't know what I want. Well, I believe I will take a phosphate," he concluded, still drumming on the marble with his fingers. The clerk smiled, picked up a stein and went to the rear of the store. He came back, set it in front of the old man and rang up 15 cents out of the half dollar which was given him. The old man, without looking in the stein, thirstily raised it to his lips and took a long draught. Then he quickly set the stein down, sputtered a moment and then exploded between his coughs.

"What do you mean? I never took a drop of liquor, sir, in my life. But I know it, sir, the rotten stuff, when I smell it. I'll not stand for it, sir. I called for a cherry phosphate. What do you mean, sir, by giving me whisky?" And the old man stopped for breath as he glared at the amazed clerk.

"Well, I—I er—I guess I made a mistake. I thought you wanted it for medicine," stammered the clerk.

"Sir, I am a teetotaler. I wouldn't touch the stuff for love nor money." And the old man marched out indignantly.

"Well, for the love of Mike!" exclaimed the clerk to a man at the counter who had been served a stein in the same way, but who made no kick. "That old duffer came in here and certainly gave me the correct high sign. And he drank nearly half of it, too." The clerk laughed as he looked into the stein.—Kansas City Journal.

OBJECT TO THE CHICKENS

Residents of Summer Place Allege That Their Early Morning Rest Is Disturbed.

The dwellers in the residential section of Hastings-on-the-Hudson have become much excited over discussions of the question. Is it proper and right to maintain a poultry farm on a village plot? Since the days have lengthened and the sun rises early and the windows are kept open wide all night, it is maintained by those on the negative side of the discussion, restful sleep is out of the question after 4 o'clock in the morning. A petition setting forth all the arguments from the moral, economic and social points of view against chicken raising inside of village limits has been circulated, and has the names of all who do not own chickens. One of the signers said the whole trouble was brought on the community by the importation of a bantam rooster. What this fellow lacks in size he makes up in volume and shrillness of voice and in the zeal with which he indulges his talent for crowing in the early hours of the day. He is keyed too high, and his owner should feed him chalk every night. The petition describes in detail the annoyance of being roused out of a sound sleep by a loud cock-a-doodle-doo and the horror of lying awake to listen for the next summons from the other roosters. One particularly loud-voiced Leghorn was found dead beside his coop a few days ago. It is said on of the neighbors, at the risk of being shot, broke the rooster's neck. It took only a few days for the owner to get another lusty-lunged bird, and now there is some feeling!

Fountain Pen Improvement.

Small panes of glass are set into the side of a new fountain pen so the quantity of ink it holds can be seen readily.

"Figure it out for yourself"

You carry Fire Insurance—and why?

Because of the danger of sudden loss.

Because it protects you against this uncertainty, although your buildings may never burn down.

Do you protect them against decay—against the weather—against the dead certainty of depreciation resulting from allowing them to go unpainted. Why not?

Paint Insurance is worth even more to you than Fire Insurance—yet is often sadly neglected—and you are the loser.

MASTIC PAINT for 40 years has proven the "real protector" of buildings. For quality—service—economy—and beauty of finish it has no equal. Ask for color card.

An Ideal.

I know of no more encouraging fact than the unquestionable ability of a man to elevate his life by a conscious endeavor. It is something to be able to paint a particular picture, or to carve a statue and so make a few objects beautiful; but it is far more glorious to carve and paint the very atmosphere and medium through which we look, which morally we can do.—Thoreau.

Swellings of the flesh caused by inflammation, cold, fractures of the bone, teotache, neuraglia or rheumatism can be relieved by applying BALLARD'S SNOW LINIMENT. It should be well rubed in over the part affected. Its great healing and penetrating power eases the pain, reduces swelling and restores natural conditions. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

MISSISSIPPI-ALABAMA FAIR, MERIDIAN, MISS.

A rear glimpse of the buildings and "Pike" of the Mississippi-Alabama Fair, which will open at Meridian on October 14th for a week. There were 70,000 paid admissions last year, a record which no other first fair in the South can boast. It will be bigger and better from every standpoint this year.

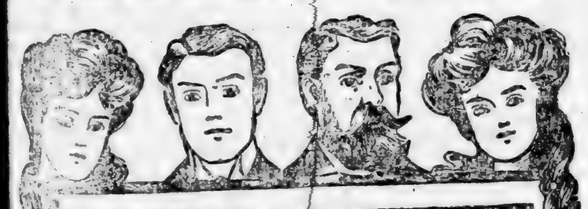
Nature's Hair Restorer



WYETH'S SAGE AND SULPHUR HAIR REMEDY

Restores Gray Hair to Natural Color

Sulphur is a Natural Element of the Hair

When there is not a sufficient amount of sulphur in the hair, it loses its life, color and strength, turns gray, and falls out. There are many forms of sulphur, but only one kind that is suitable for treatment of the hair and scalp, and **that is the kind used in preparing WYETH'S SAGE AND SULPHUR HAIR REMEDY.**

We Have the Secret, and We Give You the Benefit of It at an Exceedingly Low Price

BALDNESS CURED

For two or three years my hair had been falling out and getting quite thin, until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly, until now I have used four bottles. The whole top of my head is now fairly covered with hair, and it keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Director of Evening Department, The Moody Bible Institute, Chicago.)

LESSON FOR OCTOBER 13.

CLEAN AND UNCLEAN.

LESSON TEXT—Mark 7:1-23.

GOLDEN TEXT—"For the Kingdom of God is not eating and drinking, but righteousness and peace and joy in the Holy Ghost."—Rom. 14:17 R. V.

This lesson deals with the last of those four events that marked the crisis in the life of Jesus at Capernaum. It occurred just before the third period of his Galilean ministry and his final departure for Jerusalem.

Lessons II. and VII. of the second quarter of this year showed us Jesus' attitude towards the law. Here we see his attitude towards rabbinical tradition. (1) They are the traditions of men, and not the law of God. (2) They were made a pretext whereby men evaded the commands of the law.

We see before us three general divisions, I.—The accusation, v. 1-5; II.—The answer, v. 6-13, and III.—The application, v. 14-23.

Ceremonial Neglected.

The growing hatred of the Pharisees led them to make the long journey from Jerusalem that they might observe him and find wherein to accuse him. While they were studying him they at the same time revealed their ideal of the kingdom of God. They took special notice that the disciples of Jesus ate without the careful observance of the ceremonial cleansing of their hands. We must not understand this to mean so much the removal of actual uncleanness, but rather that the disciples had neglected the ceremonial oservance of the washing of hands of which the Pharisees were so punctilious. Mark (v. 3 and 4) adds illumination by calling especial attention to these traditions to which the Jews adhered so tenaciously. Thus we can see that their ideal of man's relation to God was largely a matter of external ceremony. Purity to them was an outward matter, something largely governed by the traditions of men and which they had "received to hold" v. 5. The answer of Jesus reveals a very opposite ideal. He begins by calling the Pharisees hypocrites. A hypocrite is a play actor, one who hides behind a mask. Then applying the prophecy of Isaiah, Jesus tells the Pharisees that they are hiding their true character behind the mask of ceremonial cleansing. Such play acting is but a poor imitation of the real heart condition demanded by God (Ps. 51:10). Their hearts were far from God even though with their lips they professed to serve him, "and many like things ye do." The service which is pleasing to God is the doing of his will. It consists not in the fulfilling of a ritual, but in the fulfillment of life, e. g., a growing character.

Disciples Perplexed.

Jesus takes advantage of this discussion and turning to the mutitude upon whom the Pharisees would bind such a grievous burden of cermonialism and falsehood (Matt. 23:4) warns them that it is not so much that which enters into a man that defiles him, but rather that which proceeds out of a man, v. 15. It seems quite natural that the disciples should be perplexed and should ask Jesus what was meant by such a statement. Jesus' answer, v. 18-23, shows us very clearly that these things coming forth, reveal the corruption within. Read Matthew 12:34, 35, Gen. 6:5 and James 3:10-12. Real purity is purity of heart, if the heart be not cleansed, what will it avail if we wash the hands? What, then, is the application for this present day? Clearly we are taught the danger of lip service without a change of heart. The danger of substituting the good for the best. Forms and ceremonies are good and have their place. They are significant. They are important teaching factors, but they must not be substituted for a pure heart. We must beware lest we hide behind such a mask.

There is here also the plain teaching as to Jesus' estimate of the Pentateuch and inferentially of the prophecy of Isaiah. He specifically calls it the "Word of God." Surely we can accept his estimate as contrasted with the traditions of the elders or the "consensus of modern thought."

There is here also a great opportunity to emphasize filial duty. This is a day and a time that needs emphasis upon the fifth commandment. Consideration of parents' sacrifice, co-operation with them in the bearing of burdens, comfort for them in sorrow and adversity, and cheer for them as they journey down life's pathway. Filial disrespect and an iconoclastic irreverence of things holy are two things that are cursing the rising generation.

And lastly, there is here a lesson to emphasize as to what constitutes real cleansing. The believer is cleansed "once for all." Heb. 10:1-12, but needs frequent daily confession that he may abide in unbroken fellowship. The blood of Christ not only cleanses from the guilt but the defilement also.—Eph. 5:25-27 and I. John 5:6.

"Less talk and more walk,
"Less wishing and more doing.
"Less preaching and more practicing.
"Less organization and more of the Spirit.

RATHER A PECULIAR HOBBY

Chief Executive of New York Said to Have a Marked Fondness for Pigs.

"Pigs is pigs" with Mayor Gaynor of New York. They are his favorite animals, on foot. Besides raising quite a number himself at his farm Deep Wells, at St. James, L. I., he always displays an interest in pigs owned by his neighbors.

He insists on them raising pigs. The pigless folk of St. James hear from him (and he uses just as sharp language in his neighborly conversation as he does in writing letters to rat catchers, etc), and hear from him often until they annex a few "porkers" as a side line. Several denizens of that locale admit they keep a few pigs just to keep peace in the village.

Once a boy did him a really good turn and he desired to show his appreciation of the act. Of course the boy got a pig for his reward. When the mayor goes for his jaunt through the countryside he calls on all the farmers who raise pigs. The others do not receive a visit from him.

Whenever he hears that a pig is ill, no matter if it is six miles away, he goes to see that pig. And he usually prescribes some home remedy for the animal. He has been known to walk ten miles on the hottest day to visit an indisposed pig.

When the mayor visits his country place at the end of each week during the summer there is always a group of villagers on hand to greet him. As he goes among them shaking their hands, instead of inquiring about their health, he says: "How are your pigs?"—New York Herald.

NOT OF THE SUPERNATURAL

German Paper Gives Simple Explanation of Circulated Story Concerning the Pope.

An extraordinary story about Pius X. was recently told by a preacher in one of the churches at Innsbruck. He said that while the pope was engaged in prayer he fell into an ecstasy and rose several feet in the air. Cases of levitation—the technical word for the phenomenon—are, of course, recorded in the lives of many of the saints. If a writer in "Das Neue Jahrhundert," a journal of markedly anti-papal tendencies, is to be believed, the tale has a very simple explanation. Pius X., it appears, was working in his study, and happened to require a book from a shelf which was beyond his reach. He climbed on a chair to get it. A servant in an ante-room, from motives of curiosity, not perhaps unmixed with piety, happened to look through the keyhole to see what the pope did when he was alone. To his amazement he saw the white-robed figure of the pontiff floating a couple of feet above the floor. The fact was that between him and Pius X. stood a desk which hid the chair on which the pope was standing. It never occurred to the servant that so great a person as the pope would resort to so simple an expedient to get a book. Obviously he would summon a cardinal or a chamberlain to his aid. Hence he jumped to the conclusion that he was witnessing a supernatural phenomenon. —Manchester Guardian.

MEXICAN MUSTANG LINIMENT

ACTS LIKE MAGIC.

J. J. Patterson, M.D., Marshall, Ala., says: "In my practice I have found that Mexican Mustang Liniment acts like magic. In one case it cured an old lady of a very severe attack of Rheumatism in the neck."

25c. 50c. $1 a bottle at Drug & Gen'l Stores

MEXICAN MUSTANG LINIMENT

FOR LAME SHOULDER.

Joseph D. Crittenden, Ozark, Ala., writes: "After eight months' illness with lame shoulder and side I tried Mustang Liniment and was entirely cured after using only one bottle. My teacher, Prof. A. A. Lee, has adopted a rule that Mustang Liniment be kept in the school room in case of accident."

25c. 50c. $1 a bottle at Drug & Gen'l Stores

Mexican Mustang Liniment

WITHOUT A FAILURE.

Paul Hoffman, Waverly, Ala., writes: "I think Mexican Mustang Liniment one of the greatest medicines I ever saw, and always keep a bottle or so in my stables. I have never known a single instance where it failed to give satisfaction and I have been selling and using it for 10 years."

25c. 50c. $1 a bottle at Drug & Gen'l Stores

MEXICAN MUSTANG LINIMENT

FOR SORE FEET.

Bathe them with warm water to open the pores, then wipe dry. Apply Mustang Liniment and rub it in well for several minutes. Put on old stockings to keep the feet warm and go to bed. Next morning you will be ready for a day's tramp. Repeat treatment every night for a week.

FREE ATTRACTIONS AT MERIDIAN FAIR

MISSISSIPPI-ALABAMA EXPOSITION OCTOBER 14-19, TO BE GREATEST EVER.

AEROPLANE FLIGHTS DAILY

Fire Works Display Will Far Surpass That of Last Year—Appropriation For This Feature Has Been Doubled.

Among the free attractions of the Mississippi-Alabama Fair, which will be held in Meridian, October 14-19, the Aeroplane flights are the most interesting.

Profiting by the experience of others, Secretary Striplin has made a contract with one of the most reliable Aviation concerns in the the country, the National Aeroplane Co., of Chicago, and he made a contract which means that there will be flights and no fail, as he stipulated in the contract that there must be two flights daily, both machines in the air at the same time, or the Aeroplane company will forfeit $250.00 each day. He was also anxious to have some Aviator of National reputation specified in the contract, but there was where the flying people said nay. Aviation has been marked by so many fatalities that the promoters who furnish such attractions will not agree to send any particular aviator, or do anything more than promise that they will fly if alive. Mr. Striplin has also contracted that a passenger shall be carried each day, if there are any who desire to take the exquisite chance of adding to the aviation fatalities that has broken the record the past few months.

The Fireworks at the Mississippi Alabama Fair were so enthusiastically admired last year that the management has decided to double the appropriation for that part of the entertainment this year. This will entail the greatest expenditure of money that has ever been invested in a Pyrotechnical display in Mississippi. It completes a program of free entertainment that is not approached by any other Fair in the State, and by very few in the South. There will be gorgeous illuminations; beautiful set pieces; rockets that release a flood of scintilating gems; bombs that resound like distant thunder and shower the sky with brilliant hues. It is inspiring and entertaining and is a feature that is worth spending an evening at the Fair if there were no other attractions.

The space in the Agricultural Building of the Mississippi-Alabama Fair which we present above, has been taken to such an extent that the indications are that Secretary Striplin will have to arrange for extra room before the Fair opens October 14 Some of the small exhibitors of last year, have taken large space and will compete for the big prizes offered for the best farm exhibit.

This is a picture of the Poultry house of the Mississippi-Alabama Fair which is offering $1,500.00 in premiums for prize chickens this season The Poultry exhibit last year exceeded all expectations, but it is believed that this feature of the Fair will be at least twenty-five per cent better than it was last year. Write to Secretary Striplin and get a premium list and rules for entering in this department a very prominent and competent A. P. A. judge has been employed for this event.

Owners of Jersey cattle will be pleased to learn that the American Jersey Cattle Club, has included the Mississippi-Alabama Fair in its classification for the award of honors which include a gold and silver medal for champion Jerseys. No other fair in the state has been so honored, and it ought to be an incentive to Jersey breeders in both Mississippi and Alabama to enter for these highly prized awards. Write to Secretary Striplin and get a Fair catlog with full particulars.

Thursday, October 17th has been designated as Labor Day at the Mississippi-Alabama Fair, and as Meridian is quite a manufacturing city and has many railroad men, it is expected that this will be a big day.

All the railways entering Meridian and their connections in Mississippi and Alabama have granted a rate of one fare, plus twenty-five cents, for the round trip to the Fair. There will also be special trains from a distance of one hundred miles which will reach Meridian at 10 a. m. and leave each night at 10 o'clock, thus making it possible for the visitors to see all the fair, including the Fireworks and Horse Show.

The success of the Mississippi-Alabama Fair last year was so marked that there was not a dissenting voice anywhere. Nobody had ever been a first fair effort that in any way compared with it. In point of attendance it was a record-smasher, the paid admissions reaching 70,000 and every department was filled with exhibits which was the wonder and amazement of everybody. "We did not think they could do it," was the comment. Encouraged by this success, the management of the Fair determined at once to make even a better record this year and from all indications at hand, success is assured. All the big exhibitors are coming back again and some of those who only brought a pig last year are going the whole hog, so to speak, at this fair. An instance in point is Mr. W. C. Brown, a prominent horse breeder of Brantley, Ala., who only used one horse stall last year, and has already paid for eight for this Fair. The same is true of the Agricultural department; exhibitors who only entered a few things last year, were so encouraged that they are taking a big space and are going after big prizes.

One of the bands of music engaged for the Mississippi-Alabama Fair, is John H. Young's German-Hungarian band of Cincinnati, which will furnish the music for the Horse Show. There will be plenty of music at the Fair as there will be at least three bands.

EDITORS OF TWO STATES INVITED

Mississippi-Alabama Fair Association Extends Invitation to the Press of Mississipi and Alabama.

Plans for entertaining the newspaper men and women of Mississippi and Alabama, are being considered by the management of the Mississippi-Alabama Fair, which will be held at Meridian, October 14 to 19, and judging by the way the people of Meridian do other things it can be taken for granted that the members of the Fourth Estate will have the time of their life at the big Inter-State Fair.

Secretary Striplin realizes how much all successful public enterprises owe to the press and proposes to give the editors and their ladies a warm welcome and a good time when they come to the Fair. It is also hoped that the attendance of the newspaper men will be in keeping with the crowd, which is expected to reach at least the 100,000 mark this year.

The program for Press Day is not ready to be published but Secretary Striplin says he wants everybody to take notice and begin to plan now to be in Meridian on that day.

OLD VETERANS WILL PARADE

U. C. V. Day at Mississippi-Alabama Fair to be Marked by Horseback Parade of Old Soldiers.

One of the official days of the Mississippi-Alabama Fair will be Confederate Veterans day, when all the old soldiers will be admitted to the grounds free and one of the features of the occasion will be a horseback parade of all the old vets who can get a steed. This invitation includes the old soldiers from Alabama as well as Mississippi, and Secretary Striplin says he wants them all to come; the more the merrier. The date is Friday, October the 18th.

ENCOURAGING BOYS' CORN CLUB

Mississippi-Alabama Fair Offers a Nice Prize for the Best Exhibit in Two States.

The Boys' Corn Clubs of Mississippi and Alabama are offered a first prize of $25.00 for the best exhibit by any Club in either State and it is hoped that there will be some lively competition. The Boys' Corn Club Day is Tuesday, October the 15th. The second and third prizes are $15.00 and $10.00 respectively. The exhibits will have to be certified to by the proper authorities, and application for entry must be made in written form not later than Thursday, October 3d.

The big machinery hall at the Mississippi-Alabama Fair, is rapidly nearing completion and at least three-fourths of the space has already been taken. The exhibit of all kinds of machinery used on the farm will without doubt be one of the most comprehensive ever seen in the state.

Mr. G. F. Green, who has charge of the joint exhibits of the Southern and Queen and Crescent Railways, has engaged double the space that was used last year at the Mississippi-Alabama Fair and is arranging one of the finest exhibits which has ever been seen in the South. The choicest specimens of the exhibit will be taken to the Chicago and New York Land Shows, which will be the means of giving Mississippi some good advertising.

School Day at the Mississippi-Alabama Fair, will be one of the biggest days of the fair, judging by the interest which is being manifested by teachers and children in and around Meridian. The educational value of a day at the Fair, is almost beyond computation and the fair management desires to interest the schools every where.

WANTED AND FOR SALE.

Antoine Doloria, Postmaster at Carson, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."—Upchurch Drug Co.

MISSOURI HAS NEW DRINK

Every Silo Is a Distillery Producing Undistilled Corn Whisky by the Fermentation of Corn.

Columbia, Mo.—A new kind of intoxicating liquor has been discovered in Missouri.

Every silo is a drink factory in full operation, producing the primest sort of liquor and paying no tax or violating no law—even in dry counties. It is found at the bottom of the silo in sufficient quantities to make a whole neighborhood drunk.

The liquor is produced by the fermentation of the silage, which mixes with the water used to pack and cut up corn as it is put in the silo. It is very much like the ordinary corn whisky before it is distilled.

While it is not expected to become fashionable at city bars, it is preferable to hair dye and Jamaica ginger as a thirst quencher in rural communities.

PART OF PREHISTORIC MAN?

Human Teeth Found Eighty Feet Below Ground in California—Forty-Foot Lizard Also Seen.

Willows, Cal.—Human teeth found here in the borings from a well at a depth of 80 feet are believed to have belonged to a man who lived in a long past cycle.

Numerous bits of shellfish and a deposit of fine sea sands surrounded the teeth, which must have been deposited at a time when the Sacramento valley was 95 feet lower than at present.

T. L. Knock, manager of the ranch on which the teeth were found, has in his possession the skeleton of a 40-foot lizard, dug from a ledge of solid sandstone in the nearby Coast Range mountain.

Fined for Hugging Girl.

Paterson, N. J.—Because he hugged Freida Brickman against her wishes, Louis Bucceri was fined $50.

AN ODD HONEYMOON

Pastor and His Bride to Begin Married Life Amid Lepers.

Isolation for Life Their Probable Sentence—While, in Addition, They Run a Great Risk of Contracting Disease.

Buffalo, N. Y.—The Rev. Martin P. Davis and his young bride, married in this city recently, are now on their way to Chandkuri, the central province of far off India, where they will spend one of the strangest honeymoons on record. Their destination in Chandkuri is the leper colony in the interior of the province, conducted by the German Evangelical Missionary society, where they take up their abode, probably nevermore to leave it.

It is to ameliorate the condition of the 427 members of the colony that the young people are making the sacrifice. And there are few who have made a greater. Although many experts are of the belief that leprosy is not easily contracted, the laws of sanitation prescribe isolation for all who have the disease and those who mingle with them. The missionaries run more than a passing chance of falling prey to the disease, as have many before them. One of the missionaries, Miss Mary Reed, now laboring in the snow-capped Himalayas, has been a leper since girlhood.

In a colony such as Chandkuri lepers are given little plots of ground and they are encouraged to grow mangoes, lemons, oranges and other Indian fruits. An effort is made to instill a spirit of independence in them. Each man and woman is given 20 ounces of coarse ground wheat a day and eight cents a week.

Each leper cooks his own food. For clothing, each man is given four yards of coarse, strong cotton cloth, 40 inches wide, which costs about 30 cents; the women, because of headgear they wear, receive two yards more than the men.

Two children's homes, for the segregation of the offspring of lepers, will be under the care of Mr. Davis. Children of leprous parents usually contract the disease if they are not separated; if taken away from their parents at an early age, they escape. It will be one of the duties of Mrs. Davis to wean healthy children away from diseased mothers.

From Biblical times leprosy has been one of the worst scourges of the east. The census returns show there are 200,000 lepers in India alone. These are only pronounced cases.

GIVE MEN SOCKS TO WOMEN

Chinese Who Take Ship Passengers' Clothes Make Odd Mistakes In Returning Them.

San Francisco, Cal.—The Chinese are assimilating Caucasian customs fast, but their inability to differentiate between masculine and feminine garb or to understand why half hose are worn only by men caused sixty-two cabin passengers of the liner Manchuria much inconvenience at Shanghai three weeks ago.

The Manchria, which arrived from the orient recently, was ordered into quarantine at Shanghai because of the death of a steerage passenger from a communicable disease, and all passengers were ordered ashore to take a plunge in a germ-killing solution. Each was assigned a bathroom and the clothing of each was taken away for fumigation. The Chinese neglected to mark the clothing. A sedate man of sixty received a corset in lieu of his waistcoat. Many of the women received men's socks, others no stockings at all, while many garments went astray, never to be restored to rightful owners.

Captain Dixon, veteran of many a storm, fled to his cabin when the women appealed to him.

GIRL CORNERS "PIG" MARKET

Laboratory Experimenters Depend on Drove Fostered by Eight-Year-Old Child.

Dayton, O.—The youngest monopolist in the world lives in Dayton. She is Beatrice Howell, daughter of Frank Howell, wealthy attorney, and is only eight years old.

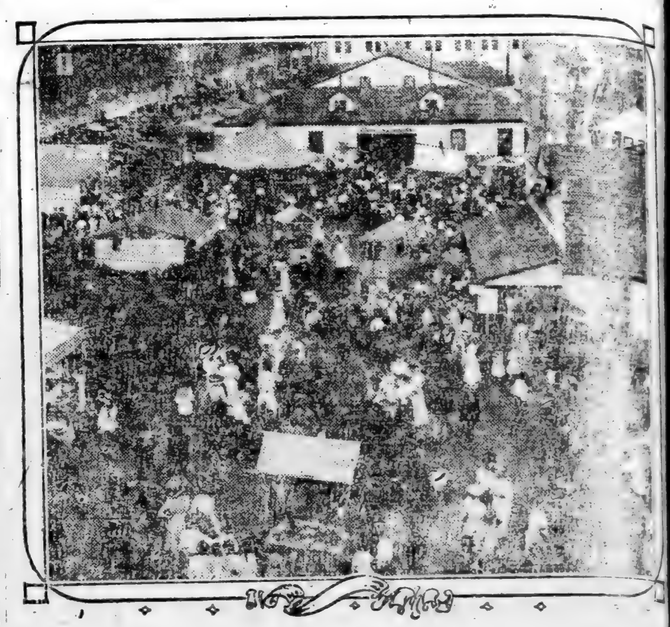
She controls the guinea pig market. State boards of health, medical colleges and other organizations which must have guinea pigs for laboratory experimental purposes are at her mercy. Beatrice actually is the head of America's largest guinea pig farm at her father's magnificent country home, just outside of Dayton, near the National Soldiers' home. Two sisters, Kathryn, eleven, and Pauline, five, assist her.

"The business has grown so enormously within the last year that Beatrice is unable to look after the finances," said her mother, a popular Dayton society matron, "so I keep the accounts.

"This year her sales will amount to about 15,000 pigs. She is getting 65 cents each for them in lots of 50 or more, but the day will soon be here when they will command at least $1.50 each."

"Loves Me; Loves My Dog."

Boston.—Because they would not let her land with her dog owing to a technicality of the British law, Miss Cora Chamberlain has returned to Boston without leaving the ship.



"WHEN THE BIG CROWDS BEGIN TO GATHER."
Alabama State Fair Grounds.

ALABAMA STATE FAIR LIVE STOCK EXHIBIT

The Live Stock Exhibit of the Alabama State Fair to be held at Birmingham, October 3-12, 1912, is one of the greatest attractions that the annual big Alabama Show has to offer. This department is under the direct supervision of Superintendent W. E. Matthews, and will be judged and the prizes awarded by J. W. Wale, of Kansas City, Mo., George Campbell, of Spring Hill, Tenn., and John C. Cheney, of Montgomery. Each of these men are well known in live stock circles all over the United States and are highly competent to fill the positions they hold with the Alabama State Fair.

The United States Department of Agriculture has lifted the quarantine against tick infection from the Alabama State Fair Grounds. All cattle from the "free area" can come to this Fair and return with a clean bill of health. A dipping vat has been installed on the grounds for disinfecting and will be in charge of competent persons for the operation of dipping cattle. New cattle barns have been built at a large expense and the entire premises have been disinfected, so that now everything is purely sanitary and clean.

In addition to all this, four carloads of cattle, horses and other specimens of live stock will be sent the State Fair from Springfield. They will be exhibited on the grounds under a mammoth tent. This is positively the largest live stock show to be seen in the South this year. Those interested in live stock can reap benefits too many to mention from this exhibit which will be absolutely free to every visitor to the Alabama State Fair.

DOG SHOW AT THE ALABAMA STATE FAIR.

The dog show is a new but highly interesting department of the Alabama State Fair. Mr. Jack Biddle is the superintendent of this department.

The dog show is given under the auspices of the Birmingham Kennel Club and with the co-operation of the National Kennel Club.

A nice, large, roomy building has been built for this show and benches arranged for the accommodation of 200 dogs. Canines of every known breed will be shown here. Lovers of pets will have a great opportunity at the fair to inspect the best dogs in the South.

FREE ACTS AT THE ALABAMA STATE FAIR

The free acts which have been secured by the Alabama State Fair for this fall's big show is pos[itively] the best and most famous aggregation of free acts ever assembled in the southern city. There are 19 of these acts each represents his profession being at the head of it.

Liberati's famous concert band will furnish the music of the fair every day that it lasts. This aggregation is composed of 42 musical pieces each of whom has no small reputation to producing harmonious and pleasing music.

A historical number is the [illegible] —Seige of Chepultepec—Fir[illegible] Popocatapetl," a grand pyrotechnic spectacle, in which there are 270 people. Grand pageants, unequalled by anything ever seen in the South before, will be produced in the course of thrilling battle between the American and Mexican troops will be enacted. This will be free every night of the Fair directly in front of the grandstand, $1,000 worth of fireworks will be displayed in this spectacle in many novel forms.

FIREWORKS AT THE ALABAMA STATE FAIR

The grand pyrotechnic spectacle to be produced at the Alabama State Fair this fall is one with great historical significance, inasmuch as it deals with the period of the war with Mexico. The storming and capture of the Fortress Chepultepec by the American troops under General Winfield Scott is most vividly shown. This battle was one of the most thrilling, interesting and spectacular features of the Mexican War. The display at the Fair will conclude with the awe inspiring spectacle of Mt. Popocatapetl in volcanic eruption. The scenic effect is 350 feet long and is played by 250 people.

The spectacle opens with the "Fiesta Les Flores," one of the most beautiful and spectacular of the many interesting features held in connection with Mexican fiestas—showing Spanish dancing girls in the [illegible] flowers, games, sports, bull fights, gorgeous lantern and spectacular parade participated in by the entire population.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D.D.D. remedy for years."

We, ourselves vouch for the D.D.D. Prescription for eczema and also guarantee that it will take away the itch the instant you apply it.

If you are suffering from any form of skin trouble we would like to have you come to our store, for we have had the agency of this remedy for so many years that we can tell you all about D.D.D. Prescription and how it cures eczema. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a $1 bottle on the guarantee that it will cost you nothing unless you find that it does the work. For that matter a trial bottle for 10c ought to be enough to absolutely prove the merits of the remedy.

Drop into our store anyway and we will tell you all about this great remedy.

One of the missionaries, Miss Mary Reed, now laboring in the snow-capped Himalayas, has been a leper since girlhood.

In a colony such as Chandkuri lepers are given little plots of ground and they are encouraged to grow mangoes, lemons, oranges and other Indian fruits. An effort is made to instill a spirit of independence in them. Each man and woman is given 20 ounces of coarse ground wheat a day and eight cents a week.

Each leper cooks his own food. For clothing, each man is given four yards of coarse, strong cotton cloth, 40 inches wide, which costs about 30 cents; the women, because of headgear they wear, receive two yards more than the men.

Two children's homes, for the segregation of the offspring of lepers, will be under the care of Mr. Davis. Children of leprous parents usually contract the disease if they are not separated; if taken away from their parents at an early age, they escape. It will be one of the duties of Mrs. Davis to wean healthy children away from diseased mothers.

From Biblical times leprosy has been one of the worst scourges of the east. The census returns show there are 200,000 lepers in India alone. These are only pronounced cases.

GIVE MEN SOCKS TO WOMEN

Chinese Who Take Ship Passengers' Clothes Make Odd Mistakes in Returning Them.

San Francisco, Cal.—The Chinese are assimilating Caucasian customs fast, but their inability to differentiate between masculine and feminine garb or to understand why half hose are worn only by men caused sixty-two cabin passengers of the liner Manchuria much inconvenience at Shanghai three weeks ago.

The Manchria, which arrived from the orient recently, was ordered into quarantine at Shanghai because of the death of a steerage passenger from a communicable disease, and all passengers were ordered ashore to take a plunge in a germ-killing solution. Each was assigned a bathroom and the clothing of each was taken away for fumigation. The Chinese neglected to mark the clothing. A sedate man of sixty received a corset in lieu of his waistcoat. Many of the women received men's socks, others no stockings at all, while many garments went astray, never to be restored to rightful owners.

Captain Dixon, veteran of many a storm, fled to his cabin when the women appealed to him.

GIRL CORNERS "PIG" MARKET

Laboratory Experimenters Depend on Drove Fostered by Eight-Year-Old Child.

Dayton, O.—The youngest monopolist in the world lives in Dayton. She is Beatrice Howell, daughter of Frank Howell, wealthy attorney, and is only eight years old.

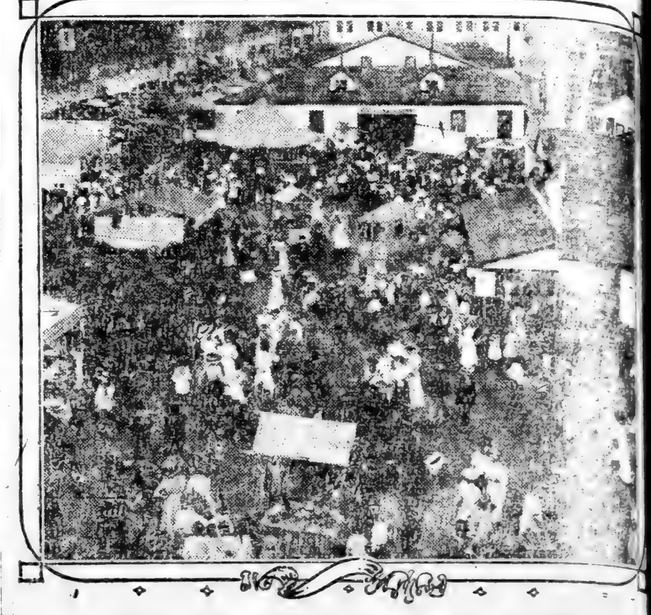
She controls the guinea pig market. State boards of health, medical colleges and other organizations which must have guinea pigs for laboratory experimental purposes are at her mercy. Beatrice actually is the head of America's largest guinea pig farm at her father's magnificent country home, just outside of Dayton, near the National Soldiers' home. Two sisters, Kathryn, eleven, and Pauline, five, assist her.

"The business has grown so enormously within the last year that Beatrice is unable to look after the finances," said her mother, a popular Dayton society matron, "so I keep the accounts.

"This year her sales will amount to about 15,000 pigs. She is getting 65 cents each for them in lots of 50 or more, but the day will soon be here when they will command at least $1.50 each."

"Love Me; Love My Dog."

Boston dispatches say they would not let her land with howling crying to a technicality of the British law. Miss Cora Chamberlain has returned to Boston without landing the pets.



"WHEN THE BIG CROWDS BEGIN TO GATHER."
Alabama State Fair Grounds.

ALABAMA STATE FAIR LIVE STOCK EXHIBIT

The Live Stock Exhibit of the Alabama State Fair to be held at Birmingham, October 3-12, 1912, is one of the greatest attractions that the annual big Alabama Show has to offer. This department is under the direct supervision of Superintendent W. E. Matthews, and will be judged and the prizes awarded by J. W. Wale of Kansas City, Mo., George Campbell, of Spring Hill, Tenn., and John C. Cheney, of Montgomery. Each of these men are well known in live stock circles all over the United States and are highly competent to fill the positions they hold with the Alabama State Fair.

The United States Department of Agriculture has lifted the quarantine against tick infection from the Alabama State Fair Grounds. All cattle from the "free area" can come to this Fair and return with a clean bill of health. A dipping vat has been installed on the grounds for disinfecting and will be in charge of competent persons for the operation of dipping cattle. New cattle barns have been built at a large expense and the entire premises have been disinfected, so that now everything is purely sanitary and clean.

In addition to all this, four carloads of cattle, horses and other specimens of live stock will be sent the State Fair from Springfield. They will be exhibited on the grounds under a mammoth tent. This is positively the largest live stock show to be seen in the South this year. Those interested in live stock can reap benefits too many to mention from this exhibit which will be absolutely free to every visitor to the Alabama State Fair.

DOG SHOW AT THE ALABAMA STATE FAIR.

The dog show is a new but highly interesting department of the Alabama State Fair. Mr. Jack Biddle is the superintendent of this department.

The dog show is given under the auspices of the Birmingham Kennel Club and with the co-operation of the National Kennel Club.

A nice, large, roomy building has been built for this show and benches arranged for the accommodation of 200 dogs. Canines of every known breed will be shown here. Lovers of pets will have a great opportunity at the fair to inspect the best dogs in the South.

FREE ACTS AT THE ALABAMA STATE FAIR

The free acts which have been secured by the Alabama State Fair for this fall's big show is positively the best and most famous aggregation of free acts ever assembled in a southern city. There are 19 of them and each represents his profession by being at the head of it.

Liberati's famous concert band will furnish the music of the Fair every day that it lasts. This famous band is composed of 42 musical artists each of whom has no small reputation as to producing harmonious and pleasing music.

A historical number is "Old Mexico —Seige of Chepultepec—Eruption of Popocatapetl," a grand pyrotechnic spectacle, in which there are 250 people. Grand pageants, unequalled by anything ever seen in the South before, will be produced in this and thrilling battle between the American and Mexican troops will be enacted. This will be free every night of the Fair directly in front of the grandstand, $1,000 worth of fireworks will be displayed in this spectacle in many novel forms.

FIREWORKS AT THE ALABAMA STATE FAIR

The grand pyrotechnic spectacle to be produced at the Alabama State Fair this fall is one with great historical significance, inasmuch as it deals with the period of the War with Mexico. The storming and capture of the Fortress Chepultepec by the American troops under General Winfield Scott is most vividly shown. This battle was one of the most thrilling, interesting and spectacular features of the Mexican War. The display at the Fair will conclude with the awe inspiring specfacle of Mt. Popocatapetl in volcanic eruption. The scenic effect is 350 feet long and is played by 250 people.

The spectacle opens with "La Fiesta Les Flores," one of the most beautiful and spectacular of the many interesting features held in connection with Mexican fiestas—showing Spanish dancing girls in the battle of flowers, games, sports, bull fights, gorgeous lantern and spectacular parade participated in by the entire populace.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D.D.D. remedy for years."

We, ourselves vouch for the D.D.D. Prescription for eczema and absolutely guarantee that it will take away the itch the instant you apply it.

If you are suffering from any form of skin trouble we would like to have you come to our store, for we have had the agency of this remedy for so many years that we can tell you all about D.D.D. Prescription and how it cures eczema. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a $1 bottle on our guarantee that it will cost you nothing unless you find that it does the work. For that matter a trial bottle for 25c ought to be enough to absolutely prove the merits of the remedy.

Drop into our store anyway and we will tell you all about this great remedy.

UPchurch Drug Co.

CORRESPONDENCE.

Clanton, Ala., Sept. 16, 1912.

Editor Union-Banner,
Clanton, Ala.

Dear Sir—Would like to say a few words to the people of Chilton County. We see there is a call made for the Republicans of Chilton County to meet at Maplesville, Ala., on September 21st, to organize a Republican party for Chilton County. I want to say that this is only to divide the people of this county who oppose the Democratic party in our county, and let the Democrats in power in the County, so don't be deceived by any such steps. Investigate this and see if this is not the people that agitated the true Republican party so they called it four years ago and who only got about thirteen votes in the county. And then look and see if this is not the crowd that fought our ticket two years ago. A part of this crowd have never endorsed a Republican ticket that the people nominated in this county.

We have got to watch the postmasters (or one of them) for they say they have got to make a show for Mr. Taft. I am very sorry for Mr. Bice as he is going to lose the postoffice at Thorsby, but we will only get better service for the high authority of the appointing power in Chilton county have promised it to two different ones. We knew that Thorsby handled lots of mail, but did not think it advisable to have two postmasters for the same place. So one of you will get left—probably both. We want to say to the people, all we want is for you to stay with the ticket nominated in May, and you will elect the people that have always stood by you through thick and thin.

They also stand against the bond issue and if we sit still and let the Democrats in we will have it sure, for they have declared for it. We would hate to see a debt passed on our children that would hang over them for years to come. Boys, don't forget to fight our enemy, that is the Democrats. We need not fight the Maplesville crowd for they wont last long. We want to say a word to the true Republicans of this county, that we want your help in the county; if you want Mr. Taft for President, go on and vote for him and then vote for the Progressive ticket in the county. This we know you will do for we know you know a good thing when you see it. What do you people think about the partial round the resigters are aiming to make? I think it means to register them and the vote them in November whether their poll tax is paid or not. You need not decide that they are honest and quit watching them, for they will do anything to beat. We knew this from the past. If there is any one in the Progressive precincts that has not registered don't fail to register for you see they aim to register their men. And then all of you that are qualified votters go and vote in November. Don't forget the ticket we nominated in May. We will win if we will stand steady and keep fighting. Come on, all you Progressives, and do your duty. All we want is a fair and square deal! I am for the Progressives.

Yours truly,
A PROGRESSIVE.

Where He Got Them.

Mickey and Pat had been at school together, but had drifted apart in after life. They met one day, and the conversation turned on athletics. "Did you ever meet my brother Dennis?" asked Pat. "He has just won a gold medal in a Marathon race." "That's fine" said Mike. "But did I ever tell you about my uncle at Ballythomas?" Pat agreed that he could not call him to mind. "Well," continued Mike, "he's got a gold medal for five miles and one for ten miles, a silver medal for swimming, two cups for wrestling, and a lot of badges for boxing and cycling." "He must be a great athlete indade," said Pat. "You're wrong," cried Mike. "He keeps a pawnshop!"

Rope Horseshoes.

Horseshoes of rope are largely made use of in Germany and some other foreign countries, and it is said that there should be some demand in this country, on account of the character of the paving which largely prevails in this country and which is hard on the feet of the animals. The rope is sometimes reinforced with wire and sometimes it is tarred and after being cut and shaped is so cured to an iron shoe which is so cured to the animal's hoof. While its appearance is not as neat and elegant as a shoe of metal, the soft cushion of rope is very grateful on the animal's feet, and from a humane standpoint it should be more generously made use of.

Jelly Rolls.

Beat up four egg with one cupful of sugar for 20 minutes. Remove the beater and sift in two cupfuls of flour and one teaspoonful of baking powder, add four tablespoonfuls of milk and one teaspoon of lemon extract.

Mix carefully and pour into a large flat buttered and floured cake tin and bake in a hot oven for 12 minutes. Turn out on a sugared paper, spread quickly over with hot-melted jelly and roll up at once.

THORSBY.

Mr. W. H. Hitt, the State Agent for the Fraternal Order of America, is about ready to organize a Lodge with forty charter members. On his list he has many of the best people of Thorsby.

Dr. Wilson has accepted a position with the electric light company at Coosa river and left Thorsby Wednesday.

Miss Binkley, one of our former institute teachers, arrived Saturday night. Miss Finch, the music and drawing teacher, is also here.

Mrs. Spratt and her two daughters from South Carolina came last week. Mrs. Spratt has the honor of being the matron of the young ladies' dormitory this year.

Pastor Trosper will preach his farewell sermon next Sunday morning. The band will be out and play during the service. We are sad over his departure from us. May God speed him in his new field of work.

Last Sunday night the young peoples meeting was said to have been the best they have ever had. A large crowd gathered and Pastor Trosper gave a fine talk. The church was nicely decorated and the service was enjoyed by all.

The new cotton gin is now ready for work.

Charlie Reynolds was in town Monday.

THE TWINS.

ECHOES FROM THE LOMAX SINGING CONVENTION.

Editor Union-Banner.

With your kind permission I will give your readers some of the overflow of the Lomax singing on the 1st inst. The attendance was large. Dinner, O my, rich and bountiful, free to all. It was a great time with the young people. Ah! those Chilton county singings make impressions that the boys and girls will remember through life. Several singers came up from Montgomery. The memorial lesson was quite impressive. The directors in the memorial service did their part well. A hush seemed to steal over the people as Mr. Willoughby touchingly directed the service in memory of Mrs. Albert Patterson. He paid a glowing tribute to her memory. He was assisted by Mr. Jackson of Birmingham and Mr. Scott of South Chilton. The beautiful lesson directed by Miss Ida Scott was a fine feature of the convention. All parts of the convention was represented. Among the visitors we noticed Tax Collector Dennis and wife; Prof. Will T. Bean; Commissioner Shaw and wife came down from Providence. It was good to be there.

SECRETARY.

PROGRAM

For the Chilton County Baptist Sunday School Convention to Be Held at Liberty Hill Baptist Church Saturday, the 12th Day of October, 1912.

9:30 a. m. Devotional exercise, by A. L. Foshee.
9:45 a. m. Welcome Address, by Wm. Wood.
9:45 a. m. Song Service, by J. H. Franklin.
10:00 a. m. The best way to bring church members under obligation to attend Sunday School, by T. E. Williams, John Parish.
10:30 a. m. Best Teachers for Little Folks, by Prof. Session, W. H. Shaw.
11:00 a. m. Sermon by Wm. Olive.
12:00 m. Dinner.
1:30 p. m. What is the Best Plan for Teaching a Sunday School Lesson? By S. M. Adams, Wm. Olive, E. H. Parish.
2:00 p. m. What Are Some of the Duties of a Superintendent During the Week. By N. J. Calloway, John Wallace, Judge E. B. Deason.
2:30 p. m. What Are the Duties of the Superintendent During the School Session.
3:00 p. m. Miscellaneous Business. General Discussion.

All Sunday Schools are requested to send delegates, especially the schools in the Northwestern District of Chilton County. It is expected that dinner will be served on the grounds, so come with good appetites and big baskets and we will spend a good day. Preachers especially invited.

N. L. BROADHEAD, President.
MISS HATTIE DAVENPORT, Secretary.

Committee on Program.
JOHN WALLACE,
WM. WOOD,
W. Y. ATCHISON.

Device to Protect Sheep.

A device to protect sheep from the inroads of wolves, coyotes and other animals has been invented by R. C. Winchester of Thermopolis, Wyo. The machine consists of an automatic gun which will shoot a blank cartridge every thirty, forty or sixty minutes as arranged, while a bull's eye lantern is so adjusted as to revolve and flash its light in every direction. It makes more than one revolution a minute operating by means of a coiled spring and cog wheels, a sort of clockwork in fact. The mechanism is enclosed in a storm and dust proof metal case and mounted on four adjustable legs. It has a weight of twenty-five pounds so that it can be carried with the sheepman's outfit with no difficulty.

THE MARTIN TRIAL

The preliminary trial of Ed Martin charged with killing Charley Cox was continued last Saturday before Judge Deason and caused considerable excitement, the court room being well filled with interested spectators.

Upon the order of the court the body of Mr. Cox was exhumed for the purpose of ascertaining the position of the fingers of the right hand, alleged to have held a pistol. The body was taken from the grave and the hand severed and was then replaced in the grave.

Habeas corpus proceedings were instituted for the release of Martin, and Judge Pearson has granted a writ, returnable on the 27th day of September, and has appointed Judge Armistead Brown to hear the proceedings.

World's Debt to Books.

How safely we lay bare the poverty of human ignorance to books without feeling any shame. They are masters who instruct us without rod or ferule, without angry words, without clothes or money. If we come to them they are not asleep; if you ask and inquire of them they do not withdraw themselves; they do not chide you if you make mistakes; they do not laugh at you if you are ignorant.—Richard De Bury.

THORSBY ELECTION.

The city election, comprised of mayor and council, took place Monday in Thorsby. Great interest was shown in this election as many of the Thorsby people through personal enemity were very active in trying to prevent Mr. Bice from being re-elected. In spite of all efforts on their part, Mr. Bice came out victorious. At 7 o'clock in the evening it was announced that Mr. Bice had a majority of seven votes. Mr. Bice has filled the office of mayor the last two terms and has done credit to himself and the town. The business people of Thorsby have perfect confidence in Mr. Bice as a man and a mayor. He has been very successful in helping the city in a financial way, and during the last four years he has maintained perfect order on all occasions and has fought liquor to the bitter end and we are glad to have a temperance man and one who is not afraid to do his duty, no matter what the consequences are. We feel that in electing him we have secured a man true to his office and one who will promote every good cause. Mr. Bice is a thoroughly public spirited man as well as a Christian man and the next two years we expect to see many things done to make our town better and more prosperous through his administration.

May all good people help and speed him on the way.

A CITIZEN.

NOTICE OF STOCKHOLDERS MEETING.

To the stockholders of Union State Bank, a corporation organized under the laws of Alabama, and having its principal place of business at Thorsby, Alabama:

You are hereby notified that the Board of Directors of said corporation by action regularly taken on the 2nd day of September, 1912, called a special meeting of the stockholders of said corporation to meet at the banking house of said corporation in Thorsby, Alabama, on Monday the 21st day of October, 1912, at the hour of 8 o'clock a.m., for the purpose of taking action as follows, to-wit:

(A) To change the par value of the shares of the capital stock of said corporation from $100.00 per share to $60.00 per share.

(B) To reduce the authorized capital stock of said corporation to $30,000.00 divided into 500 shares of par value $60.00 each.

(C) To change the principal place of business of said corporation from Thorsby, Alabama, to Maplesville, Alabama.

Witness my hand this the 19th day of September, 1912.

GUY H. GERALD,
Cashier of said Corporation.
TIPTON MULLINS,
Attorney for said Corporation.

MT. PLEASANT

There will be an all day singing at Mt. Pleasant on the fourth Sunday in September, the 22d. Everybody is cordially invited to come with a well-filled basket and let us enjoy ourselves singing praises to God.

G. W. MELTON.

SEED OATS.

Why send to Texas for seed oats when you can get better oats here. For select Appler Rust Proof home grown oats see or write J. N. Deadis, Clanton.

TWO MORE TESTIFY FOR DR. J. V. HIGGINS.

Calera, Ala., Route No. 1
Dr. J. V. Higgins, Clanton, Ala.
Dear Doctor:

My glasses are just fine, I would not do without them for anything. I certainly will recommend you to others.

Yours truly,
J. R. CRAMSON.

Thorsby, Ala., Route No. 1

Miss Olive Foshee was fitted with a fine pair of glasses and a few months later thought she was probably not fitted correctly and went to Birmingham to a doctor and the Birmingham doctor told her that she had the right prescription over her eyes, and her father, Mr. Fate Foshee was nice enough to call in my office and give in the above statement as a testimony and I sure want to extend my sincere thanks to Mr. Foshee and Mr. Crawson for recommending my work on eyes, for you know there is so many patients that I never hear from unless some thing happens to the frames or a lens get a little out of true, etc., and lines them a little trouble then of course they come at me with both feet ready to jump right into me, see.

The above, Mr. Crawson is 52 years old and has never been suited with a pair of glasses before and has several of these here cheap specks for 50c to $2,50. He paid me $10.00 for his glasses.

The Miss Foshee has a $12.50 pair of fine ground glasses. She came to me suffering with severe headaches. Now ask her or her people if she regrets her money she paid me for the glasses.

Now please dont let the above prices run you away from buying glasses from me, I keep plenty of glasses at 50c a pair and up to sell where people love money better than they do their health. I will appreciate your patronage whetner you want to buy you some cheap glasses or if you desire to have your eyes examined and treated with fine ground eye glasses.

Suppose you call in and talk to me about your eyes it wont cost you a cent.

Yours truly,
Dr. J. V. HIGGINS.

Nothing on Him.

First Chicago Child—"My father is connected with some of the best families in town." Second Chicago Child—"Pooh! That's nothing. My father is separated from three of them."—Life.

PROGRAM.

Program for 5th Sunday meeting of Chilton county and Unity associations, at Bethsalem church, September 27-28-29, 1912.

Friday.

11:15 a. m.—Sermon, F. M. Woods.
Dinner.
1:45 p. m.—The outlook for the future in Chilton county and Unity associations, P. G. Maness and W. J. Reddick.
Adjournment.

All pastors and ministers in Chilton and Autauga counties invited, together with representatives from the churches.

F. M. WOODS,
W. J. REDDICK,
J. N. BILLINGSLEY.

WANTED AND FOR SALE.

STRAYED from my place one Black Cow on August 31st. Any information will be appreciated.
JACK PARKER,
Clanton, Route 4.

Farm for Sale—94 acres, 25 acres in cultivation one and half miles south of Coopers, good 5 roomed house and outbuildings. Fine well of water. Apply to George Moore, Cooper, Ala.

FOR SALE—One pair Mules, weight 1250 pounds each; 6 years old. Will work anywhere. Will sell cheap. For further information apply to J. F. Blankenship, Jemison, Ala.

WORK WANTED by a practical mechanic, repairing and overhauling Organs. Write or send to J. P. Wilson, Clanton Ala., R. 3. 8-22-3mos

Take HERBINE for all disturbances in the bowels. It purifies the bowel channels, promotes regular movements and makes you feel bright, vigorous and cheerful. Price 50c. Sold by Upchurch Drug Co.

NOTICE.

I forbid anybody from feeding or sheltering my boy, Arron Hardy, who has left my home.
MRS. LILLAR HARDY,
Cooper, Ala.

FOR SALE—160 acres of land, ready for cultivation, four miles west of Jemison. For further information apply to J. B. Killingsworth, Calera, Ala.
6months

Few, if any, medicines, have met with the uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea which it has effected in almost every neighborhood have given it a wide reputation. For sale by Alred Drug Co.

FOR SALE.

Six Good Milk Cows and a Seperator.
E. N. DYRHOWD,
Thorsby, Ala.

NO OTHER STOVE DOES THIS

Cole's Hot Blast Heater maintains a continuous fire; also a steady, even heat. It will hold fire from Saturday night until Monday morning (48 hours). It will hold fire over night with less coal than any other stove. Open the drafts in the morning and the rooms are quickly heated with the coal put in the night before. Come in and examine Cole's Original Hot Blast Heater. Price $12.00 and up, according to size. (R-11)

COUNTY EDUCATIONAL BOARD

The County Educational board of Chilton County will be in session at Clanton on the first Friday in October, November and December, 1912, and first Friday in January, 1913.

Wm. J. Billingsley, Chairman.
J. C. Veazey, Secretary.

When you have an achey, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malarial germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 50c. Sold by Upchurch Drug Co.

MINISTERS' CONFERENCE.

The Ministers' Conference at Sardis church has been called off, but there will be an all-day service there on Saturday before the fourth Sunday in September. The following program has been arranged:

9: 45 a. m. Devotional service, Rev. J. D. Deason.
10: 00 a. m. how do I understand I Cor. 19: I and 2.
11: 00 a. m. Sermon by Rev. W. M. Olive. Dismiss for dinner.
2: 00 p. m. The best method for disciplining the church. Rev. I. Pice.
2:45 p.m. The duty of Baptists to teach their distinctive principles, Rev. F. M. Woods.

T. J. DEASON.

Yellow complexion, pimples and disfiguring blemishes on the face or body can be gotten rid of by doctoring the liver, which is torpid. HERBINE is a powerful liver corrector. It purifies the system, stimulates the vital organs and puts the body in fine vigorous condition. Price 50c. Sold by Upchurch Drug Co.

MAYOR GAYNOR REFUSES TO ANSWER

NEW YORK'S MAYOR ANGRY WITNESS BEFORE ALDERMEN.

ANSWERED FEW QUESTIONS

Lost Temper Time and Again Under Cross-Questioning of Attorney. Expresses Renewed Confidence in Waldo.

New York.—For more than two hours William J. Gaynor, mayor of New York, sat in a witness chair and parried with picturesque retort and evasion the attempts of counsel for an aldermanic committee to learn his views on the police situation brought to a head by the murder of the gambler, Herman Rosenthal.

Three times he threatened to leave the stand because he considered the questions irrelevant, twice he denounced the hearing as a scandal-mongering excursion and often throughout his testimony he repeated that attempts to "scandalize" him would be in vain, for he said he had lived in the city too long and begun his efforts to purify government long before Emory R. Buckner, ocunsel for the committee, was born.

At no time during his examination would he admit that the police department was inefficient in Rhinelander Waldo, commissioner of police, and declared that, if the social evil flourished, it was at least on the decrease and was a lesser evil than police blackmail, which he had tried to eradicate.

Nine out of every ten questions asked by Mr. Buckner remained unanswered. The mayor had formed no opinions, he said, and had not come to tell his opinions, anyway. If he were asked about facts or about any instances wherein the police department had violated the law, he was ready to answer.

Though the mayor lost his temper time and again and protested to Mr. Buckner that he was asking foolish questions, the young lawyer kept at his task patiently, unruffled by the rebuffs. The crowd, which jammed the aldermanic chamber until standing room only remained, frequently broke into applause at the mayor's retorts.

UNPRECEDENTED CROPS

Cereals Will Reach Enormous Total of 133,016,000 Tons.

Washington.—The cereal crops of the country from present indications will reach the unprecedented total production of 133,016,000 tons, according to Victor Olmstead, chief of the department of agriculture bureau of statistics. With record-breaking crops of corn, spring wheat, oats, barley, rye and buckwheat, the year's harvests will be 20.3 per cent greater in weight than last year's production, 6.1 per cent greater than the big year of 1910 and 16.2 per cent greater than that of 1909.

Prospects for the record-breaking potato crop indicate it will be 36 per cent more than last year, when the crop was very short, 14 per cent more than in 1910 and 2 per cent more than in 1909, when the previous record production was harvested.

TROUBLE IN SANTO DOMINGO

Fresh Revolution Reported as Threatening Interests.

Washington.—American warships will probably be sent at once to Santo Domingo, as the result of a revolution that has broken out there, and the seizure of the customs houses by the rebels. Invasion of the republic by American forces also may be necessary, for advices reaching the state department late today were to the effect that the revolutionists had seized the Dominican-Haitien frontier, which are under American supervision.

The action of the rebels is puzzling the state department officials. In past revolutions the leaders have carefully avoided interfering with the customs houses, since thus they would invite action by the United States. Their high-handed methods now, it is feared, indicates that no foreign property is safe.

Damage by Caterpillar.

Washington.—The department of agriculture received a report showing that 15,000 to 20,000 acres of cotton in Arkansas have been damaged by the cotton caterpillar, money cost not estimated. The department is using all the means at its disposal to meet the emergency caused by the great destruction of crops in the South by the caterpillar and by the army worm.

Georgia Mob Kills Negro.

Cummings, Ga.—Ed Collins, a negro, who, it is said, helped hide the body of a young white woman after she had been murdered, was shot to death while in jail here by a mob. His body was mutilated with a crowbar, after which a rope was placed about the neck and the body dragged to the town square, where it was strung up to a telegraph pole.

Washington.—The revolution in Nicaragua is on the wane, according to advices from Rear Admiral Southerland to the navy department.

$60,000,000 for Ads.

Chicago.—Sixty million dollars was spent in the United States last year for advertising novelties, an increase of 25 per cent over the previous year, according to statements made at the opening session of the National Association of Advertising Novelty Manufacturers.

$1,000 for Plague Cure.

Topeka, Kas.—A reward of $1,000 to any one who can perfect a cure for the plague that has killed several thousand horses in Kansas has been offered by Gov. Stubbs.

CROP DETERIORATED ALL OVER THE BELT

PRACTICALLY NO CHANCE FOR TOP CROP IS LEFT.

SHEDDING HAS BEEN HEAVY

Oklahoma and Northern Texas May Make Late Crop, but All Late Cotton in Danger of Frost. Texas Yield Good.

Memphis.—The cotton crop deteriorated heavily over practically the entire belt during the week. The hot, dry weather has caused a cessation of growth and fruitage—save in a few scattered lowlands—over all the belt, except in Oklahoma and Northern Texas. Rains served to check deterioration somewhat in some sections, but the damage had already been done and could not be remedied.

East of the river the crop is made, except in some lowlands in Mississippi and Tennessee and to a lesser extent in Alabama and South Carolina. The late crop on these lands is in danger from a frost of average date, which renders the final yield of even the small portion of the top crop that holds forth any promise a matter of speculation. The middle and bottom crops are not so heavy, owing to heavy shedding of squares and young bolls, as last year. Boll weevil have destroyed any hope of top crop in Southern Mississippi. Premature opening caused by the heat is causing complaint of short staple.

West of the river about the same conditions as those east of the river prevail in Arkansas and Louisiana. In Oklahoma and Northern Texas the crop deteriorated heavily, but the plant was heavily fruited, and with favorable weather there is a chance for recuperation and a fair yield of the late crop. Bottom and middle crops in these sections of the belt are heavy and are yielding satisfactorily.

ANOTHER AVIATOR KILLED

Tragedy Results From Race in the Air at Chicago Meeting.

Chicago.—Colliding in midair with a swiftly moving monoplane driven by George Mestach, Howard Gill, one of the most brilliant aviators of the Wright school, was dashed to the ground at the Cicero flying field and so teribly crushed that he died on the way to St. Anthony de Padua Hospital.

By almost marvelous quick wit, Mestach depressed the head of his machine and, though he crashed to the ground a second or two later, he escaped with severe cuts and bruises on the face and head. Suffering more from shock than his bodily injuries, he was taken to the same hospital.

AN EDITOR MURDERED

Lured to Lonely Spot and Shot From Ambush.

Guthrie, Okla.—Frank Merrick, a prominent newspaper man and editor of the Guthrie Leader, was lured to a sparsely settled portion of the city by a telephone call, and on his arrival at the rendezvous was shot and almost instantly killed by an unknown party, who escaped.

Merrick answered a telephone call requesting him to come immediately to the corner of Third and Harrison avenues. On his arrival there he was shot at five times from ambush, three of the shots taking effect.

About one year ago Merrick killed a negro here, and it is believed that the crime was prompted by a spirit of revenge and was committed by a negro, who, it is said has been following Merrick for some time.

Revenue Cutter Wrecked.

Pensacola, Fla.—The worst storm experienced in this section since the memorable hurricane of September, 1906, swept Pensacola's water front Saturday night, doing thousands of dollars' damage in the shipping interests. The United States revenue cutter Penrose is a total wreck, and a number of other vessels were seriously damaged.

Aliens Captured.

Cincinnati, O.—Handcuffed, guarded by three stalwart detectives, and accompanied by the girl who gave the police the clew to their hiding place, Sidna Allen and his nephew, Wesley Edwards, who took part in the shooting up of the court at Hillsville, Va., on March 14 last, arrived here Saturday from Des Moines, on their way back to the scene of the crime.

Ward Kills Man.

Waxahachie, Tex.—A word whispered to him in a moment of intense suspense killed Andy Ellis, a butcher, aged about 40 years.

Ellis and a deputy sheriff were lying in wait for cowhide thieves at a slaughter pen here. Both were peering through the darkness, when the deputy at Ellis' side whispered: "Be quiet, I think I hear them coming."

Ellis stiffened, and then with hardly a sigh, dropped to the ground and died almost instantly.

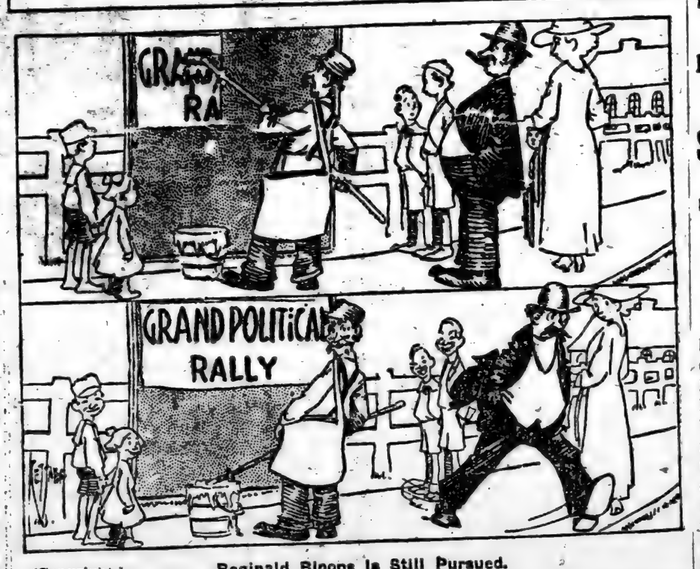
Negro Odd Fellows' Row.

Atlanta, Ga.—Police interference in the national convention of negro Odd Fellows prevented scenes of the delegates from mixing in a free-for-all fight over the election of a grand master. The convention adjourned for sixty days without a master being chosen.

Cuban Situation Bad.

Washington.—Conditions in Cuba are far from satisfactory to the state department, and it is intimated that the United States might indirectly, at least, supervise the coming election.

POLITICS! POLITICS!



(Copyright.) Reginald Bloops Is Still Pursued.

MOTORS COMPANY NEAR BANKRUPTCY

COLLAPSE OF $42,500,000 CORPORATION SCANDAL.

WEALTH WAS BEHIND IT

George W. Perkins Is Reported to Have Inspired the Amalgamation—Unfortunate Stockholders May Not Get a Cent.

New York.—It was learned from inside sources that the United States Motors Company, a $42,500,000 corporation, will be thrown into bankruptcy. The collapse of this project forms one of the worst scandals in Wall street finance. Some of the most influential banking houses in the United States were behind the formation of the combination in 1910, and the public was completely misled concerning the stability of the concern.

George W. Perkins was reputed to be one of the inspirators of the amalgamation, while Morgan institutions have figured prominently in its financing.

Last year the prefered stock sold above $80 per share, whereas now it has collapsed to only $6.25. The common stock last year went to $42 per share; it was quoted at only $1 bid.

Last fall the issue of $6,000,000 bonds was disposed of at 92, notwithstanding that the condition of the company must have been known to the insiders. Even then, however, many investors fought shy of the offering and the underwriting syndicate headed by Eugene Meyer, Jr., & Co., was left with a large part of it on their hands.

As late as Dec. 1 President Briscoe, in his annual report to stockholders, made this statement:

"Prospects for the company's business during the coming year are exceedingly bright."

Yet within six months financial difficulties were encounterd to such a degree that creditors were asked to grant an extension of ninety days. The embarrassment of the company so soon after issue of $6,000,000 bonds took the financial community by surprise. It is hinted that certain banking institutions scurried to cover the moment the treasury was put in possession of cash and later refused to supply fresh credit.

STANDARD NOT DISSOLVED

Federal Government Is Powerless, Says Counsel Mayer.

Chicago.—"The Standard Oil Company has not been dissolved. The federal government can not dissolve the corporation, because a dissolution must come from the state which gave it its charter," said Levy Mayer, counsel for the Standard Oil Company and the Corn Products Refining Company.

The statement was made in arguments in the suit of George F. Harding before Federal Judge Ferdinand A. Geiger. Attorney Mayer explained that while the properties of the Standard have been dissolved in accordance with the decree of the United States Supreme Court, technically there has not been and could not be a dissolution of the corporation itself.

COTTON PICKERS ARE SCARCE

Texas Has Largest Cotton Crop in Five Years, With Staple Opening Rapidly.

Fort Worth, Texas.—With the largest cotton crop Texas has had for five years, farmers are now alarmed over the scarcity of pickers.

At least 50,00 more are needed in the state than are at present in the fields, and there is little prospect of getting many more, notwithstanding the fact that 5,000 Mexicans crossed the line within the last two weeks to pick cotton.

County Seat by Force.

Pine Knot, Ky.—Two hundred men from Whitley came here and threatened violence against the county board of commissioners if that body does not certify in favor of Whitley as against Pine Knot in the county seat election. According to a report, the Whitley citizens have threatened to shoot up the town and carry the ballot box off by force if the board's decision is not in their favor. All the ballots are not yet in the possession of the board of supervisors.

NOGI AND HIS WIFE KILL THEMSELVES

JAPANESE TRADITION EXACTS THE LIFE OF HER BRAVEST SOLDIER.

FELL ON THEIR SWORDS

Suicide Followed Conclusion of Emperor's Burial Rites—No Attempt to Prevent Tragedy Was Made.

Tokio.—Gen. Count Marezunk Nogi, supreme military councillor of the empire, and his wife, the Countess Nogi, committed suicide Friday in accordance with the ancient Japanese custom as a final tribute to their departed emperor and friend, Mutsuhito.

The death by their own hands of the famous general and his wife was as dramatis as it was sad. The general cut his throat with a short sword and the countess committed hari-kari.

Following the Samural custom, the couple had carefully prepared their plans for killing themselves, and timed them so that they would be coincident with the departure forever from Tokio of the dead emperor.

Gen. Nogi and the countess had attended the funeral services of Mutsuhito at the palace.

First the general wrote a letter to the new emperor, Yoshihito, which later was found beside his body. Then he draped in mourning a portrait of the late emperor, which hung on the wall, and afterward he and his wife dressed themselves in full Japanese costume and drank a farewell cup of sake from cups which had been presented to the general by Mutsuhito.

Darkness had fallen and Gen. Nogi and the countess sat and awaited the signal they had agreed upon to announce their leave taking. This was the booming of a single gun in the palace grounds at Tokio, which was to let the people know that the body of the emperor was starting on the funeral car for its last resting place.

As the boom of the gun resounded through the still, clear night, Gen. Nogi arose, and, grasping in his hand a short sword, plunged it into his throat, while the countess stabbed herself through the body. A student who resided in the Nogi home heard the fall of the bodies and rushed into the room. Lying upon the floor were the hero of Port Arthur and his wife.

Sold Home to Visit Son.

San Francisco, Cal.—After mortgaging his home in Nashville, so that he might come to San Francisco and join a son due to arrive here on the transport Logan from Manilla, William H. Greer, an aged man, reached the transport dock this afternoon to find his son, J. W. Greer, embalmed in a casket. He had died of fever on his way to this city. The aged father was overcome with grief and had to be led away by people on the dock.

Women Tar and Feather Girl.

Norwalk, O.—A young girl of Clarksfield, O., was the victim of eight married women, dressed as men, who on Sunday night induced the girl to take a walk and then tarred and feathered her. The girl heeded their warning and disappeared. She was charged with flirting.

Has Made No Move.

Washington.—While there is a disposition to assist in every proper way the restoration of peace between Italy and Turkey, officials of the state department were obliged to confess that so far the United States has made no move whatever in that direction. If any American officials, or individuals, have used their good offices to bring Italy and Turkey into a position where they might at least be induced to listen to overtures for peace, that has been done informally.

Kill Another American.

Douglas, Ariz.—The thirty-fifth American to be killed by Mexican rebels within the past three months met death while attempting to escape from the insurrecto infested country around Colonia Morelos. The victim was Edward Hapiman.

Chase Diaz, Miss Madero.

Mexico City.—The name of Madero was hissed here in the chamber of deputies and that of Diaz was cheered by an crowd that packed the galleries.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

Sidna Allen, the leader of the Allen clan which shot up the Carroll county court house at Hillsville, Va., March 14, this year, killing Judge Massie and others, and his nephew, Wesley Edwards are manacled as a result of love affairs which led detectives to them. Edwards, for the love of whom Miss Maude Iroler of Mount Airy, N. C., had innocently led detectives to DesMoines, Iowa, was captured as he was returning to his boarding house. The arrest of Sidna Allen was effected earlier.

Molt Hughes, a citizen of the Rock Creek district, Fannin county, Georgia, was brutally murdered in the presence of his wife and their little child, which Mrs. Hughes held in her arms, so injured that it is not expected to live. An attempt had been made to kill Hughes previously, but only a part of a load of shot struck him in the hip, doing no serious injury. He was aroused, called to his door and shot, the ball entering his neck under the chin. He fell outside the door and was attempting to crawl back into the house when the three men dragged him back into the yard and shot him twice more.

Gen. W. W. Gordon of Savannah, brigadier general commanding second brigade, first division of the Fourth army corps, United States volunteers in the Spanish-American war, and a Confederate veteran, is dead at White Sulphur Springs, Va., according to a message received in Savannah.

In the trial of Victor Allen for the alleged participation in the Hillsville courthouse murders, in Virginia, Judge Staples had Floyd and Claude Allen, who were found guilty of first degree murder on the same charge, brought into court and passed sentence of death upon them, fixing November 22 as the date of execution.

General.

"Gyp the Blood" and "Lefty Louie, the missing gunmen indicted as two of the actual slayers of Herman Rosenthal, the gambler, were found by the police living with their wives in a flat in the Brownsville section of Brooklyn. They were arrested by Deputy Police Commissioner Dougherty and a squad of detectives who brought them to police headquarters and locked them up. They were sitting at ten when Deputy Commissioner Dougherty and his men burst open the door of their apartment, and, with revolvers drawn, ordered them to hold up their hands.

Three persons were killed and fifty injured by a tornado, which worked a ten-mile trail of destruction across the northern part of Onondaga county. The property loss is estimated at $250,000. Without any warning of its approach, the black, funnel-shaped cloud first appeared near Long Branch, N. Y., a pleasure resort, ten miles from Syracuse. About four hundred persons were there and a panic followed when building after building toppled over and two massive interurban trolley cars were hurled into a ditch.

The Panama canal is to be opened to trafic in the fall of 1913. This statement was made officially at the navy department with an announcement that the Atlantic fleet would be rendezvoused at Colon this winter before the water is turned in. The navy's estimate is based upon the latest report from the army engineers.

General Count Marosunke Nogi, supreme military counsellor of the empire, and his wife, the Countess Nogi, committed suicide in accordance with the ancient custom of Japan, as a final tribute to their departed emperor and friend, Mutsuhito. The death by their own hands of the famous general and his wife was as dramatic as it was sad. The general cut his throat with a short sword, and the countess committed hari-kari (that is, stabbed herself through the body).

Aviator Paul Peck of Washington, D. C., holder of the American duration flight record, was killed by a fall with a biplane while flying in a gusty wind at Chicago. He attempted too steep a spiral, and when he struck the ground the heavy engine crashed through the wreckage, striking him.

Reasonableness of telegraph and cable rates were attacked by William N. Wilks & Co., New York, in a complaint against the Western Union Telegraph company to the interstate commerce commission.

Judge Grubb of Birmingham enjoined the Alabama commission from enforcing express rates on fish shippers.

"Robespierre" is to be the slogan of the dressmakers this winter, according to the latest Parish advices. The new fashions, it is decreed, are all to be modeled on the costumes which were in vogue during the horrible reign of terror.

Uncovered by a dredge used in keeping the Savannah river channel clear just below the city of Savannah, Ga., is the frame of a very old ship, thought to be either a slave ship or an old Spanish pirate.

STATE BRIEFS.

Birmingham.—"I look for pig iron to go to $14, probably $14.50 or higher, before October. The market is the strongest in years and has every 'ear-mark' of continued strength."

Such was the opinion of a high official of one of he largest iron producers in the Birmingham district.

Numbers of large orders have been placed among local producers during the past few weeks. In fact, ever since the jump from $11.50 to the present quotation, $13.50, began, there has been not only a place for every ton of iron produced, but furnaces have been taxed to meet demand for future deliveries.

Several large foreign sales have been made also, among these a number of shipments to Geona, Italy.

Huntsville.—The committee on education of the chamber of commerce has been instructed by that organization to make arrangements for the celebration of the hundredth anniversary of Green academy, which was established in this city in November, 1812. Green academy was the first educational institution to be established in north Alabama and it was the second institution in territory which seven years later became a state.

Montgomery.—A campaign of education in Alabama to bring farmers to a realization of what he thinks is the injustice of the 6 per cent tare charged on American cotton is the plan of Commissioner Reuben F. Kolb, of the department of agriculture. Captain Kolb desires Alabama to follow the lead of Georgia to send delegates to a meeting of agricultural commissioners of the United States, soon to be held in Raleigh, N. C., with a petition to bring about an elimination or standardization of the tare in international cotton traffic. Because of the charge, the commissioner says, $20,000,000 annually are lost to Alabama farmers.

Huntsville.—Petitions have been in circulation in several precincts of Madison county during the last few days requesting the county commissioners to call elections for the purpose of allowing the voters to vote on a stock law. The commissioners have called a special meeting for September 25 when all of these petitions will be inspected and if they contain the names of 25 per cent of the qualified voters in each precinct, the elections will be called.

Maplesville.—The Southern Railway company announced that contract had been let for the construction of a combination depot, cotton platform and track changes here, the work to start at once. On account of proper location being unavailable, the original plan of building a joint depot with the Mobile and Ohio railroad has to be abandoned. Plans for the new depot have been approved by the Alabama commission.

Decatur.—Maj. W. R. Francis resigned as notary public and pension examiner. Major Francis was recently elected one of the democratic electors from the state, and under the law he could hold no public office, hence his resignation as pension examiner and notary public. A. M. Irons has been appointed notary public, vice Major Francis, and Dr. W. H. Long has been appointed pension examiner, vice Major Francis.

Decatur.—"Boost the Decaturs! 50,000 in 1920." This is the slogan on a button which is being worn by almost every citizen of the two Decaturs. The button is a dark red with white letters. It is being given away by the Development company, the businessmen's organization of the two Decaturs.

Selma.—E. R. Glass, a well known and wealthy resident of Uniontown and owner of the Farmers' Cotton Seed Oil mill of that place, was caught in the machinery of the plant and torn to pieces. Death was instantaneous. Mr. Glass for years past has acted as his own engineer during the season the mill was in operation.

Fort Payne.—N. T. Hawkins, tax assessor for DeKalb county, completed the tax books for 1912, including the extensions and the raises of the board of county commissioners on the additional assessments made by S. Boyd Lloyd, county tax commissioner. The total value of real estate is $9,[illegible]538; of personal property, $3,[illegible] total for both real and personal, $[illegible]076,305. The total tax on this amount for DeKalb county is $71,052.37, showing a gain of about $10,000 in taxes over last year.

Montgomery.—At a special meeting in Montgomery, the committee of the Alabama Conference executive committee accepted the resignation of the Rev. W. Long, of Jacksonville, the superintendent of the state, and elected as his successor B. M. Glenn, of Montgomery.

Marion.—Congressman O. W. Underwood has accepted an invitation from the Marion Wilson-Marshall club to deliver an address of the event here [illegible]

Lemonade Ginger Punch.

Five lemons, one cupful of sugar, one cupful of boiling water, ginger ale, fresh mint, cold water, one-half heaping teaspoonful of gelatin. Wash the lemons and slice them; then sprinkle over the sugar. Let stand for 30 minutes, and then add one quart of cold water. Dissolve the gelatine in the boiling water and add it to the lemon mixture. Pour the whole into a punch bowl and add the ginger ale, allowing one quart of ginger ale for each quart of the other liquid. Half an hour before serving add a few stems of fresh mint.

Preserved Cherries.

Stone the cherries, preserving every drop of juice. Weigh the fruit, allowing pound for pound for sugar. Put a layer of fruit for one of sugar until all is used up; pour over the juice and boil gently until the syrup begins to thicken. The short-stemmed cherries or the Morellas are the best for preserves. Sweet cherries will not do.

Nice Fruit Cookies.

Two cups of brown sugar; one cup butter; three eggs; one level teaspoonful of soda dissolved in five tablespoons of sweet milk; one teaspoonful each of cloves, cinnamon, allspice, and nutmeg. Three cups flour; one cup chopped raisins. Drop from a spoon in a pan and bake.

DIZZINESS—DO YOU HAVE IT?

This is caused by the bile being reabsorbed into the circulation. To get rid of this trouble it is necessary to use a good liver medicine to eliminate the surplus bile from the system. St. Joseph's Liver Regulator either liquid or powders does this to perfection. Use it for all bilious troubles and you will soon feel better. Accept no substitute, but insist on having the genuine St. Joseph's Liver Regulator. Druggists and dealers, sell it liquid, 50 cents a bottle; powders, in tin boxes, 25 cents a box, five boxes for a dollar.

PROPERTY OF THE WORLD

Political Status of Spitzbergen Fixed by a Conference of the Powers Interested.

Spitzbergen has always been "No Man's Land." Its political status has at length been fixed in the most general terms, for hereafter it is to be the land of every nation that is sufficiently interested to contribute a small assessment for the maintenance of some semblance of law and order there.

This is the outcome of the series of conferences between Russia, Sweden and Norway that has dragged along for several years. The three nations based their claims to the archipelago upon the exploratory work they had done. Nothing came of all their talk. Having fully agreed to disagree, they have met again at Christiania and evolved a remarkable compromise. They have signed a convention under which Spitzbergen is to be neutral territory open to all nations, with a government administered by a joint board composed of one representative of each of the contracting powers. The board will levy such taxes as are permitted by the interested governments.

Nobody seemed to want these islands until 1905, when it began to look as though the British flag would fly above the glaciers. Fifty Britons landed, began to mine coal, and have kept the industry thriving ever since. Then Russia and Scandinavia began to feel paternal and delved in their archives for the records of their own pioneer explorers.

Strategy of a Wasp.

A mud wasp was seen to alight within an inch or two of a spider's nest on the side opposite the opening, says an exchange. Creeping around toward the entrance to the nest, the wasp stopped a little short of it and for a moment remained perfectly quiet. Then, reaching out one of its antennae, he wriggled it before the opening. A moment later he withdrew the "feeler." This overture had the desired effect, inasmuch as the head of the household, a big spider, came out to see what was wrong and to set it to rights.

No sooner had the spider emerged to that point at which it was at the worst disadvantage than the wasp, with a quick movement, thrust its sting into the body of its foe, killing it easily and almost instantly.

The experiment was repeated by the wasp, and when there was no response from the inside he evidently became satisfied that he held the fort. At all events, he proceeded to enter the nest and slaughter the young spiders, which were lugged off one at a time.

Wilkes Land Now Defined.

The existence of Wilkes land has always been an open question and in many of the geographical works reference to it has been omitted or at least questioned. One of the results of the Mawson expedition to the south polar regions has been to settle this matter beyond all doubt. Two parties were landed on this questioned land, one about 1,200 miles north from the other. These parties, and a third one, which was landed on Macquerie's island, will be relieved during the next southern summer, and upon their arrival there will be some valuable and authentic information about the land which has been the subject of discussion for 75 years.

An Escape.

"It's useless to urge me to marry you. When I say no I mean no." "Always?" "Invariably." "And can nothing ever break your determination when once you make up your mind?" "Absolutely nothing." "Well, I wouldn't care to marry a girl like that, anyhow."—Boston Transcript.

Finds Cure for Epilepsy After Years of Suffering

"My daughter was afflicted with epileptic fits for three years, the attacks coming every few weeks. We employed several doctors but they did her no good. About a year ago we heard of Dr. Miles' Nervine, and it certainly has proved a blessing to our little girl. She is now apparently cured and is enjoying the best of health. It is over a year since she has had a fit. We cannot speak too highly of Dr. Miles' Nervine."
MRS. FRANK ANDERSON.
Comfrey, Minn.

Thousands of children in the United States who are suffering from attacks of epilepsy are a burden and sorrow to their parents, who would give anything to restore health to the sufferers.

Dr. Miles' Nervine

is one of the best remedies known for this affliction. It has proven beneficial in thousands of cases and those who have used it have the greatest faith in it. It is not a "cure-all," but a reliable remedy for nervous diseases. You need not hesitate to give it a trial.

Sold by all Druggists. If the first bottle fails to benefit your money is returned.

AUTO IS WRECKED BY RABBIT

Animal Attracted by Lights of the Machine Gets Entangled in the Steering Gear.

Dover, Colo.—A jack rabbit which became entangled in the steering gear of an automobile belonging to W. L. Lidessy, who came here from Iowa, caused the machine to run into a fence, throwing the members of the party from the car, and damaging the automobile. The animal was attracted by the lights of the automobile.

Mrs. J. N. Hill, Homer, Ga., has used Foley's Honey and Tar Compound for years, and says she always recommends it to her friends. "It never fails to cure our coughs and colds and prevents croup. We have five children and always give them Foley's Honey and Tar Compound for a cold, and they are all soon well. We would not be without it in our house." Upchurch Drug Co.

FOR VICE-PRESIDENT
HIRAM W. JOHNSON
of California

TAX ASSESSOR
J. N. Dennis.

TAX COLLECTOR
J. D. Collins

TREASURER
J. Wiley Littlejohn

COUNTY SUPT. ED.
W. T. Bean

COM. FOURTH DISTRICT
Moses Robinson

COM. THIRD DISTRICT
W. T. Herrod

CORONER
G. O. Foshee.

For the benefit of all voters entitled to register The Union-Banner will state that the board of registrars will be in Clanton on September 23, 24, 25, 26, 27, and 28, 1912, for the purpose of registering all qualified voters from any precinct in the county. If you have not already registered, and are duly qualified, this will be your opportunity. Do not neglect it.

On good authority we are assured that on Saturday, September 28, the Hon. Theodore Roosevelt, nominee of the Progressive Party for President, will make an address to the people of Chilton county at Clanton, about 10 o'clock in the morning, stopping on the way from Montgomery to Birmingham. That a large crowd will gather to hear this best known speaker in the United States today goes without saying, and that he will receive a hearty welcome, and as soon as definite arrangements are concluded notice will be given.

The Progressive Party leaders with headquarters in Birmingham, are determined to give the Democratic party in Alabama the hardest fight for control that has been waged in this state for many years, and to that end they are encouraging the organization of the Progressives in every county in the state.

The northern white counties are already well organized and the emblem of the bull moose is seen more frequently on the coats of the voters than both the Wilson and the Taft buttons combined. Polls of meetings and straw ballots taken various parts of the state lead to the belief that Roosevelt will either carry the state or come nearer to it than any candidate for the presidency other than a democrat since the days of republican nomination through the negro vote.

Well to Learn Our Parts.

All through life we have to act; so the sooner we learn some of the parts that will fall to us—here, modest helper, accepted or rejected lover—the better we shall conduct ourselves.

The Central Alabama Fair which will be held in Selma during the week commencing Sep. 30th will have a new feature which will be of great interest to the farmers of this section, and they will all find that it will be well worth a visit to the fair to see this one demonstration. It is advertised as a demonstration of farming implements and machinery, but this does not convey to the average person the full extent of the exhibition. Government experts are all advising deep plowing and the Fair Management has secured several exhibits of traction plows and other high power implements and these will be shown on the grounds in active operation. Practical demonstrators will be in charge and explain the workings of the various machines.

All the other features will be up to a high standard and a big time is promised all visitors.

MONTGOMERY EXPOSITION.

The Poultry Exhibit at the coming Exposition in Montgomery is under the direction of the Dixie Poultry Association and Robert West, Sec'y and Treas., residing in Montgomery, is in daily receipt of requests for applications for entry blanks from exhibitors. Alabama is behind many of her sister states in general interest in poultry raising and the hope of the Exposition management is she shall put on new life through the stimulus of the October Exposition. Mr. West reports that there will be exhibits from Mississippi, Florida, Kentucky, Georgia and Tennessee, besides the best showing of Alabama Poultry ever seen in the previous history of Fairs and Expositions. The premiums of this year are superior to those offered in the past, and not only pride, but cupidity has been stirred by the contests to be settled by D. M. Owen' of Athens, Tenn., official judge of the Dixie Association. White barred and buff Plymouths; white, silver and buff wyandottes; Rhode Island Reds buff, black and white Orpingtons; every variety of Langshans, Brahamas, Leghorns Minorcas, Bantams and Game chickens will be in the classifications. Larger poultry, such as turkeys, ducks, geese and so on will have their place as well as pigeons and other birds.

WOMAN WORKS IN OVERALLS

Owner of Grocery of Butte, Mont., Shows Independence of Union Labor.

Butte, Mont.—Declaring that not a dollar of hers ever should go to union labor, Miss Elizabeth O'Boyle, proprietress of a grocery store here, donned overalls and completed the carpentry work on her store, made necessary by damage by fire. A crowd of union men looked on and jeered from a safe distance.

Miss O'Boyle's store had been picketed by unionists because she kept open after 6 o'clock, but she secured an injunction some weeks ago restraining the union from interfering further with her business.

Her store was damaged by fire and the insurance adjusters gave the repair work to union carpenters. When they appeared for work Miss O'Boyle drove them off with a gun and did the work herself.

Apple Fluff.

Two cupfuls of grated sour apples, five tablespoonfuls of powdered sugar, a quarter of a teaspoonful of grated nutmeg and three whites of eggs. Add the sugar to the apples while grating them, then add the nutmeg and the whites, stiffly beaten. Beat thoroughly for ten minutes. Serve in dainty glasses.

Rhubarb Jam.

To six pounds of rhubarb add six pounds of sugar and six large lemons. Cut the rhubarb in small pieces. Slice the lemons very thin. Put the fruit in a large bowl and cover with the sugar, letting it stand for 24 hours. Boil for about three-quarters of an hour. Do not stir more than is necessary, as its great beauty is not being all broken up. Put in glasses and cover with paper.

Appeal for Alms at Wedding.

There are many customs associated with the French wedding which American brides might copy. One concerns the duties of the maids of honor. An American who attended a fashionable wedding in the Madeleine in Paris recently was impressed with the following little ceremony:

The maids passed through the assembly of guests making a silent appeal for alms for the poor. At a wedding where no money had been spared and untold extravagance exhibited no one could begrudge the offering of silver expected to be dropped into the dainty "aumoriere," or receptacle of filmy lace, ribbon and flowers, which, when not in use, was hung on the arms in lieu of a bouquet.

Its Kind.

"Do you get all kinds of money from your rich old uncle?"

"No; I get only one kind."

"What kind's that?"

"Acrimony."

ALIEN IS REFUSED PAPERS

Subject of German Emperor Finds Odd Angle in Naturalization Law.

Seattle, Wash.—Although Albert H. Young, a law student at the University of Washington, is a subject of the German emperor, he cannot become a citizen of the United States because his mother was Japanese. Such was the decision of United States District Judge W. E. Cushman. Young's father was a German who married a Japanese woman at Yokohama. Their child was born in that city, but on land under the protection of the German flag, making him a German. Young contended that as a German he was entitled to naturalization in the United States, but Naturalization Examiner John Speed Smith resisted his application under section 2,169 of the revised statutes, which provides that only aliens who are free white persons or who are of African nativity or descent may become naturalized.

Young maintained that he was entitled to be classed as "free white," but the court ruled that his mother having been a Japanese barred him from citizenship. Young has been a resident of this state since 1905.

GOING BACK INTO THE PAST

Men of Science Seeking to Discover Facts of Life of Five Million Years Back.

Out in the Nevada desert the professors have been prying into the secrets of 5,000,000 years ago.

The discoveries are said to be most important by those who are interested in prehistoric relics. The learned men put the discoveries at the miocene period, which is some 5,000,000 years ago.

Among the discoveries is an antediluvian fish that is eighteen feet long. What a whopper of a fish liar the prehistoric man must have been when he went back to the cave and told the family about the big one that got away!

And the horse race of that day must have been a peculiar spectacle, for the equine specimen unearthed has three toes on its feet and is about the size of a large dog.

Five million years is too big a flight of time to ask even our fancy to cover. Trips to Mars and visits to the man in the moon are within our range, but when one is asked to go back to the real back-actionary period of the world, we have to draw the line, especially when we learn that we have to deal with three toed horses and eighteen feet long minnows.

And yet we have to wonder at what manner of a world it was then; we have perforce to try to people it with human beings and with animals of the earth, the sea and the air; we have to wonder whether they, too, were bothered with presidential candidates whether the women demanded the right to vote and whether peek-a-boo stockings were just coming into style.

And, by the way, the professors found a dinosaur there, too. We never saw a dinosaur and never hope to see one, but one was found, so let it be recorded.

Well, after all, 5,000,000 years ago is some time!

PANAMA HAT OF COMMERCE

Prized Headgear Made From Palm Leaves Grown in Central and South America.

Panama hats are made from a palm of the "chandelier-tree" family, which grows wild in enormous quantities in the northern parts of South America and in Central America. The greater number of highest grade Panamas are made in Ecuador, with Peru a good second. The best of these sell for $150 each.

The young, tender leaves of the plant are gathered before they unfold; all the ribs and coarse veins are removed, and the rest is reduced to shreds without being separated from the stem. The shredded leaves are placed in large earthenware jars filled with water and the juice of lemons and left to soak for from six to ten days. After this they are spread out to dry and bleach in the sun.

The fibers are woven upon a block held upon the knees. The coarse hats are finished in two or three days; the finest take as many months. The best times for weaving are in the early morning and in the rainy season when the air is moist. In the middle of the day and in the dry season the fiber is apt to break.

CALOMEL GIVES ONLY TEMPORARY RELIEF.

So Powerful It Shocks Liver and Leaves It Weaker Than Before. Dodson's Liver-Tone a Perfect Substitute.

Nearly everybody who has ever tried calomel for constipation or a sluggish liver has found that it gives only a temporary relief. For calomel is such a powerful drug that it shocks and weakens the liver and makes it less able afterward to do its duty than in the first place.

This is one of the reasons why The Upchurch Drug Co. would rather sell Dodson's Liver-Tone to you than calomel. We know that Dodson's Liver-Tone is a pure vegetable liver tonic that will cure constipation quickly and gently without any danger of bad after-effects. We guarantee it to do this with a guarantee that is simple and fair. If you buy a bottle of Dodson's Liver-Tone for yourself or your children, and do not find that it is a perfect substitute for calomel, then come back to the store and get your money. If you don't get value for your money out of this tonic, it's your right to expect your money back, and we will gladly give it to you.

TAX NOTICE

ASSESSOR'S AND COLLECTOR'S FIRST AND ONLY ROUND.

We will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County, Alabama, for the year 1912, and Assessing the Taxes for the year 1913.

Hours 8 a.m. to 4 p.m. except where otherwise specified.

Pletcher, Beat 15, October 1.
Riderville, Beat 8, October 2.
Stanton, Beat 8, October 3.
Shoults, Beat 7, October 4.

Enterprise, Beat 6, October 24.
Kincheon, Beat 6, October 25.
Jemison, Beat 2, October 26.
Thorsby, Beat 9, October 28.
Clanton, Beat 4, Oct. 29 to Nov. 9, 1912.

TAKE NOTICE that under the new law, we can only make one round. If for any reason you do not pay on this round, you may pay at the Court House at any time before January the 1st, 1913. After December 31, 1912 all taxes become delinquent.

Also please take notice that the new law requires you to meet the Assessor on this round in the Beat in which you live and make your assessment, and that after the completion of the above round all assessments become delinquent.

J. N. DENNIS, Tax Collector.
L. B. POUNDS, Tax Assessor.

T. L. Parks, Murrayville, Ga., Route 1, is in his 73rd year, and was recently cured of a bad kidney and bladder trouble. He says himself: "I have suffered with my kidneys. My back ached and I was worried with bladder irregularities. I can truthfully say, one 50c bottle of Foley Kidney Pills cured me entirely." They contain no habit-forming drugs.—Upchurch Drug Co.

Select the Beautiful Way.

There is a beautiful and an ugly way in which to say almost everything, and happiness depends upon which way we take. You can upset a person for a whole day by the harsh way in which you may call him in the morning, or you may give him a beautiful start by the cheerfulness of your greeting. So not only in words, but in all the little common courtesies and duties of life, think of the beautiful way of doing each.—D. L. Porter.

In Tuberculosis CAMPS

a part of the regular diet is
Scott's Emulsion
Its highly concentrated nutritive qualities repair waste and create physical resistance faster than disease can destroy. All Druggists.

There's Distinctive Beauty in
Mastic Paint
"The Kind That Lasts"

Makes *your* house "look different" from those of your neighbors, painted with ordinary paint; and *keeps* your house bright, clean and glossy long after theirs have become dingy and faded.

Mastic Paint is the most *economical* because it takes *less* of it for a given surface and it *lasts* so much longer.

Ask our dealer in your town for book of suggestions and color chart.

Manufactured by
Peaslee-Gaulbert Co.
Incorporated
Louisville, Ky.

Sold by UPCHURCH DRUG CO.

Ginning Season Near at Hand

and our entire Ginnery has been overhauled and put in first-class condition—new saws have been put in and we are in fine shape to gin your cotton as soon as you are ready.

Chilton W'house & Mfg. Co.

Important to Know

A fresh car of Flour just from the mills, same flour I have been handling. Will sell cheap.

A car of Shorts and Middlings, best feed on the market. Come in and see it before you buy.

I have a car of genuine Texas Red Rust Proof Oats just from Texas.

A car of Milburn Wagons. A car of Buggies bought cheap. Will sell cheap for cash or on time.

A full stock of Ladies Ready to Wear Suits, and all kinds of Ready to Wear just arrived. Remember that I can fix up the whole family.

I have a full line of Furniture, Springs, Mattresses, in fact I try to keep everything the farmers want to buy.

Dont forget that I handle Hart Schaffner and Marx Clothing, and there is none better.

When you have cotton to sell come in and see me, I want to buy it.

I am trying to keep for sale all the farmers want to buy, and buy all they have to sell.

Sweets for Children.

If you desire to keep your children healthy and yet satisfy their natural craving for sweets, give them the sugar in its natural form. Candy is injurious, but honey, preserved figs and dates, raisins and maple syrup are just as much appreciated by the small folk as the manufactured sweets.

MARRIAGE LICENSES.

The following licenses have been issued from the Probate Judges' office this week:

Mr. C. C. Spivey and Miss Velma Franklin; Mr. W. A. Traywick and Miss Odie B Parker; Mr. George Martin and Miss Lizzie Littleton; Mr. Ervin Mims and Miss Etta Cleckler; Mr. John Linton and Miss Lillian Littleton.

Knew What He Was Doing.

A five-year-old boy in Riverside, Cal., recently made a pie according to his own observations, cutting openings in the top crust for the steam to escape. When his father said to him, "The pie will come out," he straightened up and with emphasis replied: "I'm making a pie and not a boiler."

Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It stays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unsurpassed for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by ALRED DRUG CO.

Hair Falling?

You certainly cannot lose your hair and keep it, too. Which shall it be? Lose? Then do nothing. Keep? Then use Ayer's Hair Vigor. That is about all there is to it. Ayer's Hair Vigor is also a splendid hair-dressing and hair-tonic. It keeps the hair soft and smooth and greatly promotes its growth. It does not color the hair. Consult your doctor freely. Doctors are studying these hair questions much more than in former days.

PARIS CABS MUST BEHAVE

New Regulations, on American Models, Cause Drivers Deep Discontent.

Paris.—The cochmen and chauffeurs of Paris are muttering and protesting over the new series of regulations relative to street traffic. Frenchmen dislike changes of any kind, and it is not strange that the veteran Parisian cab drivers should grumble over any rules which pretend to tell them how they shall drive through the streets of Paris which they know so intimately.

Louis Lepine, the prefect of police, has, however, become a believer in the system of the American inventor, William Phelps Eno, which has already been so successfully applied in New York and London. Each coachman and chauffeur has been given a little book dealing with keeping to the right side of the road, the rights and duties of hirers and drivers respectively, and such questions as signals, speed and the treatment of horses.

There is also a special page devoted to the regulation of traffic on the world-famous avenue, the Champs Elysees.

To Keep Green Vegetables.

When wishing to keep vegetables—such as greens, lettuce, parsley, etc., until the following day, place, with the roots, or where they have been cut, in a vessel containing water, exactly as you would a bunch of cut flowers, and they will be as fresh as if newly cut.—Home Department Magazine.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

IF ELECTORS FAIL

Suppose They Do Not Elect Any One for President.

House of Representatives Would Have Next Chance, and If No Candidate Had Majority of States, Vice President Would Occupy White House.

By E. W. PICKARD.

Washington.—Of course your presidential candidate will be elected, but just for the sake of an argument let us suppose the electoral college were so divided that no one candidate received a majority. The possibilities in such a case are interesting.

The fathers of the country who framed the constitution provided that the electors "appointed" by the states should vote on candidates for president and that the one receiving the largest number of votes should be president, and the one getting the next largest should be vice president. This worked very well for the two elections of George Washington, for there was really no opposition to him. But in 1796 John Adams was the candidate of the federalists and Thomas Jefferson of the Democratic-Republicans, and though Adams was elected president, Jefferson, his leading rival in the politics of the day, received the second largest vote and was seated in the vice presidential chair. This was embarrassing to both of them, and the system was so generally unsatisfactory that the constitution was amended in time for the election of 1804. In accordance with the new plan, which is still followed, the electors vote for president and vice president by separate ballots and a majority is required in each case.

If no candidate for president has a majority vote in the electoral college, the house of representatives is required to proceed at once to elect a president from the leading candidates, not to exceed three in number. The house must vote by states, each state having one vote. Similarly, if the electors fail to elect a vice president, the senate chooses a man for the place from the two leading candidates. John Quincy Adams was elected president by the house in 1824.

Now come in some of the interesting possibilities of this most interesting political year. Republicans and Democrats alike declare that they expect to capture a majority of the electoral college, and the Progressives are not behind the older parties in their claims. If the results of the election bear out the predictions of the managers of these three parties to any considerable degree, it is easy to imagine the electoral college so divided that no one will have the requisite majority. This would throw the election into the house of representatives, and again it would be no severe strain on one's imagination to fancy the house also about equally divided among the three candidates. For instance, though this is not a political prophecy, suppose the state delegations, voting as units, stood as follows:

For Wilson—Alabama, Arizona, Arkansas, Florida, Georgia, Louisiana, Maryland, Mississippi, North Carolina, New Jersey, New Mexico, Oklahoma, South Carolina, Tennessee, Texas, Virginia—16.

For Taft—Colorado, Connecticut, Delaware, Idaho, Kentucky, Maine, Massachusetts, Nevada, New Hampshire, New York, Ohio, Oregon, Rhode Island, Utah, Vermont, Wyoming—16.

For Roosevelt—California, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, North Dakota, Pennsylvania, South Dakota, Washington, West Virginia, Wisconsin—17.

That, or any division anywhere near it, would result in a beautiful deadlock, for the constitution says a majority of all the states shall be necessary to a choice, though a quorum consists of a member or members from two-thirds of the states.

Again quoting from the Twelfth amendment:

"And if the house of representatives shall not choose a president, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the vice president shall act as president, as in the case of the death or other constitutional disability of the president."

Now, while the house was trying in vain to elect a president, the senate would be choosing the vice-president, and for this purpose the senators vote as individuals, two-thirds of them being a quorum and a majority of the whole number necessary to a choice. They are restricted in their choice to the two who received the highest vote in the electoral college, and still for the sake of argument we will take it for granted that James Schoolcraft Sherman would be one of those two. Whom do you suppose the senate, as at present constituted, would select? Mr. Sherman, possibly, and there would be "Sunny Jim" planted in the White House as chief magistrate of the United States for four years! Whoever expected that?

Of course the Progressives in the senate might combine with the Democrats and elect Governor Marshall of Indiana. Or, again, the Democratic senators might find their chance to defeat their old time rivals lay in a combination with the Progressives and the election of Hiram Johnson of California would be the result. And we have the word of Colonel Roosevelt that Governor Johnson is of real presidential caliber. Only it must be borne in mind that the vice presidential candidate who runs third in the electoral college is out of the race for good.

DID BUSINESS IN MILLIONS

But at Close of the Day's Proceedings Bankers Couldn't Produce $40 in Currency.

One discovers more different sorts of odd things in New York than anywhere else in the world. For example, writes the New York correspondent of the Cincinnati Times-Star, there is a banking house downtown which occupies almost an entire floor in one of the most exclusive business structures. This banking house handles nothing but "big" business. Nothing less than a $1,000,000 transaction can secure the attention of the senior partners. They rather fancy taking complete charge of a great bond issue, which gives their letter writers almost free rein in tying ciphers to numerals. About the time the market closes a fleet of honking motor cars fills the street beneath, waiting for the various partners to "home, John." The other day a man came in with a $40 due and payable, addressed to one of the juniors.

"And I wish you'd let me have the currency," said he. "I'm off for the seashore and need a little change."

The junior partner said, "Certainly." And went through his pockets. He had less than $4. He walked into the glass partitioned room inhabited by the next junior with a request for cash. The next junior had $11 and was on his way uptown. The junior partner tried the seniors. None was in. Then he called the head clerk and asked him to cash a check for the sum.

"Sorry, sir," said the head clerk, "but there isn't $40 in the vaults.

So that a boy was sent to a bank on the street level and the money obtained. The explanation is, of course, that such an establishment has no need for actual cash in the transaction of its business. But it is rather queer that a banking house of such magnitude should be stumped for $40.

MOST HANDSOME OF ANIMALS

Body Stripes of the Zebra Might Have Been Designed by a Draughtsman.

The zebra is, perhaps, of all quadrupeds the best made and most beautiful clad by the hand of Nature. To the figure and graces of the horse, it adds the elegance of the stag; and the black and white bands with which its body is ornamented are arranged with such wonderful symmetry that we might almost be disposed to imagine that rule and compass had been employed in their formation. These alternate bands are narrow, parallel and exactly separated. They extend not only over the body, but the head, thigh and legs and even over the ears and tail. They follow so exactly the contour of the different forms that they exhibit the entire figure in the most advantageous point of view. In the female these bands are alternately black and white. In the male they are black and yellow, but always of a lively and brilliant tint. They also rest upon a ground of short, fine and copious hairs, whose luster considerably augments the general beauty of the colors.

Republic Founded by Charlemagne.

At Trier or Treves, France, the other day there was held one of the most picturesque of international congresses. It was the Marian congress, which interests itself in the teaching of the Roman Catholic church about the Virgin Mary. The most interesting personality of them all, perhaps, presided over the Spanish section. This was Bishop Don Juan Benlloch y Vivo, sovereign prince of the republic of Andorra. The little state lies high in the Pyrenees, and is under the suzerainty of the president of the French republic and the bishop of Urgel in Spain. The nation, which last year numbered 5,321, has to pay 460 francs a year to France and 460 francs to the prince bishop. The French president and the bishop each nominate a magistrate and they take it in turns to choose a judge of appeal. The republic is one of the most ancient states in Europe, and the bishops of Urgel enjoy their sovereignty over it by virtue of a decree of Charlemagne.

Oldest Hospital in Europe.

Perhaps the oldest hospital in Europe is the Hotel Dieu in Paris, which is said to have been founded in 650. True to its device, medicus et hospes, not only the sick, but also pilgrims and mendicants, regardless of age, sex, condition, creed or nationality, were admitted at all hours of the day and night; no regulations controlled their admission or departure. It was the most important of the 48 hospitals which existed in Paris in 1788 and in which during that year (according to the report of the commission consisting of Bailly, Tenon and Lavoisier) 35,000 sick and poor were cared for.—Dietetic and Hygienic Gazette.

Alpine Road Opened.

The daytime crossing of the fine Alpine road which goes from Brigue in the Rhone valley to Domo d'Ossola in Italy has been authorized by the authorities of the Swiss canton of Valais. It will not be permitted to run at a speed exceeding 12 1-5 miles an hour, and the crossing of the pass at night is strictly forbidden. It is certain that this decision will be welcome in the tourist world and will bring to the highly attractive cantons of Valais hosts of motor cars which so far were allowed only in the panoramous Rhone valley, with the impossibility of entering the lateral valleys.

WISE PROVISION OF NATURE

Sensitive Whiskers of the Feline Tribe Serve as Eyes for Guidance of Their Owners.

We are apt to think that the cat's ability to see in the dark is due entirely to its eyes, but competent authority assures us that the feline's power in this respect is due almost as much to its "whiskers." These delicate hairs that project from the muzzle of the cat family are wonderful mechanisms. Each one grows from a follicle or gland, nerved to the utmost sensibility. Its slightest contact with any obstacle is instantly felt by the animal, though the hair itself may be tough and insensible. The exaggerated whiskers on the muzzle often project to such a distance that from point to point they indicate the exact width of the body of the beast. Consider the lion stealing through the jungle at night in search of prey, when the least stir of a twig gives alarm. The lion's whiskers indicate through the nicest nerves, any object that may be in his path. A touch stops him short before pushing through some close thicket, where the rustling leaves and boughs would betray his presence. Wherever his head may be thrust without a warning from the vibrissae there his body may pass noiselessly. It is the aid given him by his whiskers, in connection with the soft cushions of his feet, that enables him to proceed as silently as the snake.—Harper's Weekly.

BETTER THAN DOCTORS' BILLS

French Actress Lets the World Into a Little Secret That Is of Some Interest.

For keeping slender and supple a simple home treatment—costing nothing—is gladly presented herewith. It comes straight from a French actress who, though no longer in her first youth, is noted for her lithe and lovely figure.

On waking, the lady makes it a practice to drink a cup of chocolate and read the morning paper in bed. Directly she has absorbed the contents of both she tears the newspaper into tiny bits and scatters them over the floor. Then, before dressing, she trips lightly about the room picking up the pieces one at a time, bending and recovering herself for each scrap. The gymnastic is perfect for "lines." Humming a cheerful tune the while beguiles the time and opens the lungs.

Just before going to bed at night she successively edifies and beautifies herself after the same manner with the evening paper. This simple procedure imparts sprightliness and charm—to mind as well as shape.

About Books.

I prefer always to learn from the author himself how he did think, than to hear from another how he ought to have thought.

How often the cursory reading of a book, which irresistibly carries one with it, exercised the greatest influence on a man's whole life, and produced at once a decisive effect, which neither a second perusal nor earnest reflection can either strengthen or modify.

I turn back toward the beloved ancients who still constantly, like distant blue mountains, distinct in their outlines and masses, but indiscernible in their parts and internal relations, bound the horizon of my intellectual wishes.

Always fortunate is that epoch in a literature when the great works of the past again rise up as it thawed, and come into notice because they then produce a perfectly fresh effect.—Goethe.

Spatting the Fly in Corea.

Flies are the staple produce of all parts of Chosen and make life simply miserable for the Japanese residing there. Flies are also well known to be mediums for the spread of epidemics. Last year the authorities of Chosen do offered to buy flies, and encouraged by their success they will repeat the experiment this year. Last year the police was asked to take the trouble of buying flies with money supplied by philanthropic contributors, and 4.68 koku (1 koku is equal to 5.13 bushels) of flies were bought from May 26 to December 2 for 212.97 yen. This year 5.68 koku have already been bought for 268 yen at 3 to 4 sen a go. Local taxes were appropriated for a portion of the expense required.

The flies are burned on being purchased. Rats are valued at 3 sen a head on the mainland, but flies have never been known to exist in such immense masses before as to acquire monetary value.—Japan Weekly Mail.

Real Mailed Fist.

A steel arm which had belonged to the Sire of Mittelhausen has just been acquired by the Rohan museum at Strasburg.

The gallant warrior lost an arm in battle, and a clever mechanic devised another for him, which had truly wonderful functions. It could be folded to an angle of 90 degrees and be extended again by pressing a button at the wrist.

The fingers of the hand were not movable, the thumb being independent of the others.—Pall Mall Gazette.

Current Styles.

"Why doesn't that young man ever come into the parlor?"

"Oh, I don't know."

"Isn't he a candidate for your hand?"

"Yes; but he seems to prefer a local option campaign."

EX-GOV. COMER'S STATEMENTS DENOUNCED BY SIDNEY J. BOWIE AS "UTTERLY FALSE"

Former Congressman, Who Retired Voluntarily, Makes Telling Rejoinder to Speech Delivered at Greenville by Former Governor—Scores Comer for Continual Unfair Attacks on Judge Jones, and Disposition to Try Judicial Questions On the Stump Instead of Taking Them Into Court, Where They Belong.

Hon. Sydney J. Bowie has issued a statement in reply to some of the personal allusions made by former Governor B. B. Comer in his Greenville speech last Friday. Mr. Bowie denounces as "utterly false" the insinuation that if he were now in congress he would do the bidding of Archbold, Ryan, Belmont, Morgan and Rockefeller.

He states that he retired from congress voluntarily and could have been re-elected, and he charges that Governor Comer at the time of his retirement could not have been re-elected to any position in the state. Mr. Bowie writes as follows:

"Former Governor Comer, in his speech in Greenville on last Friday, said 'Mr. P. Sid Bowie is the distinguished citizen who Mr. Smith took down to Montgomery with him in his private car during the session of the legislature in 1907, and he made a speech on the part of the Louisville and Nashville railroad demanding that the legislature adjourn sine die, declaring that it was a dangerous body. Mr. Bowie is an ex-congressman, elected by the democrats of Alabama. Suppose he was a member of congress now, and Mr. Archbold and Mr. Ryan and Mr. Belmont, Mr. Morgan, Mr. Rockefeller and others would go down to Washington and demand that congress adjourn sine die, that it was dangerous.'

Denounced as Utterly False.

"I do not know just what Mr. Comer intends to imply by the last sentence above quoted, but taken in connection with the two preceding sentences it bears the insinuation that if I were still a member of congress I would do the bidding of Archbold, Ryan, Belmont, Morgan and Rockefeller. If Mr. Comer means to insinuate anything of that kind I here and now denounce it as utterly false. I represented the Fourth congressional district of Alabama in congress for six years. My record was an open book; my constituents know whether or not I represented them with fidelity and with a single-minded devotion to their interests. I retired from congress voluntarily. I could have been re-elected by those constituents if I had been a candidate. Mr. Comer was governor of Alabama for four years, but could not have been re-elected to any office within the gift of the people when his term had expired.

Other Statement Equally Untrue.

"His other statement is equally untrue. I made a speech at Montgomery during the extra session of 1907 upon the invitation of the business men of the state. I have a copy of that speech before me today. I did not demand that the legislature adjourn sine die, nor did I declare that it was a dangerous body, nor did I say anything that justified any such conclusion. I did object to the proposed legislation as unconstitutional, and I said it was more than unconstitutional, that it was unjust, and I stand by both statements today. A majority of the bills to which I objected as being contrary to the constitution of the state and of the United States were declared so by the supreme court of the United States in the case of ex parte Young, and the same legislature which enacted them, upon the advice of the attorney employed by Governor Comer, repealed many of these unconstitutional enactments. They marched their army up the hill and marched it down again. All the balance of the acts to which objection was made have been, after a fair trial, declared unconstitutional and void.

"As for Mr. Comer's insinuation that I was nothing but a decoy for Mr. H. H. Smith, I shall pass it by with the contempt which it deserves.

Attack on Judge Jones Unjust.

"While the rate cases were pending before Judge Jones I felt it a matter of doubtful propriety to answer the charges that were made against him from one end of the state to the other by Governor Comer. Those cases have now been decided in favor of the complainants. The state authorities have announced through the press their intention of appealing the same to the supreme court of the United States. I feel no hesitancy, therefore in saying that the assault upon Judge Jones by Governor Comer is utterly without justification. There has never been in the history of the state an instance where a man doing his duty has been pursued, maligned and slandered as Judge Jones has been in this controversy.

Issued Without Objection.

"The attack upon Judge Jones began before a single contested ruling had been made by him in favor of the complainants. In order that the people of this state may see and know how utterly without justification this assault has been upon him I will state the facts as they are disclosed by the record, and I now challenge Governor Comer to deny and disprove from the record a single statement that I make. When the original bills were filed Judge Jones declined to grant even a temporary restraining order until the state authorities, who were the defendants, had received due notice and had come into court. Governor Comer selected as counsel for the state Frank S. White, Samuel D. Weakley, Richard W. Walker, H. C. Selheimer and Horace Stringfellow, and Alexander M. Garter also represented the state as its attorney general.

"No abler, cleaner or higher-minded lawyers ever practiced at the bar of any state. When they came into court they made no objection to the granting of the temporary restraining order. They, of course, did not consent to its being granted, but they did not stand in their places and say that it ought not to be granted under the allegations of the bill. They made neither argument nor suggestion as to why the temporary restraining order should not be granted. Afterwards the cause was set down to be heard on an application for a temporary writ of injunction. When that application came on to be heard it was perfectly competent for the attorneys representing the defendants to have put in an answer under oath denying the allegations of the bill if the facts had warranted such a proceeding. They did not file an answer under oath, as the bill had been; they filed no affidavits in opposition to the granting of the writ of temporary injunction; they made no argument against it, and they publicly announced that they would not appeal from the granting of the temporary writ of injunction. If just cause had existed why this injunction should not issue it would certainly have been incumbent upon them to have made it known to the court, and if the court held adversely to them it would have been their duty under those circumstances to have taken an appeal. But neither course was taken. Under the circumstances there was no course open to Judge Jones except to grant the temporary writ of injunction.

Only Mode Afforded.

"And when finally the state's counsel filed an answer in these causes when they came to that part of the bills in which it was charged that that proceeding in equity was the only way by which the complainant could test its rights in the matter, they said: 'Defendants in answer to paragraphs 23 of said bill say: They admit that the provisions of the several acts of the legislature of Alabama set forth in said paragraph are correctly stated therein, and they admit that the suspension of said rates by the institution of proceedings for such purpose as provided by the legislature of said state is the only adequate mode afforded by the complainants for asserting a defense to the same.'

"Let it be remembered that the act of the legislature of Alabama adopted by and with the consent and approval of Governor Comer himself expressly provided that upon a test of these rates in a court of justice they might be suspended during the pendency of the proceedings. And it was admitted in the answer that the suspension of the rates in the manner therein provided for was the only adequate method afforded to the complainants for making a test of the validity of those statutes.

Begins Campaign Villification.

"Yet, notwithstanding the fact that the equity of the bill on its face was expressly admitted, notwithstanding the fact that the propriety of the original writ of injunction was not controverted or denied by counsel representing the state, and notwithstanding the fact that the original injunction was issued without an objection and without even an appeal, Governor Comer, observing how successfully a campaign for intimidation had worked in the state of North Carolina, in which the Southern railway was the defendant, began a campaign of villification and abuse not only of the Louisville and Nashville Railroad company, but of the court itself without a precedent and without a counterpart in the history of this country. He denounced the complainant for instituting a proceeding sanctioned by the very statutes which he had approved, and he denounced the judge for issuing an injunction to which no objection whatever had been made.

"Later on, when an attempt had been made throughout the state to procure a violation of the injunction, when notice had been served that the writ would be treated as a nullity, an application was made not to change the injunction in the slightest manner, but merely to extend the same injunction to the sheriffs and solicitors of the state in order that the complainant might be protected while suit was pending. Then, and not until then, was a real controversy instituted before Judge Jones. Subsequently the extra session of the legislature was held in November, 1907, various acts were passed, the intent and purpose of which was to deny to the complainant the right to a trial of its case in court. Judge Jones, upon a hearing, held these statutes to be void. The supreme court of the United States in the case of ex parte Young held the same thing with reference to similar statutes in Minnesota. The circuit court of appeals did not sustain the validity of these acts. Upon the contrary it held that the suits were properly in court, but it said there ought to be a test of the rates before making the injunction permanent, and to this extent only they decided in favor of the state's contention. The complainant, in response to the requirement of the court of appeals, put in a test of the rates, and that test showed that the rates were unremunerative, and that they were unfair and unreasonable, and after a full and complete trial they were held to be void.

Attacks Just as Baseless.

"Governor Comer attacked Judge Jones and denounced him just as he is attacking him and denouncing him today, before he had rendered a single adverse decision. He attacked and denounced him for rendering an injunction that he ought to have rendered. His subsequent attacks have been just as baseless, just as devoid of justification and of merit as his original ones.

Judge Jones Bound To Try Cases.

"The injustice to Judge Jones is further shown by the fact that he had no option in the matter of hearing these cases. Judge Jones was not disqualified from hearing the cause and he could not refuse to hear it. The suit was brought in Montgomery, because the law of the state requires that the railroad commission of Alabama should be sued in Montgomery. It was brought in the federal court because it asserted a defense under the federal constitution. This defense depended upon the facts, and the supreme court of the United States could not pass upon those facts on appeal from the ruling of the state court. It could only examine the facts on appeal from a ruling of the federal court. It was the only court, therefore, and the only method, therefore, by which the complainant could get an adjudication of his rights under the federal constitution from the supreme court of the United States. Governor Comer says the commerce court has decided nearly all of its cases in favor of the railroads. Why did he not go further and say that the supreme court of the United States had reversed the commerce court in practically every one of those cases, and had decided them against the railroads? Why does he now, before the supreme court has even heard these cases, before the record is even printed, denounce the membership of that court? Why does he seek to convey the impression that they are the dishonest and servile tools of the corporations, when he knows, or could know, if he only took the trouble to inquire, that the supreme court of the United States, even this very court, has decided as many or more cases against the railroads than it has decided in their favor.

Comer Denounces Supreme Court.

"Governor Comer has not only denounced Judge Jones before he made a solitary adverse ruling; he denounces the supreme court of the United States before it has even heard the cause. He has denounced Judge W. W. Thorington and Col. W. A. Gunter, two of the cleanest, ablest, highest-minded lawyers of this state, and has claimed that they were fixed jurors. Every man, according to Governor Comer, is dishonest who differs from him in any particular. Every man who has worked for a corporation at any time in his life forfeits thereafter all claim to public confidence. I suppose I should modify this statement: I suppose that Governor Comer really thinks that the only business which makes men utterly corrupt and dishonest is the railroad business. I suppose, of course, there are no dishonest men in the cotton mill business, or in the mercantile business, or in the banking business, or among the farmers. Only the railroad men are corrupt and unfit for public trust. Mr. Comer's attacks upon Mr. H. H. Smith are equally unjust. The state of Alabama has never had a better friend than Mr. Smith. No single citizen of the state has contributed as much to the upbuilding and development of the state as Milton H. Smith. He has done more real intelligent, effective work for the development and upbuilding of this state with his little finger in a single year than Mr. Comer has in his whole lifetime. He has not given Alabama high rates; he has not made unreasonable returns from the business in Alabama for his railroad. His rates are lower in Alabama than the average of all other rates in Tennessee, Mississippi, Florida, Georgia or upon the other roads in Alabama.

Willing To Abide By Decision.

"If Col. Gunter and Judge Thorington have been partisan and unfair, and they have been neither; if Judge Jones has been partisan and unfair, and he has been neither, the railroad commission of Alabama has the right to take this case to the supreme court of the United States. That court is the equal of the in intelligence and the superior of any in dignity and importance on the face of the earth. The Louisville and Nashville Railroad company is willing to abide by and obey the decision of the supreme court of the United States. It was willing to abide by, and it did abey, the order of the court of appeals to put in these rates temporarily, and to make a test of them. It did so. If the result of that test vindicated its position. If it was mistaken, if an improper judgment has been rendered in its favor, the supreme court of the United States can correct it. Not a member of that court was ever employed for a day by the Louisville and Nashville railroad. It is willing to abide by the decision of that court, but Governor Comer does not seem to be willing to do so.

"When Col. Mallory and Governor O'Neal were candidates for governor, Mr. Nesbitt showed a great deal of solicitude to ascertain the position of both candidates for governor in regard to this case. He wrote each of them an open letter, in which he specifically asked if they would agree that the case should be appealed to the supreme court of the United States if a decision adverse to the state authorities was rendered. Both candidates for governor answered in a manner satisfactory to Mr. Nesbitt.

"The time has now arrived for the taking of the appeal. Notice has been given through the public press that it would be taken. Personally I have thought that it would be the part of wisdom to delay the expense of printing the transcript, at least until the supreme court of the United States passed on the Minnesota and other cases; but, however that may be, the Louisville and Nashville railroad has always been willing, and is willing now that this case should be taken immediately to the supreme court of the United States for its final determination, and it has been and it is willing to abide by and perform whatever judgment that court renders, whether it is in favor or against it, but Mr. Comer, unlike Mr. Nesbitt, seems wholly unwilling that the case shall go there. He wants to appeal to the legislature and not to the courts; he wants a political trial of the issue, in a political body, and not a judicial trial in a judicial body.

Can Not Be Tried On Stump.

"The Louisville and Nashville railroad does not believe that a law suit can be tried in the legislature, but it feels that an injustice has been done it by the attacks which have been made upon it, and it intends from time to time to state its position in this matter through the public prints. It has heretofore pursued the policy of silence, because its case was pending in the courts. When it felt it ought to be tried, but now that a decision has been rendered in its favor, and a new political attack has been made upon it, it feels that it is its duty to its customers, to its patrons, and to itself, to state its own side and its own position directly to the people. It does not believe that is the way law suits should be heard or settled, but it does believe, and it does insist that it has a right, and it proposes to exercise the right of presenting from time to time its attitude on this question. It has done so without abuse or vituperation; it has been abused and vilified, but it has not replied, and it does not intend to reply in kind. It has implicit faith in the justice of its cause, and it will pursue its course unafraid, unintimidated and undeterred by the attacks of its enemies.

SYDNEY J. BOWIE.

Swellings of the flesh caused by inflammation, cold, fractures, of the bone, toothache, neuralgia or rheumatism can be relieved by applying BALLARD'S SNOW LINIMENT. It should be well rubbed in over the part affected. Its great healing and penetrating power eases the pain, reduces swelling and restores natural conditions. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

Home-Made Soda Water.

Pour three pints of boiling water on three pounds of white sugar; when this is cool add two ounces of tartaric acid, the well-beaten whites of three eggs, and to every pint of syrup add one teaspoon of flavoring; put it in bottles and cork tight. Put three tablespoons in a glass; fill two-thirds full of water and then add one-third full of soda.

$60,000,000.00 Lost Annually by Wage Earners.

Dr. Sadler estimates that $60,000,000.00 in wages is lost annually by the American people as a result of colds. Lost time, lost wages, and doctoring is massive. Use Foley's Honey and Tar Compound promptly. It will stop the cough and heal and soothe sore and inflamed air passages. Upchurch Drug Co.

...UMAN HAIR ROOT Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the sponge of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as ...ated.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Director of Evening Department, The Moody Bible Institute, Chicago.)

LESSON FOR OCTOBER 20.

MISSION TO THE GENTILES.

LESSON TEXT—Mark 7:24-30 and Matthew 8:5-13.

GOLDEN TEXT—"Him that cometh to me I will in no wise cast out."—John 6:37.

Chronologically the incident of the centurions servent precedes that of the Syrophenician woman, though we will look at them in the order suggested. The one incident occurs near the border of Tyre and Sidon, probably about May or June, A. D. 29, and the other in Capernaum during the summer of A. D. 28. Both are incidents in the life of Jesus that have to do with his ministry as the Hebrew Messiah to those who were outside of the pale of Judaism.

At the beginning of Mark's record (v. 24) we have a wonderful suggestion as to the strain of Jesus, ministry and the accompanying lesson that true righteousness cannot be hid, it speaks for itself.

There are four uses of the word "answered" in Matthew's record of this incident (Matt. 15:21-28) that are suggestive. Let us first, however, get the setting. This woman was a Greek—a Gentile; by race she was a Syrophenician, that is, a Canaanite. Thus she was a descendant of that race whom God, by the hand of Joshua, had driven out to make room for the Hebrew nation, and as such is under the ban of God. See Eph. 2:12. Yet this woman reaches Jesus, her trouble being that her daughter is possessed by an unclean spirit. At her approach she takes a lowly place at Jesus' feet and requests that he heal the child. She calls him the "Son of David," and "He answered her not a word." Matt. 15:23. She had no claim upon him as the Messiah. This was the wrong footing, for she was not a child of the kingdom. It was her need that drove her to him. How she had heard of him is suggested in Mark 3:8 and 7:24, cf. Rom. 10:17. There are some question that silence will not answer. A wrong conclusion will be reached, as in this case the disciples came to a wrong conclusion and desired to "send her away." Contrast Jesus' patience with the disciples' impatience. "she crieth after us" and emphasize the danger of external judgment. There are many great moral issues today that are demanding another answer than that of silence.

The Answer of Law.

Jesus then made a second answer, the answer of law, Matthew 15:24, in which he accepts her estimate of him as the Jewish Messiah. His work was primarily to the Jews (John 1:11, 12). But her need was great, and identifying herself with the need of the child she "worshipped" Jesus. He is more than the Messiah, he is a Saviour. Not yet, however, is Jesus ready to grant her request. His third answer (v. 25), the answer of mercy, is literally that first the children must be fed, and she replied, "Yea, Lord; even the dogs under the table eat of the children's crumbs." For this saying, viz., that she did not protest against the words he had spoken, but accepted the proper estimate of him as being the Jewish Messiah and herself as outside of that covenant, he made a fourth answer, the answer to faith. He answered: "O, woman, great is thy faith," v. 28, and grants her carte blanc (v. 28), "be it unto thee even as thou wilt." As outcasts, we must cast ourselves "at his feet."

Let us now look at the account of the centurion's servant. Once more Jesus is appealed to by one who is outside the Hebrew covenant and on behalf of a servant. In the other incident there was the interruption of a seeming refusal and here the interruption of an instantaneous granting of the request. Again we need to read the parallel accounts given by the other evangelists. Verse ten of this section is the key to this whole story. What are some of the marks of a "great faith?" First, it is tested. The servant was "dear unto the centurion," Luke 7:2. Second, it is progressive "when he heard of Jesus," Luke 7:3. Third, it will be recognized by others, Luke 7:4.

The Great Faith.

The protest in v. 8, and the remarkable commendation of Jesus thereon, is a solemn warning to all who are in covenant relations with God and his ...fies whom he has sent. Jesus had there a glimpse of that great coming day when all Gentiles would be gathered unto him. v. 11 (cf. Rev. 7:9). The centurion received for his faith commendation, and healing for his servant as well, v. 13.

Why should there be such a difference in the treatment of these two whom we would at once say that they had great faith? Matthew 15:28 and 8:10. The ... by the ... the ... ... getting to the ... ...

L&N

To the Public

The Louisville & Nashville Railroad was the great constructive force in the development and upbuilding of Alabama long before the present-day detractors had attracted attention to themselves by making the L. & N. a fictitious issue in their game of politics. The L. & N. will continue to serve the best interests of the people long after its detractors have been consigned "to the shades of political oblivion."

We are busy with our work of development, and without time or inclination to take notice of malicious and vicious attacks. The constructive work is permanent in character; the policy of the officials is to plan for the future, and not to offer "the rainbow of promise," impossible of fulfillment.

We will not deal in personalities. The welfare of the people and the property rights of the railroad are bigger and more important than the political interests of any individual.

The L. & N. has faith in the people; it believes in their intelligence and ability to discriminate between facts and political buncombe. We therefore request that the people inform themselves of the facts before passing judgment.

It is not to the best interests of the state that the people accept the unsupported assertions of any self-seeking individual. The facts are easy of ascertainment, and upon them we are willing to rest our case.

The Louisville & Nashville Railroad Co.

SEEKS PLANT ENTHUSIASTS

Large Number of Young Slips to Be Sent Out From Chico, Cal., by Government.

Washington, D. C.—The United States department of agriculture is looking for plant enthusiasts to aid in the work of experimenting with the thousands of new varieties of foreign plants brought to these shores annually by the bureau of plant introduction. David Fairchild, in charge of this work, is preparing to send out from the government experiment farm at Chico, Cal., a large number of young plants. But they will be sent only, he declared, to those people who can prove to the government that they are genuinely interested in experimenting carefully with the plants to help determine their possible value for further introduction into various sections of the country.

Rain-proof canvas cards, giving name, history and known characteristics, will be attached to each specimen, and the experimenter will be expected to inform the government of the results of his work.

FIND WHISKY IN HAY WAGON

Police Hold 500 Bottles for Bashful Claimant at Wilmington, North Carolina.

Wilmington, N. C.—Five hundred bottles of "Turkey Mountain" corn whisky, neatly packed away in gunny sacks, await an owner at the local police station. A wagon ostensibly loaded with hay broke down in the street and when the police, "seeing the trouble from afar," arrived on the scene the negro river took to his heels, leaving the property without a claimant. Following a senatorial campaign against "blind tigers" here a week ago, no one has the temerity to claim the goods.

In the Same Boat.

"We get some sad cases," said the attendant at the Balmy Lunatic asylum to the interested visitor, and opened the door of the first cell.

Inside was a man sitting on a three-legged stool, gazing vacantly at the wall.

"His is an unhappy story," said the attendant. "He was in love with a girl, but she married another man, and he lost his reason from grief."

They stole out softly, closing the door behind them, and proceeded to the next inmate.

This cell was thickly padded, and the man within was stark, staring mad.

"Who is this?" inquired the visitor.

"This?" repeated the attendant. "This is the other man!"

U. A. Smith, Bridgeton, Ind., had kidney trouble for years, and was so crippled with rheumatism he could not dress without help. He started using Foley Kidney Pills, and says: "I began to get better at once, and now all of my trouble has left me and I do not feel that I ever had rheumatism. I rest well at night and tho' 59 years old can now do the work of a man of 35. I would like to be the means of others getting benefit from Foley Kidney Pills." Refuse substitutes. Upchurch Drug Co.

A really effective kidney and bladder medicine must first stop the progress of the disease and then cure the conditions that cause it. Use Foley Kidney Pills for all kidney and bladder troubles and urinary irregularities. They are safe and reliable. They help quickly and permanently. In the yellow package. Upchurch Drug Co.

Bell Ringer's Occupation Gone.

The abolition of the custom of ringing the town bell at Buntingford, Hertfordshire, England, which for 300 years has tolled for deaths and funerals from over the gateway of an inn, throws out of occupation Saunders, the bell ringer, whose family have rung the bell continuously for over 140 years.

The Fuel Supply Needs Attention Only Three Times Each Day

The makers of **Cole's Hot Blast Heater** guarantee this stove to hold fire with soft coal 36 hours without attention. Your old stove and imitation stoves leak air and waste fuel because they are not air-tight, because they have putty joints.

Cole's Original Hot Blast Heater

—by means of the patented Hot Blast Draft and other patented features which make it tight, doing away with the use of stove putty—requires less attention than any other heater made.

All fuel—Soft Coal, Hard Coal, Lignite, Wood or Corn Cobs—contains a large amount of gas. Fully one-half of the heating power (carbon) in soft coal is gas. This is the part of the fuel this wonderful heater saves, by burning it with the Top Hot Blast Draft. This makes Cole's Hot Blast Heater the most satisfactory, the most economical, the most convenient heater you can buy. Imitations and other styles of stoves allow this gas-half of the coal to pass up the chimney with the smoke, unburned.

Thousands of these stoves are in use and the sale continues to increase year after year.

This heater will give you more comfort than you ever thought possible by using any kind of a stove which uses soft coal for fuel.

Right *now* is the time to decide and select the size you should have. Come in and see complete line of styles and sizes.

Price $12.00 and Upwards—According to Size and Finish

GAMBLE HARDWARE CO.

Burns Any Kind of Fuel—Fire Never Goes Out.

ADVERTISED LETTER LIST.

List of letters remaining uncalled for in Clanton office for the week ending Sep. 14, 1912.

Gentlemen.

Mr. H. G. Hall, Mr. F. C. Looser, Mr. Ellis Jordan, Mr. Will Horton.

Ladies.

Mrs. Fannie Wilson.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by Alred Drug Co.

Seized by an Eagle.

A huge eagle swooped down on the home of a Westport, Conn., man a few days ago and seized Anna, his two-year-old daughter, in its talons and attempted to fly away with her. The screams of the child brought the father to the yard. The bird then dropped the little one, and the father seized her and ran into the house. The little girl's clothes were torn by the bird's talons, but she was not even scratched.

Stop That Itch!

I will guarantee you to stop that itch in one minute. A 25 cent bottle will prove it.

No remedy that I have ever sold for Eczema, Psoriasis, and all other diseases of the skin has given more thorough satisfaction than the

R. R. R. Prescription for Eczema

I guarantee this remedy.

Upchurch Drug Co.

CUT OUT THIS AD.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

VOL. 1 THE UNION 10th Year CLANTON, ALABAMA, THURSDAY SEPTEMBER 26, 1912 THE BANNER 20th Year NO. 25

SUPPOSE WILSON WINS

Well, by Hokus Pokus, suppose Mr Democrat, that the word flashed over the wires on the morning after the election that Doctor Woodrow Wilson has swept the deck from Helena to breakfast—that the man of combined fractions and complex theories has slid in on a Democratic landslide and that the belt of industrial activity is to be shifted once from the Protective beltwheel of Progress to the idle pulley of free trade stagnation, how long do you reckon the enthusiasm of victory is going to keep you happy?

Suppose Wilson wins and his tariff plank, which is exactly like the one the Democrats used to fool the country 18 years ago, is put in operation, have you any reason to expect that the tramp of the Coxey army will not be the next station?

Suppose Wilson wins and he is about to bring down the "high cost of living" can you conceive how that miracle can be accomplished without hitting the farmer-biff between the eyes? Wilson says you farmers are getting much for your products. Do you want to see prices come down to the average that obtained when Grover was running this country? Then you should freeze to Wilson and yell till the rafters of Heaven ring.

Suppose Wilson wins, do you here down in your heart that watch dog of Confidence will stand guard at your door step as he has stood for the past 16 years? Suppose Wilson wins and a thousand hungry Democrats gallop up to the pie-counter to receive their little allowance as many Republicans will retire to private life, but how about the millions of Democrats and Republicans that will suffer if jobs were cut as a result of cut for revenue?

Suppose Wilson wins, do you believe his tariff plank will work different from the one 19 years ago? Isn't it a law of Nature that like produces like? Plant corn and you gather corn. Sow rye and you reap rye. Sleep with the itch and you will scratch. Sow Cleveland-Wilson tariff laws and you will reap Coxey armies and free soup, busted banks and idle factories. Do you want these things bad enough to vote for Woodrow Wilson?

The fight today is between Protection and tariff for revenue only—between Prosperity and Bankruptcy—and the battle it is between Woodrow Wilson and Theodore Roosevelt. The issue is between theories on the Democratic side and actual tests on the Progressive side. Roosevelt has tried and proved equal to the task. Wilsonism was tried by Cleveland 19 years ago and proved the ruination of the country. Democracy is incompetent. It is impotent. It is office hungry and office crate. Wilson is impractical. He knows no more about the needs of the people than a woodchuck. He thinks he knows what is going at the job, should he get it, acted like any other theorist. He can delve geometry and speak foreign languages, but he can't do the people's work in one. Roosevelt is equal to every task. The first day he got out on an engine that was pulling his train accross the Rockies and took charge of the drivers and run the snortin' engine up the mountain like an old hand. If Wilson had tried it, he would have put the engine in a canyon in thirty minutes. He lacks executive. He lacks common horse sence. Why he declared the other day that there were millions men without jobs on account of the tariff than would be under free trade in the United States. If there is a farmer in all the nation that believes that, I'll vote for Woodrow and hush for life.

You can't learn one these days stuffed and theory spoiled Democrats anything. It will take a direct lesson again to bring them to their gumption and it is well that the Lord loves us so much that he is going to chastise us with a dose of Wilson starvation and bankruptcy, but I pity the poor workingman. — Yellow Dog.

CORRESPONDENCE.

Mt. Creek, Sept. 20, 1912

Editor Union-Banner:—Please allow me space to say a few words on the political situation in Chilton county. I notice in the Union of last week an advertised call for a rebublican (or an assistant aid for the democrats) convention to be held for the purpose of nominating a county ticket. Of course that is another scheme of Dudleys to try to assist the democrats to elect their ticket in November. Of course Dudley, the high Priest of republicanism in Chilton county, did not want to be troubled with any republicans that would not do just what he (Dudley) bid them do, so he (Dudley) had the so called republican convention at Maplesville. But I guess he thought over there he could get as many as he wanted of those disfranchised democrats which voted and defeated our ticket two years ago to assist him in carrying out his program in case there happened to be a few republicans in the convention.

Mr. Editor, I'll tell you when I saw the names of arrangements committee it caused me to wonder and think who they could be. So when my mind was running and I were reflecting, I happened to think of the Mr. Ralph Callaway, P.—M. at Maplesville who has the record of never being at a republican meeting or convention only when he was seeking the endorsement for P. M. and at voting box the republican has made such rapid gains since 1906. When the republican candidates just about tied with the democratic candidate, until 1910 the democrats polled about 6 to 1, and all of this was under the brilliant leadership of this great republican P. M. who is a member of that arrangement committee.

Next on the list is Henry Fisher. Now I have been in the county for a great many years and have been voting the republican ticket and attending republican meetings and conventions all the time and this is the first time I've ever heard of Mr Fisher, therefore, I know Mr. Fisher, is an enthuiastic republican by his record being so well known in the county.

Now we come to Mr. Teel, then I wondered again who he could be and where could have come from to be such a prominent republican. Just then my mind carried me back two years ago when just a few days before the election there was a certain A. E. Teel traveling through our community distributing democratic campaign literature and telling false hoods against the republican ticket. Now just what Mr. Teel got for this work two years ago I do not know, but I do know that he had plenty of whiskey to drink part of the time, for on Saturday before the election two years ago I saw him (Teel) in Coopers and he seemed to have plenty of whiskey on him and I have been reliably informed that after reaching Clanton the same day that he (Teel) just got down drunk and wollowed in it.

So much for the arrangement committee that I think it behooves all good and true republicans to be wise and not be fooled on mislead by these so called republicans or assistant democrats who are going to try to nominate a ticket for the sole purpose of trying to help elect the democratic ticket in November.

J. S. JONES.

SINGING.

There will be an all day singing at Bethel church on the fifth Sunday, September the 29th, 1912. Books to be used are the Sacred Harp and Christian Harmony.

This all day singing was announced to be at the Court House in Clinton which is a public building belonging to the people of the county; then one of our county officers steps in and said that we can't have the singing in the people's building, the Court House. This is the first time the people have been denied the use of this building. Our officers here before did not deny us but when the doors are shut on us at one place there is another place waiting.

SECRETARY.

Editor Union-Banner:

Please give me a space in your valuable paper to say a few words.

The health of this community is bad at present. Mrs. Mollie Jones is on the sick list but we hope her a speedy recovery.

Hello Miss Minnie Brand, let's make us a hobble gown. The hobble looks good to us three girls.

Mr. Tom Sterns, of Clanton, was the guest of Miss Alice Jones Saturday night.

Hello Ruth, come on with your coon. The singing at Mt. Pleasant was very dull. I think it rained them all out.

Miss Lillie Mae Jones visited Miss Alice Jones Sunday.

Mr. Jim Cardin was at the all day singing the first Sunday in September.

Mr. Henry Headley is still coming up the road. I think the wedding bells will soon be ringing. Look out Mr. Jim Cardin, he is beating your time.

Mr. H. P. is still coming to M. B.'s.

Miss Alice Jones was all smiles Sunday.

Look out Miss M. S. R., Miss E. A. J.' is beating you with T. E. J.

Miss L. M. J. is still wearing the hobble gowns and admire them very much.

Mr. Bark Jones was the guest of Miss Ethel Brand Saturday night.

Mr. Elizah Jones was the guest of Miss Earnie Jones Sunday evening.

Mr. Robert Jones was the guest of Miss Lillie Mae Jones last Saturday night. Miss Minnie Brand looked very sad last Sunday.

Mr. Joe Traywick is still going up the road. Bouquet on Miss Lillie Mae Jones and Miss Alice Jones smelled sweet Sunday evening.

Mr. Wallace Jones was the guest of Miss A. M. J. Saturday night.

We will ring off with best wishes to the Union and its readers.

To Cape Jessimine just "Bloomed Out."

SALEM.

There wil be an all day singing at Salem on the fifth Sunday in September, 29, 1912. Everybody is cordially invited to come and bring your books and well filled baskets and let us enjoy ourselves singing praises to God,

Books to be used: New Lyrics of Praise and New Songs of the King.

LEE ROBINSON.

SHADY GROVE.

Editor Union-Banner:

Please give me space to write a few lines as it has been some time since I have written any.

The health of this place is very good at present.

Cotton picking is all the go now and we are having lots of rain and the most of us have lots of cotton in the field. We have a very good Sunday school and prayer meeting at Shady Grove.

Rev. J. P. Morgan will preach at that place next Thursday, September 26th. We expect to hear something good.

Mr. Calvin Moats left Saturday afternoon for Talladega deaf school. We wish him much success.

Mrs. Essie Calloway is visiting relatives at Billingsley this week.

I will ring off for this time.

With much success,

A BLUE EYED KID.

Come to Clanton next Monday, Tuesday and Wednesday, buy a lot in the best town in Alabama.

PROGRAM

For the Chilton County Baptist Sunday School Convention to Be Held at Liberty Hill Baptist Church Saturday, the 12th Day of October, 1912.

9:30 a. m. Devotional exercise, by A. L. Foshee.

9:45 a. m. Welcome Address, by Wm. Wood.

9:45 a. m. Song Service, by J. H. Franklin.

10:00 a. m. The best way to bring church members under obligation to attend Sunday School, by T. E. Williams, John Parish.

10:30 a. m. Best Teachers for Little Folks, by Prof. Session, W. H. Shaw.

11:00 a. m. Sermon by Wm. Olive.

12:00 m. Dinner.

1:30 p. m. What is the Best Plan for Teaching a Sunday School Lesson? By S. M. Adams, Wm. Wm. Olive, E. H. Parish.

2:00 p. m. What Are Some of the Duties of a Superintendent During the Week. By N. J. Calloway, John Wallace, Judge E. B. Deason.

2:30 p. m. What Are the Duties of the Superintendent During the School Session.

3:00 p. m. Miscellaneous Business. General Discussion.

All Sunday Schools are requested to send delegates, especially the schools in the Northwestern District of Chilton County. It is expected that dinner will be served on the grounds, so come with good appetites and big baskets and we will spend a good day. Preachers especially invited.

N. L. BROADHEAD, President.
MISS HATTIE DAVENPORT, Secretary.

Committee on Program.
JOHN WALLACE,
WM. WOOD,
W. F. ATCHISON.

ENSLEY, ALA.

Editor Union and Banner:

Please allow me a small space in the Union-Banner for a few lines from the progressive steel city. I was surprised to see so little in last week's union on the subject of Progressiveism. We are now living in a progressive age and the time has come for a progressive party to control the affairs of our great country. How can the voters of Alabama let such a party as we have now in control exist any longer? A party that has run our state in debt a million dollars and has drained our county's treasury and now wants to pass the Bond issue to borrow more money. They have also raised our taxes to the top notch. A party that has enacted a law giving the barkeepers of Alabama a protection of five thousand inhabitants to each bar in a city, saying nothing of the patronage these bars get outside of the city of five thousand inhabitants. Suppose some one else wanted to go in the bar business in Birmingham, could they do it? No, he could not, as we have a bar to every five thousand inhabitants. Does such a law give each man an equal show, or is it class legislation and protection, or is it equal rights and free trade.

I will let the reader answer for himself. I believe the time has come or is near at hand when the people will no longer submit to such a party but will rise up in a mighty army and with their ballots put to death the party that has run our state in debt a million and drained our county's treasury.

The two old parties are no longer efficient instruments for safeguarding the common good. They are boss riden and machine controlled. Let us fight for the Roosevelt platform which is broad enough for all human rights, a platform that will bring prosperity to the farmers and producers, laborers and manufacturers and corporations. This we have got to have to give us a prosperous country.

What is the result of the dissolution of the Standard Oil company made by the government? Kerosene oil has advanced 3 1-2 to 4 cents per gallons and gasoline about 10 cents on the gallon, the latter being about double the price paid before the company was dissolved by the government.

We should not forget the administration Mr. Roosevelt gave us while he was president of our nation and especially should we remember the administration of old Chilton county when those had control of the county affairs who now are with the Progressive movement. There was a straw vote taken a few days ago on the streets of Ensley where there were a crowd of 47 and 25 of them voted for Teddy and the Bull Moose. Much discussion was given the question and the Bull Moose bunch were all enthusiasts and offered some wagers as to the success of Teddy in the coming election.

I hope to see old Chilton win in the coming election by at least two to one in favor of the Progressive ticket.

Respectfully,

A. A. JACKSON.

PROGRAM.

Program for 5th Sunday meeting of Chilton county and Unity associations, at Bethsalem church, September 27-28-29, 1912.

Friday.

7. p. m.—Sermon by R. H. Long.

F. M. WOODS,
W. J. REDDICK,
J. M. BILLINGSLEY.

TWO MORE TESTIFY FOR DR. J. V. HIGGINS.

Calera, Ala., Route No. 1

Dr. J. V. Higgins, Clanton, Ala.

Dear Doctor:

My glasses are just fine, I would not do without them for anything. I certainly will recommend you to others.

Yours truly,

J. R. CRAMSON.

Thorsby, Ala., Route No. 1

Miss Olive Foshee was fitted with a fine pair of glasses and a few months later thought she was probably not fitted correctly and went to Birmingham to a doctor and the Birmingham doctor told her that she had the right prescription over her eyes, and her father, Mr. Fate Foshee was nice enough to call in my office and give in the above statement as a testimony and I sure want to extend my sincere thanks to Mr. Foshee and Mr. Crawson for recommending my work on eyes, for you know there is so many patients that I never hear from unless some thing happens to the frames or a lens get a little out of true, etc., and lines them a little trouble then of course they come at me with both feet ready to jump right into me, see.

The above, Mr. Crawson is 52 years old and has never been suited with a pair of glasses before and has several of these here cheap specks for 50c to $2,50. He paid me $10.00 for his glasses.

The Miss Foshee has a $12.50 pair of fine ground glasses. She came to me suffering with severe headaches. Now ask her or her people if she regrets her money she paid me for the glasses.

Now please dont let the above prices run you away from buying glasses from me, I keep plenty of glasses at 50c a pair and up to sell where people love money better than they do their health. I will appreciate your patronage whetner you want to buy you some cheap glasses or if you desire to have your eyes examined and treated with fine ground eye glasses.

Suppose you call in and talk to me about your eyes it wont cost you a cent.

Yours truly,

Dr. J. V. HIGGINS.

MOUNT PLEASANT.

The all day singing at this place last Sunday was well attended. The opening song was led by G. W. Melton, followed with prayer by Bro. Nelson. G. W. Melton was elected chairman for the day, and Profs. R. A. Smith, D. T. Melton and J. W. Lowery were appointed as the program committee. The singers for the day were Profs. C. N. Oden, E. E. Smith, Bart Oden, J. W. Lowery, D. T. Melton, W. G. Culp, J. T. Henderson, R. A. Smith, and G. W. Melton. The organists were Miss Lizzie Oden, Mrs. Belle Dorminy, Profs. C. N. Oden, and W. G. Culp.

Mr. Jessie Scroggins visited relatives in Coosa county last week.

Mrs. Emma Kelley of Texas visited relatives in and around here last week.

Mr. Jim Dennis was in Rockford part of last week.

Mr. Stephens of Thorsby spent one night last week at Lee Vickers.

Mr. Tom Teel attended the Primitive Baptist Association in Shelby County last week.

Mrs. A. I. Collins recently visited her daughter Mrs. L. R. Robinson.

Mrs. Ella Foshee is spending the week with relatives at Saginaw.

Mr. Porter Payton and family of Jemison spent Saturday and Sunday with his father - in - law W. J. Blankenship.

Mr. Oliver Culver of Coosa County is visiting his brother Alford Culver.

Mr. J. D. Collins, our nominee for tax collector, attended the singing here last Sunday. Mr. Collins and the rest of the ticket will carry this community ten to one or more.

LITTLE VIEWER.

LOST A FINE DIAMOND.

Mrs. W. H. Sartor found it in her shawl. Then of course she got Higgins, the Jeweler and Diamond Setter to reset it in a nice Ring Mounting. Why not have Higgins, the Diamond Setter to examine your ring to see if the Diamond is safe? It might pay you large inteseet on a new mounting. I appreciate Mr. Sartor's patronage.

Right Doing.

Practical duty enriches the heart and the heart, and action steers and deepens the affections. No one can have a true idea of right until he does it, only practice reveals and to will the true deed in action and with zeal, purpose faithfully to do it till he does it, gives true wise growth.—J. Martineau.

COUNTY EDUCATIONAL BOARD

The County Educational board of Chilton County will be in session at Clanton on the first Friday in October, November and December, 1912, and first Friday in January, 1913.

Wm. J. Billingsley, Chairman.
J. C. Veazey, Secretary.

When you have an achey, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malarial germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 50c. Sold by Upchurch Drug Co.

THORSBY NEWS.

Mr. Sam Collins has returned to Thorsby. We are glad to state he is looking much better and is feeling much improved in health.

Pastor Trasper left Thorsby Monday morning for his new field at Evarts, Ky. A crowd gathered at the depot to bid him farewell and God speed.

Last Saturday night the young people's Bible Class went on a hay-ride. They were accompanied by their teacher and several invited friends.

Sunday morning pastor Trasper preached his farewell sermon. The band played several beautiful and touching selections. At the close the congregation sang Brother Trasper's favorite hymn, "Blest Be the Tie."

Last Saturday night the boys including the band planned an serenading the newly elected mayor but their plans were broken into by the report that a horse and buggy had been stolen which occupied the attention of the mayor and marshal the balance of the evening.

Mr. Calvin Pugh was seen in town this week.

Judge Adams preached at the Methodist church last Sunday morning. He filled the pulpit in the absence of Pastor Olive.

WHAT SHALL BE DONE WITH REBELS?

THIS QUESTION PUZZLES THE NATIONAL GOVERNMENT.

FEDERALS DEMAND THEM

Murder Charge Lodged in Extradition Procedure—May Be Tried in the United States — Violating the Neutrality Law Is Charged.

Washington.—The disposition of Mexican rebels who are deserting and crossing the boundary into the United States, or are being chased across by federals, threatens to become a perplexing problem. Without precise knowledge on the point at the war department, it is assumed most of the men and certainly the members of Gen. Orozco's personal staff and his father, who were captured by Capt. Mitchell at Presidio, Tex., remain in the custody of Gen. Steever. He can not keep them indefinitely, however, and it is expected at the war department they will be turned over to officers of the department of justice or released if no charge is lodged against them under guarantee that they will not undertake hostile action against Mexico while in the United States.

It is possible that the prisoners may be tried in the United States, not for any act committed in Mexico, even the alleged killing of an helpless American prisoner of war, but on charges of violating the neutrality laws. It is believed, however, that they will be treated leniently and that, if through the speedy collapse of the rebellion, the issue of an amnesty proclamation is possible, they will be permitted to take advantage of its provisions.

AMERICA'S FLEET LARGER

Mobilization at New York Will Surpass German Review.

Washington.—Both as to number of vessels and weight of guns, the Atlantic fleet which mobilizes in New York harbor, October 12-15, will surpass the German fleet which Emperor William reviewed off Heligoland in the North Sea.

Of the 122 American ships to be mobilized next month, 34 are battleships as against the 22 German battleships assembled in the German review. The American fleet will be armed with eight 12-inch guns, while the German ships have no guns of that bore and only 48 11-inch guns, as against 148 12-inch guns on the American vessels.

WHISKEY IN HER CLOTHES

Russian Woman Adopts Novel Expedient for Bootlegging.

Ft. Smith, Ark.—An innovation in the art of bootlegging intoxicants into Oklahoma from this city was discovered by prohibition special government enforcement officers in the person of Mrs. Lizzie Pherenoff, a Russian, residing at Wilburton, Okla.

The officers found eighteen quarts of whiskey and five quarts of whiskey concealed in her clothes while she was riding on a train en route for Wilburton. The woman wore a union suit made of canvas, which contained a pocket for each bottle of liquor. The joy water was confiscated and the woman released.

MILL FATHER, THEN BABE

Child Brained in Mother's Arms—Posse Catches Two Accused.

Jasper, Ga.—Charged with having shot and killed Matt Hughes from ambush and then to have brained his baby to death while it was in the arms of its mother, Jasper and Ves Painter were brought here and placed in jail. Revenge for alleged information given the authorities by Hughes regarding the illegal whiskey distilleries is believed by the police to have been responsible for the crime.

Mrs. Hughes was attempting to drag the body of her husband inside their home when she was attacked by the ambushers, who brained the babe. She is in a serious condition.

American Ranches Raided.

Mexico City.—The recent sacking by rebels of the ranch of the American Rothschilds near Laguna, in the western part of Michoacan, not far from the Pacific coast, was reported by consular advices. The raiders drove off the manager of the ranch and secured about 4,000 pesos in money.

Women Conductors.

Philadelphia. — The street railroad company here is experimenting with women conductors on its new pay-as-you-enter cars. On the new cars the conductor is merely a cashier. She sits behind a desk, receives the fares, makes change and records the receipts.

New Altitude Record.

Villa Coublay, France.—Georges Legagneux, a French aeronaut, established a new world's record for altitude here, his machine attaining a height of 5,600 metres (18,372 feet).

Dr. Wiley Will Talk.

Washington.—Conservation of human life will be the keynote of the fortieth annual meeting of the American Public Health Association. Dr. Harvey W. Wiley will make the address of welcome to the visitors tomorrow.

Insane on Graft Cases.

New York.—The Rev. Dr. William Sherman, secretary of the board of education, who had a controversy with Mayor Gaynor over the police situation, was arrested in the mayor's office and removed to Bellevue hospital for observation as to his sanity.

CROP EAST OF RIVER SHORT OF LAST YEAR

COTTON IN WEST FRUITED ABOUT LIKE CROP OF 1911.

INSECT DAMAGE IS SMALL

Danger From Frost of Average Date Is Comparatively Small Except in Oklahoma, Northern Texas and Tennessee.

West of the river, owing to good seasons, with few drawbacks, the crop has gone on in good shape for nearly the entire season. In this section the plant is well advanced and much picking has already been done. Taken as a whole, the crop on that side of the stream is from 60 to 75 per cent. opened, although in Oklahoma there is probably more late cotton than in any other state. Much of this is in danger of frost. In the west the plant is heavily fruited—most correspondents estimate as heavily as last year.

In the east only a small portion of the crop is opened, although it is estimated that a very small portion is in danger of frost of average date, except in Tennessee, where the plant is still vigorous. The plant over the entire section is late, but has not fruited heavily—estimates place it from 50 to 75 per cent of last year—and as there is little promise of top crop it is believed that picking, when once well started, will not last for long.

The insect damage to the crop has been small when compared with other years. Considerable boll weevil have appeared in Mississippi and Louisiana, but a fairly good crop was made before their appearance. Elsewhere the damage from insects has been negligible.

Correspondents size up the crop about like this:

Carolinas—Crop much below last year. Little in danger from frost.

Georgia—Crop very short—from 50 to 65 per cent. of last year. Almost no danger of frost.

Alabama—Estimates average fruitage at about two-thirds of last year.

Mississippi—Some sections expect good crop, others poor, but nearly all below last year.

Tennessee and Missouri—Good crop promised, but it is late and in danger from frost.

Arkansas—Much diversity of opinion but generally below last year.

Oklahoma—Most estimates for best yield in history of state, with late frost.

Texas—Average about the same as last year.

Louisiana—Fruited about like last year, but more of it may escape boll weevil.

CUBA IS NEARING CRISIS

Last Dollar of the $16,500,000 Speyer Loan Spent.

Havana.—It is felt generally here that Cuba is approaching a crisis in its history as a republic.

That the treasury is empty; that the last dollar of the $16,500,000 Speyer loan has been spent, while the work of sewering Havana, the principal purpose for which the plan was authorized by the United States, is not only not half finished, but in danger of interruption, if not of abandonment; that the government is at its wits' end to find money to meet its vast expenditures, while receipts from customs and the lottery have reached their lowest point—all this is asserted by the enemies of the government, and most of it frankly admitted by all. Everywhere it is asked how long can this state of affairs continue?

Last month the government defaulted, for the first time, on the acount due to the sewering and paving contractors for work done in July, amounting to about $420,000.

Mexicans Ask Diaz to Return.

Mexico City—A secret petition, asking that Gen. Porfirio Diaz return, take over the command of the combined federal and rebel armies and seize the presidency of Mexico, is being circulated here. The sponsors of the petition, who have secured the former president's assurance that he will come back if the people of Mexico demand it, are keeping under cover, but it is known that similar petitions are being presented to the people in other cities of the republic.

Three Aviators Killed.

Freiburg, Saxony.—Two German military officers were killed while flying near here. This makes the third double fatality in Europe within the present month in which members of army flying corps were the victims.

Women Handled Roughly.

London.—Suffragetes, who today attempted to break up a meeting addressed by David Lloyd-George, the chancellor of the exchequer at Llanystumdwy, Wales, were given short shrift.

The chancellor hardly had opened his mouth before the familiar cry of "Votes for women" was heard. Other shouts followed, and the crowd, losing its temper, handled the women roughly, some of them falling to the ground and being trodden on.

Father May Kill Defending Daughter.

Oklahoma City, Okla.—Presiding Justice Henry M. Furman of the criminal court of appeals held that a parent who shoots in defense of his daughter is not a criminal and reversed the five-year sentence imposed upon C. M. Litchfield who killed Bob Collins. Litchfield's 18-year old daughter accompanied Collins to a lake and he attempted to assault the girl, and while the girl struggled the father, and while the [illegible] struggled the father, killing him.

AMERICANS SLAIN IN COLD BLOOD

FEDERAL COMMANDER IN NICARAGUA HACKED TO PIECES.

UNCLE SAM IS SUPPORTED

Central American Diplomats Say This Country Has Not Been Too Strong in Fighting Zelayaism—Peace Will Be Forced.

Washington—Nicaraguan dispatches to the state department indicate that the American first named as Phillips, who was murdered by the rebels with another American named Dodd at the battle of Leon, on August 19, really was an American named Cravens, although no more is known of him.

It is developed that Craven, badly wounded, was carried by Dodd to a hut, where the rebels fell upon them. Neither was armed and they were murdered in cold blood. Gen. Zeledon, in command of the federals, was hacked to pieces with a machete by women.

Central American diplomats expressed the general opinion that the United States in its note on the Nicaraguan situation and the Central American danger from the revolution had not been any too strong in its demands that peace be restored and Zelayism be prevented from returning.

There was no difference among the diplomats as to the general desire among the governments of Central America to keep anything like Zelayism from gaining power.

AMERICANS EXTRAVAGANT

Billions Spent for Liquor, Automobiles, Jewels, Etc.

Washington.—Startling figures relative to the way Americans spend their surplus capital are embodied in the statements given publicity at the first session of the International Congress of Hygiene and Demography. The white slave traffic draws annually from the spending money of American manhood the astonishing sum of $3 000,000,000. By far the largest item in the list of expenditures over and above the simpler necessities of life is this tax on the pocketbook of the sons of America. It exceeds either the expense of alcohol or tobacco and is but a fraction less than the combined costs of these two extravagances.

The tabular list of American expenditures is as follows:

White slavery	$3,000,000,000
Intoxicating liquors	2,000,000,000
Tobacco	1,200,000,000
Jewelry and plate	800,000,000
Automobiles	500,000,000
Church work at home	250,000,000
Confectionery	200,000,000
Soft drinks	1,200,000,000
Tea and coffee	1,200,000,000
Millinery	90,000,000
Patent Medicines	8,000,000
Chewing gum	13,000,000
Foreign missions	12,000,000

Removed by Forceps.

New York.—Slender forceps were used successfully at the Lutheran hospital in removing a pearl breastpin which 18-year-old Olga Martin swallowed two years ago. It had gone down her windpipe and lodged in her lungs. It was located by X-rays.

Longworth for Taft.

Cincinnati.—In a statement before the Republican county central committee here, Nicholas Longworth, congressman from the First Ohio district, and son-in-law of Col. Roosevelt, made the following expression regarding his attitude in the coming election:

"If the question be asked as to my present position, I reply that I am, as I have always been, a Republican, and I shall support, as I have always supported, the Republican ticket.

"At the same time I want it understood that as a Republican I am a progressive."

$10,000 Damage Suit.

Chicago.—Suit for $10,000 damages was filed in the circuit court under the dramshop act in behalf of Theodore and Siebert Shanklin, five and seven years old, respectively, whose mother, Mrs. Bessie Shanklin, was shot and killed at their home by her husband, Benjamin Shanklin, while he was under the influence of liquor and who then committed suicide. The defendants are John R. Fitzpatrick, a saloon keeper, and Charles Kaeppel, owner of the property on which the saloon is situated.

NICARAGUAN REBELS ATTACK U. S. TROOPS

FIGHTING WAS FIERCE, BUT LOSSES NOT KNOWN.

REBELS DEFY AMERICANS

Two British Subjects Reported to Have Been Murdered at Achuapa by Rebels—Southerland Asks Reinforcements.

Washington.—Severe fighting between American naval forces and Nicaraguan revolutionists is believed to have occurred near Barrancas, although reports from the scene are so meager officials here have no idea of what has happened. Rear Admiral Southerland is in the field, probably with upwards of 2,000 men, and if plans have not miscarried he has cleared the route of the National railway of opposing rebels and relieved the famine-threatened city of Granada.

European attention to affairs in Nicaragua at this time is believed to be one of the possibilities of the situation. The United States in sending relief to the beleaguered city of Granada, populated by many foreigners, had hoped to avert any pretext for landing European military or naval forces on Central American soil. The British consul-general at Managua and the British vice-consul at Matagalpa have reported two British subjects murdered by the rebels at Achuapa.

It is expected, however, the British government, before taking action upon its own account, will await results of the American campaign.

A delayed cablegram from Admiral Southerland, reporting that American bluejackets and marines were fired upon as they attempted to open the railway, reached the navy department. Delayed reports said the Granada relief party had been fired upon; that the officer in command had halted and sent to Managua for reinforcements and that Admiral Southerland had gone to the rescue with two companies of marines and a detachment of sailors.

MILLIONAIRE TO ROCK PILE

Frederick Pinkus Tried to Kidnap Unprotected Girl.

New York.—Frederick Pinkus, millionaire linen manufacturer, will spend eleven days in the workhouse on Blackwell's Island because he tried stone age methods of kidnaping Miss Elsie Hutter, 22 years old, right under the white lights of Broadway.

According to the girl, Pinkus, riding in a large touring car, overtook her as she was waiting for a car to go to the home of her brother at 2 o'clock in the morning. He offered to take her home; she refused to go. So Pinkus dropped his cigarette case. As she stooped to pick it up, another man in the car seized her by the shoulders and dragged her inside.

Her captor, according to Miss Hutter, tried to kiss her. She replied with a jab from her hatpin. Sergeant Quinn and a policeman were standing on Seventh avenue when the car bearing the screaming girl bore down upon them. They sprang in front of the automobile, rescued the lady, who was about to leap from the arms of her admirer, and arrested Mr. Pinkus and a "Mr. Winchester, Jr.," of New Rochelle.

Boys Protest to Mayor.

Baltimore.—Carrying banners setting forth their grievances in glaring words, half a hundred school boys, whose ages range from 6 to 15 years, protested to Mayor Preston against their school being taken from the white pupils and given over to negro children. The school board recently transferred the pupils of public school No. 81 to other schools because it is in an almost exclusively negro district. The board's refusal to restore the school to the white residents led to a strike of the children.

Temperature Takes Drop.

Amarillo, Tex.—This section of the Texas Panhandle is in the grip of what promises to be the coldest September ever recorded. Following pleasant weather the temperature dropped to 46 degrees.

Frost in Panhandle.

New Orleans, La.—A light frost Friday night in the Texas Panhandle and the western and extreme northern portions of Oklahoma is reported in a special bulletin issued by the local weather bureau.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

Two persons were fatally injured and eighteen others more or less seriously injured when Louisville and Nashville passenger train No. 37, bound from Cincinnati to the south plunged through an open switch a quarter of a mile north of Kiserton, Ky., throwing the engine from the track to another and wrecking eight freight cars on a siding. The fatally injured are Fireman Joseph Faulkoner of Covington, Ky., and Engineer Rusk of Paris, Ky.

A package containing $55,000 mysteriously disappeared in transit from the First National bank of Pensacola, Fla., to officials of the Louisville and Nashville railroad at Flomaton, Ala. The money was part of a shipment of $75,000 intended as a pay roll, and was in bills of small denominations. Reports were current that the westbound Louisville and Nashville train had been held up and robbed, but this was emphatically denied by railroad officials. Private detectives and special agents of the railroad and Southern Express company are investigating the affair.

Gen. Charles D. Elliott, commanding the West Virginia troops in the field, arranged to carry out a possible order from Governor Glasscock extending the martial law district in the Kanawha coal country. One cause for alarm is the testimony being given before the commission investigating conditions in and around the coal mines, miners declaring that they have been arrested and fined and their fines collected through the companies by which they were employed.

General.

Sidna Allen and his nephew, Wesley Edwards, arrested in DesMoines, Iowa, after having eluded detectives for many months, found a great crowd many from distant parts of the country, waiting to get a glimpse of them, when they arrived at Hillsville, Va., from Roanoke under detective guard. They will be arraigned before Judge Staples, in the Carroll court, the scene of the shooting in which they are implicated.

David Swihart was stabbed to death at Wewoka, Okla., during a political debate, and Berry Schrimpacher, under arrest in connected with the killing, hanged himself in the jail at Wewoka, avowing, in a note, found in his cell, that he died happily in the knowledge that Swihart, whom he described as his political opponent, was dead. The trouble arose when Swihart announced his approval of arguments advanced by a political speaker.

In a report on the Panama canal and pan-American trade, John Barrett, director general of the Pan-American union, who recently made a trip through Europe to study what European governments and commercial interests are doing to get ready for the opening of the canal, declares that every important port of Great Britain, France, Germany, Spain, Italy, Austria, Holland and Belgium "is being improved to the highest degree of efficiency for over-sea commerce."

The taking of testimony in the government's suit for the dissolution of the International Harvester company has been postponed until October 2.

Severe fighting between American naval forces and Nicaraguan revolutionists has occurred in the country near Barrancas, Nicaragua, although reports from the scene are so meager officials here have no definite idea of what ha shappened. Rear Admiral Southerland is in the field, with upwards of 2,000 men, and if plans have not miscarried by this time he has cleared the route of the National railway of opposing rebels and relieved the famine-threatened city of Granada.

Taking of testimony in the government suit to dissolve the International Harvester company, a $140,000 corporation, charging it with a violation of the Sherman anti-trust law, was begun in Chicago before Special Examiner Robert S. Taylor. The defendants include George W. Perkins, Cyrus T. McCormick, Elbert H. Gary, president of the steel corporation; George F. Baker, Norman B. Ream, Charles Deering and Harold F. McCormick.

Robbers blew the safe in the Exchange bank at Leroy, Mich., with nitro-glycerin and escaped with $5,000. The yeggs cut the telephone wires on both sides of the town, and pursuit was thus handicapped.

At Chillicothe, O., seven prisoners made their escape from jail by sawing the bars open.

At dawn when deer invade his orchard of 400 young apple trees on the Old Colebrook road, George A. Howe of Winsted, Conn., who has slept in the orchard all summer to protect the fruit trees from the ravages of the animals, plays a cornet; the deers run.

The terms for peace between Italy and Turkey have practically been arranged with the exception of a proposed loan to Turkey of between 500,000,000 and 600,000,000 francs. This will be settled soon.

ALABAMA BREVITIES.

Montgomery.—The fact that the fees of Samuel D. Weakley and H. C. Selheimer, specially employed attorneys for the State in the statutory rate cases, have been suspended during a period of no litigation, is not considered significant of any position or intention on the part of Governor O'Neal regarding rate litigation.

It has been known in State Capitol circles for some time that the two attorneys retained by Governor Comer to aid in the defense of the statutory rates have not been on the State's pay roll. Because their work had ended, Governor O'Neal considered the contract with them closed. He retained them, however, to plead before the Railroad Commission the cause of the 2 1-2 cent passenger rate against the raise to 3 cents. The case involving this being postponed by the commission until November, Governor O'Neal ordered withheld the fees which would have gone to them without compensatory labor on their part during the months when no litigation was going on. The two attorneys were paid at the rate of $1,000 a month each.

Montgomery.—After being bitten by a small poodle in a Montgomery picture show, C. W. Blue broke the dog's neck and sent the head to the state Pasteur department. Directors reported that the dog had hydrophobia and suggested that Mr. Blue take the Pasteur treatment at once. Mr. Blue struck the dog with his fist and killed it after it had bitten a piece of flesh from a finger. The lady owner of the poodle threatened to have Blue arrested for killing her pet.

Anniston.—Already claiming the record of being the chief pipe center of the United States, the city of Anniston will get on the map as the greatest pipe town in the world within less than a year from the present, as positive announcement was made by the Anniston Chamber of Commerce of the location of two more big plants in this city with combined resources exceeding a million and a half dollars.

Uniontown.—To see the numerous cotton wagons on the streets of Uniontown one would know the cotton season is on in full blast. The reports of the conditions of the crops have varied according to the locations. In some places the crops are reported large, while in others quite small. The general average estimate in Uniontown will be several bales short of last year's crop.

Clanton.—The case of Edward Martin, charged with the murder of Deputy Sheriff C. W. Cox on August 12, which has attracted so much attention here and which was tried before Probate Judge E. B. Deason some days ago, will again come up for hearing on a writ of habeas corpus on September 27, before Judge Armistead Brown of Montgomery.

Boaz.—That the municipal election at Boaz will be contested is the announcement of W. H. Bartlett, who was defeated for mayor by D. L. Morton. It is alleged that fraudulent votes were cast and unfair means were used.

Anniston.—Hon. Robert B. Glenn, Governor of North Carolina, delivered an address at the Parker Memorial Baptist Church of this city. His subject was the "Solution of the Labor Problem."

Mobile.—It became generally known here that a bill to contest the election of Capt. Pat J. Lyons as a commissioner of the city of Mobile has been filed in the law and equity court. The contestants are J. P. Watts and John Duff, who filed the bill through their attorney, Daniel Cobbs. The bill alleges that many illegal votes were cast for Capt. Lyons in the election, which was held September 2.

Demopolis.—Information was received in the city of the accidental killing of Albert Ellis, head of the Ellis Mercantile Company, at Oak Hill, about thirty miles from Demopolis, by a negro woman quarreling with her husband.

Centerville.—News reached here of the killing of John Espy, a white farmer, aged 60 years, by Ike Powell, white, aged 40. The killing occurred about nine miles north of Centerville. It is stated by those who witnessed the tragedy that Espy was advancing on Powell with an axe when the latter fired, killing Espy instantly.

Anniston.—The war between the city of Anniston and the city of Oxford over a disagreement with reference to sewer and water taps and courtesies has come to an end and the difficulty amicably settled out of court, according to an announcement made this week, and the case will be dismissed.

Fort Payne.—The management of the DeKalb County Fair is doing all in its power to make the fair a success when it opens its doors to the public on November 6 and lasts three days.

Birmingham.—The case of the State of Alabama vs. the Birmingham Southern Railway company in which the state seeks to fix the property assessment of the Birmingham Southern Railway company at $2,700 per mile has been filed in the city court and is the first case set on the docket when the court convenes on the first Monday of October.

Huntsville.—Paul Anderson, a Confederate veteran of Lowe Mill, died after a long illness. His widow and several sons and daughters survive him.

Fried Fish.

Fish fresh from the water and fried in a spider with coarse cornmeal are the height of perfection. Use the meal as you would cracker crumbs and fry in salt pork fat, tried out in the spider, if you can have the fire with safety. Great care should be taken that there is no possible danger of causing brush or forest fires, as so many have been set by careless or vicious campers that most of the country people would rather see beachey cattle in their fields than the careless camper or picnic party.

An Apple Dessert.

Apples are one of the most wholesome fruits, and may be prepared for dessert in a variety of ways. A "different" way, however, is to peel the apples, halve them, arrange in a deep dish, cover plentifully with sugar, add butter and spices, and a very little hot water, and bake a long time in a rather slow oven, turning the dish and the apples once in a while. The result, when the apples are sold, will be a clear amber jelly in the bottom and around the fluffy apples.

Hair Brush.

After pouring hot water through the bristles, let the brush stand in a basin in water and teaspoonful of ammonia for 20 minutes. Rinse and place in sun to dry.

DIZZINESS—DO YOU HAVE IT?

This is caused by the bile being reabsorbed into the circulation. To get rid of this trouble it is necessary to use a good liver medicine to eliminate the surplus bile from the system. St. Joseph's Liver Regulator either liquid or powders does this to perfection. Use it for all bilious troubles and you will soon feel better. Accept no substitute but insist on having the genuine St. Joseph's Liver Regulator. Druggists and dealers, sell it liquid, 50 cents a bottle; powders, in tin boxes, 25 cents a box; five boxes for a dollar.

FOR THE LITTLE ONES

DAINTIES THAT MAY BE GIVEN THEM WITHOUT HARM.

Home-Made Candy and Delicacies Will Tickle the Palates of the Smaller, and Important, Members of the Family.

Penelope.—Three cups brown sugar, cup of milk or three-quarter cup cream, small piece of butter, half pound of chopped walnuts and vanilla. This candy burns very easily, but should be boiled 15 minutes at least. Should almost sugar before removing from fire. Beat as you would chocolate anne.

Penoche.—Two and a half cups of brown sugar, half cup of cream, butter size of an egg. Boil 20 minutes and add half cup each of chopped walnuts and chopped almonds, teaspoon vanilla. Beat well and pour into a buttered pan. Cut into squares.

Taffy.—Two and a half cups brown sugar, half cup butter, four tablespoons molasses, three tablespoons water, two tablespoons of vinegar. Boil 20 minutes, adding teaspoon of vanilla. Cool and pull.

Maple Candy.—Pint maple sirup, tablespoon vinegar. Boil until it will hair or become brittle when put into cold water. Do not stir while cooking. Pour into buttered pans as soon as possible.

Buttercups.—Cup each of sugar, butter and molasses, two teaspoons vanilla. Boil until brittle when dropped into cold water. Pour into buttered tins and when cool cut into squares.

Cocoanut Cakes.—Cup sugar, quarter cup water, let it boil until it hairs from the spoon. Beat white of egg to a stiff froth and pour the sirup slowly into it while you keep beating. Then stir in cup of cocoanut. Drop on buttered paper and bake until brown.

Cream Mints.—Pound confectioners' sugar, white of egg well beaten, two teaspoons ice water, 30 drops oil of peppermint. Mix well and roll on a breadboard. Cut with a cutter about the size of a quarter of a dollar.

Sour Cream Candy.—Three cups brown sugar, cup sour cream. Cook until it just forms in cold water; add butter size of a walnut; teaspoon vanilla; take off and beat vigorously. Just before hard enough, add half pound of chopped walnuts. Pour into buttered tins, then cut into squares.

Cocoanut Squares.—Two and a half cups of granulated sugar, cup cream, butter size of an egg. Boil 20 minutes; add teaspoon vanilla, cup of shredded cocoanut. Beat well and pour into buttered tin. Cut into squares before cool.

Excellent Summer Dessert.

Whip one pint of cream with the white of an egg until stiff. The egg adds to the stiffness and bulk. Sweeten to suit the taste. Have ready some English walnuts ground rather fine, also a dozen dates and half a dozen figs cut into fine pieces. Stir these into the whipped cream. Put in a mold, cover tightly and pack in a bucket with finely pounded ice and salt, as you would ice cream. Let it stand for four or five hours. The quantity given will serve eight persons.—Home Department, National Magazine.

Lemon Curd.

Method—Pour the boiling milk over the crumbs, and when cool add the well-beaten eggs, the butter, one ounce of sugar, and the grated rind of the lemon. Mix well, and then pour into the pie dish. Bake this lightly and let it cool. Spread a layer of lemon curd over the pudding and cover this again with a meringue by whipping the whites of the eggs, with three ounces of sugar, and adding the juice of the lemon by degrees. Return to the oven to set and get well browned. This pudding is best eaten cold.

"Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform by force what should be accomplished by persuasion is Dr. Miles' Laxative Tablets. After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says:

"Almost all my life I have been troubled with constipation, and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long, but begin proper curative measures.

Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money.

Milk Rarebit.

Grate one pound of cheese, add to this one-half cup of cream or milk. One small teaspoonful of mustard, one-half teaspoonful of salt and a pinch of cayenne; stir this in a chafing dish or double boiler until the cheese melts, add a tablespoonful of butter and two eggs beaten light; as soon as the eggs are well stirred in the lights should be turned off, as the rarebit is ready and the eggs should not be cooked for any length of time. Constant stirring is absolutely necessary during the whole process. Serve immediately on crisp toast.

Mrs. J. N. Hill, Homer, Ga., has used Foley's Honey and Tar Compound for years, and says she always recommends it to her friends. "It never fails to cure our coughs and colds and prevents croup. We have five children and always give them Foley's Honey and Tar Compound for a cold, and they are all soon well. We would not be without it in our house." Upchurch Drug Co.

Sheets and Pillow Slips.

Hemstitched sheets and pillow slips are always neat, yet not all housekeepers feel they have time for the work by hand. Draw threads as you would for ordinary hem-stitching, fold the hem and baste along the center of the drawn space, and sew by machine, shortening the stitch and loosening the tension. When you have finished, pull out the basting thread and draw the hem back to the edge of space. You will be surprised to see how quickly the work is done and how nice it looks.

Chicken Hash on Toast.

One cup of chicken meat (cold), one cup of white sauce, half cup of sweet green pepper, one and a fourth teaspoons onion juice, four slices toast, trimmed and buttered. Cut the chicken in quarter-inch cubes, chop the green pepper very fine, add to the chicken and cook all in the white sauce until the chicken is heated through. Use double boiler. Arrange on the toast and serve very hot.

The Much-Translated Bible.

The Bible continues to break all records for translation into alien tongues. Another language has just been added to the long list by the completion of the Ibanag New Testament in the Philippines. The Old Testament is being brought out in the Panayan dialect, and the Pentateuch in Pampangan and Cebuan is ready for the printer. The Kurdish New Testament is well under way, and revisions are being made in Tagalog, Portuguese, the Wenli and Mandarin in China, Siamese, and Zulu. The total issues for 1911, the ninety-sixth year of the existence of the American Bible society, amounted to nearly 3,700,000 volumes, most of these being portions and not entire Bibles. Of the later, however, there were more than 450,000. The total issues of the society during its ninety-six years reach the gigantic figure of ninety-four million volumes.—New York Evening Post.

The artist of the Birmingham Ledger last Thursday produced an excellent cartoon showing two farmers seated on a fence and one remarks:

"Yes, sir, I've always voted the republican ticket, but—"

The other answers "Same here, Cy."

And thousands of farmers throughout the United States are completing the unfinished sentence of the first speaker by adding

"In future I am going to vote for the Progressive ticket, and let the old parties follow on in the course of time."

Take HERBINE for all disturbances in the bowels. It purifies the bowel channels, promotes regular movements and makes you feel bright, vigorous and cheerful. Price 50c. Sold by Upchurch Drug Co.

GOTHAM'S COSTLY GAS PLANT

Second Unit of Immense Establishment of Consolidated at Astoria Is Completed.

New York.—The recent completion of the first half of Unit No. 1 of the Consolidated Gas company's plant at Astoria, L. I., marks another milestone in providing for New York the largest single gas plant in use anywhere in the world, as well as the most economical producing plant, owing to its very magnitude of operations. The first unit completed produces 20,000,000 cubic feet of gas daily, and the half of Unit No. 2, which has just been completed, has a capacity of 20,000,000 more. The entire nine units of which the plant is to be composed will have a productive capacity of 250,000,000 cubic feet of gas daily. The enormous capacity can be realized when it is borne in mind that at present the total consumption of Manhattan and the Bronx is 110,000,000 cubic feet.

The entire plant, when finished, will be larger by far than the giant gas plant of London, which supplies the metropolis of the world. The total cost of the nine units complete will be about $100,000,000.

CHAUFFEUR GIVEN $100,000

Says He Will Stick to His Job Until He Thinks of Some Way of Using Fortune.

Bay Shore, N. Y.—Frank Knight, a chauffeur employed by J. P. Beales, a wealthy summer resident, was notified that through the death of an uncle he had been left an inheritance of $100,000.

"I suppose you will be leaving me now, Frank," said Mr. Beales, after congratulating his driver.

"Not unless you don't want me any more," said Knight. "I like this job and I'm going to stick to it."

Knight says he will put the money in a savings bank until he can think of some way to spend it.

WEST CHILTON.

Rain, rain on the 14th and 15th, the flood came. Nearly all the bridges in this section were injured, fencing washed down, cotton injured and while the continued rains are injuring cotton, they are fine for peas, cane and potato crops. So it is an ill wind that blows nobody good. Everything is very quiet in this part. Politically everything seems satisfied. We don't hear a dissenting voice, not one. The people have nominated men of their choice, good selections, and so they are satisfied.

Mrs. Major Foshee was carried to Selma Saturday evening to have an abscess removed from her neck. News came Sunday morning on an early train that she was doing quite well.

We learn that Mr. Lon Brown will soon close his lumber business here and go to Montevallo to live.

Mrs. Joseph Headley, near the county line, has been quite sick, was carried to Birmingham for treatment, is reported doing well.

There is much talk of building a new Union church on the Montevallo road just north of John Henry's mill, where all Christians will be free to hold religious services. A good work and should be advanced.

Mr. and Mrs. Armstrong, of Randolph, came out to church service Sunday. The service Sunday morning was a study of the International S. S. lesson from a non-sectarian standpoint, closing with a Bereau lesson on Baptism into Christ's death. Type of the Pentecostal Baptism. Baptism with fire, etc. Afternoon had singing in the Harp and Harmony. The sweet strains of vocal music, who can describe them? It is a God-given talent. While it is so much prized by some it is sadly neglected and abused by others. Some of them bear the title of minister. Some people see and hear no beauty in sacred music, their ears seem dull, yet they are keenly alive to property values, their appetites and some to the ludicrous. Often the beautiful poetry from some master mind set to music is far superior to much of the preaching we hear. Where is the preaching that can excel the compositions of "Eastern and Reverential anthems," "What A Friend We Have in Jesus;" "Rock of Ages;" "Antioch;" "Realms of the Blest;" "Loving Kindness," etc. Ah, beautiful poetry set to music seems to almost cause the residents of the supernal regions to meet in close touch with those on earth. Sacred music lifts us up and keeps us in a realm of purity, it drives back the foul vultures and hissing serpents of the night.

Instrumental music is beautiful, but far beneath vocal music. It was stated Sunday evening that an all day singing at the Clanton Court House would be on the fifth Sunday in September in the Sacred Harp and Christian Harmony.

We notice the much talked of Recall is incorporated in the Progressive platform. That is not new in Chilton county, having been introduced by Mr. Wallace C. Elder in a Republican mass meeting at Thorsby some two years ago. It was then adopted by the same people who now make up the Progressive party, who voted for J. B. Weaver, the Populist nominee for President, who voted for William McKinley, Theodore Roosevelt, and William H. Taft. Yes the same independent spirited people.

On the 8th and 9th of October, Mr. J. H. Cole, traveling under the auspices of the International Bible students association of Brooklyn, New York, of which the well known Pastor Russell is President, will deliver a series of lectures on Bible subjects at the Waldrup school house on the Randolph and Jemison road. Services day and night, strictly undenominational, all are invited, ministers especially. The lecturer will probably reach Randolph about noon of the 8th and will hold first service that afternoon.

With bright sunshine and good prices for cotton how the south will vibrate with life and energy.

We hope the people in the November election will do the best for the whole country and give us high prices, business prosperity and not stagnation, for with high prices and business prospering the homes of the American people will be glad.

"AU RE VOIR."

NOTICE OF STOCKHOLDERS MEETING.

To the stockholders of Union State Bank, a corporation organized under the laws of Alabama, and having its principal place of business at Thorsby, Alabama:

You are hereby notified that the Board of Directors of said corporation by action regularly taken on the 2nd day of September, 1912, called a special meeting of the stockholders of said corporation to meet at the banking house of said corporation in Thorsby, Alabama, on Monday the 21st day of October, 1912, at the hour of 8 o'clock a.m., for the purpose of taking action as follows, to-wit:

(A) To change the par value of the shares of the capital stock of said corporation from $100.00 per share to $60.00 per share.

(B) To reduce the authorized capital stock of said corporation to $30,000.00 divided into 500 shares of par value $60.00 each.

(C) To change the principal place of business of said corporation from Thorsby, Alabama, to Maplesville, Alabama.

Witness my hand this the 19th day of September, 1912.

GUY H. GERALD,
Cashier of said Corporation.
TIPTON MULLINS,
Attorney for said Corporation.

T. L. Parks, Murrayville, Ga., Route 1, is in his 73rd year, and was recently cured of a bad kidney and bladder trouble. He says himself: "I have suffered with my kidneys. My back ached and I was worried with bladder irregularities. I can truthfully say, one 50c bottle of Foley Kidney Pills cured me entirely." They contain no habit-forming drugs.—Upchurch Drug Co.

MONTGOMERY EXPOSITION

"The time, the place and the girl", was the way the line ran in the comic opera, but "The time, the place and the Exposition" is the way it reads in the signs of the times right now. The time is October 16th the place is Montgomery and the Exposition is the show to bring your girls to see because its to be the biggest thing ever pulled off in the State of Alabama. At high noon on Wednesday October 16th Montgomerians and visitors in the Exposition City will think its Christmas, New Year's and Thanksgiving all in one as every boat, every engine, every factory and every boy that's got a whistle is going to let it loose and there'll be some noise for the next sixty minutes or noise will go out of business before that good hour. Cannons will roar and flags will unfurl while the Royal Italian Band plays "There's a hot time in the old town tonight".

Agricultural exhibits by Counties individuals and Colleges Boy's corn Club and Girl's canning Clubs.

The first educational display ever undertaken by State authorities bringing together student work for a permanent exhibit for capitol hall.

CENTRAL ALABAMA FAIR.

Historic Selma, the Central City of Alabama will entertain for the first time in its history the veterans of the Confederate Army, members of the Alabama Division, the occassion being the annual reunion and the dates October 16th and 17th. With D. M. Scott as general chairman fifteen committees have been named all of which are activeiy at work preparing to give the old Selma such a reception as the far famed hospitality of this City assures.

In Tuberculosis CAMPS

a part of the regular diet is
Scott's Emulsion
Its highly concentrated nutritive qualities repair waste and create physical resistance faster than disease can destroy. All Druggists.
Scott & Bowne Bloomfield, N J 12-11

Oatmeal Lemonade.

Lemon oatmeal drink is one of which invalids rarely tire. Mix a tablespoon of fine oatmeal into a smooth paste with cold water; then pour over it three pints of boiling water, stirring well all the time; place in a saucepan and boil until the quantity is reduced to two pints. Set it aside to cool, and then pour the clear gruel away from the sediment. Add to this the juice of a lemon and a small quantity of powdered sugar. This may be served hot or cold, and it is good either way.

Blisterless Mustard Plaster.

Mix the mustard with the white of an egg, using no water or other ingredients. This plaster will draw, but will not produce a blister, even on the skin of an infant, no matter how long it is allowed to remain on.

To Relieve Hoarseness.

Pour in a common glass tumbler pure glycerine to the depth of an inch, add one tablespoon lemon juice and five drops of camphor, take teaspoonful as needed.

Peach Ice.

One quart fresh peach pulp, two cups sugar, two cups water, two lemons, one cup cream, whipped.

Put soft peaches through a colander. Make a sirup of the sugar and water and add to the peach pulp. Add the juice of the lemons. Freeze to a slush and then add the whipped cream.

Savory Toast.

Grate the rind of a lemon into two cupfuls of milk, stir in a quarter of a cup of sugar and simmer for five minutes; toast some slices of bread, drop them in the milk for two or three minutes; roll them in egg and fry them in butter. Sprinkle some powdered sugar and cinnamon and serve hot.

Drink for Invalids.

Mix mild lemon or orangeade, add one beaten egg, yolk and white beaten separately.

CALOMEL GIVES ONLY TEMPORARY RELIEF.

So Powerful It Shocks Liver and Leaves It Weaker Than Before. Dodson's Liver-Tone a Perfect Substitute.

Nearly everybody who has ever tried calomel for constipation or a sluggish liver has found that it gives only a temporary relief. For calomel is such a powerful drug that it shocks and weakens the liver and makes it less able afterward to do its duty than in the first place.

This is one of the reasons why The Upchurch Drug Co. would rather sell Alred Drug Company would rather sell Dodson's Liver-Tone to you than calomel. We know that Dodson's Liver-Tone is a pure vegetable liver tonic that will cure constipation quickly and gently without any danger of bad after-effects. We guarantee it to do this with a guarantee that is simple and fair. If you buy a bottle of Dodson's Liver-Tone for yourself or your children, and do not find that it is a perfect substitute for calomel, then come back to the store and get your money. If you don't get value for your money out of this bottle it's your right to expect your money back, and we will gladly give it to you.

TAX NOTICE

ASSESSOR'S AND COLLECTOR'S FIRST AND ONLY ROUND.

We will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County, Alabama, for the year 1912, and Assessing the Taxes for the year 1913.

Hours 8 a.m. to 4 p.m. except where otherwise specified.

Pletcher, Beat 15, October 1.

Clanton, Beat 4, Oct. 29 to Nov. 9, 1912.

TAKE NOTICE that under the new law, we can only make one round. If for any reason you do not pay on this round, you may pay at the Court House at any time before January the 1st, 1913. After December 31, 1912 all taxes become delinquent.

Also please take notice that the new law requires you to meet the Assessor on this round in the Beat in which you live and make your assessment, and that after the completion of the above round all assessments become delinquent.

J. N. DENNIS, Tax Collector.
L. B. POUNDS, Tax Assessor.

THE SAFETY

of the money on deposit with this Bank is guarded by as careful conservative a Board of Directors as you will find anywhere.

That our people appreciate this conservatism, this care for the safety of their money, is evidenced by the continued increase in our deposits and the growth of our general business.

The management given the affairs of this Bank by our Board of Directors speaks well for the future of the Bank and the prosperity of our patrons.

The United States Government deposits with us. Why not you?

The Clanton Bank
United States Depository

Ginning Season Near at Hand

and our entire Ginnery has been overhauled and put in first-class condition—new saws have been put in and we are in fine shape to gin your cotton as soon as you are ready.

Chilton W'house & Mfg. Co.

Why Mastic Paint?

BECAUSE

FIRST—It's pure—every atom of it—real paint manufactured from the finest raw material obtainable.

SECOND—It is made of pure white lead, re-inforced with zinc oxide in the correct proportion, and pure linseed oil. Will outwear, two to one, any straight lead or hand-mixed paint.

THIRD—Warranted to contain no adulteration. The formula appears on every can. Guaranteed to give satisfaction.

"THE KIND THAT LASTS"

FOURTH—Being full-bodied and machine ground, less MASTIC is required to paint a given surface than any other kind of paint or lead and oil. A SAVING OF MANY DOLLARS TO THE OWNER OF THE BUILDING.

FIFTH—In time to come, when painting is again desirable, a surface previously coated with MASTIC remains in perfect condition for repainting.

Specify MASTIC PAINT for your home and secure a beautiful hard, enamel-like finish that will resist best the smoke and gases of the city, the hot sun and severe weather exposure. MASTIC Outside Gloss White is the very whitest house paint made. MASTIC Paint does not discolor and go flat like keg lead in oil, nor peal and crack like the cheap ready mixed paint.

Manufactured by **Peaslee-Gaulbert Co.** LOUISVILLE, KY.
Incorporated

Sold by **UPCHURCH DRUG CO.**

Important to Know

A fresh car of Flour just from the mills, same flour I have been handling. Will sell cheap.

A car of Shorts and Middlings, best feed on the market. Come in and see it before you buy.

I have a car of genuine Texas Red Rust Proof Oats just from Texas.

A car of Milburn Wagons. A car of Buggies bought cheap. Will sell cheap for cash or on time.

A full stock of Ladies Ready to Wear Suits, and all kinds of Ready to Wear just arrived. Remember that I can fix up the whole family.

I have a full line of Furniture, Springs, Mattresses, in fact I try to keep everything the farmers want to buy.

Dont forget that I handle Hart Schaffner and Marx Clothing, and there is none better.

When you have cotton to sell come in and see me, I want to buy it.

I am trying to keep for sale all the farmers want to buy, and buy all they have to sell.

Warm Floors Insure the Children's Health

Cole's Hot Blast Draft on top of the fire burns the coal from the top—burns the gas, which is wasted with all other stoves.

The force of this down draft forces the heat to the base which is made of steel—cannot burn out—and heats the floor.

Thousands of testimonials have been written regarding the base heating qualities of

Cole's Original Hot Blast Heater

The ideal heating stove is one which radiates all the heat thrown off from the fuel—into the rooms—instead of letting it go up the chimney.

The durable heater is the one which will withstand the severe use, year after year, which a heating stove is necessarily subjected to. Sheet steel is the quickest radiator of heat and is used as radiating surface only in Cole's Hot Blast heater. Wherever the fuel comes in contact with the linings—only first quality gray cast iron is used.

Cast iron withstands the wear of the heat from active combustion better than any other material, and the large, sensitive, sheet metal body and base radiate all the heat into the rooms.

Burns Soft Coal, Black, Lignite, Hard Coal, Wood and lighter fuel.

Make your selection now.

Steady Even Temperature Day and Night.

GAMBLE HARDWARE CO.

CHILTON COUNTY FAIR

Chilton County Fair, the old Ladies Department, from 50 years up. State exact age and name, and when made.

Childrens Department, up to 15 years. State exact age and name, and when made.

Everything must be in by 9 o'clock Monday night, Oct. 28th, beginning that morning at 8:30 o'clock.

Everyone that wants an individual Booth in the County Fair, please apply at once to the Secretary and state size wanted.

There will be absolutely no gambling of any kind allowed on the Chilton County Fair grounds.

If you knew of the real value of Chamberlain's Liniment for lame back, soreness of the muscles, sprins and rheumatic pains, you would never wish to be without it. For sale by Alred Drug Co.

I carry a full line of high grade Violin, Guitar, Mandolin and Banjo Strings, Rosin, Pegs, Keys, Mandalin Picks, etc. Higgins, the Jeweler.

Miss Minnie Muse visited B'ham Tuesday in the interest of her business she is showing the prettiest line of millinery ever shown in Clanton and prices are reasonable call and see for your self.

Miss Ruby Gore has accepted position with Miss Minnie Muse as hat trimmer.

Why not buy your watch and chain or fob from Higgins the Jeweler, so you can have a nice selection to pick from? 50c to $35.00.

Mr. Lapsley, of Selma, was in Clanton one day this week on business.

Dr Hosea Downs has removed from Rockford to Verbena where he will practice his profession.

ADVERTISED LETTER LIST.

List of letters remaining uncalled for in Clanton office for the week ending Sep. 21, 1912.

Gentlemen.

Mr. Forner Collins, Mr. J. H. Harris, Dr. Talmage Bryant, Mr. Woodfin Williams, Mr. W. S. Keller.

Ladies.

Miss Alice Williams, Col., Miss Minnie Purl Abcrombie, Miss Elka Scarbrough, Mrs. Maryetta Hawkins, Mrs. Nannie Thomas, Miss Roccia Corners.

The implicit confidence that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by Alred Drug Co.

MINISTERS CONFERENCE.

Ther will be a Ministers conference at Sardis church, of Chilton County Association, Saturday before the fifth Sunday in September, 1912. The program will be published later. The brethren will take due notice and govern themselves accordingly.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

CARD OF THANKS.

We wish to thank our friends and neighbors, also Dr. Hays for their kindness and aid during the illness and death of our darling baby.

May Gods richest blessings rest upon each and every one of you. MR. and MRS. R. J. DOWNS.

Nervous? Thin? Pale?

Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out.

If you think constipation is of trifling consequence, just ask your doctor. He will disabuse you of that notion in short order. "Correct it at once!" he will say. Then ask him about Ayer's Pills, a mild liver pill, all vegetable.

Made by the J. C. Ayer Co., Lowell, Mass.

The Singer Store

will receive a car load of the latest improved high arm Singer Sewing Machines soon, in order to supply the increasing demand for these fine machines. This shipment will leave the factory about August 10th, and I hope to have them in by August 25th or September 1st. This lot of machines will be sold to suit the customer. Old machines taken in exchange.

You can buy oue of these fine machines for one-half down, and the other half next fall without interest, and put in your old machine on first payment at $5.00, or you can buy one on monthly payments of $3.00 down and $3.00 a month, and put in your old machine to make the first payment. A liberal discount allowed for cash.

These machines are too well known to say anything about their merits, and if you are in need of a sewing machine, call on me, your patronage will be appreciated, and the machines I guarantee.

I also carry Attachments, Neebles, Shuttles and Bobbins for all makes of machines. Bands, Cans and the only Machine Oil fit to oil a machine. Several good second hand Machines at a bargain.

Write, 'phone or call oo me when needing anything in my line, and I will take pleasure in serving you.

Former Congressman Bowie Continues to Dissect Erroneous and Misleading Statements by Ex-Gov. Comer in Greenville Speech

Mr. Bowie Demonstrates Conclusively That Many Freight Rates Voluntarily Charged by L. & N. are Lower Than Statutory Rates On Southern Railway Dictated and Approved by Mr. Comer---Long List of Articles, with Comparative Rates, Shown.

Former Governor Comer, in his speech at Greenville, admits that the average rate of freight charged by the Louisville & Nashville Railroad in Alabama, is lower than the average rate of freight charged by all railroads in the State of Georgia. He claims, however, that the statement is misleading and is due solely to the fact that the Louisville & Nashville gave an extraordinarily low rate in the Birmingham District on such articles as sand, lime rock, iron ore, coal, iron and steel. In order that I may do him no injustice, I quote that paragraph of his speech in full:

"Mr. Milton Smith states that his average rate of freight as charged in Alabama is lower than it is in Georgia. This has a trace of truth, but is misleading. In the Birmingham District the L. & N. does 75 per cent of its business and hauls more tonnage in the Birmingham District than in several states combined. This tonnage is largely sand, lime rock, iron ore, iron and steel, and all the rates are its own making, and they are profitable to it or it would not make them. There has never been any coercion. But what has the price at which the L. & N. road hauls sand, lime rock, ore and coal to the Birmingham furnaces got to do with the charges it makes to the farmers, manufacturers, the consumers and producers of Alabama? What bearing has the freight service as rendered the big furnace companies of North Alabama, got to do with the rates on cotton and cotton seed meal, fertilizer, lumber, agricultural implements, etc., to the Butler County farmers at Greenville? And why should Alabama be a party to an overcharge to its two and a quarter million farmers, producers and consumers, by any public corporation, because some satisfactory service has been rendered some other line of industry in the state?"

COMER SERIOUSLY IN ERROR.

To show that Mr. Comer is seriously in error in the contention which he makes, and that the policy of the Louisville & Nashville Railroad has not been inimical, either to the farmer or to the manufacturer, or to the legitimate business interests, I will now set out the rates on a number of articles, particularly affecting the interest and welfare of the farmer, the producer and the consumer and I will compare the rates of the Louisville & Nashville with the statutory rates of the Southern Railway, and I now state that the rates of the Louisville & Nashville on the articles to which I refer were voluntarily established many years ago without the compulsion of any statute. They were established in pursuance of what was believed to be a sound policy, and what that company still believes to be sound. I will further state that by the operation of the Maximum Rate Act, the Louisville & Nashville is prohibited from increasing these rates, whereas, by the operation of the Maximum Rate Act and of the Eight Group Acts, the Southern Railway is permitted by Legislation, sanctioned and approved by Governor Comer, to charge the higher rates stated.

The rates quoted will be for distances of forty miles, this being about the average haul in Alabama; the distances greater and less than forty miles show proportionately the same difference. The letters "C. L." mean "Carload"—"L. C. L." means Less than carload." Unless otherwise specified the rates apply in cents per one hundred pounds. The letters "K. D." mean "Knocked Down"—"S. U." means "Set Up"—"N. O. S." means "Not Otherwise Specified.

Seeds, viz.: Clover, L. C. L.
Flax, L. C. L.
Grass, L. C. L.
Sugar, NOS, in double sacks or in bulk or bbls. or hhds.
Thread, NOS.

Southern's Rates Are Higher.

The rates of the Southern Railway on each one of the above enumerated articles are higher than the L. & N. The average rates on all of the above named articles, for the distance from five to forty miles, are as foNows:

Distance	Road	Average
5 miles	L. & N. R. R.	9.6
	Sou. Ry.	19.3
10 miles	L. & N. R. R.	9.6
	Sou. Ry	19.3
15 miles	L. & N. R. R.	12.6
	Sou. Ry.	23.1
20 miles	L. & N. R. R.	16.1
	Sou. Ry.	23.1
25 miles	L. & N. R. R.	18.6
	Sou. Ry.	27.3
30 miles	L. & N. R. R.	21.3
	Sou. Ry.	27.3
35 miles	L. & N. R. R.	23.9
	Sou. Ry.	31.9
40 miles	L. & N. R. R.	25.9
	Sou. Ry.	34.3
Grand total and average for 40 miles	L. & N. R. R.	17.1
	Sou. Ry.	22.

Numerous other items could be added to the foregoing list on which the Louisville & Nashville rates are lower than the Southern. I repeat, the L. & N. rates are, considering all articles, not only lower than the Southern, but materially lower than any of its principal competitors in this state, and materially lower than the average of all rates in the states through which it operates.

It has always been the policy of the Louisville & Nashville to grant low rates wherever it was possible by so doing to generate a sufficiently large movement of traffic to justify it The Louisville & Nashville has been keen to build up its business, not only by close attention and superior service, but by low rates.

Quotes His Speech and Proves Comer Wrong.

As Governor Comer has referred to the speech which I made in Montgomery during the extra session of 1907, I deem it not out of place to make the following quotation from that speech, which completely states the case as it stands with reference to the Georgia rates:

"But I come to another plank in that platform, which I say they are not obeying, either in its letter or in its spirit; that provision of the platform that we shall have the Georgia rates. Now, I want to discuss that proposition with you, because I consider this whole proposition has centered around the question of the Georgia rates. The Georgia rates are lower than in Alabama on some things, and higher than the Alabama rates on other things, and if you gave the Georgia rates you would lower the Alabama rates on the things on which they are higher, and you would raise the Alabama rates on the things on which they are lower. That would be the Georgia rates, that would put us on an equality with them, but what do they propose? They propose out of five thousand or six thousand rates in both states to select 110 of them in which the Georgia rates are lower and reduce ours to that level, but they absolutely impose a bar against raising those rates in Alabama on articles where the Georgia rates are higher. That is what is proposed by this Legislature.

"The conclusive proof of this assertion is that simultaneously with the demand of Comer, of Alabama, for the Georgia rates, we heard the cry of Governor Smith, of Georgia, for the Alabama rates. Now, neither Comer, of Alabama, nor Smith, of Georgia, wanted what they asked for. Exactly what they did want was this: Comer wanted those Georgia rates which were lower than Alabama, and Smith wanted those Alabama rates which were lower than Georgia. And so the great railroad interests of the two states which had contributed more than any single factor to their growth and prosperity, were to be crushed between the upper and nether millstones of this monstrous proposition."

The whole point of Mr. Comer's insistence is that the rates which the Louisville and Nashville has made which are lower than those of its competitors, it shall never raise, but as to the rates which are higher than those of its competitors, it must reduce them, and not satisfied to reduce them to the level of its competitors, it must reduce them from 15 to 45 per cent below the level of its competitors on more than three-fourths of the articles affected by the legislation. The Louisville & Nashville Railroad does not believe, and did not believe, that the action of the Legislature in this respect was just, (1) because it did not afford it a reasonable return upon its investment, and (2) because it operated as an unjust and unlawful discrimination against it and in favor of its competitors.

Not Engaged In Politics.

The L. & N. is not engaged in any political agitation; it is not supporting or opposing any man for office; it is merely endeavoring to present in a series of articles to the people of Alabama the truth of this case from its standpoint. It is doing so in the confident belief that the great mass of the people of Alabama are anxious to do justice, and that they are willing to be informed in regard to the facts before visiting their condemnation upon that carrier which has been most active and potent in the development of the state.

SYDNEY J. BOWIE.

THAT LUNCH OUT OF DOORS

A Little Forethought Will Do Much to Add to the Enjoinment of the Affair.

Prepare everything you want chilled at your picnic lunch the night before. Do your sandwiches in oiled paper and pack in a box. Put your salad dressing in a can. Wet your prepared salad material very slightly with dressing in paraffine butter cases and put your hard boiled eggs in their shells in paper pails.

Wrap each box, case, or pail, separately in several thicknesses of newspaper and set on ice till morning. Also lay in several newspapers.

When packing the baskets in the morning have one exclusively for chilled foods.

Lay half the chilled papers in the bottom of this basket. Pack all your chilled packages in as closely as possible and cover with the remainder of the papers.

Arrived at the picnic grounds set in a steady place. Prepared in this way food will keep perfectly cold for at least six hours. Your egg pails make useful water pails.

Frozen Peach Praline.

Put the yolks of five eggs into a granite saucepan. Beat them until light and foamy, then add three tablespoonfuls of thick sugar sirup and cook over the water only until the mixture coats the back of the spoon; then turn it into a chilled bowl and beat until it is light. Add two tablespoonfuls of praline powder, one pint of cream that has been beaten solid and just enough thick peach sirup to flavor (a very little will be required), turn it into a ring mold with a water tight cover and bury in ice and rock salt for four hours. Serve unmolded on a platter with the center filled with sliced peaches that have been dusted with powdered sugar.

EXCELLENT WITH COLD MEAT

Chow-Chow One of the Least Expensive and Most Popular of the Appetizers.

On cold meat days chow-chow comes in very handy, taking the place of a salad or more expensive appetizer. Enough of the pickle, too, can be made for one dollar to last all winter.

Chop one peck of green tomatoes, one-half peck of ripe tomatoes, six onions, three small heads of cabbage, one dozen green peppers, and three red peppers, with the seeds of each kind removed. Sprinkle with salt and put in a bag coarse enough for the liquid to drain through. Hang the bag over a wide tin pan and let the draining go on all night. In the morning put the drained vegetables into a porcelain-lined kettle with two pounds of brown sugar, one-half teacupful of grated horseradish, and one teaspoonful each of ground black pepper, mustard, whole white mustard seed, mace and celery seed. Cover with good cider vinegar and boil until clear. Seal hot in jars with tight-fitting covers.

Everlast Yeast.

A yeast that is always ready, in hot weather or cold; in town or on the farm, may be had, if at each baking is saved a small quantity of the bread sponge, before any salt has been used; to this must be added about one-half the same amount of sugar for a preservative. I have used the same yeast in this way for two and one-half years now, and it is as good as ever. Freezing does not harm. No salt should be used. If in warm weather it seems to be without life, try it with a little flour and water, and it will be all right. This makes the finest possible bread.—Home Department, National Magazine.

A Fricassee of Veal.

Cut two pounds of lean veal into small cubes, blanch in salted water, and put into a casserole. Add enough good white sauce to cover the meat, season with salt, pepper, a grate of nutmeg, and three slices of lemon. Peel six or eight mushrooms, add them to the contents of the casserole, cover, and cook slowly in the oven for 40 minutes, stirring now and then, and adding when the meat is quite tender a tablespoonful of cream. Remove the lemon peel before serving.

Wayside Mixed Pickles.

Two quarts of green tomatoes, two quarts of ripe tomatoes, three green peppers, one large ripe cucumber, two bunches of celery, thre large onions, one small cabbage. Chop all together Cover with half a cupful of salt and let it stand over night. Drain off all liquid in the morning. Add three pints of vinegar, two pounds of brown sugar, and two tablespoonfuls of mustard. Cook for one hour and seal.

Marshmallow Meringue.

One-fourth pound marshmallows quartered; one cup English walnuts broken; one pint whipped cream; mix and set in ice box for three hours; serve with syrup, made as follows: One cup sugar, three-fourths cup water; boil until slightly thick, add one cup fruit jam, raspberry preferred; have syrup cold when served. A delicious dessert.

Waldorf Potatoes.

Pare, wash and dry the potatoes. Cut them round and round in curls in the same manner in which apples are pared, having the pieces as long as possible. Lay in cold water an hour. Wipe dry. Fry in deep fat until brown and tender. Drain on soft paper, sprinkle with salt. Serve as a garnish for the fish.

FEW SNAKES TO BE DREADED

North America Fortunate In That It Has Not Many Reptiles That Are Poisonous.

North America, says Allen Samuel Williams in Boys' Life, the Boy Scouts' Magazine, has two kinds of poisonous snakes, one of them the elapine or coral snake—related to the cobras of the old world—found only in the Gulf states and Mexico. They are small and uncommon. The really dangerous serpents are the rattlesnakes of a dozen important species, the copperhead of the eastern United States and the water moccasin of the states south of the Ohio and the Potomac rivers. These three are of the crotalus or pit viper family. As a large proportion of America's camping out is done in Pennsylvania, New Jersey, New York and New England and eastern Canada, it may be reassuring to know that east of the Mississippi and north of the Ohio and Potomac rivers there are but two species of serpents capable of inflicting injury upon or possibly killing a human being—the copperhead snake and the banded or timber rattlesnake, unless account be taken of the dwarf prairie rattlesnake of the middle west, now nearly extinct. Mere mention may here be made of the only lizard to some extent poisonous—the beaded lizard or gila monster of our southwestern deserts.

Swellings of the flesh caused by inflammation, cold, fractures of the bone, tootache, neuraglia or rheumatism can be relieved by applying BALLARD'S SNOW LINIMENT. It should be well rubed in over the part affected. Its great healing and penetrating power eases the pain, reduces swelling and restores natural conditions. Price, 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

Special Marmalade.

At this season of the year the marmalade supply is apt to run low. The foHowing simple and easily made marmalade will be an agreeable addition to the larder: Slice one orange, one lemon and one grapefruit finely, rejecting nothing save cores and seeds. Measure the quantity of fruit and add to it three times that quantity of water. Let it stand in an earthenware dish over night and next morning boil it for ten minutes only. Stand for another night and the next day add sugar, pint for pint, and boil steadily for about two hours until the marmalade jellies. This makes twelve glasses of clear, amber marmalade.

Meat and Pastry Rolls.

Small quantity of cold ham, chicken, or other meat may be utilized for these. The meat should be chopped fine, well seasoned, mixed with enough savory fat or butter to make it shape, and formed into rolls about the size of a finger. A short dough, made, say, of a pint of flour, two tablespoonfuls of lard, one teaspoonful of baking powder, salt and milk enough to mix, should be rolled thin, cut into strips, and folded about the meat rolls, care being taken to keep the shape regular. The rolls should be baked in a quick oven until they are a delicate brown and served hot.

Spaghetti Pl'Italienne.

Cook the contents of one package of spaghetti in a large kettle of boiling salted water, to which has been added one-half tablespoon of butter, one-half an onion and a clove. Boil till tender and drain. Make a sauce by boiling one can of tomatoes with one chopped onion, three stalks of celery cut fine, a little parsley, one-half bay leaf, salt and pepper to taste. Strain and slightly thicken and add four or five shredded olives. Add the spaghetti, bring to the boiling point and serve with grated cheese.

CITY IS BEING MODEL

Riga, Near the Baltic Sea, Becoming a Busy Industrial Center.

St. Petersburg.—The ancient Riga, on the River Dwina, near Baltic sea, is undergoing a great change. The place was founded 1201 by the Knights of the Sword, German order instituted to convert the Letts and Esthonians. It grew in time a fortress of considerable strength. It did not lose the appearance of a mediaeval town with its masonry walls when it was torn down. When Napoleon invaded Russia more than a century ago Governor of Riga burned 2,000 houses. Riga is now being converted into a modern industrial city. The old moat has been turned into a picturesque canal, and its banks have been planted with ornamental trees and shrubs, to provide a popular promenade. The old, narrow, crooked streets of the inner town are being widened and straightened. The suburban quarter, for so long a collection of wooden huts, is being built over into large apartment houses.

Several squares and public gardens and buildings are being constructed. One of the squares is used as a military parade ground. On it stands a Russian cathedral, the city hall and a school supported by the chamber of commerce.

$80,000,000.00 Lost Annually In Wage Earners.

Dr. Sadler estimates that $80,000,000.00 in wages is lost annually by the American people as a result of colds. Lost time, lost wages, and doctoring is expensive. Use Foley's Honey and Tar Compound promptly. It will stop the cough and heal the lungs and throat, sore and inflamed air passages.—Upchurch Drug Co.

Our Sales for 1911 on KIS-KO

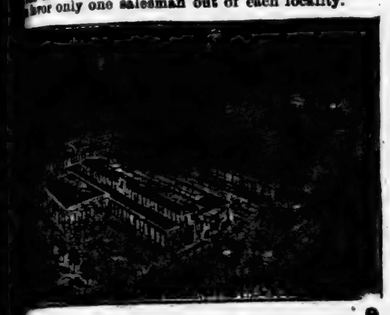
GERSTLE MEDICINE CO., Chattanooga, Tenn.

DO NOT MAKE $200.00 A MONTH - - That's $50.00 a Week, almost $10.00 a Day

Selling Victor Safes and fire-proof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best, clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalog will enable you to present the subject to customers in as interesting a manner as though piloting them through our factory. Men appointed as receive advice and instructions for selling safes, giving talking points which it is impossible for a prospective customer to deny. Why be the first to apply from your vicinity before someone else gets the territory? Error only one salesman out of each locality.



The 25th anniversary of our company was celebrated by erecting the most modern safe factory in the world. Wide-awake men who received our special selling inducement, rendered it necessary to double our output. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars, it will cost you only the price of a postal card.

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee the money will be refunded if it fails to do exactly as claimed.

PRICE 50C AND $1.00 AT ALL DRUGGISTS

Wyeth's Sage and Sulphur Tablet Soap Free to anyone who will send us this advertisement with 10c in stamps to cover cost of wrapping and mailing the soap.

HISCOX CHEMICAL COMPANY, 74 CORTLANDT STREET, NEW YORK

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Director of Evening Department, The Moody Bible Institute of Chicago.)

LESSON FOR OCTOBER 27.

WANDERINGS IN DECAPOLIS.

LESSON TEXT—Mark 7:31-8:10.

GOLDEN TEXT—"He hath done all things well: He maketh even the deaf to hear and the dumb to speak."—Mark 7:37 R. V.

Last week we saw our Lord in the region of Tyre and Sidon dealing with the Syrophenician woman. In v 31 (R. V.) we now see him journeying back towards the Sea of Galilee through the border of that section containing ten cities, for that is what the word Decapolis means.

1. JESUS THE HEALER (vv. 31-37). Jesus had gone north seeking rest but he "could not be hid," and now upon his return he continues to meet these sad cases which need healing, and who are brought to him by their intensely interested friends. Jesus does not need beseeching. He whose heart was touched with compassion is ready to hear the faintest cry.

This first section is rich with suggestions. Jesus takes the man apart suggesting the necessity for individual personal dealing with God. Men are not saved en masse but as separate individuals, it could not be otherwise and have a man retain his personality. To work any cure for our sins Jesus demands our individual attention. Then Jesus placed his fingers in the man's ears; suggesting the added emphasis that we must come into personal contact with God if we would be healed. We may stop to reason (Isa. 1:18) with him but our sins, that be as scarlet, will not be removed unless we come by personal, individual, experience under the blood, (Eph. 1:7).

"His blood avails for all our race,
His blood avails for me."

Moistening the man's tongue with his own saliva suggests that the source of healing is to be in Jesus' own person. Our salvation is not in the words he spake, nor the life he lived, but the life he gave (Heb. 9:12-14).

Fellowship With God.

Jesus also looked to heaven, indicating that we must continue in fellowship with God, and also indicating his own fellowship with the father. Jesus sighed over the wreck of sin. The son of man came to bear our sorrows and to share our griefs. (Isa. 63:9). Attention has been called to the sighs and the tears of Jesus. If our prayers were more accompanied by tears and heartfelt sighs they would be more powerful. (cf. Romans 8:26). It is equally true that if our sighing were accompanied by more prayers we would accomplish more in his kingdom.

After these preliminary and suggestive acts Jesus spoke the one word "Ephphatha"—Be opened—and deaf ears were opened to words of praise and counsel and to the cry of distress. Loosed was the man's tongue to speak his word of personal testimony and to witness for his healer. Read Isaiah 32:1-4 and 35:4, 5.

II. JESUS THE PROVIDER (vv. 1-10, cf. Matt. 15:32-38.)

The tremendous stir Jesus caused is graphically suggested by Mark in verse one of this section. From far and near they had gathered and now at the end of the third day their small supply of food is exhausted. We are told by John (6:26, 27) why they had followed him, still they were deeply interested in him and considered him to be a prophet (John 6:14). Nevertheless Jesus was moved with a compassion then, even as now he is moved when he beholds us in our unworthiness.

No Hunger Too Great.

The compassion of Jesus is a very active principle, it does not consist of sighs and lamentations, or of investigations and condemnation of conditions. His compassion causes him to act. But the disciples are aghast at his suggestion that he feed this multitude of "about four thousand." "Whence shall one be able to fill these men with bread" (R. V.)? On the other occasion Jesus had asked Philip, who lived in the near-by town of Bethsaida, where they might find bread; but now they are in a desert place. It may seem strange for the disciples to ask such a question. He had fed a larger number with smaller resources.

After taking stock (v. 5) Jesus commands the people to sit down. He received their seven loaves (v. 6) and brake and gave, first to the disciples, and through them to the people. Such as they had, first given to him, responding to his touch, was enough and to spare (v. 8). When we give him our all he will bless, multiply and use.

Our Golden Text (v. 37) is suggestive of a wide application in teaching this lesson. We have in this lesson two incidents as illustrations. In both we can see those principles that govern his life and ministry, viz., unvarying loyalty to God and unwearying compassion for poor, weak humanity. As has already been suggested, we also see that the methods of Jesus varied according to the individual need, and always with the unswerving purpose of glorifying God. The same lesson of careful conservation of what remained is taught as in the case of the feeding of the five thousand.

PICTURE WAS NEVER TAKEN

Late Emperor of Japan Refused to Break Rule for Photographer.

London.—The death of Emperor Mutsuhito of Japan has led to the publication of the story of an interesting and expensive journalistic enterprise that failed.

The Daily Mirror says that to obtain a photograph of the late Emperor one of its photographers, who was in China at the time of the recent rebellion, visited Japan. He found he had an impossible task.

"Before I left China to go to Japan," he writes, "I had guessed something of the difficulty there would be in trying to obtain permission to photograph the Mikado and the royal family.

"The matter was laid before the Mikado personally, and the secretary's reply was to the effect that his Majesty could not see his way to break the ordinary rule. He had added that if I had made inquiries beforehand I could have saved myself the journey to Japan. To photograph the Mikado, he said, was absolutely impossible. The pictures that appear of the emperor are reproductions of drawings.

"The secretary regretted that I had had the journey for nothing and finished up by asking me to dinner in the friendliest fashion. So sacred, apparently, was the Mikado's personality that his head did not even appear on either coins or stamps."

Have Best Fed Cats.

Huntington, L. I.—Answering the charges of the women of this place that the cats of the Carnegie institute of biological research are starved, the secretary says the Carnegie cats are the best-fed cats in the world.

Uncle Sam Probes Cheese Holes.

Washington. — Government scientists are working on the problem as to what causes the holes in Swiss cheese and how they can be reproduced artificially.

When Cooking Cereals.

Every housewife dreads cleaning a kettle in which oatmeal or hominy has been cooked.

She will no doubt welcome this information.

First, grease the pan generously with lard and fill it with cold water.

Then add the cereal.

Lard prevents the cereal from adhering to the bottom and sides.

The cereal forms a thin scale, which may easily be removed.

Reducing the Temperature.

A piece of ice placed open in a room in which a patient with a high fever is lying, will, in hot weather, reduce the temperature several degrees, and prove a greater boon for the sufferer than a dozen or so of expensive cut flowers, or jellies and marmalades which the patient will not be able to eat for weeks.

To Cut Thin Materials.

Great difficulty is often experienced when cutting thin materials such as chiffon, net and maline.

If the material is pinned to paper it will remain firm, and the trouble will be overcome.

The Great Antiseptic Pain Reliever for MAN and BEAST.

MEXICAN

Mustang Liniment

The Best Emergency Remedy for Farmers, Stock-raisers and Household use. Speedily relieves Spavins, Swinney, Harness Sores and Galls, Shoe Boils, Strains and Lameness in Horses; Caked Udder and Sore Teats in Cattle and Ailments of Poultry.

SAFE AND SURE.

Being made of oils it soaks down straight to the bone, banishes pain and saves suffering. Only oil liniments can soak through muscle and tissue. Alcohol liniments evaporate before they can be absorbed by the flesh besides they are dangerous when used near a fire or lamp. Mexican Mustang Liniment will not burn even though a lighted match be applied. Mexican Mustang Liniment is THE SAFE as well as the SURE-TO-CURE remedy.

COMMENDED BY A FARMER.

Greensboro, Ga.

As long ago as I can remember I have known of Mustang Liniment. I always keep it in my house and if any of my family get injured in any way, such as sprains, cuts, bruises, and, in fact, in many accidents that happen I always use Mustang Liniment. On my horses and stock I never think of using anything else—it is far cheaper than doctors' bills. I commend it to all farmers; it will keep their families and also their horses and stock in condition. Very truly yours,

J. D. ANDREWS, farmer.

FREE Send 10c in stamps for Mustang Liniment Horse Book, 21 pages, illustrated, describing all diseases of horses and cattle, and how to cure them. Also contains many receipts of value to every farmer and stockman.

LYON MFG. CO., 21 South Fifth St., BROOKLYN, N. Y.

Best Disinfectant.

Sun is the best possible disinfectant. Let the rays of the sun penetrate and disintegrate all organic substance. Let it flood the rooms which should be occupied whenever it is possible. Sunlight is healthful, building in its direct rays for a very bright morning. Dwellings that have a stuffy smell are a menace to the health of the household.—Ex.

Antoine Deloria, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."—Upchurch Drug Co.

NEW OFFICES AND ADMINISTRATIVE BUILDING.

Erected This Year at The Alabama State Fair Grounds.

PROPER USE OF FATS

FROM DIFFERENT SOURCES THEY HAVE DIFFERENT USES.

Home Rendering of Suet and Beef Lard Always to Be Recommended —Economy Practiced by the German Housewife.

Fats that are derived from the cooking of bacon, ham, chicken, beef and other meats should be kept, each in its own receptacle, to be used for different purposes.

Home rendering of both suet and leaf lard has its advantages, because the product is generally superior to what can be bought for the same price.

Both suet and leaf lard require cooking in order to loosen the fat from the tougher membrane that holds it. For this purpose the material is cut into small pieces and covered with water and allowed to cook slowly for some time until no more water remains.

A better method for suet is that used by German housewives, who economize on butter by the use of beef fat more than do American housekeepers. The suet is cut in small pieces and covered with water, in which it is allowed to soak for a day, the water being changed once in the time. It is then drained, the scrap has turned to a light brown, and put into an iron kettle with one-half teacup of skimmed milk to every pound of the suet. It should be cooked very slowly until the sound of boiling entirely ceases.

When it has partly cooled it should be carefully poured off. This fat has no unpleasant taste or odor, and in many recipes may be substituted for part of the butter. Some cooks add a pound of leaf lard to four or five of the suet; this makes a softer fat, as lard has a lower melting point than beef fat.

An old-fashioned method of clarifying fat from the soup kettle, or from cooled meats, so that it may be used in the kitchen, is to add the cold fat to a liberal quantity of cold water, then heat slowly and let cook for an hour or more. When cold, the cake of fat is removed and the lower portion, which will contain the small particles of meat, etc., should be scraped away and the white, clean fat saved. If the flavor or color of both are not satisfactory, the process may be repeated several times. Another method which is often recommended is to cook a number of slices of raw potato in the boiling fat.

When an ice chest is used, fat in small quantities may be easily kept sweet for cooking purposes. If lard is rendered at home in quantity sufficient for a long time, it should be kept covered in tins or earthen jars, in a cool, dry place, as in a cellar or storeroom.

Worth Knowing.

How many know that to let silver stand in sour milk a half hour, then wash in good soapy water, will make it look as bright as to polish it with silver paste?

When lace curtains are ready to be washed, baste a narrow strip of muslin along each outer edge and let remain until ironed (or drying process is completed) and you will find your curtains are straight and do not sag as usual.

Tar may be removed from the hands by rubbing with the outside of fresh orange or lemon peel and drying immediately. The volatile oils dissolve tar so that it can be rubbed off.

To clean knife handles or any bone article it is a good plan to use salt and lemon juice. First rub the article well with the lemon juice and then with the salt. This will remove the stains and grease spots.

SUN'S RAYS OPERATE DEVICE

Western Man's Great Love of Rest Leads to Unique Device.

Klamath Falls, Ore. — We see stories of the meanest men, the stingiest, the laziest, etc., but Klamath Falls has a combination of laziness and inventiveness which is hard to excel.

This genius likes to sleep with his windows up and curtains as well, but he does not enjoy getting up early. His bedroom faces the east and his slumbers are disturbed by the early rising sun. He has attached weights to the curtains which are released when the sunbeams strike a sensitive plate attached to machinery which acts as a pawl releasing the weights.

To check the sudden stop of the weights, so that there is no unnecessary jar or noise in the working of the mechanism a spring device has been attached.

ALABAMA WOMEN AT STATE FAIR

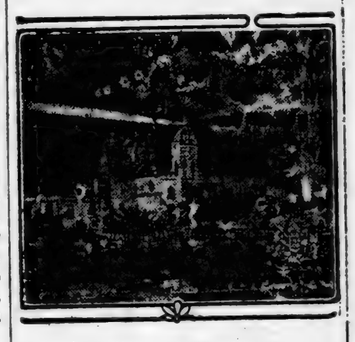
GREAT DISPLAY OF HER WORK AND ART IS TO BE SHOWN.

NUMEROUS IMPROVEMENTS

Mrs. J. B. Reid Continues to Build up Her Department—Other Features.

One of the most popular departments of the entire Alabama State Fair is the Woman's Department, conducted by Mrs. J. B. Reid. The exhibits in this department have grown beyond the attempts at entertainment. They stand for the co-operation among the mothers and daughters, an "endless chain" of home improvement.

Every individual owes the world the influence of their best efforts that



"OLD MEXICO."

Spectacular Pyrotechnic Production to be Shown Every Night of Alabama State Fair.

the example of their labor may strengthen the purposes of those who are hopelessly waiting.

Duty extends through all the offices of life—that duty performed helps the home—the nest of man, from the cradle to the grave, is best, for there it penetrates every act of life and builds a path to eternal good.

Not alone for ourselves, but for others, must we use our energies. If we do not win the gold, we are assured that as we help others we help ourselves best.

"The world needs you, it wants what you produce—you can serve it, and if you will, it will reward you richly."

The year 1912 is a good year for Alabama Farmers, at least that is the record made so far. One way to show how good it is is to make an exhibit at the Alabama State Fair at Birmingham, October 3-12.

Premium Fruit Cake.

Sugar, three cups; butter, one and one-half cups; six eggs; sour cream, one and one-half cups; saleratus or soda, two teaspoonfuls; currants, one-half pound; raisins, three-fourths pound; citron, one-fourth pound; one nutmeg, flour. Directions, beat the eggs thoroughly, then add sugar and butter and beat till smooth; dissolve the saleratus in a little warm water and put in the cream and make the cake quite thin with flour to prevent the fruit from settling to the bottom. Do not chop the raisins, but cut them in halves and remove the seeds; else use seedless raisins. Then scald a few moments to soften, drain and flour (dredge); then before putting into the cake cut the citron in thin slices, and as you fill in a layer of cake put the citron over evenly, then more of the cake mixture and another layer of the citron and so on until the citron is evenly divided through the whole.

Banana Pie.

Line a deep plate with rich crust and bake a delicate brown. Filling: Take a scant cup of sugar in your sauce pan and cream into a generous teaspoon of butter (not melted), beat in the yolks of two eggs and two tablespoons flour, and a cup of boiling water and cook, stirring constantly until thick. Add a little vanilla after this cream is cool. Slice into the crust a layer of bananas alternated with a layer of cream. There should be two layers of each. Frost with the whites of two eggs, beaten still, with two teaspoons of sugar. Brown in oven. Serve cold.

L&N

The Railroad: The Civilizer

With one exception, the railroad is the greatest known civilizer.

As fast as the pioneer's rifle cleared a path through savagery for the march of civilization, railroad builders risked their all that rails might be laid to bring trains loaded with implements for development.

Fertility of the soil is of negligible value until the panting engine has breathed upon the soil the steam of modern commerce. Then waste places are converted into wealth producers; safe and rapid transportation is afforded; the time required to transact business is reduced to the minimum, and the cause of educational and social betterment is advanced.

This is essential for both the country and the railroad. Without fertile soil the people cannot accomplish much, and unless the people take advantage of the opportunity offered to them by the railroad and make the soil produce, the railroad cannot operate.

The interests of the people and the interests of the railroad are therefore identical. The successful agricultural and commercial development of every community must be marked by co-operation between the people and the railroad.

The Louisville and Nashville is fully aware of these self-evident truths; it is seeking to serve the people, to the end that both the people and the L. & N. may prosper.

The Louisville & Nashville Railroad Co.

HOUSEHOLD QUESTIONS

Fine gingham and percales will emerge from the tub with the gloss and dressing of new material if dipped in sweet milk instead of starch.

To keep towels with colored borders pretty, do not allow them to become badly soiled. Rub gently with a white soap. Rinse in warm water and then in cold water. Wash quickly and never soak or boil them.

When counting the wash make out two lists, one for the washerwoman and one for yourself. A book may be purchased with carbon paper in it such as clerks use in the stores. Write the list once and the other will be traced.

Carpets if well sprinkled with salt and then wiped with cloth squeezed out of warm water containing a spoonful of spirits of turpentine to every quart will look bright and new and will not be troubled with moths and buffalo bugs.

If you wish to have your table linen look nicely do not put it through the wringer, as it makes creases that will not come out even if the cloth is ironed when very damp. By rinsing very thoroughly it looks better even if not wrung very dry. Just try it and see. In fact, any clothes that you wish to look very nicely when ironed you will find come out a great deal better if wrung by hand.

The Kitchen Floor.

A cork floor-covering is easily cleaned and is serviceable. Linoleum is used in many kitchens. An uncovered and unfinished floor of hard maple or birch is durable and reasonable in cost, but has the disadvantage of being difficult to keep clean. Tiles of brick are both durable and picturesque, but are comparatively expensive. A cement floor is more reasonable in cost, and if a few rugs are used to mitigate its hardness, it will be a great joy. With a cement dado going up two or three feet around the walls and a sanitary drain in one corner, this floor might be cleaned with the hose every day.

U. A. Smith, Bridgeton, Ind., had kidney trouble for years, and was so crippled with rheumatism he could not dress without help. He started using Foley Kidney Pills, and says: "I began to get better at once, and now all of my trouble has left me and I do not feel that I ever had rheumatism. I rest well at night and tho' 59 years old can now do the work of a man of 35. I would like to be the means of others getting benefit from Foley Kidney Pills." Refuse substitutes. Upchurch Drug Co.

Raspberry Jam.

Now being the season for making raspberry jam, the following recipe is offered as a suggestion:

Take a pound of sugar—or, better still, a pound and a quarter—to each pound of fruit. Macerate the raspberries for three or four hours in powdered sugar. Then put them into a preserving pan with half the sugar and cook them on a quick fire. When the raspberries have melted pour the whole on a rather fine sieve, so that the extremely small seeds cannot pass through. Rub them through the sieve with a wooden spoon. Put the pulp back into the preserving pan with the other half of the sugar. Boil up quickly until the jam has attained a suitable consistence. Take the pan off the fire, allow to cool and pour into pots.—Ladies' World.

Egg Cutlets or Croquettes.

Make a thick white sauce of two tablespoons butter, four tablespoons flour and three-quarters cup milk. Season highly. When still hot stir in one well-beaten egg. Add the finely chopped whites of four hard-boiled eggs and the yolks forced through a sieve. A little chopped pickle, green pepper or parsley may be added. Cool. Shape into egg shapes and flatten out to represent cutlets or not, as desired; dip into raw egg and fine crumbs and fry a delicate brown. Serve in a nest of parsley or shredded lettuce.

Taffy.

Put a tablespoonful of butter in a granite saucepan, and pour over it one pound of sugar and two tablespoonfuls of vinegar. Let the mixture stand all right. If it looks very dry in the morning, add a little more vinegar. Boil the mixture without stirring it until it hardens when dropped into cold water. Then put in a teaspoonful of vanilla, little by little, stirring it well into the candy, and then pour into buttered tins to get cold.

Raspberry Vinegar.

Turn over a quart of ripe raspberries, mashed, a quart of good cider vinegar. Add one pound of white sugar, mix well, then let stand in the sun four hours. Strain it, squeeze out the juice and put in a pint of good brandy. Seal up in bottles, air-tight, and lay them on their sides in the cellar. Cover them with sawdust. When used, pour two tablespoons to a tumbler of ice water.

Stop That Itch!

I will guarantee you to stop that itch in two seconds. A 25 cent bottle will prove it.

CUT OUT THIS AD.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large or how far raised above the surface of the skin. And they will never grow again, and no trace or scar will be left, where the mole or wart was removed. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

When Baking Potatoes.

Use one of the new wire frames that may be had for a few cents. You stick the potatoes on little upright points, the potatoes bake all over at once and you do not burn your fingers in turning them over or getting them out, for you can put a dozen potatoes on the frame and put it in the oven just like any other pan.

Clean Knife Handles.

Stains may be cleaned from bone and ivory knife handles by rubbing them with a soft paste made by mixing whiting with lemon juice. This should be well rubbed in and then the handles should be rinsed in warm water and dried carefully.

Uses for Tarred Paper.

1. Put tarred paper over mouse holes and mice will not gnaw through.

2. When putting clothes away, place tarred paper in with them to keep the moths away.—Home Department, National Magazine.

Running up and down stairs, sweeping and bending over making beds will not make a woman healthy or beautiful. She must get out of doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by Alred Drug Co.

46

VOL. 1 THE UNION 10th Year CLANTON, ALABAMA, THURSDAY OCTOBER 3, 1912 THE BANNER 20th Year NO. 26

A few days ago The Birmingham Age-Herald, a Democratic newspaper, came out and said doubtless if Wilson was elected he would follow in Grover Cleveland's footsteps. Do the people of this prosperous county want to dry four-cent cotton and forty-cent corn again? Wilson is the man who will return those days if elected president.

The voters now have a great opportunity to insure for Chilton county for the next four years big debts, high taxes and an empty treasury by voting the Democratic ticket.

We wonder how the Democrats are standing on the bond issue these days? What has become of the large headlines in The Clanton Press about the bond issue? Why don't they come out and tell the people where they stand? Are they laying quiet on this issue until after the election and then go-ing to try to force upon the people of this county the bond issue, as they said they would do?

If the people of this county have become tired of having anything to say in the management of the affairs of the county, support the Democratic ticket, they will relieve you of having anything to do with the management of your county affairs. All they want is the taxes—they will do the rest.

When the people of the South felt that they were tied to one party by local issues and circumstances which they could not remove they had no method by which they could express their desires on these great national economic questions.

Things are different now. The Progressive party has opened the way so that we can express our preference in such national matters, and I believe that the liberty-loving, home-governing people of Alabama are going to welcome the opportunity and embrace it.

Editor Union-Banner:

On Saturday, September 21, some of the postmasters and a few others met at Maplesville to nominate a Republican ticket.

Now, boys, look out. This is a Democratic scheme to lead you off your guard and beat our ticket. The Democrats met them on the streets and showed them where they could get a lunch (which will be a free soup counter when Wilson gets to be president).

Now, boys, let's not go to sleep and let such tricks as this fool us. We do not want bonds issues and high taxes, which will be sure to come if the Democrats get in. There is three years they are good for—big debts, high taxes and low wages.

Now, to keep this off, just come out to the polls in November and vote for the Progressive ticket—the party for the people by the people.

R. P. KENDRICK.

Editor Union-Banner:

Please give me a small space in your paper to say a few words in reply to some reports that have been circulated.

Now, it has been told that if I am elected in November to commissioner's office that certain other parties would run the business.

Now, this report is to cut me out of some votes. Like many other reports, it is untrue. If I am elected in November I will attend to the business to the very best of my ability, regardless of party or politics.

Yours for the right thing,

W. T. HERROD.

NOT A CANDIDATE.

Editor Union-Banner:—Please allow me space to say that the report that I am a candidate for commissioner from the 3rd district is without my approval. I am not in sympathy with the ticket said to have been put out at Maplesville recently but will use my influence for and support the ticket nominated by the republican primary last May.

Vote for who you please for president, but vote our regular county ticket as nominated last May.

C. A. KEEN.

Here is a woman who speaks from personal knowledge and long experience, viz., Mrs. P. H. Brogan, of Wilson, Pa., who says: "I know from experience that Chamberlain's Cough Remedy is far superior to any other. For croup there is nothing that excels it." For sale by Alred Drug Co.

A child can't get strong and robust while intestinal worms eat away its vitality. To give the child a chance to grow, these parasites must be destroyed and expelled. WHITE'S CREAM VERMIFUGE is guaranteed to remove the worms; it also puts the digestive organs in healthy, vigorous condition. Price, 25c per bottle. Sold by Upchurch Drug Co.

COUNTY EDUCATIONAL BOARD

The County Educational board of Chilton County will be in session at Clanton on the first Friday in October, November and December, 1912, and first Friday in January, 1913.

Wm. J. Billingsley, Chairman.
J. C. Veazey, Secretary.

CORRESPONDENCE.

SINGING AT BETHEL.

Sunday, September 29th, dawned with dark, low-hung clouds, shutting out the bright sunlight. Notwithstanding the unfavorable day, a nice crowd gathered at Bethel Church, near Coopers, for an all-day singing. Several directors were present, viz: Messrs. Jackson, Scott, Davis, Culver of Coosa, Blankenship, Driver and Jones. The music was nice and the dinner, owing to the peculiar surroundings, was the most beautiful we have ever seen—there spread on cloths of snowy whiteness, out in the open air, on the soft green clover—"a velvet surface," as aptly described by Professor Blankenship—in the gradually opening sunlight, free for all, rich and plenteous, it was indeed a rare beauty. The county president was present. He has recently attended the national singing convntion of the Sacred Harp in Atlanta. He reported a fine singing and five or six thousand people present.

VISITOR.

PROGRAM OF SINGING AT SALEM CHURCH, SEPT. 29.

The meeting was called to order by A. L. Robinson, by singing song, "Holy Manna."

Brother S. M. Yates led in public prayer and Brother D. S. Robinson was elected chairman for the day and J. W. Clackler secretary.

Arrangement Committee was appointed and Brothers S. M. Yates, A. L. Robinson and T. L. Robinson arranged as follows:

J. R. Robinson, 20 minutes; Lee Robinson, organist.

J. M. Williams, 20 minutes; Lee Robinson, organist.

Lee Robinson, 20 minutes; C. H. Robinson, organist.

L. F. Clackler, 20 minutes; Lee Robinson, organist.

Afternoon Session.

W. L. Robinson, 20 minutes; Miss Vallie Norris, organist.

S. M. Yates, 20 minutes; Lee Grant, organist.

C. H. Robinson, 20 minutes; Lee Robinson, organist.

Recess, 15 minutes.

A. L. Robinson, 20 minutes; Miss Pearly B. Robinson, organist.

J. M. Williams, 20 minutes; Lee Robinson, organist.

Brother T. L. Robinson, sang closing song, "Shall This Life Be Ended in New Songs of the King?" No. 185.

Dismissed by prayer by Rev. L. W. Thomas.

J. W. CLACKLER, Secretary.

THORSBY NOTES.

The Thorsby Institute will hold School on Saturday instead of Monday hereafter.

Mrs. S. H. Herbert has been very sick and was taken to Birmingham last week. She is reported to be improving.

Mrs. Louis Howard, who has been sick in Birmingham for some time, is improving.

Last Saturday night the Fraternal Order of America was organized by W. H. Hitt, the general state agent. A goodly number were out and enjoyed a very pleasant evening. The officers elected are as follows Mr. Clarence Bice, worthy president; Mr. Wolfe, vice-president; Mr. Fred Howard, past president; Mrs. Lillian E. Simonton, secretary; Walter Parnell, treasurer; Mayor Bice, chaplain; Mr. Titus, captain; Paul Smith, guide; Dr. Junkerman, inner guard; Mr. O. Poole, outer guard; Dr. Woolley, Miss Annie Coleman and M. Hayes, stewards. The next meeting will be held next Saturday night in the Woodmen's Hall. We are hoping the paraphernalia will arrive this week, for the initiation will take place at the next meeting.

Rev. E. W. Butler preached at the Congregational Church Sunday.

The Ladies' Aid Society will meet with Mrs. Junkerman Thursday afternoon.

THE TWINS.

CANE CREEK.

Editor Union-Banner:

Will you please allow me space in your valuable paper, as I have not seen anything from this place, and I hope this will not go to the waste basket.

The health of this community is very good at present.

Cotton picking is all the go but the rain is keeping the farmers back.

Some of the boys and girls of this place are expecting a big time at the singing Sunday and I think from the way they are stirring around that the wedding bells will soon be ringing soon.

Miss Minnie Brand thinks herself to good to wear the hobble skirt and I don't blame her.

Well I will close for this time.

ONE ALONE.

On last Tuesday the news came to us of the death of an old citizen of Chilton county, Mr. Henry Benson, of Collins Chapel. He is survived by many relatives and friends who will miss him very much. His remains were laid to rest in the Collins Chapel cemetery. The funeral services were conducted by Rev. W. P. Lowery.

What do you want to go around with your glasses "all cocked up" on one side for? Higgins, the eye man, will straighten your framed free for you. Just call in. He don't charge "nothing" for everything he does. Drop into see the doctor. He believes in everybody looking pretty.

JACKSON CHAPEL.

Editor Union-Banner:

Will you please give us space in your paper to say a few words from this place.

The health of the community is good at present.

Mr. Charlie Jones and wife and baby were visitors to Mr. Jim Cotton Sunday and Monday.

Mr. Leonard Tirl was the guest of Mr. C. L. Jones Sunday.

Misses Minnie and Ethel Brand were the guests of Misses Alice and Evie Jones Sunday evening.

Mr. E. L. Jones was the guest of his uncle, Mr. C. E. Jones, of this place, Saturday night.

Mr. Willie Brand was the guest of Mr. Eugene Gore Saturday night.

Who knows what is the matter with Mr. M. G.? We don't see him around here any more; guess he got beat. But come on though, Mr. Milford oGre. Maybe your time is not, but Miss Alice Jones and Miss Minnie Brand were all smiles Sunday.

Mr. Henry Headley was the guest of Miss Alice Jones Sunday evening. I think the wedding bells will soon be ringing.

Mr. Wallace Jones was the guest was the guest of Miss Minnie Brand Sunday evening.

Mr. Sloan Parker was the guest of Miss Evie Jones Sunday.

What is the matter with Mr. S. G.? He has quit coming to Mr. C. E. J.'s.

Mr. and Mrs. Elige Jones visited their son, Mr. Tom Jones, Sunday.

Mr. and Mrs. John Gothird were the guests of his brother, Mr. Sam Gothird, Sunday.

We wish The Union and its many readers God's blessings.

TWO LOVING GIRLS.

PROGRAM.

District No. 1 Sunday School Convention, to be held with Oak Grove Sunday School, one and a half miles east of Wassington, on Saturday before the second Sunday in October. All Sunday schools in the district are requested ot send delegates and superintendents are requested to attnd.

10 a. m.—Devotional exercises, by W. H. Shaw.

10:20 a. m.—"Good records: what this Point of the Banner Sunday School Means, and Their Value to the Sunday School," by Prof. J. A. Hunter, Thorsby, Ala.

10:50 a. m.—The Banner Sunday School, by Prof. S. H. Herbert, Thorsby, Ala.

11:20 a. m.—Reports of all Sunday Schools and to be marked on District Chart.

11:45 a. m.—Pledges for a forward step by every Sunday School that will.

12 m.—Adjourn for dinner.

1:15 p. m.—Devotional exercises, by J. N. Scott.

1:35 p. m.—What is being accomplished with the boys in the cities through the Sunday School, by K. S. Ward, of Birmingham, Ala.

2 p. m.—What is required of the District Elementary Superintendent, by Miss Della or Miss Mary Carr Gibson, Verbena, Ala.

2:30 p. m.—The possibility of the Sunday School, by Prof. Howard Roper.

3:00 p. m.—Parents in the Sunday School, by Rev. S. Simtherman, of Randolph, and J. W. Snipes, of Jemison.

All partise coming on the train, write W. E. Thomas, Jemison, and he will have arrangements made to meet you at Wessington.

W. E. THOMAS, President.
(MISS) ADDIE HORSELEY, Secretary.

'ASLEEP IN JESUS."

On Tuesday evening, September 10, 1912, Uncle Tom Welden, who then lived near Kincheon, calmly leaned his head on the breast of our dear Saviour and fell asleep.

"Asleep in Jesus, blessed rest,
So calmly on our Saviour's breast;
Consoling thought from first to last,
Asleep in Jesus, oh how blest."

Mr. Welden was born in 1836, being 76 years of age when he passed away. He gave his heart to God in early life, probably at the age of 20, joined the Missionary Baptist Church and lived a consistent member of his church until his death.

He was twice married, first to Miss Lycia Collins, with whom he lived a very happy life for many years; and after her death he was again married to Miss Liza Williams, with whom he lived until his death.

In 1862 this brother enlisted in the Confederate army and served his country in the memorable civil war.

His last illness was about six months. He bore his suffering without a murmur, at all times being meek and submissive to the will of God.

He is survived by a widow and several children and many relatives and friends who will miss him very much.

As a consolation to the relatives and friends I here offer a quotation:

"Why lament your father's dying?
Why indulge in tears of gloom?
Calmly on the Lord relying,
He can greet the opening tomb.

"Though for him thy soul is mourning,
Though with grief thy heart is riven,
While his flesh to dust is turning
All his soul is filled with heaven."

A FRIEND.

LOST.

L. H. Reynolds, one charm, value, $25; Dr. J. V. Gragg, one charm, value, $10. Are you going to get Higgins, the Jeweler, to put you in a new ring where the old one is almost worn in two on your fine emblem watch charm, or are you going to wait till you lose it? Higgins stands all responsibility and guarantees his work.

Fell in the well as Coopers, Ala., P. O. Barrett's diamond ring. Then he brought it to Higgins, the Jeweler and Diamond Setter, to have it put in a new mounting. You might be well paid to have Higgins to examine your diamond jewelry. He does all kind of stone setting and ring and jewelry work.

Keys, keys, keys—all kinds of keys fitted to your lock at Higgins, the Jeweler's, place.

Get Higgins, the Jeweler, to put a nice "Safety Catch" on your nice class pin or brooch before you lose it. It takes both hands to get one open after you fasten it. Now don't wait till you lose your pin or brooch and then think of the safety catch.

Dr. Higgins will present to you a testimony "worth while" in next week's issue of this paper—look for .It

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To corfect this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by Alred Drug Co.

W. A. Rimes, Ruston, La., writes: "Some time ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble."—Upchurch Drug Co.

RPOGRAM.

For the Chilton County Baptist Sunday School Convention to Be Held at Liberty Hill Baptist Church Saturday, the 12th Day of October, 1912.

9:30 a. m. Devotional exercise, by A. L. Foshee.

9:45 a. m. Welcome Address, by Wm. Wood.

9:45 a. m. Song Service, by J. H. Franklin.

10:00 a. m. The best way to bring church members under obligation to attend Sunday School, by T. E. Williams, John Parish.

10:30 a. m. Best Teachers for Little Folks, by Prof. Session, W. H. Shaw.

11:00 a. m. Sermon by Wm. Olive.

12:00 m. Dinner.

1:30 p. m. What is the Best Plan for Teaching a Sunday School Lesson? By S. M. Adams, Wm. Wm. Olive, E. H. Parish.

2:00 p. m. What Are Some of the Duties of a Superintendent During the Week. By N. J. Calloway, John Wallace, Judge E. B. Deason.

2:30 p. m. What Are the Duties of the Superintendent During the School Session.

3:00 p. m. Miscellaneous Business. General Discussion.

All Sunday Schools are requested to send delegates, especially the schools in the Northwestern District of Chilton County. It is expected that dinner will be served on the grounds, so come with good appetites and big baskets and we will spend a good day. Preachers especially invited.

N. L. BROADHEAD, President.
MISS HATTIE DAVENPORT, Secretary.

Committee on Program.

WM. WOOD,
W. Y. ATCHISON.

When the chest feels on fire and the throat burns, you have indigestion, and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Price 50c. Sold by Upchurch Drug Co.

NOW IS THE TIME TO SELECT YOUR HEATER

We offer Cole's Original Hot Blast Heating Stoves with confidence; they are the best made. You have perfect control over the fire at all times, thus the coal does not waste away and you don't have to kindle a fire in the morning as with other stoves. This truly great Heater is growing in popular favor year after year. We expect to double our sales on them this year. Come now and make your selection. We will have your Heater ready for you when you wish it put up. (8-15)

Sheriff Outwits Seventeen Brothers.

Raleigh, N. C.—Benn Vann, charged with kidnaping and murdering Oliver Layden, a boy aged fourteen, has been landed in the state penitentiary after a desperate fight. Layden's seventeen brothers boarded and ransacked the train on which Sheriff Reid had his prisoner, but were unable to locate either.

To Give Animals an Opera.

New York.—Mrs. Percy Proctor, wife of the Ohio soap manufacturer, has returned from Europe with one parrot, one white guinea-pig, ninety-five dogs and cats and a monkey, to be distributed or sold among friends.

MAN KEEPS AWFUL VIGIL

Holds His Sister Over an Alpine Precipice for Eight Hours Until Rescuers Arrive.

Grenoble.—In the Haute-Garonne, not far from Toulouse, a terrible experience has just befallen a brother and sister, named VanGoethen, as the result of which the woman lies in the hospital dying, with a fractured skull, while her brother is in the same place desperately overcome by shock and exposure. The story of their adventure adds another to the long list of Alpine tragedies.

I. M. Van Goethen, who is an engineer in a paper mill, and his sister, accompanied by a friend, M. Sombardier, son of the director of the mill, set out to climb Mt. Saurousse. They made the ascent, but in returning they took the pathway leading to the glacier Domenon.

As they crossed a dangerous part of the path Mlle. Goethen slipped and slid down an ice incline toward the edge of a deep precipice. Her brother, in endeavoring to save her, also slipped, but was able to stop himself by clutching hold of a boulder. At the same time he grasped his sister's skirts just as she was sliding over the edge.

M. Sombardier crawled down to the boulder and endeavored to assist the brother to drag his sister back to safety. Their united efforts, however, were of no avail, as the woman, being unconscious, could not help herself.

The two men shouted for help for several minutes. Then M. Sombardier set off to seek rescuers, leaving the brother and sister in their perilous position. It was three hours before M. Sombardier reached Revel, and eight hours had elapsed before the rescue party returned to the glacier. There they found M. VanGoethen still supporting the body of his sister on the incline and only relieving the terrible strain by twisting her skirts round a rock. Then the rescue party got to work and succeeded in drawing his sister over the edge into safety. The brother fainted and had to be carried to Revel.

MONKEYS START SHIP CHAOS

Forty-One Animals Almost Make Egremont Castle's Voyage Long Nightmare.

Boston.—The voyage of the big steam freighter Egremont Castle from the far east came near being one long nightmare. Forty-one monkeys were taken on board at an eastern port. They refused to answer the dinner bell; they swarmed in the rigging, hopelessly tangling any loose ends of rope they could find, swung on the whistle rope, sending forth blasts of the siren in the dead of night; rifled the galley shelves and upset everything that was not nailed down.

Freedom of the ship had been granted to the monkeys to keep them in better health, but Captain Smith finally ordered them caught and put back in the cages. This resulted in the death of twelve.

RATS GNAW GIRL'S FACE

Proprietor of Rooming House Breaks Open Door and Finds Body of Missing Lodger.

Omaha, Neb.—The face gnawed by rats, the body of Miss Mamie Carter was found in her room.

The young woman had been missing since Saturday, and Christ Kalmpach, proprietor of the rooming house where she had lived for six years, decided to force open the door of her room.

The face of the dead girl was so badly mutilated that it was at first believed the wounds had resulted from a gunshot.

Death is thought to have been due to heart failure.

A letter found in the room, addressed to a younger sister in Cuba, Ill., leads to the belief that Miss Carter was formerly a resident of that place.

SWISS DIVORCE LAWS LAX

Really Harder to Be Married Than Separated—Country Leads European Nations.

Geneva.—It is more difficult to get married in Switzerland than it is to get divorced, and, profiting by the fact that it only costs about $10 to secure a dissolution of the marriage tie, Swiss couples have placed their country an easy first in the divorce statistics of Europe. Last year the proportion of divorces in Switzerland was 42 per 100,000 of the population. France comes second, with 32 per 100,000; Denmark third, with 27; Germany fourth, with 21, and other countries in the following order: Great Britain, 12; Norway, 15; Holland and Belgium, 13 each; Sweden, 16; Austria, 8, and Finland, 4.

WANTED AND FOR SALE.

WANTED.

Twenty-five men to get sap cross ties; will pay 12½c in woods. Two good hands can get 50 cents per day. Apply to W. L. House, R. F. D. No. 5, Clanton, Ala.

FOR SALE.

Forty acres of land with good three-room house and good outbuildings, a good well of water, 10-acre pasture, good, big hay lot; one-quarter mile to Methodist Church, half mile to Baptist Church; three-quarters mile to District School house. Apply to J. A. Johnson, Route No. 1, Clanton, Ala.

FOR SALE.

Farm of 82½ acres, 65 acres in cultivation, five-room house, well fixed with plenty of out-buildings, two tenant houses; three wells of water on place; half mile of church and good school; on the Independence Road, four miles north of Billingsley Station on M. & O. railroad. For further information, apply to WM. J. BILLINGSLEY, Route No. 1. 1 month.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a bad cold, and before the bottle was all used up the cough was gone. Is that not better than to pay a $5 doctor's bill? For sale by Alred Drug Co.

Farm for Sale—94 acres, 25 acres in cultivation one and half miles south of Coopers, good 5 roomed house and outbuildings. Fine well of water. Apply to George Moore, Cooper, Ala.

FOR SALE—One pair Mules, weight 1250 pounds each; 6 years old. Will work anywhere. Will sell cheap. For further information apply to J. F. Blankenship, Jemison, Ala.

WORK WANTED by a practical mechanic, repairing and overhauling Organs. Write or send to J. P. Wilson, Clanton Ala., R. 3. 8-22-3mos

FOR SALE—160 acres of land, ready for cultivation, four miles west of Jemison. For further information apply to J. B. Killingsworth, Calera, Ala.
6months

FOR SALE.
Six Good Milk Cows and a Seperator.
E. N. DYRHOWD,
Thorsby, Ala.

JUDGE LIKED GOOD SCRAP

Because Plaintiff Was Not Injured His Honor Discharged the Defendant.

In a case tried before a Maine justice of the peace, one Jones, a lumberman, pleaded guilty to assault upon one Libby, another woodsman. The justice seemed a bit perplexed how to proceed when no evidence had been produced, and finally called upon Libby to stand up. Libby stretched up his six feet of husky frame.

"Any bones broken?" asked the judge.

"Nary one," said Libby, shaking his head seriously.

"Any bruises, contusions, sprains or dislocations?"

"Nary one?" said the plaintiff, regretfully.

"Make your nose bleed?"

"Not a mite."

"Black your eyes?"

"Neither one."

"Why, you don't appear to be injured at all," said the judge in surprise.

"No, your honor," answered Libby. "He didn't injure me none, he only struck me a few times."

"Well," said the judge, slowly and with disgust showing in his accent, "when this court strikes a man that man always has at least one black eye. I'll assess the costs of this court, that's one dollar and twenty-one cents, on the defendant, but you don't get no damages for any such scrap."

Chiffonade Dressing.

This is extremely good to serve on lettuce, romaine, or any green salad. Into a glass jar put one hard boiled egg, finely chopped, one teaspoon finely cut chives, one tablespoon each chopped red and green pepper, one teaspoon salt, one-fourth teaspoon paprika and one-eighth teaspoon pepper, one-half cup olive oil, three tablespoons vinegar and one teaspoon tarragon vinegar. Allow it to become very cold, and just before serving shake the contents of the jar thoroughly.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

When the work of fumigating the steamship Puebla, from Mexican ports, begin at quarantine station at New Orleans, six Chinese concealed in the hold, were driven from cover by the fumes of the sulphur and began pounding on the iron hull, yelling to be let out. The stowaways were turned over to the immigration authorities.

Alfred Dorn was killed and two other citizens shots, one probably fatally, by members of the state militia who had formed a dead line about the Fifteenth street plant of the Augusta, Ga., street railway company to prevent attack by strikers or sympathizers. The injured are Robert Christie and Ben Baker.

After being held at bay all night by a drug-crazed negro, Louisville Ky., policemen rushed the black's barricade and then captured him before he could make further resistance. The prisoner, Ed Jackson, was arrested on a trivial charge. He escaped, took refuge in a house in the crowded negro quarter and began firing on pedestrians and street cars. One of the policemen sent to arrest him was dangerously shot. When the police gained entrance to the house, they found two other negroes with Jackson. One of them, who attempted to rush the police, was shot down.

Miss Beulah Chandler, aged 18, prevented the wrecking of Norfolk and Western passenger train No. 1 when she discovered tons of rock on the track at a curve near Bluefield, W. Va. She was walking beneath the spot when she discovered the debris and heard the train approaching. She took off her apron, ran down the track and flagged the train, which, ran up to and touched the slide of rocks. Passengers covered her and took up a large collection for her.

Three persons were killed, three are seriously injured, one is missing and six others were slightly hurt, when Southbound passenger train No. 14, bound from Chicago to Jacksonville, Fla., was derailed two miles north of Plainville, Ga. Two coaches, a Pullman and the baggage and express car were thrown from the track. One passenger is unaccounted for, and is supposed to be underneath one of the coaches. The wreck was caused by a truck breaking while the train was traveling at a high rate of speed. Relief parties were rushed to the scene in automobiles.

Howard E. Edwards, the New Orleans highway who held up and robbed the New York limited train of the Louisville and Nashville railroad near New Orleans on the night of September 4, has been indicted by the grand jury.

General.

A battle with knives and clubs between Industrial Workers of the World and the police, in which two officers were stabbed, one severely beaten and several rioters injured, ocurred one of the principal business streets of Lawrence. The fight began when the police tried to stop an informal parade of textile operatives preceding a demonstration in honor of Anna Lopizzo and John Ramy, who were killed during the strike riots last winter in Lawrence, Mass.

"River regulation and rate regulation for transportation," and "river regulation is a price regulation," were the slogans of President William K. Kavanaugh's annual address, read before the opening session of the lakes to the gulf deep waterways convention in session in Little Rock, Ark.

A force of 750 American marines under Col. E. J. Moses will sail from Philadelphia on the transport Prairia for San Domingo, to compel the reopening of Dominican customs houses along the border of Hayti, closed by revolutionists.

Events are moving rapidly in the big mine strike of West Virginia. Conferences were started by Governor Glasscock, and military commanders looking to a reduction of the number of state soldiers now on duty in the martial law district of Kanawha county. A company of state militia was attacked at an isolated point near Dry Branch, and over fifty shots were fired at the troops.

William Henry Yarbrough celebrated his 107th birthday anniversary at Danville, Ill. He is still hale and hearty. He came to Illinois and to Danville in 1833 and conducted the first blacksmith shop in Danville.

Half of the Chinese loan of $50,000,000 is to be offered in London for subscription.

First Baseman Myers, of the Spokane club of the Northwestern league has established a new record, stealing his 108th base of the season. The former record of 105 bases was held by Zimmerman of the Chicago National league team.

Prince Louis Napoleon Murat, a grandson of the French Marshal Murat, whom Napoleon first created as king of Naples, and a nephew of ex-Empress Eugenie, is dead in Paris, France, aged 61.

OFFICERS AND STRIKERS CL

KNIVES, CLUBS AND GUNS USED IN BATTLE AT LAWRENCE.

POLICE STOPPED PARADE

8,000 Marchers Were on Their Way to Graves of Anna Lopizzo and John Ramy to Conduct Demonstration.

Lawrence, Mass.—Police and paraders fought with knives and clubs Sunday. Two officers were stabbed, a number of demonstrators were clubbed and an Industrial Workers of the World leader captured after a hard fight and then freed.

Carlo Tresca of Pittsburgh, an editor, who is an organizer of the Industrial Workers, was in custody, but gained his freedom a minute or two later. Persons who saw Tresca's arrest said he was rescued by comrades. Tresca, with a smile, said the police let him go.

The clash was quite unexpected. More than 20,000 operatives met at the railroad station to welcome 700 members of the Industrial Workers of the World, who had come from Boston to participate in a parade to the graves of Anna Lopizzo and John Ramy, who were killed during the strike riots last January. After the visitors had detrained, an impromptu parade was started, turning finally into Essex street, the main business thoroughfare of the city.

The parade was informal, and no application had been made for a parade permit. The police, who were notified that the operatives were marching, attempted to end the demonstration. A squad of twenty-five officers were sent to Essex and Lawrence streets. Here they threw a line across Essex street and awaited the arrival of the procession.

Two large banners were carried by the marchers. One banner was inscribed "The only justice—freedom for Ettor and Giovannitti." The other bore the words "Police and Militia," and below, "Who killed Anna and John?"

When the head of the parade reached the line of officers, it halted and an argument began. The police notified the marchers that they must disperse, because they had no permit.

They struck right and left at the officers, who responded by swinging their clubs. Many paraders were knocked bleeding to the ground. In some instances the marchers robbed the officers of their clubs and beat the police.

MALARIA COSTLY AND DEADLY

Dr. Henson Estimates Expenses in Alabama.

Mobile, Ala.—Dr. Graham E. Henson of Crescent City, Fla., who estimates that malaria costs the state of Alabama $2,000,000 annually, bases his estimate on investigations made in Birmingham, Mobile and Montgomery, according to advance proofs of the Southern Medical Journal, of which Dr. Seale Harris of this city is editor-in-chief. Dr. Harris writes in the Journal:

"Dr. Henson thinks there were over 70,000 cases in Alabama last year, with 770 deaths, and figures the loss in expense, lost time and deaths at $2,000,000."

GIVES LIMB TO SAVE LIFE

150 Inches of Skin Grafted on Girl's Body.

Gary, Ind.—A crippled newsboy laid on an operating table here near a girl, whom he did not know, and allowed surgeons ot take 150 square inches of skin from his useless leg, graft it onto the badly burned body of the girl and then amputate his leg. The boy, William Rugh, never had heard of the girl, Ethel Smith, 18 years old, until he read an account of a motorcycle accident, which told she was so badly burned that death was certain unless a large amount of healthy skin could be grafted onto her body.

"My leg was useless, never had been any good to me, so I offered to give it up to save this girls' life," was the boy's explanation of why he made the sacrifice.

Drops Dead in Church.

Pittsburgh, Pa.—While assisting his son, Rev. W. L. H. Benton, rector of the Protestant Episcopal Church of the Nativity in Crafton, a suburb, in the celebration of communion, Rev. Angelo Ames Benton, aged 75, dropped dead. The service had just begun when the aged minister as he was offering the cup to a communicant sank to the floor.

Airship for John Bull.

London.—The English navy has undertaken the building of an immense airship, which it is said will be the largest ever constructed. It will have a capacity of 350,000 cubic feet and the car underneath the huge gas bag will be fitted as rooms, having every convenience.

Women Gamblers Held.

New York.—Five well-dressed women, arrested in a hair dresser's establishment, were held in $1,000 bail on a charge of gambling. Detectives who raided the place testified the women had been playing poker.

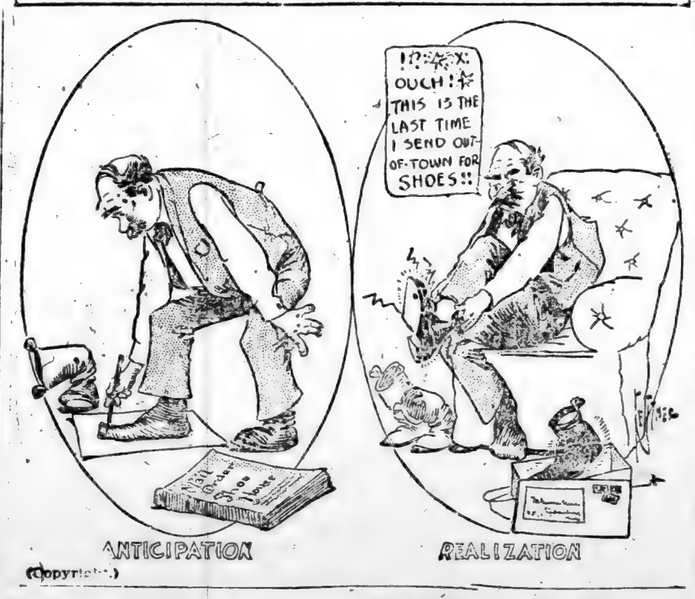
New Auto Records Set.

Detroit.—Louis Disbrow, driving a 200-horsepower Simplex car, at the state fair grounds, established new world's records over a dirt track for 30, 40 and 50 miles, covering the distances in 27:21, 36:28 and 45:32, respectively.

Two Aviators Killed.

Washington—Striking the ground with terrific force when the guiding rope of their aeroplane refused to work, Corporal Frank S. Scott was killed and Lieut. L. G. Rockwell so badly injured that he died two hours later.

BITTER DISAPPOINTMENTS



ROOSEVELT TAKES STAND OCTOBER 4

CAMPAIGN CONTRIBUTION HEARINGS TO BE RESUMED.

OTHER NOTABLES CALLED

Morgan, Gary, Hearst, Depew and Perkins Included—Tariff Laws Influenced?

Washington.—After a telephone conference Wednesday with Oscar K. Davis of the New York Progressive headquarters, Senator Clapp announced that Friday, October 4, would be set by the senate committee investigating campaign expenditures for the appearance of Col. Roosevelt. Senator Clapp was unable to say whether the examination of Col. Roosevelt would take more than one day.

Subpoenas have been sent to New York by a senate sergeant-at-arms for service upon General Counsel Elliott and the secretary of the Standard Oil Company, in connection with the investigation of John D. Archbold's statement that he contributed $100,000 to the Roosevelt fund of 1904 in behalf of the Standard Oil Company. The two officials are required to produce any papers they may have bearing upon the transaction, the committee having called them in an effort to discover the receipt which Mr. Archbold said had been given him by Cornelius N. Bliss, then treasurer of the Republican national committee.

Senator Clapp made public the names of the majority of the witnesses who are to be heard by the committee. The list includes J. P. Morgan, H. C. Frick, Elbert H. Gary, George W. Perkins, William R. Hearst, Thomas F. Ryan, former Senator Chauncey M. Depew, William Loeb, Jr., George B. Cortelyou, Alton B. Parker, George R. Sheldon, Cornelius N. Bliss, Jr., and C. C. Tegethoff, all of whom have been mentioned as probable witnesses.

The broad character of the investigation that is to be made to determine whether campaign contributions have influenced tariff legislation is indicated in the character of the witnesses. Among them are leading figures in the woolen industry, steel manufacturers and others interested in important industries. Wayne MacVeagh, a former attorney general of the United States, and brother of Secretary MacVeagh of the treasury department, has also been asked to appear.

WOMEN FIGHT KNIFE DUEL

Neighbors at Hickman Quarrel Over Alleged Slanderous Remarks.

Hickman, Ky.—Mrs. Rose Klutts is reported in a serious condition by the attending physician as a result of being cut and stabbed Wednesday by Mrs. Joe Kennedy, a neighbor. Both live about one mile below Hickman, and they met at the river, where they had gone to carry water for household use. Mrs. Kennedy, before leaving the house, placed a potato knife in her bosom, and when she met Mrs. Klutts started a quarrel with her, taking out the knife and stabbing her in the right breast, slashing across her chest and slashing down her back, cutting an artery in two at the side of the neck, and inflicting a dangerous wound.

SNOW IN NORTHWEST

Heavy Fall in the Dakotas and in Minnesota.

Minneapolis, Minn.—Snow again fell Wednesday in the Northwest, reports from the Dakotas and Minnesota telling of heavy falls in various districts. Dispatches from Fargo, N. D., said the snow flattened corn and flax and that thousands of harvests and threshing hands have left the state, unwilling to believe the weather will improve.

Country Life Union.

Baltimore.—The Farmers' National Congress proposes to become a national country life federation. It would federate all state and national organizations interested in country life. J. H. Kimble, secretary of the congress, is issuing invitations to 1,000 state, interstate and national societies interested in country life to send delegates to the Farmers National Congress at New Orleans November 7, next, to vote on the change in the constitution necessary to bring about the new organization.

SOLDIERS SHOOT AUGUSTA CITIZENS

CITIZENS, UNKNOWING, PASS THE DEAD LINE.

TROOPS FIRE UPON THEM

Governor of Georgia Declares the City of Augusta to Be in a State of Insurrection—Martial Law Is Proclaimed by Governor.

Augusta to Be in a State of Isurring in this city and the shooting of three citizens by State militia troops, Gov. Brown issued a proclamation declaring "the city of Augusta to be in a state of insurrection" and ordered the immediate enforcement of martial law.

Adjutant General William G. Obear has been ordered by the governor to proceed here at once from Atlanta, and assume charge of the situation. Another company of militia also was ordered here from Waynesboro to reinforce the four local companies under Capt. Levy.

Augusta, Ga.—Alfred Dorn was killed and two other citizens shot, one probably fatally, by members of the State militia, who had formed a deadline about the Fifteenth street plant of the street railway company here to prevent attack by strikers or sympathizers. The injured are:

Robert Christie, a business man, shot through the lungs.

Ben F. Baker, another business man.

The State troops were called after reports were current that the strikers proposed to dynamite the company's power plant. A dead line was established at each end of the property and the soldiers armed with riot cartridges.

All those fired upon by the soldiers, it is said, are business men who were driving out Fifteenth street, and who claim to not have known that a deadline had been established. It is said the militia men obeyed orders in firing upon any one who attempted to cross the line.

News of the shooting spread rapidly and attracted thousands to the scene of trouble. At the same time great crowds were assembling in West end, the mill district, which was the scene of rioting. Just before dark the West End sympathizers spiked the long Broad street bridge, a double row of spikes being driven on each side of each car rail the entire length of the bridge.

NEW HIGH WATER MARK

Cotton Clearances From American Ports Nearly 155,000 Bales.

Galveston, Tex.—New high water mark established for cotton clearances from American ports when nearly one hundred and fifty-five thousand bales cleared for foreign ports. Fourteen ships carried the immense shipment, the Cestrian, for Liverpool, taking 24,500 bales. Five ships cleared for Liverpool, three for Havre and three for Bremen, and one each for Gothenburg, Manchester and Rotterdam.

The value of this cotton is $9,300,000. Up to this time Savannah had held the world's record of ninety-one thousand bales, cleared in one day.

Besides cotton, three hundred thousand bushels of export wheat and a lot of other freight made up cargoes of vessels clearing.

I. C. Strike Costly.

New York.—A shrinkage of $7,848,899 in net corporate income compared with the previous year reflects the havoc worked upon the Illinois Central Railroad Company by its strike of shopmen, an unusually severe winter and floods on its Southern lines during the spring.

Two Negroes Hanged.

Gainesville, Fla.—Cain and Fortune Perry, two negroes, convicted of killing two Gainesville officers, were hanged side by side on the same gallows here, in the presence of 3,000 persons.

Cruiser Goes to Foo Chow.

Washington.—At the request of American Consul Fowler at Foo Chow to Admiral Nicholson, commanding the Asiatic fleet, the cruiser Cincinnati has arrived at that point to look after the interests of Americans.

Died at 104.

Carrollton, Mo.—Miss Lucy Sandeson, the oldest woman in Missouri, died at her home here. At the time of her death she was 104 years, 2 months and 21 days old.

FOR PROTECTION OF THE FAMILY

CAUSE IN DIVORCE CASES IS SELDOM KNOWN.

INTEMPERANCE IS A DISEASE

American Farmers Cram the System Full of Over-Fermented and Insufficiently Baked Bread and Too Much Ham.

Washington.—Technical causes on which divorces are granted are seldom the real causes, declared the Rev. Dr Samuel W. Dike, secretary of the National League for the protection of the Family, in speaking to the fifteenth international congress on hygiene and demography. There is great difficulty in getting at the truth of divorce, Dr Dike asserted, wherefore there is no reliable statistical information on the subject. Ambition for dress and social pleasures he classed as a leading cause of divorce, with unwillingness to bear children, influence of sex vices, influence of property and quarrels over its distribution, inadequate wages and innutricious food as other causes.

"If alcoholism was the cause of mental disease, we would all be imbeciles today," asserted Dr. Maximillian P. F Grosseman, director of the National Association for the Study and Education of Exceptional Children, "for our ancestors drank excessively and took big 'night caps,'" and he added: "All the Germans would be imbeciles, whereas they are a nation of strong minded artisans and scientists."

Intemperance, he said, was a disease and would occur in families suffering from mental weaknesses, but until it had been proven that it was a cause it should not be classed as such.

Farm hygiene presents a dreary picture, according to Dr. J. N. Hurty of the Indiana board of health, who told the delegates that the farmer was in the "patent medicine stage." The life of farmers should be from 30 to 50 per cent longer, he said, most of the ills which they suffered being self imposed.

"They overwork, the frying pan on the farm, pickles being used to whet the appetites. They cram the system full of over-fermented and insufficiently baked bread, and too much smoked, pickled and salted ham," added the speaker.

MASQUERADER MARRIES

Girl Wanted for Forgery Takes 87-Year-Old Spouse.

Little Rock, Ark.—Ellen Cash, the 17-year-old girl who was arrested by Little Rock officers, charged with having passed several worthless checks in Memphis, was married to the Rev. A. J. Millard, said to be 87 years of age. When arrested the girl was dressed in boy's clothing.

The officers said that on the day following the girl's arrest the Rev. Millard came to them and asked if he would be permitted to marry the girl if he would make good the amount of the checks she had passed. The girl was willing, but opposition of the groom's children caused the marriage ceremony to be postponed until later. It is said the Rev. Millard spent about $200 in reimbursing the holders of the checks given by the bride.

ROOSEVELT TALKS LEVEES

Would Make Flood Control National in Scope.

Memphis. — Col. Theodore Roosevelt spoke to about 5,000 men and women at the Auditorium as the guest of the Interstate Levee Association.

His address was punctuated by frequent applause and occasional cheers and when he first appeared upon the platform three-fourths of those in the audience rose and gave him cheer after cheer.

He was at once introduced by O. N. Killough, president of the association, who said that the people of the South would be ungrateful did they not acknowledge that no call had ever been made upon him by the people of the Mississippi valley in vain, and that they were now glad to welcome him upon their own doorstep as Col. Theodore Roosevelt of the United States.

Col. Roosevelt took the position that the control of the Mississippi floods is a national question, and strongly advocated a broad, general policy which is to include every phase of reclamation, reservoir building for storage of flood waters, reforestration, the generation of electrical power from the water power, as well as the completion of the levee system.

Asks Damages of Saloons.

Chicago.—Eight damage suits for a total of $85,000 were filed in the circuit court against thirty owners and managers of saloons and persons owning the property in which they are situated. The suits were brought by forty wives and children, who declare their incomes have become impaired through the shortcomings of their husbands and fathers which, in all cases, are traced to the saloon. The suits were filed by the Citizens' League, which has for its purpose the enforcement of the state dram shop act.

Smoked 300 Cigarettes in 24 Hours.

New York.—Having accomplished the feat of smoking 300 cigarettes in twenty-four hours, Miss Pauline McKenzie young daughter of a wealthy mine owner of Boulder, Colo., is in Bellevue Hospital, undergoing treatment at the psycopathic ward.

Aerial Fleet for France.

Paris.—France has decided to build a squadron of swift armed dirigibles for its aerial war fleet in addition to the aeroplanes already possessed by the army.

ALABAMA BREVITIES.

Gadsden.—The Gadsden commerce has 342 campaign [illegible] meeting at the room.

Talladega.—At the memorial services [illegible] ion hall commemorat[illegible] H. Johnson, the f[illegible] principal of the st[illegible] wife, Mrs. Emily A. [illegible] ife was given to [illegible] nstitution.

Sheffield.—Governor [illegible] y notified the city c[illegible] heir appointment by [illegible] sioners for Sheffield.

Wetumka.—Wetum[illegible] running full time and [illegible] cotton is being mark[illegible] the cotton picker is [illegible] county as though there [illegible] weevils to fear.

Ragland—Postmast[illegible] was notified by the [illegible] nent that the Ragland [illegible] raised one class higher [illegible] it on a salary. Receipts [illegible] ed wonderfully during [illegible] months, thus giving it [illegible] rating.

Montgomery.—Alabama [illegible] bureau and its attache[illegible] compliment, when C. [illegible] Chief Clerk of the Bu[illegible] notice that he had been [illegible] of the five national d[illegible] senting the American [illegible] Dairy, Food and Drug [illegible] Fifth National Conserva[illegible] to be held in Indiana, O[illegible] Mr. Billingsley's colleag[illegible] the states of Illinois, [illegible] gan and Indiana.

Marion.—E. W. Tu[illegible] suicide at his home, [illegible] of here by shooting [illegible] head off. The cause [illegible] choly over family affa[illegible]

Montgomery.—The [illegible] department was inform[illegible] ture of Dan Parker, a [illegible] caped from Belle Ellen [illegible] The convict was sent [illegible] county to serve three [illegible] years for forgery. He [illegible] by the police departm[illegible]

Montgomery.—With the past week the holding [illegible] stitutes for teachers for [illegible] ed and all teachers [illegible] attended one of the con[illegible] without a written exc[illegible] their county superintend[illegible] tion and the president [illegible] ty board, will have [illegible] permanently cancelled.

Montgomery.—Sept. 2[illegible] day for the bull moose [illegible] for they were here from [illegible] ter of the state to greet [illegible] and candidate for pr[illegible] dore Roosevelt, who [illegible] three hours in this city. People from many sections of Alabama and from points in Georgia [illegible] ent, and assisted in ent[illegible] the colonel.

Montgomery.—State [illegible] rants aggregating $325,[illegible] to the office of the [illegible] by probate judges [illegible] ous counties in the st[illegible] ment to Confederate vet[illegible] dependents October.

Huntsville.—Twenty [illegible] agents of fire insurance [illegible] composing the Alabama [illegible] tion society, spent a day h[illegible] a thorough inspection of Huntsville after which they made [illegible] mass meeting of busine[illegible] recommended several thi[illegible] designed to cut down th[illegible]

Anniston.—T. C. Wolse[illegible] neer Annistonian, and a well known contractor, was found dead in his bed in South Anniston. Mr. Wolsencroft built the Calhoun county [illegible] the Wilmer Avenue pu[illegible] building, the Knox buildi[illegible] large structures. He was 60 years of age and is survived by a widow, four daughters and a son.

Gadsden.—Wiley Goforth, charged with the murder of Nicholas Shentzen, was found guilty of murder in the second degree and was sentenced to 25 years in prison. The trial lasted six days. The jury was out only one day. Shentzen, who was a German miner working at Altoona, was killed and robbed a year ago last July. Joseph Salusberry, implicated in the crime, received a light sentence.

Anniston.—M. H. Maury, manager of the Lynchburg Pipe and Foundry company's plant, the new $1,250,000 pipe plant recently located here, stated that work will start on the plant next week, all surveys being completed by that time.

Gadsden.—Pursuant to a call of B. A. Brindley, chairman of the county democratic executive committee, this body met here and a campaign committee was chosen and at the same time the organization of a Wilson Marshall club was perfected.

Montgomery.—Two applications for the vacant positions on the democratic electorial ticket were filled with Chairman Tyler Goodwyn of the state executive committee, J. R. Rosson of Cullman, editor of the Cullman Democrat, and J. M. Holley of Wetumpka, requested the state committee to consider their pleas for the positions.

Selma.—Under the auspices of the local chapter of the United Daughters of the Confederacy the anniversary of the birth of Admiral Raphael Semmes of the Confederate States navy was celebrated in the auditorium of the Young Men's Christian Association.

Talladega.—The first store built in Talladega is being dismantled. The building was erected by Judge G. W. McAfee, the first county judge of Talladega, in 1833, a short while before Talladega became the county seat, and was a favorite trading post for the Creek Indians.

DANGER IN POOLS

Disease Germs Lurking in Most Swimming Tanks.

Tests Made by Scientists Show That Abundance of Microbes Even in Natatoriums of Wealthy Clubs Make Them Cesspools.

New York.—The average man who stands at the edge of a swimming pool ready to take the plunge which for him means refreshment and delightful relief does not realize that he is about to expose himself to the attack of millions upon millions of disease germs lurking in the tempting water before him. It matters little where this swimming pool happens to be, whether in a fashionable clubhouse or in the basement of an East Side tenement house; almost everywhere, owing to inefficient supervision and ignorance of the dangers involved, these pools are declared by certain investigators to be a menace to health.

So grave, in fact, do these investigators consider the danger of disease from this source that it has been thought necessary to call an international conference of bath officials to convene at The Hague this summer, and in New York City a meeting of public bath officials was held recently and the American Association for Promoting Hygiene and Public Baths was formed. The forming of this association is a preliminary step to the international conference.

"Swimming pools," says H. F. J. Porter, discussing the matter in a recent issue of the Survey, "are little more than cesspools." The public generally regards them as refreshing, invigorating and beneficial, and few have ever dreamed that they may be breeders of disease. There are hundreds of such pools all over the city. Recently in the interest of the department of bacteriology of the University of Chicago, K. N. Atkins made a careful study of five pools whose water supply was supposed to be clean. Investigation proved that they caused ailments of eye, ear and throat and intestinal disease.

Investigations in Hamburg and in Purdue, Brown, Chicago and Yale universities showed that the impurities are bacterial and chemical foreign matter, and all detected the presence of dangerous disease microbes. This condition existed in places where the details of hygiene and sanitation are otherwise scrupulously looked after.

Examination of the Hamburg pools showed that water fresh from the tap contained 57 microbes a cubic centimeter. After 74 persons had bathed in the water there were 1,800 microbes in the same quantity of water. When 494 persons had entered the pool the number had increased to 64,400, and after 829 bathers had been in contact with the water there were 154,000 microbes present to the cubic centimeter.

The last figures are interesting in that they show no proportionate increase in the number of microbes, and in that way illustrate the septic tank theory; that is, after a certain point of development the septic condition of water either kills the microbes or they devour each other when they have become too numerous, thus maintaining a maximum of impurity.

GIRLS SAFE FROM MASHERS

Daughter of Manila Banker Makes Trip From Philippines Alone Without Unpleasant Experience.

St. Louis.—Miss Eunice James, 24 years old, pretty and the daughter of a leading Manila, P. I., banker, has arrived here from San Francisco on a journey from her home to New York to prove her theory that a young woman may travel alone and not be annoyed by the unpleasant attentions of male strangers. Miss James said that in the long trip to this city she had not once been annoyed and that she believes if a woman will conduct herself properly she is in no danger. From here Miss James first will go to Springfield, Mass., and later will embark at New York with her father for Europe on the way to Manila.

BURNSIDES ARE REVIVED

Strapped Trousers and Scented Handkerchiefs Also Part of Return to 1830 Styles.

New York.—According to the very latest advices from London the newest fashion for men is side whiskers.

This is said to be a part of the current English craze for a revival of the costumes of 1830.

It is added that trousers are to be strapped over the boots, and scented handkerchiefs are to be modish for fashionable youths.

Won Bet By Drowning.

Butte, Mont.—Nick Velky, a Macedonian switchman, wagered his friend T. Suski $10 that he could remain under the waters of the Country Club Lake for thirty minutes. He won the bet, but he will never collect the money for an hour and a half later his body was recovered in six feet of water near the shore, where it had become enmeshed in undergrowth.

Woman Arrested at Altar.

Perth Amboy, N. J.—While leaving the church here after her wedding ceremony, Mrs. Mary P. King was arrested on the charge of forgery. Her husband, Paul King, disowned her at once.

Indian Tomatoes.

Cut half a dozen ripe tomatoes in halves, take out the seeds and turn them, cut side downward, on a dish on the ice. Make a rich curry sauce, adding cream and lemon juice, partly freeze the sauce, then mix in half its volume of minced anchovies, gherkins, olives and shrimps, finish the freezing process and with it fill the tomatoes, bringing the cream to a point, form a handle with a green stalk of parsley and dish them on a bed of watercress.

More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control, and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Alred Drug Co.

Wandering Youth.

Sudden disappearances of men and women unhappily are a pronounced feature in the life of all great cities, but London has been the first of the world's maelstroms to attempt a tabulation and classification. Last year 2,676 women over sixteen years of age were swallowed up in the insatiate vortex of that metropolis without immediate trace. More startling and pregnant with thought to all who are concerned with the problem of safeguarding the young is that, during the same year, 1,118 girls between the ages of ten and sixteen were reported to the metropolitan police as missing. The ultimate tracing of these victims of the dangers of a large city to adolescent womanhood resulted in sad revelations to parents and friends. Some of the missing are still missing and will be. The moral is clear. He who runs may read. Watch, guide and help the youth, girls and boys, who have reached or passed the critical time of maturity. "The thoughts of youth are long, long thoughts."

World's Largest Index.

On Beacon Hill in Boston, under the golden dome of the state house, is one of the largest indexes in the world. Its rival, the Russian public index is the only one known to be larger. More than nine million names, giving births, marriages and deaths in Massachusetts from 1843, make a complete record, showing not only where people were born and where they died, but also statistics which are vital in making up calculations. Before this time the records were kept in the different towns, but now they are all concentrated in the state house in Boston. In a relatively small space all these records are preserved, and as births, marriages and deaths come in, different forms of cards are used, and a great variety of names, Grecian, Assyrian, Italian, and others now mingle with good old New England names that have been on the records since the landing of the Mayflower.

THE PARTY OF PROGRESS

The political history of this country has been one of definite progress toward one grand aim—that of the "square deal" to all men. This progress has been slow, but each of the prominent party movements has added somewhat to it, though in most cases the ultimate and underlying aim has been lost sight of or driven out of action by the machinations of selfish classes who use the party machinery to carry out their own purposes. This has been the case with all the parties that have claimed the allegiance of American citizens in the past—it may be the history of future parties for generations to come. But each movement has done something for the advancement of the grand principle and the mass of the people are quicker to see when they are being imposed on, and party allegiance has less weight with them when they see that the leaders have departed from their faith and are parts of machines working against the general good.

In such cases it is useless to try and "reform the party from the inside." The better plan is to cut loose from them and form on new lines which will include the best policies worked out by them all. Only in this way can any definite progress be made toward so regulating social conditions that all may have even and exact justice.

That the old parties have failed in this is easily apparent to all students of the times. That they are so hampered by their affiliations and the character of their leaders as to make any hope of relief but a vain thought, is also plain.

So the Progressive Party is but the natural outcome of the desire to progress—to get a move on—in the right direction, and should appeal to every right minded man as a chance to move unhampered by the loads the old parties have to carry.

This is eminently the case in Alabama. We must be independent of the old party hacks and selfish leaders; rid of all the prejudices and passions inevitarly arising from out of date conflicts, before we can get the affairs of the state into even decent shape.

So if you are a man wake up and get a move on you, line up with the party of progress and see how much better we can make the state and county.

Mr. Frank Crichton is still at the sanitarium in Montgomery with only slight improvement apparent in his condition.

JUDGE PEARSON'S DECISION IN THE MARTIN CASE.

The Court:—Certain facts in this case, gentlemen, are admitted by beth parties. It is not denied that Cox is dead, and that he met his death at the hands of the defendant, that the defendant used a deadly weapon, and that he shot intentionally. So that he is guilty of murder here unless he acted in self-defense. There are, ordinarily, three elements of self-defense. Here, as the Court understands it, there are only two. The burden is upon the defendant as regards the proposition of iminent peril to show that at the time he shot there was imminent, imperious necessity, either real or apparent for him to shoot in order to save his own life or to save himself from great bodily harm. If he shows that, the burden then shifts to the state to show that he was not free from fault in bringing on the difficulty.

As to the first proposition, the Court will not hazard an opinion.

The evidence for the defendant is that Cox made statements from time to time that he was prepared for Martin. Cox certainly knew that there was ill feeling on the part of Martin towards him, and it might be reasonably said that, under the circumstances, Cox went armed. Whether he was armed on this particular occasion is matter of grave doubt in the mind of the Court. I think that the preponderence of the evidence shows that Cox did not own that pistol. He did own a pistol. He was seen by a great many persons with a Colts pisto—or several persons—and only one person is alleged ever to have seen him with anything like that (indicating derringer pistol. So that the xuestion which is very clear in the mind of the Court is the one on the question of freedom from fault in bringing on this difficulty. I don't know whether Mr. Cox was free from fault or not; he certainly was not very discreet in going to that place. The Sprome Court has said, and especially is it true in cases where there is ill feeling between two men, that he who would set up the doctrine of self-defense must be absolutely free from fault, and that he must not be unmindful of word or deed calculated to bring on a difficulty. Even if Cox was wrong in going to Martin's house, it did not justify Martin in putting himself in a place of danger. When Martin was at thrt dinner table he was at a place of safety. His story about going to his brother's is entirely unbelievable—he wasn't going to his brother's, he had no more idea of going to his brothers than I have—nobody says so but himself, he hadn't said anything about it at the dinner table, not a soul says a word about it except himself; and if he had been going to his brother's he would not have armed himself with a deadly weapon and loaded it to have gone oc a peaceful errand to his brother's. That is entirely unbelievable. Then the question arises—of course that eliminates the question of self-defense, because he was not free from fault in going into what he must reasonably have known was a place of danger. All that was necessary was to set fire to the tinder and it was ready to burn. Cox was probably ready to shoot and Martin was ready to shoot—bad blood. So that when Martin armed himself with this gun, this deadly weapon, and went voluntarily from a place of safety into a place which he must reasonably have known would have brought about danger, he cannot be said to have been free from fault. He ought to have had enough consideration for his own life and for the life of his fellow man to have stayed away from Cox at this time.

Then the next question that is to be decided by the Court is whether or not he acted with premeditation and deliberation. That he acted with malice, and that he intended to take the life of Cox cannot be doubted under this evidence. Had he thought the matter over? Had he had time to deliberate, and did he deliberate? Why did he buy these shells? Why did he have them in a place of readiness? Can it be said for a moment that he did not know that wagon was in that yard? It was in plain view of the point where he says he went to feed his pig He could not have helped but see it if he had gone to that point and he could not have helped but hear the rumbling of the wheels over that road. It is about as rough a road as one needs wish to see. It is unbelievable that he did not know that Cox, or that wagon, was coming, Besides that, the testimony beyond any reasonable doubt, shows that both Cox and Peyton—I mean the defendant and Peyton—heard that wagon. It did not slip up there. There is no evidence that there was rubber tires on that wagon He knew it was coming there, and he went out with that gun after deliberation and premeditation. He thought about it. He was ready. He was willing. He did act. He took the life of a fellow man.

So far as the Court is able to see it, there was no justification. He acted, it may be, upon the heat of passion, but it was not suddenly engendered; it was not that sort of passion that robs an act of malice or that robs it of premeditation and deliberation. I do not doubt that he was smarting, that he was revolting, under the charge which he says Cox had made against him that he had stolen from him, and it is most unfortunate, most unfortunate indeed, that one man should charge another with an offense of that sort unless he is ready to prove it, and unless he makes it good. It may be that Cox's indiscretion in making the charge resulted in his own death; but, even though that be true,—even though that may be true—it cannot justify in law the act of this defendant in taking his life. He had another remedy, he ought to have gone, he ought to have taken that remedy; he could have gone to the courts; he had an action, if he was not guilty, he had an action against Cox both in the civil and criminal courts; they were open to him, and that is where he should have gone. And it ought to be a lesson to us. We live under laws, and he who attempts to take the law into his own hands becomes himself an outlaw, although in the initial happening there may have been some reason for him to act.

It is the judgement of this Court that the defendant in this case is not entitled to pail. He is remanded to the custody of the custody of the sheriff without bail.

LAZY LIVER SPOILS DAY'S WORK

Don't Let a Torpid Liver Knock You Out of a Day's Work—There is a Better Way—Read About It.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after-effects that you will be laid up for two or three days more. So we say "Don't take Calomel." We have a perfect substitute that we can fully guarantee to cure constipation and liven up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this tonic is Dodson's Liver-Tone. It is a pleasant tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the ody without any danger of salvation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. The Alred Drug Company. ey back. The Upchurch Drug Co.

NOTICE OE STOCKHOLDERS MEETING.

To the stockholders of Union State Bank, a corporation organized under the laws of Alabama, and having its principal place of business at Thorsby, Alabama:

You are hereby notified that the Board of Directors of said corporation by action regularly taken on the 2nd day of September, 1912, called a special meeting of the stockholders of said corporation to meet at the banking house of said corporation in Thorsby, Alabama, on Monday the 21st day of October, 1912, at the hour of 8 o'clock a.m., for the purpose of taking action as follows, to-wit:

(A) To change the par value of the shares of the capital stock of said corporation from $100.00 per share to $60.00 per share.

(B) To reduce the authorized capital stock of said corporation to $30,000.00 divided into 500 shares of par value $60.00 each.

(C) To change the principal place of business of said corporation from Thorsby, Alabama, to Maplesville, Alabama.

Witness my hand this the 19th day of September, 1912.

GUY H. GERALD,
Cashier of said Corporation.
TIPTON MULLINS,
Attorney for said Corporation.

Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequaled for chapped hands, sore nipples, chilblains and chafes. Price, 25 cents. For sale by ALRED DRUG CO.

TAX NOTICE

ASSESSOR'S AND COLLECTOR'S FIRST AND ONLY ROUND.

We will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County, Alabama, for the year 1912, and Assessing the Taxes for the year 1913.

Hours 8 a.m. to 4 p.m. except where otherwise specified.

Pletcher, Beat 15, October 1.
Riderville, Beat 8, October 2.
Stanton, Beat 8, October 3.
Shoults, Beat 7, October 4.
Maplesville, Beat 7, October 5.
Culp,s School House, Beat 15 Oct. 7.
Benson, Beat 3, October 8.
Macedonia, Beat 14, October 9.
Mars Hill, Beat 2, October 10.
Hayes' Gin, Beat 2, 6 to 9 p.m. Oct. 10.
Concord, Beat 13, October 11.
Minooka, Beat 13, October 12.
Robinson's Store, Beat 12, October 14.
Mineral Springs, Beat 12, October 15.
Mullin's School House, Beat 1, Oct. 16
Cane Creek, Beat 11, October 17.
Providence, Beat 16, October 18.
Coopers, Beat 10, October 19.
Mountain Creek, Beat 5, October 21.
Verbena, Beat 5, October 22.
Evergreen, Beat 10, October 23.
Enterprise, Beat 6, October 24.
Kincheon, Beat 6, October 25.
Jemison, Beat 2, October 26.
Thorsby, Beat 9, October 28.
Clanton, Beat 4, Oct. 29 to Nov. 9, 1912.

TAKE NOTICE that under the new law, we can only make one round. If for any reason you do not pay on this round, you may pay at the Court House at any time before January the 1st, 1913. After December 31, 1912 all taxes become delinquent.

Also please take notice that the new law requires you to meet the Assessor on this round in the Beat in which you live and make your assessment, and that after the completion of the above round all assessments become delinquent.

J. N. DENNIS, Tax Collector.
L. B. POUNDS, Tax Assessor.

IT PAYS TO PAINT

Money Spent For Good Paint Will Add Hundreds of Dollars to the Market Value of Your Property

To refinish or redecorate your home, select a definite specialized product—to do just the work you want done—simply, easily, at the least expense.

Pee-Gee Quality Paints, Stains, Enamels and Varnishes insure success in whatever finishing you undertake. Their undisputed superiority is a marvel to the user.

YOU WILL FIND BELOW JUST WHAT YOU NEED.

House Exterior Have it painted with MASTIC PAINT and secure a beautiful, hard, enamel-like surface of the greatest durability. Resists best the smoke and gases of the city. MASTIC WHITE is the very whitest house paint made. Don't experiment with cheaper paints or keg lead and oil, and be disappointed. Get MASTIC PAINT, "the kind that lasts." Made in 45 colors.

Porch Floors and Steps Pee-Gee PORCH PAINT is best for the purpose. Hardens quickly with high gloss. Stands wear and tear of walking on.

Screen Doors and Windows Should be painted with Pee-Gee SCREEN ENAMEL, both wire and frame. Will not fill the mesh. Saves your screens and your pocketbook.

Barns, Stables, Outbuildings Should be painted with our Pee-Gee BARN PAINT, red or green---white trimmings, make a pretty combination.

Roofs If tin, the Big Four Formula Metallic Paint gives the best and longest service at least cost. For shingles CREO-STAIN can be brushed or dipped. Soaks in and preserves the wood---doubles the life of the roof. Comes in 19 beautiful colors.

Concrete Work On cellar and porch floors and side walls, Pee-Gee PORT-LANITE (dull or gloss) prevents dampness, staining and disintegration. Adds greatly to the appearance of concrete.

Interior Walls and Ceilings Don't paper them---or before you do---investigate Pee-Gee FLATKOATT, the velvet finish that is being widely used in place of paper. It's better, and lasts three times as long.

Inside Floors If the clear, natural grain of the wood has been preserved, use FIXALL VARNISH. Comes in light oak, dark oak, mahogany, cherry, walnut, etc. If your floors are badly worn, scuffed, stained or spotted, better use ADAMANT FLOOR PAINT. Dries hard overnight with a high polish. Comes in nine beautiful colors. Easy to apply. PEE-GEE Floor Wax for hardwood floors. PEE-GEE Crack Filler for filling cracks.

Furniture and Cabinet Work Should be rubbed lightly with fine pumice and water to remove spots, grease adhering---then varnished with a high-grade Cabinet Varnish such as our IMPERIAL PRESERVATIVE. Don't use common furniture varnish or you will ruin your surface. In case a dull, rubbed effect is wanted use our Falk's Flat Finish. One coat suffices.

Re-Staining Furniture Original finish can be restored or new finish (Oak, Mahogany, Cherry, etc.) obtained by use of FIXALL---the perfect varnish stain. Stains and varnishes in one operation. Simple and easy to use. If Mission Finish is desired use Pee-Gee DYSTAIN.

Removing Old Paint Pee-Gee No. 23 Varnish Remover will take off old paint or varnish down to the bare wood where work is in condition to require this.

Kitchen Floors Can be painted with ADAMANT FLOOR PAINT. Dries over night with a hard, tile-like surface. Try our Yellow or Drab---neither shows the dirt readily.

Pantry Shelves Should be made sanitary and easy to clean by painting them with BLUE RIBBON FAMILY PAINTS. Lightens, brightens and makes cheerful.

Wicker Chairs Enamel white with Pee-Gee CHINA ENAMEL---or stain a pretty mission color with Pee-Gee DYSTAIN.

Porch Chairs and Swings Pee-Gee CARRIAGE PAINT is best; 11 colors to select from.

Bathroom A wonderful improvement can be made by using Pee-Gee CHINA ENAMEL. Resembles a white tile finish---hard and glossy.

Radiators Pee-Gee ALUMINUM ENAMEL or GOLD-LAK will not tarnish.

Chandeliers and Grate Fronts EGYPTIAN BLACK ENAMEL---BERLIN BLACK (wrought iron finish) or the Gold and Aluminum Enamels mentioned above, are suitable.

Our Sales for 1911 on

KIS-KO

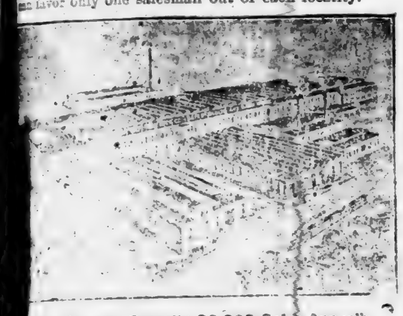
Increased 1,757 Per Cent over 1910

WHY?

KIS-KO is sold on a money-back guarantee.
KIS-KO must produce results.
KIS-KO has cured cases that were pronounced incurable by some of the best doctors in the country.
KIS-KO for Rheumatism, Scrofula, Blood Poison and Chronic Blood Troubles is the best medicine in the world.
Ask your dealer. Booklet giving history of cures sent on request.
GERSTLE MEDICINE CO., Chattanooga, Tenn.

WHY NOT MAKE $200.00 A MONTH - - That's $50.00 a Week, almost $10.00 a Day

Selling Victor safes and fire-proof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best, clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalog will enable you to present the subject to customers in as interesting a manner as though showing them through our factory. Men appointed as agents get advice and instructions for selling sales, giving selling points which it is impossible for a prospective customer to deny. Why not be the first to apply from your vicinity before someone else gets the territory? We favor only one salesman out of each locality.



The 25th anniversary of our company was celebrated by erecting the most modern safe factory in the world. Wide-awake men who received our special selling inducement, rendered it necessary to double our output. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars, it will cost you only the price of a postal card.

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee the money will be refunded if it fails to do exactly as claimed.

PRICE 50c AND $1.00 AT ALL DRUGGISTS

If it does not keep it and 50c. in stamps and we will send you a large bottle, express prepaid.

CHEMICAL COMPANY, 74 CORTLANDT STREET, NEW YORK

A 25c Cake of Wyeth's Sage and Sulphur Toilet Soap Free to anyone who will send us this advertisement with 10c in stamps to cover cost of wrapping and mailing the soap.

Do the People of Alabama Invite Similar Failures?

Milton H. Smith Answers B. B. Comer

Ex-Gov. Comer, in his address at Greenville, Ala., on August 30th, commented favorably upon the enactment by the State of Georgia creating a Railroad Commission with mandatory powers to fix rates for the transportation of persons and property by the steam railroads in that State, and commended Toombs, Wallace and Trammell for the part they took in securing the enactment by the legislature and in administering its provisions. He also vehemently recited the many advantages accruing to the citizens of Georgia by the operation of the law, and he does this regardless of the fact that his attention has been called to the disastrous results to railroads and the almost total suspension of investment of foreign capital in building new railroads in that State and the disastrous result to local investors who have ventured to so invest in a limited way since the Commission law was enacted in 1879.

Every railroad in the State of Georgia has been bankrupt one or more times except the Georgia Railroad, the Atlanta & West Point, and the Western & Atlantic. The Georgia Railroad and the minority stock owned by that company in the Atlanta & West Point was leased by the Georgia Central and the Louisville & Nashville, and the Western & Atlantic leased by a lessee company, and on expiration of the first lease was leased by the Nashville, Chattanooga & St. Louis Railway Company.

The lease of the Georgia Railroad resulted in heavy losses to the lessees, and was part of the financial condition that caused the bankruptcy of the Georgia Central, resulting in heavy losses to many of the citizens of Georgia who were owners of stock in that company. The failure of the Georgia Central threw the entire burden of the Georgia Railroad lease on the Louisville & Nashville, and it has been a heavy one. No return has ever been received, and large sums have been advanced to provide needed increased facilities and equipment.

With two exceptions, all of the railroads built in Georgia since 1879 have been built with local capital, nearly all of which has been lost through subsequent foreclosure, and in many instances the creditors were losers although acquiring ownership through bankruptcy proceedings. Between January 1, 1880 and December 31, 1906, forty-five of the railroad companies operating in the State of Georgia passed into bankruptcy, involving a capital of $79,585,102.00 with a bonded debt of $78,889,154. During that period 6,236 miles of railroad were at one time or another placed in the hands of receivers. This does not represent the total mileage of railroads within the State of Georgia that were in the hands of receivers at any one time, it being largely in excess of the average mileage within the State during such period, but it is the total of the miles of railroad passing into insolvency, some twice, some even three and four times. Following is a list of the forty-five corporations, all bankrupt:

Abbeville & Waycross
Atlanta & Florida R. R.
Atlanta & Florida Ry.
Atlantic Short Line
Augusta, Gibson & Sandersville
Augusta Southern
Brunswick & Albany R. R.
Blue Ridge & Atlantic
Boston & Albany (Ga.)
Brunswick & Birmingham R. R.
Central R. R. & Banking Co. of Ga.
Chattanooga, Rome & Columbus
Chattanooga Southern
Chickamauga & Durham
Columbus Southern
Covington & Macon (1887)
Covington & Macon (1850)
Cuyler & Woodburn
Dover & Statesboro
East & West of Alabama
East Tennessee, Virginia and Georgia R. R.
East Tennessee, Virginia & Georgia Ry.
Empire & Dublin
Gainesville, Jefferson & Southern
Georgia Midland & Gulf
Georgia Pacific
Georgia Southern & Florida
Hartwell
Indian Springs & Flovilla
Macon & Atlantic
Macon & Birmingham
Macon & Northern
Marietta & North Georgia
Northeastern (Ga.) 1903
Northeastern (Ga.) 1907
Port Royal & Augusta
Port Royal & W. Carolina
Richmond & West Point Terminal
Rome & Carrollton
Savannah & Atlantic
Savannah & Tybee
Savannah & Western
Savannah, Americus & Montgomery
Savannah, Griffin & N. Alabama
Sylvania R. R.

The only two instances where foreign capital has been invested in building railroads in Georgia since 1879 are the building of Georgia, Carolina & Northern R. R. and connecting line to Birmingham, Ala., now part of the Seaboard Air Line System, and the Atlanta, Birmingham & Atlantic Railroad, neither of which has been successful financially, the Seaboard having been reorganized and the A. B. & A. now being operated by receivers.

May not the inference be fairly drawn that the enactment by the legislature of Georgia of the law creating a commission with mandatory powers, prevented foreign capital from being invested in securities of railroads built or to be built in the State, thus forcing its citizens to furnish capital which was lost, and that the rates and regulations enforced by the commission had much to do with, if they did not cause, the disastrous result of operating the local roads that were built with local capital?

Milton H. Smith.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Director of Evening Department, The Moody Bible Institute, Chicago.)

LESSON FOR NOVEMBER 3.

THE SIGN AND THE LEAVEN.

LESSON TEXT—Mark 8:11-26.
GOLDEN TEXT—"Jesus spake unto them, saying, I am the Light of the world: He that followeth Me shall not walk in the darkness, but shall have the light of life."—John 8:12 R. V.

In order properly to understand this lesson we ought to study carefully the parallel passage in Matthew 15:39 to 16:12, also to read carefully John 8:12 to 32. The persistent Pharisees were ever upon his track seeking to find wherein to accuse him. Claiming to come from and to represent the Father, they ask Jesus to show them a sign from heaven. Turning upon them, he says, "You observe the condition of the sky and foretell what weather to expect the coming day and yet you cannot discern the sign of the times." As though to say, "I have come and performed those things that have been prophesied of me as the Messiah and yet you cannot read in my life the fulfillment of these signs of my office." In Luke 12: 54-56 Jesus makes a similar statement: "When ye see a cloud in the west, straightway ye say, there cometh a shower; and so it cometh to pass; . . . Ye hypocrites, ye know how to interpret the face of the earth and the heaven; but how is it that ye know not how to interpret this time?"

His Ideal.

Their question involved a suggestion that his works might be accounted for in many ways other than the rightful interpretation (John 10:37, 38), but their demand was for some particular demonstration. They were not looking for a spiritual manifestation and so far at their request he sighed, because they did not conform to his ideal; he rebuked them by telling them that their wickedness should have one sign that would be an eternal seal upon his deity.

Reaching the other side of the lake, the disciples realize their hunger and discover that they have but one loaf of bread among them. Jesus seizes the occasion to warn them of the evil which he had combated with the Pharisees whom they had just left.

If anyone has any question as to the scriptural teaching upon the subject of heaven, this passage ought to answer their query. Mark tells us that Jesus warns them against the leaven of the Pharisees and of Herod, while Matthew records the leaven of the Pharisees and of the Sadducees. There is no difference in the two, for Herod belonged to the Sadducees. There was, however, quite a difference between these two parties. The teaching of the Pharisees laid great emphasis upon the ceremonial observance of the law and the traditions of the elders. The Sadducees laid great emphasis upon the denial of the supernatural, they did not believe in the resurrection from the dead. There was this in common, however, that they both substituted the false for the true.

Answer to the Question.

The misunderstanding of this warning upon the part of the disciples was a common occurrence and continued until after Pentecost. In this case, however, Jesus tells them plainly why they did not understand (v. 17). Jesus knew and could read their hearts (Heb. 4:13). How like the disciples of old are we today.

The disciples had been with Jesus a long time and observed his mighty acts, yet they confused the material with the spiritual. It was against this sort of leaven he warned them, rather than some kind of bread.

We now turn to the third section of our lesson, the healing of the blind man vv. 22-26. There are four cases of restored eyesight mentioned in the gospels, three of whom are brought, and one came alone. In this case others bring the man and intercede for him (v. 22). Last week we observed a case of a progressive cure and here we have another. Jesus led the man by the hand outside the village and making clay with spittle opened his eyes. Again we would emphasize the fact that "they observed him, that they might accuse him," and hence every act on each separate occasion had a significance and a suggestiveness for that particular occasion, a meaning entirely irrelevant at any other time. Why this man did not see at first we are not told, but surely 'twas through no fault on the part of Jesus. Nor was it the mere use of the spittle that effected the cure, but rather a demonstration of the fact that Jesus can heal with or without means.

The Golden Text seems to be at variance with the facts revealed in this lesson and yet when we turn from examining the disciples with their lack of perception and from the Pharisees whose hard hearts demanded a sign and gaze upon Jesus as he deals with these two classes and with the blind man we see the truth in the text. He is the Light and by his patient dealing, by his rebuke, by his instruction, he led them to the light that they might have a true understanding of life.

As we, too, follow him we must be conscious of our dullness.

WILDCAT PURSUES TWO GIRLS

Dog Rushes to Aid and Was Still Fighting Animal When Rescuer Arrived.

Santa Barbara.—Pursued by a wildcat, which forced them to flee, eleven-year-old Jessa Beckstread and a girl companion, one year her junior, narrowly escaped death.

The little girls, accompanied by a dog which generally follows them in their rambles, went into the hills back of the Beckstread home. While they were playing one of the children saw the wildcat hiding on the limb of a tree. Screaming with fear the child ran. At the same moment the animal sprang at her. The dog rushed to the aid of the girls and engaged the wildcat in a fierce battle, the children making all speed toward a packing house some distance away.

Arriving there, they told of their experience, and a number of men hurried to the spot. They found the dog and the wildcat still fighting, but the battle soon ended when one of the men succeeded in killing the wildcat with a blow from a shovel.

TWINS KEEP UP TRADITION

Both Parents of New Colorado Arrivals Are Twins Themselves—Long Lineage Likewise.

Golden, Colo.—The birth of twin boys in the family of Prof. Charles D. Test of the department of mineralogy in the State School of Mines here proved no anomaly to an ancestral characteristic.

Professor Test himself is a twin. Mrs. Test has a twin sister and Professor Test's father came into the world with a brother. Both Professors Test and Mrs. Test came from a lineage long noted for twins.

The couple was married a year ago.

INSANITY AND THE "BLUES"

Dejection Generally Due to a Disordered Stomach or Liver, and Not the Brain.

It is announced that among the minor forms of mental disorder that are to be studied at Johns Hopkins university is that familiarly known as "the blues," the New York World remarks. It is argued that the dejection is due to a species of insanity, mild indeed at the beginning but liable to become dangerous. As one authority puts it, the disease is so slight as not to be noticed except by those very close to the sufferers. It is the purpose of the experimenters to make it the subject of "suggestive treatment."

We have here what has every appearance of being another attempt to account learnedly for something that isn't so. The dejection known as "the blues" has its seat generally in the stomach or in the liver rather than in the brain. Suggestive treatment by the ablest of alienists or hypnotists or even Christian scientists would not do the patient half so much good as a dose of calomel followed by a sane system of eating and living.

Furthermore, the man to whom everything looks blue is not more crazy than the man to whom everything looks rosy. The victim of blues doesn't buy gold bricks or speculate with trust funds or organize third parties. Why, then, accuse him of insanity?

Baked Potato Balls.

Rub cold mashed potatoes left from yesterday, smooth with a spoonful of warm butter and soften with warm milk. Beat up an egg in it, stir until hot in a clean greased frying pan, not allowing it to "catch" on the side. Then let it cool. When cold and stiff make into balls, roll these in flour and bake upon a greased pan until well browned. Eat hot with a nut pick.

To Make Good Coffee.

French cooks are famous for the excellence of their coffee, which they make so strong that one part of the liquor requires the addition of two parts to reduce it to the proper strength.

This addition is made with hot milk. The large proportion of hot milk, in place of so much warm water, gives the coffee a richness like that made by the addition of cream in the ordinary way. By this means any housekeeper desirous of making good coffee, can have it without cream.

FOR SUMMER SLEEPING ROOM

Japanese Crinkler Crepe an Inexpensive and Always Suitable Curtaining to Be Used.

Japanese crinkler crepe is among the attractive inexpensive curtainings for the summer sleeping room. No matter what is the color scheme of the chamber, something to harmonize with it may be found in this material, which comes in innumerable shades and combinations. Another attractive curtaining in cotton has an arts and crafts design on white or tan, is striped with a narrow, brightly tinted broche pattern.

All linen crash which is 48 inches wide may be had in a variety of tones, and needs only a coarse lace or a machine hemstitched finishing to make a substantial and refined looking curtaining. Most attractive are the imported marquisettes of soft finish and strong weave, the white piques with colored stripe borderings in tan, blue, rose, maize or violet; the silk and cotton foulard patterned batistes and the hand woven chiffon batistes.

Charming looking summer bedroom curtains are of Swiss muslin, machine embroidered with white on color or with a color on white.

inal Woman Suffragist.

historian makes the claim ru Hrolf, the mighty Viking, ward became the first duke ndy and the progenitor of the Conqueror, was the orig- suffragist, and that it was nt Norseman who sounded clarion call for women's centuries ago.

Giving Up Everything.

Hope must have departed from the advertiser who inserted the following: For Sale—Edison phonograph; also a heater and a cemetery lot; cheap.

Good Work of the Agitators.

It is the serious minority which accomplishes great things.—Exchange.

L&N

The Railroad: The Civilizer

With one exception, the railroad is the greatest known civilizer.

As fast as the pioneer's rifle cleared a path through savagery for the march of civilization, railroad builders risked their all that rails might be laid to bring trains loaded with implements for development.

Fertility of the soil is of negligible value until the panting engine has breathed upon the soil the steam of modern commerce. Then waste places are converted into wealth producers; safe and rapid transportation is afforded; the time required to transact business is reduced to the minimum, and the cause of educational and social betterment is advanced.

This is essential for both the country and the railroad. Without fertile soil the people cannot accomplish much, and unless the people take advantage of the opportunity offered to them by the railroad and make the soil produce, the railroad cannot operate.

The interests of the people and the interests of the railroad are therefore identical. The successful agricultural and commercial development of every community must be marked by co-operation between the people and the railroad.

The Louisville and Nashville is fully aware of these self-evident truths; it is seeking to serve the people, to the end that both the people and the L. & N. may prosper.

The Louisville & Nashville Railroad Co.

High-Caste Pushcart Men.

At a railway station in Calcutta, early in the morning, a long train, consisting largely of third-class carriages, is made up, amid the clamor of disputes, invariably incident to any purchase in the Orient. My fellow-passengers, pilgrims on their way to the Holy City, are buying from venders greasy sweets or tough dough cakes indigestible to any but an oriental stomach. These venders are invariably of high caste, according to the Hindu system of social position, for no Hindu will buy food or drink from one of a lower caste than himself.

The great civilizer in India, however, as elsewhere, is the railway, which has made it necessary for the Brahman to sit next to the despised Sudra if he would travel. On all ordinary occasions, should the passengers of one compartment all be of one caste, they put their feet out of the window—for want of space—and sleep in peace and security. Should they be of different castes, however, all but the lowest, the Sudra, sit rigidly erect, guarding against defilement of their caste by a touch of their more unfortunate fellow-travelers.—Christian Herald.

How Vienna Helps Brides.

"Lectures for Brides" is the name of the latest course started by the Viennese institution for popular instruction known as the Urania, and now advertised all over the city. The lectures will cover such subjects as house-keeping, cooking, hygiene, elementary physiology and the care of children.

Though mainly intended for those who are about to be or have just been married, all girls over 17 will be admitted. The course will last for eight months, there being lectures on two evenings a week. A small fee is charged for the course, but the poor can obtain tickets free.

Sounds Better.

The feeling of many men with regard to public office is much the same as that which a certain distinguished Frenchman had toward the Academy—that group of 40 who are called "The Immortals." He was asked one day why he did not propose his candidacy for the Academy.

"Ah," said he, "if I applied and were admitted, someone might ask: 'Why is he in it?' and I should much rather hear it asked: 'Why isn't he in it?'"—Christian Register.

All you who have torpid liver, weak digestion and constipated bowels look out for chills. The season is here and the air is full of disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy, it answers the purpose completely. Price, 50c. Sold by Upchurch Drug Co.

Household Questions

An envelope pasted in the cover of the cook book is a handy device for keeping loose recipes.

When selecting soup meat choose meat which has a little fat surrounding it and a cut from the round.

Put chimneys into a kettle of cold water and gradually heat until it boils, and then let as gradually cool, and the chimneys will not be broken by the ordinary fluctuation of the flame of the lamp.

When beating white of egg for sponge cake, when it becomes dry and light test its stiffness by turning the dish containing it upside down. If it is beaten to the proper point not a particle will become detached.

To remove ink from the furniture add a few drops of spirits of niter to a teaspoonful of water, and apply just to the spot with a camel's hair brush; dry off at once and wipe with a cloth dipped in cold water; dry and rub with oil.

Fruit can tops have an annoying habit of sticking. Have two strips of coarse sandpaper an inch wide and eight inches long in the kitchen. Fold the strip of sandpaper around the can top and give it a twist; it will loosen immediately.

To save trouble after opening a bottle of glue or cement rub mutton tallow upon a sound cork before inserting it in the bottle. This prevents the cork from sticking fast, only to be broken in small bits when an attempt is made to remove it.

Brown and White Sandwiches.

Boston brown bread, white bread, creamed butter, chopped olives, celery salt, red peppers. Season the butter with a bit of celery salt, finely chopped red peppers and olives; work to a paste. Cut the brown and white bread into thin, even slices and trim off the crusts until the pieces of bread are of the same size; then spread on the butter. Place the slices alternately, first a white and then a brown slice, until you have five layers. Press these down firmly but evenly, and with a sharp knife cut down slices about half an inch

Stop That Itch!

I will guarantee you to stop that itch in two seconds. A 25 cent bottle will prove it.

To Resist Winter Colds build your system with Scott's Emulsion 45

THE UNION 10th Year | CLANTON, ALABAMA, THURSDAY OCTOBER 10. 1912 | THE BANNER 20th Year | NO. 27

WORD TO CORRESPONDENTS AND POLITICAL WRITERS.

The Union-Banner will not hereafter allow any rough and unpleasant personalities in its columns about candidates or political workers. There is no good reason why a campaign can be run along decent lines and as far as this paper is concerned, it will be clean. Some such slipped in while the paper was without a head, but there will be no more.

The Union-Banner stands for the Progressive Party, National, State and county, because it believes that the two old parties are hampered by conditions and are managed by politcians that it is impossible for the people, through them, to secure good government and free themselves from the encroachment of "privileged" classes.

This feeling of unrest under business and of revolt against present conditions is very strong through the whole mass of intelligent voters in the country. It shows itself in the action of both democratic and republican parties, to be "progressive." The Democrats make the claim, but, as a party they hang on to the same old machines which were created mainly to hoodwink the people and work for the few who control the government in their own interests. The "progressives" who remain in that party will find if they are successful this year, as there is possibility of their being, that they have but helped fasten the chains which bind the people down and there will be promises enough, but no power to carry them out.

The "progressive" thinkers in the Republican party, and they include most of the voters of that party who are free to act for the good of the country, have withdrawn and formed, in coalition with the Democrats of the same mind, the Progressive party which unhampered by unworthy alliances and outgrown traditions, can take up the work of reform demanded and carry it to a successful issue.

So if you really have your own interest at heart, not some little party interest, but the real betterment of the country, you will drop all little prejudices and line up with the Progressives, the best, strongest and best balanced "Peoples' Party" this country has ever known.

MAKE YOUR VOTE COUNT.

In most elections there is an issue which should appeal to the careful consideration of every intelligent voter who cares to look after his own interests and to act for the best good of the section in which he lives. In some instances it is the record and character of the men running for office, in others it is a line of policy to be carried out; sometimes it is both. The voter, therefore, should decide as to the men and measures he thinks best and not allow himself to be carried away by any side issues and his vote

In this country there is a clear issue between the Progressives, representing the people, and the Democrats, representing the politicians; with a well defined issue, that of economical administration, and a vote for any party, such as Republican, Socialist, Temperance, or the like is only playing into the hands of the Democrats in their fight for control of the county.

So don't waste your vote by voting against your interests as a citizen of the county, but cast it for the Progressive party; the only party which represents the people in their revolt against the intolerable conditions of the past.

The "bull moose" is all right for a party symbol; he is a purely American animal, representing the American people; while the "elephant" is from Asia and Africa, and the "donkey" came originally from Spain, the land of "to-morrow."

Gov. O'Neal says he wont call a special session of the legislature unless he is "forced to." What can "force" him but the mismanagement and greed of the politicians who placed him in office?

Say, don't let's let any man ride into office on "good roads" until after we get the good roads.

FROM W. H. GILLESPIE.

Editor Union-Banner:

As I have received a lot of enquiries from persons wanting to know what I was going to do in the present campaign I thought that I would write a few lines in the good old Union and Banner, stating my position, thereby answering all inquiries at once. I want to say that I had been a Republican all my life, casting my first ballot for the martyred McKinley and Roosevelt in 1900. And I want to say that I am a Republican yet. But I want to say also, that I am a Progressive Republican. Now, Mr. Editor, I consider that there is only one Republican county ticket in this county, and that is the ticket nominated the 6th day of May last. And I will say that I am going to support that ticket and I expect to do everything in my power to bring about the election of the ticket, as that ticket is composed of good, true and competent men, who have always stood by the people's cause. And I want to say to the people in this county that there are certain parties going around telling you that they have put out a straight Republican ticket and that you ought to support it. But when they come to you, just ask them how many men have they got on their ticket that voted the Republican ticket two years ago, and if you will investigate the matter, you will find that the most of them had been voting with or assisting the democrats in the past, and that is what some of them expect to do this time, directly or indirectly.

But I think the people in this county are too wise to be fooled any more by these Democrats in Republican clothing, and that the experience we have had for the past two years with a Democratic administration has learned us a lesson that we will not forget.

Yours respectfully,
W. H. GILLESPIE.

MR. JONES' REPLY.

Mountain Creek, Oct. 7, '12.
Editor Union-Banner:—In reply to the letter in last week's issue of the Clanton Press signed [illegible] I wish to say that [illegible] much charge made by him [illegible] But for fear that our people may [illegible] more possibilities I would go into details in this matter to Mr. Teel's letter. However, feel sure that those who investigate [illegible] will put little or no stress on the charges or anything he would say. I will close. Respectfully, [illegible]

THE SITUATION IN THE COUNTY.

Editor Union-Banner:

Please allow me space to say a few words in regard to the political situation in this county. First, I want to say that I have never seen the prospects look any better for any party than they do for the Progressives in this county and in the United States. But I will warn our people not to be over confident and go to sleep and think everything will be all right, for that is what we did two years ago, and I want to say that the people of this county have and will pay dear for that, for the peoples' taxes have been going higher and higher ever since the last election and the county treasury has been empty almost all of this year. I hear it talked that the county is behind with and owes some of our county officers as much as one or two thousand dollars, and I know that the officers in our primary held in May have been unable to get their pay until now. So I think it would be wise for the people to consider and investigate to see whether it would be best to turn the affairs of the county over into the hands of the Democrats and let them go on with things going like they have for the last two years, with the county in debt and the treasury empty and taxes going higher. Wouldn't it be better to turn it back into the hands of the people who had been in control of this county for the last twenty years, up to two years ago? We all know that up to that time we had a low rate of taxation and the county was out of debt and had money in the treasury. Now, if the people want lower taxes and money in the treasury and the county kept out of debt, why, they can vote the Progressive ticket.

But if they are ont satisfied with high taxes but want them higher and also desire bond issues, why they can vote the Democratic ticket, and if the Democratic ticket is elected, (but of course it will not be), they will have higher taxes and bond issues whether they want them or not.

In regard to that "Republican convention" held at Maplesville, some of us would like to know how many of those who were present had voted the Republican ticket. To those of us who know the character and records of the men most prominent in that meeting, it is a poorly disguised attempt to help out the Democrats by trying to distract the attention of Progressive Republicans. It won't help them much as the men are pretty well known and are not respected by those who have little regards for traitors and tools.

A Progressive Republican.

GET A MOVE ON.

I have travled over land and sea,
And many climes I've seen,
I find that all nations, principalities,
Have some (government) on which they lean.

The Hafir in the wilds of Africa,
Have their laws, tho' primitive,
And understand right from wrong,
In that dark region where they live.

Now in this land of Progress,
I have been for several years,
And in it I hope to stay,
The balance of my days.

I have watched the seat of government
Closely well into its ways:
I believe the statute of Illinois
Means just what it says.

Now men of this great Republic,
Study well before you vote,
If you mean to keep this country movin',
Harness the Bull Moose for the job.

Rt. 4, Clanton. SCOTT.

A WORD TO THE FARMER.

Editor Union-Banner:

Please allow me space to say a word to the farmers and producers of our country. We will first notice what Governor Wilson, the Democratic nominee for president says in his opening speech in Cleveland. He says the tariff is the principal cause of the present high cost of living; he pledged the Democrats to a speedy reduction of duties upon the necessities of life, and that if he got the reins of government in November no rapid steps would be taken that would work ruin to business. Now, brother farmer, what about it? Are you getting too much for your produce, and do you think the price of your produce should be reduced to make you prosper, or the value of your land and cattle and horses? Such an argument should convince the wayfaring man, though a fool, that to reduce the value of farmers' products would not bring him prosperity. The fight the Democrats are making is on the tariff and corporations. Now, we have manufacturers and corporations and industries right here in Birmingham that give a pay roll of more than a million dollars a week. Do the farmers get any benefit of this payroll and are the corporations responsible if they do not?

Who is responsible? The farmer and the consumer are responsible and not the tariff and corporations. The farmer should get closer to the consumer and get his part of this million dollar pay roll. But instead of dealing with the consumer he sells eggs to the local dealer at 12 1-2 to 20c, and the consumer right here in Birmingham pays 20 to 40c for them. He sells his hens at 25 to 35c to his dealer and we who get the million dollar pay roll pay 60 to 75c for them; for fryers the farmer gets 15 to 30c; consumer pays 30 to 60c; for mellons the farmer gets 15 to 30c, consumer pays 30 to 50c. As a rule the consumer pays from 50 to 100 per cent more for produce than the farmer gets for it. Is the tariff responsible for this? I say not. Let the producer and consumer get acquainted with each other and thereby the consumer will cut down the high price of living and the farmer still get a better price for his produce.

I hope the farmers are not like the old farmer who came in town to buy a new wagon. The dealer made a price of $70, to which the farmer objected, saying he had purchased the same style and make of wagon many years before for $60. The dealer explained that the advance in price was due to higher cost of material, but the farmer was not convinced After a lengthy argument it developed that the farmer years before had paid for the $60 wagon with 600 bushels of corn, corn at that time being 10c per bushel. "I will tell you what I will do," said the dealer, "You give me 600 bushels of corn for this $70 wagon, and I will make you a present of the best reaper in my stock, your choice of surreys, and you can bring your wife down and I will make her a present of the best kitchen range I have and will fit her kitchen up complete with new dishes and utensils. Is it a bargain?" It was not.

Now brother farmer, can you support the Democratic party, that says we want the man that hasn't much money to carry on our campaign? A party that says they will cut down the cost of living and make the farmer prosperous; a party that has run Alabama to the bad a million of dollars, and skinned our county treasury. No wonder the time has come when the people of Chilton county are denied the privilege of holding sacred song services in the peoples court house. I believe if the people of Chilton county will consider the Democratic way closely they will snow them under at least 3 to 1 in the coming election.

A. A. JACKSON.
Ensley, Ala., Oct. 5.

WEST CHILTON.

Politics over here are generally of the Rooseveltian type, and we believe every republican, Populist or Progressive in this part will heartily support the county ticket nominated in May. Let the people all over the country do likewise; let union be the battle cry of the people's movement, even slight divisions are fatal. You tried it two years ago and you know the result. The peoples cause has borne different names, yet it is the same people, battling for the right, against trickery, for honest elections, a free ballot and a fair count, and all who love the peoples' cause are surely not caucusing with the enemy directly or indirectly.

We are not a politician, can't play on all sides, and personally we have a high regard for Gov. Wilson, but ah, the low tariff for which Mr. Wilson stands, our people are afraid of it. Yes, we have tried it, we know its bitterness it is against the farmer who has something to sell. All farmers want high prices for their products. Under low tariff in the nineties everything was cheap, yes, dirt cheap, still you could not buy the goods. Can wage workers expect high wages under low tariff? No. So we don't oppose Gov. Wilson on any ground but what he stands for, the dreaded low tariff. In the north where Republicans are in power it is admitted from Socialist headquarters that the poor people are in a better condition than they are in the south where Democrats rule. See? Mr. Kilgore writes freely on the Negro question, we have admired Mr. Kilgore, and we are sure when he was a candidate that he was supported by some colored votes, then how can he be so unmindful now? We blame no one for their political convictions, but we do blame them if they have been honored and assisted into office to turn against those who so loyally supported them and try to defeat the wishes of their former friends. Surely we people have had a full share of that, ah, it is so horribly ugly. Then close up the ranks, let all hearts beat as one, present a solid front against a bond issue, trickery, all dishonesty let nothing divide you. Prof. M. C. Crumpton was ordained to the ministry Sunday. He is a young man of promise. May he secure great knowledge and thus lead his hearers to great depths and heights in the truth now due, present truth. Some young minister has said that some of the old ministers are too deep, really know too much for our people. O, what an ecomium of praise on the aged preachers. We suspect if some of these people knew more of full salvation they would understand the old preacher better, they may need to know better how to rightly divide the word of truth in its various applications to time, etc. O, my, here in this late day away down the stream of time, and yet some preachers too deep for the hearers. What are we coming to?

In the Union once appeared an article, "A plea for the babies," it needs a repetition. Look at the boys bound helpless in the chains of the cigarette habit, who learned them this deadly habit? Older people, men and women, please quit learning the children those wrong habits. Not long since we noticed two preachers on the church yard, one smoking, the other taking a chew. What a task to keep your boy bright and manly with such examples before him.

Hear the voice of the dead Frank Baltzell, once editor of the Alliance Herald, "Never do what your enemy wants you to do." This is not a contest, just to defeat men, but it is a warfare against bond issues, high taxes, low tariff and for progress, honest elections, and the rule of the people. So beware of even slight division it is fatal.

CITIZEN.

COLLINS CHAPEL.

Editor Union Banner:

Please give me a small space in your paper to say a few words to the people. It is only a short while until the people of these United States will have the opportunity of casting their votes for a man to sit at the head of our great government, as well as for state and county officers. In my opinion we have an opportunity to vote for the greatest man in the world to sit as president of our great country. And that is Theodore Roosevelt. I would not say this but we have tried him and found him true.

Therefore, I am anxious to try him again. While he was president, we had prosperity and plenty, which is undeniable by any one. Now you will hear some standing around saying vote for Wilson. The man that stands on the same hunch that Grover Cleveland stood on. And you well know what we had while he was president. Poverty and Starvation. So don't be fooled again.

We wish to bring you closer home and that is to our county. Can you see any difference in things now and two years ago in this county. I should say yes. What is the matter? During the campaign of 1910, Judge Deason told the people that Judge Reynolds was to blame for everything that was done wrong, so I suppose the same shoe will fit him. When Reynolds was in we had plenty of money to pay all expenses. Now, what have we got? Debts a plenty of them. How many men in the county hold accounts against the county for holding the two primary elections and can't get a cent. How many?

How many men do they owe for taking the school census? You know all these things without my telling you. Now are you going to vote for these conditions? I should say no.

Now it is up to us to vote the Democratic or the Progressive ticket one, not but what we have two other tickets in the field but we know there is no chance to elect either of them. The Socialists we believe are sincere in what they advocate, that is the most of them. But we believe the leaders of the Maplesville ticket are traitors, and are not

(Continued on page 4, first column)

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

Commissioners' court meets second Monday in February, first Monday in April, first Monday in June, second Monday in July second Monday in August and first Monday in November.

CLANTON COTTON MARKET
Price to day..... 12½c

The new editor and manager of the Union and Banner has been watching Clanton grow for the past eighteen years, going off at times, but always coming back to find the town larger, with better stores, better houses and better streets. And now it has the appearance of just having commenced to grow—more new brick stores and a great demand for residences. Evidently Clanton means to be one of the most important towns in the state. There are some things it yet needs, most prominently water works and a complete sewerage system, but she will have these before long.

The growth of Clanton is the result of the settling up of the farm lands around and the improvement in farming methods. The farms, in most cases, look little like they did eighteen or twenty years ago. The farmers have learned a whole lot about their business, but they have just commenced—a few more years will show a much greater progress than they have made in past.

The editor will be glad to meet all of his old friends and the big crowd of new ones at the office when they can come around.

"FREE"

Everyone who buys Dress Goods from us to the amount of $1.00 or more will be given a Pictorial Review Pattern for making J. C. JONES & CO.

Mr. and Mrs B. E. Jones visited Montgomery Thursday.

Did you visit Miss Minnie Muse formal opening last Tuesday, she is showing the prettiest line of Millinery ever shown in Clanton and prices are very reasonable.

Neuralgia of the face, shoulder, hands or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Misses Era and Cora Baldwin are taking in the fair in Birmingham.

Mesdames J. P. Gore and H. H. Smith visited Birmingham Monday.

H. M. Beatty, Little Rock, Ark., says: "For the past two years I suffered with kidney trouble, had severe pains across my back and over my hips that almost meant death to me at times. I used several well known kidney remedies, but got no relief until I used Foley Kidney Pills. These, I can truthfully say, made me a sound and well man."—Upchurch Drug Co.

Miss Lena Downs sgent Saturday in the Magic City.

Mr. Hugh Simpson visited Montgomery Monday.

Mr. Sam Goodgame has removed his family from Mississippi to Clanton.

Mr. Elmer Welsh, who moved to Birmingham some time ago, has returned to Clanton with his famiiy.

Tickling in the throat, hoarseness, loss of voice, indicate the need of BALLARD'S HOREHOUND SYRUP. It eases the lungs, quiets the cough and restores health in the bronchial tubes. Price, 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Use Eagle Thistle Soda and take advantage of special offer on a set of Sterling Silver-plated Rogers & Brothers Teaspoons.

Miss Minnie Muse spent Sunday in Montgomery.

Uncle Pennywise Says:
The good cook generally marries the man who can't provide the raw materials.—Courier-Journal.

Misses B. L. Cobb, J. N. Scott and S. A. Edwards of Jemimson paid this office a visit this week.

Mrs. Deborah Rogers spent several days in Montgomery last week on a business trip.

Mrs. W. H. Sartor and Miss Callie Watts visited Montgomery Sunday.

Mr. P. D. Wilson spent a few days in Birmingham last week.

Wm. A. Allen, Chacon, New Mexico, writes: "My wife had a cough that almost choked her to death—the worst I ever saw. We tried everything we could think of, but did her no good. By good luck I happened to get a bottle of Foley's Honey and Tar Compound and it helped her at once. It is the best cough medicine I ever heard of."—Upchurch Drug Co.

Mr. Frank Crichton was brought home from the sanitarium at Montgomery last Saturday evening. His condition shows some little improvement.

LAZY LIVER SPOILS DAY'S WORK

Don't Let a Torpid Liver Knock You Out of a Day's Work—There Is a Better Way—Read About It.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after-effects that you will be laid up for two or three days more. So we say "Don't take Calomel." We have a perfect substitute that we can fully guarantee to cure constipation and liven up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this tonic is Dodson's Liver-Tone. It is a pleasant tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the ody without any danger of salvation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. The Alred Drug Company. ey back. The Upchurch Drug Co.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by Alred Drug Co.

Mr and Mrs. E. B. Tyus were in town Monday.

Miss Kate Smith of Mountain Creek, is spending the week with relatives in Clanton.

Miss Lula Wells of Cooper was a pleasant visitor to Clanton last Saturday.

CHILTON COUNTY FAIR

Chilton County Fair, the old Ladies Department, from 50 years up. State exact age and name, and when made.

Childrens Department, up to 15 years. State exact age and name, and when made.

Everything must be in by 9 o'clock Monday night, Oct. 28th, beginning that morning at 8:30 o'clock.

Everyone that wants an individual Booth in the County Fair, please apply at once to the Secretary and state size wanted.

There will be absolutely no gambling of any kind allowed on the Chilton County Fair grounds.

COURT NOTES

Friday the case of state vs E. M. Ray, charged with assault with attempt to rape, was tried in the county court and defindant discharged.

State vs M. L. Hawkins charged with embezzlement, waved examination and was placed under $1500 bond, pending investegation by tne grand jury.

Monday was regular county court day.

Harmon Headley was convicted of selling whiskey and fined $250 and 30 days in the penitentiary; the latter part of sentence suspended.

F. A. Wootsey, a brakeman at Jacksonville, Texas, says: "I was down with kidney trouble and rheumatism so bad I could hardly get up, and had backache all the time, and was almost tired of living. I saw an ad of Foley Kidney Pills and after taking one bottle I was better, and when I had taken two more I was thoroughly cured."—Upchurch Drug Co.

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

J. C. Ray, Winfield, Ala., says: "My father, T. J. Ray, suffered with kidney and bladder trouble so bad he had to use a catheter. Various kinds of kidney remedies were tried without result, and finally we gave him Foley Kidney Pills. In three days he could pass some water and on the fifth no longer needed the catheter. He continued to use Foley Kidney Pills until entirely cured."—Upchurch Drug Co.

NOTICE OF STOCKHOLDERS MEETING.

To the stockholders of Union State Bank, a corporation organized under the laws of Alabama, and having its principal place of business at Thorsby, Alabama:

You are hereby notified that the Board of Directors of said corporation by action regularly taken on the 2nd day of September, 1912, called a special meeting of the stockholders of said corporation to meet at the banking house of said corporation in Thorsby, Alabama, on Monday the 21st day of October, 1912, at the hour of 3 o'clock a.m., for the purpose of taking action as follows, to-wit:

(A) To change the par value of the shares of the capital stock of said corporation from $100.00 per share to $60.00 per share.

(B) To reduce the authorized capital stock of said corporation to $30,000.00 divided into 500 shares of par value $60.00 each.

(C) To change the principal place of business of said corporation from Thorsby, Alabama, to Maplesville, Alabama.

Witness my hand this the 19th day of September, 1912.

GUY H. GERALD,
Cashier of said Corporation.
TIPTON MULLINS,
Attorney for said Corporation.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater
The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need.

THE DECISION IN THE MARTIN CASE.

While the undersigned do not believe that the public press is the forum in which to try cases that are pending in the courts, we feel that we would be remiss in our duty to our client as well as our duty as citizens who believe in a full and fair administration of the law, to withhold our condemnation of the methods resorted to by the friends of Mr. W. W. Cox, whose unfortunate death all regret, to poison the minds of the people of the county against Mr. Ed Martin who found it necessary to kill Cox to save his own life. The brothers of Cox, who went to the expense and trouble of securing the court reporter's copy of Judge Pearson's opinion in the habeus corpus proceeding and having the same published in the press, were inspired by no other motive than to attempt to prejudice the public mind against Martin. The publishing of that opinion could have no other possible effect. In the first place the giving of such an opinion was contrary to time-honored rules of professional ethics, and would not be sustained by either the bar or the Judiciary of Alabama. It was destined to engender public sentiment against the defendant, and thereby deprive him of that Constitutional right of a fair and impartial trial which the Constitution and laws of Alabama guarantee to her citizens. The opinions of a Judge, so far as the law in a case is concerned, may be correct, but his conclusions as to the evidence, may not be any more safe or sound than the conclusions of any other intelligent man. We simply ask in behalf of Martin that public opinion be suspended until a jury of twelve honest and intelligent citizens render their verdict on the facts after hearing the evidence. Knowing the citizens of this county as we do, we are confident that they will join with us in protesting against such unfair methods.

Respectfully
THOS. A. CURRY
A. C. SMITH

CORRESPONDENCE.

THORSBY NEWS

Last Friday night the second meeting of the Fraternal Union of America was held. One candidate was initiated. The ceremony was beautiful and impressive. Three new applicants were accepted. Many new applications have been made during the week. After the business closed refreshments were served. Our town is growing fast. We are going to make it the best lodge in Thorsby.

Mr. E. T. Mead is laying new cement sidewalks in town. We need them badly. We are glad to see many improvements going on.

Mrs. S. H. Herbert is still very ill at the Robinson infirmary in Birmingham.

Mrs. Louis Howard returned from Birmingham Sunday night much improved. We are glad to have her home.

Mrs. Simonton received a long letter from pastor Trosper saying he had reached his new field safely. He reports all well and sends best regards to their many friends in Thorsby.

There has been quite an excitement in town the last few days over the report that our present postmaster would be removed from office. Quite a few over a hundred signed a petition to have him retained. Many individuals are working hard to prevent his removal. Telegrams have also been sent in to head quarters. Mr. Rice has been a faithful postmaster for about eight years. We will regret his removal if he does.

THE TWINS

Pleasures in Simple Life.

"Our life is simple and some pleasures accompanies it as the wild uncultivated flowers."

MT. PLEASANT.

Our Sundayschool is on gaining ground now and we hope it will continue to gain.

Mrs. A. J. Tomlins, of Selma, is visiting Mrs. Lee Vickers.

That ticket that was nominated over at Maplesville by postmasters and want-to-be-postmasters ought to explain to the people how many times they have supported the republican ticket instead of the democratic ticket.

Several from around here are attending the Birmingham fair.

Miss Glennie Thompson spent Friday night with her sister, Mrs. J. H. Duncan.

That ticket that was nominated at Maplesville to aid the democrats in electing their ticket and defeat the common people in electing their ticket.

Mr. and Mrs. J. C. Maddox spent Sunday with the latters parents Mr. and Mrs. J. J. Culp.

Mr. J. D. Blankenship and family visited at Mr. G. W. Melton last Sunday.

Mr. and Mrs. F. M. Scroggins spent Sunday with Mr. and Mrs. W. H. Foshee.

Misses Lurla Kelly and Annie Fallon spent Sunday at J. E. Kelleys.

Mr. and Mrs. Jim Crawford of Shelby were recent visitors at Mr. G. H. Massey's.

Mr. and Mrs. B. C. Thomas visited at J. P. Thomas last Sunday.

Miss Naomi Nelson visited Miss Mary Melton last Sunday.

Has any one heard any one of that little Maplesville crowd attack the Democrats about the empty county taeasury. No thay are too near the same.

BETHEL

The health of this community is good except that Mr. Alpheus Dennis is very low with the fever, but we hope for his speedy recovery.

Cotton picking is all the go these days, we are very busy trying to get through gathering.

Miss Josie White returned Monday from visiting her friend Miss Alpha Edwards.

Rosebud.

Wallace's Farmer says that in Europe, if you ask how far away a place is, they tell you, not in miles, but in hours. That is the sensible estimate of distance, too. If it takes the farmer who lives four miles out on a bad road an hour to drive to town with a load, he is really no nearer than is the man six miles out on a good road who can drive it just as easily in an hour. Land is more valuable as the towns are approached simply because it is easier to reach it. Better roads bring the the town nearer and increase land values just the same as would the chopping out part of the distance. Move your farm closer to town by improving your roads and increasing your facilities for travel—Prog. Farmer.

Destroys Dandruff

Ayer's Hair Vigor keeps the scalp clean and healthy, destroys all dandruff, and greatly promotes the growth of the hair. You will certainly be pleased with it as a dressing for your hair. It keeps the hair soft and smooth and promptly checks any falling of the hair. It does not color the hair, and cannot injure the hair or scalp. Consult your doctor about these hair problems. Ask him what he thinks of Ayer's Hair Vigor.

Made by the J. C. AYER CO., Lowell, Mass.

Use of Hot and Cold Drinks.

Remember that, ridiculous though it may sound, cold drinks are healthier for the lungs in cold weather, before going out into the cold, and hot drinks are healthier for the stomach in hot weather, just after coming in from the heat.

ROAD EXPERTS NEEDED.

A practical effort to bring the supply of expert highway engineers to the point where they will be numerous enough to meet the demand for their services is to be made at the American Road Congress, to be held on the Million-Dollar Pier, in Atlantic City, September 30 to October 5. At the present time, with the people of the United States spending more than $200,000,000 a year for the improvement of highways, the demand for expert highway engineers exceeds the supply. There is to be a conference of educational institutions at the American Road Congress, to be directed by the Society for the Promotion of Engineering Education, and through this conference efforts are to be made to induce the leading universities to establish specific and practical courses for the instruction of highway engineers.

At the present time there are about 82 universities devoting some attention to highway engineering. The instruction in this branch of engineering, however, is, in most cases, merely a part of the general training of engineers, so that there will be a sufficient number of trained men to handle the great problem that has been thrust upon the United States by the widespread agitation for a better system of public highways that will reduce the cost of hauling crops and permit shipments by farmers at all seasons of the year.

Prof. Henry H. Norris of Cornell university is secretary of the Society for the Promotion of Engineering Education, which is composed of officials of the leading educational institutions having engineering departments. Professor Norris has just sent letters to all the institutions which are represented in their society asking them to appoint delegates to represent them at the convention, which will be part of the American Road Congress at Atlantic City. Prof. William T. Magruder, of the Ohio state university, is president of the Society for the Promotion of Engineering Education, while the vice-presidents are Prof. L. S. Marks of Harvard and Prof. F. W. Sperr of the Michigan College of Mines. They believe that if the universities will supply well-equipped engineers it will be a long step towards doing away with the careless supervision of the construction and maintenance of public roads, that now results in the loss of a large percent of the money invested in roads.

MUST ANSWER QUESTIONS.

In the future, when a person calls at the general delivery window of any postoffice will have to answer three questions put by the clerk before he gets his mail:

"Are you twenty-one years of age?"

"Have you a permanent home in this city?"

"Are you using a fictitious name?"

"Is this correspondence illegal?"

An order issued to postmasters by Dr. C. P. Grandfield, first assistant postmaster general, reads in part:

"The attention of postmasters at offices having city carrier service is called to paragraph 2, section 713, postal laws and regulations, compliance with which should prevent the improper use of the general delivery by residents. Postmasters at such offices, may require all persons supposed to be residents to furnish in writing their names and addresses and statements of their reasons for preferring to be served at the general delivery.

"Minors calling at such offices may be requested to furnish the information indicated above and also the names of their parents, in order that the parents may be notified and have an opportunity to control the delivery of the mail to the extent authorized by section 648, postal laws and regulations.

"Postmasters at offices not having city carrier service may notify the parents of minors in all instances where it appears that the minors are calling at the general delivery for mail under objectionable circumstances."

TIME "VIA WIRELESS."

The new wireless station at Arlington which will be completed in about a month will act as a clock regulator for thousands of jewelers all over the country.

The right time as recorded at the naval observatory will be flashed all along the coast and as far out as the system will reach. The towers are expected to communicate with vessels three thousand miles at sea, but the exact distance they will command over land has not been calculated to a nicety. It is believed that messages will be recorded at least 1,500 miles inland.

Many large jewelry stores have notified the navy department that they intend to install wireless receivers so they can get the right time regularly "via wireless."

TO MODIFY BROOK TROUT.

Uncle Sam is going to try to produce a trout that can live and prosper in the warm water of the sluggish streams of the southern states. An experimental fish station will be established near Washington for that purpose. Congress has provided the money for the work.

The fighting brook trout is to be modified, domesticated and made to furnish more food and less sport for the Brooks family. The experts of the bureau of fisheries hope to succeed in getting a breed that will eat fish, but they regret the fact that many other fine game fishes have been planted in the Mississippi river and tributaries.

Desecrated Burial Vault.

In a dilapidated old vault in a churchyard in Philadelphia, containing the bones of some colonial man or maiden, a group of roystering men were found the other night, laughing, talking, smoking and shooting "craps." The vault in which they sat was the oldest in Old Trinity and it is falling into decay. For more than a week residents of the neighborhood had heard uncanny sounds emanating from the churchyard after midnight, and the place was believed to be "haunted."

When Humor Grates.

MEXICAN

Mustang Liniment

The Best Emergency Remedy for Farmers, Stock-raisers and Household use. Speedily relieves Spavins, Swinny, Harness Sores and Galls, Shoe Boils, Strains and Lameness in Horses; Caked Udder and Sore Teats in Cattle and Ailments of Poultry.

SAFE AND SURE.

Being made of oils it soaks down straight to the bone, banishes pain and saves suffering. Only oil liniments can soak through muscle and tissue. Alcohol liniments evaporate before they can be absorbed by the flesh besides they are dangerous when used near a fire or lamp. Mexican Mustang Liniment will not burn even though a lighted match be applied. Mexican Mustang Liniment is THE SAFE as well as the SURE-TO-CURE remedy.

COMMENDED BY A FARMER.

GREENSBORO, GA.

As long ago as I can remember I have known of Mustang Liniment. I always keep it in my house and if any of my family get injured in any way, such as sprains, cuts, bruises, and, in fact, in many accidents that happen I always use Mustang Liniment. On my horses and stock I never think of using anything else—it is far cheaper than doctors' bills. I commend it to all farmers; it will keep their families and also their beasts and stock in condition. Very truly yours,

J. D. ANDREWS, Farmer.

London's Smoke Nuisance.

Half of London's smoke nuisance is caused by the coal fires in private dwellings, the owners of which can not be liable for prosecution. It is expected that a good deal of missionary work will have to be done among householders before the smoke evil can be kept properly suppressed.

Bale Your Hay and Sell It

THERE is always a ready market at a good price for baled hay. It can be handled easily. It prevents waste. Baling is most profitable when you use I H C pull power presses requiring either one or two horses; or I H C motor presses using 3, 4, or 6-horse power I H C engines. Both styles have three separate bale chamber sizes, 14 x 18 inches, 16 x 18 inches, 17 x 22 inches. Many farmers feed their own stock silage and shredded corn stover and sell their high-priced hay. A big majority of them

Use I H C Hay Presses

The I H C pull power press has a greater capacity than any other horse press of its size. The stepover is the lowest and narrowest made. An adjustable bale tension insures compact bales. A roller tucker makes each bale neat and smooth in appearance.

The I H C motor press consists of a bale chamber and an I H C engine, mounted together on substantial trucks. When not baling hay you have a portable I H C engine, which can be used to saw wood, pump water, shell corn, grind feed, separate cream, or to run any farm machine for which its power makes it suitable. Two perfect machines in one.

Call on the I H C local dealer in your town, or, write for an I H C hay press catalogue.

COLLINS CHAPEL
Continued from Page One.

what they profess to be. So don't let them catch you in their trap. They are only working for the Democrat ticket. So go to the polls on election day and vote the ticket that we nominated in May, which is the Progressive ticket. And we will get a set of men that will stand for the right. We are glad to see Mr. Keen do as he did and we believe there are other good men that they have done as they have Mr. Keen, nominated for office and placed on their committee without their consent. As soon as they understand what they are after they will do as Mr. Keen did.

I am for the May ticket.

J. H. BENSON.

SAMARIA

Prof. J. J. Pickens, Principal of Clanton High School, will make a public lecture here Saturday night, Oct. 12. Also Mr. E. E. Calloway will make an interesting talk on "Opportunities in Life." Recitations will also be prepared. A cordial invitation extends to all. Come and enjoy the evening with us and hear something that will interest you.

When the chest feels on fire and the throat burns, you have indigestion, and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Price 50c. Sold by Upchurch Drug Co.

PUBLIC SPEAKING

There will be speaking, in the interest of the Progressive ticket at the following times and places:

Collins Chapel, Beat 9, 7 p. m. Oct. 18.

Bakes School House, Beat 4, 7 p. m., Oct. 21.

Cane Creek, Beat 11, 7 p. m., Oct. 22.

Bethel, Beat 10, 7 p. m., Oct. 23.

Cross Roads, Beat 9, 7 p. m., Oct. 24.

Benson, Beat 3, 7 p. m., Oct. 25.

Cooper, Beat 10, 10 a. m., Oct. 26.

Clanton, Beat 4, 2 p. m., Oct. 26.

Mullins School House, Beat 1, 7 p. m., Oct. 28.

Blow Graveyard Church, Beat 12, 11 a. m., Oct. 29.

Union Grove, Beat 12, 7 p. m., Oct. 29.

Mars Hill, Beat 2, 7 p. m., Oct. 30.

Macedonia, Beat 14, 7 p. m., Oct. 31.

Clanton, Beat 4, 11 a. m., Nov. 4.

Thorsby, Beat 9, 7 p. m., Nov. 4.

The following speakers will address the people at the above named times and places; Judge A. P. Longshore, Hons. J. O. Middleton, J. W. Moore and others. Judge L. H. Reynolds will make some speeches if his health will permit. There will be some of the above named speakers at all the places named above.

There will also be speaking at other places; will be arranged later.

All persons regardless of political affiliations, are cordially invited to attend these meetings. The ladies are especially invited to come.

M. D. FOSHEE,
Chairman Progressive Campaign Committee.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by Alred Drug Co.

FREE ATTRACTIONS ALABAMA STATE EXPOSITION.

The best list of free attractions ever seen in the south will be offered by the Alabama State Exposition which is to open in Montgomery, October 16th and run for ten days. Jivani's Royal Italian band will give two grand concerts daily, while Barkoot's Carnival band will furnish music through the streets at the grounds at frequent intervals.

Mitchell, Brindley and Heth, three of the world's most daring birdmen, will make four daily passenger carrying flights from the grounds of the Alabama State Exposition during the dates October 16-26. The hangars will be open to public inspection during all hours when the aeroplanes are not in the air.

The best agricultural display, the largest poultry show, the most extensive live stock exhibit, the largest machinery display ever made in Alabama will be seen at the Alabama State Exposition, October 16-26th. No progressive farmer can afford to lose this great opportunity to keep abreast of the times. Montgomery is the place.

The most magnificent pyrotechnical display ever witnessed in modern times will be seen at the Alabama State Exposition, Paine's great masterpiece, "The Storming of Fortress Chambepec," is presented, carrying three hundred feet of canvass and requiring near three hundred living actors to portray the superb spectacle. Besides this feature there will be two hours nightly display of other georgeous fireworks. A free attraction and Montgomery is the place.

Farm demonstration work, supervised by government and state agents. Good roads demonstrations by official representatives, all sorts of machinery, pure food demonstrations, live stock, poultry, woman's work, daily auction sales of swine, are among the substantial benefits offered the visitor to the Alabama State Exposition to be held in Montgomery October 16th-26th inclusive.

W. A. Rimes, Ruston, La., writes: "Some time ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble."—Upchurch Drug Co.

PROGRAM

For the Chilton County Baptist Sunday School Convention to Be Held at Liberty Hill Baptist Church Saturday, the 12th Day of October, 1912.

9:30 a. m. Devotional exercise, by A. L. Foshee.
9:45 a. m. Welcome Address, by Wm. Wood.
9:45 a. m. Song Service, by J. H. Franklin.
10:00 a. m. The best way to bring church members under obligation to attend Sunday School, by T. E. Williams, John Parish.
10:30 a. m. Best Teachers for Little Folks, by Prof. Session, W. H. Shaw.
11:00 a. m. Sermon by Wm. Olive.
12:00 m. Dinner.
1:30 p. m. What is the Best Plan for Teaching a Sunday School Lesson? By S. M. Adams, Wm. Wm. Olive, E. H. Parish.
2:00 p. m. What Are Some of the Duties of a Superintendent During the Week. By N. J. Calloway, John Wallace, Judge E. B. Deason.
2:30 p. m. What Are the Duties of the Superintendent During the School Session.
3:00 p. m. Miscellaneous Business. General Discussion.

All Sunday Schools are requested to send delegates, especially the schools in the Northwestern District of Chilton County. It is expected that dinner will be served on the grounds, so come with good appetites and big baskets and we will spend a good day. Preachers especially invited.

N. L. BROADHEAD, President.
MISS HATTIE DAVENPORT, Secretary.

Committee on Program.

W. Y. ATCHISON.

BEWARE OF CONSTIPATION.

It is the first primal cause of many of our diseases. St. Joseph's Liver Regulator is an ideal treatment for constipation. It acts in a natural and easy manner (not by violent purging) and gently loosens the bowels, thus forestalling the long train of evils which result from the clogging of the system with offensive refuse. This remedy is a wonderful stimulator of liver, stomach and bowels, inducing and maintaining healthy, natural action. Price, liquid, 50 cents a bottle; powders, 25 cents a box, five boxes $1. Alred Drug Co.

Worth Trying.

Those who live on the mountain have a longer day than those who live in the valley. Sometimes all we need to brighten our day is to rise a little higher.

H. E. Archer, merchant, of Westover, Ala., states: "My boy had a severe attack of acute bronchitis, so severe he could not get out of bed for a week. The first few doses of Foley's Honey and Tar relieved him and before we had given him the contents of one bottle, he was well. Foley's Honey and Tar Compound is kept continually in our house. It is perfectly safe and effective."—Upchurch Drug Co.

Woman's Faith.

A woman ought at least to have as much faith in her husband as she has in her powder mag.—Chicago Record-Herald.

More Than Enough Is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control, and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Alred Drug Co.

Very Old Text-Book of Health.

It is said there are 285 verses in the Old Testament and 240 in the New Testament relating to disease, sickness, their causes, treatment and prevention.

NOW IS THE TIME TO SELECT YOUR HEATER

We offer Cole's Original Hot Blast Heating Stoves with confidence; they are the best made. You have perfect control over the fire at all times, thus the coal does not waste and you don't have to shovel fire the morning to keep comfortable. This is the great Heater-de spending its popular favor year after year. We expect to double our sales on them this year. Come now and make your selection. We will have them ready for you when you wish it put up. (8-13)

Man's Place.

Parisians are concerned about the question of wearing mustaches and beards, the tendency being to part with these long-honored ornaments.

J. E. MARLEY HARDWARE COMPANY

Jemison, Al

We desire to announce to the people of this community who need anything in the Hardware line that we are ready to serve you at any time, early in the morning or late in the evening.

Having had several years experience in Hardware line, we believe we have the good will and respect of those with whom we have dealt, therefore we stand as the Farmer's Friend; and if you will only try us, I believe you will sanction our assertion.

We carry everything from a shoe tack to a forty penny nail, from a tie to a log chain, from a plow point to a cultivator, from a smooth wire to a five foot perfect wire fence. See us and get our prices.

We have with us H. N. Martin who will be glad to wait on his friends and see that they are treated fair.

Our capital stock is "Honesty and Fair Dealing" both Customer and Creditor." our surplus is "Service and Courtesy;" our gains is our friends.

Our Stock is at Par and shall never be depreciated; every customer shall share in our dividends.

You will find us next to Jas. W. Patton. We have a cordial invitation to come. All are welcome.

J. E. Marley Hdw. Co.

SPEAKING AS A FINE ART

Many Men Who Attempt to Address Audiences Cannot Make Themselves Heard.

Speaking is one of those arts which people seem to think it unnecessary to study and learn, and the probability is that most speakers of the kind mentioned are blissfully unaware of their inaudibility. Doubtless their voice resounds comfortably in the empty spaces of their own chest and head, and this prevents them from knowing that it does not penetrate to the auditory apparatus of other people.

To be a lecturer, it is not only necessarily to know your subject, but the art of enunciation and audible delivery needs to be learned also. And the sound of one's voice in one's own ears is a most misleading guide. Such people ought to be trained by being made to read or speak from one end of a large room to somebody at the other end; when they would soon find out that tones which pass muster in a conversation are useless in a public speech.

In conversation we carelessly slur half our syllables, leaving our interlocutor to guess them from the context, but this will not do in a public speech, where people are too far off to catch the signs. Again, a word pronounced in the ordinary English way—of throwing a strong accent on a single syllable and slurring the other syllables—becomes reduced to a mere monosyllable when said in that manner in a large room.—Theosophical Path.

THINGS THAT COLOR THE SEA

Blueness of Waters of Old Ocean Is in Constant Ratio to Its Saltiness.

It has been proven that the blueness of sea water is in constant ratio to its saltiness. In the tropics, the tremendous evaporation induced by the blazing sun causes the water to be much more salt than it is in higher altitudes. For about thirty degees, both north and south of the equator, the waters of the world's oceans are of an exquisite azure. Beyond these latitudes the blue fades and changes to green, and in the Arctic and Antarctic oceans the greens are almost as vivid as the tropical blues. The extraordinary blueness of the Mediterranean has two causes; one is that very few large rivers of fresh water run into this sea; the second, the Mediterranean is practically land-locked, and, being exposed to a powerful sun, evaporation is great.

China's Yellow Sea is usually supposed to owe its origin to the "loess" muddy water which its great rivers pour into it. But here living organisms are responsible for its peculiar color.—The Sailor's Magazine.

"TAKE TIME TO READ THIS."

Calera, Ala, Sept. 29th.

Dear Dr.:—I can't see why any one would go to Birmingham to result an oculist when Dr. Higgins, one of the very finest is in Clanton and handy to everybody. My glasses continue to give satisfaction so much that I would not take a round hnndred dollars for them, unless I could get another pair just like them.

I am a Rural Letter Carrier and know the value of a fine double lense pair of glasses. I gaine a clear vision more than I to money.

Signed J. R. CRAWSON.

The above letter from Mr. Crawson is being held in the office of Dr. Higgins at Clanton subject to your inspection.

Do you want your Eyes treated by Dr. Higgins scientifically, and pay a little more to get a guaranteed job, or do you prefer a cheap 50c pair of glasses—its up to you. You'll find Dr. Higgins at Clanton, Ala. Many thanks to Mr. Crawson.

Deep Thought Here.

If a man were as cheap as almost any woman can make him feel, no woman could resist him merely as a bargain.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for 15 years," says Enos Lollar, of Saratoga, Ind., "and consider it the best on the market." For sale by Alred Drug Co.

For Chapped Skin.

Chapped skin, whether on hands or face, may be cured in one night by applying Chamberlain's Salve. It is also unequaled for sore nipples, burns and scalds. For sale by Alred Drug Co.

New Zealanders Fond of Tobacco.

New Zealanders consume more than seven pounds of tobacco per capita per year.

All you who have torpid liver, weak digestion and constipated bowels look out for chills. The season is here and the air is full of disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy, it answers the purpose completely. Price, 50c. Sold by Upchurch Drug Co.

WANTED AND FOR SALE

FOR SALE.

Forty acres of land with good three-room house and good outbuildings, a good well of water, 10-acre pasture, good, big hay lot; one-quarter mile to Methodist Church, half mile to Bap'st Church; three-quarters mile to District School house. Apply to J. A. Johnson, Route No. 1, Clanton, Ala.

FOR SALE.

Farm of 82½ acres, 65 acres in cultivation, five-room house, well fixed with plenty of out-buildings, two tenant houses; three wells of water on place; half mile of church and good school; on the Independence Road, four miles north of Billingsley Station on M. & O. railroad. For further information, apply to WM. J. BILLINGSLEY, Route No. 1, 1 month.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a bad cold, and before the bottle was all used up the cough was gone. Is that not better than to pay a $5 doctor's bill? For sale by Alred Drug Co.

WORK WANTED by a practical mechanic, repairing and overhauling Organs. Write or send to J. P. Wilson, Clanton Ala., R. 3. 8-22-3mos

FOR SALE—160 acres of land, ready for cultivation, four miles west of Jemison. For further information apply to J. B. Killingsworth, Calera, Ala. 6months

Stop That Itch!

MEMORIAL.

Hall of Amand Lodge, No. 250, A. F. & A. M., Cooper, Ala., August 24th, 1912.

To the Worshipful Master, Wardens and Brethren of Amand Lodge No. 250.

We the undersigned committee heretofore appointed by you to draft and present for your consideration resolutions upon the death of our late Brother Moses D. Pinson, beg leave to submit the following.

Brother Moses D. Pinson was born in September, 1825 in Kemper County, Mississippi, and when at a very tender age he removed to this county, then a portion of Autauga, and continued to reside here until his death. At an early age Brother Pinson became a member of the Baptist church and at the time of his death he was a member of Mountain Creek Baptist Church. During these long years Brother Pinson lived the life of a consistent Christian, an honorable man and a good citizen.

In 1852 Brother Pinson was married to Miss Mary E. Jones and lived to rear a large family. Brother Pinson gave several years of the best part of his life to the cause of his country. His record while a soldier in the Confederate service, like the remainder of his life, was honorable and without blemish.

Brother Pinson was a Mason of more than ordinary ability, and he leaves behind him a long record of Masonic charity, of noble acts and duties well performed. Brother Pinson was initiated in Amand lodge No. 250, November 28th, 1863, passed December 26th, 1863 and raised to the sublime Degree of Master Mason, January 25th, 1864. Brother Pinson received the highest honor within the gift of his brethren, he was elected Worshipful Master, and for more than twenty years he lived to enjoy the distinction and honors of a Past Master. For more than forty-seven years, as an active and working Mason, he enjoyed the confidence and respect of his brethren.

In recent years Brother Pinson resided with his son, Bro. Thos. J. Pinson at Mountain Creek, and at whose home Brother Moses D. Pinson departed this life July 12, 1912, leaving surviving him his widow, his two daughters, Mrs. W. A. Howard, Mrs. C. G. Glenn and his sons, T. J., P. J., M. M., J. D., M. A., and P. C. Pinson.

On July 13th, 1912, the mortal remains of our beloved and deceased brother was laid to rest in Chestnutt cemetery at Cooper with full Masonic honors.

Therefore, be it resolved that in the death of Brother Moses D. Pinson, that his family have lost a kind, affectionate and loving husband and father, this lodge has lost an honored member whose memory we will ever cherish, his church has lost a consistent member and the state has lost a citizen whose life we would do well to emulate.

Be it further resolved that we extend to the bereaved relatives of our deceased brother our heartfelt sympathy in this their hour of irreparable loss.

Be it further resolved, that a page of the minutes of our lodge be set apart and these resolutions and preamble inscribed thereon, and that a copy thereof, under seal of this lodge, be prepared and presented to the widow of our deceased brother.

Respectfully submitted,
C. J. EILAND,
J. M. CURLE,
G. B. JONES.
Committee.

SCOTT'S EMULSION

is, above all other things, the remedy for sickly, wasted children. It nourishes and builds them up when ordinary food absolutely fails. *Be sure to get SCOTT'S.* All Druggists.

Scott & Bowne, Bloomfield, N. J. 12-25

Sight of the Color Blind.

A color blind person sees light as either white or gray and dark colors appear either as dark gray or black. This mutual sensitiveness is due to the fact that the light nerves and color nerves are closely interbound, but there is a different set of nerves for both light and color, just as there are different sets of nerves for temperature and for touch.

Rural Education.

Rural education fails, according to a report presented to the National Council of Education. Give the little red school house a square deal. Is education anywhere a perfect and unmistakable success?—New York Tribune.

Absent-Minded Professor.

A certain university professor was noted for his absent-mindedness. One morning as he sat at the breakfast table with a scientific magazine propped up before him, his wife was astonished to see him reach out for the maple sirup, pour it down his back, and then over and scratch his pancake.

Character Revealed by Eye.

Gray eyes denote creative temperament, but not always honesty. What the novelists and poets term the cold, gray eye is considered to be a sign of selfishness and cruelty, though it often denotes shrewdness and talent. Very clever people whose eyes are gray generally have small spots of orange in the iris round the pupil.

Known Species of Insects.

Considerably more than 200,000 separate species of insects are known and classified.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in plain case, accompanied by full directions, and contains enough remedy to remove six to ten or dinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

Please mention this paper when answering. PENSACOLA, FLA.

PIONEER PIGEONS ARE DEAD

Last Surviving Pair of Species Formerly Abundant in America Succumbs on New Jersey Farm.

Montville, N. J.—The last survivors but one of the immense flocks of passenger pigeons—called by scientists the "common wild pigeon of North America"—which prior to 1850 visited the wooded sections of New Jersey, died recently on the farm of John Norwood here.

The birds had been kept in captivity since March, 1888. The only other known specimen is a female, eighteen years old, in the Cincinnati zoological gardens.

That the birds in a wild state have disappeared is shown by the fact that ten years ago Professor Clifton Fremont Hodge of Clark university, Worcester, Mass., offered $600 for definite proof of the finding of a nesting pair of passenger pigeons.

Many claimants have appeared for this reward, but none has ever been able to produce the nesting pigeons.

PLAN UNIQUE POORHOUSE

Sleeping Porches and Roof Gardens Will be Built on $200,000 California Home.

Santa Barbara, Cal.—A poorhouse with sleeping porches and roof gardens has been ordered by the supervisors of Santa Barbara county, it was announced here. It will cost $200,000. A Los Angeles architect won a $500 prize in the competition for a poorhouse which would harmonize with the architecture and estates of the millionaire colony in and surrounding Santa Barbara.

Curse Falls on Juror.

Kansas City, Mo.—The curse of the Swope millions has fallen heavily upon Harry Waldron, one of the jurors to sit in judgment upon Dr. B. Clark Hyde, accused of the murder of Colonel Swope.

Waldron was prospering and contented when he was called to serve as a juror, having accumulated enough to start a dairy. He returned a mental and a physical wreck, his business ruined by his long absence and his savings gone. Since then he has been unable to work and the support of his family of five children fell to his wife.

Factory Lighting.

A special report on illumination in factories states that as regards artificial illumination there seems to be little to chose between lighting by electric glow lamps and by modern systems of incandescent gas. Electric light has the advantage of being constant and requiring little attention beyond the systematic dusting and renewal of lamps. The gas systems generally produce a whiter and more powerful light that electric current, but the units are apt to vary much in efficiency, owing to the liability of the mantle to deteriorate. Careful attention, therefore, is required to replace any that show signs of weakness. Electric light, of course, causes no vitiation of the atmosphere; but in the modern systems of gas lighting the amount of gas burnt is so small and the combustion so complete that the effect on the air is minimized. For the perfect local lighting of any point of work the three following conditions must be fulfilled: (1) The illumination must be adequate, (2) "glare" effects must be absent, and (3) no troublesome shadows must be cast on the work.

She Could Not Distinguish.

"Who are those people over at the little table?" asked old Mrs. Knowall, who was having her first meal at a large suburban boarding house.

"Mr. and Mrs. Brown and their children," she was informed.

"But there are two ladies there, one standing up and waiting on the children and one sitting down," remarked Mrs. Knowall.

"Oh, one is the children's nurse."

"Which one is the nurse?" she inquired eagerly, "the one sitting down or the one standing up?"

Masseuse a Twenty-first Child.

If the seventh child of a family is credited, as it not uncommonly is, with certain mystical gifts, it would seem to follow that a twenty-first child should be possessed of some extraordinary talent. However that may be, Masseuse, who had twenty brothers and sisters to precede him, very early developed pronounced musical tastes, and at the age of nine he played a Beethoven sonata for an examination, through which he came specifically.

The Singer Store

will receive a car load of the latest improved high arm Singer Sewing Machines soon, in order to supply the increasing demand for these fine machines. This shipment will leave the factory about August 10th, and I hope to have them in by August 25th or September 1st. This lot of machines will be sold to suit the customer. Old machines taken in exchange.

You can buy one of these fine machines for one-half down, and the other half next fall without interest, and put in your old machine on first payment at $5.00, or you can buy one on monthly payments of $3.00 down and $3.00 a month, and put in your old machine to make the first payment. A liberal discount allowed for cash.

These machines are too well known to say anything about their merits, and if you are in need of a sewing machine, call on me, your patronage will be appreciated, and the machines I guarantee.

I also carry Attachments, Neebles, Shuttles and Bobbins for all makes of machines. Bands, Cans and the only Machine Oil fit to oil a machine. Several good second hand Machines at a bargain.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

Crazed with hunger, a fullgrown wildcat attacked the 13-year-old daughter of Edward Bosarge of Coden, Ala., as she was returning to her home with her father. Mr. Bosarge was not armed. The catamount had torn the dress almost from the little girl when Mr. Bosarge sprang at the animal waving his hat and shouting at the top of his voice. Frightened at the black object in front of him and the shrieks of his assailant, the cat fled into the swamps. The girl's flesh was not torn.

Two were killed and three others slightly injured by the derailment at Kitchen's siding of the Southern railway passenger train No. 43, en route from Washington to Atlanta. None of the passengers were hurt. The engine and the mail and express cars turned over, but the coaches and Pullman sleepers did not leave the track.

Estados Candos, a Spanish storekeeper, was shot to death in front of his place of business by a mysterious negro, believed to be the assassin who has already committed deadly assault on seven women, two of whom were white and both of whom were killed by shots fired through a window. Candos was sitting in front of his store at the time he was fired upon. Viola Denford, the white woman who was shot, died at a hospital. Tampa, Fla., is all excitement over these homicides.

The extra session of the Florida legislature adjourned after two days' actual time consumed, all bills relating to Jacksonville passing both houses without debate. The session's principal work was the passing of a bill giving Jacksonville the right to bond to the sum of one and a half million dollars for the purpose of buying, equipping and maintaining municipally-owned docks. The entire expense of the session was borne by the Jacksonville board of trade.

The South Carolina Democratic executive committee, at its session in Columbia, declared Cole L. Blease, the incumbent, the Democratic nominee for governor. On the face of the revised returned Blease had a majority of 3,000.

In response to a general strike order issued at Augusta, Ga., the conductors and trainmen of the Georgia railroad are on a strike. Three hundred men are affected.

General.

The town of Leon in Nicaragua has surrendered to the American forces. In their march upon Leon, the last stronghold of the rebels, the American forces, under Lieutenant Colonel Long, ousted a rebel mob at Chichigalpa, killing thirteen and wounding many more. Five Americans were slightly wounded. Chichigalpa is on the Nicaragua National railway, midway between Leon and Corinto.

Aviation Week of Johannisthal, Germany, was concluded after two more deaths had been added to the long list of fatalities among European aviators during the last two months. A monoplane driven by Ernest Alig and carrying a mechanician, suddenly fell from a height of 600 feet when a wing collapsed. The mechanician was thrown from the machine at a height of 450 feet and his body landed on the ground clear of the wreckage. Alig fell with the monoplane and was killed instantly.

The hotel apartments of Col. James Hamilton Lewis, Democratic candidate for United States senator, were robbed. The police have been notified that jewels to the value of between $5,000 and $10,000 were stolen. Col. and Mrs. Lewis had been away for a week, campaigning in the interests of Colonel Lewis' candidacy for United States senator. Fifty-five articles of jewelry, nearly all of unique design, were included in the list of stolen ornaments furnished to the police by Colonel Lewis.

Two hundred and five men are reported killed in a battle in which about one thousand rebels and Federals participated at Aura Pass, not far from Monctova, Mexico, according to reports reaching Eagle Pass, Texas. Seven Federal officers are reported killed. The rebels retreated when reinforcements came up for the Federals.

"Gunboat" Smith of California knocked out Jim Savage of Orange, N. J., in the third round of a scheduled ten-round bout at Madison Square Garden, New York City. The knockout blow was a right upper.

Alfred W. Quigg, brother of ex-Lieut. Gov. Quigg of New York, has been charged with larceny of $25,000.

President Logan W. Page opened the American Road Congress at Atlantic City, N. J., with the declaration that "more had been accomplished in road improvement during the past two decades than had been done for 2,000 years previous."

Because Joe Gaudford of his flat refused to turn on the steam heat, Arthur Dowling, his wife and three children went down town in Chicago and slept in the LaSalle street railroad station.

ALABAMA BREVITIES.

Athens.—The fourth annual fair of the Limestone County Fair Association opened October 9.

Gadsden.—Receivers of the Alabama Consolidated will pay employes here all wages due on October 18.

Birmingham.—The matchless labor leader, John Mitchell, who is well known the world over, delivered an address at the fair grounds here to a large and enthusiastic crowd.

Roanoke.—A move is now under way to pave the sidewalks in front of the residences. Contracts have been let for the laying of some 2,000 feet of cement pavement and other citizens are expected to follow suit at once.

Huntsville.—Judge James H. Ballentine convened the Madison county grand jury in semi-annual session. Two weeks will be spent by the grand jury in investigating law violators during the last six months and it is believed that charges of the use of money in elections will be looked into.

Anniston.—The new board of aldermen who were elected at the city election last month, were seated at a meeting of the city council. Mayor J. Y. Winkle was re-elected for a third term and G. R. Todd, a former member of the council, was elected president of the new council.

Montgomery.—More than 1,250,000 fertilizer tags have been destroyed by the department of agriculture and industries within the past few days. The tags were issued for the use of the department during the past fiscal year, which ended September 30, and a total of 1,30,000 bags were unsold.

Tuscaloosa.—City Engineer Nichol is now preparing plans for a modern storm sewer system for the city of Tuscaloosa which will be adequate for the future needs of the city, and within a few days the commission will open bids for 5,000 feet of sewer in East End and other extensions in West End.

Sylacauga.—On account of an insufficiency of water the big Comer cotton mill will not be located adjoining the present one in Sylacauga, but will be built on the Wallace place, east of the city. The building will be 450 by 160 feet and four stories high. Both the Central of Georgia and the Louisville and Nashville railroads will lay switch tracks to the mill.

Montgomery.—The annual interstate rifle shoot among representatives of six Southern states will be held on Thanksgiving day in Birmingham. Col. C. R. Bricken, of the Second Alabama infantry, president of the interstate association, announced the date. Representatives in squads of ten from each state will be in Birmingham from Louisiana, Mississippi, Tennessee Georgia, Florida and Alabama. In all previous meets Alabama riflemen have taken first honors.

Florence.—Several thousand people attending the Colbert county fair were horrified at the fair grounds in Tuscumbia when two men, one H. C. petty, an aeronaut, and the other an innocent bystander, were dashed to the ground and instantly killed. Claud Howland, who had been standing near the balloon as it was being filled with gas, got his foot caught in the ropes and was carried up with the balloon with his head dangling towards the earth. When the balloon had reached a great height the aeronaut cut the ropes, the parachute failed to open and both Petty and Howland came to the ground at a rapid rate striking with a sickening thud. Howland struck first, the aeronaut landing on top of him.

Huntsville.—Dr. E. V. Caldwell of the department of public health, believes that there are hundreds of cases of hookworm disease in Alabama. He has found many cases in every county of Alabama that he has visited so far and at every school he has found from half a dozen to 50 cases. He is just from Marshall county, where he has spent two months and treated about 300 cases. Dr. Caldwell appeared before the county commissioners and asked them to appropriate a small sum of money to supplement the Rockefeller fund which is available for fighting the hookworm disease in this locality.

Anniston.—At all the cotton warehouses in Anniston and Oxford a shortage over last year is indicated, the decrease in the number of bales received at the Oxford warehouse being about 900 bales.

Athens.—It was announced that the famous white cap cases will be heard this week when a number of prominent citizens of the eastern part of this county and some from the western part of Madison county will be placed on trial for the whipping of John Davis, a citizen of that part of the county.

Huntsville.—An aeroplane factory will be established in Huntsville, it is stated, if the working model of a new type of aeroplane invented by Will Quick, is successfully demonstrated.

Talladega.—The city commission at a recent session fixed the salary of the city engineer at $135 per month while the paving is in progress. Under a previous contract with the city engineer only a part of the time of that official was to be used.

Huntsville.—Madison county's portion of the state pension fund for this quarter amounted to $5,000 in round figures.

Athens.—The contract for the new music hall at Athens College has been let, the contract price being for something more than $22,000.

NO TIME FOR POLITICS

CONTRIBUTIONS TO CAMPAIGN FUND

ARCHBOLD AND MORGAN GAVE $100,000 EACH.

BLISS RECORDS ARE READ

Crane Will Be Asked About $50,000 Said to Have Been Paid to Wilson Pre-Convention.

Washington.—Four contributions of $100,000 each from John D. Archbold of the Standard Oil Company, J. P. Morgan & Co., H. C. Frick and George J. Gould were made to the Republican national campaign fund of 1904, according to records of the late Cornelius N. Bliss, which passed through the hands of George R. Sheldon, treasurer of the 1908 Republican committee, who testified before the senate committee investigating campaign expenditures.

Mr. Sheldon said Mr. Bliss gave him a detailed statement of the 1904 funds; that he noted "three large contributions," that he was positive no record appeared of the $100,000 Archbold contribution having been returned. With equal positiveness he swore that the records showed the disputed Edward H. Harriman fund of $240,000 had been received by Mr. Bliss for the New York Republican state committee headed by B. B. Odell, Jr. That fund of $240,000 was raised at the request of B. B. Odell, said Mr. Sheldon, and turned over to his committee in its entirety. Mr. Bliss' records showed it was entirely apart from the funds spent by the national committee.

Mr. Dixon charged the committee with concentrating its activities upon the Roosevelt funds and ignoring the financial activities in behalf of all other candidates, Republican and Democratic alike. Committee members heatedly denied this, declaring that arrangements for the investigation had been left entirely in the hands of Chairman Clapp, a strong supporter of the Progressive national candidate, and that managers for all candidates had been subpoenaed to testify.

Published statements of Gov. Wilson and Senator LaFollette that they did not receive $50,000 contributions from Charles R. Crane, testified to yesterday by E. H. Hooker, will result in the calling of Mr. Crane as a witness.

CONVICTS LYNCH COMRADE

He Attacked Aged Woman Who Was Kind to Prisoners.

Rawlings, Wyo.—Details of the lynching of Frank Wigfall, the negro assailant of Mrs. Esther (Granny) Higgins, known as the "prisoner's friend," by the convicts of the jail here, while the prison authorities were holding off a party of would-be citizen lynchers, may never be known.

"The first man who squeals is the next man hung," silenced all the convicts and prison guards examined by a coroner's jury. The jury gave up the task without learning anything.

Many of the prisoners remembered acts of kindness of "Granny" Higgins and the negro's remarks brought their anger to a pitch that soon resulted in his death.

Not until the cries of the imprisoned guard brought other guards was the lynching known to any except to those who took part in it.

Uncle Sam's Balance.

Washington.—Uncle Sam opened his October account with a $90,013,494 working balance in the treasury. The public debt decreased by $211,500 during September, and with customs receipts rapidly increasing as the main feature of the monthly figures. The final reports for September showed total receipts of $38,446,355 and a total balance in the general fund of $149,346,635. The total customs receipts were $27,473,127, an increase of $2,728,518 over September, 1911.

Rear Admiral Young Dead.

New York.—Rear Admiral Lucien Young died here after a brief illness. A deficiency of blood brought on by a ruptured bloodvessel of the stomach was given as a cause of death.

Ten Children Cremated.

St. Bernard, Quebec.—The ten children, ranging in age from 18 months to 13 years, of Alexander Gravel, were burned to death. Gravel and his wife, returning to their home, found it in flames. They were unable to aid the children, whose deaths they witnessed.

BOLD BANDITS HOLD UP TRAIN

BLOW TWO SAFES IN KANSAS CITY SOUTHERN CAR.

RICH BOOTY WAS SECURED

After Safes Blown to Bits While Crew of Car Held at Points of Pistols, Three Men Escape Into the Mountains.

Ft. Smith, Ark.—One of the boldest train robberies in the history of the Southwest took place when northbound Kansas City Southern passenger train No. 4, en route from Port Arthur, Tex., to Kansas City, was held up and robbed by four masked men three miles north of Poteau, Okla. Two safes in the express car were destroyed with notroglycerine, the bandits escaping with considerable booty, including money and registered mail, the amount of which is not known. The passengers were not molested. The men boarded the train at the Frisco railway crossing, a mile northeast of Poteau. Two men with drawn revolvers were seen to enter the express car at this crossing by William West, a boy who resides nearby. Young West called to the passengers, "There's robbers on the train," but no one paid any attention to him.

One robber kept a pistol pointed at the engineer and fireman, who remained in the cab.

Emerging from behind the trunks, the bandits tackled a second safe containing packages and valuables for delivery at Kansas City and beyond. When they applied the match to the fuse they again took refuge with the express messenger and baggageman. Between the first and second explosions Messenger Kerr protested that the second safe was too near the trunks. "Get on the other side," said one of the bandits, as he drew his revolver and marched the men to the other side of the car.

The robbers forced Kerr and Williams to turn their backs upon them while they were working at the safes, both of which were blown into bits. One safe went through the roof of the car. The men scooped up the money and valuables into a flour sack after they forced the express messenger, the baggageman and J. B. Serak, head brakeman, to leave the car.

There are various reports as to the amount of the loot. It is said a bank at Heavener had $7,000 aboard the train. Bloodhounds have been sent here to the scene of the hold-up.

Goulds Live in Europe.

New York.—Frank J. Gould, with his wife and three sisters, arrived from France Friday and both Mr. and Mrs. Gould made statements regarding their plans for establishing a permanent residence abroad. Mr. Gould said:

"I intend to abandon America as a residence and in future shall make my him in France. I have disposed of all my property in America."

Daring Soldier of '61 Dies.

Harrisonburg, Va.—John Snyder, Confederate veteran who dropped dead here soon after eating a hearty breakfast, was the soldier who first struck a match to Piedmont, W. Va., during the war.

Would Better Health.

Cleveland, O.—"Better Parents for Better Children," was discussed by Dr. Helen C. Putnam of Providence, R. I., at the concluding session of the American Association for Study and Prevention of Infant Mortality.

"According to vital statistics," Dr. Putnam said, "the United States measures with the inferior half of the thirty-one civilized countries, although leading them all in national wealth. The infant mortality rate has been called the most sensitive test of civilization."

Rockefeller Bought Bonds.

New York.—Efforts of counsel for the Waters-Pierce Oil Company to trace ownership of the bonds of the indicted Magnolia Petroleum Company of Texas were successful when it was testified that $2,400,000 worth of the securities were purchased by John D. Rockefeller. This revelation and the fact that John D. Archbold failed to obey a subpoena summoning him as a witness stood out as features of the hearing in the litigation over the attempt of Standard Oil interests to gain control of the Waters-Pierce company.

EXPRESS MESSENGER MEETS TRAGIC DEATH

PINIONED UNDER A COFFIN CONTAINING CORPSE.

TWO BODIES ARE CREMATED

With Name of His Bride on His Lips, Messenger Chilton Dies and His Body Burned Before Eyes of Spectators.

Montgomery, Ala.—Begging piteously that he be rescued, Express Messenger Sam M. Chilton of Springfield, Tenn., pinioned in the Louisville and Nashville wreck near Elkmont, died under a casket which contained a corpse, according to a story told by Deputy Sheriff O. W. Strane of Athens when he reached Montgomery.

Hundreds of men, women and children heard Chilton plead for life: heard him repeat the name of a bride of two weeks who was in Nashville without knowledge that her husband was pinioned under a corpse and several chicken coops without hope of being rescued.

Strane's story was told in the governor's office, where he came to apply for a requisition for the return of a man from Texas to answer for a crime in Limestone county. The officer did not know the name of the messenger nor did he know that he was a newly married man until Chilton appealed for the life and happiness of his bride. Then he learned who the dying man was.

Dozens of men answered the messenger's cry for assistance, but they were driven back by the fierce heat after they had pulled the hands and arms of the man until the parched skin had been torn from his hands. After being overcome by heat they were compelled to see the red fire eat its way into the coffin and take the body of the corpse with the life of the messenger.

ROOSEVELT MAKES DENIAL

Did Not Solicit Contributions and Made No Promises.

Washington.—Theodore Roosevelt occupied a witness chair for three and a half hours Friday before a senate investigating committee, defending his administration, himself and his campaign associates against what he termed "infamous charges" and "hearsay evidence."

He appeared before the committee at his own request to answer statements made in August by John D. Archbold that the Standard Oil Company had given $100,000 to the Republican campaign fund in 1904, under the impression that President Roosevelt knew of and approved acceptance of the contribution.

Not only did Roosevelt deny this, but he put into the formal records of the committee a sweeping denial that he and ever solicited funds from anyone while president, that any money had been received by the 1904 campaign committee with an express or implied promise of favors from the administration, that excessive funds had ben used in his 1904 or 1908 campaigns, or that money had ever been improperly used in his behalf, so far as he knew.

GO TO WAR WITH TURKEY

Liberation of Bulgarians, Servians and Greeks Demanded.

Sofia.—The attitude of Bulgaria is such that war with Turkey, in which Servia and Greece will join, is inevitable.

None of these three countries proposes the annexation of Ottoman territory. The war will purely and simply be a fight for the liberation of the Bulgarians, Servians and Greeks in Macedonia, who for the last four years, since the establishment of the new regime in Turkey, have been so shamefully treated that their position has become intolerable.

The Christian inhabitants of Macedonia have been obliged to flee to their countries, beseeching help.

Hugged Him to Death.

Macon, Ga.—Samuel J. Johnson, a negro preacher who lived near Pavo, and who has been holding meetings in Thomas county, is dead as a result of being hugged, according to a long distance telephone message from Thomasville. The preacher created so much enthusiasm over religion that members of his flock rushed to the pulpit while the service was going on and began to embrace him. Women and men did the hugging. They shouted and sang as they squeezed.

David Bruce-Brown Killed.

Milwaukee, Wis.—David Bruce-Brown, wealthy young New York sportsman, lost his life, and his mechanician, Tony Scudalari, was fatally injured, the result of an accident on the new Wau-Watosa automobile race course on the eve of the eighth running of the Vanderbilt cup race. Bruce-Brown was driving his high-powered Fiat car ninety miles an hour when a rear left tire blew out. The heavy car swerved into a ditch and then man and machine were catapulted diagonally across the road and into a field.

No Bail for Gibson.

Goshen, N. Y.—Burton W. Gibson was held without bail for the grand jury on the charge of murdering his client, Mrs. Rosa Menschik-Szabo, at the conclusion of his examination. Judge Royce, the committing magistrate, said he was so thoroughly convinced that a crime had been committed and that the defendant was guilty that he did not care to hear counsel for the accused either sum up or make the usual formal plea for dismissal of the charge.

SLAYER CHEERED FOR KILLING BAD M

DAVIDSON SAYS HIS CRIME BE BENEFIT TO SOCIETY.

EXPECTS TO GO TO C

'He Never Worked, But Robbed ers," Says Slayer—Parting Between Davidson and His Wife Was Pathetic.

New York.—Proclaiming that committed a murder which was benefit to society, Philip Davidson man who killed Zellig J. Alberta Jack Zelig," went to the Tombs the coroner's inquest to be held Wednesday morning.

The statement was made by the fensive looking produce dealer the slightest attempt to appear bravado.

"I realize that I will have to my life in the electric chair, but the people of the East Side will no have to suffer through that fellow's depredations," he said quietly.

With a stoicism that has never been witnessed by the police officials headquarters, Davidson parted with wife before he was sent to the Tombs.

"Girlie," he said slowly, as the mon threw her arms over his shoulders, "I am afraid I will have leave you. I killed Jack Zelig. He worked, and always robbed hard ing people. He robbed me. I have the East Side of one of the worst that ever lived. I am going to the tric chair for it, but people will be Zelig is gone. Dear girl, this may the last time I may ever see you if I don't come back to you, I your relatives will take care of you am sorry and I am not sorry for I did. Now, good-bye, and don't worry."

There was a demonstration when vidson was taken from the Mott street station for arraignment before coroner. A large crowd of women and women of the neighborhood believe in law and order were on hand see the man who had killed "Big Zelig." With a trace of shame on face, he hurried down the stairs between two policemen.

"Good for you, young fellow, good you; you ought to get a medal for you did," they shouted after him.

4 AMERICAN MARINES KILL

Seven Are Wounded When Rebel Stronghold Is Attacked.

Washington.—In a gallant American marines and bluejackets the Nicaraguan revolutionary leader Zeledon, and his forces from Coyotepe and Barranca hills, near Masaya, thirty-seven minutes of fighting, the action four privates of the United States Marine Corps were killed and number were wounded.

The victory of the Americans opened the way for the Nicaraguan government troops to assault the town of Masaya which they took from the revolutionists and the starving inhabitants relieved.

Rebel losses were heavy. The government forces lost 100 killed and wounded. Gen Zeledon, the rebel, escaped but later was cornered and killed by a troop of federal cavalry. One of the American marines and bluejackets was Lieut.-Col. Charles G. Long are now on the city of Leon, the remaining stronghold.

NOT LOYAL TO U. S. FL

New Jersey School Involved in Row With Canadian Boy.

Cedar Grove, N. J.—The local board of education has an unusual problem to grapple wit, in the refusal of Frederic Temple, a high school pupil, to join his class in pledging allegiance to the American flag. A standing rule of the board of education provides that pupils who announce their allegiance or leave the school.

Frederic Temple, the boy's father, who formerly an artillery officer in Canada. He declares that the rule of the board is an "outrage," and says he will not allow his son to swear allegiance to the American flag until the boy is at years of age and can decide for himself. "It is ridiculous," he said, "to ask a boy whose father owes allegiance to the British crown to pledge himself to the American flag."

$150,000 For Aviary.

New York.—A gift of $150,000 by Russell Sage in behalf of the birds of North America was announced recently. Mrs. Sage has spent approximately this sum in the purchase of Marsh Island, southwest of New Orleans, with the intention of dedicating it in perpetuity as a refuge for wild birds. To this end it will place the control in whatever body will best accomplish her object, either the federal government or the state of Louisiana or some association organized for the purpose.

Thos. J. Ryan Kills Self.

Philadelphia, Pa.—Thomas J. Ryan, Democratic leader of Philadelphia, member of the Donnelly-Ryan-Gaffy faction that for so long controlled the organization of that party, ended his life by shooting himself in the head with a revolver.

Fruit Trust Fined.

Kansas City, Mo.—Prosecution of the Kansas City Fruit & Produce Exchange as a "fruit trust" ended when Judge Pollock imposed a fine of $12,000 upon the exchange and its chief members.

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

...ggists are authorized to sell Sage and Sulphur under guarantee ... the money will be refunded if it fails to do exactly as ...ed.

PRICE 50C AND $1.00 AT ALL DRUGGISTS

...would does not help it send you, in stamps and we will send you a large bottle, express prepaid. ...N CHEMICAL COMPANY, 74 CORTLANDT STREET, NEW YORK

...A 25c Cake of Wyeth's Sage and Sulphur Soap will be sent free to anyone who will send us this advertisement with 10c in stamps to cover cost of wrapping and mailing the soap.

SHIPS TO GATHER

Uncle Sam's Warships Soon to Be Mobilized.

New York Will Witness on October 14 and 15 Greatest Fleet of Fighting Craft Ever Assembled in American Waters.

Washington.—New York city will witnes on Oct. 14 and 15 the mobilization of the greatest fleet of warships ever assembled in American waters. The navy department issued preparatory orders for the mobilization a few days ago. At the same time the warships of the Atlantic fleet and Atlantic reserve fleet gather in the harbor of New York city the Pacific fleet will mobilize at San Francisco and the Asiatic fleet at Manila.

In the mobilization in New York waters will be 120 ships, including the new 26,000-ton dreadnaughts Wyoming and Arkansas. There will be 43 ships assembled at San Francisco and 20 at Manila. Rear Admiral Hugo Osterhaus, commander-in-chief of the Atlantic fleet, will command the mobilization in New York; Rear Admiral Southerland the fleet at San Francisco and Rear Admiral R. R. Nicholson the Manila mobilization.

President Taft and Secretary of the Navy Meyer, accompanied by foreign naval attaches and members of both houses of congress will be aboard the new battleship Arkansas on the day of the review, which will probably be on the last day of the mobilization, Oct. 15.

The ships will begin assembling in the Hudson river on or about Oct. 12. The last of the arrivals, the torpedo flotilla of the reserve fleet, will arrive on the night of Oct. 13.

The line of battleships will consist of the Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kearsarge, Kentucky, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, North Dakota, Ohio, Rhode Island, South Carolina, Utah, Vermont, Virginia, Wisconsin and Wyoming.

The armored cruisers Montana, North Carolina, Tennessee and Washington.

The scout cruisers Birmingham, Chester and Salem.

The submarine flotilla and colliers and tenders.

ENTERTAINMENTS FOR FARMERS.

Free entertainments are given to rural communities in some counties in Alabama as part of a campaign to induce the people to stay on the land instead of abandoning their farms for city life. This information has been received by the United States bureau of education from E. M. Shackelford, principal of the state normal school at Troy, Pike county, Alabama, who is at the head of the movement. Mr. Shackelford writes:

"In my opinion, the exodus of the younger generation from the country to the town is at present the most serious menace to our general welfare. Good roads, motor cars, the telephone and rural mail delivery are improving rural conditions greatly, but rural social life does not yet afford the opportunities for the commerce of ideas that an active, reading, thinking public demands. Hence the tendency to congregate in the centers of population, and hence this effort of ours to afford a few social opportunities through a course of free entertainments."

The entertainments consist mainly of lectures, "lantern shows," and selections on the Victrola. Some of the lectures are given at night, and some in the afternoon. Occasionally dinner is provided at the school and an all-day session is held.

While this movement was started by the Troy State Normal school, the co-operation of the Alabama state health and medical departments and the various state institutions has been enlisted for supplying speakers, entertainment clubs and other attractions. Most of the entertainers give their services without charge, and transportation is furnished by the owners of automobiles. Friends of the new movement anticipate that it will be a powerful factor wherever introduced in adding to the pleasures of rural life by furnishing additional opportunities to the country folk for recreation, culture and social intercourse.

Practical If Not Poetic.

W. D. Howells, at a luncheon at Kittery Point, said of a certain popular novelist:

"There is about as much poetry in him as there is in McMasters.

"McMasters, you know, was walking with a beautiful girl in a wild New England wood.

"'What is your favorite flower, Mr. McMasters?' the girl asked softly.

"McMasters thought a moment, then cleared his throat and answered:

"'Well, I believe I like the whole vegetable best.'"—Washington Star.

Use 1/4 less EAGLE-THISTLE SODA

It is so **FRESH** and **PURE** that **YOU USE ONE-FOURTH LESS** than with other brands. You save money. You get better results.

EAGLE-THISTLE SODA

is packed right where it is made (the only soda factory in the South), and comes to you in sealed, air-tight, strength-keeping cartons—fresh and pure.

16 Full Ounces to the Pound.

And no higher in price

SPECIAL

For a Limited Time Only.

Cut out the top from six Eagle-Thistle packages and enclose with coupon shown below and 58c to partially cover expense, and we will send you promptly, **all charges prepaid**, one set (6) Rogers' Guaranteed Silver Plated Teaspoons.

These spoons are beautiful in design and bear no advertising. Retail value $2.00 per dozen.

All good grocers carry our soda.

"A sentence with the word exposure," the teacher demanded, and a sturdy boy put up his hand. "If you fellows didn't quit your grafting I'll expose you," he quoted grandiloquently from the noted reform lecturer he had heard.

Right Doing.

Practical duty enriches the fancy and the heart, and action clears and deepens the affections. No one can have a true idea of right until he does it; any genuine reverence for it till he has done it often and with cost, any peace inestimable in it till he does it always and with alacrity.—J. Martineau.

Take One Pain Pill, then—Take it Easy.

For Neuralgia, nothing is better than

Dr. Miles' Anti-Pain Pills

Used by thousands for a generation

Those who have suffered from neuralgic pains need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity.

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also taken them for rheumatism, headache, pains in the breast, toothache, earache and pains in the bowels and limbs. I have found nothing to equal them and they are all that is claimed for them."

EODORE ROOSEVELT SHOT BY CRAZY CRANK

In Milwaukee on Monday evening, October 14th, Col- Roosevelt was shot in the breast by an assassin who af- wards gave his name as John Schrank, of New York.

Col Roosevelt had just entered an automobile on his to an auditorium to address the people; he stood up to to the crowd when the assassin stepped close to him fired at his breast. Col. Martin, secretary to the Colo jumped on the man and overpowered him before he ld shoot again. At first Col. Roosevelt did not realize he was wounded and was on the way to the auditorium en the wound was discovered. The bullet went through nuscript of his speech and entered his breast. He in- d on going to the auditorium and delivering his speech. n he was examined by the doctors and it was found that wound, tho serious, was not likely to prove fatal.

He was carried to a hospital in Chicago, and the latest orts are the wound is a serious wound in the chest and t he must lay up for a while and be kept from talking. re seems to be no reason for doubting that with proper he will be sufficiently recovered to assume the duties of sident on the 4th of March next.

The Colonel's demeanor throughout the trying epis- was thoroughly in keeping with his character. The le nation admires the man all the more and is deeply pathetic.

The assassin was evidently a crazy dreamer, who says d a vision telling him to avenge McKinley's death.

SPEECH WHICH COLONEL ROOSEVELT DELIVERED AFTER HE WAS WOUNDED

Milwaukee, October 14.—"I do not care a rap about being shot, rap," said Colonel Roosevelt in his speech tonight.

"Friends," he began, "I shall have to ask you to be as quiet as ible. I do not know whether you fully understand that I have been shot, but it takes more than that to kill a bull moose. But nately I had my manuscript (holding up manuscript showing ace where the bullet had gone through), so, you see, I was go- to make a long speech. And, friends, the hole in it is where the t went through and probably saved the bullet from going into heart. The bullet is in me now, so that I cannot make a very speech. But I will try my best. And now, friends, I want to advantage of this incident to say as solemn a word of warning know how to my fellow Americans. First of all, I want to say about myself: I have altogether too many important things to of to pay any heed or feel any concern over my own death. I would not speak to you insincerely within five minutes of shot. I am telling you the literal truth when I say that my rn is for many other things. It is not in the least for my own

"I want you to understand that I am ahead of the game any- No man has had a happier life than I have had—a happier every way. I have been able to do certain things that I ly wished to do and I am interested in doing other things. I ell you with absolute truthfulness that I am very much unin- ted in whether I am shot or not. It was just as when I was el of my regiment, I always felt that a private was to be ex- for feeling at times some pangs of anxiety about his personal , but I cannot understand a man fit to be colonel who can pay ard to his personal safety when it is occupied as he ought to th the absorbing desire to do his duty.

I am in this cause with my whole heart and soul; I believe in ogressive movement—a movement for the betterment of man- the movement for making life a little easier for all our people: vement to try to take the burden off the man and especially the n in this country who are most oppressed. I am absorbed in ccess of that movement. I feel uncommonly proud in belong- to that movement. Friends, I ask you now this evening to what I am saying as absolute truth when I tell you I am not ng of my own success, I am not thinking of my own life or of ing connected with me personally.

I am saying this by way of introduction because I want to say ing very serious to our people, and especially to the newspa- I don't know who the man was who shot me tonight. He was by one of my stenographers, Mr. Martin, and I suppose is in nds of the police now. He shot to kill me. I am just going you. (Colonel Roosevelt then unbuttoned his coat and vest owed his white shirt badly stained with blood.) Now, friends, going to be as quiet as possible even if I am not able to give allenge of the bull moose quite as loudly. Now, I do not know e was or what party he represented. He was a coward. He in the darkness in the crowd around the automobile, and when cheered me and I got up to bow, he stepped forward and shot the breast.

It is a very natural thing that weak and vicious minds should amed to acts of violence by the kind of foul mendacity and that have been heaped upon me for the last three months by ers in the interest not only of Mr. Debs, but of Mr. Wilson Taft. Friends, I will disown and repudiate any man of my who attacks with such vile, foul slander and abuse any oppo- any other party.

Now, I wish to say seriously to the speakers and to the news- ow, I wish to say seriously to the speakers and to the news- representing the Republican, Democratic and Socialist that they cannot make the kind of slanderous, bitter lgvolent assaults that they have made and not expect that and violent characters, especially when the insanity is at- companied by not too strong a mind, they cannot expect that such natures will be unaffected by it. I am not speaking for myself at all. I give you my word I do not care a rap about being shot, not a rap. I have had a good many experiences in my time and this is only one of them. What I do care for is my country. I wish I were able to impress on our people the duty to feel strongly but to speak truthfully to their opponents. I say now I have never said on the stump one word against any opponent that I could not substantiate and nothing I ought not to have said; nothing that, looking back, I would not say again. I am all right."

After Colonel Roosevelt had concluded that portion of his speech, in which he referred to his injury, he turned to concrete issues of the campaign and spoke as though he were making one of the addresses which are a matter of daily routine with him. After he had been speaking for some time, he turned to Dr. Terrell and said:

"How long have I been speaking?"

"Three-quarters of an hour," said the doctor, glancing at his watch."

"Well," said the colonel, with a smile, "I'll talk for a quarter of an hour more."

The crowd laughed and then broke into a cheer.

Although weakened by the shot, Colonel Roosevelt kept his audience in good spirits by an occasional joke, which served to relieve the tension. The people watched him fixedly, following his every movement with their eyes for any suggestion that he was becoming weak. Colonel Roosevelt talked on as though he were ignorant of the strange circumstances under which the speech was being made.

At one juncture he turned to the table upon the stage upon which was the manuscript which had been penetrated by the bullet. It was not on the table where he had left it, and he saw it in the hands of one of the men on the stage. He demanded it back with the words: "Teach them not to grab." The people, glad of an opportunity of relieving their pent-up feelings, laughed hilariously.

"The Democratic party," said Colonel Roosevelt, "in its platform and through the utteranecs of Mr. Wilson, has distinctly committed itself to the old flint-lock, muzzle-loading doctrine of state rights, and I have said distinctly that we are for the people's rights. If they can be obtained best through the national government, then we are for national rights. We are for the people's rights however it is necessary to secure them. If possible, I want to arrange it so that we can have justice without commercial hurt and you can only get that if you have justice enforced nationally. Do you see what I mean? The states all compete in a common market, and it is not justice of the employers of a state that has enforced just and proper laws to have them exposed to the competition of another state where no such laws are enforced. Now, in the Democratic platform their speaker declares we shall not have such laws. Mr. Wilson has distinctly declared that it shall not have a national law to prohibit child labor, he has distinctly declared that it shall not have law to establish a minimum wage for women. I ask you to look at our declaration and read our platform and, then, friends, vote for the progressive ticket without regard to me—without regard to any personality."

WILSON TO FOLLOW CLEVELAND.

Some weeks ago there appeared a lengthy editorial in the Age-Herald, one of the leading Democratic dailies of the State, saying that Woodrow Wilson, if elected President, would surely carry out the policies of Grover Cleveland. We do not propose here to enumerate the policies of Mr. Cleveland, but to call the attention of the people to the conditions that will inevitably result from the election of Wilson and carrying out the policies of Cleveland. When Cleveland with an entire Democratic administration came into control of this government we were then the most prosperous people in the world. Our national treasury was full to overflowing; labor everywhere was employed at the highest wage then paid anywhere in the world. Our farmers found a ready market for their products at the highest prices. The people all over this land of ours were happy, prosperous and contented. How did the policies of Mr. Cleveland affect these conditions? Ere the lapse of two years from the time Cleveland and his administration assumed control of the government the national treasury was emptied; there was a stagnation of business of every kind; the farmer could not find a market for his products at a living price; furnace fires were extinguished; mill doors were closed, and all over this broad land of ours was heard the tramp, tramp of idle men marching to the music of despair!

Men of Chilton county, there is the issue as it is flung down by the leading Democratic paper. Will you cast your vote for Woodrow Wilson and the policies of Cleveland, or for Theodore Roosevelt and progress, the progress that will "pass prosperity around?"

Surely the people of Chilton county have had enough of Cleveland's policies. Then it was that you received four to six cents for your cotton, and no market whatever for your corn, potatoes and other products.

In every instance the Democratic party has proven itself utterly incapable of managing the government, and this is true not only of the nation but of the county affairs.

Two years ago when Judge Deason was entrusted with the management of the county affairs he found the finances of the county in excellent condition. The county did not owe a cent and there was some fifteen or twenty thousand dollars in the county treasury to the credit of the general fund. Today, although the people are paying fifteen thousand dollars a year more taxes than before, there is not one cent to the credit of this fund and the county is sinking continually in debt. School enumerators, election officers and others hold claims against the county which cannot be paid.

The burning question before the people of Chilton county is "Where has the money gone?" Seek where you will, be as lenient with Judge Deason's administration as you may, still you are bound to conclude that the present condition of the county's finances is but the result of inefficient and unbusinesslike methods.

These conditions sound a warning to the people and a clarion call to the voters to register a solemn and weighty protest at the polls in November.

LIVE QUESTIONS ONLY.

The Progressive party is the result of a demand of the people for political action which will be in the interest of the mass of the people—the workers who furnish the majority of votes and who are the creators of the wealth which has congested into the hands of the few, who are, under present conditions, practically the ruling "class." These rulers are very indignant at any attempt at what they call "class legislation," when it affects their "vested rights;" but are well pleased with it when it serves to hold down the class who do all the work.

The changed conditions of the times and the greater intelligence to be found among the working people demand much legislation along new lines—new issues must be met and little consideration shown to old questions which are either simply out of date, or are directly antagonistic to the real interests of the people of the country.

Failing to find in the old parties the power or the disposition to bring about the desired relief, the new party has been formed that the much-needed reforms may be carried out, casting aside the weight of old issues so that that which is new and vital may be taken up.

But the old parties in their fight to hold possession of power do their best to keep the minds of the people on the old issues and away from the new. Any old issue, the more it appeals to prejudice and passion the better, is harped on as prominently as possible.

The South, now taking its right place as a great wealth producer—as offering the greatest inducements for working men and home-makers—must also take its right place in political and legislative movements. We are an important part of this nation and what interests one part interests all.

Sectional questions, the prolific source of bitterness, are only kept alive by the politicians of both old parties that they may keep the people in their lines and divert them from the matters of real importance.

Such is the negro question. We of the South have settled that question and it has no part in the national campaign. The howl "Nigger" by the Democrats is but a vain attempt to keep the people from acting on questions of vital importance. It is like the "bloody shirt" the politicians of the North used for so many years to enable them to carry out their own ends. And the "Nigger" question has no more part in the campaign in the South than the "bloody shirt" has in the North. In either case it is but a howl of desperation—anything to keep the people from acting for themselves.

But the funniest thing in political wiggling we have ever seen is the attempt to connect woman suffrage with the negro question.

Woman suffrage is but one of the loudly clamored for demands of the day, and is a progressive measure that will force itself upon the coming generation. We will not, in this article, go into a consideration of its merits further than to show the absurdity of the attempt to couple it with the race question.

The Clanton Press howls in affected horror at the possibility of Southern women (not to say ladies) ever being granted the privilege of voting on matters which concern them most nearly, because, forsooth, the negro women might at the same time have the same privilege. Can Southern men stand the idea of Southern women being associated with negro women by having the same rights and duties? Perish the thought! At once let the Southern chivalrist order his wife and daughters to withdraw from their church, where they have been the main supporters—sad to say—because the negro women are also privileged to be church members.

Break up at once all the women's clubs in the state—organizations of immense good—because every negro woman must belong to one or more clubs or societies.

Must our women forego the right to get married because that is a very popular state of life with the negro women?

Bah! That's the worst howl we have ever known the Press to make.

You have heard canines howling at the moon—long, dolorous howls. It is a fact that a well-fed dog will not howl—it is only when there is a lack of solid substance back of the hole in the head that the unmeaning and useless howl is made.

THE DESIRE FOR SUFFRAGE NO DISGRACE TO WOMEN

Editor Union-Banner:

The Press, in its delirium to cloud the issue and help the local Democratic ticket, is unmindful of the insult it offers to tens of thousands patriotic women of Alabama who are fighting for equal suffrage for women. Does the Press mean that our women are attempting to degrade themselves by contending for the rights for which the fathers fought—"No taxation without representation?"

On the same day that the Press uttered its slanderous attack upon the noble women who are battling for their rights there appeared in the Age-Herald excerpts from a letter by Mrs. Solon Jacobs, President of the Woman's Suffrage Association of this State, setting forth in exalted terms the principles for which they stand—the betterment of government and the uplift of humanity. We commend this letter to the editor of the Press. Mrs. Jacobs, herself, is one of the purest character in the land, and every one who keeps abreast with the times knows that she stands in the forefront of every movement in the Birmingham district in behalf of humanity and civic improvement.

In Sunday's Birmingham News there appeared a picture of a good hotbowlie on her knees, scrubbing the floor, and one of the husband in a saloon seated by a table tipping over a bottle of whiskey. Over the picture were the words, "He Can Vote: She Cannot." I commend this picture and its lesson to the Press.

No, Roosevelt is not attempting to degrade our women, but simply to give them that to which they are entitled.

While I believe in woman's suffrage, yet I hope, regardless of the

If the merchants of Clanton and Chilton county generally wish to catch the attention of the farm... of the county they will take ...pace in the Union-Banner; it has the largest circulation of any paper in the county, especially among the farmers, the people who do the trading. Any advertiser is privileged to come and look over our subscription list and see for himself.

"FREE"

Everyone who buys Dress Goods from us to the amount of $1.00 or more will be given a Pictorial Review Pattern for making J. C. JONES & CO.

Mr. Frank Crichton is slowly improving.

Neuralgia of the face, shoulder, hands or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Mr. Tom Littlejohn who has heretofore been clerk for E. M. Pinckard & Co., is now with L. H. Reynolds, where he will be glad to see his friends.

H. M. Beatty, Little Rock, Ark., says: "For the past two years I suffered with kidney trouble, had severe pains across my back and over my hips that almost meant death to me at times. I used several well known kidney remedies, but got no relief until I used Foley Kidney Pills. These, I can truthfully say, made me a sound and well man."—Upchurch Drug Co.

Miss Lena Downs attended the Fair last week.

Miss Emma Lowery spent the week end in Birmingham last week.

M. D. Foshee attended the fair in Birmingham Thursday.

Judge L. H. Reynolds and family spent a few days in Birmingham last week.

Miss Robertson, of Fayette, is the charming guest of Mrs. J. H. Middleton this week.

Tickling in the throat, hoarseness, loss of voice, indicate the need of BALLARD'S HOREHOUND SYRUP. It eases the lungs, quiets the cough and restores health in the bronchial tubes. Price, 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Miss Minnie Muse spent Sunday in Montgomery.

Miss Martha Brinkley, Mrs. Spratt and daughter Margaret, of Thorsby Institute, were visitors to Clanton Monday.

Mr. and Mrs. W. H. Sartor and Mr. N. A. Watts went to Montgomery to visit Mrs. Pearl Crasslin who is quite ill.

Misses Cora and Era Baldwin returned from Birmingham Monday where they have been for several days attending the fair.

Use Eagle Thistle Soda and take advantage of special offer on a set of Sterling Silver-plated Rogers & Brothers Teaspoons.

HOUSE WANTED—A four or five room residence in Clanton wanted. Apply at the Union-Banner office.

LAZY LIVER SPOILS DAY'S WORK

Don't Let a Torpid Liver Knock You Out of a Day's Work—There is a Better Way—Read About It.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after-effects that you will be laid up for two or three days more. So we say "Don't take Calomel." We have a perfect substitute that we can fully guarantee to cure constipation and liven up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this topic is Dodson's Liver-Tone. It is a pleasant tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the ody without any danger of salvation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. The Alred Drug Company. ey back. The Upchurch Drug Co.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by Alred Drug Co.

If you need Rugs, Matting and Art Squares you want to go to the special sale Monday Oct. 21, at Spigener's cash store Clanton.

ROBBERY

Quit... ...occasioned by the report that reached Clanton Sunda... ...that Ormond Wagoner ... ...s about seven miles ... ...anton had been held up ... ...bed by John Dutton, who ... some six miles north ...

A warrant ... arrest was issued, upon the complaint of Wagoner, and Dutton was arrested on Monday and brought to Clanton for trial. The date the hearing has not yet been fixed. Dutton was committed to jail pending a hearing.

W. A. Rimes, Ruston, La., writes: "Some time ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble."—Upchurch Drug Co.

You can buy Rugs, Art Squares etc., cheap at Spigener's Cash Store, Monday, Oct. 21st, Clanton.

F. A. Wootsey, a brakeman at Jacksonville, Texas, says: "I was down with kidney trouble and rheumatism so bad I could hardly get up, and had backache all the time, and was almost tired of living. I saw an ad of Foley Kidney Pills and after taking one bottle I was better, and when I had taken two more I was thoroughly cured."—Upchurch Drug Co.

Beware of Ointments for Catarrh That Contain Mercury

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c per bottle. Take Hall's Family Pills for constipation.

J. C. Ray, Winfield, Ala., says: "My father, T. J. Ray, suffered with kidney and bladder trouble so bad he had to use a catheter. Various kinds of kidney remedies were tried without result, and finally we gave him Foley Kidney Pills. In three days he could pass some water and on the fifth no longer needed the catheter. He continued to use Foley Kidney Pills until entirely cured."—Upchurch Drug Co.

The Republican Party through its Chairman and Secretary, filed in the office of the Judge of Probate of Chilton Conty Saturday the following list of nominees for the various offices to be voted for in the ensuing November election:

Tax Assessor, A. J. Glasscock, Jemison. Tax Collector, Ralph Calloway, Maplesville. County Treasurer, J. W. G. Kicker, Mountain Creek. County Superintendent of Education, Thomas Bosworth, Thorsby. County Commissioner, Fourth District, J. J. McDowell, Clanton. County Coroner, J. Matt Mahan, Clanton. Justice of the Peace, Beat 2, A. D. Gentry, Jemison. Justice of the Peace, Beat 2, John A. Rodgers, Jemison. Constable, Beat 2, D. W. Barnes, Jemison. Justice of the Peace, Beat 4, J. J. Mims, Clanton. Justice of the Peace, Beat 4, J. D. Grant, Clanton. Constable, beat 4, John M. Baker, Clanton. Justice of the Peace, beat 9, S. Howard, Thorsby. Justice of the Peace, beat 9, G. W. Freeman, Thorsby. Constable, beat 9, J. L. Hayes, Thorsby.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by Alred Drug Co.

For Chapped Skin.

Chapped skin, whether on hands or face, may be cured in one night by applying Chamberlain's Salve. It is also unequaled for sore nipples, burns and scalds. For sale by Alred Drug Co.

NOTICE OF STOCKHOLDERS MEETING.

To the stockholders of Union State Bank, a corporation organized under the laws of Alabama, and having its principal place of business at Thorsby, Alabama:

You are hereby notified that the Board of Directors of said corporation by action regularly taken on the 2nd day of September, 1912, called a special meeting of the stockholders of said corporation to meet at the banking house of said corporation in Thorsby, Alabama, on Monday the 21st day of October, 1912, at the hour of 8 o'clock a.m., for the purpose of taking action as follows, to-wit:

(A) To change the par value of the shares of the capital stock of said corporation from $100.00 per share to $50.00 per share.

(B) To reduce the authorized capital stock of said corporation to $30,000.00 divided into 600 shares of par value $50.00 each.

(C) To change the principal place of business of said corporation from Thorsby, Alabama, to Maplesville, Alabama.

Witness my hand this the 19th day of September, 1912.

GUY H. GERALD,
Cashier of said Corporation.

Editor Union-Banner:—Please ow space in your paper to say few words. Health of this mmunity is fairly good at resent. Politics are getting a ttle warm and it is just a short me until the people are going to ve one of the greatest ques- ns to decide since the sixtys, th nationally and right here in ilton county, and I want to ggest to the voters to think ell before they cast their ballot. you want to see this country led with tramps and paupers e it was sixteen years ago, te for Doc Wilson and you ll get what you want, but if u want to prosper and see this untry build up, vote for Teddy d get a square deal.

We see the Press man keeps asking the people to contri- te to Doc Wilson's campaign nd, he says Doc is a poor man d wont accept funds from the ch or corporations. Well at is the history of the demo- atic party to extort all the ney they can from the poorer ss, and if a fellow is rich, ake him richer. Now Mr. ter what can you promise your- lf to vote for the democratic cket? Here in the county it sn't been quite two years ce some of them were elected d there was plenty of money the Treasury to pay cash for erything, and how is it now? n't it a fact that nearly a ousand tax payers met at the urt house the first of this year d protested against the road w, and isn't a fact that your mocrat Judge got up and told em in plain words not to go k home and tell their friends at the law was changed; that e court would settle that mat- r, and they did settle it after ey got the money. Will some mocrat brother tell us what s become of all that road tax oney? Now my friendly read- what would you think if Gov. Neal of Alabama was to abol- h civil marriage in Alabama? at has been done in New rsey, while Doc Wilson has en Governor in favor of the man Catholic Priest. That ne ought to cause every pro- tant to vote against Wilson.

JUST PLAIN JIM.

2:30 Song, conducted by Bro. M. M. Mims.

2:45 Talks on duty of Superintendent during school session, by N. L. Broadhead, A. L. Foshee. Talks were splendid.

3:00 Miscellaneous business. Collection, $1.62. Convention adjourned subject to call of President.

N. L. Broadhead, Pres.
(Miss) Hattie Davenport, Sec.

BEWARE OF CONSTIPATION.

It is the first primal cause of many of our diseases. St. Joseph's Liver Regulator is an ideal treatment for constipation. It acts in a natural and easy manner (not by violent purging) and gently loosens the bowels, thus forestalling the long train of evils which result from the clogging of the system with offensive refuse. This remedy is a wonderful stimulator of liver, stomach and bowels, inducing and maintaining healthy, natural action. Price, liquid, 50 cents a bottle; powders, 25 cents a box, five boxes $1. Alred Drug Co.

Worth Trying.

Those who live on the mountain have a longer day than those who live in the valley. Sometimes all we need to brighten our day is to rise a little higher.

H. E. Archer, mercnant, of Westover, Ala., states: "My boy had a severe attack of acute bronchitis, so severe he could not get out of bed for a week. The first few doses of Foley's Honey and Tar relieved him and before we had given him the contents of one bottle, he was well. Foley's Honey and Tar Compound is kept continally in our house. It is perfectly safe and effective."—Upchurch Drug Co.

70 Years with Coughs

We have had seventy years of experience with Ayer's Cherry Pectoral. This makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. We want you to have confidence in it, as well. Ask your own doctor what experience he has had with it. He knows. Keep in close touch with him.

One of Ayer's Pills at bedtime will cause an increased flow of bile and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime, just one.

Made by the J. C. AYER Co., Lowell, Mass.

INTERNATIONAL SUNDAY SCHOOL LESSON

By E. O. SELLERS, Director of Evening Department, The Moody Bible Institute, Chicago.)

LESSON FOR NOVEMBER 10.

WORLD'S TEMPERANCE SUNDAY.

LESSON TEXT—Hosea 7.

GOLDEN TEXT—"Woe unto them that rise up early in the morning, that they may follow strong drink; that tarry late into the night, till wine inflame them."—Isaiah 5:11.

We turn aside today from studying the life of Christ to consider one of the things that caused the downfall of Ephraim, that is the northern kingdom, and also of Israel, i. e., those who composed the southern kingdom. The chief counterfeit of the Holy Spirit employed by Satan is the inspiration and the intoxication produced in the use of liquors, and we do well to pause and consider the works of him whom Jesus came to destroy. (Heb. 2:14).

The lesson naturally divides itself into two divisions, vv. 1-7 and vv. 8-16. This entire section really begins in chapter six verse four and contains the response of Jehovah to the cry of the remnant of Israel and of Ephraim in the last days. In the first half we see the iniquity of Ephraim and Israel "discovered," i. e., revealed, and in the second section there is discovered or revealed to us God's wrath against them for their hypocrisy.

I. God declares that it was his desire to heal them both, (v. 1). It is not God's will that any should perish.

But while Jehovah would have healed them they would not be healed, (cf. Matt. 23:37 and Luke 13:34), and hence it is that his love serves to reveal their wickedness. Dr. Torrey points out eight charges brought against the common people "Ephraim" and the court and city "Samaria," for this evil attacks both alike.

Never Hidden From God.

(1) "Falsehood" (v. 1). Nothing is more common among the evils of intemperance than falsehood; as we have suggested it is the Devil's false imitation of true inspiration. (2) "A thief comes in." Intemperance steals not only a man's money but his reputation, love for his family, in fact any and everything a sober man will hold dear. (3) "They consider not in their hearts." Like Rip Van Winkle, men say "this last doesn't count," forgetting that it does count and that God remember all of their wickedness. A violation of his law will receive punishment in due season. America is paying the price of a manifold increase in taxation, in murder, in imbecility, in divorce and suicide, the overwhelming portion of which can be traced to intemperance. God is remembering all our wickedness and verily a troop of robbers are stripping us (v. 1).

We ofttimes hide our evil deeds from man but never from God, and a man's sins will find him out (Psalm 9:16). These people made the king glad (v. 3,) i. e., the king delighted in this wickedness. Let us not forget that righteousness exalteth a nation and sin is a reproach to any people. (4) "They are all adulterers," (v. 4). Of course in this connection we know there was a remnant of true followers, but the prevailing vileness was such as to call forth this terrific indictment. We need to remember that the connection between the liquor traffic and white slavery is so close as to defy separation.

"The Great Destroyer."

A liquor drinker is almost invariably a scorner. He scorns the power of liquor over himself, its effect upon the nation. "Sum up the economic loss of efficiency the cost of crime, pauperism, and insanity, and we have an economic burden of more than half of the wealth produced by this nation." (See Congressman H. R. Hobson's, "The Great Destroyer"). (6) "They have made ready their heart like an oven while they lie in wait," (vv. 6, 7, referring undoubtedly to the heat of anger and passion as well as of lust. (7) "They have devoured their judges" (v. 7). One has but to review the pages of history to appreciate the overthrow of priest, peasant and potentate alike. (8) "There is none that calleth upon me" (v. 7). The turning aside from God was noted at the outset, here again we see that the neglect and forgetfulness of God is the true source of all of man's sinning.

II. God intended Israel, and intends us, to be separate people. The prophet sets before us the result of this refusal upon Ephraim. A cake not turned is a cake half baked, one half burned. This metaphor has many applications. Our social life, our political life, our spiritual life is too often one that is half turned, one-half burned to a crisp and the other half raw.

Lay emphasis upon the Golden Text and the general facts of the temperance question. Alcohol is injurious to all kinds of life; there is little, if any, necessity for its use in medicine. Usually it is a positive hindrance. The story of "Old Born Drunk" in Begbie's "Twice Born Men," can be told with profit, a man who returned to Jehovah and found in the power of the blood of his son healing for his sickness. Lay strong emphasis upon pledge signing, for prevention is stronger than cure. Also, unlike the old Romans, our baby should not be our God.

MEXICAN

Mustang Liniment

The Best Emergency Remedy for Farmers, Stock-raisers and Household use. Speedily relieves Spavins, Swinney, Harness Sores and Galls, Shoe Boils, Strains and Lameness in Horses; Caked Udder and Sore Teats in Cattle and Ailments of Poultry.

SAFE AND SURE.

Being made of oils it soaks down straight to the bone, banishes pain and saves suffering. Only oil liniments can soak through muscle and tissue. Alcohol liniments evaporate before they can be absorbed by the flesh besides they are dangerous when used near a fire or lamp. Mexican Mustang Liniment will not burn even though a lighted match be applied. Mexican Mustang Liniment is THE SAFE as well as the SURE-TO-CURE remedy.

COMMENDED BY A FARMER.

GREENSBORO, GA.

As long ago as I can remember I have known of Mustang Liniment. I always keep it in my house and if any of my family get injured in any way, such as sprains, cuts, bruises, and, in fact, in many accidents that happen I always use Mustang Liniment. On my horses and stock I never think of using anything else—it is far cheaper than doctors' bills. I commend it to all farmers; it will keep their families and also their horses and stock in condition. Very truly yours,

J. D. ANDREWS, farmer.

Costs You Nothing When Idle—Almost Nothing When It Runs

WHEN an I H C engine is at work, it is the cheapest dependable power you can use; when not working it costs you nothing. It will work just as hard at the close of the day as at the start—will work overtime or all night just as readily. It is ready to work whenever you need it; always reliable and satisfactory. You can use an

I H C Oil and Gas Engine

to pump water, to run the wood saw, cream separator, churn, grindstone, washing machine, feed grinder, corn husker and shredder, ensilage cutter, or any other farm machine to which power can be applied.

I H C oil and gas engines are constructed of the best materials; built by men who know what a good engine must do; thoroughly tested before leaving the factory.

They are made in all sizes from 1 to 50-horse power, in all styles—vertical and horizontal, air and water cooled, portable, stationary and mounted on skids, to operate on gas, gasoline, naphtha, kerosene, distillate or alcohol. Kerosene-gasoline tractors, 12 to 45-horse power.

Ask the I H C local dealer to show you an I H C engine and explain each part, or write for catalogue and full information.

[Continued from page one]

editor of the Press, that it is not a vital issue this year in the Chilton county campaign. There are vital issues in this campaign, but the Press studiously avoids them.

Why don't the Press take up the defenseless extravagance of the Democratic administration in the State and in Chilton county? In the State there is a deficit of a million dollars and the county treasury is "busted." What about it, Mr. Press Man? M.

A STATEMENT OF CONDITIONS.

Clanton, Ala., October 15th, 1912.

To the Voters of Chilton County:

The people of this county are now upon the eve of one of the most important elections ever held in this county. Just three weeks from today the people of this county will decide who will be their officers for the next four years. The only question in this county as to who will be the officers elected on November 5th is whether it will be the candidates of the Progressive party or the candidates of the Democratic party. A few weeks ago the people realizing that there were some people in the county for Taft and some for Roosevelt, and further realizing that the county ticket, under Democratic legislature, could not be placed under both the Taft emblem and the Roosevelt emblem, a mass-meeting was called for all the voters in the county to come together and decide under which emblem the county ticket would be placed. On August the 30th the people in response to said call assembled at the court house and had a free-for-all meeting. In this meeting, in which every man had a right to vote, it was unanimously decided to place the county ticket under the Roosevelt, or Progressive, emblem. And in accordance with the requirements of law the ticket which was nominated by about eleven hundred voters of this county was nominated by said mass-meeting and placed under the Roosevelt or Progressive emblem. And today the fight in this county is a clear one, between the Progressive party, representing the people's interest, and the Democratic party, representing promises and doing nothing but bursting the country. Do the people of this county want any more Democratic administration? Think of the condition of the joining counties; think of the Clanton Press, the official paper of the Democratic party! How does it stand on the bond issue and big debts? Can the Democrats give one sound reason why any man in this county should vote the Democratic ticket? If so, we would be glad to hear it, as we have many to offer why they should not.

Today the voters of this county are trying to be side-tracked from the important issues that confront them in this county by the so-called Republican party, newly organized at Maplesville. We believe that there are some people now in sympathy with that party because they have been misled and do not really understand for what purpose that party was organized in this county. One of their leaders said last Saturday in the presence of more than one that he was going to do all he could for the Republican ticket in this county; that every one he got to support that ticket would help the Democrats that much.

I wish the people would stop and think how many of the candidates nominated at the convention at Maplesville and known as the Republican ticket voted the Republican ticket two years ago when the Republicans had a chance to win in this county? I would like to ask their chairman if he voted the Republican or Democratic ticket two years ago? At that time the Republican party in this county was needing the votes and help of such men as he is, and if I am informed right he turned a deaf ear to their needs and voted the Democratic ticket. And at this late hour he has decided that the Republican party was the only thing that would save the county. I wonder if he is really interested in the people's welfare enough to do what he is doing for their interest, or is he interested enough in getting the postoffice and caring nothing for the interest of the people of this county to do what he is doing. Isn't it a fact that he is already circulating a petition for the postoffice at his home town? What paper in this county is fighting their battles? What Democratic editor in this county is keeping their meeting so well written up in the Birmingham papers? Have the people ever seen a true Republican ticket, as it was called, in this county before? If so, are not the same people back of this movement that were behind it? Think back just four yars and see for yourself, and see how many votes they got.

The people of this county have tried a partial Democratic administration; are they willing to risk any more? We would like for them to come out and tell the people what they have to offer as an inducement for them to support the Democratic ticket; can they refer to their back record with any pride and ask you to support it because they have done anything for the people? And do they continue to promise and tell what they will do if they get in power? I understand one thing they say they will do if they get in power and that is to force the bond issue upon the people of this county.

We think it is high time for every liverty-loving man within the borders of this county to stop and think of where we are drifting. If the people want a prosperous county, without being in debt, and with money in the treasury, come out to the polls on November the 5th and cast your vote for the Progressive ticket, and thereby save your county from bonded debts and high taxes. And place the affairs of your county once more back into the hands of the people, where their wishes will be heard.

M. D. FOSHEE,
Chairman Progressive Campaign Committee.

THE BIG MOOSE HERD.

(New York Press.)

South Norwalk, Conn., Sept. 19.—This city claims to have the champion Bull Moose herd in the State of Connecticut. In a recent parade the Mayor, City Clerk and every member of the Board of Councilmen; coming from both the old parties, were in line. There were fifty voters out to the G. O. P. caucus this evening, although it is customary to have 300.

A PRESIDENTIAL EXPERIMENT.

(New York Press.)

Wilson's election would mean a halting, uncertain business, if not actually a very bad business. The best one can say of Wilson himself is that he would be an experiment, and can we afford to experiment with the Chief Executive of the Nation?

EVERY VOTE A STEP FORWARD.

Every vote cast for Theodore Roosevelt and the Progressive party is a step forward in civilization; every vote will dry some small child's tears, make some girl's work lighter, bring rest to some woman and peace to some man. Every vote you get for this new party is a part of your service to the nation.

J. E. MARLEY HARDWARE COMPANY

Jemison, Ala.

We desire to announce to the people of this community who need anything in the Hardware line that we are ready to serve you at any time, early in the morning or late in the evening.

Having had several years experience in Hardware line, we believe we have the good will and respect of all with whom we have dealt, therefore we stand as the Farmer's Friend; and if you will only try us, I believe you will sanction our assertion.

We carry everything from a shoe tack to a forty penny nail, from a tie to a log chain, from a plow point to a cultivator, from a smooth wire to a five foot perfect wire fence. See us and get our prices.

We have with us H. N. Martin who will be glad to wait on his friends and see that they are treated fair.

Our capital stock is "Honesty and Fair Dealing to both Customer and Creditor." our surplus is "Service and Courtesy;" our gains is our friends.

Our Stock is at Par and shall never be depreciated; every customer shall share in our dividends.

You will find us next to Jas. W. Patton. You have a cordial invitation to come. All are welcome.

J. E. Marley Hdw. Co.

"GET IN ON THE FIRST GO ROUND."

Editor Union and Banner: Please give me a small space this week to say that I am for the Progressive party, and I am going to get in the new band wagon on the first go round, and I know there are thousands of good men in the old parties that haven't had any taste for them on account of their rottenness. Now, boys, we have got a clean party to start in with, and we invite all men that want protection and want to have a show to get in on the first go round, for the Progressive party is going to be the leading party of the nation. And, boys, I know there are many of you sick and tired of the old mud-slinging parties; the new party is going to be made up of good material from all of the other old parties, and he that gets on at the first go round will have the greatest record and will have the best show. No one can say that you have come from this party or that party, for we have all left the old parties for the new one. So, boys, get into the band wagon on the first go round, for he that gets on earliest is entitled to a full reward. Remember your land, property and greatest interests are in old Chilton and we are paying higher taxes than ever before, yet our treasury is drained until we can't get our pay for holding elections. Boys, this wasn't so two years ago. Remember, if you vote for a Democrat you vote against your own interests. If for a Socialist you have no hopes to get your man in and you weaken the party that is working for your interest. Get on the band wagon with us and Roosevelt and let us go hunting, and if we kill a bear you then can say "We killed a bear," and have the record of being in the first hunt.

In the coming election we compare Roosevelt to the bread of life for the next four years, and he that will not forsake father, mother, brother and sister is not fit for the kingdom. So we have forsaken old father Republican and old mother Democrat and Brother Prohibitionist, and old Sister Socialist, and started for a new Kingdom, and if you don't join in and go with us you will look sad that day the 4th of November, when you will see Roosevelt, Littlejohn, Dennis, Callens, Bean, Herrod and good old Moses and all the prophets sit down in the kingdom and you yourself cast out. So, boys, all of you get on to the new band wagon on the first go round. Roll up the biggest party ever in old Chilton county. Goodness knows, if you can't help us don't help the Democrats, who you know to be against your interests.

Yours for the Bull Moose,
J. N. SCOTT.

Mars Hill, October 14.

DIXON'S CHARGE AGAINST WILSON.

(Kansas City Star, Oct. 9, 1912.)

After persistent attacks upon Colonel Roosevelt, Woodrow Wilson at Indianapolis charged him deliberately with responsibility for the existence of the trusts and monopolies in this country.

For two years Mr. Wilson has been governor of the State of New Jersey, and boasts of his control of a reform legislature. Ninety-five per cent of the predatory trusts and monopolies of the United States, including the Standard Oil Company, sugar trust, the American Tobacco Company and the United States Steel Company, have their home in the State of New Jersey and enjoy from that state the charter which alone permits them to carry on their business in forty-eight states of the Union. Their factories and businesses are not in New Jersey.

Every day since Mr. Wilson has been governor he and his legislature have had the power under the law to drive every dishonest trust from New Jersey, to compel an amendment to its charter, or to qualify its articles of organization under this provision of law. During those two years he has not uttered a word in public or private. He has not raised a finger. He has not whispered against this brutal injustice by which is sheltered every crooked and offensive trust in the United States.—Senator J. M. Dixon.

THE SAFETY

of the money on deposit with this Bank is guarded by as careful conservative a Board of Directors as you will find anywhere.

That our people appreciate this conservatism, this care for the safety of their money, is evidenced by the continued increase in our deposits and the growth of our general business.

The management given the affairs of this Bank by our Board of Directors speaks well for the future of the Bank and the prosperity of our patrons.

The United States Government deposits with us. Why not you?

TOWN ITEMS.

CHILTON COUNTY FAIR

The managers of the Fair, to be held Oct. 29 to Nov. 2. report that everything is now in good shape for a grand success.

There has been booked some four 18 concessions and shows, some of them of a high order. A good band of music has been engaged to make music during the occasion. There will be five free shows.

The premium list is large and attractive and will bring out the best that our farmers and their wives can do.

There will be absolutely no games of chance or gambling allowed on the grounds. Everything will be clean and attractive. We may be sure that this will be the best fair Chilton County has ever had.

When you have a bad cold you want the best medicine obtainable so as to purge it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for 15 years," says Enos Lollar of Saratoga, Ind., "and consider it the best on the market." For sale by Alred Drug Co.

DIRECT EXPLANATION

Every once in a while you hear the following remarks about Higgins' watchmaking department: "He's the only jeweler or watchmaker I ever saw who has his repair room in the back." Then again: "I often come by and think he is out because I don't see him up front; and again some one will ask "Does Higgins repair watches? I don't see any."

Then Higgins the Jeweler explains: I am an apprenticed Jeweler, Watchmaker, and expert Diamond Setter and Graduate Optician (Dr. of Optics degree), and how in the deuce do you expect Higgins to do a nice complete up-to-date job on a fine watch of yours in a front door of a store house on the side of a public dusty road and dust pour into the works of a fine watch? Well, you say, we see watchmakers in cities working on fine watches in their fronts. Yes, but let me tell you, in cities they get their front streets sprinkled every day and we get ours sprinkled about once during election days, and this aint enough for Clanton streets and they not paved either. I have a nice set of tools and I am thankful to say that I have a nice lighted room in the back of my building to use them in, and if you can't push open two screen doors at the front of my store (such are also to exclude dust), and if you haven't sense enough to push them open, you just wait till some tramp watch and jewelry fixer comes along and he will set out on the curbstone in the dust and dirt where he will be more easily seen than your friend Higgins.

Respectfully,

J. V. HIGGINS.

The Reliable Watch and Eye Man.

When you come to town make this place your place.

More Than Enough is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy for body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let tea and not appetite control, and use a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Alred Drug Co.

Not An Experiment

A million of Cole's Original Hot Blast Stoves used in America today. They have been proven superior to all other heaters by years of use by hundreds of thousands of users. They are in use in every State in the Union; in the homes of capitalists and wage earners, and the most enthusiastic testimonials are received at the factory of the Manufacturing Co. at Chicago every day. Cole's Hot Blast is guaranteed to reduce the coal bill a third over any lower draft stove of the same size. Guaranteed to hold fire from Saturday night until Monday morning. Guaranteed to give uniform heat day and night with soft coal, hard coal or lignite. Come in and see these stoves and demonstrate their marvelous points of superiority. (8-15)

PUBLIC SPEAKING

There will be speaking, in the interest of the Progressive ticket at the following times and places:

Collins Chapel, Beat 9, 7 p. m. Oct. 18.

FOR SALE—160 acres of land, ready for cultivation, four miles west of Jemison. For further information apply to J. B. Killingsworth, Calera, Ala. 6months

Sight of the Color Blind.

A color blind person sees light as either white or gray and dark colors appear either as dark gray or black. This mutual sensitiveness is due to the fact that the light nerves and color nerves are closely interbound, but there is a different set of nerves for both light and color, just as there are different sets of nerves for temperature and for touch.

All you who have torpid liver, weak digestion and constipated bowels look out for chills. The season is here and the air is full of disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy, it answers the purpose completely. Price, 50c. Sold by Upchurch Drug Co.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

PIONEER PIGEONS ARE DEAD

Last Surviving Pair of Species Formerly Abundant in America Succumbs on New Jersey Farm.

Montville, N. J.—The last survivors but one of the immense flocks of passenger pigeons—called by scientists the "common wild pigeon of North America"—which prior to 1880 visited the wooded sections of New Jersey, died recently on the farm of John Norwood here.

The birds had been kept in captivity since March, 1888. The only other known specimen is a female, eighteen years old, in the Cincinnati zoological gardens.

That the birds in a wild state have disappeared is shown by the fact that ten years ago Professor Clifton Fremont Hodge of Clark university, Worcester, Mass., offered $400 for definite proof of the finding of a nesting pair of passenger pigeons.

Many claimants have appeared for this reward, but none has ever been able to produce the nesting pigeons.

PLAN UNIQUE POORHOUSE

Sleeping Porches and Roof Gardens Will be Built on $200,000 California Home.

Santa Barbara, Cal.—A poorhouse with sleeping porches and roof gardens has been ordered by the supervisors of Santa Barbara county, it was announced here. It will cost $200,000. A Los Angeles architect won a $500 prize in the competition for a poorhouse which would harmonize with the architecture and estates of the millionaire colony in and surrounding Santa Barbara.

Curse Falls on Juror.

Kansas City, Mo.—The curse of the Swope millions has fallen heavily upon Harry Waldron, one of the jurors to sit in judgment upon Dr. B. Clark Hyde, accused of the murder of Colonel Swope.

Waldron was prospering and contented when he was called to serve as a juror, having accumulated enough to start a dairy. He returned a mental and a physical wreck, his business ruined by his long absence and his savings gone. Since then he has been unable to work and the support of his family of $ children fall to his wife.

Factory Lighting.

A special report on illumination in factories states that as regards artificial illumination there seems to be little to chose between lighting by electric glow lamps and by modern systems of incandescent gas. Electric light has the advantage of being constant and requiring little attention beyond the systematic dusting and renewal of lamps. The gas systems generally produce a whiter and more powerful light that electric current, but the units are apt to vary much in efficiency, owing to the liability of the mantle to deteriorate. Careful attention, therefore, is required to replace any that show signs of weakness. Electric light, of course, causes no vitiation of the atmosphere; but in the modern systems of gas lighting the amount of gas burnt is so small and the combustion so complete that the effect on the air is minimised. For the perfect local lighting of any point of work the three following conditions must be fulfilled: (1) The illumination must be adequate, (2) "glare" effects must be absent, and (3) no troublesome shadows must be cast on the work.

She Could Not Distinguish.

"Who are those people over at the little table?" asked old Mrs. Knowall, who was having her first meal at a large suburban boarding house.

"Mr. and Mrs. Brown and their children," she was informed.

"But there are two ladies there, one standing up and waiting on the children and one sitting down," remarked Mrs. Knowall.

"Oh, one is the children's nurse."

"Which one is the nurse?" she inquired eagerly, "the one sitting down or the one standing up?"

Masonet a Twenty-first Child.

If the seventh child of a family is credited, as it not uncommonly is with certain mystical gifts, it would seem to follow that a twenty-first child should be possessed of some extraordinary talent. However that may be, Masonet, who had twenty brothers and sisters to precede him, very early developed pronounced musical tastes, and at the age of nine he played a Beethoven sonata for an examination, through which he came successfully.

Scott & Bowne, Bloomfield, N. J. 12-13

Character Revealed by Eye.

Gray eyes denote creative temperament, but not always honesty. What the novelists and poets term the cold, gray eye is considered to be a sign of selfishness and cruelty, though it often denotes shrewdness and talent. Very clever people whose eyes are gray generally have small spots of orange in the iris round the pupil.

Known Species of Insects.

Considerably more than 300,000 separate species of insects are known and classified.

Chinese Barbers in Hard Luck.

Barber shops were the exception, rather than the rule, in China in the old days, itinerant barbers attending to their customers' wants in the streets or in the customers' home. There appears to be no tendency toward the institution of barber shops since the change of hairdressing; in fact, the tendency locally is to do away with the barber altogether. Thus many families are purchasing hairclippers, which seem to be regarded as the only essential to haircutting.

Leading to Higher Things.

Men and women are created by imputing to them noble qualities of which they are not conscious; and by giving them responsibility.

Very Ancient Form of Respect.

The bow as a mark of respect is a custom used by nearly all nations, and one that had its origin in ancient times.

All Things to Them That Wait.

No road is too long to the man who advances deliberately and without undue haste; and no honors are too distant for the man who prepares himself for them with patience.—Bruyere.

Not After Cooking.

"To the pure all things are pure." "Still, I guess they would be a little doubtful if they saw the pure food at the boarding house."

Thought Worth Remembering.

Be long as we love we serve. Be long as we are loved by others, I would almost say we are indispensable; and no man is useless while he has a friend.—Stevenson.

Original Amen Corner.

The origin of the name "Amen corner" is interesting and throws a pleasant light on English Catholicity of the days before the apostasy of Henry VIII. Each year on the feast of Corpus Christi the faithful went in procession to St. Paul's cathedral. Mustering in Cheapside, the procession moved toward the cathedral, the clergy chanting the "Our Father" as they passed along the street still called Paternoster row, reaching the "Amen" as they turned the corner known for short as Amen corner.—Ave Maria.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

With the trains of the Georgia railroad running on scheduled time, and the twelve days' strike now a matter of history, the actual task of arbitration begins. All passenger trains were run on the Georgia railroad Sunday and Sunday night—three each way. Many important shipments were delivered to the towns along the route.

The presence of diphtheria in New Orleans has resulted in the decision to close three of the public schools until the infection has been stamped out in these neighborhood. The city board of health announce that the three schools have been inspected, and show no infection, but it has been decided to close the mas a matter of precaution. A total of about 200 cases has been reported.

One man was shot to death in Houston, Texas, one committed suicide, another is believed to have been fatally wounded and in an affray at Huntsville, near Houston, one man was killed.

The dead bodies of M. A. Crosby, cashier of the Bank of Adel (Ga.) and his wife were found in their bedroom by their six-year-old son. The woman was lying on the floor with a 38-caliber revolver tightly clasped in her cold fingers and a bullet through her brain. Crosby was in the bed with the covers still drawn over him, and had met his death by a shot in the right eye. That sudden insanity on the part of the woman caused the tragedy is the only solution that intimate friends can offer.

Tom Tankersley, a simple-minded youth of 18 years, is locked up in the Fulton county jail, having confessed to participating in wrecking the Southern train near Cornelia, Ga., last week when two lives were lost. According to the boy's confession, he and two others are responsible for the wreck, and their motive was to rob the train.

Charley Tipton, a noted moonshiner of the north Georgia mountains, is dead. A coroner's jury has been unable to clear up the mystery of just when and by whom he was killed. Tipton was famous for his exploits as a moonshiner. He had been frequently arrested for illicit distilling. His body was found by accident by some children on top of the mountain.

The bank of Wesley, Ga., seven miles south of Swainsboro, was entered by burglars, the safe completely demolished and all the funds taken. A thousand dollars was secured. The sheriff and posse are on the scene, and have some clues. All trains are well guarded and every effort is being used to apprehend the yeggmen. The bank is protected by a burglary policy.

The dead bodies of Mr. and Mrs. T. O. Naftel of Woodlawn, a suburb of Birmingham, Ala., were found in the Woodlawn cemetery, a bullet through the woman's temple and one in the brain of the man. A pistol was found in the man's hand, and all indications point to his having killed his wife and then himself. The couple left the home of Mrs. Naftel's parents to go to a drug store. It is believed the husband induced his wife to go to the cemetery, where the double killing took place. The bodies were found by the sexton.

As a result of an investigation of the hookworm disease in the section around Pineville, Ky., it is announced that 1,750 cases have been discovered in Bell county alone in the last twenty-eight days. All cases discovered are under treatment.

Bulloch county, Georgia, had its first bank robbery when the Farmers State Bank, at Register, 10 miles from Statesboro, was entered by professions, who took away $900, leaving about fifty dollars in gold and silver. It is said there were three men implicated in the robbery.

General.

Mexican rebels warned officials of the Northwestern railroad not to attempt reconstructing the road and warning also has been issued that American railway men will be shot if found operating trains. This is the testimony of railway men before the senate committee in El Paso, Texas.

Six persons are dead as the result of a collision between an automobile and a car on the Dallas-Fort Worth interurban line, 14 miles east of Fort Worth, Texas. This is the most serious accident in some time.

Cleveland, Ohio, housewives have started a boycott against the so-called milk trust.

William A. Pfeffer, first and only Populist senator from Kansas and the founder of the Populist party, died at the home of his daughter at Grenola, Kans. He was born in Pennsylvania in 1831, and was a very prominent national character.

Capt. Acton Shronts of the Longmont high school football team, high school champions of America, died from a fractured skull while being tackled with the West Denver high school.

Rumors that an heir is expected in the English royal household have been published.

TAFT BROTHERS PRINCIPAL DONORS

THEY GAVE $150,000 TO THE PRE-CONVENTION FUND.

NOMINATION WAS COSTLY

McKinley Says He Does Not Know Exact Amount Spent.—Campaign Cost Five Times What Was Expected.

Washington.—The sum of $265,000, collected and spent in the campaign for President Taft's renomination through his Washington headquarters, was partly acounted for by Representative William B. McKinley of Illinois, the president's campaign manager, in testimony before the senate investigating committee.

Mr. McKinley said the "Taft Family," comprising Charles P. Taft, Henry W. Taft and Horace Taft, brothers of the president, gave $150,000. The campaign, he declared, had cost five times what was anticipated.

The other chief contributors to the Taft fund, with the respective amounts, as given by Mr. McKinley, were:

John Hays Hammond, $25,000; Andrew Carnegie, $25,000; E. T. Stotesbury, Philadelphia, $25,000; "Mr. Kelsey" and "Mr. Patton" of New York, described as "friends of the president," $12,000; Richard Kerens, St. Louis, ambassador to Austria-Hungary, $5,000; Senator W. Murray Crane, $5,000; Secretary Knox, $2,500; Attorney General Wickersham, $1,000; former Senator Nathan B. Scott, $1,000; A. C. James, $1,000.

Mr. McKinley could give no information as to the Taft funds raised in the different states. He declared he did not even know the names of men in charge of affairs in many states. The balance of the big fund, for which he had no records, had "dripped out in the different campaigns," he said. The contributions to the state campaigns by the Taft national headquarters were given as follows:

Mr. McKinley admitted freely that the Taft campaign committee had paid the expenses of delegates to the Chicago convention, a procedure that both he and Mr. McHarg said had been a "long-standing custom." Asked as to how many delegates had thus been provided for, he said he thought expenses had been paid "wherever a delegate could not afford to pay his own way."

BOSTON RED SOX WIN THREE

Bedient Beats Mathewson, Allowing But Three Hits.

Boston.—Overcoming the New York Nationals by a score of 2 to 1, the Boston pennant winners of the American League need but a single victory to attain the world's baseball championship of 1912. The world's series now stands: Boston, three games wone; New York, one, and one contest a tie.

More than 34,000 people, a record-breaking baseball crowd for Boston saw a pitching duel, in which Hugh Bedient, a youngster, sparkled as a new star in the baseball firmament. Three hits constituted the Giants' portion from Bedient's effective service.

helpless by the magic of his curves.

Totals for the five games:

Total paid atendance, 171,687.

Total receipts, $336,483.

National Commission's share, $33,646.30.

New York club's share $77,631.21.

Boston club's share, $77,631.21.

Players share, $147,572.28.

GIRL IS CORN CHAMPION

Miss Pauline May Grows Over 114 Bushels Per Acre.

Montgomery, Ala.—Miss Pauline May of Notasulga, Macon county, will probably be the 1912 champion woman corn grower. She filed a report with the state department of agriculture which certifies that she produced 114 bushels and 51 pounds of corn on one acre of land.

Miss Mya is a young girl, not above her teens. She values the corn at $1 per bushel. Its production cost 26 cents per bushel, according to her estimate, which leaves 74 cents a bushel profit. No other Macon county farmer's record equals this.

Radical Legislation Urged.

Beverly, Mass.—Radical legislation in favor of the American farmer and consumer as a means of solving the question of the high cost of living was urged by President Taft in a letter to the governors of all the states.

Fell Among Girls.

Fort Smith, Ark.—A balloon ascension given in connection with the opening of the first annual agricultural fair at Greenwood almost caused the death of John L. Green, aeronaut. The bag was not sufficiently inflated to allow the balloon to clear nearby buildings and Green crashed into a two-story structure occupied on the second floor by the telephone exchange. He fell through a skylight into the exchange room, causing a panic among the young women operators. He was not badly hurt.

Kills Wife and Self.

Waco, Tex.—Will Sawyer met his former wife on the principal street of the city and, after shooting her five times, reloaded and shot himself through the neck and head, severing the jugular vein.

Honor Dr. Knapp.

Montgomery.—The state department of education has set apart Wednesday, November 27, as a day to honor Dr. Seaman A. Knapp, who, during his lifetime, was identified with scientific agricultural department in the South.

PUMPKIN PIE TIME

(Copyright.)

BANNER YEAR FOR ALL CROPS

MOST CROPS SURPASS RECORD YIELDS.

BUMPER YIELD OF CORN

Oats, Barley, Rye, Hay and Potatoes Indicate Largest Yields on Record. Spring Wheat Breaks Record.

Washington.—With the garnering of the harvests of the country, predicted earlier in the season to be greater in most cases than ever known by this or any other nation, the department of agriculture continued its preliminary estimates of the production of these crops in the October report of the crop reporting board of its bureau of statistics.

On the planted area, 108,110,000 acres, it is estimated, from condition reports, that the total yield will be 3,016,000,000 bushels.

Spring Wheat—Indicated yield per acre, 17.2 bushels, compared with 9.4 bushels last year and 13.4 bushels, the average yield, 1906-10. On the planted area, 19,201,000 acres, it is preliminarily estimated the total final production will be 330,391,000 bushels.

All Wheat—Indicated yield per acre, 16 bushels, compared with 12.5 bushels last year, and 14.6 bushels, the average yield, 1906-10. On the planted area, 44,945,000 acres it is preliminarily estimated the total final production will be 720,333,000 bushels.

Oats—Indicated yield per acre, 37.4 bushels, compared with 24.4 bushels last year and 28.4 bushels, the average yield, 1906-10. On the planted area, 37,844,000 acres, it is preliminarily estimated the total final production will be 1,417,172,000 bushels.

Potatoes—Condition, 85.1 per cent of a normal, compared with 87.2 per cent. on September 1, 1912; 82.3 per cent in October last year and 76.2 per cent, the ten-year average for October. Indicated yield per acre, 108.8 bushels, compared with 80.9 bushels harvested last year and 96.8 bushels the average yield per acre, 1906-10. On the planted area, 3,689,000 acres, it is estimated, the total final production will be 401,000,000 bushels.

MORGAN REFUSED WAR LOAN

Remarkable Strength Shown in Stock Market.

New York.—In the course of an investigation for the reason for the remarkable strength displayed in the stock market in the declaration of war against Turkey by the Balkans, it was discovered that the Turkish government had made an appeal to American bankers for a loan of $50,000 for war purposes, and had been refused.

It is understood that the appeal was made directly to Morgan & Co.

The bankers offered to furnish the money on condition that peace be made with Italy and that the Balkan uprising be quieted at once. The matter is still under negotiation, and several banking houses in New York are willing to make the loan if Turkey will agree to do all in its power to bring about peace.

Twin Freaks Die.

Wilmington, N. C.—Millie and Christine, one of the greatest twin freaks of human anatomy, exhibited all over the world, once presented to Queen Victoria, and possessing apparently two separate and distinct beings with one body, died Wednesday at the old homestead in Columbus county, this state, where they were born in slavery and were subsequently educated and exploited in many countries, a puzzle to scientists and anatomists. They were born to negro parents and died within a few hours of one another, aged about 60 years.

Turks Driven Back.

Podgoritza, Montenegro.—The Montenegrin army opened war against Turkey Wednesday morning by attacking a strong Turkish position opposite Podgoritza. Prince Peter, the youngest son of King Nicholas, fired the first shot. This was the signal for firing all along the line, and an artillery duel ensued. Within twenty-one minutes five Turkish guns were silenced and the Turks retreated from their first position on Mount Planinitza. By noon the Turks had evacuated the mountain.

EXPRESS MESSENGER FIGHTS OFF BANDITS

SAFELY GUARDS VALUABLES FROM ATTACK OF FOUR MEN.

LAW OFFICERS ARE MISLED

Number of Holdups and Bank Robberies in Northern Oklahoma Cause Extra Precautions to Be Taken by the Authorities.

Fort Smith, Ark.—While a half-hundred heavily armed and mounted sheriffs, deputies, postal inspectors, railway detectives and special officers formed a cordon about a spot near Poteau, Okla., where they had been informed valuable loot, stolen from a Kansas City Southern passenger train, was hidden, and waited all night for the bandits to return for their spoils, four masked men raided northbound Kansas City Southern train between Hatfield and Potter in Polk county, this state, Merrill Burgett was badly beaten by the bandits, after he had shot one of their number as he clung to the outside of the coach. After a desperate battle the three remaining bandits fled empty-handed, and no trace of them has been found.

The holdup, the third in this section in a week, was the culmination of the most sensational in the history of the southwest. While Sheriff George Noble of Leore coffunty, Okla., and large posse led by six bloodhounds were pursuing a gang of bandits, who had held up and robbed a Rock Island passenger train, between Wister and Howe, Okla., the night before, Luther Reynolds, a white man, appeared at Sheriff Gilstrap's office at Stigler, Okla., and declared he was one of the men who held up the Kansas City Southern train at Poteau. He said the gang had planted several thousand dollars taken from the train, at a point near Poteau, and intended returning Thursday night for the loot.

This information caused Sheriff Noble to call off the man-hunt, and all available officers were rushed to this city, where under the cover of darkness last night they proceeded to the place where Reynolds said the bandits would meet. Reynolds also accompanied them and with the officers patiently awaited the arrival of his companions. Daylight came and the vigil was abandoned.

PAYS BIG INHERITANCE TAX

It Was Levied on the Estate of Late Col. John Jacob Astor.

Albany, N. Y.—A check for $3,150,000 was received by State Comptroller Sohmer in payment of the advanced inheritance tax on the estate of the late Col. John Jacob Astor, who perished in the Titanic.

The temporary tax was paid at this time in order to obtain a 5 per cent rebate allowed by law if the tax is paid within six months after the death of the decedent. This rebate is equivalent to $155,000. The temporary tax represents an estate valued at about $75,000,000, although the final tax will not be fixed until after the estate has been appraised.

The payment is the largest inheritance tax paid on a single estate since the enactment of the law twenty-seven years ago, and is nearly one-third as large as the entire tax collected during the fiscal year ending September 30.

Want Data From Banks.

Washington.—The question whether President Taft has the power, through the comptroller of the currency, to call upon national banks for information to aid the house "money trust" committee in its investigation has been referred to Attorney General Wickersham for an opinion. Samuel Untermeyer, of counsel for the committee, recently asked the president to procure a mass of data from the banks. Mr. Taft was undecided as to his power under the law to have national banks reveal their loans and other transactions.

New $10 Counterfeit.

Washington.—Chief Wilkie of the secret service announces the discovery of a new counterfeit $10 national bank note. It is an imitation of the note of the Mesa County National Bank of Junction, Colo., and bears the portrait of Washington.

Steamer Dover Abandoned.

Jacksonville, Fla.—The American steamer Dover, which went on the beach while attempting to make St. John's Bar, has been abandoned.

ALABAMA BREVITIES.

Eufaula.—As the result of a walkout of the carpenters working at the new postoffice building, which has been in the course of construction for the past several months, work at the building has been at a standstill for the past week. Although it was thought that the building would be turned over to the local postoffice force on November 1, it was stated that the new government building would not be ready now for occupancy until the middle of December.

Anniston.—When the circuit court for Calhoun county convenes at the Calhoun county courthouse on November 4, Judge Hugh D. Merrill will face the ordeal of reviewing forty-five cases appealed from the police court of Anniston.

Montgomery.—Game that made Alabama a paradise for huntsmen in the days of the aborigines, still exists. Deer in fifty counties, bear in sufficient numbers to make them worth while, wild turkeys and every other game bird—all are to be found in Alabama, and to be found in numbers, increasing year by year. So writes John H. Wallace, Jr., state game and fish commissioner, in an article prepared for Field and Stream, a magazine for sportsmen.

Montgomery.—After being hunted forty years on a charge of murdering John A. Berry, a white man near Jackson's Lake, December 18, 1871, Freeman Long, a negro, was arrested at Palmetto, Georgia, and brought to Montgomery by J. G. Jackson, Sheriff of Elmore County, where he must stand trial for the crime with which he is charged.

Birmingham.—Cullman County's agricultural exhibit at the State fair in Birmingham was awarded the prize, $800, with Montgomery County second, $500; Baldwin County, third, $300; Madison County fourth, $150, and Marion County fifth, $100.

Dothan.—Judge Thomas G. Jones, Jones, of the Federal District Court, will hold a session of the court here beginning November 8, at which time the criminal docket will be taken up. The civil docket will come up November 27. An order was issued to the Federal Marshal to draw a venire for the grand jury, which will be organized the first day of the court's sitting.

Montgomery.—The Federal Circuit Court of Appeals for the fifth circuit will meet here October 21, and the judges will sit until a length docket is disposed of. Owing to repairs being made at the county court house, only one court room is available. The city civil court will be in session there during the latter part of the month.

Selma.—While running lights into the store of T. H. Test, on East Water street, Henry Sharp, of this city, employed by the electric light company, was electrocuted by coming in contact with a live wire. Death was instantaneous. Sharp was on top of a pole about 30 feet high when the accident happened.

Birmingham.—The annual convention of the Southern Ice exchange will be held here November 12, 13 and 14 of this year and hundreds of ice men from the south are expected to attend. Many interesting speeches will be made at the convention by southern men, among them being W. J. Rushton, John Sparrow and William Diehl of Birmingham. The local ice men are laying elaborate plans for the entertainment of the delegates and have already arranged for the old time barbecue, a theatre party a banquet, an automobile trip and an industrial excursion and sight seeing trip throughout the city.

Montgomery—Use of the Alabama river in transporting lumber and cotton this year would partly solve the car shortage problem in Alabama, according to G. O. Willis of the United States engineers' office. He believes the river can be used almost the whole year if the boats draw three feet of water. Heretofore steamers have been loaded to a four or five foot stage and have been unable to pass certain points in the river, according to the engineer. Mr. Willis thinks that much of the railroad congestion can be relieved if boats between Wetumpka and Mobile are placed on the river.

Cullman.—The appointment of Robert B. Thompson to the postmastership of Cullman has been practically confirmed in the fact that Mr. Thompson has been requested to furnish the postoffice department with his official bond.

Montgomery.—The discovery of America was not officially recognized in Montgomery, October 12, although the last legislature made Columbus Day a legal holiday. Only 10 stores observed Columbus Day as a legal holiday.

Gadsden.—The county commissioners named R. H. Lister, son of Tom Lister, ex-Etowah's representative at the medical department of the University of Alabama. He will receive the scholarship allotted to this county.

Mobile.—The school commission resolved to request the city commission to submit to the people of Mobile a bond issue of probably $300,000 to erect two new school buildings, one to replace Barton academy, the present high school, and one to supplant the Spanish building.

BLOODY BATTLE IN PENITENTIA

TWO MUTINEERS SLAIN, AND EIGHT CITIZENS DEAD.

TROOPS ARE CALLED F

Fierce Battle Within Prison Between the Guards and Prisoners. Over Twenty Convicts Get Away and Start a Riot in Town.

Rawlins, Wyo.—A battle raged the state penitentiary. Locked the walls with hundreds of mutinous prisoners, a few guards fought desperately to restore order and prevent wholesale jail delivery.

Camped outside the walls was a of citizens heavily armed, ready to back the convicts if they murdered remaining guards and made a through the gates. Shouts and sional shots told of desperate fight within the walls.

Another battle was in progress at same time in the hills south of lins, between a posse of citizens from twenty to forty escaped prisoners. Two men were killed in the streets Rawlins, one was desperately wounded and two convicts were recaptured, lowing the escape of from ten to prisoners.

Frantic telegrams were sent to Carey, imploring him to send troops to protect the citizens. people barricaded themselves in homes or heavily armed patrolled streets.

The outbreak was the second twenty-four hours. Twenty prisoners escaped and nine were recaptured. party of desperate life-termers overpowered the keeper of the cellhouse, his keys and released their comin their cells. Every prisoner to risk a battle with the guards a rush for the gates.

A moment later the citizens of town heard a fusillade of shots the walls. A bedlam of shouts and echoed from the prison. A few later more than a dozen men down the main street armed with and knives. Holding the few citizens the street at bay with revolvers, charged into a livery barn, holding the proprietor and hastily throwing dles and bridles on the horses.

A huge negro with a revolver was as guard on the outside. Charles Stner had heard the commotion and down the street with a shotgun. negro shot him through the head, ling him instantly.

At the sound of the shot the swarmed from the barn, some with en horses and some afoot. A Mexwantonly stabbed the proprietor in face, severely wounding him, and a seconds later paid for the deed with life. Hugh Rogner, a deputy shot him twice, killing him almost stantly.

Leaving their dying comrade, the victs made a dash for the rocky south of the town. A party of tiary guards followed in close and before the bewildered citizens time to form a posse, pursuers and tives had disappeared among the hills.

PREDICT BIG GRAIN EXPO

Spring Wheat Will Not Be Put on gain Counter.

Chicago.—The enormous clearances breadstuffs from the United States week show that this country and Can are again in the running as exporters and that they will make a big show during the present crop year. According to advices received at Chicago today, Canada will offer increased quantities of wheat, and the movement of that country probably will exceed former periods.

The spring wheat crop in the United States is not likely to be placed on gain counters, as the general belief our own Northwest is that a bumper crop is generally followed by small yields. Those people who have sold wheat over from year to year have been the ones to clean up the money at the end of the crop.

Three Miles in a Day.

La Crosse, Wis.—Three miles of the way leading into Clintonville, Wis., to the west, were built in one day by organization of public spirited citizens all walks of life. Some furnished money others contributed materials, while others threw off their coats and did the work.

Rebels Rob and Kidnap.

El Paso, Tex.—Rebels late today held up a passenger train 150 miles south this point, on the border, rifled the Cameron, a wealthy stock broker of Paso. The train was allowed to go south. Cameron was on his way to chase cattle to be imported into the United States. It is believed he is held for ransom or to prevent further shipments from the districts held by rebels. A Mexican passenger also held by the rebels, who molested no ers, according to the report.

Would Stop Profanity.

Columbus, O.—Over 7,000 Catholic men, members of the Holy Name Society paraded in silence and without music any kind through the principal streets as a protest against profanity. The only sound accompanying the tramping feet was the chimes of Trinity Episcopal church which played in honor of the Catholics.

Arrived at St. Joseph's Cathedral marchers knelt on the lawn and the street and pronounced after Bishop Kelley, of this diocese, a renewal of their baptismal vow against the sin of profanity.

GERSTLE MEDICINE CO., Chattanooga, Tenn.

WHY NOT MAKE $200.00 A MONTH - - That's $50.00 a Week, almost $10.00 a Day

Selling Victor Safes and fire-proof boxes to merchants, doctors, lawyers, dentists and well-to-do farmers, all of whom realize the need of a safe, but do not know how easy it is to own one. Salesmen declare our proposition one of the best, clean-cut money-making opportunities ever received. Without previous experience YOU can duplicate the success of others. Our handsomely illustrated 200-page catalog will enable you to present the subject to customers in as interesting a manner as though you were piloting them through our factory. Men appointed as salesmen receive advice and instructions for selling safes, giving convincing talking points which it is impossible for a prospective customer to deny. Why don't YOU be the first to apply from your vicinity before someone else gets the territory? We can favor only one salesman out of each locality.

The 25th anniversary of our company was celebrated by erecting the most modern safe factory in the world. Wide-awake men who received our special selling inducement, rendered it necessary to double our output. We are spending many thousands of dollars enlarging our sales organization, but to learn all particulars, it will cost you only the price of a postal card.

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germs and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as represented.

STRATEGY OF A BUSHMAN

How a Litle Native of South Africa Put a Fierce Lion to Flight.

The little bushman of South Africa is not only small in size, but feeble in mind. Yet there is on record an encounter between a bushman and a lion which shows the man as cool in danger and fertile in resource, Harper's Weekly says. This bushman, while a long way from home, was met by a lion. The animal, assured that he had his victim completely in his power, began to sport and dally with him with a feline jocosity which the poor little bushman failed to appreciate. The lion would appear at a point in the road and leap back again into the jungle, to reappear a little further on.

The bushman, however, did not lose his presence of mind and presently hit upon a device whereby he might outwit his foe. This plan was suggested by the lion's own conduct. Aware that the beast was ahead of him, the bushman dodged to the right and feeling pretty sure of the lion's whereabouts resorted to the course of quietly watching his movements.

When the lion discovered that the man had suddenly disappeared from the path he was a good deal perplexed. He roared with mortification. Then he espied the bushman peeping at him over the grass.

The bushman at once changed his position, while the lion stood irresolute in the path, following with his eye the shifting black man. In another moment the little man rustled the reds, vanished and showed himself at another point. The great brute was first confused and then alarmed. It evidently began to dawn upon him that he had mistaken the position of matters and that he was the hunted party. The bushman, who clearly recognized the situation, did not pause to permit the lion to recover his startled wits. He began to steal gradually toward the foe, who now, in a complete state of doubt and fear, turned tail and decamped, leaving the plucky and ingenious little bushman master of the situation.

ANCIENT RELICS ARE FOUND

Pieces of Pottery Unearthed in Jerusalem Appear to Date From 3000 B. C.

Some interesting archaeological discoveries have been made recently by a French party engaged in extensive excavations at Jerusalem, on the southeastern slope of the temple hill—the Ophel of Scripture. A number of very early tombs containing pottery were discovered, but only a few of the graves were sufficiently well preserved to enable their exact age to be determined.

Judging from the fragments of pottery and other objects which were found they appear to date from about 3000 B. C.—2000. Some of the fragments resemble the class of ware discovered by Schliemann at Hissarlik, in Troy, and other places in Asia Minor, while some show traces of archaic Greek influence.

There were also found some broken figures of Ashtaroth, the Canaanitish form of the Babylonian goddess Ishtar, but no inscriptions either in Babylonian or Phoenician were brought to light.

When Every Sailor Wore a Queue.

The sailors' broad collars were devised so that the powder or tar on the wearer's queues should not come off on the blouse. In the old days every sailor wore his hair in a queue and either had the queue powdered or held together by tar. This was not good for the blouse or jacket underneath. So detachable broad collars were added. Sailors stopped wearing queues a century ago. But they still wear the wide collar. When Lord Nelson died the British navy went into mourning for him. Sailors put broad black ribbons on their caps and black ribbons on their blouses. And the ribbons remain to this day, not only on the uniforms of British sailors, but on those of other navies as well. The broad "bell shaped" ends of sailors' trouser legs were thus shaped so that the wearer might more easily turn his trousers up above his knees when he had to swab the decks. Deck swabbing was a hateful and supposedly degrading task. Hence the sailors called their enemies "swabs" as a term of contempt.

Camping Gear.

Personal likes and prejudices have much to do with the form of tent chosen. My own preference is for either the A or wedge tent, with the Hudson's Bay model as second choice, for general utility. Either of these is particularly adapted also to winter travel where the tent must often be pitched upon the snow. If, however, the tent is only to be used in summer, and particularly in canoe travel where a light, easily erected model is desired, the Fraser tent is held ideal for comfort and is an exceedingly lightweight model for portaging.—Outing.

Rotating the Otter Way.

At the tender age of three, mother-like conceit had gripped that small boy with a relentless clutch. He had heard a little girl of three and one was ruining her disposition.

"Let's pretend we're married and we have children, and I'm the mother and you're the father of them."

"Then I'll be the father and you be the mother," said the boy, with a sigh of relief. "Just call me 'father' and I'll call you 'mother.'"

Conflicting Statements And The Facts

Milton H. Smith Answers B. B. Comer

Ex-Gov. Comer, in an address at Greenville, Ala., on August 30th, with characteristic mendacity asserted that the present capital stock of the Louisville & Nashville Railroad Company amounting to $60,000,000 "more than half of which is pure water" and asserted that the actual value is $30,000,000. He did this, although at hearing before him as President of the Railroad Commission of Alabama in 1905, when he made a similar charge, it was explained to his then apparent satisfaction that there was no water in the capital stock of the L. & N. R. R. Co. During the existence of the company it has many times needed additional capital, and the stockholders have caused the net earnings to be applied to furnishing such capital by foregoing dividends, for which they were in part reimbursed by an issue of stock. Instead of selling stock to the public at par, which could not have been done, the stockholders took stock at par in lieu of dividends.

In the same address he, with characteristic stupidity, denounced the management of the Louisville & Nashville Railroad Company for devoting a part of its net earnings to paying for betterments and additions to its property—creating needed additional facilities—instead of paying the entire net earnings to the stockholders. Although, according to his own allegations, the management has appropriated from net earnings amounts many times greater than the amount of the stock dividend declared many years ago, he yet affirms that one-half the present capital stock is water. An impossible man. A disordered mind. He will not be placated.

USING WATER TO COOL FOOD

Temperature May Be Lowered Appreciably by Arrangement Simple in the Extreme.

There are many ways of lowering temperature by utilizing the fact that water when evaporating draws off heat from surrounding objects. If a pitcher of water be wrapped with a cloth which is kept saturated and exposed to a draft of air the temperature of the water in the pitcher will be lowered by several degrees.

A receptacle in which food is placed may be cooled in the same way. Take a wooden box with a movable bottom made of easy pieces and covered. Take a layer of cotton batting over the sides and cover with some coarse cloth. It is now to be kept wet by some contrivance that will furnish an automatic drip.

The writer used for this purpose an old [illegible] which [illegible] a tiny [illegible] which [illegible] enough water.

TAX NOTICE

ASSESSOR'S AND COLLECTOR'S FIRST AND ONLY ROUND.

We will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County, Alabama, for the year 1912, and Assessing the Taxes for the year 1913.

Hours 8 a.m. to 4 p.m. except where otherwise specified.

L. B. POUNDS, Tax Assessor.

Pleasure in Simple Life.

"Wherever life is simple and sane true pleasure accompanies it as fragrance does uncultivated flowers."

Woman Finally Recovers From Nervous Breakdown

Impoverished nerves destroy many people before their time. Often before a sufferer realizes what the trouble is, he is on the verge of a complete nervous breakdown. It is of the utmost importance to keep your nervous system in good condition, as the nerves are the source of all bodily power. Mrs. Anna Kounz, 231 Mechanic St., Pueblo, Colo., says:

"For many years I suffered from nervous prostration; I was unable to do any house work and doctors failed to help me. Remedies I tried from druggists did not do me a particle of good. A neighbor told my husband about

Dr. Miles' Nervine

and he procured a bottle. After the first few doses I showed a marked improvement and after taking two bottles I was entirely cured. I have been perfectly well for years and cannot praise Dr. Miles' Nervine too highly."

If you are troubled with loss of appetite, poor digestion, weakness, inability to sleep; if you are in a general run down condition and unable to bear your part of the daily grind of life, you need something to strengthen your nerves. You may not realize what is the matter with you, but that is no reason why you should delay treatment.

Dr. Miles' Nervine

has probably more value in nervous disorders for thirty years, and many a trial so matter how many other remedies have failed to help you. Dr. Miles' Nervine is sold by [illegible] druggists under [illegible] money back if first bottle does not benefit. Consult [illegible] about your health free.

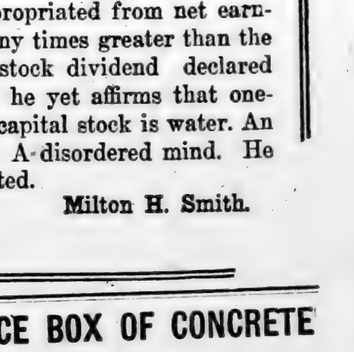
ICE BOX OF CONCRETE

ADVANTAGES IN THE USE OF THAT MATERIAL.

Especially Valuable on the Farm and Comparatively Cheap to Construct—Some Good Points Noted in Its Favor.

Many farmers are using concrete for the making of walks, fence posts and stock tanks, but this article describes a new use for this valuable material—the construction of refrigerators from concrete mixture.

In building this refrigerator forms of dressed plank are used. Make the joints of the forms as tight as possible so as to leave a smooth surface on the finished work. Make the forms of the size you require your refrigerator, but



Interior Arrangement.

the wall should never be less than three inches thick. For doors, a frame 2x4 set and imbedded in the concrete walls, with a tight fitting door of plank, three double, jams with a facing of felt or rubber, forms almost an air-tight box.

A wood partition separates the ice-box from the storage closet. Through this wall is an oval opening 1x2 feet. Through this the cold air passes, while the water from the melting ice never reaches the storage closet but is drawn through an open tap through the bottom of the ice box.

One thing in favor of this refrigerator is the ice box on the floor. No lifting is required to put in heavy cakes of ice as is the case when the ice-box is in the top of the refrigerator.

The smooth, concrete walls are easy to keep clean, and do not absorb odors like wood, nor rust out like tin.

About one-half the ice will be saved with these refrigerators, and

The Complete Box.

water from dampness does not form and drop on contents, as with other kinds. Safe rollers or large casters can be molded into the floor of the refrigerator, making the moving of the box much easier.

When forming the wall, provision should be molded in where shelving is wanted. The interior should be coated with a pure cement mixture and worked to a fine surface.

Shelving can be placed to suit the builder, but should not cover the cold air opening.

Concrete refrigerators can cost cheaper than the factory kind and give better service when properly

WEST CHILTON.

There will be an all-day singing at the Waldrop school house next Sunday, the 20th inst. Several leaders are expected. Books used will be Harp and Harmony. All are invited. Bring your books and don't forget your dinner. We are not sure about a public free dinner, but all singers will be provided for. So bring your dinner and spend the day with us.

As per announcement in the Union-Banner, Mr. Cole of New York lectured here on the 8th and 9th. Attendance was good. People gave marked attention. Oh, what a feast of good things the ministers of this country missed by not hearing him. One aged man remarked he never had heard it equalled, and wished his pastor could have heard it. The first lecture was on "That Day"—the day of judgment, portraying some of the work and blessings of that day. Also showing it was not just a day of twenty-four hours, but a long period of time in which all, both living and dead would be reached. Next was on the "High Calling," showing how the Christian progressed from step to step until he reached the mark of perfect love—love for enemies; then how he must fight to hold that mark, until his test was enough; then having fought the good fight of faith he was ready to be delivered. His last lecture was on the "End of the World," or end of the present dispensation, showing that the world would end, but the earth would remain. He then left for Selma, Montgomery, Mobile and other points south. He is a lovely young man and endeared himself to the people.

Mr. Jackson's letter last week was fine. It is worthy of consideration. He is a former Chiltonian and knows how Chilton people live, and is prepared to tell the farmers what to do in order to secure what might be theirs in the way of good prices for their products. So let us wake up and get in touch with the consumer. Success to woman suffrage.

READER.

ROOSEVELT'S ACHIEVEMENTS.

What Theodore Roosevelt accomplished as President was summarized as follows, by Munsey's: Dolliver-Hepburn railroad act. Extension of forest reserve. National irrigation act. Improvement of waterways and reservation of water power sites. Employers' liability bill. Safety appliance act. Regulation of railroad employes' hours of labor. Establishment of department of commerce and labor. Pure food and drugs act. Federal meat inspection. Navy doubled in tonnage and greatly increased in efficiency. Battleship fleet sent around the world. State militia brought in co-ordination with army. Canal zone acquired and work of excavation pushed with increased energy. Development of civil self-government in insular possessions. Second intervention in Cuba; Cuba restored to the Cubans. Finances of Santo Domingo straightened out. Alaska boundary dispute settled. Reorganization of the consular service. Settlement of the coal strike of 1902. The government upheld in Northern Securities decision. Conviction of postoffice grafters and public land thieves. Directed investigation of the sugar trust customs frauds, and the resultant prosecutions. Suits begun against the Standard Oil and Tobacco companies and other corporations for violation of the Sherman anti-trust act. Keeping the door of China open to American commerce. Bringing about the settlement of the Russo-Japanese war by the treaty of Portsmouth. Avoiding the pitfalls created by Pacific coast prejudice against Japanese immigration. Negotiating twenty-four treaties of general arbitration. Reduction of the interest-bearing debt by more than $90,000,000. Inauguration of movement for conservation of natural resources. Inauguration of the annual conference of governors of states. Inauguration of movement for improvement of country life.

Man's Face.

Parisians are concerned about the question of wearing mustaches and beards, the tendency being to part with these long-honored ornaments with her powder rag.—Chicago Record-Herald.

Woman's Faith.

A woman ought at least to have as much faith in her husband as she has in her powder rag.—Chicago Record-Herald.

THE OLD CALHOUNISM AND THE NEW.

Calhoun defined and developed the doctrine of states' rights for a direct and specific purpose. He sought to reinforce the position of the slave states. He sought to stay the movement for abolition. He made a weapon to be used as a defense against the increasing agitation in the north for the destruction of the institution of negro slavery. It was in the interest of the slave states to support that doctrine, to advocate it first with eloquence and votes and then with powder and ball.

Going into the dustheap of history, Prof. Wilson has dragged forth this old doctrine of states' rights and breathed the breath of life into it. As in pre-bellum days, states' rights fit into some one's interest. It is again a weapon for some one's hands. Whose?

This thing of federal encroachment, which distresses the Democratic leaders so dreadfully, does not worry the common people in the least. They see no harm in it. But politicians foresee a vast amount of harm in it for them. They see that as business is conducted more and more upon a broad national plane that their jobs are rendered useless, and therefore insecure. They see that centralization of government tends to weaken the state political plants. They are troubled in their souls lest the people will come shortly to wonder, as they naturally would, why there should be duplication of governmental functions, why there should be so many conflicting laws, why the tradition of state unity and state jealousy should be needlessly maintained.

The people of the South fought for the protection of the property and the privilege of the slaveholding classes. The people are asked now to go to the polls and vote for the protection of the jobholding class.—Toledo Blade.

KNAPP AGRICULTURAL DAY.

Department of Education, Montgomery, Oct. 10, 1912.

To Alabama School Teachers:

The teaching of scientific agriculture has become popular because agriculture throughout Alabama, and, in fact, throughout the South, is now profitable. Teachers and pupils are now connecting, as never before, school room work with home life and home surroundings.

The man who did more than anyone else for scientific agriculture in the South, the man whose work led to farm demonstrations, boys' corn clubs and girls' canning clubs, the man who taught our people that farming is really profitable was Dr. Seaman A. Knapp, who spent the last twenty-five years of his life in the South.

Since Dr. Knapp's death last year the people of the South have determined not only to perpetuate his work through a further development of all forms of scientific agriculture and kindred pursuits, but there has taken shape a determination to perpetuate his memory through the establishment of a memorial school of agriculture to be located near Nashville, Tenn. As a part of this school there will be small farms, model in every sense of the word. Practical agriculture will be taught and model farms maintained. It is designed that this school shall be the Mecca to which shall go all those who would spend a short while in seeing for themselves the highest development of agricultural life. From this school it is expected that inspiration will flow to the uttermost parts of our common country, making better with each passing year conditions on the farm, increasing the yield of all our crops and teaching our people to know for themselves that life in the country is not only ideal but profitable as well.

On the twenty-seventh day of November schools in most of the Southern States will set apart some time to the observance of what will be known as Knapp Agricultural Day. A committee at Washington, in charge of this celebration, is preparing suitable programs for all schools which may desire to honor themselves by paying this trbute to the man who has done the most for agriculture in the South. On that day every school child ought to be encouraged to contribute a dime to the building of that great agricultural school and farm. Every person in the State who appreciates the remarkable advances made during recent years in the science of agriculture should take pleasure in adding his contribution to that of the school children so that we shall all feel a proper interest through part ownership in that important institution which is to be erected and endowed as a memorial to Dr. Knapp. Already the sum of $250,000 has been donated by the General Education Board of New York for this purpose. The committee has undertaken to raise $150,000 more for the building and farm.

All contributions should be sent to the Bank of Auburn, Auburn, Ala., which has consented to act as treasurer and receive donations from Alabama. I sincerely hope that every school in the State through its teachers will call to the attention of the school children this most worthy cause and let them realize the benefit which will come to them, each one for himself, of contributing a few cents so that he may feel that he is indeed a part owner in this most worthy enterprise.

Very truly yours,
HENRY J. WILLINGHAM,
Superintendent of Education.

HUMAN HAIR ROOT

Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as represented.

PRICE 50c AND $1.00 AT ALL DRUGGISTS

If your druggist does not keep it send 50c. in stamps and we will send you a large bottle, express prepaid.

WYETH CHEMICAL COMPANY, 74 CORTLANDT STREET, NEW YORK

FREE A 25c Cake of Wyeth's Sage and Sulphur Toilet Soap Free to anyone who will send us this advertisement with 10c in stamps to cover cost of wrapping and mailing the soap.

VOL. 1 THE UNION 10th Year CLANTON, ALABAMA, THURSDAY OCTOBER 24, 1912 THE BANNER 20th

GOOD ROADS AND A BOND ISSUE.

The importance of having good roads connecting all of the farms with their desired market and with their schools and churches is granted by all who have studied the conditions of rural life. It can be readily proven that every dollar wisely spent in the construction and maintenance of a system of roads which will make hauling over them easy and sure, will return many dollars to the community acquiring them.

But in the enthusiasm engendered by the desire for the roads, or perhaps largely by the efforts of politicians to make capital out of the popular need, or by certain sets of people who wish roads built in their own interests, there is danger of much unwisdom in the methods used to secure the desired end.

To settle on absolutely the best method is a big problem, and this paper does not claim to be able to offer the solution off hand. But there are features about the question to which it would ask the consideration of the voters of the county, believing that they have a direct bearing on the county campaign now on.

In the first place it is of grave importance that any system settled on should be in the interest of all parts of the county without discrimination or favoritism. It is not intended that the money and labor of the farmers of the county should be used to build up any one town, even though that be the county seat, and it is well to select men who are not controlled by any ring or selfish set, and can be trusted to give every part of the county a fair deal.

Then there is the question of a bond issue for building good roads, which means that a heavy debt would be settled on the county, a large sum of money to be expended by the ring which hopes to keep control of the county. From their utterances in the past we feel justified in claiming that the democratic party in the county, in case of their success, looks forward to pushing this measure on the people, and a vote for them is practically a vote for the bond issue. They are keeping very quiet about it just now. In fact they are keeping very quiet about any and all local issues, trying to confuse the people by a silly noise about old issues that have no bearing upon the campaign, either county, state or national.

But the people of the county know better than to trust them; they know the great need of a party in the state and county which is not controlled by any ring and which has the interest of all the people at heart, the large mass of working people as well as the smaller crowd of capitalists and politicians who are fighting for continued rule.

The accomplishment of this proposed bond issue would strengthen greatly their hold on the revenues of the county and you may be sure they would take full advantage of it., So, if you wish to be saddled with a bond issue which will increase your taxes and which will by no means give you a permanent and all embracing system of roads, why vote in the democrats.

If you wish to further fill the pockets of the politicians and their hungry followers who will make grabs at the big money piled up by the bond issue, just vote the democrats in.

The men who would handle the money and the methods of disbursing we may expect, constitute a present and urgent reason for voting it down right now and building up a party that can be trusted to act for all the people impartially and economically.

There are other reasons against the issue of county bonds, even if we are assured of their being expended as fairly and impartially as could possibly be done.

The burden of debt would fall on all land and property alike; yet it would be impossible with any proposed issue to do more than affect up certain portions of the county, which would lead to unending jealousy and confusion, and with good reason.

The initial work of building a road is but a small part of the work maintenance most go on throughout the years calling for a continued expenditure of money and labor long after the bond issue has been value and paid for by the people. The interest on bonds calls for continuous yearly expenditure of the people's money. An expenditure which if wisely used in each precinct, supplemented by work of the people interested, would put roads in decent shape, where they were wanted, and no incubus of bonds hanging on the tax payers.

We have paid some little attention to the road question and can point to counties where a bond issue has ended in disaster, and other counties which have a splendid system of roads worked by the county without bonds and with no appreciable increase in taxation. We will take this subject up later; what we want to show is that if you want the bond issue forced upon you, just vote the democrats in.

Elect Wilson president means cheap cotton, corn and wheat, low wages and less work. Lower tariff on woolen goods; means cheap cotton. If the farmers are getting too much for what they are raising, support the democratic ticket, if not and you want prices to continue, support the Progressive ticket.

A tariff will mean cheap meat, cheap hogs, cheap beef and cheap Farmer, stop and think before you cast your vote for the destruction of the above articles. Think who raises them and who is getting the benefit of the high prices, that the Democrats want to reduce?

The democrats say they are for tariff for revenue only, you can not depend on a democrat being for revenue, when it is coming in.

Who is furnishing the county water now, and how much is he getting for it? Why has the order of the commissioners, for the Circuit Judge to fix the water works of the County, been neglected? Is it because they have no money to do anything with, or because they want to help some one with the county money? What man who is getting the money for furnishing the water for the present campaign?. Didn't he take an active part and contribute

Hasn't the managers for the elections held this year and the school enumeration got pay for their work? Is it possible the county cannot pay their debts? When has it been this way?

THE MEASURES NOT THE MAN.

Mr. Bryan was eminently right when he said that the shooting of Mr. Roosevelt should not be allowed in any way to affect the principles for which the parties are fighting in the campaign. It was a courteous and gentlemanly action of Mr. Wilson in withdrawing from active participation in the campaign, as far as possible, while his chief, and we might say only, opponent of equal rank was disabled.

But Col. Roosevelt is not the Progressive party and nothing that could happen to him will stop the demands of the people of the nation for a party that offers a way out of the political and social quagmire the old parties are floundering in. Mr. Roosevelt is a leader, an able and trustworthy leader of a large group of thinking men of whole hearted integrity who have been forced into revolt against a continuance of conditions which do not afford justice to all alike; conditions which if continued would tie up the country into the hands of the few; conditions which would go far toward justifying the extravagant demands of the socialists and add fury to the wild brained anarchist.

We are satisfied with Roosevelt as a leader and merely as a leader. Whatever may happen to him, the new people's party will not lack in leaders as it does not lack in an immense following of thinking people who demand reforms and an administration based upon the present day needs of the people. And whether successful in this national campaign or not, the party born of such conditions is an established and powerful fact, it will continue fighting for the interest of the people of the country until the government is run entirely on the square, with equal rights assured to all.

This party is bound to be the American party. The nation must look to it for the cure of many evils. It is not a question of the personality of a leader but the principles affecting the national welfare.

CAUSE AND EFFECT OF THE ATTEMPT TO ASSASSINATE COLONEL ROOSEVELT.

The dastardly attempt of the deluded thug to assassinate Colonel Roosevelt is but the natural outcome of the way certain forces and parties are conducting their fight on the Roosevelt candidacy. The Republican party, along with the others who oppose Roosevelt, realizing from the beginning that their cause was hopeless, and that the masses of the people, once they understood him, would flock to Roosevelt in irresistible numbers, have descended to the low and dirty tactics of abuse, misrepresentation and vituperation. The Republican party has been using former Congressman Bede and one Harlan as "trailers" to follow Roosevelt in this campaign with instructions to exhaust the powers of slander in their efforts to counteract the effect of Roosevelt's appeals to the people.

But the Republican party is not alone in the nefarious work. The Democratic party is just as active along these lines as its co-partner in sin, the Republican party. Thus the American people are regaled with the unholy alliance of the Republican and Democratic parties, each bent upon the defeat of Roosevelt and the thwarting of the people's will. These allied forces have held Roosevelt up to the people as a man whose selfish ambitions know no bounds and who is seeking to become an absolute monarch; they have charged him with being the tool of the trusts and predatory wealth, each and all of which they know to be unfounded in fact and untrue.

The Democratic papers, if possible, have been worse in their slanderous attacks on Roosevelt, than have the Republicans. What wonder then can there be that such unbalanced characters as Schrank are influenced to attempt an assassination of Colonel Roosevelt?

Is it not plain to the thinking person that the Democratic and Republican parties by reason of their vicious methods of attack, are directly responsible for the bullet being fired into Roosevelt's breast. And yet they howl with feigned horror at the dastardly deed, which they themselves have caused.

The Clanton Press in its last issue, contained a squib of a few lines, deprecating the shooting of Colonel Roosevelt, while in the same issue it carried a three column article, plagiarized from an Atlanta paper, denouncing him in bitterest terms.

But the people are wise to the situation. There is an old adage, "Chickens will come home to roost," and the cruel canards of political warfare which have been hurled against Roosevelt will turn upon their authors and destroy them, leaving Roosevelt safe and sure in the confidence of the people. The bullet of the assassin intended though it was to put out the life of the world's greatest statesman today, will have a far greater effect on the campaign than may have been thought at first. If there was a doubt as to his success, Roosevelt's election has become certain since his attempted assassination. No doubt there exist many persons who under democratic and republican influences have doubted the Colonel's sincerity; that doubt has now been swept away by Roosevelt's Spartan courage and the words which fell from his lips while his life blood was flowing. Hear him as the surgeons advised that he do not speak: "I want the people to have all there is in me; this may be my last message to them and I must speak."

No man ever rose to purer, nobler heights than did Theodore Roosevelt on this occasion and it makes his election [illegible] a certainty.

"When all is said in action."—Chicago Herald.

That is a good summing up of the whole of the day. Chicago Press: "All elections [illegible] paying their poll tax [illegible] and supporting [illegible] ticket [illegible] south [illegible] south [illegible] to all. [illegible] the new party [illegible] the shame of the Progressive party.

It is right amusing to see the letter in the Clanton Press last week signed by that good Republican who ran on the so called "True Republican ticket" 4 years ago, and didn't even vote for himself, but supported the Democratic ticket. He did not even receive a single vote at his home box. However, he is one of the true blues as he calls himself. Where was he two years ago? He said in a convention that he was a democrat. Do the Democrats of this County have to stoop to such tactics as this to carry their point. Why don't they come out in the open and fight their own battles? Are they afraid to face the issues alone? And have to secure outside help? It certainly seems so in this fight.

The people are wondering how many debts have been kept back until after the election. How much money does the county owe the officials, and why haven't they been collecting it as it came due? Mr. Democrat answer please.

The people had better watch every point from now until after the election as the democrats have nothing to fight on and at the last minute may do, as they did two years ago, mislead the people. If they have any circulars to issue why don't they do it now? So the people can hear both sides of the question before the election. We warn the people to be careful and watch them the last day or the last moment when they think they cannot be answered.

Is it a fact that the Democrats are paying up all the democrats' poll tax that are behind and going to try to fool the managers, with the receipts and vote whether they are qualified voters or not. We have heard they were talking of doing this. The past proves to us that we need not be surprised at such things as this.

A QUESTIONER QUESTIONED.

Editor Union-Banner: I see in the Press of last week that one George Washington Edwards has popped up, attacking the Progressive party and the Union-Banner. He asks a few questions and makes some assertions concerning himself. I would like to ask him a few questions which he can reply to in the columns of his chosen organ. He says he is a Republican from top to bottom and has voted the Republican ticket every chance he had for the last sixteen years. Now, if my memory serves me right, I think there was a half-dozen men who chanced to be Republicans and nominated you for tax assessor. Isn't it a fact that you didn't consider yourself a good enough Republican to vote for and scratched your own name and voted for your beloved democrats?

Then you ask what went with the money Teddy gave to defeat the democrats? I have not heard of that money, but let me ask you who paid for your railroad ticket to the Thorsby Convention two years ago?

Let me ask the date of the paper from which you got the alleged "clipping from the Banner." I have never seen it.

I'll wager that Felix Wadley didn't have to pay you over 50 cents to get you to write that letter, if he did he got badly cheated, for there are few, if any, men in Chilton county who do not know that you voted the democratic ticket. Respectfully,

A NEIGHBOR.

FAIR NOTES.

Every one that desires to have their stock entered in the big parade that opens the fair, are requested to have them at the fair grounds promptly at ten o'clock so that everything can be ready to leave the fair grounds at eleven o'clock. This will be a big feature of the fair, so don't fail to see it.

The Fair Association has started a large bunch of men at work on the grounds getting things in shape for the fair next week, and all indications are that the fair will be better attended this year than ever before. The attractions and exhibits are also expected to surpass any heretofore seen in the county.

Season tickets are on sale this week at all three of the drug stores. They are only one dollar, so get one so that you can go in and out as many times as you like.

A telegram from Mr. Juvenal of the Great Stadium Shows announces that they will reach Clanton on next Monday in order to have their large number of shows up and ready to open promptly with the fair on Tuesday morning. These are the largest and best shows that have ever been to Clanton, and are expected to be well attended during the fair.

Let every one have their exhibits on hand Monday so that they may be put in readiness for the opening Tuesday morning. If any one desires to begin on their general exhibit this week, they may do so and will find help at the grounds.

The same premiums will be paid on all chickens that were paid last year, whether your kind of chickens are in the catalog or not, so bring them.

Monday will be general opening and parade day. Tuesday will be Jemison, Thorsby day. Wednesday will be Mountain Creek, Verbena and Coopers day, Thursday will be school and children's day also the baby show will be on this day. Friday will be Maplesville, Stanton and Riderville days. Saturday to be everybody's day. There is no special day set for the farmers as the fair belongs to them and every day is theirs.

ELECTION OFFICERS.

State of Alabama, Chilton County.

We, the undersigned, E. B. Deason, Judge of Probate; M. D. Forbes, Clerk of Circuit Court, and E. L. Jones, Sheriff, in and for said State and County, do hereby certify that we did on the 19th day of October, 1912, appoint the following electors to act as managers, clerks and returning officers for an election to be held in Chilton County, Alabama, on Tuesday, November 5, 1912, as follows:

Beat No. 1, Mullins School House—Clanton, T. L. McKee, W. T. House and H. L. Hill; Clerks, John Mullins, Otford Davis; Returning Officer, C. R. Cox.

Beat No. 2, Beat 1 Jemison—Jemison, Allison Sims, R. F. Reynolds and Charley Comstock; Clerks, R. M. Langston, J. P. Shaw; Returning Officer, T. G. Pearson.

Beat No. 3, Beat 2 Jemison—Thorsby, Crawford Hayes, C. L. [illegible]; Clerks, Henry [illegible], W. Smith; [illegible] J. L. H. Perry.

Beat No. 4, [illegible] and J. B. Williams and H. A. [illegible]

Beat No. 5, [illegible] Clerks, [illegible] Sig Reynolds.

Beat No. 6, [illegible] Clerks, [illegible] Returning Officer, [illegible]

Beat No. 7, [illegible] Clerks, [illegible] Returning Officer, [illegible]

Beat No. 8, [illegible] Clerks, [illegible] Returning Officer, [illegible]

Beat No. 9, [illegible] Clerks, [illegible] Returning Officer, [illegible]

Beat No.

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

CLANTON COTTON MARKET
Price to day..... 10½c

Mrs. Julia Davis, of Verbena, was a visitor to Clanton Tuesday.

Neuralgia of the face, shoulder, hands or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Mr. John March, of Nashville, was in town Friday.

Use Eagle Thistle Soda and take advantage of special offer on a set of Sterling Silver-plated Rogers & Brothers Teaspoons.

Mr. Ben Upshaw, of Atlanta, was a visitor here Friday.

Mrs. W. I. Mullins visited Montgomery Tuesday.

H. M. Beatty, Little Rock, Ark., says: "For the past two years I suffered with kidney trouble, had severe pains across my back and over my hips that almost meant death to me at times. I used several well known kidney remedies, but got no relief until I used Foley Kidney Pills. These, I can truthfully say, made me a sound and well man."—Upchurch Drug Co.

Mr. W. H. S. Dorsey, of Atlanta was a pleasant visitor here Tuesday.

Mr. A. Weinfield, of New Orleans, was in town Tuesday.

Tickling in the throat, hoarseness, loss of voice, indicate the need of BALLARD'S HOREHOUND SYRUP. It eases the lungs, quiets the cough and restores health in the bronchial tubes. Price, 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Mr. and Mrs. Heath Jones and Miss Golda Palmer, visited Birmingham Wednesday.

Miss Minnie Muse has reduced the price on all fall and winter millinery, and will be during the fair prepared to sell you a fall hat cheaper than the same hat can be bought elsewhere, call and be convinced.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by Alred Drug Co.

Miss Anne Rea Kennedy, of Hills Infirmary, Montgomery, who has been nursing Mrs. Henry Mahan for the past two weeks, returned to her home Saturday, leaving her patient much improved.

Don't forget the new millinery in Mr. Taylor's store, Wilson building, selling goods at greatly reduced prices, call and see them.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by Alred Drug Co.

Mr. and Mrs. John Stanfield visited Montgomery Tuesday.

W. A. Rimes, Ruston, La., writes: "Some time ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble."—Upchurch Drug Co.

Dr. and Mrs. Pow, of Maylene, were the guests of Mr. and Mrs. J. P. VanDerveer Monday.

F. A. Wootsey, a brakeman at Jacksonville, Texas, says: "I was down with kidney trouble and rheumatism so bad I could hardly get up, and had backache all the time, and was almost tired of living. I saw an ad of Foley Kidney Pills and after taking one bottle I was better, and when I had taken two more I was thoroughly cured."—Upchurch Drug Co.

Mr. and Mrs. Deramus, of Haynes, were pleasant visitors to Clanton Tuesday.

J. C. Ray, Winfield, Ala., says: "My father, T. J. Ray, suffered with kidney and bladder trouble so bad he had to use a catheter. Various kinds of kidney remedies were tried without result, and finally we gave him Foley Kidney Pills. In three days he could pass some water and on the fifth no longer needed the catheter. He continued to use Foley Kidney Pills until entirely cured."—Upchurch Drug Co.

J. C. Jones has some important news in this issue. You wont have any trouble finding it.

For fine millinery you will find Mrs. Clara Mullins at the old stand—see the advertisement.

Mrs. F. B. Ticknor and Mrs. Wilbert Stanley, have moved into Clanton. They occupy the house formerly used as the infirmary.

REMEMBER

You can always buy a good second hand Machine cheap at the Singer Store; Needles, Oil, Bands and Cans. C. Reese Mullins, Agent. 10-17-4t.

NOTICE

The County Registrars will be at the Court house in Clanton to register voters on November 1 and 2, the Friday Saturday before the election.

Wm. A. Allen, Chacon, New Mexico, writes: "My wife had a cough that almost choked her to death—the worst I ever saw. We tried everything we could think of, but did her no good. By good luck I happened to get a bottle of Foley's Honey and Tar Compound and it helped her at once. It is the best cough medicine I ever heard of."—Upchurch Drug Co.

ADVERTISED LETTER LIST.

LAZY LIVER SPOILS DAY'S WORK

Don't Let a Torpid Liver Knock You Out of a Day's Work—There is a Better Way—Read About it.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after-effects that you will be laid up for two or three days more. So we say "Don't take Calomel." We have a perfect substitute that we can fully guarantee to cure constipation and liven up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this tonic is Dodson's Liver-Tone. It is a pleasant tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the ody without any danger of salvation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. The Alred Drug Company. ey back. The Upchurch Drug Co.

Good cooking adds much to the joy of life. To make sure its good you need one of the Cole Hot Blast Ranges to be shown at the Gamble Hardware Co.

For Chapped Skin.

We Invite You
o Our Range Demonstration

We will have **Cole's Hot Blast Range** in operation and want you to see the many handy, nvenient features which are embodied only in this new improved family cooking apparatus.

Come and bring your friends. We want you to see—

The wonderful Hot Blast Combustion which saves fuel.

—See how the gases in the fuel are saved which are wasted in other ranges.

—See the clean, bright fire resulting from Cole's Hot Blast Combustion when using mmon soft coal making it equal to hard coal for cleanliness.

—See how evenly the top of range is heated by flame from the burning gases, making it ssible to cook on the two back lids.

—See how uniformly the oven is heated—how easily regulated—making it unequaled for king and roasting—

And Remember—Cole's Hot Blast Combustion is the fuel saving feature which has used the Cole's Original Hot Blast Heating Stove to be sold at the rate of 60,000 stoves per ar. This is one of the many special new features we want to show you in this wonderful range.

Come and see the Cole's Odorless and Smokeless Broiler Attachment built into the ge not equaled by Charcoal Broilers which sell for $20.00 or more.

A child can broil any kind of meat or game equal to the work done by high priced hotel chefs.

ate of Demonstration Nov. 7th to 9th.

There are 14 special features embodied in this range which will interest you.
Come in and allow us to show them to you.

CUT OUT THIS AD.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

FLORIDA DISTRIBUTING COMPANY
Please mention this paper when answering. PENSACOLA, FLA.

"I suppose that when you left the convention you exclaimed: 'I came, I saw, I conquered!'" "Not exactly," replied the delegate who changed his mind. "That is what I was going to say, but I modified it to 'I came, I saw, I concurred.'"

Rural Education.

Rural education lags, according to a report presented to the National Council of Education. Give the little red school house a square deal, in short give our children a practical and attainable preparation—Ohio State Journal.

Tonic—Alterative

What is a "tonic"? A medicine that increases the strength or the tone of the whole system. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Name the best "tonic and alterative"? Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. Ask your doctor about it.

Biliousness, sick-headache, indigestion, constipation, dizzy spells—these are some of the results of an inactive liver. Ask your doctor if he advises Ayer's Pills to clean them. They are of known, the pill of purity.

THORSBY ITEMS.

Last Friday night the death angel entered the home of Mr. and Mrs. S. E. Norton and took their little bright boy, Edwin. Edwin was nearly twelve years old and a very sweet bright boy. Our hearts go out to them in the deepest sympathy and love. How glad we would be to lift the burden of grief from their hearts but only the Heavenly Father can do that, but we can give them comfort from day to day by our cheering words and smiles. Kind words and smiles can do so much to make life happier and burdens lighter for those who have them to bear. Little Edwin had been sick for some time but his many friends did not realize it was a serious illness. He was laid to rest in the new cemetery at Thorsby Sunday afternoon, the funeral services were conducted by Dr. Eaves, of Birmingham, who was a friend to Edwin. The church was beautifully decorated for the occasion.

We are glad to report that Mrs. S. H. Herbert is improving slowly but surely.

The Fraternal Union of America met at the usual time and the officers were installed by Mr. W. H. Hills, our state manager. The ceremony was very impressive. We are glad to report that our Union is growing; new applications are coming in every week, much interest and enthusiam are shown and we hope to keep the Union going under the direction of our worthy president, Mr. Clarence Bice. All of our officers are equal to the positions they hold. Our charter has arrived.

Dr. Eaves preached a stirring sermon in the Congregational church Sunday morning.

THE TWINS.

Mr. Sam Collins has received the appointment as postmaster of Thorsby, much to the dissatisfaction of a large number of the citizens.

WEST CHILTON.

Everybody in sympathy with Col. Roosevelt.

Mr. Rodgers, of Oak Hill, attended the singing here Sunday. He stated there would be an all day singing next Sunday the 27th, at Oak Hill church, a short distance north-east of Jemison. Books used will be Harp and Harmony, and that all are invited to attend, and bring their books.

Mr. and Mrs. Popwell, of Thorsby, attended the singing Sunday.

On Friday, Nov. 1st, Mr. Barber, V. D. M. will deliver one or more lectures on Bible subjects at the Waldrup School House. He represents the one church; his work is along the line of the world renowned Pastor Russell. All are invited to attend, services one day only.

Mr. J. D. Atchison, of Randolph was at the singing Sunday.

Mr. John Henry is closing out his lumber business here and will soon move away.

The work on the new Union church seems to making good progress.

Hurrah for the new Editor, he has the right ring. If you want the news read The Union-Banner.

Why all this cry of "nigger" in connection with Woman Suffrage? We guess the ladies of Alabama are capable of conducting the cause of Woman Suffrage, they are going to get it, success to them. When it comes it will be a glad day for Prohibition.

CITIZEN.

OAK HILL

There will be an all day singing in the Christian Harmony at Oak Hill, one mile northeast of Jemison, Sunday, Oct. 27. Everybody is invited to come. Bring your books, and baskets. We have not learned whether there will be a public spread or not. However, the visiting singers will all be cared for. Come, spend the day and have a good time.

Poplar Springs, Beat 4, 7 p. m. Oct. 30.

Enterprise, Beat 6, 7 p. m. Oct. 31st.

Beth Salem, Beat 6, 7 p. m. Nov. 2.

There will be one speaking in Beat 5, Nov. 2, at 7 p. m. The place will be announced in next weeks issue.

New Cedron, Beat 15, 7 p. m., Oct. 28.

The following speakers will address the people at the above named times and places; Judge A. P. Longshore, Hons. J. O. Middleton, J. W. Moore and P. E. Alexander and others.

Judge L. H. Reynolds will make some speeches if his health will permit. There will be some of the above named speakers at all the places named above.

There will also be speaking at other places; will be arranged later.

All persons regardless of political affiliations, are cordially invited to attend these meetings. The ladies are especially invited to come.

M. D. FOSHEE,
Chairman Progressive Campaign Committee.

Colonel Roosevelt is at his home at Oyster Bay and is doing very well.

ALMOST A JAIL ESCAPE.

On last Tuesday night several prisoners confined in the county jail made an unsuccessful attempt at escape. They had succeeded in breaking away a hole large enough through which to gain entrance to the outer cell, and were engaged in making a breach in the outer wall when discovered by the Sheriff, and were promptly returned to their cell.

All you who have torpid liver, weak digestion and constipated bowels look out for chills. The season is here and the air is full of disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy, it answers the purpose completely. Price, 50c. Sold by Upchurch Drug Co.

J. M. Juvenal, proprietor of the famous Stadium Shows, is a great friend to the children and invites all children under the age of 14 in the big show free the opening night of the fair.

He is an ordained minister and is said to be the only minister in the world in the show business. He preaches whenever requested.

STADIUM SHOWS ALLRIGHT

Juvenal's Stadium Shows came to Waverly well recommended and have made good in every particular. Fine band, nice free acts. Finest swing and Ferris wheel we have ever seen. Brilliant lights and the most interesting shows Waverly has ever seen. Mr. Juvenal is a straight, honest man, and handles his shows that way. He has won the hearts of the people by being kind to our children, courteous and polite to our people; he has demonstrated that shows can be run on moral principles the same as any other business.—Waverly, Tenn., Record.

BEST WE HAVE HAD.

Juvenal's Stadium Shows came to Pontotoc well recommended and have made good in every way. Mr. Juvenal passed all school children free in the Stadium Show the first night, and our strictest church people admit he is doing our children really more good than could be done from almost any other source. His lecture to boys on the evils of cigarettes and liquor demonstrated by his wonderful feats of strength and science leave a lasting impression on their young minds.

He runs all his shows so that any lady can attend without an escort. All his games are neat and attractive, free from that gambling element that was in the other carnivals here. They have no swearing or loud talk.

The Pickaninny Band all of one family, is the warmest band we have heard.

The writer personally attended every show and like other press notices "I consider such shows run by such gentlemen as Mr. Juvenal really a benefit to any town."—Pontotoc, Miss., Herald.

CITATION TO APPEAR

State of Alabama, } Probate
Chilton County. } Court.

In the matter of the estate of Mary F. Bridges, Deceased.

To the Sheriff of said County:

Whereas J. T. Abbott Administrator of the estate of Mary F Bridges, deceased, has filed his petition in said Court for a sale of the lands described therein, belonging to said estate, for division and to pay debts upon the ground that the same cannot be equitably divided among the heirs and the personal property is insufficient to pay the debts of the estate, and the 9th day of November 1912 has been appointed for the hearing of said petition.

You are therefore commanded to cite Mike Bridges, Delia Curtin, Alice Bouch, Eliza Abbott, Sallie Chambers, Minnie Adams, Lee Jones, Bessie Rice, Marvin Williams, Benda Jones and Alpha Jones to appear before the said court on said day to contest said petition if they think proper.

Witness my hand and seal this 23rd day of October, 1912.

E. B. DEASON,
Judge of Probate.

Oct. 24-3t

REPUBLICANS HAD FUND OF $2,280,018

CLAPP COMMITTEE SHOWS CONTRIBUTORS WERE WEALTHY.

THE STATEMENT IS VERIFIED

Medill McCormick Calls Hilles a Liar. Referred to Republican Leader as "Assassin of Character and a Liar."

Washington.—For the first time since its investigation began, the senate campaign fund committee obtained a copy of a list of contributors to the much-disputed 1904 Republican campaign fund. Elmer Dover, who was secretary of the 1904 Republican committee, put the list in evidence, saying it had been copied from the private memorandum book of the late Cornelius N. Bliss, treasurer of the committee. It totaled $2,280,018, and showed practically all of the contributions to the 1904 fund, which have been mentioned in the committee's investigation.

The list credited J. P. Morgan & Co. with two contributions, one of $100,000 and one of $50,000. A contribution of $100,000 appeared on the list from "H. H. R." and "J. D. W." Mr. Dover told the committee he supposed the "H. H. R." stood for H. H. Rogers, of the Standard Oil Company, and that the "J. D. W." was an error and should have been the initials of either John D. Archbold or John D. Rockefeller. E. H. Harriman was credited with $150,000 in two contributions.

The committee was given a start when Medil McCormick, appearing as the first witness of the day, presented a statement in the course of which he referred to "character assassins and liars like Mr. Hilles—men who, by their falsehoods, incite weak-minded men to actual assassination."

NAVAL EXPENSES DOUBLE

Estimates of Expenditures During Past Decade Given.

London.—How the world's naval expenditure has nearly doubled during the past decade, is shown in an official parliamentary document which gives the statistics of the naval estimates of eight powers—Great Britain, United States, Germany, France, Russia, Italy, Austria and Japan.

Britain naturally heads the list with $144,000,000 in 1901, and $225,000,000 in 1912. Next comes the United States with $80,000,000, increased to $128,000,000. Germany jumped from $47,000,000 to $118,000,000; Japan jumped from $22,000,000 to $67,000,000; Austria from $9,000,000 to $29,000,000; Russia from $46,000,000 to $88,000,000.

WOULD WITHDRAW TROOPS

Admiral Southerland Advises Leaving Guard in Nicaragua.

Washington.—Rear Admiral Southerland, in command of the American forces in Nicaragua, thinks it advisable to begin withdrawing his troops. In a message to the navy department he announced that after Monday, except for small guards on the passenger trains, he would have the National Railway Company take complete charge of the line.

Asks U. S. Remain Neutral.

Washington.—Formal notice of the Balkan war came to the United States in a note presented to the state department by the Greek government requesting this country to maintain a neutral position in the conflict.

Progressives Lose.

Springfield, Ill.—The Illinois supreme court denied the petition of the Progressives to have the same names of candidates printed on two or more tickets at the November election.

Would Put J. R. in Armor.

Chicago.—A man giving his name as Etienne La Tourelle went to Mercy Hospital and asked that Col. Roosevelt be measured; that he wanted to send the candidate a coat of chain which might be worn under his waistcoat and which would turn a pistol bullet of ordinary weapons.

Killed Wife, Is Hanged.

Pinckneyville, Ill.—George Engel was hanged here for the murder of his wife and sister-in-law, after a quarrel at the home of his father-in-law.

BLACK EAGLE ATTACKS BOY

Fourteen-Year-Old Youth on Tullman Ranch in Nevada Kills It After a Hard Battle.

Reno, Nev.—Although it is against the laws of the state to kill an American eagle, little Jimmy Daniels, but fourteen years of age, living on the Tullman ranch, near this city, violated this law to save his own life.

The youth was hunting rabbits, and seeing a cottontail skid into a gully he fired a shot at it. Immediately there flew from the spot several hawks, magpies, vultures and an eagle. The big bird immediately attacked the boy, who fired the last two shots he had at the eagle, both finding their mark.

Although wounded, the eagle continued to attack Daniels and a fierce battle ensued. The youth finally succeeded in using the stock of his gun to good effect, one blow striking the head of the vicious bird and killing it.

The boy dragged the bird to his home, and upon measuring it, the length from tip to tip of its wings was six feet and ten inches. It was a good specimen of black eagle, of which there are not many in Nevada.

J. E. MARLEY HARDWARE COMPANY

Jemison, Ala.

We desire to announce to the people of this community who need anything in the Hardware line that we are ready to serve you at any time, early in the morning or late in the evening.

Having had several years experience in Hardware line, we believe we have the good will and respect of all with whom we have dealt, therefore we stand as the Farmer's Friend; and if you will only try us, I believe you will sanction our assertion.

We carry everything from a shoe tack to a fo r t-penny nail, from a tie to a log chain, from a plow point to a cultivator, from a smooth wire to a five foot perfect wire fence. See us and get our prices.

We have with us H. N. Martin who will be glad to wait on his friends and see that they are treated fair.

Our capital stock is "Honesty and Fair Dealing to both Customer and Creditor." our surplus is "Service and Courtesy;" our gains is our friends.

Our Stock is at Par and shall never be depreciated; every customer shall share in our dividends.

You will find us next to Jas. W. Patton. You have a cordial invitation to come. All are welcome.

J. E. Marley Hdw. Co.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for 15 years," says Enos Lollar, of Saratoga, Ind., "and consider it the best on the market." For sale by Alred Drug Co.

LOST—Somewheres between Hendley Moores and John Headleys, Tuesday night, a pocketbook containing $10 gold piece and $2 in silver. Will pay anyone returning it for their trouble.

Hendley Moore, Cooper, Ala.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a bad cold, and before the bottle was all used up the cough was gone. Is that not better than to pay a $5 doctor's bill? For sale by Alred Drug Co.

Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health. Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, 6 Sabin St., Montpelier, Vt., says:

"I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are sufferers from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

BOSTON RED SOX WIN CHAMPIONSHIP

TIMELY HITTING BEATS MIGHTY MATHEWSON.

GIANTS MAKE FIRST SCORE

With Two Runs Needed to Triumph, Stahlwarts Come From Behind and Bat Out Victory — Speaker's Drive Helps to Win.

Boston.—The Boston Red Sox, pennant winners of the American League, are the world's champions of 1912. Defeating the New York Nationals by a score of 3 to 2, in ten innings of a bitterly fought struggle, they captured their fourth victory of the world's series and carried off the premier honors in baseball.

The Giants won three games of the series that was played before more than a quarter of a million people and one contest was a tie.

Speaker swung his big bat. On a line over Doyle's head the ball was driven, and Engle rushed over the plate with the tying run. On the throw-in Yerkes went to third and Speaker dashed on to second.

Gardner, with three balls and one strike on him, smashed a long fly to Devore. Yerkes set himself at third and dashed into home when the ball dropped into Devore's hands.

Matheweon, who saw the throw would be wild, threw up his hands and Meyers turned away without trying for the ball. Yerkes did not know the throw was wild, however, and he plunged headforemost and slid over the plate in a cloud of dust with the run that was the championship for the Red Sox.

Receipts of the Series.

The total paid attendance for the series of eight games was 282,037.

The total receipts were $490,833.

Each club's share was $147,028.85.

The national commission's share was $49,083.30.

The total players' share, derived from the first four games only, was $343,871.69.

Of this amount the Boston players, as winners, shared sixty per cent., or $206,548.01.

The New York players, as losers, shared $59,028.60.

Each Red Sox player, of whom twenty-two were eligible, received $4,024.66.

Each Giant player, of whom twenty-three were eligible, received $2,566.46.

The figures in every case are greater than those for any previous world's series.

MILITIA WILL STOP RACES

Gov. Marshall Will Take Drastic Action to Stop Meet.

Indianapolis, Ind.—State troops will be called out if necessary to stop the running race meet of the Mineral Springs Jockey Club at Porter, Ind., according to the statement of Mark Thistlethwaite, secretary to Gov. Marshall. The secretary said the militia would be called only as a last resort and that orders have been issued that racing and alleged gambling must stop.

ALL PULL TOGETHER.

Editor Union-Banner:—Please give me space to say a few words to our voters. Boys, had you thought of the condition of affairs There are four tickets out in the county and have you thought what that means? That there are three against one. What must the people do? The time is getting short and we must work now. There are two ways to work, a right way and a wrong way. Now I do not think that mud-slinging is the best way. I think the best is to show who are on the people's ticket in a loving way. Now a few words to the boys that went in to that convention at Maplesville. There are some of you who are good boys and want to vote right if you know how, but you are being mislead by some designing persons. Now boys, are not the candidates on the Progressive ticket the same men that the people named in May. Then why can't you vote for them now? I hear some blaming them for placing their names under the Progressive ticket. Now, did not the same people place them there that nominated them in May and who is to blame if anybody now lays down? Now boys, don't let any little thing pull you off the track and cause you to do something that you will regret. I am for the people's ticket and I trust that every voter that loves his country and feels an interest in county affairs will be also. So come on boys, and let's roll up the largest vote we have ever done.

Yours for the people's ticket.

D. H. GENTRY.

A CHILTON COUNTY POET

The Selma Journal.

Sidney Lanier, sweet singer of the south, even as David was to Israel, is dead, but The Journal is glad to note that there is still a few chips of the old block left among the living to keep the sweet singing going on.

It is seldom a piece of poetry "spring" or other variety, finds space in the editorial column of this paper. Whether that be good or bad judgment, it is not necessary to stop and argue, but such is the fact just the same. In today's paper, however, the reader will find that an exception has been made. It is made because an Alabama "boy," who possessed some of the same rich grace and sweetness of Lanier, still lingers on the scene and still pens the class of stuff that might yet put him in the class of the immortal ones to which Lanier belonged. And he is a nephew of the famous poet, Sidney Lanier Gibson of Verbena. His last pen-tbuch of sweetness and inspiration reads;

"One day I walked through a garden plot
Where weeds and flowers and grass pushed forth
In selfish rivalry to gain
Dominion o'er each others' growth
And there, amid the thickets mass.
I saw a rose with snowy crest,
Struggling to uphold its class
Above the tangle of the rest:
My heart commanded and my hand
Removed unto a better place
The rose, where other rose plants grew,
And where no weeds could mar its grace:
Since then I've given it friendly care,
With joy I've watched it grow and live,
And tho' it held but one at first
A host of blooms, now fragrance give;
There's many a rose in the garden of life,
The born mid the tangle of evil sod,
Which needs but light and friends and help,
To bloom in beauty for man and God.

FOR SALE.

Farm of 83½ acres, 65 acres in cultivation, five-room house, well fixed with plenty of out-buildings, two tenant houses; three wells of water on place; half mile of church and good school; on the Independence Road, four miles north of Billingsley Station on M. & O. railroad. For further information, apply to WM. J. BILLINGSLEY, Route No. 1. 1 month.

ALABAMA CROPS.

From information received from our correspondents, as well as from my own observation and close examination while traveling over the State, I am fully convinced that the corn crop will be even larger than the crop of 1911, which was the largest ever grown in the State. This Department has for the past three years, been lending all of its energies to the increase of the yield of corn per acre. Last year we paid in premiums to corn growers $2,500 with wonderful results, several contestants having grown over 200 bushels per acre, and the winner of the capital prize offered by us growing 224 3-4bushels. The growth of this number of bushels on one acre of land, seemed an impossibility, to the farmers of 25 years ago, but the intelligent mode of preparation of the soil the applying of the fertilizers and the planting of the prolific breeds of corn, has made possible, what seemed to the farmer, who years ago planted his corn in six-foot rows and four feet in the drill, an impossibility. We already have notice for 1912, that the largest yield of last year has been already exceeded and from reports we confidently expect that the 10,400 contestants who have entered for the present year, will exceed in the number of bushels grown per acre, all former efforts.

As it is natural, being the only money crop heretofore recognized by the average farmer, we have not been giving special attention to the growth of cotton. It is true, in a general way, we have been endeavoring to teach the farmers, the necessity of planting the earliest and most prolific cotton seed, as well as to give more attention to the breaking and cultivation of the soil. This advice has been bringing fruit as the increase in production will show. The cotton farmer, the present year, has been greatly handicapped, on account of the rainy and otherwise unfavorable weather, during last winter and spring, which prevented him from a proper preparation of his soil as a seed-bed. In fact, the ground was not in a condition to plow until planting time was upon us. This, together with the unfavorable seasons, has caused the present crop to fall behind that of last year, by about 400,000 bales.

The crop of sweet potatoes this year will exceed any ever grown in the State, and well that it is so, for no more lucious product for table use, as well as for cattle and hogs, is grown on the farm.

Sugar cane, or Cuban cane, as it is sometimes called, in the section of the State where it will grow, is the finest that the writer ever saw, and strange it is, that every one pretending to farm does not plant a patch of sugar cane, with which to make the syrup that is such a delicacy upon the table, besides having several barrels to sell, and for which there is always a ready market. The growers now are canning their syrup as fast as made, and those who are following, this sensible custom, are reaping rich rewards, as there is always a ready market for their product.

R. F. KOLB

Commissioner of Agriculture and Industries.

Takes Laurels From Brooklyn.

"Don't call Brooklyn the City of churches," says a Globe Trotter, who is equally familiar with the Hudson, the Rhine, the Ganges and the Nile. There is a city in India which is looked upon as "holy" by Buddhists and Brahmins which might dispute the title. Benares has about 2,000 temples and in these and those in the narrow streets where the public is free to worship are about 500,000 idols. According to Hindoo belief, it is the gate to paradise, to which all who dwell within its walls enter immediately.

Love, the Essential Thing.

Fame and notoriety can avail little; love is the one essential thing, outliving time and change and going with us into the unguessed possibilities of death.—Whittier.

COLOMBIAN CRANK AFTER ROOSEVELT

SAID EX-PRESIDENT HAD STOLEN PANAMA FROM COLOMBIA.

HE WANTED RESTITUTION

Claimed to Be Representative of Colombia—Sent Flowers and a Note of Warning to the Colonel.

Chicago.—An attempt to see Col. Roosevelt was made at Merry Hospital by Luis E. Molina, who gave his address as Bogota, Colombia, and said that he was a secret diplomatic representative of the Colombian government. He was stopped by detectives and city police who were on duty. Molina said that his father is a senator of Colombia. He sent Col. Roosevelt a postal card and wrote him a long letter containing accusations that the colonel had committed "an atrocious crime" in taking Panama from Colombia, and bidding him beware of the vengeance of God.

Molina declared he would go to New York on the same train with the colonel and would see him there or would follow him to Oyster Bay. He exhibited a ticket over the Pennsylvania railroad to New York that would entitle him to travel on the train taken by the colonel. He also displayed a large roll of bills.

Molina sent a box of flowers to the colonel and followed it with a note written on a postal card. It read:

"Col. Roosevelt: I sincerely desire your complete recovery. Now, that you are lying on a bed of pain, remember the Almighty God and how easy it is to disappear from the earth. After this, remember your greatest offense in your official career—the robbery of Panama from Colombia. Try to remedy this iniquity and God will protect you.'

The detectives said Molina was not armed.

Molina said he came from New Orleans especially to see the colonel as soon as he heard of the shooting. He said he had followed him in the West during his last speaking tour from Texas to California.

AUTO EXPLODES—40 HURT

Mayor of Petaluma, California, May Die As a Result.

Petaluma, Cal.—Forty persons were burned severely in an automobile explosion which may cost the lives of Mayor Hartman and three others.

A crowd gathered about a burning automobile that had been dragged from a garage. Mayor Hartman responded to the fire alarm and attacked the blaze with a chemical extinguisher. The mayor was thrown forty feet by the explosion which ensued.

James Moot, Maurice and W. Brandon were enveloped in flames and rescued a few moments later at the point of death. The crowd was swept by a blast of flames and several persons were trampled upon in the panic which followed.

Thirty victims of the accident were treated at a local hospital. Every nurse in Petaluma has been engaged and others have been summoned from San Francisco.

SHOT NEGRO IN PRISON

Unknown Called Negro to Cell Window, Firing Up at Him.

Prescott, Ark.—An unknown person placed a ladder at the Nevada county jail window opposite the cells and called Mark Hicks, a negro, to the window and fired a shotgun, lodging six buckshot into the shoulder of Hicks, making a bad wound, but not necessarily fatal. Hicks was in jail for shotting William Gee, one of Prescott's oldest merchants, a few weeks ago. Hicks waited until Mr. Gee was closing his store and fired at him from across the street. There is no clew to the identity of the person who shot Hicks.

SPENDS NIGHT BEHIND BARS

Militant Suffragette Would Be Martyr to the Cause.

New York.—After choosing to remain in a police station cell all night as martyr to her cause rather than accept the $500 bail proffered by a relative, Maud Malone, the suffragist who was arrested for disturbing the Democratic meeting at which Gov. Wilson spoke in the Academy of Music, Brooklyn, was paroled in custody of her counsel. Upon arraignment she pleaded not guilty and was ordered to appear for further examination.

Halt Bull Moose Tagging.

New York.—One million tickets printed in preparation for a proposed "Bull Moose tag day" will be wasted, because the city authorities ruled that tagging is a technical violation of the law prohibiting begging on the streets. A number of Progressive women had proposed the "tag" enterprise.

Balloon Explodes.

Berlin.—A balloon exploded while sailing through a thunder storm over Grossenheim. The two occupants, Lieut Stichler and Engineer Geeckke, were killed.

Panama Canal Conference.

Atlanta, Ga.—Plans have been perfected for a Panama canal conference to be held here Nov. 26 and 27, and to be participated in by commercial bodies and railroads of the South. It is expected to have an important bearing on commercial interests in this section in connection with the opening of the canal to traffic. Members of the Isthmian canal commission and Prof. Johnson of the University of Pennsylvania, who has made a study of the effect of the canal upon the prosperity of cities, are expected to be among the speakers.

BRIEF NEWS NOTES FOR THE BUSY MAN

MOST IMPORTANT EVENTS OF THE PAST WEEK TOLD IN CONDENSED FORM.

WORLD'S NEWS EPITOMIZED

Complete Review of Happenings of Greatest Interest From All Parts of World.

Southern.

Because he would be compelled to enter a saloon to register in order to vote at the coming November election, the Rev. Dr. R. A. Clark, pastor of the Memphis, Tenn., Second Presbyterian Church, has decided to refrain from casting a ballot in that election.

Sixteen persons were injured, one perhaps fatally, and four small business houses were wrecked at Marshall, Texas, in an explosion of natural gas.

James Hargraves, aged 26, of Savannah, Ga., shot and killed his wife aged 21, and then committed suicide at the home of his brother, near Fairfax, Ga.

James G. Woodward was nominated for the office of mayor of Atlanta, Ga., in the "run off" primary, defeating Aldine Chambers by a majority of 717 votes.

General.

Notification that Burgaria, Servia and Greece had declared war against Turkey was given to the British foreign office by the representatives of these countries. The only formality now lacking is the declaration of war by Turkey against Greece, which the Ottoman government has appeared reluctant to do.

The final draft of the treaty of peace between Turkey and Italy has been signed. Peace treaty is by no means one-sided or couched in such terms as usually are imposed by victor upon vanquished. Not only have Turkish susceptibilities carefully been safeguarded, but the Turkish government succeeded in obtaining concessions and a disguised indemnity.

United States Senator Weldon Brinton Heyburn of Idaho died at his apartments in Washington after a lingering illness. He was 60 years old and had been in the senate nine years.

Because of numerous complaints made to him, Mayor Fitzgerald will send to the next meeting of the Boston, Mass., city council the draft of an ordinance which will limit to six inches the length of hatpins to be worn by women on the streets and in public conveyances in Boston.

Gov. Woodrow Wilson announced that he would cancel all speaking engagements until Colonel Roosevelt is able to take an active part in the campaign. He says he cannot cancel the engagements immediately ahead "without subjecting those who have arranged them to a very serious embarrassment and great unnecessary expense," but he will cut the series at the earliest possible point, as he has no desire to be the single candidate on the stump engaged against no active antagonist.

Miss Irene Koester, a saleswoman in a Philadelphia department store who sued Clarence H. Brown for breach of promise of marriage, was awarded a verdict of $500 by a jury in Judge Staples' court. Miss Koester met Brown at a dance in Parkland, Pa., in 1905. After an ardent courtship he gave her a diamond engagement ring and in the presence of two witnesses the wedding day was fixed for the fall of 1910.

Dr. John H. Finley, president of the College of the City of New York, and F. D. Underwood, president of the Erie railroad, are to go on a hike from New York to Chicago, a distance of 860 miles. The college president wanted to walk around Manhattan island. Underwood scoffed at the little jaunt. The college man suggested New York to Philadelphia, but Underwood asked: "What's the matter with Chicago?" "It's a go," replied Doctor Finley, and they shook hands on it.

A battle raged in the state penitentiary at Rawlins, Wyo. Locked inside the walls with hundreds of mutinous prisoners, a few guards fought desperately to restore order and prevent a wholesale jail delivery. Another battle was in progress at the same time in the hills south of Rawlins between a posse of citizens and from twenty to forty escaped prisoners.

Charles Ewing, a civil engineer, who was elected business manager for Langdwne, Pa., has given up the job. He has severed his connection as business manager because it has not sufficient work to keep him busy.

Judge Barratt of Philadelphia, in deciding a contested will case, decided a garage is not a stable.

County Detective Harry E. Cheesman, at the risk of his life, climbed the steeple of the Broadway Methodist Episcopal church, Camden, N. J., to arrest Charles Kephart, who was wanted in Philadelphia, for "white slaving."

Thirteen Oklahoma boys and 21 from Kansas competed during the session of a corn growing contest. As a result it has been decided that the best ear was grown by an 11-year-old boy, Ralph Turner, Arkansas City.

HIGH PRICES HAVE REACHED THE CREST

STATEMENT BASED ON REPORT OF SECRETARY WILSON.

BUMPER CROPS PREDICTED

Crop Increase Will Make Up to Farmers Reduction in Prices — Says This Year's Cotton Crop Will Be Largest on Record.

Beverly, Mass.—In a statement based on reports from Secretary of Agriculture James Wilson, President Taft declares the wave of high prices for food has begun to subside in this country.

"The wave of extremely high prices for food throughout the civilized world," read the president's statement, "has reached its height in the United States and is subsiding."

According to the announcement of the White House dfficials, Secretary Wilson made an investigation of the causes of the prices and the effect of the bumper crops in the United States upon such prices.

The report promises that the price of meat will decrease notably on account of the bumper corn crop and after cattle, sheep and hogs fed from that crop reach the consumer.

Secretary Wilson advised the president that on the nine great crops of the country, corn, wheat, oats, barley, rye, buckwheat, potatoes, flaxseed and hay the October 1 prices indicated a saving to the consumer of about nine per cent.

The crop increase will make up to farmers however, reductions in price. Mr Wilson shows that while the return to the producers on Oct. 1, 1911, amounted to $3,868,000,000 at the prices prevailing Oct. 1 of this year, their return will be $4,454,000,000.

Mr. Wilson's report shows that the wheat crop of the year is nearly 100,000,000 bushels greater than last year and says that one high grade flour is costing at the mills 80 cents a barrel less than it did a year go.

On potatoes there will be a saving of nearly $100,000,000 in the cost of living On October 1 the producers were getting 51.1 cents a bushel for potatoes, the investigations showed, as compared with 58.3 cents a year ago. The consumption of potatoes is 350,000,000, the report states.

This year's cotton crop is the largest on record, and although the price on October 1 was above last year it was 2.1 cents less than the price of two years ago and the new crop may bring a reduction in the cost of cotton goods.

WOULD BANISH JACK JOHNSON

Lawabiding Citizens of Chicago Behind Movement.

Chicago.—Chicago educators, suffragists and club women, as well as mothers, united in a demand for the banishment of "Jack" Johnson from the city. It is rumored in club circles that a meeting is to be held with the purpose of framing a petition to be laid before the civic authorities demanding that an investigation of a special class of cafes be made as being a more insidious danger than the so-called red light district, which is an open and not a hidden peril.

Unify Work of Christian Church.

Louisville, Ky.—Unification of all the missionary, benevolent and philanthropic activities of the Christian churches in this country and Canada, and administration of these movements by one central organization, was decided upon by delegates to the international convention of Disciples of Christ.

Having once decided a question that has been debated for nearly half a century, the delegates lost no time in beginning to make that decision effective. A tentative constitution was adopted and a committee of fifteen named to look after the preliminary work.

707,826 Register.

New York.—The four days allowed for the registration of voters in Greater New York expired with a total of 707,826 for all five boroughs. Notwithstanding early indications of a light registration these final figures are the largest ever recorded and show an increase of 25,666 names over the registration for 1908, the last presidential year.

$25,000,000 Loss in Typhoon.

Manila.—Twenty-five million dollars is the estimated damage done by the typhoon which swept the Philipines on October 16.

Suffragette Sentenced.

Oxford, England.—Helen Craggs, a militant suffragette, was sentenced to nine months' hard labor on the charge of attempting to set fire to the residence of Lewis V. Harcourt, secretary of state for the colonies.

Miss Craggs, who is a daughter of Sir John Craggs, was discovered by a watchman, with another woman, in the grounds of Nuneham Park. When searched she was found to be carrying a quantity of inflammable material and spirits.

Students Wreck Operahouse.

Champaign, Ill.—University of Illinois students, celebrating a football victory over Indiana, attacked the Wilbur Opera House in Champaign, and many persons were injured in the battle with local people and stage hands.

Celebrate Yorktown Victory.

Yorktown, Va.—The surrender of Cornwallis here 131 years ago to Washington were celebrated with an elaborate programme. The federal government was represented by Secretary of War Dickinson, Secretary of the Navy Meyer, Postmaster General Hitchcock and Secretary of Agriculture Wilson.

PICKINGS

From Many Points In Alabama

Birmingham. — The Birmingham Zoological association, organized with Frank W. Smith as president.

Opelika.—Dr. T. M. Christian, pastor of Grace Methodist church of Savannah, held a revival at Trinity Methodist church.

Greensboro.—The full amount apportioned to Hale county by the Wilson-Marshall campaign committee in Alabama was collected easily.

Athens.—Walter Knox, a prominent farmer and owner of a gin seven miles east of Athens, was caught in a gin and literally cut to pieces.

Mobile.—Frank Singleton, arrested, charged with violating the state liquor law, was tried in the inferior court and a fine of $500, or 140 days at hard labor, assessed against him.

Athens.—Cannie King, who was brought back from Texas on a charge of forgery, pleaded guilty to six cases and was given 12 years and 6 months in all. He did not appeal.

Bay Minette.—The Picket mill, recently erected, has been placed in operation and is turning out material to fill the large number of orders already booked.

Fort Payne.—There was an all day singing at the court house at this place conducted by Prof. T. B. Mosely, of Albertville, and other prominent singers.

Florence. — Chief of Police R. J. Bailey and his officers have started a crusade against the toy pistol, which in the hands of the small boys, has become a deadly weapon.

Opelika. — Ordinances have been passed establishing grades of the various streets. At an early date an ordinance will be introduced requiring property owners to build cement sidewalks in front of their homes.

Lower Peach Tree.—No little interest was shown when C. C. Hare began an experiment in breaking up land on his farm with dynamite. This is the first attempt of the kind in this section.

Birmingham.—A check for $1,400 was sent by William D. Jelks, Alabama's member of the National Democratic Committee, of the National Democratic Committee, to the national campaign committee.

Florence.—The model highway built with state and county funds, each contributing $2,000, has been completed on the Waterloo road, and accepted by the state. The road, built by popular subscription at a cost of $5,000, making a continuous stretch of 3 1-2 miles from the Florence beltline west to Oakland will soon be completed.

Anniston.—Cells, steel fixtures and other paraphernalia for the new Calhoun county jail, the first floor of which is now under course of construction, have been shipped from St. Louis. State Jail Inspector W. B. Oates, who condemned the old structure, drew the plans for the new jail, which will cost about $21,000 when completed.

Scottsboro.—Ona Coffey, white, was convicted on a charge of retailing in the court here and must serve a term in the coal mines. Willie Cosby, aged 14, was sent to the reform school at West Lake for a term of seven years for breaking in the store of Brewster Bros at Hollywood. Young Cosby has been sent to the reform school twice before, but has escaped both times.

Uniontown.—It has been announced that the Southern railway will build a new freight and passenger depot here and the work on its construction will starte as soon as the contract is awarded from proposals now being received. The executive department of the road announces that the depot will be modern in every way and spacious enough to offer room for the growing traffic at Uniontown.

Fort Deposit.—R. C. McCain, a prominent planter of West Lowndes, returned from Birmingham, where he had on exhibition at the State Fair a solid car of fine registered Poland China hogs, which were raised on his Lowndes county farm. Mr. McCain displayed twenty blue ribbons won by his beauties.

Girard.—Humber & Son bought of Fou Bros. and other heirs the large plantation lying just south, known as the Shorter place and comprising 1,900 acres of the best farming land in the county for $70,000.

Mobile.—Dave Howard, who, on September 21 last, shot Chas. Lewis in the lungs and back which wounds proved fatal ten days later, was tried in the inferior Criminal court on the charge of murder. The case was long drawn out and at the conclusion Howard was convicted without bail.

COUNTY CAMPAIGN OPENS

SPEAKING AT BAKERS SCHOOLHOUSE

On Monday night most of the voters of Beat 4 and a number of the ladies, gathered at Bakers schoolhouse to hear the opening speeches of the Progressive campaign. M. D. Foshee, chairman of the campaign committee, presided. Short speeches were made by Prof. More, W. T. Bean, Rev. Lowery and others, all showing a determination to work together for the redemption of the county from ring rule. Hon. L. H. Reynolds then made a clear and convincing statement of the condition of affairs in the county and state and gave good reason for the county organization of the Progressive party, showing that it is distinctively a people's movement. This was followed by an eloquent address on the national features of the movement by Hon. J. O. Middleton. Judging from the number of men who were present and the spirit which prevaded the meeting, Beat 4 can be counted on as practically unanimous for the Progressive ticket and reform.

Friend, when you come to town to sell your cotton, or for any other purpose, don't forget to come round to the Union-Banner office and pay up your subscription. Or if you do not come to Clanton, send it in, this is the time of year to pay up.

TO MERCHANTS IN CHILTON COUNTY

If you want to increase your sales you must let people know what you have. The country trade is what you want, and the Union-Banner reaches by far the largest number of people in the county of any paper published. You can come and look over our subscription list and see for yourself. So if you want their trade our columns give you the best opportunity to let them know it.

Remember the speaking on Saturday, October, 26, at Cooper at 10 a. m., at Clanton at 2 p. m. and at Collins Chapel at 7 p. m. Hon. A. P. Longshore and others will make addresses and they will be worth hearing.

FROM PROF. MOORE.

Clanton, Ala., Oct. 18th, 1912

Editor Union Banner: Please allow me a short space in your valuable paper to say a few words relative to the coming election.

It will be but a few days until the voters of this county will have the opportunity of selecting the men to fill the offices and administer the affairs of the county for the next four year. I have been voting for a number of years and have been deeply impressed with the importance of electing certain men, but never have I felt more keenly the great importance of electing any ticket than I do the election of the ticket that was nominated in Chilton County in May. If we will just look back and take a retrospect of the last twenty years when the governmental affairs of this county were shifted from the hands of the Democratic party and placed in the hands of the people of the county, the common people, I think you will agree with me that we should continue to elect men who favor progress instead of electing men who by party influences must continue to grind along in the old ruts.

When Judge Honeycutt went into office, the county was in debt and it was not long until these conditions were changed for the better. The county was placed on the progressive move, built a new court house, without the issue of bonds, and was ready to pay any claims that were presented. These conditions continued during Judge Adams' term in office, and even greater progress was realized while Judge Reynolds was in office, and and there was some eight or ten thousand dollars in the treasury when a democratic judge took charge, less than two years ago. Dear voters, how is it now? Cannot pay school census enumerators and many other things, so I hear. Have our taxes been reduced? No. Has there been any improvement made on the courthouse, jail or other public buildings? Have the public roads been greatly improved? Have any steel bridges been built during the last two years? Do you want these conditions to continue? You know how you must vote to get this. I don't believe the voters of Chilton county will elect the democratic ticket. I am confident the ticket nominated last May will be elected, but we must work to make sure of a good majority and place our county in the progressive column this year. I shall do what I can that is honest and fair to secure the election of every man on that ticket, and trust that progressive in the county and every voter in sympathy with this move will do the same.

J. W. MOORE.

ENFORCE THE GAME LAWS

Montgomery, Ala., Oct. 19, (Special)—State Game and Fish Commissioner, Jno. H. Wallace, jr., has issued special instructions to the various county game wardens of the State, urging activity relative to the enforcement of our conservation statutes. Game wardens will pass all instructions received by them on to their deputies, and those who hunt without licenses or otherwise violate the game law will stand but scant chances of escaping. The instructions of the Commissioner to the wardens are as follows.

"Your attention is directed to the important necessity of being on guard for the purpese of seeing to it that no quail, which is Alabama's most popular gamebird, are shot during the last days of October by vandals and game-hogs who, desirous of stealing a march on legitimate sportsmen, invade the fields in quest of game just prior to November 1st, the date on which the season opens on quail. Challenge all hunters found afield and arrest on the spot all who have no hunters' licenses as required by law.

"See to it that no game is sold or shipped; that the bag-limit is not violated; that no game is shot out of season; that no trap, baited fields or other devices be used to take game; that no game or birds be in the possession of persons out of season; that no doe (female deer), or wild turkey-hen is killed; that no song or insectivorous bird is captured or killed at any time.

"By repairing to your railroad station and meeting the incoming and outgoing trains, you can frequently apprehend hunters who have been hunting without license, and who likewise have violated the bag-limit.

"When convinced that the game law has been violated, you are directed to swear out warrants immediately before a justice of the peace against the accused, and vigorously prosecute the offenders.

"Your most cordial and active co-operation is invoked to the end that this may be the banner season of the Department of Game and Fish in the matter of enforcing a strict observance of our conservation statutes."

SUNDAY SCHOOL CONVENTION

The Sunday School Convention of District No. 1, held with Oak Grove Sunday School October 12, 1912, was called to order at 10 o'clock by the President, W. E. Thomas. Devotional exercises were conducted by Mr. K. S. Ward, after which the first subject on program, "Good Records; what this Point of the Banner Sunday School means, and their value to the Sunday School" was discussed by Prof. J. A. Hunter and Prof. Williams.

Seven Sunday Schools of the District were represented, and rendered very good reports, though not any of the schools were what they might be; but as each school represented made a pledge for a forward step, we hope to have some Banner Schools ere the next convention.

The speakers for the afternoon were Mr. K. S. Ward, Miss Della Williams, Rev. Reynolds, Rev. S. Smitherman and others.

The discussion by Mr. K. S. Ward, of Birmingham, on "What is being accomplished with the boys in the Cities through the Sunday School," was especially interesting. We wish to thank the Oak Grove people for their kind hospitality to the convention people, and will say we hope to be invited there again.

W. E. THOMAS, Pres.
(Miss) ADDIE HORSLEY, Sec.

TO THE TEACHERS OF CHILTON COUNTY.

All members of the School improvement association, and especially the County and district officers, are earnestly requested to meet at the court house in Clanton on the first Saturday in December 1912, at 10:00 a. m. for the purpose of formulating plans for carrying out our work.

HOWARD ROPER, PRES.
(MISS) MARGARETTE WOOD, SECY

CARD OF THANKS

We wish to thank the people of this community, and especially Dr. Arthur Johnson, for their kindness shown us during the sickness and death of our dear baby, may God bless you.

Mr and Mrs. W. G. CULVER.

MT. PLEASANT

Our Sunday School is progressing nicely. Rev. W. S. Cox preached at this place last Sunday.

Mr. and Mrs. M. V. Joiner have returned from a lengthy visit to friends and relatives in Coosa and Talladega counties.

Miss Eula Belle spent Saturday night with Miss Katie Duncan.

Mr. Willis Massey, of Coosa county, spent Saturday and Sunday with Mr. and Mrs. John L. Scroggins.

Mr. and Mrs. Oscar Hardy are back here again among friends and relatives.

Several of our people attended the Baptist Association at Collins Chapel last week.

Rev. H. H. Mullins will preach at this place next Sunday at 11 a. m. He organized our Sunday-school last spring.

Grover Cleveland bursted the United States Treasury in two years time, likewise Lige Deason bursted Chilton county treasury in the same length of time.

A poll tax paid now by any person for 1911 will not make him a legal voter in any election this year, and such persons must be looked after in the November election.

From the enthusiasm manifested among the voters of Chilton County its affairs will fall back in the hands of the common people in the coming November election.

Lee Vickers attended the public speaking at Bakers school house last Monday night.

Among those who attended the fair at Montgomery last week were Messrs J. H. Duncan, A. D. Law and G. W. Melton.

More Than Enough is Too Much

To maintain health a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let common sense not appetite control, and take a few doses of Chamberlain's Stomach and Liver Tablets, and you will soon be all right again. For sale by Alred Drug Co.

The Record Shows the Facts

Milton H. Smith Answers B. B. Comer

Ex-Gov. Comer, in an address at Greenville, Ala., on August 30th, commented with evident satisfaction upon the rebuke administered to Milton H. Smith, President of the Louisville & Nashville and South & North Alabama Railroads, who, at a hearing before the Railroad Commission at which he presided, he asserts was offensively dictatorial.

The hearings by the Commission of which he was President were convened on complaint of a shipper of fertilizer, and lasted three days in the month of April and three days in the month of May, 1905. Fortunately, the proceedings were transcribed by the official stenographer of the Commission, and were printed and bound, making a book of over seven hundred pages. A perusal of that book will show that instead of performing the duties of presiding officer—judge—to ascertain the merits of a contention between citizens of Alabama, he ranted and raved like a maniac, denounced one of the parties to the contention continually, was presiding officer, attorney for one side, witness for one side, in fact conducted himself in such a manner as would have resulted in his incarceration had he so conducted himself in any organized court of justice. During the entire six days he had before him representatives of all of the railways in Alabama, and a perusal of the printed proceedings will show that throughout the entire six days he was treated with respect, and that all who testified patiently endeavored to elucidate the matters under consideration, patiently tried to correct the innumerable erroneous statements made by him. They did this from respect to his position as a representative of the Commonwealth of Alabama. At the same time all present, including the two Associate Commissioners, were humiliated—made ashamed—that the State was disgraced by the performance of one with a mind so diseased.

Milton H. Smith.

It's Money in Your Pocket To Paint Your House With

Mastic Paint

"The Kind That Lasts"

Your house *must* be painted. Two-thirds of the cost must go to the *painter*, who will charge no more for putting on *Mastic Paint* than for an inferior kind. *Mastic Paint* gives the most beautiful, hard, enamel finish; will not crack, chalk or peel off, and lasts longer than other paint.

BEWARE OF CONSTIPATION.

It is the first primal cause of many of our diseases. St. Joseph's Liver Regulator is an ideal treatment for constipation. It acts in a natural and easy manner (not by violent purging) and gently loosens the bowels, thus forestalling the long train of evils which result from the clogging of the system with offensive refuse. This remedy is a wonderful stimulator of liver, stomach and bowels, inducing and maintaining healthy, natural action. Price, liquid, 50 cents a bottle; powders, 25 cents a box, five boxes $1. Alred Drug Co.

H. E. Archer, merchant, of Westover, Ala., states: "My boy had a severe attack of acute bronchitis, so severe he could not get out of bed for a week. The first few doses of Foley's Honey and Tar relieved him and before we had given him the contents of one bottle, he was well. Foley's Honey and Tar Compound is kept continally in our house. It is perfectly safe and effective."—Upchurch Drug Co.

Knocking Away the Props.

Well-read people now do not take about "the world, the flesh and the devil;" they speak of "the unregenerate, selfish and depraved."—Exchange.

JUST ABOUT THAT TIME THE PROGRESSIVE PARTY WILL DIE

When terrapins knit woolen socks,
And the hare is outrun by the snail,
When serpents walk upright like men,
And doodlebugs travel like frogs,
When the grasshopper feeds on the hen
And feathers are found on the hog.

When tomcats fly in the air,
And elephants roost in trees,
And insects in summer are rare,
And snuff never makes people sneeze,
When fishes creep over dry land,
And mules on bicycles ride,
When the foxes lay in the land,
And women in dress take no pride.

When dutchmen no lagerbeer drink,
And the girls get to preaching on time,
When the billy goats butt from the rear,
And treason is no longer a crime,
When humming birds bray like an ass,
And limburger smells like cologne,
When ploughshares are made of glass,
And the hearts of true suckers are made obstreps,
When Mesa grow in the democrat's head,
And wool on the hydraulic ram,
Then the Progressive party will be dead.

And this county won't be worth a d—n.

FOR THE SUMMER BED

STYLES OF COUNTERPANES THAT ALWAYS LOOK WELL.

Probably the Best, Though Also the Most Expensive, Is That of Fine Irish Linen Bleached to Purest White.

If money is not an object, have for the summer bed a counterpane of moderately heavy but very fine Irish linen bleached to purest white, finished all round with a four inch broad hem stitching. To go with this coverlid there may be two square shams or a single long strip which will cover both pillows, but the bed looks equally well if the counterpane is spread from head to foot without a break. Where expense must be considered, there may be, in lieu of the imported linen coverlid, one of the same character, but in fine, heavy lawn, hand hemstitched all around, but without the hand embroidery. This coverlid when spread about a linen sheet looks very well indeed, and in its favor it may be said that it is more easily laundered than is the more costly one.

White scrim, swiss or fine cheese cloth make dainty looking spreads for the bed which needs a valance to hide the hat and shirt waist boxes for which there is no space elsewhere in the sleeping room. Any of the coarse meshed imitation laces look well on scrim, Swiss or cheesecloth coverlids and so do the flowered lawns which come in attractive summery patterns.

Still dear to the heart of old fashioned housekeepers is the Marseilles spread showing a mingling of blue, rose, maize or green with white and having a heavy and thickly knotted white fringe which is practically a valance. These spreads are chosen to match the carpet, paper and curtains, but for a white room there is nothing so dainty as the Marseilles patterned satin damask covered with scalloped embroidered edges which all but touch the floor at each side of the bed.

Between the linen sheets of the bed place a pair of summer blankets of pure wool in all white or in white with a fine border in delicate color, and be sure that the bindings are of silk. It pays to remove the ordinary bindings which sometimes finish a really nice pair of blankets and replace them with a white or colored thin silk.

At the foot of the bed have a comfortable of silkoline. One of white is charming and it keeps clean about as long as one of delicate hue in this plain or flowered material. The average guest knows enough to place the comforter carefully over a chair when preparing for bed, or if additional warmth is needed, to double the upper

MAD CATS TERRORIZE CITY

Suburb of Philadelphia in State of Terror Owing to Hydrophobia Among Felines.

Philadelphia, Pa.—Royersford, a Schuylkill valley borough, located between Norristown and Pottstown, practically is being terrorized by cats afflicted with hydrophobia.

Recently no less than a dozen persons were bitten by the rabid animals. Chief of Police H. H. Biedman has killed 74 cats on orders of the officials, and Burgess Fred Kelly determined that every cat in the borough would have to be killed.

All of those injured, with the exception of two, have been sent to the Pasteur institute in New York. There the heads of a number of cats that were killed were found to have distinct and pronounced symptoms of rabies.

The cats developed the affection rapidly. In some instances persons have been bitten while fondling a cat that has been a pet in the family. In other cases the felines have jumped at whoever was nearest them, biting and scratching fiercely. Several of the victims were scratched and bitten terribly in the fights with the mad animals.

Children of the town are terrified. The sight of a cat is sufficient warrant for the youngsters to run. Parents have issued stern injunctions to their children to keep away from any cat or kitten.

CARE AND USE OF CASSEROLE

Excellent Servant of the Cook Must Have Proper Treatment, and This Advice Is Good.

Before using a casserole for the first time, it is well to temper it; this is best done by covering it with cold water. Then letting the water come to the boiling point, remove from the fire, and let the casserole remain in the water until it is cold.

Under no circumstances let the casserole be put on the stove without water or fat in it; if this is done the dish will crack.

Avoid sudden changes of temperature with the casserole; that is, do not take it from the hot stove or oven and place it in cold water or in a wet sink; this will prove disastrous to the dish.

Casserole cooking requires only moderate heat; if something is being cooked in the casserole at the same time that intense heat is required for something else, take the precaution of setting the casserole in a pan of water.

In cooking anything in a casserole, it is well to allow twice the time for cooking that would be required were the stew or vegetables or fruit cooked in the ordinary way.

WORTH TIME AND TROUBLE

Salad Rolls Call for Care in the Making, but the Result Repays All the Outlay.

Scald one cup milk, add three tablespoons butter, one and a half tablespoons sugar and half a teaspoonful of salt. When lukewarm add one yeastcake, dissolved in one-quarter cupfuls lukewarm water and one and a half cupfuls flour. Cover and let rise, then add white of one egg beaten stiff, and flour to knead. Again let rise, shape in small biscuits, place in rows on floured board, cover with cloth and let it rise until light and well puffed. Flour handle of wooden spoon, and make a deep crease in middle of each biscuit, take up and press edges together. Place closely in buttered pan, cover, let rise, brush over with one egg slightly beaten and diluted with one tablespoonful milk, and bake 12 or 15 minutes in a hot oven. This may seem quite a process to go through, but when done and ready to be eaten one feels really repaid. They are the best I ever ate.

SON 39, PADDLED MOTHER, 21

Reproof for Attending "Movies" Starts Row With Wife of Sixty-Five-Year-Old "Dad."

New York. — Twenty-one-year-old Mrs. Madeline Gray, blonde, petite and charming, invoked the law to make her stepson, Charley, behave himself. Charley is 39 and too big to be spanked.

The "movies" caused all the trouble. Or maybe matrimony was to blame. A week ago today Madeline was married to Richard Gray by Alderman James Smith in Borough Hall, Brooklyn. Maybe Smith is to blame.

Richard Gray is 65 and a widower of eight months' standing. He took his bride home to 864 Gates avenue. Richard is a milk inspector and has to be out nights inspecting.

Last night Madeline went to the movies and stayed after 9 o'clock. When Mrs. Gray got home Charley reproved her. She started to exercise her parental authority and then she says her stepson "paddled" her.

"Do you want to say anything to your stepmother?" asked Magistrate McGuire, thinking the trouble might be patched up.

"Madeline," said Charley, "I want you to promise that after you go home from here you will always be a good mamma to me."

Madeline's giggle was lost in the uproar. The court thought the Gray family had better go home and see if it couldn't behave itself without the law.

"My stepson's father isn't anything like his child," said Mrs. Gray. "They're as different as day and night."

BOILED RICE AND LETTUCE

Excellent Food Combination That Is Especially Appealing on an Extremely Hot Day.

A usual combination of special food value is cold boiled rice heaped on cress or lettuce. In the center of the rice put some slices of pickled beets and sprinkle the whole with chopped olives before adding the completing touch of a rich mayonnaise.

Or turn out little molds of cold boiled spinach upon cress or lettuce decorating with slices of hard-boiled eggs and olives.

Where lettuce alone is at hand vary the dressing instead of the principal ingredient. Combine for the sauce half a cup of cream, the yolks of two eggs, a dozen capers and four teaspoonfuls of tarragon vinegar. Beat thoroughly and pour over the lettuce, tossing the latter with a fork to mix the sauce thoroughly through.

A salad that the men folk will rejoice in—that sex as a rule being partial to onion—is made in this way: Half a dozen sweet green peppers with the seeds removed in the usual way, and one large Bermuda onion, all of these minced fine by passing them through a meat chopper. Add salt, pepper, French mustard, a cup of olive oil and the juice of one lemon, in which a one-inch piece of preserved ginger has been minced very fine. Serve on lettuce, very cold.

A novel shrimp salad of continental origin calls for two dozen or more asparagus tips, cooked very tender and cut into short lengths. To this add an equal appearing quantity of shrimps, cooked and cut up. Add a mayonnaise flavored with a few capers, and serve on lettuce, which may be arranged as a border.

The basis of many a tasty salad is cream cheese, one recipe applying to it being as follows: Chop very fine some olives and green peppers, using enough cream cheese to arrive at an agreeable smoothness, and serve on cress or lettuce which has been dipped in French dressing.

Or chopped olives and pickles can be stirred into the cheese in the same way.

CONTRACT GOES TO ENGLAND

Twelve and Fourteen-Inch Shells for the Navy Will Be Made Abroad.

Washington.—A contract for part of the armor-piercing shells for the United States navy, on which the Hatfield Steel Company of England recently underbid all American competitors by nearly $200,000 on less than a million dollars contract for two thousand 14-inch shells, and by about $800,000 on a contract of about $1,000,000 for 2,500 12-inch shells, will be awarded to the English concern. Just how many shells will be made by the English company has not been decided, but it is said only enough will be contracted for to serve as a test.

BARGAIN SALE

L. H. REYNOLDS, Clanton, Ala.

VOL. 1 | THE UNION 10th Year | CLANTON, ALABAMA, THURSDAY OCTOBER 31, 1912 | THE BANNER 20th Year | NO. 30

ADDRESS BY THE COMMITTEE.

Clanton, Ala., October 28, 1912.

To the Voters of Chilton County:

You are now on the eve of one of the most important elections ever waged before the American people. On Tuesday, November 5, you will not only elect officers for your county, but you will vote in the election of a President to rule over these United States for four years. A greater privilege than this was never given to man; a greater responsibility never rested upon the citizen. You choose not for yourselves alone, but for the women and children dependent upon you. It is important, then, that you decide the question in a business-like, conscientious and patriotic way. The question to be determined is: What is best for the people? In determining this question you will have to decide between Democrats and Progressives. The Republican party is not a factor in this campaign, for he who casts his ballot for that party is but giving aid and comfort to the Democratic party. To act with clearness, you must look into the platforms of the parties and see what they stand for—what it is they propose to give the people. Mr. Wilson, the Democratic nominee for President, states that he does not consider the Democratic platform a "program," and that he is not bound by it, so that the voter is not informed as to what the Democratic party stands for.

The Progressive party regards its platform as a contract with the people, and Theodore Roosevelt, its nominee for President, says that if elected he will carry out every measure promised in the platform. We cannot in this message to the voters give in detail the numerous reforms advocated by the Progressive party, but must be content with calling your attention to the fact that every measure in the platform carries with it some needed relief for the laboring people. It has been said that the Republican party was created to free the negro. The Progressive party, born of the awakened conscience of the nation, sprang into existence to strike the shackles of slavery from the laboring people of the country—to make easier the lives of the millions of men, women and children who eat bread by the sweat of their brow. A party born of spirit like this, prompted by such a cause, appeals for support today to the men and women of the nation!

We would call your attention to the condition of affairs today in the state of Alabama, a state which stands first on the roll call as it is vastly rich in her natural resources. The Democratic party has had uninterrupted control of the government of Alabama since 1874. The status of Alabama today stands as a collossal monument to the mismanagement of the Democratic party. There is a deficit of a million and a half dollars today in the state treasury, and yet the people are being ground under the merciless lash of the tax-gatherer, and the wail of the oppressed is heard on every hand. The taxes go higher as the state sinks deeper in debt. And here we are confronted of the hypocricy of the Democratic party toward the old Confederate soldier. In every campaign the appeal to the veterans and the sons of veterans to vote the Democratic ticket is made because that party is such a friend to the Confederate soldier. What is the Democratic party of Alabama doing today for the Confederate soldier, as the "thin gray line" grows thinner still? We find the Democratic administration creating new offices for its political henchmen, increasing the salaries of practically all the state's officials, but in the good year 1912, when the time comes to send out the miserable pittance allowed by the state to the Confederate soldier, the probate judges are notified that the state of Alabama is too poor to pay the grand old heroes in gray who gave the four best years of their lives in defense of the South and who baptized every battlefield in this land with their heroic blood. Shame upon the Democratic party for a mockery like this! Poor Confederate soldier; how your rights have been trampled upon! Poor Alabama! No state in the union has been so badly abused as you!

As reckless has been the administration of your state affairs, so as miserable has been the management of your county for the past two years. When Judge Deason assumed control your county owed not a dollar and had approximately $15,000.00 in the treasury for him to begin with. Since he came into office you have been paying $15,000.00 a year more taxes than you did before. To-day after Judge Deason has been in office only a little more than two years, there is not one cent in the treasury to the credit of the general fund and the county is in debt. The officers of three elections and the school enumerators, as well as others, have claims against the county, and cannot get their pay. We are told that Probate Judge Deason himself holds claims against the county aggregating $1,000. So then, the question arises, what has become of the forty or seventy-five thousand dollars collected in taxes from the people during these two years? Can you look about you and find any permanent or permanent improvement? Are your roads in better repair than formerly. No! Complaints come from every section to the bad condition of the roads. The Democrats of Chilton county have been asking for an opportunity to show what they can do; for the last two years they have had their opportunity and they have proven themselves efficient at only one thing, and that squandering the people's money. This reckless extravagance can be charged against the Democrats of this county since the beginning of the campaign two weeks ago, but up to now not one word have they uttered in defense or explanation. It may be that the Democrats are waiting until the last moment to flood the county with circulars in an effort to deceive the vaters, as they did in the last campaign. But you are in possession of the facts, the Democratic record is before you, so be not deceived. If the Democrats claim to have improved the roads, call attention to that immense body of tax-payers who gathered at the court house last spring and protested against their methods.

We have heard that the Democrats were going to charge that the present financial condition was due to the fact that the tax rate was lowered under the Reynolds administration. Now, during the year 1910 the tax rate was forty cents per hundred and a bridge was built that year over Yellow Leaf creek at a cost of $2,300.00. This money was paid for out of 1910 taxes and still money left to run the county. In 1911 your taxes were raised over $16,000.00. Since the beginning of the year 1911 not a single bridge has been built at a cost of more than $150.00, and yet at this date there is not a dollar in the treasury.

We are told that a certain Democrat who was active in the last campaign has been receiving from the county $85.00 per month to furnish water to the court house and jail. When the facts are finally known they will prove that the condition of the treasury is due to such extravagance as that.

We would call your attention to a policy advocated by the Democrats which is fraught with a great deal of significance to your children. You know, The Clanton Press is the moving spirit of the local Democratic party; the editor of that paper is commander-in-chief of the Democratic party in Chilton county. That paper and that editor are longing for the day to come when they can call upon you and your children that bond measure which will tax you, your children and your children's children pay tribute to the bloated corporations of the land. You will remember how that editor belched forth his articles in favor of a bond issue some months ago. We warn the people to be on the alert. This editor has only ceased to advocate bonds pending the election, but if you let him and his associates get entire control of the county they are sure to force bonds upon you.

Surely it needs no further argument to cause you to vote against the Democratic and for the Progressive ticket. You well remember the disastrous days when Cleveland was President and you sold your cotton at from four to six cents per pound and gaunt starvation stalked abroad in this land. You know the conditions existing today in your state and county. If you want four-cent cotton, debts, higher taxes and bond issue, vote the Democratic ticket. If you want peace, happiness, progress and prosperity, vote the Progressive ticket.

In conclusion, we wish to say that we have unbounded faith in the intelligence and patriotism of the people, and that in this fight you will line solidly with the Progressive party and assist in restoring to the people government of the county, state and naton.

Respectfully,

COMMITTEE.

CONDITION OF THE COUNTY TREASURY

State of Alabama, County of Chilton. } The following statement is taken from the books of the treasurer of Chilton county on the 29th day of October, and shows the condition of the several funds in the hands of the County Treasurer at this date.

Balance to credit of General Fund ..... NOTHING

Balance to credit of Road Tax Fund..... $3933.00

Balance to credit of Fine and Forfeiture Fund.. 1326.26

Balance to credit of Redemption of Land Fund.. 122.50

I, J. W. Littlejohn, County Sreasurer of Chilton County, Alabama, hereby certify that the above statement is correct as shown by records of my office, this 29th day of October, 1912.

J. W. LITTLEJOHN, County Treasurer.

Sworn to and subscribed before me this 29th day of October, 1912

M. D. FOSHEE,
Clerk Circuit Court of Chilton County, Ala.

FOSHEE ANSWERS BOSWORTH.

Clanton, Ala., October 29, 1912.

Editor Union-Banner:

Please allow me space to answer the circular letter of Mr. Thomas Bosworth, under date of October 21st, 1912.

In the beginning of this letter I wish to assure Mr. Bosworth that I have no unkind word for him or any one else. But, on the other hand, I wish to say that I believe Mr. Bosworth has been with the Republican party and doing all he could for it since he has been in this county. I wish to say that possibly my first letter would have never appeared in print but for the fact that their chairman saw fit to issue a circular letter to the people of this county advising them to stand by the Republican ticket nominated at Maplesville, and I thought if he was a Republican, that he had turned a new leaf within the last two years. Mr. Bosworth was doubtless misinformed in regard to the mass meeting which was called at the court house for the purpose of the people of this county deciding under which emblem they would place the county ticket. If I am informed right, and I believe I am, as you told me, you were not even in this state at the time the meeting was held and had not been for several weeks before, and did not return until about the time of the Maplesville side show or convention. However, you say in your letter, or circular, that the people who nominated the ticket in May did not consent or have anything to do about their being placed under the Progressive emblem—or the walk-out, as you call it. I wish to say that every man in this county had a perfect right to express himself and to vote in this matter just as he saw fit. This meeting was advertised in the county papers for some time before the meeting and circulars were struck and sent to the various parts of the county, in order that every man in the county might know about the meeting and be there and cast his vote as he saw fit.

You seem to think that the party leaders, as you call them, dictated this meeting. I wish to say that, so far as I know, no man dictated or attempted to dictate to the people what to do, but that it was a free-for-all meeting and five hundred, or possibly more, good people from various parts of the county discussed this question and decided it for themselves. There were outside speakers here to speak in behalf of the Progressive party and they were not permitted to do so until after the people of the county had decided for themselves what they were going to do. I consider it an insult to every man in this county for any one to say that they are dictated to and are not capable of thinking for themselves. I believe that as noble and free-thinking people as ever breathed the breath of life live in this county, and that they will resent any assertion from any one that they have been dictated to or led into anything.

My remarks in The Union-Banner were addressed to the chairman of the Maplesville party, and not to Mr. Bosworth. However, he sees fit to answer it. But for the fact that Mr. Bosworth is the only man on that ticket but what voted as their chairman did two years ago—with the Democrats—perhaps the chairman or some other one of the true blues would have answered this letter. Has not the chairman been appointed postmaster, just as I suggested in my letter two weeks ago?

Mr. Bosworth, did you know that some of the leaders of your party boast of the fact that they voted the Democratic ticket two years ago, and at the same time claimed to be Republicans? Where were all the other men on your ticket, except yourself, two years ago? Ah! that is easy to answer—working within the ranks of the Democratic party, and part of them at that time holding appointments under the Republican administration.

You ask me: "Will you kindly tell the voters of this county under whose party banner you now hold the office of Clerk of the Circuit Court?" In reply, I wish to say that I was elected by the Republican party as organized in this county at that time. And I wish to say further that no Democrat in Republican clothes was the chairman or was leading that party when I was elected. How is it today as organized in this county?

I do not feel called upon to discuss the merits of the Republican ticket in this county as it now stands. I feel sure that the people of this county remember that such tricks have been tried in this county before and failed. Think back just four years. Didn't just such a ticket as this receive only 13 votes?

In conclusion, I wish to urge upon the voters of this county the importance of the coming election. There is a burden resting upon each voter and he should think well before casting his vote. Remember that every white man in this county is not allowed to do as you and I can do—go to the polls and cast his vote as he sees fit. But in this county there are several hundred white men disfranchised and not allowed to cast their votes in the interest of their country and their homes. It is just one week until the voters of this country will seal their destiny for the next four years, so far as the present candidates and the offices they are running for are concerned, from President down to constable. The fight in this county, beyond doubt, is between the Progressive ticket and the Democratic ticket, and not between Mr. Taft and Mr. Roosevelt. I believe in every man voting just as he pleases for President, as between Mr. Taft and Mr. Roosevelt. Personally I am for Mr. Roosevelt. However, we cannot affect the presidential election in the least. This state is sure for Wilson. But we can do something in the county, and why be side-tracked by any other issue except the real one. The issue is between the Progressive and Democratic tickets. Remember, a vote for the Maplesville ticket means a half vote for the Democrats.

Up to this good hour I have never heard of a single reason the Democrats have advanced why any man should support their ticket. Can it be that they haven't a single reason why their ticket should be elected? If they have, why haven't they advanced it before now? They have had plenty of time, and why have they waited? I wish to warn the people about them, at the last moment getting out circulars, as they have done before, when the people cannot hear the other side of the question. Why haven't they issued their circulars before, and not waited until the last moment, or the last issue of their paper, and then try to deceive you?

Hoping that every man will seriously consider the welfare of his country, and of his own fireside, before casting his vote at the coming election, I am.

Respectfully,

M. D. FOSHEE.

FROM HON. L. H. REYNOLDS.

Clanton, Ala., October 28, 1912.

I have thought for some time I would write a letter on the political situation in this county, but failing to see or hear any argument why the people of this county should vote the Democratic ticket I have thought it useless. However, I want to speak of a few things.

What have the Democrats done that would warrant anybody to vote their ticket, except a few that have had special privileges extended to them? They told you two years ago to vote their ticket and they would build you good roads; that they would save you money, lower your taxes, and would make things better all the way around. Now, this campaign has about come to a close, and what act can they point to and say they have improved on? They have raised your taxes and the condition of the roads in the county is worse. I ask you, how many of the voters of this county would endorse the apropriation of $8,000.00 of your honest taxes over at Maplesville, to be wasted over there just to help a few people? Is it right to tax the people all over the county to build up a few miles of road for a few people?

Now they say it was not by the Democrats that this was done. I ask you, who was the first to suggest the taxing of the people to help Maplesville? The Clanton Press was first to champion their cause. Who was it that was putting forth such an argument only a short time ago for bonds? The Clanton Press. Who has suggested the policy that is being carried out in this county? The Clanton Press. Who did the Democrats say two years ago was responsible for every act of the Commissioners' Court? They said the Judge of Probate. Is the Judge of Probate responsible now? It is clear to the voters of this county that the Democrats are responsible for the present policy of this administration.

I want to say in conclusion to the people of this county that this question will be up to you for your decision the fifth of next month. If you are satisfied with the present condition then you ought to vote the Democratic ticket. If you people in the rural districts want to be taxed to help a few pets of the Democrats, then vote the Democratic ticket. If you want bonds and debts, then you can get them by voting the Democratic ticket.

I am sure that a large majority of the people of this county are opposed to the present management of things. Now, if you will go to the polls early and work for the election of the ticket nominated by the people, you can win, but if you stay at home, or take no interest in the election, then the other fellow will win.

Watch out for circulars; the last few days are circular days with the Democrats. They always depend on fooling the people. They wait until it is too late to answer their false reports. They are preparing now to get out statements to try and confuse the voters at the last moment. They hope to get help from the so-called Republicans in this campaign to elect their ticket. I think this is an important time, it is the time for all men who want a free government to come out and exert their rights at the ballot box. Remember, the issue is fairly drawn, with low taxes on the side of the people, and wtih high taxes, bonds, debts, extravagance and waste of money on the part of the Democrats. It is with you. Pay your money and take your choice.

Respectfully,

L. H. REYNOLDS.

We learn that there is not a single dollar in the general fund of the county, nor has not been for 60 days. Does this account for the bills being continued until the November term, after the election? The Democrats say the taxes were reduced in 1910 to 40 cents for political effect, and that is the reason the county is out of funds. The steel bridge over Yellow Leaf creek was paid for out of this low rate, and it cost something like $2,400.00, and there was enough money left that year to run the county. But in 1911 our taxes were raised from about $20,000.00 to about $37,000.00, and yet before the year was half gone the treasury was busted. We wonder what this raise was made for—if the reduction was made for political purposes. For Democratic purposes, we guess. Please explain to us how you can pay $2,400.00 for a steel bridge out of low taxes and have plenty of money left for that year, and then you almost double the taxes, build no bridges, make no improvements, and the county is busted. The only answer to the above problem is—the Democrats are in office.

How do the people of this county like to be taxed to help a few of The Clanton Press' pets around Maplesville? There was a road let out just last week for $8,000.00, and the state engineer says it will not build more than two miles. This will take all the bridge and road taxes we now have and then have a debt over the county to be paid later. Is this fair play? No, indeed; no wonder the people rebel against their government. Our forefathers were taxed without representation and they spent their blood for their rights and the redemption of their country. What will the people of this county do under such conditions as the above? We have the ballots and there is the place to redeem your county from such rule and ruin and place it back in the hands of the people.

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

CLANTON COTTON MARKET
Price to day.....10c

Miss Annie White, of Deatsville is the guest of Mrs. M. L. Walker.

Mr. and Mrs. Eugene Evans spent Tuesday in Montgomery.

Miss Lucy Moore returned to her home at Montevallo, after a pleasant visit to Miss Kate Davis.

Sprains of the face, shoulder, hands or feet requires a powerful remedy that will penetrate the flesh. BALLARD'S SNOW LINIMENT possesses that power. Rubbed in where the pain is felt is all that is necessary to relieve suffering and restore normal conditions. Price 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Mrs. Minnie Muse has just received a new shipment of millinery and is prepared to sell you a hat cheaper than can be bought elsewhere. Call and see.

Use Eagle Whistle Soda and take advantage of special offer on a set of Sterling Silver-plated Rogers & Brothers Teaspoons.

Mrs. S. J. Watts visited the old Soldiers Home at Mountain Creek Sunday.

Dr. T. O. Wilson spent several days in Prattville last week on legal business.

W. M. Beatty, Little Rock, Ark., says: "For the past two years I suffered with kidney trouble, had severe pains across my back and over my kidneys. It almost meant death to me at times. I used several well known kidney remedies, but got no relief until I used Foley Kidney Pills. These, I can cordially say, made me a sound and well man."—Upchurch Drug Co.

Miss Emma Dunlap visited relatives at Spigeners Sunday.

Tickling in the throat, hoarseness, loss of voice, indicate the need of BALLARD'S HOREHOUND SYRUP. It stops the lungs, quiets the cough and restores health in the bronchial tubes. Price, 25c, 50c and $1 per bottle. Sold by Upchurch Drug Co.

Miss Roberta Hayes returned Monday from Birmingham where she has been for several days visiting her sister, Mrs. Howard McGaney.

Don't forget the sale of millinery at Taylor's store. See their big advertisement. They are not going to be undersold by anybody. Hats from 45c up to $1.98. Correct styles and cheap prices.

If you have young children you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by Alred Drug Co.

Miss Ruby Downs spent a few days in Birmingham last week.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headaches will disappear. For sale by Alred Drug Co.

Miss Willie Reynolds is at home from school at Montevallo to spend a few days.

W. A. Rimes, Ruston, La., writes: "Some time ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble."—Upchurch Drug Co.

Miss Minnie Muse spent Sunday in Montgomery.

F. A. Wootsey, a brakeman at Jacksonville, Texas, says: "I was down with kidney trouble and rheumatism so bad I could hardly get up, and had backache all the time, and was almost tired of living. I saw an ad of Foley Kidney Pills and after taking one bottle I was better, and when I had taken two more I was thoroughly cured."—Upchurch Drug Co.

Mrs. Clifton, from South Highland Infirmary, Birmingham, is spending a few days with her friends here this week.

Mr. Bill Mullins, from Howard College, spent Saturday and Sunday with his parents.

J. C. Ray, Winfield, Ala., says: "My father, T. J. Ray, suffered with kidney and bladder trouble so bad he had to use a catheter. Various kinds of kidney remedies were tried without result, and finally we gave him Foley Kidney Pills. In three days he could pass some water and on the fifth no longer needed the catheter. He continued to use Foley Kidney Pills until entirely cured."—Upchurch Drug Co.

Judge A. P. Longshore, of Shelby county, was in town a day or two last week.

Deputy Sheriff Smitherman has gone to Guntersville, Ala., for Walter Knight.

Mr. and Mrs. W. D. Spigener, visited Montgomery Friday.

Wm. A. Allen, Chacon, New Mexico, writes: "My wife had a cough that almost choked her to death—the worst I ever saw. We tried everything we could think of, but did her no good. By good luck I happened to get a bottle of Foley's Honey and Tar Compound and it helped her at once. It is the best cough medicine I ever heard of."—Upchurch Drug Co.

Misses Ollie Miller and Pearl Logan, of Rockford, are visiting relatives in Clanton this week.

A large crowd assembled at the court house Saturday afternoon and enjoyed the eloquent and convincing speech of Judge A. P. Longshore, of Shelby.

J. C. Jones has some important news in this issue. You wont have any trouble finding it.

Miss Esther Shaw, of Jemison, is visiting Clanton this week.

Mrs. H. Simpson returned Monday from a visit of several days to Montgomery.

Mr. H. Kanjusky visited Montgomery Sunday.

Miss Minnie Guinn, of West Point, Ga., is the guest of her sister, Mrs. McD. Ruffin.

Mr. Wade Guinn, of New Orleans, is visiting his sister, Mrs. McRuffin.

A LARGE SALE

The Gamble Hardware Co. the first of the week sold forty stoves to McArthur Bros., the contractors of the big river dam. This shows that they are able to meet orders of any size. As the contractors have unlimited money and buy where they can do the best, it is a compliment to Mr. Jones, the manager of the hardware company, to make the sale in the face of competition with all other markets.

REMEMBER

You can always buy a good second hand Machine cheap at the Singer Store; Needles, Oil, Bands and Cans. C. Reese Mullins, Agent. 10-17-4t.

CHILTON COUNTY FAIR

A SUCCESSFUL OPENING

FINE DISPLAY GOOD ATTENDANCE

The Chilton County Annual Fair opened on Tuesday morning with a large collection of domestic and farm products on display.

The formal opening was held at high noon, when addresses were delivered by Hon. Tipton Mullins and Judge Sam'l L. Adams. Both addresses were listened to with great interest, and both highly commended by the large and appreciative crowd.

There were the usual number of side shows—some of which are deserving of patronage and were quite unique. The "Dodging Ducks" afforded great amusement, as they were well trained and showed great skill in avoiding the rings thrown at them.

The exhibit of poultry was especially fine, there being a large variety of chickens, well kept and well bred, and these attracted the greatest attention.

The exhibition of swine was good, as was also that of horses, mares, colts, cows, calves and other farm products.

Some of the finest products, consisting of home grown potatoes, onions, cabbages, leftuce and cucumbers, with the large variety of seeds, garden and field, met with much commendation.

On the whole, it is a good show, the only regret being that there is not enough room—not space enough. This will doubtless be remedied in time and the county of Chilton will make an exhibit of its products and resources that will be the envy and equal of any other county in middle Alabama.

NOTICE

The County Registrars will be at the Court house in Clanton to register voters on November 1 and 2, the Friday Saturday before the election.

HOME COMING DAY FOR THE CLANTON BAPTIST CHURCH.

By order of the Church in regular conference assembled, November 3rd, 1912, was fixed as Home Coming Day, it being the 40th anniversary of the Clanton Baptist Church. The following program has been arranged:

10:30 a. m. Devotional Exercises, Pastor W. M. Olive.

11:00 a. m. What the Church has accomplished, Rev. F. M. Woods.

12 m. Recess.

1:30 p. m. What the Church stands for, Rev. J. G. Lowery.

2:30 p. m. The Possibilities of the Church, Rev. A. C. Swindall.

7:30 p. m. Preaching, Rev. R. M. Hunter.

We hope to make the 3rd day of November, 1912, the greatest day in the history of our Church. We extend a cordial invitation to every one to visit us on that day, more especially the former pastors and members. Come, we will be glad to see you.

Respectfully,
E. B. Deason,
W. H. Sartor,
W. I. Mullins,
Committee.

2:50. Business.
3:00. Adjourn.

Everybody is requested to come and help enjoy the blessings of the day.

(Miss) Margarette Wood, Sec'y.
F. E. Williams, Pres.

LAZY LIVER SPOILS DAY'S WORK

Don't Let a Torpid Liver Knock You Out of a Day's Work—There is a Better Way—Read About It.

A man feels very little like working and a child don't want to go to school when bilious or constipated. If you try calomel to cure you the chances are that you will be so weakened by its after-effects that you will be laid up for two or three days more. So we say "Don't take Calomel." We have a perfect substitute that we can fully guarantee to cure constipation and liven up the liver just as quickly as calomel, but without any of the bad after-effects of calomel. The name of this tonic is Dodson's Liver Tone. It is a pleasant tasting vegetable tonic that mildly stimulates the liver and causes it to work just right to cleanse the ody without any danger of salvation. When you try it if you do not say that it is a perfect substitute for calomel, come right in and get your money back. The Alred Drug Company, ey back. The Upchurch Drug Co.

H. E. Archer, merchant, of Westover, Ala., states: "My boy had a severe attack of acute bronchitis, so severe he could not get out of bed for a week. The first few doses of Foley's Honey and Tar relieved him and before we had given him the contents of one bottle, he was well. Foley's Honey and Tar Compound is kept continally in our house. It is perfectly safe and effective."—Upchurch Drug Co.

BARGAIN SALE

L. H. REYNOLDS, Clanton, Ala.

MAKE THE MOST OF THE OPPORTUNITY.

For a number of years the people of this county have been dissatisfied with the organized parties claiming their allegiance; some have tried the Democrats, some have tried the Republicans, but most of them have had occasion to feel that the interests of the people as a whole were neglected and to wish for a party representing truly the rank and file of the people. This feeling of dissatisfaction has in large part been due to Democratic mismanagement and ring rule in state affairs. The opportunity is now given for the people in combined strength to take matters into their own hands and rid themselves of old rings, under whatever name. The Progressive party in its platform and make-up appeals to all who wish to see the affairs of county, state and nation administered in the direct interest of all the people, with no class favoritism. So, if you as a voter really desire the relief you have prayed for, you will take your place among the Progressives and cast your vote next Tuesday for the men selected by the party to represent you.

The Clanton Press persists in its effort to couple woman suffrage and the race question and to make the hybrid combination an issue in this campaign. It can claim originality in the charge, for no other Democratic paper we have seen descends to such nonsense. Every one knows that the Southern States will take care of the race question and that woman suffrage will be decided in each state and not at Washington. If woman suffrage is ever granted in this state it will be with the same limitations and safeguards provided for male suffrage. It will never be given, male or female, only to the delicate and refined who are able to employ labor, as The Press evidently would have it. The man in overalls and the woman who does his cooking and washing will be equally respected with those who, living off their labor, have an easier time in life. The white men and women in Alabama will rule it; but not the black belt aristocracy, who affect to despise the men and women who work.

But, as The Press has few readers and a still smaller number of them have any regard for its opinions, we must apologize to our readers for having given undue publicity to its rantings.

You, Mr. Reader, as an intelligent voter, have doubtless decided what course is best for you to take in casting your vote next Tuesday. Be progressive enough to vote as you please and not to be dictated to by any ring. Be sure to cast your vote and see that it is counted as you voted it.

The Progressive party stands for all that the experience of a century of politics has proven to be the best, but it holds on to nothing merely because it is a part of the traditions of the past. What is good is kept; what is useless or bad, discarded; what is needed, added. It is the party of today, based upon the requirements of tomorrow. It is truly the national party; its strength in both state and nation will be shown to be very great next Tuesday, and whatever may be the result of that election, it will continue to gain in strength until it places national and state affairs on the right basis. So if you enjoy being on the right side from the start you will see that it is best for you to vote with the Progressives next Tuesday and keep on voting with them until the people of the country are assured of a square deal.

We wonder why the county has been paying $25.00 per month for water this year, and who they have been paying it to. We wonder also why he has not put in his bill for pay. Is it because he was afraid some one would criticize the officer for making such a contract with him, as it is reported that he contributed to the officer's campaign fund two years ago very liberally. Why didn't this officer carry out the Commissioner's order and have the county water works fixed and save the county this money?

It is reported that the Democrats will make a financial statement of the county affairs at the last moment to confuse the people. We hope they can tell us why the Probate Judge has kept back his bills of $2,000.00 and why they have not paid the election officers for the last three elections. Also explain why they have not paid the school enumerators for their services. The county is in debt to 450 election officers, and about 70 or 80 school enumerators, and we wonder how many more they owe.

Are the Democrats in this county standing for or against anything in this county? From what they are doing and saying in their paper they are neither for nor against anything. About a year ago they were very anxious for bonds; how is it today with them? Why don't they explain?

In the issue of The Clanton Press under date of July 13th, 1911, the following headline apeared on the first page: "THE ISSUE IS JOINED," and the first sentence written under tfiis large headline was as follows: "The Press wishes to come out boldly for a bond issue for good roads in Chilton county." Where do they stand today? We bet you could not smoke them out on this issue in six months, if the election was that far off. Just listen after the election, if they win.

The Press man states that "M." is due to sprout Bull Moose horns. Some one might suggest that such an ardent admirer of the Democratic donkey sports ass' ears, as a reply in kind.

After a careful diagnosis of the case, we issue the following bulletin: "The editor of The Press is suffering from an acute case of constipation of thought and diarrhoea of words. The patient is harmless, however."

After all that belabored effort of last week The Press man couldn't get around the fact that he had cast a slur at the good women who are for equal suffrage. But right will win and the good women will move along with their noble work unmindful of the barking of The Press.

Voters, go to the polls on November 5th early and stay late and work in the interest of your party. In working in the interest of your party you are also working in the interest of your own home and loved ones. The ballot is your only remedy to correct the errors and wrongs in the affairs of your county.

The Press man must have fallen on the butt end of his head when he was a baby and injured his think-pot. He argues that to give the ballot to white women would place them on the same plane with the negro women, if the negro chanced to have the ballot also. Neither have the right of suffrage today. Does The Press man dare say they are equal now? His logic is something fierce, isn't it?

The Clanton Press, under date of July 27th, 1911, had the following headline on the first page, as follows: "BEYOND THE ALPS LIES ITALY," and the first few sentences under this headline were as follows: "The Press is not greatly surprised to see certain papers cry out against a bond issue. That was to be expected. We are confident that they are opposing it, not so much because they think it undesirable, but merely because The Press stands for it." The Press is the official organ of the Democratic party. If The Press is for bonds, how is the Democratic party?

The Democrats in this county seem to be entirely out of anything to say in their own behalf, and have to resort to outside help. In their paper two weeks ago appeared a letter from a man claiming to be a Republican. However, this same man wrote a letter in The Press under date of August 31st, 1911, and one of the paragraphs in his letter reads as follows: "For one, I wish to say that I will continue to vote the Democratic ticket so long as we have such leaders as we now have in the Republican party." Do they have to stoop to such as this to deceive the people to win? Get Democrats to come out and say they are something else or belong to some other party, trying to draw the people's attention from the Democrats and their record and get it on some side issue. The same man that wrote the letter in The Clanton Press is the same man who ran for office four years ago on a true blue Republican ticket, and did not get a single vote at his own box, but supported the Democratic ticket himself. They take it turn about—Killgore one week, Edwards one week and Calloway the other. Look out for Killgore or Calloway this week; it is their time to have their say. Great fellows, they are. Beyond doubt, the Democrats are in a tight when they have to do such as this.

FROM H. A. HARRIS.

Cooper, Ala., Oct. 28, 1912.

Editor Union-Banner: Please give me space in your paper to say a few words concerning the political conditions of the day. I wish to urge every one interested in the cause of the Common People in our great country, and especially those interested in the welfare of our county to turn out on November 5th and vote for the ticket nominated by you in May. It may be that some will vote for Mr. Roosevelt and some for Mr. Taft for president. That you have a perfect right to do, but think well before you cast your vote and see which party stands for the progress, prosperity and upbuilding of the Common People, that is the laboring class of people, and then cast your vote accordingly. Above all beware of those so-called Republican conventions that met at Maplesville and elsewhere claiming to be TRUE Republicans and holding your interest at heart. They are nothing more than co-wokers of our great enemy, the Democrats, and are doing everything possible to cause a split in our party, and to defeat our County ticket by claiming to be the TRUE Republican party. We know, and they acknowledge, they have no hope of electing their ticket. Then what does it mean? The defeat of the people's cause and electing the Democrats to office in our county if possible. The leaders of this great (so-called) movement, care nothing for the success of their ticket and will themselves at the last moment vote the Democratic ticket. Now, brethren, we have had enough Democratic rule and ruin. Look at the condition of our state and county treasury's and look at the outstanding accounts unpaid against our county and then look at the conditions when Judge Reynolds was in office and cast your vote accordingly. Now in conclusion let me urge each of you to go to the polls on election day, and get your neighbor to go and elect our ticket by the biggest majority ever known in the history of our county.

Yours for the success of the ticket.
H. A. HARRIS.

FROM J. DUDLEY COLLINS.

Collins Chapel, Ala., Oct. 28, 1912.

Editor Union-Banner: I would like to say a few words to the people through your paper. I wish to say that it is but a short while until election day. Then every Qualified Voter in the county should go to the polls and cast his ballot for the best man or set of men in the field. I do not say that I am the one you should vote for; that is for you people to say, and I hope that on election day a majority of the people will say by their ballots that I am the man for the place. Assuring you if I am elected I will do all I can to make you as good a Tax Collector as is possible for me to do, I will also show you all the accommodation that I can. You will always find me ready to help you in any way possible. I want to also say that my opponents have all treated me as nice all the way through as men could, and I hope they have the same feeling toward me.

Thanking you all in advance for your support,
J. DUDLEY COLLINS.

FROM J. S. HALL.

Cooper, Ala., Oct. 28, 1912.

Editor Union-Banner: Please allow me space in your paper to say a few words upon the political situation as I see it today. First, I want to say that I have been voting for about forty years, and was here during the reconstruction days, and I want to say that every vote I have cast in the past has been for the Democratic ticket. But now I want to say that as I see it we are confronted with a new era, and we have new conditions to be met, therefore the time has come that old traditions should be broken, and the salvation of the South depends upon two strong white political parties, and as I see it the Progressive Party fills the long felt want of the people, and offers an oportunity to remedy the evils of the nation. I shall therefore at this time vote the Progressive Ticket, and I urge the voters of Chilton County regardless of past party affilliations, at the coming election to cast their votes for the Progressive Ticket. Feeling that at this time we will elect the Progressive ticket and down the old Democratic regime, I am,

Yours for Progressive success,
J. S. HALL.

FROM ROBERT WILLIAMS.

Maplesville, Ala., Oct. 29, 1912.

Well the campaign has nearly come to a close and I must say that I am almost astonished at the claims of the three old parties. Not a single one of the has advanced an idea why they should be supported. Of course everybody knows that the few fellows that met at Maplesville do not intend to be elected, they are only trying to elect the Democrats.

I see Mr. Sam W. Collins could not come back at Mr. M. D. Foshee for he knew he had helped to elect Democrats the last time, and I expect every other time. I expect Mr. Bosworth was the only one of the fifteen that met at Maplesville that could answer Mr. Foshee, as he is the only one that supported the Republican ticket last election.

I wish every voter in this county could and would investigate the Progressive Party before they voted this fall. I think the new party is the solution of the political problems of this county. I believe 85 per cent of the voters of this county would vote for Mr. Roosevelt if they were to vote their convictions. I believe we could unite the people of this county on the Progressive party. I would like for the people of this county to stop and consider the condition of this county before they vote. It has been shown that we have paid $16,000.00, more taxes this year than last and no improvements made; in fact, we have gone backwards, and yet the county is busted. Just think of such a proposition for our officials to put $8,000.00 of our taxes on two miles of road for a few fellows around Maplesville, just because they are Democrats, and threaten to get out of the county. If we have to be taxed $16,000.00, a year to keep them in the county I think the sooner they get out the better for us. Of course some of the officials are trying to fool the people, by making them think they will build the road to Clanton. But any man with half sense knows it will never reach Clanton, if the commissioners had intended to build it to Clanton they would have started at Clanton.

I wonder if 10 per cent of the people are in favor of the management of the county affairs as they are. I am sure it was done not by the Commisioners so much, but by a few bosses at Clanton. I am sure we will elect our ticket this time. I would advise the people to watch their business at the last hour, and if there is anything published the last moment it should not be believed.

ROBERT WILLIAMS.

FROM JOHN BAKER, SR.

Clanton, Ala., Oct. 28, 1912.

To the Voters of Chilton County: We are nearing the most important election held for many years in this county. Two years ago I saw fit to cast my vote for the Democrats, and part of their ticket was elected. And since that time the people's taxes have been raised, the roads are in bad shape and the treasury is empty. I can see nothing they have improved and in fact everything seems to be going down in this county. I wonder what it will be in four more years; the Lord only knows. I wish to say that I believe the Democrats if elected this time fully intend to try to force the bond issue upon the people of this county. At this time they are very quiet on the subject; how was it a year or so ago? Think well, people, before you vote. I am going to the polls and cast my vote for the Progressive party from top to bottom and try to return the affairs of this county back in the hands of the people, and save the county from bonded debts, high taxes and bad roads.

I wish to urge every man to come and cast his vote for the people's interest, and work for the Progressive ticket.

Respectfully,
JOHN BAKER, SR.

FROM A. F. MIMS.

Clanton, Ala., Oct. 28, 1912.

Editor Union-Banner: I have been very busy this season and have not had very much to say about politics, so I am asking a little space to let the boys know that I am still with them and doing all I can for the Progressive ticket.

Boys, if there ever was a time when we should stand together and fight for our rights, that time is now. Let us stand firm and be not influenced by that little old Clanton Press, a paper that cares no more for the rights of our people than it does for a yellow dog. Just think how it slandered the good women who are trying to better conditions.

The democrats are still hollering "negro," but we are not disturbed by that old saw. But, men of Chilton county, do you know that a Democratic administration in this state is giving sixteen thousand dollars to one negro school at Montgomery which is attended by a thousand negroes, while that same democratic administration only gives sixteen thousand dollars to the six thousand white children in Chilton county? So, you see, the democrats care more for the negro child at Montgomery than for the white child in Chilton. This negro school at Montgomery is taught by a white democrat.

All the democrats want is the office. Just as Prof. Williams stated in his speech Thursday night at Cross Roads, that if he was elected Superintendent of Education he would run the office just as he pleased; so that is the way with all Democrats.

So, boys, let's close ranks and elect the Progressive ticket from top to bottom and then we will have officers who will do as the people want them to do.

Hurrah for Roosevelt and Johnson, the champions of the people.

Yours for the people,
A. F. MIMS.

HERE AND THERE.

They tell us that Judge Deason made a very nice speech at a certain place the other night, in which he told his hearers of some good things in low tariff, viz: We could get saddles, shoes, etc., so much cheaper than under the present administration. Yes, very true, but he failed to tell them about what they would get for the raw material, viz: Hides, cotton, etc. But if the judge will assure us the present high prices for the raw material and cheap goods in return as he says, it is a trade. Now, the judge put the "puppies in the basket, put on the lid as well as he could, but they would not stay put." They came crawling out. The Press in referring to Mr. Blackmon's nomination says, "Let the people rule," evidently pleased at Blackmon's vote, yes, we say amen. Let the people rule if it lands Mr. Blackmon in the White House. But will the Press with equal emphasis say the people should have ruled in the past? If they had we believe R. F. Kolb would have been governor of Alabama, Judge Adams, commissioner of agriculture, Judge Honeycutt, probate judge several years earlier than he was. Judge Reynolds state senator, but they failed to rule.

"AN OLD OBSERVER."

Trapped.

"Don't you love me or do you?" asked the western girl. The eastern man studied for a minute and answered: "The former." And he tried to conceal his surprise when she threw herself into his arms.—Cleveland Plain Dealer.

FROM J. J. L. STEWART.

Maplesville, Ala., Oct. 27, 1912.

Editor Union-Banner:

As the time approaches for the people of this government to decide to who shall be our president for next four years, will you allow me to say a word to the voters of Chilton county, and before I commence allow me to say that I am too old to hold office, that I have not received a cent of any campaign fund and am only saying what I do in what I think is the interest of all our people. I have no abuse for men who differ with me, no mind to sting anyone, but shall simply give my views in a dispassionate manner and ask that the reader may judge them, not the author or what his mistakes may have been, but by the truths he may present.

We are in the midst of the most strenuous campaign known to American history. Vituperation, and let me add, attempted assassination has been the principal [illegible] used to defeat one man and the it may be contended that this attempt was made by a partially [illegible] man the fact remains that the stinted abuse of Roosevelt led to it.

It may be argued that none of the old parties were responsible for but the fact is that none of them failed to abuse. All without exception characterize him as the most dangerous man in America. This led a fool in the country to think he was doing the country a service to rid of him. You hear on every hand cry, don't elect him he will turn this country into a kingdom and have his children to reign by inheritance. At lot of bosh that is an insult to people of intelligence and made to scare the ignorant.

Again they hollow third term as opposed to tradition and precedent. How many men in the house of representatives and the senate have been there for years and are now candidates? Is there any cry going up about third terms there? Is not Morgan and Pettus both dictators, after a long term each? Was this any reason for turning them out? No, and for this reason Alabama kept them. Right, now how long has Bankhead been in the senate? Then why this hue and cry about third term stuff of the same kind?

Notwithstanding the fact that the old bugaboo tariff is so old that the memory of man can hardly run far enough to trace its origin, I will say that the best I can get out of it is that it was a bone of contention in the days of Benton, Calhoun, Webster and is no nearer settled now than it was then, yet it is a panacea for all ills; one up the down and the poor can then [illegible] sand, and though the democrats [illegible] for tariff, for revenue only, yet [illegible] Underwood lost the vote of [illegible] iana because he wanted to [illegible] the bounty on sugar.

There is one thing I would [illegible] the attention of the voters of [illegible] county. Ask a Wilson man his [illegible] erence between Taft and Roosevelt he answers Taft. Ask a Taft man his preference and it is Wilson. Then examine the Roosevelt platform and see if it is not superior to both on the tariff question, yet they will ignore all their own declarations and down the Bull Moose.

I have had placed in my hands to-day a pamphlet by Mrs. Annie [illegible] Hale, it was given me by a democrat to him by a republican to [illegible] its contents. I can't tell whether it is a republican or a democratic document, but let me say read it my fellow countrymen and note on the last page what is said of Wheeler, [illegible] ing down Roosevelt.

Read also commencing on page Roosevelt's round robin, [illegible] as a matter of humanity he was to remove yellow fever and [illegible] only a colonel he was sustained every general in the Cuban war (page 27). Yet this author the woman would have you vote him because she has been [illegible] write it.

Look again on the illustration opposite page 40 and you who have been trying to arouse prejudice against him on the negro question tell me what it means? If you will that read the concluding paragraph on page 40. I am perfectly willing to submit Roosevelt's facts and figures to the people if you will cut out the bibles and take the facts.

In conclusion, Mr. Editor, I will say, I am supporting Roosevelt because I think he is the man to settle the unrest that is in our fair country on both sides of the line. Enough of back bone to antagonize trusts and to do justice to the people without regard to [illegible] conviction.

Respectfully,
J. J. L. STEWART.

Old Tree of Historic Interest. Sir Sidney Pocock, J. PUBLIC SPEAKING

There will be speaking, in the interest of the Progressive ticket at the following times and places:

New Hope, Beat 12, Nov. 1, 7 p. m.

Beth Salem, Beat 6, Nov. 2, 7 p. m.

Thorsby, Beat 9, 7 p. m., Nov. 4.

The following speakers will address the people at the above named times and places: Judge A. P. Longshore, Hons. J. O. Middleton, J. W. Alexander and others.

All persons regardless of political affiliations are cordially invited to attend these meetings. The ladies are especially invited to come. M. D. FOSHEE,
Chairman Progressive Campaign Committee.

On account of the joint debate on Saturday there will be no Progressive party speaking in Clanton on Monday.

JOINT DEBATE

The Progressive Party, represented by Hon. A. P. Longshore, and the Democratic Party, represented by Congressman Fred L. Blackmon, will address the people of Chilton county on the issues of the day, at Clanton on Saturday, Nov. 2, 10:30 a. m., at Verbena on Monday, Nov. 4, at 10:30 a. m., at Thorsby, Monday Nov. 4, at 7 p. m.

All those interested in the political welfare of the country are especially invited to attend.

A cordial invitation is extended the ladies.

CONTRACTS FOR STATE AID ROADS AWARDED

Contracts for state aid roads were awarded this week in Jefferson and Chilton counties, according to State Highway Engineer W. S. Keller who has just returned to the city.

The work in Chilton county will consist in grading about FIVE miles of road from Maplesville leading east toward Clanton. The road may be gravelled later on. The contract for this work was awarded to J. G. Brown, of MONTGOMERY, the cost being $8,000.

—Montgomery Journal.

FAIR NOTES.

The second day of the fair brought out a large number of people and the interest is daily increasing. The demand on our space this week prevents our giving the fair the attention it deserves.

Thursday afternoon will be Baby Show, when some of the finest products of the county will be exhibited.

Friday morning at 11, Hon. R. F. Kolb and O. P. Ford, State Pres. F. E. C. U. will make addresses. Every farmer should be sure to hear them.

The Juvenal shows are superior to the usual run of such shows and give satisfaction to all.

Stop That Itch!

I will guarantee you to stop that itch in two minutes. A 25 cent bottle will prove it.

No remedy that I have ever sold for Eczema, Psoriasis, and all other diseases of the skin has given more thorough satisfaction than the

D. D. D. Prescription for Eczema

I guarantee this remedy.

UPchurch Drug Co

FOR SALE.

Forty acres of land with good three-room house and good outbuildings, a good well of water, 10-acre pasture, good, big hay lot; one-quarter mile to Methodist Church, half mile to Baptist Church; three-quarters mile to District School house. Apply to J. A. Johnson, Route No. 1, Clanton, Ala.

English "Hunting Parson."

The Rev. Lawrence Capel Cure, rector of Abbess Roding, whose death is announced, was known throughout West Essex as the "hunting parson." He invariably wore the old-fashioned smock and tall hat and was a familiar figure at the meets of the Essex hounds, which he attended regularly enough in his seventy-eighth year.—London Evening Standard.

Right Men Always on Hand.

One of the most striking features of the present decade is the miraculous way in which the right people have appeared to meet new needs.—Exchange.

JEFFERSON COUNTY MAKES AN APPEAL

CAMPAIGN COMMITTEE ASKS SUFFRAGISTS OF STATE TO VOTE FOR AMENDMENT TO CONSTITUTION.

PERMIT REDUCTION OF FEES

If Proposed Change is Adopted Local Laws Can Be Made Fixing Compensation of County Officials of the Imperial County.

I believe that I voice the sentiments of almost every man and woman in Jefferson county of every political persuasion when I ask the voters of the state of Alabama at the approaching election to cast their ballots in favor of the amendment proposed to the constitution of the state with reference to the fee system as it prevails in our county.

Never in the history of Jefferson county has there been a public question upon which the people of this county were so united and so enthusiastic. In view of the fact that the proposed amendment directly affects no other county in the state, and in view of the fact that the people of Jefferson county to a man are in favor of the amendment, the voters of the balance of the state might well record their votes in favor of the amendment, inspired only by their characteristic feeling of kindness and good will towards this county. From time to time I have heard it said that the people of the other counties of the state were jealous of Jefferson. My own experience and observation convince me to the contrary. There is not a county, there is hardly a hamlet in the confines of the state of Alabama, that has not contributed of its people and its money to the upbuilding and development of our community. Birmingham and Jefferson county are united by bonds of interest and kinship with the people of every county and community in the state. Moreover, the position of this county in the state of Alabama is so important that the vital problems of this county rise far above the level of local politics. I believe if the voters of the state of Alabama understand the proposed Jefferson county amendment and the reasons for its submission the majority in its favor in the approaching election will be as great in every other county in teh state as it will be in the county of Jefferson

The constitution of the state of Alabama, section 104, provides that the legislature shall pass no special or local law increasing or decreasing the fees, percentages or allowances of public officers. Under this constitutional provision no law can be passed reducing the compensation of the sheriff or probate judge of Jefferson county that does not at the same time reduce the compensation of the sheriff or probate judge of every other county in the state of Alabama, and no law can be passed increasing the compensation of any county officer in the state of Alabama that does not at the same time increase the compensation of the same county officer in the county of Jefferson. As a general rule, the county and state officers of the state of Alabama are modestly, if not inadequately, compensated. I believe it would be conservative to say that the sheriffs in four-fifths of the counties of the state of Alabama are poorly paid. The sheriffs, probate judges and clerks of court all over the state of Alabama are compensated by what is known as the fee system—that is to say the law provides certain stipulated fees for certain stipulated services. For example, the sheriff is allowed so much for each arrest made, the probate judge so much for each deed recorded, and the clerk of the court so much for each paper issued, in nine-tenths of the counties of the state of Alabama the small volume of business done yields, on the basis of the fees fixed by law, but moderate compensation to the county officials. In the county of Jefferson, well informed men estimate the annual income of the sheriff of the county at from $30,000 to $50,000, the annual income of the clerk of the criminal court at from $20,000 to $30,000, the annual income of the probate judge at approximately $20,000, the annual income of the clerk of the city court at from $12,000 to $20,000, and incomes almost equally large for many of the other county officials; these estimates being of the net income after the payment of all expenses. Is there a voter in the state of Alabama who does not consider such incomes for the county officers of Jefferson county excessive, improper and indefensible? If the compensation of the sheriff of Jefferson county can be reduced by law from $30,000 to, say, $6,000, the balance can be turned into the public treasury.

But the mere fact that certain officers of Jefferson county are paid out of all proportion to their services, and out of all proportion to all the other public servants in the state, is the least part of the evil of the fee system from which this county is suffering. The tremendous profit to be derived from the more important county offices of Jefferson county has resulted in such campaign for those offices as I hope and believe are unknown elsewhere in the state. It is generally believed in this county that the various candidates for the sheriff's office in the last county campaign spent in the aggregate from $75,000 to $100,000. In the last few campaigns for our more important offices similar expenditures have been made. So rich are the prizes that in their efforts to win them sensible men encounter financial ruin and the sucessful candidates achieve victory at an appalling cost. It is generally believed that at times some of the successful candidates for our most important county offices have achieved success on behalf of what are known as syndicates—that is, the office does not belong to the man who has been elected to it, but the control and profits of the office are divided between the successful candidate and his more important backers. In what is said in this article of the evils of the fee system not one word is meant or directed against any individual. It is the system that we blame, not the individuals who have been influenced by it. It is the system that we are fighting, and the fight is meant to reach to its roots. Every thoughtful man in Jefferson county knows that in each successive compaign the struggle of the rival candidates is more determined and the aggregate of their campaign expenditures larger. What is the result? Seventy-five thousand dollars cannot be spent on a sheriff's election in Jefferson county without a tendency to debauch, corrupt and lower the standard of the electorate of this county. Subordinate officials of some of our great industrial companies, who are supposed to be close to and influential with the workmen, are sought out by candidates for office and paid for their influence. Money is planted not only in the city, but in the county, with men who should be ashamed to take it because their influence is supposed to be worth the price. Each year the sheriff's office of Jefferson county, as the result of the increase in our population and wealth, becomes more valuable. Each four years sees an increase in the amount spent to win the office. The man who has once received money for his vote or influence rarely ever thereafter considers an election from any other standpoint than what he is going to get out of it. Unless the fee system in Jefferson county is changed, so rich will become the spoils, so debauched the conscience of many of our voters, that the division of the public loot in another ten years will be the effective battle cry in every campaign. Does this concern alone the people of Jefferson county, or is it not true that the political morals of Jefferson county cannot become debauched without menacing the welfare of the state? This county is powerful today in state affairs. Every year witnesses an increase of this power. The more sordid, the more commercialized and the more corrupt the politics of this county, the more pernicious will be its influence in the legislature at Montgomery and in state politics.

There is another result of the tremendous expenditures for our county offices caused by their swollen income. The clerk of the court has nothing to do with creating the business that passes through his office, nor has the probate judge. But what of the sheriff? More than one candidate for the office of sheriff of Jefferson county has achieved victory by draining the finances of himself and his friends. When he has won the office, at a cost of, say $50,000, what must happen, however honest he may be? He and his financial backers realize that in order to reimburse themselves for the $50,000 spent, and to make a fair profit over and above this expenditure within the period of four years covered by the term of the office, no time must be lost, and no opportunity for garnering the harvest of fees must be wasted. Unlike the probate judge, the clerk of the court, and the tax assessor and tax collector, the sheriff of Jefferson county can and does create business. The office is one of the most powerful in the county. The officer is known in the law as a conservator of the peace; he has become known, in fact, through the years, by bitter experience, to the people of this county as an oppressor of the poor. When fallen women are dragged at midnight from that portion of the city set apart for their use, is it for the extermination of vice or the creation of fees? When the newspapers announce that the ever alert sheriff and his trusted deputies rounded up some twenty or thirty negroes in the woods, wounded two or three and landed the balance in the county jail for crap shooting, does anybody believe that the peace of the county is being conserved, or does every man know that the syndicate is trying to reimburse itself for its campaign expenditures? Some as good and as honest men as live in this county have been marched to jail charged with trivial misdemeanors and deprived of the opportunity of giving the bond which a thousand of their friends would have signed in order that a few dollars of turnkey fees might swell the treasury of the syndicate. Some sheriffs have striven to do their duty. Some have so conducted the office as to demonstrate the utmost possibility of iniquity of the fee system, and this discussion refers to no particular official, past or present. But let no man doubt that unless the system is rooted out in this county its evils will become steadily worse. The agricultural sections of the state of Alabama are suffering from our industrial competition. Labor is being constantly drawn from the cotton fields to the mines and blast furnaces. The best interests of this county and of the state require that our industrial demand for labor should be satisfied by the importation of white labor, instead of by continuing the drain of negro labor from the farms. Many of our large industries want white labor and have spent sums bringing in white labor which makes the expenditures of our immigration department look pitiful, and I can say from my own knowledge and observation that nothing has so discouraged and hampered the immigration of white laborers into this community as the innumerable and ingenious attempts to extort money from our ignorant working people under the guise of what is known as the fee system by men who are styled under the law conservators of the peace. The negro workingman is patient, long suffering and familiar with official oppression. The imposition practiced upon them in this county do not drive them back to the farm, but the same impositions will drive away at once a white immigrant who does not understand our language or our laws, and does not know how to protect himself. Officials of this county have done things they would not have dared to have done in any other county in the state. Our county is so big, our people are so busy, that official oppression and abuse of power does not stir up the hot indignation which would result in a smaller community. The people of this county have not time to become aroused over individual abuses of power on the part of their conservators of the peace, such as are too familiar, but their feeling on the subject of the fee system has been illustrated by the defeat in popular elections of two bond issues proposed for the construction of a skyscraper jail and courthouse, it being generally understood that the skyscraper jail was voted down because the majority of the people of this county believed that if a skyscraper jail be built while the present fee system endures that, however stately may be its proportions and however many its stores, the sheriff will always be able to keep it full. The amendment proposed to the constitution for the purpose of abating the evils of the fee system in Jefferson county provides that the legislature of the State may, subsequent to its adoption by general or local law, fix, regulate and alter the costs, charges of court, fees, commissions, allowances or salaries to be charged or received by any county officer of Jefferson county, including the method and basis of their compensation. If this amendment be adopted, I believe I can promise the people of the state of Alabama that its adoption will be followed by substantial reductions in the compensation of every important county officer of Jefferson county. The justice of the proposed amendment is so thoroughly recognized by the county officers of this county that not one of them has lifted his voice in opposition. The representatives of the sheriffs' association of the state of Alabama have recognized and agreed that the sheriff of this county should be compensated upon a different basis from the sheriffs of the other counties of the state. The working of our constitution on the subject of amendments is doubtful. I believe if a majority of those who vote on this amendment vote in favor of it, it will become a part of our organic law, but on behalf of the people of Jefferson county I ask that every man in the state of Alabama who votes in the approaching election, whether he be a democrat, a republican, or a follower of Mr. Roosevelt, vote to give the people of Jefferson county the relief which they need. This movement is backed by no selfish interest, and therefore has the support of no campaign fund. Every citizen of Jefferson county has just as real an interest in the adoption of the amendment as I have. And to the voters in the other counties of the state of Alabama, I know I can truthfully say that your vote in favor of this amendment will earn you the gratitude and sincere thanks of every man, woman and child in the greatest county in the state.

WALKER PERCY.
Chairman of the State Campaign Committee for the Amendment to the Constitution Relating to the Fees of County Officers of Jefferson County.

The Coughs of Children

They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough medicine is especially good for children. No anodynes. No alcohol.

Many a child is called dull and stupid when the whole trouble is due to a lazy liver. We firmly believe your own doctor will tell you that an occasional dose of Ayer's Pills, sugar-coated, will do such children a great deal of good. Ask him.

Made by the J. C. AYER CO., Lowell, Mass.

Weighing the Rainfall.

The weight of one inch of rainfall on an acre of land exceeds one hundred tons.

CUT OUT THIS AD.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten or dinary Moles or Warts. We sell Molesoff under positive guarantee; if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

The Great Antiseptic Pain Reliever for MAN and BEAST.

MEXICAN Mustang Liniment

The Best Emergency Remedy for Farmers, Stock-raisers and Household use. Speedily relieves Spavins, Swinney, Harness Sores and Galls, Shoe Boils, Strains and Lameness in Horses; Caked Udder and Sore Teats in Cattle and Ailments of Poultry.

SAFE AND SURE.

Being made of oils it soaks down straight to the bone, banishes pain and saves suffering. Only oil liniments can soak through muscle and tissue. Alcohol liniments evaporate before they can be absorbed by the flesh besides they are dangerous when used near a fire or lamp. Mexican Mustang Liniment will not burn even though a lighted match be applied. Mexican Mustang Liniment is THE SAFE as well as the SURE-TO-CURE remedy.

COMMENDED BY A FARMER.

GREENSBORO, GA.

As long ago as I can remember I have known of Mustang Liniment. I always keep it in my house and if any of my family get injured in any way, such as sprains, cuts, bruises, and, in fact, in many accidents that happen I always use Mustang Liniment. On my horses and stock I never think of using anything else—it is far cheaper than doctors' bills. I commend it to all farmers; it will keep their families and also their horses and stock in condition. Very truly yours,
J. D. ANDREWS, farmer.

TRESPASS NOTICES AND MAPS FOR SALE.

The Union office has Trespass Notices warning hunters and others to keep off of your property, printed in large black type on heavy cardboard size 11x15, for sale.

We also have maps of Chilton county, showing all land subdivisions, each 40 acres being 1-8 inch square, printed on linen paper. Just the thing for lumber and turpentine men and land owners. These maps are 25 cents each.

We can also supply you with mortgages and deeds, 5 cents apiece, or six for 25 cents.

THORSBY.

The people of Thorsby is getting so good we do not have to have church services on Sunday any more.

Mr. Calvin Pugh is in town for a few days.

We are glad to welcome a photographer here for a short while. The children as well as older ones are taking advantage of it, and the photographer is doing a good business. His stamp pictures are fine.

Last Saturday night some of our town people went out to Collins Chapel to the political speaking and reported hearing some interesting things:

Next Monday night the Progressive Party will be listened to in Thorsby; it will be a place where ladies will be seen and not heard.

One of the Sunday schools of the town is so flush with teachers the Supt. can ask them to resign any time and have another to take the place—not so eight months ago.

Mr. Cox, who is well known in our town has bought the business of Mr. Marshall, the grocery merchant.

Miss Evangeline Simonton writes from her school in Birmingham that she is having a fine time, much improved health, and is gaining much valuable knowledge. She writes also that she is with a class of very nice girls and wishes to be remembered to her many friends in Thorsby.

The high school is having a very interesting time Saturday evenings at their literary society; their local news is especially interesting.

The Fraternal Union of America held a social affair at their lodge room on Tuesday night.

Mr. and Mrs. Michelson and their daughter Grace visited the fair at Montgomery last week. The Twins.

All you who have torpid liver, weak digestion and constipated bowels look out for chills. The season is here and the air is full of disease germs. The best thing to do is to get your liver in good condition and purify the stomach and bowels. HERBINE is the right remedy, it answers the purpose completely. Price, 50c. Sold by Upchurch Drug Co.

FROM W. T. HERROD

Pletcher, Ala., Oct. 28, 1912

To the voters of Chilton county:—One of the most important elections that has ever been held in this county is drawing near at hand, and it behooves us as true citizens to come together and vote the true sentiment of our feelings. We have a good set of men nominated on the Progressive ticket, now come along and let's elect the one and all. We stand for freedom and liberty and not bondage; you know that every county in the state that is controlled by the Democrats alone is tied up in bonds and big debts, for something that could have been avoided. Now if you were to issue bonds to the amount of $150,000.00 for good roads you would have to pay about $7,500.00 yearly interest, (still the democrats will tell you it would cost you nothing,) so in twenty years it would cost you the county $150,000.00 interest and we would still owe the prencipal. Now there is about 800 miles of public roads in the county and we might get 50 miles of good roads out of said bonds ($150,000.00). Now I advocate good roads as much as anybody, but I differ in the plans. I think we can have good roads with a good deal less money; with the right kind of management. Now I cannot see all of the voters as I would like to come out on Nov. 5 and let's elect our ticket.

W. T. Herrod.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for 15 years," says Enos Lollar, of Saratoga, Ind., "and consider it the best on the market." For sale by Alred Drug Co.

FROM G. W. GORE

Clanton, Ala., Oct. 29, 1912

Editor Union-Banner:—Please give me space in your paper to express my political views. The Democrats are feeling sure of a big victory in November because of about one hundred of us old Republicans helping them to gain a partial victory two years ago, but wait until election day and they will find their little eight hundred squad left behind.

I voted a democratic ticket two years ago for the first and only time in my life, but now I realize my mistake and I intend to rectify it this time by voting the Progressive ticket and getting all my friends I can to do the same. I voted that ticket two years ago because I sincerely belived that it was for the best interest of our county, and I find the majority of those who pulled loose from the peoples party are of the same mind as I am, but there were several in that crowd who just wanted to see the Democratic party rule this county, and the very same crowd is doing all they can to help elect another Democratic ticket; so boys, don't be fooled by that little Maplesville crowd, for I know who the crowd was two years ago and what their intentions were, and I know it is a part of the same crowd trying to do the same thing again. Don't be uneasy boys, for I know enough of the crowds is sick of Democratic rule to give our ticket a big majority. I can count about fifteen voters here in my own community who pulled off two years ago that are with us now.

Yours for progress,
George W. Gore.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a bad cold, and before the bottle was all used up the cough was gone. Is that not better than to pay a $5 doctor's bill? For sale by Alred Drug Co.

Worked That Time, Anyway.

In the Irish rebellion a bombshell whizzed toward an Irishman's head. Pat dodged it with a low bow, and it went by, taking off the head of a man behind him. "Faith," exclaimed Pat, "ye niver knew a man to lose anything by bein' perlite!"

ELECTION OFFICERS.

State of Alabama, Chilton County.

We, the undersigned, E. B. Deason, Judge of Probate; M. D. Foshee, Clerk of Circuit Court, and B. L. Jones, Sheriff, in and for said State and County, do hereby certify that we did on the 18th day of October, 1912, appoint the following electors to act as managers, clerks and returning officers for an election to be held in Chilton County, Alabama, on Tuesday, November 5, 1912, as follows:

Beat No. 1, Mullins School House—Managers, T. L. McKee, W. T. House and H. L. Mims; Clerks, Ross Mahan, Olford Davis; Returning Officer, C. B. Cox.

Beat No. 2, Box 1, Jemison—Managers, Allison Sims, B. F. Reynolds and Charley Glasscock; Clerks, E. B. Langston, S. P. Shaw; Returning Officer, Y. O. Freeman.

Beat No. 2, Box 2, Mars Hill—Managers, Crawford Hayes, C. L. Langston and Pink Gentry; Clerks, Henry Splawn, C. W. Scott; Returning Officer, J. D. H. Terry.

Beat No. 3, Benson—Managers, A. S. Jones, R. J. Williams and G. E. Wright; Clerks, H. A. Williams, W. F. Deshazo; Returning Officer, J. L. Palmer.

Beat No. 4, Clanton—Managers, Mack Broadhead, Lee Vickers and J. L. Dupree; Clerks, Barney Roberts, J. E. Robinson, Sr; Returning Officer, N. A. Kicker.

Beat No. 5, Box 1, Verbena—Managers, E. L. Manning, W. S. Clarks, S. S. Scott; Clerks, B. H. Nelson, G. L. Messer; Returning Officer, C. E. Gulledge.

Beat No. 5, Box No. 2, Mountain Creek—Managers, J. Steely Jones, R. L. Clark, C. L. Brown; Clerks, S. B. Powell, T. T. Maddox; Returning Officer, W. J. Bethume.

Beat No. 6, Box 1, Kincheon—Managers, R. F. Atkinson, M. F. Lett, William Bice; Clerks, A. W. Powell, W. L. Popwell; Returning Officer, C. D. Foshee.

Beat No. 6, Box 2, Enterprise—Managers, W. Y. Keel, S. E. Neely, J. J. Headley; Clerks, Z. A. Eiland; C. C. Vinson; Returning Officer, Lee Boockholdt.

Beat No. 7, Box 1, Maplesville—Managers G. W. Fox, J. E. Bearden, W. Y. Atchison; Clerks, J. W. Mitchell, C. A. Keen; Returning Officer, L. J. Perry.

Beat No. 7, Box 1, Shoults—Managers, J. R. McAffee, J. H. Green, J. O. Mize; Clerks, J. L. Burnett, P. G. Manness; Returning Officer, J. F. Bearden.

Beat No. 8, Box 1, Stanton—Managers, W. A. Sanders, D. M. Apperson, W. O. Perry; Clerks, S. R. Letcher, W. J. Ruddick; Returning Officer, R. J. Young.

Beat No. 8, Box 2, Ridersville—Managers, W. M. Price, T. D. Parnell, P. M. Parker; Clerks, Wade Harris, Moody Rasberry; Returning Officer, Jeff Parnell.

Beat No. 9, Thorsby—Managers, M. J. Soberg, J. M. Mims, E. H. Adams; Clerks, A. F. Mims, R. L. Carter; Returning Officer, J. H. Benson.

Beat No. 10, Box 1, Cooper—Managers, F. M. Connell, L. A. Calloway, Henry Driver; Clerks, W. A. Cooper, H. A. Harris; Returning Officer, J. L. Downs.

Beat No. 10, Box 2, Evergreen—Managers, S. D. Williams, R. L. Johnson, J. C. Dennis; Clerks, J. W. Wood, C. R. Wells, Returning Officer, J. R. Patterson.

Beat No. 11, Cane Creek—Managers, J. S. Dennis, W. J. Lambert, Newt Miner; Clerks, Dudley Smith, Dalton Giles; Returning Officer, W. J. Gentry.

Beat No. 12, Mineral Springs—Managers, C. J. Middlebrooks, T. J. Dorminy, D. H. Mullins; Clerks, Sam Driver, C. A. Retherford; Returning Officer, J. T. Davis.

Beat No. 12, Box 2, Cofers Gin—Managers, James Campbell, W. J. Sorrell, C. M. Northcutt; Clerks, R. T. Robinson, Walter Martin; Returning Officer, Jesse Honeycutt.

Beat No. 13, Ocampo—Managers, W. M. Aldridge, W. R. Holdritch, O. R. Vest; Clerks, A. M. Rhodes, W. G. Conway; Returning Officer, Will Crim.

Beat No. 13, Box 2, Concord—Managers, D. W. Killingsworth, Jobe Reynolds, Walter Blankingship; Clerks, John B. Moore, J. B. Wigging; Returning Officer, R. L. Wooley.

Beat No. 14, Macedonia—Managers, Thomas Nix, T. J. Hubbard, S. D. Posey; Clerks, J. C. Veasey, R. M. Hubbard; Returning Officer, Monroe, Nix.

Beat No. 15, Box 1, Pletcher—Managers, J. R. Short, G. A. Keen, R. P. Mills; Clerks, James Walker, W. J. Moats; Returning Officer, Bert Smith.

Beat No. 15, Box 2, Culp Schoolhouse—Managers, W. W. Williams, James Culp, Homer Catcliff; Clerks, R. J. Jones, W. A. Pool; Returning Officer, P. A. Vance.

Beat 16—Managers, J. B. Rocket, Riley Robinson, J. Monroe Parrish; Clerks, D. S. Robinson, E. Robinson, Sr.; Returning Officer, T. J. Bates.

Witness our hands and seals this the 18th day of October, 1912.

E. B. DEASON, Judge of Probate.
M. D. FOSHEE, Clerk Circuit Court.
B. L. Jones, Sheriff.

BEWARE OF CONSTIPATION.

It is the first primal cause of many of our diseases. St. Joseph's Liver Regulator is an ideal treatment for constipation. It acts in a natural and easy manner (not by violent purging) and gently loosens the bowels, thus forestalling the long train of evils which result from the clogging of the system with offensive refuse. This remedy is a wonderful stimulator of liver, stomach and bowels, inducing and maintaining healthy, natural action. Price, liquid, 50 cents a bottle; powders, 25 cents a box, five boxes $1. Alred Drug Co.

AFTER ANY sickness, *Scott's Emulsion* increases the appetite and builds strength rapidly. Its wonderful nourishment assists nature in restoring health. *All Druggists.*
Scott & Bowne, Bloomfield N J - 12-7

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

F. J. CHENEY, & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Take Hall's Family Pills for constipation.

High Price for Japanese Art.

At a sale in London a Japanese color print of Ichikawa Danjido, 1670-1708, of a man seated outside a house of ivy holding a love letter signed Torii Kiyomasu, sold for $400.

Finds Cure for Epilepsy After Years of Suffering

"My daughter was afflicted with epileptic fits for three years, the attacks coming every few weeks. We employed several doctors but they did her no good. About a year ago we heard of Dr. Miles' Nervine, and it certainly has proved a blessing to our little girl. She is now apparently cured and is enjoying the best of health. It is over a year since she has had a fit. We cannot speak too highly of Dr. Miles' Nervine."

MRS. FRANK ANDERSON,
Comfrey, Minn.

Thousands of children in the United States who are suffering from attacks of epilepsy are a burden and sorrow to their parents, who would give anything to restore health to the sufferers.

Dr. Miles' Nervine

is one of the best remedies known for this affliction. It has proven beneficial in thousands of cases and those who have used it have the greatest faith in it. It is not a "cure-all," but a reliable remedy for nervous diseases. You need not hesitate to give it a trial.

Sold by all Druggists. If the first bottle fails to benefit your money is returned.

MILES MEDICAL CO., Elkhart, Ind.

Come to Our Range Demonstration

We want you to see and know about Cole's Hot Blast Steel Range. We want you to see this great Cooking Specialty which will save fuel for you.

Burns any kind of fuel.

Cole's Hot Blast Combustion burns the gases in soft coal which are wasted in other ranges—saves fuel and labor.

See It in Operation From *Nov. 7th to 9th.*

Examine the Smokeless and Odorless Broiler and Toaster with which you can broil steaks, chops, game or toast bread without interfering with your other cooking.

No smoke or odor in your home. It is clean and adds to the top cooking surface of your range.

See the new oven construction and the 14 special features embodied in this new range which you cannot find in any other.

Everyone is invited—all are welcome.

Cole's Hot Blast Range Costs You No More Than Other Makes.

CITATION TO APPEAR

State of Alabama, } Probate
Chilton County. } Court.

In the matter of the estate of Mary F. Bridges, Deceased.

To the Sheriff of said County:

Wherers J. T. Abbott Administrator of the estate of Mary F. Bridges, deceased, has filed his petition in said Court for a sale of the lands described therein, belonging to said estate, for division and to pay debts upon the ground that the same cannot be equitably divided among the heirs and the personal property is insufficient to pay the debts of the estate, and the 9th day of November 1912 has been appointed for the hearing of said petition.

You are therefore commanded to cite Mike Bridges, Delia Curtin, Alice Bunch, Elza Abbott, Sallie Chambers, Minnie Adams, Lee Jones, Bessie Rice, Marvin Williams, Ronda Jones and Alpha Jones to appear before the said court on said day to contest said petition if they think proper.

Witness my hand and seal this 23rd day of October, 1912.

E. B. DEASON,
Oct24-3t Judge of Probate.

STATE DEMOCRATS TO RUN CHILTON

We Cannot Manage our own Affairs the old Ring will take charge of us.

The following "Appeal for Aid" appeared in the democratic ... of the state this week. It shows the desperate state of the ... democrats and how they will try to whip the FREE voters of ... into their lines. But Chilton wont stand for the whipping.

Montgomery, Oct. 28.—Help, help, is the cry going up from the democrats of Chilton county who desire to wrest that county from ... fifteen years of republican rule. The fight is hot in Chilton and ... democrats have finally called on the state organization for assistance so that the foe may be routed. Speakers are wanted in Chilton ... once to bring Chilton back in the democratic fold.

That the aid of the democracy of Alabama is needed at once in ... was the statement of a capitol official who has besought members of the central executive committee of the Wilson and Marshall ... of Alabama, for the purpose of having the organization throw a ... of democratic orators into the contested territory during next ... A big democratic rally and barbecue is to be held at Clanton ... 2, and the assistance of democrats is desired. So far as is known ... Tate, of Wetumpka, is the only outside man who has volunteered his services as a speaker on the occasion.

It is understood, however, that the matter will be called at once to the attention of chairman Tyler Goodwin of the state democratic committee, and it is assured that he will act without delay.

It is claimed that the democratic campaign has been waged in all parts of the state, but somehow Chilton, the most dangerous of all to ... party has been overlooked. It is described as a "natural mugwump" county. If well campaigned next week it is believed Chilton ... again be brought in the democratic ranks.

Congressman F. L. Blackmon was in this county making speeches a little more than a year ago, urging the people to issue bonds in this county. Today he is in this county on the stump in behalf of the democratic ticket. How is he now on the bond issue? Isn't he the same man who was here about a year ago for bonds? Sure he is, and why don't the democrats be the same thing during the campaign that they are after it is over? The answer is easy; during the campaign they are trying to decieve the people and get their support. Why don't they be what they are all the time, for bonds, and not try to hide this issue from the people at this time?

Recently Mr. Thomas Watson, once a candidate for president on the Populist ticket, came out for the Progressive party and urges the people to support Mr. Roosevelt for president and the entire Progressive ticket. Mr. Watson was with the Populist party as long as it was in existence, and he now says that the people of this county have the opportunity that the Populist party offered them; a rule of the people by the people.

Why don't you come out and help this movement in the interest of your country and your home?

Some time ago Mr. E. E. Calloway in a meeting in Birmingham said that the Progressive ticket in Chilton county would beat the democratic ticket two to one. And that the people of this county were against such a gang as the democrats now have in office in this county. He said he would do the democratic party like the negro did the turtle. Then he told his famous turtle tale, and said he would drop the democratic party like the negro did the turtle. Where is Mr. Calloway now? On the stump in the interest of the democratic party. Isn't he worth listening to, on one side today and the other side the next?

PLEASANT GROVE.

Everybody seems to be enjoying the cold weather around here as if it were the warmest days of June. I suppose they are thinking of the day and not the weather.

Rev. T. J. Ledbetter filled his last appointment here last Sunday. We were very sorry to see him leave, but hope he may have God's blessings, and much success in all of his undertakings.

Mr. Mitchel Foshee, of Billingsley, was a welcome visitor here last Saturday and Sunday.

A large crowd attended the singing at Mrs. Popwell's last Sunday afternoon, and seemed to enjoy it very much.

There will be singing at this place next Sunday afternoon at 2:30. Everybody is invited to come and bring some one with you. We are expecting to have good leaders and organists with us, so let us all come out, sing the praises of our God. We will use the new Lyrics of Praise.

S. E. P.

THE OAK HILL SINGING.

Last Sunday, the 27th, the people gathered at Oak Hill for an all day singing. The day was ideal, singing good, dinner rich and bountiful. The book used was Christian Harmony. Directors were Glass, Hodgens, Northcutt and Jones. It was a good time. The Oak Hill people show great liberality and kindness. it is pleasant to visit them. Last, but not least, we wish to thank thrse who provided the beautiful and variegated vases of flowers for the occasion. We accept it as a tribute of honor. Hope to visit Oak Hill again.

A Visiting Singer.

MT. PLEASANT SCHOOL No. 62

Our School will begin November 4th, 1912. We want every patron of the school to meet the trustees next Monday morning to attend to important business.

G. W. Melton.

The People Will Be Advised

Milton H. Smith Answers B. B. Comer

Ex-Gov. Comer, in his Greenville address, expatiates at length on the alleged fact that representatives of the railroads have procured the publication of articles tending to inform and enlighten those who may read them on the subject of the contention between the State and said railroads, the contention on the part of the State having been largely initiated and prosecuted by his efforts. Also, such publications have exposed the falsity of his many libelous allegations.

He emits his falsehoods and causes them to be widely published, and is furious because the press that may have published his emanations as matter of political interest, without charge, receive in some instances remuneration for publishing matter controverting his baseless charges.

He would have the railroads "roped and tied"—rendered helpless, that his shameful and baseless falsehoods may not be exposed. In fact, he would prohibit every one who may differ from him from refuting the ravings of his disordered mind.

His efforts to prevent exposition of his fallacious utterances will prove impotent—the citizens of Alabama will be fully advised of his heresies.

Milton H. Smith.

MASTIC PAINT

"THE KIND THAT LASTS"

MASTIC PAINT is not a *new* paint—it's 40 years old.
Not an *experiment*—it's a proven proposition.
Not an "*unknown* quantity" as to ingredients; the formula is printed on every can.
MASTIC PAINT is *ready* to use, and the *best* to use.
It *looks* best and *wears* best. It *lasts* longest and is, therefore, the most economical.

More Than Enough Is Too Much.

To maintain health, a mature man or woman needs just enough food to repair the waste and supply energy and body heat. The habitual consumption of more food than is necessary for these purposes is the prime cause of stomach troubles, rheumatism and disorders of the kidneys. If troubled with indigestion, revise your diet, let reason and not appetite control, and take a few doses of Chamberlain's Stomach and Liver Tablets and you will soon be all right again. For sale by Alred Drug Co.

LAND FOR SALE. 160 acres, 5 miles northeast of Clanton, 1 1-2 miles from school house. 100 acres level, farming land, balance well timbered. Two settlements on it, one 6 room building, wel in porch, one two room building well in yard, good water. Good wire pasture, one good barn, all other necessary buildings. Apply to J. W. Conell. Clanton Rt. 5

t.f.

We want a good representative man in this county, who stands well with the farmers and business men, to represent us in the best enterprise that was ever promoted for the benefit of the farmers and the developement of the wealth of the county.

A fine opportunity is offered the right man in establishing a permanent business, which is a money maker from the start, in a number of ways.

STATE BRIEFS.

Birmingham.—Pig iron is being sold by manufacturers in Southern territory for delivery into the first half of 1913, and reports have it that considerable tonnage has already been sold ahead. The price that is being asked for iron for the first half of next year delivery ranges around $14.50 per ton, No. 2 foundry, with $14 as the minimum for iron during the last two months of this year and the first quarter of the new year.

Accumulated stocks of pig iron are dwindling rapidly, and by the end of the year, if there is no hesitation in the outward movement, the yards will be almost barren.

MYSTERY SURROUNDS MONEY.

Gadsden.—The mystery surrounding the reported finding of $5,500 at the old Whorton place, near Gadsden has not been cleared. The two men alleged to have found the money, cannot be located. Some believe the $5,500 found at Fort Payne was lost by the finders of the money at the Whorton place.

$77,000 FOR IMPROVEMENTS.

Birmingham.—Approximately $77,000 will be expended by the Queen and Crescent route to improve its facilities in Birmingham.

BANKRUPTCY PETITION FILED.

Montgomery.—A petition in involuntary bankruptcy was filed in the Federal District Court against the Southern Cigar and Soda Company, of Montgomery, by the Colortype Company, of Chicago; the Cramton Lumber Company of Montgomery, and the Hix-Gravely Cigar Company, of Montgomery. The Chicago house claims an indebtedness of $152.21; the first of the Montgomery establishments, $23.70, and the latter holds a claim of $1,077. No receiver has yet been appointed by Judge Thomas G. Jones.

JOHNSON TRIAL UNDER WAY.

Anniston—Walter Johnson, who told a very conflicting story in regard to the murder of Tom Stone, who was killed in his home during the days of Camp Pettus last summer, was placed on trial in the city court on October 30 to answer for the crime, which he tried to lay at the door of two militiamen whom he was unable to name or locate.

ARMORY WALLS COLLAPSE.

Selma.—The side walls of perhaps the oldest brick building in Selma, at the corner of Water and Lauderdale streets collapsed. For some weeks past workmen have been engaged in remodeling it and putting on a new roof, it having been leased for a period of years by the Abbott Rifles as an armory.

TWO SYRUP FACTORIES.

Mobile.—Announcement is made that two syrup factories are to be immediately erected at Dawes, a new town in the western part of Mobile county. Promoters of the movement originally intended to erect only one plant at Dawes, but, being liberally encouraged, they have decided that two will be necessary at this locality.

BUSY WITH EDUCATION SHOW.

Anniston.—H. T. Persons, superintendent of schools of Calhoun county and chairman of the executive committee for the educational fair, which will be held at Jacksonville, a few miles north of here, November 21-23, is actively at work, and considerable interest is being manifested in Anniston in the undertaking, which will be county-wide in its scope.

LINGERS TO CAST VOTE.

Hamilton.—Carl Ford, who has been a clerk in the war department at Washington, D. C., for three years, is visiting his parents at Hamilton. He says he will remain until November 5 and cast his first vote for Wilson and Marshall.

RAINS DAMAGING COTTON.

Hamilton.—Heavy rains are damaging the cotton crop and delaying picking. The crop is short one-third, if it could all be gathered.

PROF. THOMAS TO CARROLLTON.

Carrollton.—W. H. Storey, county superintendent of education announced that Dr. J. S. Thomas, professor of secondary education, University of Alabama, will spend two days in this county, November 1 and 2.

UNVEIL 13 MONUMENTS.

Mobile.—Maple Camp, Woodmen of the World, unveiled thirteen monuments to departed members in Magnolia Cemetery.

NEGRO SHOOTS HIS WIFE.

Gadsden.—John Johnson, a negro, was arrested, charged with assault with intent to commit murder. He had shot and wounded his wife. She will probably recover.

RURAL SCHOOL OPENS.

Anniston.—Every rural school in Calhoun county opened under the requirements of the state on October 28. There are about sixty-two schools in the county.

BULGARIANS BOMBS BURN ADRIANOPLE

PART OF CITY IS AFIRE, AND PEOPLE FACE STARVATION.

TURNS FLEE TO DEMOTIKA

Success of Allies Without Parallel in Modern Wars—Aviator Has Inflicted Severe Losses on Allies by Dropping Bombs.

London.—Adrianople burning, cut off from the main Turkish army at Demotika, and near the point of starvation, still withholds its formal surrender to the Bulgarians and in so doing is daring complete destruction.

The Bulgarians are bombarding the city from every point of the compass. Every outpost has been taken and Bulgarian troops are within the outer city. Practically all of the public buildings have been razed by fire. The ancient fortress is a charred shell.

Off t othe south of the besieged city, the strongest of the Bulgarian divisions is marching on Demotika, where the helpless army of 150,000 men, under Aubdullt Pasha, is encamped.

Estimates placing the Turkish dead at 10,000 are not exaggerated, but will probably fall short of the casualties that will be disclosed by official reports. The Bulgarian losses have also been heavy.

Its length and breadth swept by fire, hundreds of its residents lying dead in the streets and thousands facing actual starvation, Scutari, the Turkish stronghold in Northern Albania, is a Montenegrin prize of war.

The city has virtually fallen, but the indomitable bravery of the Turkish garrison is prolonging the fearful plight of those within the city's gates, which can only end in surrender or annihilation.

Reports received here tell of the daring of a Turkish aviator who is responsible for practically all the Bulgarian losses since the guns of the outer forts were silenced. This intrepid airman has made flights over the Bulgarian batteries with great regularity, dropping bombs from a height beyond rifle range.

War critics declare that the enveloping campaign of the Balkan allies has succeeded to an extent that has no parallel in the annals of modern warfare. Not a single Turkish victory of importance has been recorded, while on the other hand the Ottomans have lost every stronghold in the north. Only Monastir and Salonika—both isolated and surrounded—and Constantinople remain to be conquered.

FOREIGN COMMERCE LARGE

Trade of United States During 1912 May Surpass High Record.

Washington.—The foreign commerce of the United States during 1912 promises to establish high records in both imports and exports, according to a statement issued by the bureau of foreign and domestic commerce for the nine months ending with September.

The imports during that period amounted to $1,333,169,727, an increase of $200,250,000 over the first nine months of 1911. The record year for imports was 1910 with $1,557,000 for the entire twelve months. September of the current year brought in $144,906,493, an increase of $19,735,000 as compared with September, 1911.

Exports during the current year up to the end of September amounted to $1,616,169,269, an increase of $160,658,935 over the corresponding period last year.

Diaz Condemned to Die.

Vera Cruz.—Gen. Felix Diaz, leader of the recent revolt, and Maj. Zerate, Col. Antonio Migoni and Licut. Lima, officers under Diaz in his attempt to overthrow the government were condemned to death by court-martial. Lieut. Camacho, Capt. Mayen of the rural guard, and Capt. Hermilio Martinez were sentenced to ten years imprisonment, and Gabriel Ramos, customs collector, and Herman Arostegui, censor of telegrams, were sentenced to two years imprisonment. Nine other officers and civilians were allowed to go free.

Roosevelt Spends Quiet Birthday.

Oyster Bay, N. Y.—Cooped up in his house by the inexorable command of his physicians, Col. Roosevelt passed his fifty-fourth birthday in quiet fashion Sunday. A mirthful noon dinner, restricted to the immediate Roosevelt family, comprised the chief event of the day.

Mob Would Witness Hanging.

Cumming, Ga.—After a mob burned a fence erected about the gallows, more than 2,000 persons witnessed the hanging of Ernest Knox and Oscar Daniels, negroes, convicted on a charge of causing the death of a white girl. Dealers refused to sell lumber with which to build a new fence to render the hanging private. Militia were on guard to preserve order. Knox made a confession, but Daniels insisted that he was innocent. The hanging was the first legal execution in Forsyth county in half a century.

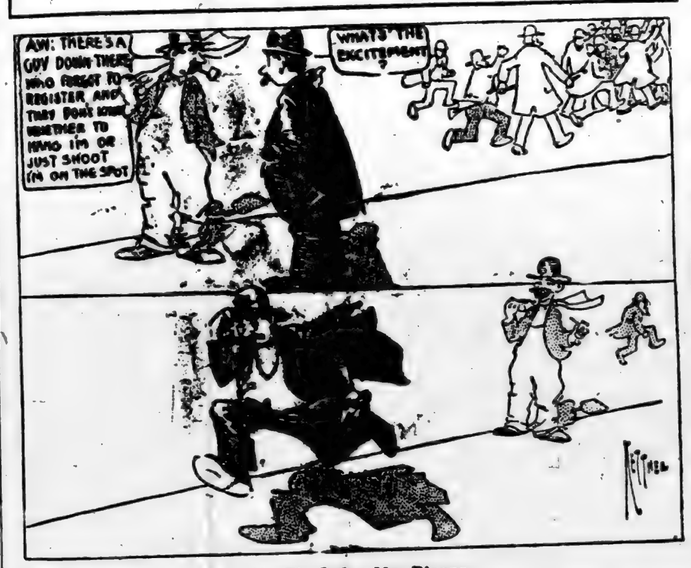
Pinched Wife—Gets $1,000.

Texarkana, Tex.—Because he alleged that a Texas and Pacific railroad brakeman pinched his wife's arm and offered her an insult as she was boarding the train, G. W. Brawer was awarded $1,000 damages against the railroad by a jury.

$300,000 to Trinity.

Hartford, Conn.—J. P. Morgan presented Trinity College with $300,000 to cover the expense of erecting a library and administration building, to be known as Williams Hall.

POLITICS! POLITICS!



(Copyright.) No Place for Mr. Bloops.

VERA CRUZ FALLS; DIAZ CAPTURED

THE WEEK-OLD MEXICAN REVOLT COMES TO END.

MANY REBELS SURRENDER

Col. Order One of the Diaz Staff of Officers Who Were Not Taken Into Custody.

Vera Cruz, Mexico.—The revolt of Gen. Felix Diaz, nephew of the exiled president, has been short lived. The town of Vera Cruz, which he occupied with about 2,000 adherents for several days, was captured by the federal forces. Two federal columns commanded by Col. Jiminez Castro and Gen. Joaquin Beltran entered Vera Cruz from the north and south.

There was slight opposition to their advance—Col. Castro with less than fifty men capturing Gen. Felix Diaz, whose three hundred men at police headquarters refused to fire at his command.

The revolutionists in the barracks say they will hold out until the last man is killed. However, the weaker spirits seem to be trying to escape. The killed and wounded number less than one hundred.

No foreigner was hurt. Desultory firing continued after the federals entered the town.

The rebel officers have been made prisoners. It is believed they will be ordered shot by summary court martial. It is announced the soldiers will not be punished.

The United States cruiser Des Moines sent Lieut. Burns and passed Assistant Surgeon Cohen ashore to attend the wounded.

SENTENCE COUNTERFEITER

Artist Could Not Sell Pictures—Painted Greenbacks.

Chicago, Ill.—Louis Gagmere, who turned his talent as an artist into the painting of $10 counterfeit government notes, was senteced to serve one year in the United States prison at Fort Leavenworth, Kan., after he had admitted his guilt. He will start for the prison at once.

Gagmere told the court he had painted the notes so that he could support his wife and child when he found he could not sell his pictures. The federal authorities declared the notes were so well executed that it had been difficult to discover the sources.

MINISTER DROPS DEAD

Had Just Outlined Experience During Thirty Years of Preaching.

Utica, N. Y.—After outlining some of his experience in thirty years of preaching the gospel and reiterating his love of the service, the Rev. Jabez Ford of Camden died in the presence of 1,000 delegates to the Baptist State convention in Tabernacle Church here.

The convention was discussing conditions of the church, and Mr. Ford, who was known as the "Prince of Oneida county Baptist pastors," was heard with interest in a somewhat spirited address. He had just completed his remarks when he was stricken and died before medical aid could be given him. He was 71 years old.

Aviator Hurled to Death.

Montgomery, Ala. — Aviator Louis Mitchell, president American Aviators, while 200 feet in the air, lost control of his machine while making a spiral glide, and is dead. Mitchell had been circling the exposition grounds for more than an hour at varying heights. Shortly before 5 o'clock he began his descent in a spectacular glide. At 600 feet he lost control of his machine, and at 200 feet the aeroplane went to pieces. Mitchell was pinned to the ground under the heavy motor, dying before surgeons could reach the spot.

Develop Overflow Lands.

New Orleans.—Capt. C. G. Sherrill, in charge of the Fourth Mississippi river district, left for St. Louis, where he will recommend to the Mississippi river commission in session there that the government should purchase and develop into national forest reserves, overflow lands on the east bank of the Mississippi river in Louisiana and Tennessee. Capt. Sherrill's claim will be based on surveys recently made of the lands in question as authorized by congress. Overflow lands in Mississippi were found to be subject to levee control.

ALLIES CAPTURE TURKISH TOWNS

5,000 TURKS REPORTED KILLED AT KUMANOVA.

FIGHT NEAR ADRIANOPLE

In District of Novibazar Montenegrin and Servian Troops Are Within a Few Miles of Each Other.

London.—After a four days' heavy battle the Bulgarians are resting. The Bulgarians have not yet decided whether they will attempt to capture Adrianople by assault or to starve out its garrison by siege. The full extent of the Turkish disaster at Kirk-Kilisseh is still unknown, but it is almost certain that the bulk of the garrison there effected a retreat before the town fell into the hands of the Bulgarians.

It is reported that 5,000 Turks were killed near Kumanova.

The early capture of Kirk-Kilisseh was a great surprise even to Bulgarian staff officers and their allies, and the swift progress of the war was unexpected by Europe generally. It has been now nine days since Turkey declared war and yet events have marched to the point where the possibility of intervention by the powers already is talked of.

Muct interest centers in the nature of the alliance of the Balkan states. It is said on good authority that one of the provisions of that alliance is that no one state shall conclude peace without the others agreeing to do so.

Details of the terrific battle between the Bulgarians and the Turks at Kirk-Kilisseh are still lacking. It is said that the Bulgarians expected the fortress to hold out longer, and its fall within a week of the opening of hostilities is considered by them a great achievement.

Even after the fortress was overcome by the fire of the Bulgarian artillery fierce fighting took place in the streets of the town.

The Turks, on their part, declare the evacuation of Kirk-Kilisseh was a "strategical retirement."

DISTRIBUTE SCHOOL FUND

General Education Board Makes Appropriations.

New York.—More than a half-million dollars was appropriated by the general education board toward the financial aid of colleges in Central and Southern States, and for the first time toward agricultural demonstration work on farms in Northern States.

Of $445,000 voted to educational institutions, the largest single sum goes to Baker University of Baldwin, Kan., which will receive $125,000. The University of Denver at Denver, Col., and Mississippi College at Clinton, Miss., each receive $100,000; Central College at Fayette, Mo., $75,000; Lawrence College of Appleton Wis., $40,000, and Penn School of St. Helena S. C., $5,000.

Within the last few years the board has appropriated $659,700 for carrying out agricultural demonstration work in Southern States, and it voted to extend this work to Maine and New York State, appropriating a total of $9,500 for this work.

Anna Gould Wins Case.

Leipsic, Germany.—An attempt to obtain from the Duchesse de Talleyrand (Anna Gould) the sum of $106,500 was declared to be founded on extortion and usury by the imperial supreme court. A real estate company having claims against the Duc de Talleyrand sent a representative to the duc and duchesse when they were staying at a Berlin hotel, in 1911, and forced the duchesse to sign a note for the amount by threatening her with arrest. The court decided that the note was not valid.

State in Insurance Business.

Madison, Wis.—The state of Wisconsin is prepared to enter into the life insurance business in accordance with the provisions of a bill passed by the last legislature. The plan provides that any citizen of Wisconsin between the ages of 20 and 50, living a normal, healthy life, may take out a policy after satisfactorily passing a medical examination under the supervision of the state board of health. Wisconsin is the first state in the Union to engage in the business of life insurance.

DEFENSE SCORES IN BECKER CASE

SULLIVAN SWORE ROSE, WEBBER ET AL. FRAMED UP BECKER.

SAYS HE WAS OFFERED BRIBE

Confident of Victory, Becker's Counsel Would Not Allow Him to Take the Stand—Sullivan Recalled After Defense Closed.

New York.—The case of the state against Police Lieutenant Charles Becker closed abruptly and dramatically with the district attorney, at the court's command, reading into the record a flood of testimony from Becker's star witness, "Jack Sullivan," for whose admission Becker's lawyers had fought long and hard when Sullivan testified before.

John F. McIntyre, Beckers chief of counsel, had declared his case rested when Sullivan was recalled. He said frankly that he did not want Sullivan's testimony. The court ordered the case reopened and instructed an attendant to call Sullivan to the witness stand. Mr. McIntyre refused to question him and Justice Goff instructed the district attorney to ask the questions "as a part of the case of the defense" certain questions which the court had excluded during Sullivan's previous testimony.

These questions had to do with conversations Sullivan said he had in the West Fifty-third street jail with Rose and Webber.

"Rose told me that he and Webber and Vallon and Schepps were going to frame up Becker," Sullivan declared. "He asked me to corroborate his testimony. They all asked me—kept at me day and night. When one left off the other began. Rose got a letter from the district attorney one day and after he had read it, he came to me and said. 'Jack, the district attorney writes me that he wants to know if you are going to corroborate us. He says if you do, it will be all right; if you don't, you'll be indicted.'

"Webber said to me: 'The only way you can get out is for you to do as Mr. Whitman says and swear that you saw Becker and Jack Rose and me a few hours after the murder. If you do that, you'll get out, like we will after the trial. If you don't, you'll be indicted and spend six months in jail.' Once Webber said to me: 'Jack, for God's sake, say you saw Becker, as we will testify. If you want money, I'll give you $1,000 now and when you get out we'll go into the hotel business. I'll put in $25,000 and we will divide the profits even. All you have to do is to lie for us. If you lie, it's all right; if you don't, you'll go to jail.'"

HELD FOR LIBELING TEDDY

Michigan Editor Is Arrested in $10,000 Damage Case.

Marquette, Mich.—George Newett, editor of the Ishpiming Iron Ore, has been sued by Col. Theodore Roosevelt for criminal libel and damages of $10,000.

New York.—These suits are based upon an article printed in this paper on October 12, headed "The Roosevelt Way."

According to a formal statement made public at national Progressive headquarters this article contained the following paragraph:

"Roosevelt lies and curses in a most disgusting way. He gets drunk, too, and that not infrequently, and all his intimates know about it."

Girl Wants to Fight.

Chicago.—Led by Christina Savics, a 21-year-old Servian girl, forty of her fellow-countrymen, determined to return to their mother country to help fight the Turks, stormed the Des Plaines street police station and demanded assistance in collecting their wages for October to date. The men have been working for a construction company in Wisconsin, and are said to have quit their employment without notice. Miss Savics had been writing the men letters for the last month urging them to return to Servia and enter the army.

Flies Carry Paralysis.

Washington.—Ordinary stable flies have been conclusively identified as carriers of the dreaded infantile paralysis or poliomyelitis, according to a report made to the public health service by Dr. John Anderson, director of the hygienic laboratory.

Chicago Bars "Tag Day."

Chicago.—Chicago will never have another general "tag day" for charity, and in the future girls and women will not be permitted to solicit money throughout the city. Opposition to soliciting of charity funds from pedestrians has been announced by leaders of the past "tag day," and Mayor Harrison finally announced that there should be no more general "tag day" collections. Collectors may operate in territory adjacent to the charity they wish to aid, but not in the heart of the city.

"Ax Woman" Sane.

Lafayette, La.—Clementine Barnabet, a negro woman, "the ax woman," as she has been known since she confessed to having murdered four negro families, consisting of nineteen persons in all, will come to trial, a commission having declared her to be sane.

Quake in Georgia.

Macon, Ga.—A distant earthquake was felt in Central Georgia Tuesday night. In Dublin, Ga., sixty miles southeast of Macon, the shock was most severe.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

In an attempt to beat a fast 102-ton Central of Georgia engine, thundering over the tracks drawing hundreds of passengers to Atlanta, to a crossing near Jonesboro, R. Vincent of Atlanta made a daring dash across the tracks. He raced his high speed motor directly in the path of the plunging train, and was dashed to death before his machine was halfway across.

Floyd and Claude Swanson Allen are in the Virginia state pentitentiary. The heavy steel gates are closed behind them and shut out forever their view of aught but prison walls. They will die in the electric chair November 22. Floyd Allen was on crutches the effect of a shot in the left leg on the day the Allens shot up the Carroll county court.

Women members of the family of Ed Callahan identified two of the fifteen defendants presented at the hearing of the bail motion before Judge Benton as having been in the band on the hillside that shot Callahan to death in Winchester, Ky., early last spring.

Clementine Bernabet, the negro "axe-woman" and follower of the Church of Sacrifice, whose murders number 19, was found guilty of murder at LaFayette, La., and sentenced to life imprisonment in the state penitentiary.

Standing by as an interested spectator, while a large ballon was being inflated at Wilmington, N. C., for an ascension by a professional, J. W. Smith, 42 year old, a farmer of an adjoining county took an involuntary flight, when the bag broke from its moorings and sailed majestically at an altitude of several thousand feet. He was unhurt, however.

The national meeting of the Society of the United States Telegraph Corps met in executive session in Jacksonville, Fla., and took up plans for securing pensions from the United States government. They precipitated a movement to get pensions for old members who have given the best years of their lives to the service, and a bill will be drawn to be presented at the next session of congress providing for the pensioning of these old military telegraphers.

Aviator Louis Mitchell, president of the American Aviators, while 600 feet in the air at Montgomery, Ala., lost control of his machine while making a spiral glide, and was killed.

Fifty cents a burglary is a rate frequently paid to boys by an organized gang of New York City crooks, that employs boys to do the bulk of its work, according to the testimony of the young operators for the band in the police court.

General.

When the sultan of Turkey went to war with Bulgaria he sent a sack of millet with a letter stating that "there are as many soldiers in Turkey as there are grains of millet in this sack." The czar replied, in kind, with a smaller sack, filled with tiny grains of red pepper, that "be sure if you stick your nose into our affairs it is like sticking it into our national condiment. Try it and see."

"Goodbye, dear; something dreadful is going to happen." With these words, J. B. Herworth, an electrician helper, fired a shot through his temple as he faced a telephone, while talking to his sweetheart, Miss Agnes Fromm in Milwaukee. Herworth called the girl over long distance telephone from Fon Du Lac, Wis., and questioned her some time relative to her love for him. He was engaged to the girl and expected to be married in a few months.

More than two thousand Arnaut tribesmen were killed by Servian artillery in a fight near Merdare and Kursumli in southern Servia. The Servian artillery did extreme havoc among the tribesmen before they were treated into the hills.

Grand Duke Alexis, the eight-year-old czarewitch, is dangerously ill of the Imperial Huntington Lodge of Spala, Russian Poland, as a result of a wound in his groin sustained while hunting. The accident caused no anxiety at first, then the czarewitch was taken to his bed with a high fever, his temperature rising to 103.6.

The United States revenue cutter Windom has sail to search the seas for the steamer Nicaragua, a 400-ton steamer plying between Mexican and Texas ports. The Nicaragua carries a crew of 34 men.

More than 500 Servian soldiers are reported to have been killed by the explosion of a Turkish mine.

Official accounting of the estate of William T. Burbridge, who was at the time declared to have won more than a million dollars in gambling establishments in New York City and Hot Springs, Ark., show that the property left by him is less than $2,000.

Secretary Knox and Rear-Admiral Miller, constituting the special embassy dispatched by the president to Japan to represent the United States at the funeral services of the emperor, have returned to Washington.

Demands of Duty.

To do our duty in life it must ever be done with the aid of all that is highest in our soul, highest in the world soul is ours.—Masterlinck.

YOUR Efficiency depends upon your Condition.

THORSBY NEWS.

Last week our old friend Carl Longville arrived in town to the great surprise of all. We are glad to welcome Mr. Longville and family here.

Last Sunday morning Dr. Eaves, of Birmingham preached in the Congregational church, in the evening there were services at the Baptist church. It is a strange fact that all three churches in Thorsby are without pastors.

Monday night Judge Reynolds and Mr. Calloway made political speeches in Thorsby. The house was crowded, not even standing room left. Many ladies were present and enjoyed the discussion as much as the men. From the stamping and cheering during Mr. Reynold's speech, we would think all votes in Thorsby would go for Roosevelt, that's all right if they do, however, we could count on 8 or 10 going for Taft.

Miss Jennie Heller was compelled to resign from her school in Birmingham on account of poor health.

One day last week Miss Robinson and Mr. Northrop in a very quiet way went to Clanton and were married. We wish you a long life and much happiness.

We are glad to report that Mrs. S. H. Herbert is slowly improving. She is still in the infirmary.

A little stranger arrived last week at the home of Mr. and Mrs. Wolf. The Twins.

MT. PLEASANT.

The health of this community is fairly good at present.

Several of our people attended the fair last week. All seemed to have a nice time.

Our Sunday School is progressing nicely.

Our literary school starts Monday. It is hoped we will have a good attendance.

Mr. Mullins will preach at this place the third Sunday in this month.

Mrs. Maud Duncan visited Mrs. Baxley Sunday.

Tuesday will settle the political business and we trust Roosevelt will be elected and we hope for better times.

We hear there is quite a lot of trouble around Lomax on account of whiskey. Oh that it could be put out of the way.

Mr. and Mrs. Adam Price visited at Alonzo Robinson's Sunday.

Mr. and Mrs. Albert Culp visited the former's parents Sunday.

Mr. Monroe Nelson and little brother made a trip to Birmingham last week. Blue Jay.

MR. BARBER'S LECTURES.

As per announcement, Mr. R. H. Barber, of Glen Falls, N. Y., lectured in West Chilton on the 1st inst. He lectured in Randolph on the night of the 31st on the following striking subject, "What is Death? Why is Death? Will Death ever Cease?" The audience was good and gave marked attention. On the 1st he lectured at 11 a. m. in West Chilton on the "Trial of the Christians' Faith." In that lecture he emphasized those trials related to the time features of the plan of the ages, or to where we are now located on the stream of time, and how those trials tempt people to engage in vast business enterprises; building of splendid homes, etc., whereas the proper course relative to business would be to do a safe business, avoiding all far reaching efforts, and relative to building or buying homes to avoid all unnecessary expenditures in time, money or otherwise, but to live simplicity and well-enough be sufficient, as any other course at present is hazardous and unwise. So any one can see this would be a universe of living prosperity or modern ately to say the least. It is very ...

should surely take advantage of every opportunity to hear such lectures as they will probably not continue much longer.

1:50. Election of officers. Business. Adjournment.

All primary teachers are expected to be present. Each school is entitled to three delegates and superintendent. All speakers coming on train get off at Cooper.

Rev. F. G. Hustings, Vice Pres.
Bettie M. Gardner, Sec.

MAPLESVILLE.

A public debate will be given at the School house on Wednesday night, Nov. 20, 1912. Recitation by Grady Williams.

Debate: Resolved; that women should have equal rights of suffrage. Affirmative, James H. Williams, Howard Oden; Negative, Prof. W. P. Wallace, Buford Lawrence. Recitation by R. C. Calloway. Everybody cordially invited.

SUNDAY SCHOOL CONVENTION.

The Baptist Sunday Schools west of the L. & N. railroad and south of the Maplesville and Clanton road are requested to send delegates who are to meet with Pilgrims Rest church in convention Sunday, November 10th, 1912.

PROGRAM

9:45. Devotional exercises—R. P. Kendrick.

10:00. The Sunday School as a Mission Teaching Force—Rev. Jeff Deason and T. L. Detamus.

10:40. The Personalities of a Sunday School Teacher—Miss Lula Jones.

11:50. Christian Education—Prof. S. F. Bone.

11:10. What I do to increase the Membership in My School—Superintendents and others.

12:00. Dinner.

1:30. Songs.

1:40. What the Baptist Sunday School Work is Doing—J. M. Parrish.

2:10. The Importance of Individual Work—T. D. Sims.

2:40. The Duty of a Sunday School Superintendent—W. D. Parrish.

PRESIDENT DENNY URGES MEMORIAL FOR COL. JAMES THOS. MURFEE

University President Speaks on Educator at Country Club.

OLD STUDENTS PRESENT

Judge Thomas G. Jones Pledges Himself to Do Honor to His Old Friend.

$50,000 Proposed to be Raised.

Montgomery, Oct. 28.—Students and friends of the late Colonel James T. Murfee gathered together Thursday night at the County Club to meet Dr. George H. Denny, president of the University of Alabama who has been appointed chairman of the committee to raise a fund to provide a suitable memorial to Colonel Murfee's memory at Marion institute, of which he was the father.

Some days ago a call was sent out by Ray Rushton, of Montgomery, to the men all over Alabama who had either attended college at Marion or been personal friends of Colonel Murfee. His call met with liberal response.

Ray Rushton presided at the banquet, which was served before the discussion was begun, and introduced Dr. Denny, he said:

"The man whose memory we have come here tonight to commemorate came from Virginia shortly before the war, and he has left an invaluable impression on the present generation. This impression will not only be made on this generation but those to come as well.

DENNY HEADS MOVE.

"There is no limit to the monument which he left behind himself, but we have with us tonight another Virginia gentleman who has kindly consented to head the committee to raise funds to provide a suitable memorial to his memory."

Dr. Denny then spoke in an informal way of the movement and the advantage that might be derived therefrom.

"I am intensely interested in the movement," he said, "and I endorse all that has been said. It is a matter of grave importance that this memory should be perpetuated. Marion Institute holds a peculiar position in this state in that it is the only institution of its kind in the State which draws its students from a wide area. It must before it can accomplish its real purpose be more largely equipped. Colonel Murfee felt the need of a school of this character. He realized that it would be better, if possible, to educate the boys of Alabama in their native State rather than send them to the East. He aimed to make an Exeter, Andover or Lawrenceville of Marion, and we must finish his work that he founded.

JAMES THOMAS MURFEE MEMORIAL HALL.

It is fitting that the first building in the new group of buildings in the general plans of the architects, be erected as a Memorial to the founder of the institution. For fifty-three years Colonel Murfee served the South as teacher and leader, and for forty-five he gave himself to the service of education in Alabama, as Professor in the University of Alabama, as President of Howard College, and as Founder and Superintendent of Marion Institute. Thousands of young men have felt this uplifting influence, and tens of thousands in the years to come will be benefited by his constructive services to the commonwealth at the University of Howard College, and in the Marion institute.

All Marion Alumni and friends of Colonel Murfee have united to raise Fifty Thousand Dollars for the purpose of erecting Murfee Memorial Hall.

TRAVELING LIBRARY PLAN

Seeking to extend in Alabama the system of traveling libraries in schools, study clubs, and patriotic organizations, information relative to the regulations governing the libraries, is being issued by the State Department of Archives and History. For many years the department has been supplying elementary schools and rural communities with loan libraries, and desires to continue its activities in this line. The prospects of the free libraries is:

"Not the least important of the many valuable activities carried on by the Alabama State Department of Archives and History, is the effort it is making to reach the people of the State with good books.

"For many years it has been supplying the elementary schools and rural communities with small collections of from twenty-five to forty books to be used for a given period, and then returned for further circulation elsewhere. These collections comprise books of history, biography, poetry, agriculture, industries, domestic science, myths, government and fiction. They have been selected with great care and with few exceptions, comprise the latest editions.

"In addition to the general collections supplied for the use of schools and communities, the Department has made up a few special collections, for the use of study clubs, chapters of the Daughters of the American Revolution, and chapters of the United Daughters of the Confederacy. For clubs and chapters, however, the number of books sent does not exceed from five to ten.

"The regulations governing the use of these traveling libraries are few and simple. Applications to be made by the teacher, or by two interested citizens of the community (and these may be women), or by the president and secretary of the chapter, stating particularly the character of the books desired; the grade or grades of the school for which they are desired, or the particular subject or subjects being studied. In the case of the collections, intended for the use of schools and communities, and made up for general reading, the library may be retained four months, after which it is to be returned in good condition, wear and tear excepted. In the case of the small groups intended for the use of study clubs or chapters, they may be retained during the club season, or period of study, and no longer. They are then to be returned in good condition.

"There is no charge whatever for the use of these books, other than the payment of the express charges on receipt, the pre-payment of charges on their return, and the payment for lost copies.

"Through the entire country this method of educational extension, and as a means of affording the people an opportunity of getting the use of good books and reading free of all cost, have been exceedingly popular. It is hoped that the opportunity here offered will be embraced by all persons interested.

"Application should be addressed to Dr. Thomas M. Owen, Director, Alabama State Department of Archives and History, Montgomery."

BAKER SCHOOL HOUSE

Those who are interested in a literary society at this place will meet at the school house Saturday night at 7:30 o'clock for the purpose of organizing the same. All are invited to come.

J. D. Weldon

COLLINS CHAPEL.

There will be a Box Supper at our church Saturday night Nov. 9. Come boys and let's have a jolly time and one on the nice boxes spread will be there.

THE UNION
AND BANNER.

Published Every Thursday at Clanton, Chilton County, Alabama.
UNION PUBLISHING CO.

FRANK B. TICKNOR,
Editor and Manager.

Subscription price, in advance, per year, $1.00.

For Advertising rates call at the office of Union and Banner, next door to Court House.

Entered April 15, 1903, at Clanton, Ala., as second-class matter, under act of congress of March 3, 1879.

NOTICE TO CORRESPONDENTS: All communications to The Union and Banner must be signed by the writer's real name as well as that name which they wish to put in the paper. Letters must reach the editor Tuesday morning to get in the same week. While we will publish any and all communications complying with these requirements that do not contain any improper language, we are not responsible for the opinions expressed.

THE ELECTION.

As will be seen by our page of election returns, the National Democratic has won and the democrats are to have a four year trial.

The Progressive party has made a good beginning for the establishment of a people's party which will look after the interests of all classes and prove a very valuable check upon the party for the time dominant.

This is also true in the state. The people will insist more and more upon a better and cleaner administration and the Progressive party will be the one to which they will turn for relief.

In Chilton county the Progressives have won all the way through and the rebuke to bad administration has been most thorough.

Now that the campaign is over all should turn their attention to those things which work for the best interests of the county. All squabbles should be dropped and all efforts turned toward making Chilton to most peaceful and prosperous county in the state. She is one of the three counties that lead in the move for rule by the people, let us act as worthy of the honor.

The returns from the county elections given on our first page are unofficial but are believed to be very nearly correct. We will give fhe official count next week.

We were promised a list of the premium winners at the county fair for publication, but although they have been repeatedly applied for they have not been furnished.

We understand the fair was a financial success.

TO CORRESPONDENTS.

We would like correspondents to send in the news from every neighborhood; now that the campaign is over there will be more room for neighborhood news. The Union-Banner is a paper for the people of the whole county and its ambition is to serve their interests. We especially ask correspondence concerning school work. Nothing is more important to the people than the dducation of the children.

TO THE TEACHERS OF CHILTON COUNTY

The following books have been selected to be read by the members of the Alabama Teachers Reading Circle in Chilton county during the year 1912-13, to be read in the order named: White's Art of Teaching, 95c, McMurry's How to Study, $1.15, Reading in Public Schools, 85c.

These books can be secured postpaid from Loveman, Joseph & Loeb, Birmingham, at the above mentioned prices.

Every teacher is requested to procure the books and begin the study of them at once.

Notice for the call for a meeting of the Circle.

Cecil E. Harris, Co. Sec.

A Distinction With a Difference

YOU may not always get what you pay for. It takes a good judge of values to do that, but if there is one sure rule in business it is—you pay for all you get. You may not be able to see the difference between engines of similar appearance at different prices, but if you buy from a reputable firm you may be sure the difference in quality is there.

I H C Oil and Gasoline Engines

cost more than some others because they are more carefully made, and more thoroughly tested. Skillful designing, better material, better workmanship, more careful assembling, and more thorough testing, tell in the long run. Given equal care an I H C engine costs less per year of service than any other engine you can buy. If an I H C engine is given all the work it will do, pumping, sawing wood, running the grindstone, feed grinder, hay press, silage cutter, repair shop machines, cream separator, churn, washing machine, etc., etc., it will pay for itself in a very short time in money and labor saved.

I H C engines are made in every style—horizontal, vertical, air and water-cooled, stationary, portable and mounted on skids, to operate on gas, gasoline, kerosene, naphtha, distillate or alcohol, in sizes from 1 to 50 H. P. Kerosene-gasoline tractors, 12, 15, 20, 25 and 45-H P.

The I H C local dealer will give you catalogues and full information, or write

L & N

OUR CITIZENSHIP

For the last fiscal year, "L. & N." properties bear between five and six per cent. of the property taxes accruing to the State of Alabama, although its lines traverse only portions of thirty-one of the sixty-seven counties of the State. And it would be surprising to consider what a large proportion of the revenues of the principal counties traversed by L. & N. Lines is paid by the "L. & N.," if the limits of this article permitted the consideration of this data.

As a tax payer of this magnitude and importance, the "L. & N." considers itself thoroughly identified with the welfare of the State, and entitled to the rights, privileges and protection accorded to tax-paying citizens of the State. The officials of the road believe that other tax payers, who give thoughtful consideration to the matter, will agree with this view.

It is apparent on the face of it that continual agitation to prejudice the public against the L. & N., coupled with the increased cost of operation, enormous tax payments and ever decreasing freight and passenger rates will seriously cripple the L. & N. and interfere with its service.

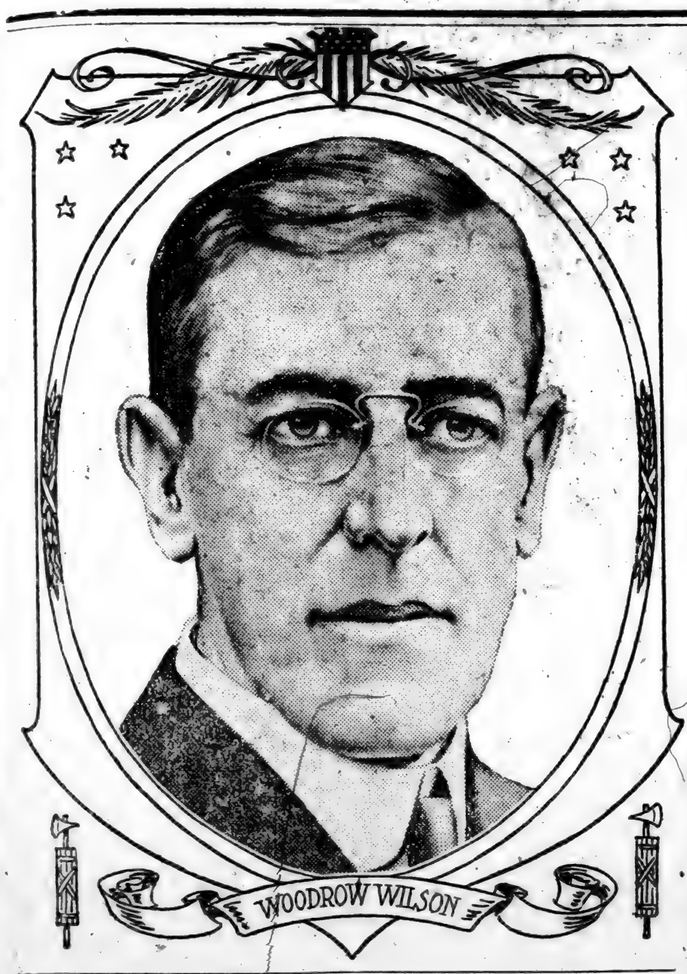
The people of Alabama demand, and are entitled to, good service. As their fellow citizens, the L. & N. is exerting its every effort to meet that demand. But the effort is met with increasing opposition by some of those most insistent that the service be supplied. They make a demand, and then do all in their power to prevent the demand being complied with.

The suggestion has been made that the L. & N. is used as a fictitious issue; that the agitation has been continued to supply self-seeking individuals an opportunity to pose before the people as laboring with might and main in the interests of the people.

This suggestion does not apply to that great body of thoughtful, fair-minded citizens for whom and with whom the L. & N. worked long before the present agitation was started, and for whom and with whom the L. & N. will work long after the agitators have been forgotten.

We believe a big majority of the people understand the situation. We do not believe a majority of the people favor an agitation detrimental to the business interests of any substantial tax payers of the State.

Louisville & Nashville R. R. Co.

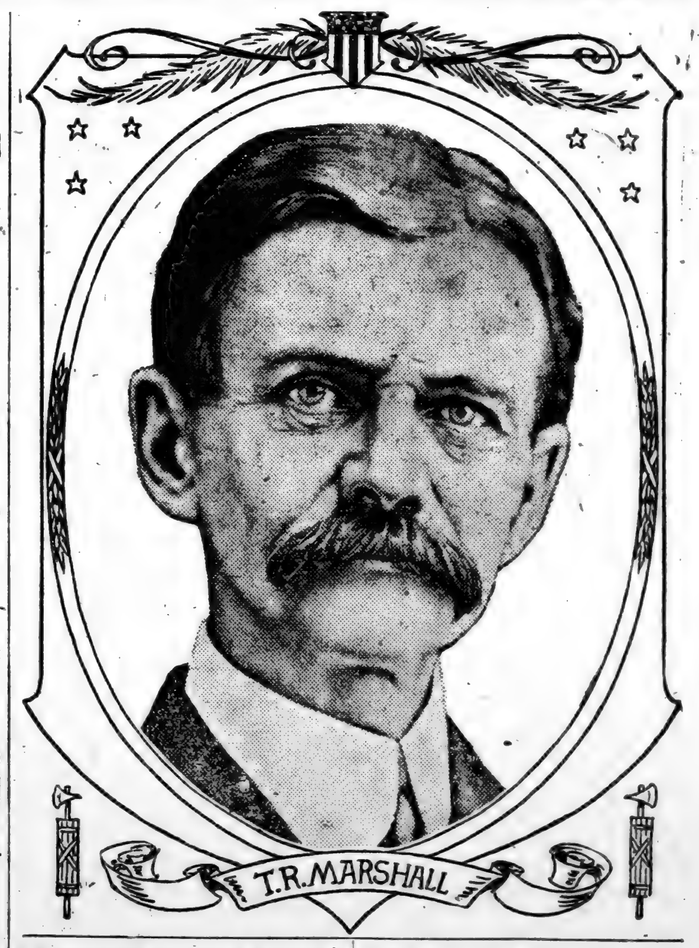


DEMOCRATIC LANDSLIDE WILSON AND MARSHALL

Overwhelming Majority is Given the Standard-Bearers of Democracy.

FIRST DEMOCRATIC PRESIDENT IN 20 YEARS

New York State Safely Democratic—Wilson Gets the Solid South.



ELECTION EPITOMIZED.

Governor Woodrow Wilson of New Jersey has been elected President by a safe majority of electoral votes according to returns received from the country at large.

Early returns gave Governor Wilson the "solid south" and Connecticut, Delaware, Kentucky, Maine, Maryland, Massachusetts, New York and West Virginia, Indiana and Missouri. Later returns give democrats Montana, New Jersey and New Mexico.

Roosevelt carried Illinois with a plurality greater than 100,000.

Roosevelt also carried Pennsylvania, Iowa, Kansas, Michigan and Washington.

New Hampshire and Vermont gave a majority to Taft.

The states where results were certain gave the following electoral votes: Wilson, 395; Roosevelt, 74; Taft, 8. This leaves 54 votes in doubt.

WILSON SWEEPS NEW YORK.

New York.—Woodrow Wilson was the choice of the state of New York for President by a plurality estimated at 200,000.

President Taft led Colonel Roosevelt in same districts by about 35,000.

Congressman William Sulzer was elected governor with a plurality estimated at about 175,000 over Job E. Hedges, the republican nominee, who in turn led Oscar Straus, candidate of the progressive party by about 15,000.

Barnes' Opinion.

William Barnes, Jr., chairman of the republican state committee, issued the following statement:

"The result of the election in the state of New York demonstrates one thing: That the Roosevelt movement was simply a republican bolt. With all of the frantic moves that were made to secure votes from people generally the result shows that practically none but former republicans joined the Roosevelt movement.

"The decisive victory of Taft and Hedbes over Roosevelt and Straus is a demonstration that the republicans of New York desired the renomination of President Taft and that the delegates from this state properly expressed the preference of the republicans when a large majority of them voted for Taft at Chicago."

KANSAS.

Topeka, Kan.—Kansas went for Roosevelt by a plurality of from 10,000 to 15,000.

MASSACHUSETTS.

Boston, Mass.—Massachusetts favored a democratic candidate for president for the first time in its history.

CONNECTICUT.

New Haven, Conn.—Connecticut gave Wilson and Marshall seven votes in the electoral college.

NEW JERSEY.

Newark, N. J.—Governor Wilson carried his own state by a safe plurality.

OREGON.

Portland, Ore.—Wilson carried Oregon by a safe plurality with Roosevelt second.

MAINE.

Portland, Me.—For the first time since the civil war Maine has chosen democratic electors.

SOUTH CAROLINA.

Columbia, S. C.—Returns indicate that Governor Wilson carried South Carolina by 50,000 majority. With 17,000 votes reported, the democratic national ticket has received 15,873, the progressives 764 and the republicans 273. The socialist ticket polled 98 votes so far. The state and congressional candidates of the democracy are elected.

Fixtures—Richardson 1800; Wallace 1700; Jefferson county amendment 1840; for 66 against

ALL THE PIE GOES TO THE DEMOCRATS

AMENDMENT TO FREE JEFFERSON COUNTY FROM FEE SYSTEM ADOPTED.

BURNETT WINS IN SEVENTH

Democratic Nominee For Congressman-At-Large Has Large Majority Over Republican.

Birmingham, Ala.—Alabama went Democratic again. Fair weather prevailed as a rule during the hours the ballot boxes were at the convenience of the electors, and a big vote was polled.

The combined votes cast for President Taft and Colonel Roosevelt fell short of the 35,000 votes cast in 1908 for Taft. In nearly every instance however, the vote cast for Roosevelt exceeded that for Taft.

The amendment to the state constitution designed to free Jefferson county from the fee system has been adopted, although it met with opposition in some quarters. Many voters failed to express their preference on the proposition, as the amendment applies to Jefferson county alone, and a feeling of apathy existed in many portions of the state.

The ratification of the amendment means that the legislature at its next session will place all county officials of Jefferson on a salary basis.

Sumter Cogswell, Progressive candidate for congress in the seventh district, was beaten by John L. Burnett, democrat.

John J. Stevens, republican, also was a candidate in the seventh.

In the fourth district, Fred L. Blackmon, democrat, was re-elected over W. H. Sturdivant; in the sixth C. P. Lunsford, republican, and A. P. Longshore, Bull Moose, were beaten by Richmond P. Hobson, democrat; William Richardson, democrat, had no trouble in defeating W. E. Hotchkiss, republican, in the eighth, while Oscar Underwood was returned from the ninth, over Frederick B. Parker, republican. John W. Abercrombie, democratic nominee for congress-at-large, has a large majority over Asa E. Stratton, republican.

These democrats had no opposition: George W. Taylor, in the first; S. Hugh Dent, in the second; Henry D. Clayton, in the third; J. Thomas Heflin in the fifth.

The entire democratic state ticket was elected, as follows: President of the Railroad Commission, Charles Henderson; Associate Justices Supreme Court, T. C. McClellan and A. D. Sayre; State Game and Fish Commissioner, John H. Wallace, Jr. The Bull Moose had no ticket in the field. The republican candidates were: President Railroad Commission, J. T. McEniry; Associate Justices, J. C. Commissioner, C. T. Lunsford. On the Socialist ticket R. L. Carter ran for President of the Railroad Commission and Warren Kilby for Game Commissioner.

JEFFERSON COUNTY.

Birmingham.—The anti-fee system amendment vote in Jefferson county was nearly 10 to 1 in favor of the amendment.

BUTLER COUNTY.

Greenville.—Returns show the Jefferson county fee amendment to carry by 698 majority. Greenville box gives President Wilson 324, Roosevelt 5, Taft 4.

MACON COUNTY.

Tuskegee.—The Jefferson county amendment carried in the city beat 107 to 4.

MONTGOMERY COUNTY.

Montgomery.—The Jefferson county amendment carried in this county.

MARSHALL COUNTY.

Watumpka.—This county gave majority for [illegible] county amendment.

TEARS COME TO WILSON'S EYES.

Speaks to Students Who Congratulate Him.

Princeton, N. J.—With tears of emotion in his eyes, Governor Wilson stood before the student body of Princeton university as it came cheering and singing to his house to congratulate him on his election.

The governor made a brief speech. The students gave the "locomotive" yell of Prinecton and sang "Old Nassau."

As he sang the song of the college, his hand uplifted, moving steadily to the characteristic refrain of the song it was evident that he was deeply moved. Beside him stood Mrs. Wilson and her three daughters, beaming with happiness.

In addressing the students Governor Wilson said in part:

"Gentlemen, I am sincerely glad to see you. The lesson of this election is a lesson of responsibility.

"I believe very heartily that a great cause has triumphed; that the American people know what they want and that when they know what they want, they have the men and the purpose to obtain it; but that they can't get what they want through the activities of a single man or a single session of congress or a single group of men. They must get by a long tedious effort, in which this generation will take an important part. I feel like summoning you fellows to do what you have more than generously done by voting for me and believing in me. I summon you for the rest of your lives to work to set this government forward by processes of justice, equity and fairness.

"I myself have no feeling of triumph tonight. I have a feeling of soelmn responsibility. I know that a great task lies ahead of the men associated with me as well as myself. I feel as if I were standing among my younger comrades. I thank you for the inspiration and exhilaration that I receive from your support."

Cheer after cheer rang forth when the governor finished speaking.

Governor Marshall sent Governor Wilson the following telegram:

"I salute you, my chieftain, in all love and loyalty."

Governor Wilson replied:

"Warmest thanks for your generous telegram. Your part in the campaign was a great strength. Now for the deep pleasure of close association in a great work of national service."

GEORGIA.

Atlanta, Ga.—Returns from practically every precinct in the state shows that Wilson has carried the Cracker state by a majority of 30,000. Two counties are credited as having been carried by Roosevelt.

TEXAS.

Dallas, Tex.—Returns show that Wilson and Marshall have carried the state by a large majority.

MISSISSIPPI.

Jackson, Miss.—The democratic majority in Mississippi is estimated at 105,000. Roosevelt electors polled the second largest vote.

NORTH CAROLINA.

Raleigh, N. C.—Returns indicate a large majority vote for Wilson with Roosevelt second.

KENTUCKY.

Louisville, Ky.—Figures compiled by a local news agency show that Wilson has carried Kentucky by a majority of 20,000.

WASHINGTON.

Seattle Wash.—Progressive State Chairman Snyder, with returns from more than 78 precincts and reports from the county chairman of the big progressive counties, said that Roosevelt's plurality in Washington was 40,000.

ALABAMA.

Montgomery, Ala.—Wilson carried every county in the state with the exception of Chilton and Marshall counties. These two counties gave a majority for Roosevelt.

PENNSYLVANIA.

Philadelphia, Pa.—Roosevelt, it was predicted, would carry Pennsylvania.

ILLINOIS.

Chicago.—Colonel Roosevelt swept Illinois in the race for the presidency.

NORTH DAKOTA.

Grand Forks, N. D.—Wilson carried North Dakota by a close margin.

VIRGINIA.

Richmond, Va.—Wilson's majority in this state it was predicted, would reach 40,000.

FLORIDA.

Jacksonville, Fla.—The entire democratic ticket is elected by a majority of about twenty thousand.

TENNESSEE.

Nashville, Tenn.—Wilson carried Tennessee by an overwhelming majority.

NEW MEXICO.

Albuquerque, N. M.—Wilson has a plurality of at least 2,500. Taft electors running second.

LOUISIANA.

New Orleans, La.—Wilson and Marshall carried the Pelican state by a good majority. Taft ran second.

WISCONSIN.

Milwaukee, Wis.—Returns from Milwaukee county and scattered precincts through the state show that Wilson has swept Wisconsin by from 20,000 to 30,000 votes.

UTAH.

Salt Lake City, Utah.—Taft has carried that state by a safe plurality and Governor William Spry has been re-elected.

MARYLAND.

Baltimore, Md.—Woodrow Wilson carried Maryland by from 20,000 to 25,000 plurality. All of the five democratic congressmen from Maryland were re-elected.

ARIONA.

Phoenix, Ariz.—Governor Wilson carried every one of the fourteen counties in the state with the possible exception of Coconino county in which Taft had a lead of four votes. Wilson will lead Roosevelt by about 3,000 votes with Taft third.

KENTUCKY.

Louisville, Ky.—Wilson carried Kentucky by a very large majority.

Louisville and the rest of the Fifth district went democratic for the second time in a quarter of a century.

KANSAS.

Topeka, Kan.—Roosevelt carried Kansas over Wilson by probably 10,000 plurality.

OKLAHOMA.

Oklahoma City.—Wilson-Marshall electors carried Oklahoma by a majority estimated at 20,000.

INDIANA.

Indianapolis, Ind.—Indiana went [illegible]

CONGRESSIONAL ELECTIONS.

New York.—Forty-second district, D. A. Driscoll, democrat, elected.

New York.—Forty-first district, Charles B. Smith, democrat, elected.

Iowa.—Second district, I. S. Pepper, democrat, re-elected.

Missouri.—Ninth district, Speaker Champ Clark, re-elected.

Maryland.—First district, J. H. Covington, democrat, elected; Third district, George Koneig, democrat, elected; fourth district, J. C. Yinthicum, democrat, elected.

Mississippi.—All democratic congressional nominees elected.

Arkansas.—All democratic congressional nominees elected.

All Alabama congressmen elected.

Minnesota.—Seventh district, Andrew J. Volstead, republican, re-elected; Ninth district, Halvor Steenerson, republican, re-elected.

Utica, N. Y.—Indications are that Talcott, democrat, has been re-elected to Congress.

Louisiana.—All democratic congressional candidates elected.

Kentucky.—Fifth district, Swager Sherly, democrat, re-elected.

New York.—Twelfth district, Henry M. Goldfogle, democrat, re-elected; Thirteenth district, Timothy D. Sullivan, democrat, elected; Fourteenth district, Jefferson M. Levy, democrat, elected; Fifteenth district, Michael F. Conroy, democrat, re-elected; Sixteenth district, Peter J. Dowling, democrat, elected; Seventeenth district, John S. Carew, democrat, elected; Nineteenth district, Franklin Leonard, Jr., democrat, elected; Twenty-first district, Henry George, Jr., democrat, re-elected.

Pennsylvania.—Thirteenth district, Rothermel, democrat, re-elected.

Georgia.—All democratic congressional nominees elected.

Texas.—All democratic congressional nominees in Texas elected.

New York.—Twenty-sixth district, Edmund Platt, republican, elected.

Missouri.—Eighth district, Dorsey W. Shackleford, re-elected; Fifteenth district, Pearl D. Decker, democrat, elected.

Maryland.—Sixth district, David J. Lewis, democrat, re-elected.

New York.—Fortieth district, Robert H. Gittins, democrat, elected; twenty-third district, Joseph A. G. Goulden, democrat, elected; thirty-third district, Charles A. Talcott, democrat, elected; Twenty-fourth district, W. R. Ogleby, democrat, elected; Twenty-second district, A. Bruckner, democrat, elected; Eighteenth district, Thomas G. Patton, democrat, elected; Twentieth district, F. B. Harrison, democrat, elected.

Wisconsin.—Seventh district, John J. Esch, republican, elected.

CHAMBERS COUNTY.

Lafayette.—Lafayette votes for amendment 213; against 11. Five Points, for 66; against 2.

BALDWIN COUNTY.

Bay Minette.—Practically all voters here voted for the amendment.

BIBB COUNTY.

Blocton.—Returns from three boxes gave Wilson 167, Taft 8, Roosevelt 23, Chafin 0, Debs 15. For the Jefferson county amendment 169, against 98.

PERRY COUNTY.

Marion.—Jefferson amendment carried in this county.

MARSHALL COUNTY.

Albertville.—Roosevelt carried Marshall county. Burnett received a majority of 400 of the vote between Beard, republican, and Barnes, democrat, for superintendent of education. Beard carried the county by about

DEMOCTATS WIN IN STATE ELECTIONS

ILLINOIS, CONNECTICUT, MASSACHUSETTS, NEW YORK ELECT GOVERNORS.

HOUSE REMAINS DEMOCRATIC

Majority in Lower Branch of Congress Will Be Largely Increased.

GOVERNORS ELECTED.

Democratic candidates for governor have been elected apparently in Illinois, Connecticut and New York, succeeding democrats in all states except in Illinois, where Dunne has defeated Gov. Deneen, republican, for re-election.

Returns also point to a democratic United States senate, and the majority in the house will be largely increased.

FOSS RE-ELECTED.

Boston, Mass.—Governor Foss was re-elected by an increased plurality. Returns from the sixteen congressional districts show the democrats have made slight gains.

BALDWIN RE-ELECTED.

New Haven, Conn.—Governor Baldwin, democrat, was re-elected by about 9,000 plurality, and the democrats elected four out of five congressmen.

ALL DEMOCRATS ELECTED.

Jackson, Miss.—All democratic congressional nominees were elected by large majorities.

NO CHANGE IN ALABAMA.

Montgomery, Ala.—The republicans failed to elect a man out of the several that were in the field against the democratic nominees.

BEVERIDGE DEFEATED.

Indianapolis, Ind.—Ralston, democrat, defeated Durbin, republican and Beveridge, progressive, for Governor.

MISSOURI.

St. Louis, Mo.—The state with its 18 electoral votes, is safely in the democratic column.

MICHIGAN.

Detroit, Mich.—Roosevelt carried the state.

IOWA.

Des Moines, Ia.—It was predicted that when the votes were counted it would be found that Roosevelt had carried the state.

VERMONT.

White River Junction, Vt.—Returns show that Taft has carried Vermont by a safe majority.

OHIO.

Cincinnati.—Governor Woodrow Wilson was running neck and neck with President Taft in the latter's own state when the first 561 precincts of the 4,304 in the state had reported.

NEWS BRIEFLY TOLD

A CONDENSED RECORD OF EVENTS OF THE WEEK.

SEVEN DAYS' NEWS AT A GLANCE

Important Happenings in All Parts of the World Summarized for the Busy Reader.

Southern.

The east basin of the reservoir of Nashville, Tenn., which is located on a high hill, gave way and the water poured down Eighth avenue and into Lynwood. Several houses were washed away, and many residences were flooded. While a number of residents of the neighborhood are missing it is not known that any lives were lost. T. M. Heffey, wife and child were washed out of their home, but were saved by climbing into the limbs of a tree. W. A. Arzinger and wife were awakened by the roar of the waters, and felt their house moving down the street.

Robert Larrimore, a well known farmer living near Americus, Ga., was instantly killed by Luther Allison, a real estate agent at Leslie, in a pistol duel participated in by the two. The homicide occurred in the store of the Leslie Hardware company and was witnessed by numerous bystanders, who sought cover when the shooting commenced. From particulars received, Sheriff Fuller thinks that Larrimore had been drinking, and had had an altercation with Allisonfi which was renewed when the participants met in the hardware store.

William W. Harkins, 33 years old, a deputy revenue collector for the Asheville (N. C.) district, was shot and fatally wounded by C. B. Boyd, 24, a Southern railway brakeman at an Asheville, N. C., club The men became involved in a quarrel over a game of cards.

General.

The heroic musicians who played "Nearer, My God, to Thee," as the Titanic sank in the bosm of the north Atlantic last April, were honored by New York City musicnasa. A bronze tablet to the seven bandsmen prepared by members of the Musical Mutual Protective Union was unveiled at the club house of the organization.

Adrianople is now completely surrounded by the Bulgarians whose attacks are meeting with great success, according to the minister. The position of the Turks is critical. There are persistent rumors that the Bulgarian cavalry has reached Redosto, where the Turks have been landing troops brought from Asia Minor.

Three masked men, little more than boys, held up and robbed southbound Missouri, Kansas and Texas train No 9 at Kirth, Okla., six miles south of Eufaula. The bandits flagged down the train as it rounded a curve onto a small trestle which they had set on fire. Uncoupling the engine, express car and baggage car from the other coaches, they ordered the engineer to run a half mile farther south, where the express safe was blown open and ransacked. Express officials declared that they could not tell the amount of loot, but expressed the belief that it will amount to several thousand dollars.

Former Police Lieut. Charles Becker is in the death house at Sing Sing, N. Y., prison, under sentence to die in the electric chair, during the week of December 9. He was convicted of the murder of Herman Rosenthal. He was taken there from New York immediately after sentenced was pronounced upon him.

Rutherford B. Cook, assistant secretary of the Chicago National League baseball club, shot and killed one of two men in an automobile who stopped him on Washington boulevard and ordered him to throw up his hands. The other man had not left the car and when his companion was shot he sped away.

The silence of Sofia concerning the great battle in Thrace has at last been broken by a brief dispatch announcing a Bulgarian victory and the capture of the town of Lule burgas.

Sing prison.

John Bernauer, the youthful Bavarian who robbed the residence of J. P. Morgan, Jr., in New York City, and other wealthy persons of thousands of dollars' worth of jewelry, freely related in court the story of his burglaries, but declared he was under the hypnotic spell of an old pal at the time. Bernauer entered a plea of guilty, however, and was sentenced to from five to ten years in Sing

August F. Siebel, of Chicago, in answering his wife's divorce complaint, claimed the distinction of the most henpecked husband in the world. His wife hit him with a stove he related to the jury.

Every week New Yorkers consume 10,000,000 quarts of beer, 40,000 quarts of champagne and much whisky.

Secretary of the Treasury MacVeagh has officially recognized tea as one of the right of women by authorizing the opening of a "tea room" in the treasury department, where 100 individual pots of tea keep up a merry song during lunch hour.

Three more men—her father, her brother and her sweetheart—gave up 50 square inches of skin for the burned body of Miss Ethel Smith, for whom Billy Rugh, the crippled newsboy of Gary, Ind., gave his life by allowing a useless limb to be amputated for his skin.

A. H. Bull & Co., part owners of the schooner John Maxwell, which was pounded to pieces on the Hatteras shoals, received word in New York City that the vessel's captain, Frederick Godfrey, had been washed ashore clinging to a piece of wreckage. Although Captain Godfrey suffered from exposure, he is expected to live as the only survivor of the crew of seven men aboard the Maxwell when she struck while bound from Norfolk to Savannah.

The Nicaraguan national election passed off quietly. The Conservative ticket, headed by Adolfo Diaz and Ferdinando Solozande, for president and vice president, respectively, won out. General Chamerro was not a candidiate and supported the Conservative ticket.

Whipped to a frazzle, the Turkish army is in full retreat on Constantinople, and the Turkish government has asked the powers to intervene. An official bulletin was issued by the government at Constantinople, admitting defeat at the hands of the Bulgarians in the great battle on the Thracean plains. Application was then made to the embassies in Constantinople for mediation by the powers to end the hostilities and arrange a peace agreement.

Six children in a little over thirteen months is the birth record of the family of Stephen Nageotte of the city of Frenchtown, Pa. Mrs. Nageotte has borne 15 children in 12 years and 13 of them are living.

The election of Gen. Mario Menocal and Enrique Jose Varona, respectively, candidates for the presidency and vice presidency of the Cuban republic on the Conservative ticket, and of all the other candidates put forward by the Conservatives appears to be practically asssured.

The seaport of Acapulco on the Pacific coast of Mexico was virtually destroyed by a severe hurricane, according to wireless dispatches received in Nicaragua. Four-fifths of the town was shattered and the American consulate was unroofed. No lives were lost.

The steel schooner Osprey and her entire crew of six men were lost at the entrance of the port of Marshfield, Oregon, when the vessel crashed into the jetty in a heavy sea.

Utica paid tribute to the memory of the late vice president, James S. Sherman. More than twenty-five thousand persons filed silently through the Oneida county courthouse and gazed for the last time upon the face of the vice president. President Taft caled at the Sherman home before the funeral.

The superdreadnaught, New York, greatest of the world's sea fighters, has been launched at the New York navy yard, Brooklyn.

Money lenders in New York City do an annual business of twenty million dollars; more than one hundred thousand persons, including 30,000 municipal employees are in their clutches and state courts are the unwitting instruments through which usury is collected, according to a report made public by investigators for District Attorney Whitman. Other facts set forth in the report are that "loan sharks" have been responsible for a great many suicides.

Washington.

Secretary of the Treasury MacVeagh, with one swoop, abolished the time-honored drinking cup from railroad cars, vessels and other conveyances operated in interstate traffic, and from depots and waiting rooms of common carriers.

Asystem of graft in the navy commissary department which may reach every ship in the Atlantic fleet has been revealed by a secret investigation.

At proper intervals for the next six weeks 125 enlisted men in the New York City navy yard will be chewing forty kinds of tobacco to decide the brand to be bought for navy use. Bids have been opened in Washington, D. C., from fifteen dealers, who want to furnish 20,000 pounds, about a year's supply for he American navy. Prices ranged from 32 to 42 cents for various grades. The contract may not go to the lowest bidder. Chemical tests will be made and the men's decision will be the ultimate choice.

After drugging a trusty, sawing sawing through eleven iron bars and scaling a jail yard wall, four inmates of the Kern county, California, jail, are fleeing through the hills with two posses in pursuit. When the trusty became unconscious in the corridor from the effects of the drug, the jailbreakers sawed through eight iron bars in their cell and three in a jail window. They descended to the ground by a rope made of bed clothes and scaled the 20-foot jail wall by a wire suspended from the top of the wall and made their escape.

In promulgating the first revision of the equity rules of Federal courts in the last fifty years, the Supreme court of the United States prohibited the granting of preliminary injunctions without notice, and restricted the granting of temporary restraining orders. The court, embodied in the new rule many of the points of the Clayton anti-injunction bill, for which labor leaders have been fighting, which has passed the house and waits in the senate. The new rules do not require those procuring the restraining order to give a bond or the judge to give reasons for granting it.

PROHIBITION PARTY FOUNDER IS DEAD

MADE FIRST SPEECH IN FAVOR OF ORGANIZATION OF PROHIBITION PARTY.

WAS RECOGNIZED LEADER

Wrote Call for the First National Convention at Which the Party Was Organized.

Detroit, Mich.—"Father" John Russell, founder of the prohibition party and the oldest Methodist preacher in the Detroit conference, is dead at the home of his daughter in this city. He was born in Livingston county, New York, in 1822. "Father" Russell cooperated with most of the leading temperance organizations during his life, such as the Sons of Temperance and the Good Templars was twice at the head of the order of Good Templars of the World and presided at the first session of the order ever held in England.

He wrote the first articles and made the first public speeches in favor of the organiziation of an independent political party on the issue of prohibition. He wrote the call for the first national convention at which the party was organized in Chicago and was the party's first candidate for the vice presidency in 1872. For years he was the recognized leader of the prohibition forces of the country.

MANDOT AND WOLGAST DRAW.

Both Men Take Considerable Punishment—Honors About Even.

New Orleans.—Seventy-five hundred people saw champion Ad Wolgast and Joe Mandot, the local lightweight, fight a no decision ten-round bout at the Pelican Park Arena. Honors were fairly divided. Both men took and received a lot of punishment and showed the marks of it. Mandot, by his showing, increased his fistic prestige.

Wolgast's infighting was a feature, but after the first few rounds the local boy in this respect gave as good as he received.

The gate receipts approximated $26,000.

FREE SPEECH NO LONGER.

President Madero Will Not Tolerate Adverse Criticism.

Mexico City.—President Madero has given warning that he will not permit the expression of opinions adverse to his government. He has imprisoned in Belem jail a number of men—most of them very young—for daring to utter views contrary to his own.

Notwithstanding that the president fought for freedom of speech and was later elected on a platform containing a plank, guaranteeing that privilege, it is not safe to say rude things about the executive.

CONFESSES TO MURDER.

Dallas, Tex.—The police made public a confession given them by G. H. Rose, asserting that 24 years ago, at Covington, Ky., he killed W. H. Morris. He said he went under the name of N. W. Ingersoll when he killed Morris. Rose also said that 24 years ago at Independent, Ky., he stole $110 from Austin Stephens.

Rose has resided in Dallas for 23 years and is 46 years old. He married a Dallas woman. The couple have no children. Rose has not given out any details of the alleged killing.

He says that while walking past a church here yesterday the sound of singing so affected him that he went inside, listened to the sermon, decided to confess, and went to the city jail where he surrendered.

REINHARDT'S PLAY BARRED.

London.—The examiner of plays, Charles H. E. Brookfield, has prohibited the production in England of Max Reinhardt's wordless play, "A Venetian Night." A large company was brought from Berlin, with elaborate stage settings and was to have appeared in the Palace theatre. After witnessing the rehearsal the censor forbade the production on the ground that the whole tone of the performance rendered it unsuitable for the English stage.

NEWS BREVITIES.

Trenton, N. J.—Andrew Kompovic, 62 years old, was electrocuted at the state prison here for the murder of 10-year-old Mary Halliday.

Jacksonville, Fla.—Women joined in the violence in connection with the street car strike here when a party of more than a dozen attacked a car with bricks, bottles and other missiles.

Atlanta.—A brigade post for infantry troops to be located at Atlanta, largely depends on the action of the Atlanta people in donating the land necessary for the enlargement of Fort McPherson, according to Maj. Gen. Leonard Wood, chief of staff of the army, who members on an inspection trip.

TRADE MOVEMENTS CONTINUE GOOD

Buying Unabated in Cereal Producing Sections.

New York.—Bradstreet's review of rade says:

Trade movements, considered in a collective sense, show no material hesitancy because of the emminence of the presidential election. In the great surplus cereal producing sections buying continues unabated, and it is only in the East that there is a tendency to mark time, but there, as elsewhere, business is strongly buttressed with orders previously booked. The integral feature of the situation can be encompassed in the statement that there is need for goods and that stocks with first hands are light, the shortage of labor, together with heavy consumptive requirements, having made for under production.

Jobbing trade in the Northwest, Southwest and Middle West continues exceptionally good, those from Texas points being pre-eminently soft, while in the East buying from jobbers is of the small-lot but frequent type, principally through the mails.

Throughout a large part of the South and on the Pacific coast improvement is mirrored forth, through the lower South Atlantic states things are dull, this section being about the only backward part of the country for which condition a poor and late cotton crop is mainly responsible. The wheels of industry continue to move at a swift pace. In the iron and steel lines a sold-ahead condition prevails and material for railway and equipment concerns is being taken in liberal quantities. Buyers of tin plates, hoops and plates are booked so far forward as the third quarter of 1913.

Jobbing trade in dry goods, groceries and shoes continue to manifest activity, though some reservation must be made for the former line in the East. Business failures in the United States for the week ending October 31, were 256 against 229 last week, 200 in the like week of 1911, 179 in 1910, 212 in 1909 and 205 in 1908.

Wheat, including flour, exports from the United States and Canada for the week ending October 31 aggregate 6,498,275 bushels against 6,655,961 last week and 4,668,500 this week last year.

For the 18 weeks ending October 31, exports are 74,408,608 bushels against 55,037,799 in the corresponding period last year.

Corn exports for the week are 81,520 bushels against 129,138 last week and 328,613 in 1911. For the 18 weeks ending October 31, corn exports are 1,406,280 bushels against 10,360,918 last year.

New York.—R. G. Dun & Co.'s weekly review of trade says:

So far as the business outlook is concerned conditions continue with remarkable activity and soundness in most industrial and mechanical lines. One of the most important developments is the energy and courage of the railroads in the purchase of new rolling stock and other supplies in order to prepare for the expansion of trade. Production in iron and steel is limited only to the capacity of the mills and time and labor and yet consumption still outstrips production and prompt delivery is difficult. In rails some mills are sold ahead up to June and new business keeps up well, notwithstanding that rollings for spring track laying cannot be made by the leading interests. There is a continued scarcity of crude steel and lots for prompt delivery command a premium, while steel bars, plates and shapes are strongly held.

The dry goods trade has been steady and prices have shown pronounced firmness. In cottons the jobbing trade is receiving reorders quite freely and as stocks in first hands are low the maintained demand accounts for the firmness in values and the readiness with which prices advance with the appearance of ordinary buying. Print cloths and convertibles are slightly higher and some readjustment of prices in bleached goods is expected. Ducks and cloths are well under contract, percales continue to sell well and ginghams are firm, while tickings and denims are under order for the next few weeks. Export shipments continue large. There is a steady call for all kinds of woolens and worsteds and many requests are being made for immediate delivery of goods not yet due.

The shoe trade is reasonably active and firm. Leather and hides continue very strong with advancing prices.

So far as the agricultural situation has changed it is for the better and it is especially noteworthy this week that while the weather continues favorable for cotton and receipts are heavy, prices have advanced because of a large demand from the mills.

Thus in every direction low stocks couple with restored confidence and revived activity create a demand that taxs productive capacity.

NEWS BREVITIES.

Mexico, Mo.—Col. Green Clay, formerly secretary of the American legation in Italy and Russia under his uncle Cassius M. Clay, died at his home here. For many years he was a leading Democratic politician in Missouri. Colonel Clay was born in Kentucky in 1833.

Chattanooga.—The Farmers Union gin at Lively, Ga., was destroyed by fire and it is supposed to have been the work of an incendiary.

"GOOSE PIMPLES"

(Copyright.)

VICE PRESIDENT'S BODY LAID TO REST

BANK OF FLOWERS COVER GRAVE OF VICE-PRESIDENT.

PRESIDENT TAFT ATTENDS

Senators and Judges Wept for Dead Friend—Service Was Impressive. Services at Church Attended by Thousands.

Utica, N. Y.—With simple but impressive services, the body of Vice-President James S. Sherman was laid away in a crypt within a beautiful mausoleum in Forest Hill cemetery. Under a canvas covering that served as a shield against a chill November wind, were gathered the Sherman family, President Taft, members of his cabinet, justices of the United States supreme court, senators and members of the house of representatives and a few intimate friends and business associates of the vice-president, while without a throng which had assembled to pay a final tribute stood reverently until the strains of "Asleep in Jesus," by the Haydn male chorus, which marked the conclusion of the services, had died away.

President Taft listened with bowed head and tear-dimmed eyes as Dr. W. M. Stryker, president of Hamilton College, read the brief committal service and the Rev. Louie H. Holden, pastor of Christ Church, of which Mr. Sherman was a member, offered prayer.

A mixed quartette sang "Good Night," and, when the selection by the male chorus had been concluded, the president gazed a moment at the flower-covered casket of his friend and slowly made his way to a waiting automobile, accompanied by former Vice-President Charles W. Fairbanks, Attorney General Wickersham and Maj. Rhoades, his military aide.

Crowds began to gather in the vicinity of the church before noon, and when the doors were finally opened, the large auditorium and spacious galleries were quickly filled, except those seats which had been set apart for the members of the family, President Taft and the congressional party, government officials and intimate friends of the vice-president. Details of police and firemen who were on hand to keep the crowds in check had difficulty in clearing the streets for the expected cortege, which had formed at the Sherman home..

MURDERED TWO WOMEN

Pansy Lesh, Aged 24, Confesses at Los Angeles.

Los Angeles, Cal.—Pansy Ellen Lesh, 24 years old, who said she had just been deserted by her husband, surrendered herself to the police, declaring that she had murdered two women in Missouri, one at Green Ridge and another at Sedalia. The victims, she said, were Mrs. Quantice and Mrs. Coe.

Mrs. Lesh said she was taken from the orphan home society in St. Louis when she was 13 years old by Quantice and lived with the family at Green Ridge. In June, 1904, she said Mrs. Quantice became ill and she put a capsule containing poison in some medicine and gave it to Mrs. Quantice, who died the next morning.

Transports in Reserve.

Fort Monroe, Va.—The army general staff has ordered four transports in reserve here to be prepared within four days for instant readiness to carry 2,500 troops to Cuba.

Washington.—The preparation of the army transports at Newport News for immediate service is one of several steps taken already by the general staff to have the army in readiness for service in Cuba should disorder arise demanding intervention.

Restores Use of Jaws.

Baltimore.—A remarkable operation, which has resulted successfully, was performed at a local hospital on a 14-year-old boy, who since birth had been unable to move his jaws. From the time of his birth it had been necessary to feed the child through a tube, as his jaw bones were stiff, having no normal "hinges." The surgeon cut through the solid bone where the joint should have been and modeled upon the sections actual joints such as nature usually provides. The child now has the normal use of his jaws.

BULGARS PRESSING CONSTANTINOPLE

OTTOMAN FORCE OF 200,000 DEFEATED AND IN RETREAT.

SAVOFF'S STRATEGY WINS

Massacre of Christians—Turks, in Revenge for Defeats, Practice Horrible Atrocities Upon Villages as They Fall Back.

London.—A four days' battle in Thrace has ended in the triumph of the Bulgarian commander-in-chief, Gen. Savoff, whose skillful strategy has probably brought to a close one of the shortest and most remarkable wars of record.

A great Turkish army, estimated at over 200,000 men, has been defeated and is in retreat. Constantinople is believed to be at the mercy of the victorious Bulgarian army, and a council sitting at the porte, is discussing the advisability of suing for peace.

Such is the news which comes from Constantinople. It is only a fortnight since Turkey declared war. The first week of the campaign closed with the dramatic fall of Kirk-Killissch, fully revealing for the first time the disorganization, bad morale and inefficient commissariat of the Turkish army. Today that army is defeated, routed within fifty miles of Constantinople, and possibly its retreat within the capital's line of defenses is cut off.

Massacres of innocent Christians in the villages through which the defeat-maddened Mohammedans pass in flight before the forces of the allies are reported here in dispatches from Vtanje and other points. Scores of villages have been burned and their inhabitants slain.

"Wherever the Turks passed," says the dispatch, "the Servian army found only land strewn with bodies of men, women and children, mutilated in the most barbarous fashion. Bodies of men were also found bound to trees. They had been burned alive by means of fires kindled under the feet. One body bore indications of having been roasted on a gridiron."

TRAGEDY AT PIE AUCTION

One Man Fatally Shot, Two Others Are Wounded.

Muskogee, Okla.—James Wilkinson was shot through the body, James Jackson, a peace officer, was shot through the right arm, and John Snyder sustained a scalp wound at a pie supper near here. Jackson was auctioning off the pie, and Wilkinson, who was one of the strongest bidders on one pie, took exceptions to the manner of conducting the sale, and pulling a revolver, fired into the ceiling.

The crowd was stampeded and the pies trampled under foot. Jackson tried to arrest Wilkinson, and the latter fired on Jackson. The latter returned the fire, shooting him above the heart. In the pistol duel that followed, Jackson was shot through the arm, and John Snyder, at whose home the "social" was being held, was struck on the head, the bullet glancing the scalp.

Four More States Needed.

Washington.—Thirty-two states have notified Secretary Knox of their ratification of the proposed income tax amendment to the federal constitution, and four have notified the state department of their rejection. To become effective, thirty-six states—three-fourths of those in the Union— must ratify. Those which have not notified the department of ratification or rejection are: Delaware, Florida, Louisiana, Massachusetts, New Jersey, New Mexico, Ohio, Pennsylvania, Vermont, Virginia, West Virginia and Wyoming.

$15,000 for Widows and Orphans.

Pittsburg, Pa.—The Carnegie hero fund commission announced that it had given $15,000 to assist the local committee at McCurtain, Okla., in caring for the forty-eight widows and 135 children who were dependent upon the seventy-three miners killed in a mine explosion at that place last April, and $10,000 to assist the committee at Jed, W. Va., in caring for the thirty-nine widows and eighty-one children dependent on the eighty-two men killed in the mine explosion there last March.

men killed in the mine explosion
last March.

Farmers' Educational and Co-Operative Union of America

Matters of Especial Moment to the Progressive Agriculturist

There is no waste so great as overwork.

A cheated soil always retaliates on somebody.

Some men sidestep so much that they just peck a circle.

The farmer is not a farmer indeed until he has a deed to a farm.

Few people can feel light hearted with an overloaded stomach.

Corn is more palatable at its late stages. It gets better as it ripens.

The farmer is not a plagiarist who borrows a good idea and puts it to use.

People who deserve the least are usually expecting the most commendation.

It never pays to mortgage tomorrow in order to keep right up to the minute today.

Estimate your chickens before they are hatched—but do not count them until afterward.

The co-operative spirit is not engendered by getting together to "get square" with one's neighbor.

If the candidate stands for what the people need, vote him in; if he stands for the job, vote him out.

The true progressive is a man who believes in making theoretical righteousness earn its board and keep.

When about to retire from the farm look out for a place where you can still be worth something to the world.

Unless government be for the good of all the people it is a sham, deserving to be destroyed and forgotten.

The farmer is really the greatest business man on earth because his business comes from in and on the earth.

It is a finer thing to be able to appreciate the golden hue of the harvest than to gloat over the gold it will bring.

While making two ears of corn to grow where only one grew before it is well not to forget to multiply the virtues also.

MUST MARKET COTTON SLOW

President Barrett Says Produce Will Realize Little Profit Unless Utmost Caution Is Used.

To the Officers and Members of the Farmers' Union:

The farmers of the southern states are this year in an excellent position to obtain a reasonable price for cotton, if they market the crop gradually and employ business methods.

Admittedly, the yield is much smaller than that of last year. At the same time, world consumption has taken a wider range. The cotton goods market is in a healthy condition, and business the world over, according to reports received by the International Institute of Agriculture at Rome, Italy, promises during the forthcoming season to reach encouraging proportions.

The cotton producer will not, however, secure anything resembling the worth of his staple to civilization unless he markets it with care and does not overwhelm the buyer with offerings.

In many of the states the Farmers' union has established warehouses which will handle the product and enable the farmer to hold.

The old system of glutting the market by rushing cotton upon it as soon as picked has not only robbed the farmer of millions of dollars which were his due, but it has as well hammered down prices paid the farmer who was more far-sighted and willing to hold his output.

If necessary, make sacrifices to feed your cotton gradually to the market. You owe it to your family and yourself, and to your fellow farmers, to get the price civilization is able and willing to pay. It is a certainty that if you do not secure it, others will.

No other class of business, no set of producers strain the market by congesting it during a brief three months of the year with the entire yield. It is high time the farmer who produces cotton ceased this extravagant practice. The fact that diversification has been practiced recently more than ever in the cotton belt will facilitate the practice, since more farmers are provided with feed-stuffs in payment for which they previously had to sell their cotton at a sacrifice. The present season is an excellent time for the cotton farmer to pursue the gradual marketing process as never in his career. That way lies independence and good prices.

CHARLES S. BARRETT.

Easy for Manipulators.

How easy it is for the manipulators on the great cotton exchanges to break the market and to give out a lower price for cotton. They have the price making machinery all in their own hands.

Industrious Cotton Buyer.

How industriously the little cotton buyer is working against any change in market systems. It means death to his trade. His is a work of self-preser

WHAT TRUE CO-OPERATION IS

Producer Wants "Square Deal," and It Is Up to Him to See That Buyer Gets Fair Treatment.

What is it? Co-operation among farmers, ranchers, truckers, fruit growers, poultrymen — agricultural producers of every kind, by whatever name they may be known.

Why? Because there seems to be no hopes for a square deal any other way.

That phrase "square deal" is a two-edged sword. It cuts both ways. The producer wants a square deal, but it is likewise up to him to see that the buyer gets a square deal, says the Western Farmer.

There is a bad streak in the best of us. We've got to co-operate to eliminate it from ourselves as well as keep the other fellow from showing too much of it. The farmer must see that his fellow worker plays fair so as to prevent farmers as a class from getting a bad name. Is there one among you who cheats in his transactions with the others? Does he hide rocks in the load of grain or hay, put bad eggs in the case, small apples in the middle of the barrel, water in the milk, or resort to any such tricks? Then he should be dealt with severely by his fellow farmers, because he hurts them all as a class by hismeanness.

Honest men are too often mistrusted because of the misdeeds of some scoundrel. Co-operation should eliminate this class.

But co-operation is necessary, if you get what is due you. Commissionmen resort to such tricks as will rob the producer of his just returns. While there are some honest and reliable commission firms, the farmer has little chance to learn who they are. He needs an agent of his own in the market place to sell his stuff.

The Co-operative Live Stock Commission company of Kansas City recently won out in a great lawsuit against the other commission merchants. The stock shippers had been held up until endurance ceased to be a virtue and they formed a company of their own.

The grain shippers and fruit shippers have had to do the same thing. But those who are in the co-operative scheme are so few as yet that the wolves in the market place still have good picking.

It matters little whether we have to pay a few cents more or less on a suit of clothes or a pair of shoes, or whether we think we are getting a few cents more for our wool and hides because of protection, but it does make a big difference whether each farmer gets robbed of several hundred dollar a year on his produce through the knavery of board of trade gamblers and tricky commission men.

The farmers work as hard for what they get as any class of laborers. They are entitled to a square deal. They never will get it except through co-operative societies of their own.

FARMER AS A MIDDLEMAN

His Place Comes From Services as the Human Link Between the Seed and the Finished Crop.

A good deal is said about middlemen and the cost they burden upon both producers and consumers. The cotton middleman exacts his toll from the farmer. The live-stock commission salesman exacts his fee from the stockman. The groceryman takes a profit on vegetables and canned goods he never grew. All our modern methods of business lead us across the middleman's path at every step and though we may locate and condemn him, his tribe seems to flourish exceedingly well these days.

The farmer himself is a middleman to a large extent. Perhaps he could see that like other middlemen there is a toll for him he can take if he wants, he would make more effort to get what is rightfully his.

The farmer's place as a middleman comes from his service as the human link between the seed and the finished crops, says the Texas Co-operator. Farmers call themselves producers, but much of this name is theirs by courtesy only, for after all the farmer can only assist nature to make the crop. For this service the farmer is entitled to a legitimate wage. We pay every other middleman the price he asks because we cannot help ourselves. If the farmers would unite for fair wages we would have to pay them too.

Means Equal Rights.

Co-operation means equal rights for all, not to the few who are strong enough to fight their own battles, but to the weak also. It is not a question of dollars and cents as much as a question of principles, and although we may not all be able to agree in all matters pertaining to this great work, we are bound to concede the fact that it is broadening the life of the farmer.

Requisites for Success.

Farmers are waking up to the idea that it requires about as much brain power to run a farm properly and profitably as it does to run a doctor's office, a preacher's pulpit or any other profession. We want brain and cultivated brains on the farms.

Feeding Silage.

Silage must be fed at the rate of an inch a day from the whole surface exposed. More than that is better. Therefore, too great diameter for the stock fed cannot be applied always.

EASY TO FILL THAT ORDER

Floorwalker Hardly Had to Think to Make Satisfactory Answer to the Inquiry.

"Silk stockings must be very cheap in America. Nowhere in the world do women's slim and supple ankles gleam in lustrous silk as they do here."

The speaker was Robert Loraine, the English actor. He continued:

"A married man told me the other day that, going into one of your department stores, he said to a floorwalker:

"'I'm looking for something pretty in silk stockings.'

"The floorwalker smiled, and with a gesture embraced the long rows of counters with their charming saleswomen.

"'That remark,' he said, 'describes, I believe, practically every one of our young ladies.'"

AWFUL ECZEMA ON FACE

Freeland, Md.—"Baby's eczema started in little spots and would burst and run all over his face and wherever the water would touch his face, it would make another sore. Pimples would break out and make his face sore and inflamed, and he was very cross and fretful. It was awful. He suffered tortures from it, and we had to tie mittens on his hands to keep him from scratching. A friend of mine told me of the Cuticura Soap and Ointment and I went to a drug store and bought them.

"When we would bathe his face with the Cuticura Soap and apply the Cuticura Ointment, he would be much better. He would wake up in the nights and cry with his face and we would put on some of the Cuticura Ointment and then he would rest all night. They have cured him completely of the eczema." (Signed) Mrs. Harry Wright, Mar. 21, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

No Broken Parts.

During the progress of the morning bath of a few months old infant a little neighbor girl came into the room carrying a doll and stood watching the operation for some time. The little girl's doll was much the worse for hard usage, being minus an arm and a leg. Finally she said to the mother of the child:

"How long have you had your baby?"

The child was informed, and, looking from her doll to the baby, she said:

"My, but you have kept it nice."—National Monthly.

Too Much of a Good Thing.

"I was very happy," said the professor, "when, after years of wooing, she finally said, 'Yes.'"

"But why did you break the engagement so soon after?" asked his friend.

"Man, it was she that dissolved it."

"Really?" said the friend. "How did that happen?"

"It was due to my accursed absent-mindedness. When, a few days later, I called at her home, I again asked her to marry me."—Youth's Companion.

Knows Tetterine Cures Eczema.

Mocksville, N. C.

I have a friend in the country here who has suffered for years with Eczema, and I told him if he used Tetterine he would soon be relieved, for it is the only thing that I ever used that would kill it.

P. S. Early.

Tetterine cures Eczema, Tetter, Ring Worm, Itching Piles and every form of Scalp and Skin Disease. Tetterine 50c; Tetterine Soap 25c. At druggists, or by mail from the manufacturer, The Shuptrine Co., Savannah, Ga.

With every mail order for Tetterine we give a box of Shuptrine's 10c Liver Pills free. Adv.

Ancients Knew of Elevators.

That the ancient Romans knew how to work lifts is the latest discovery reported from Rome in connection with the Palatine excavations. Pre-Romulan remains have been found, including 12 ancient lifts. One of the latter, which descends into the earliest known city, is now being cleaned and put into working order for the Archaeological Congress.

Not for Her.

"He seems to be so superficial," said Mrs. Oldcastle.

"Yes," replied Mrs. Gottalotte, as she hung her $15,000 necklace over the back of a chair. I've noticed that. He's got half a dozen big ones stuffed, that he claims he caught. I wouldn't have such things in my dining room."

AS A REMEDY FOR MALARIA in any form Elixir Babek has no equal. It cures the most obstinate and long standing cases.

"It gives pleasure to certify that the 'Elixir Babek' cured me of chills and malarial fever, with which I have suffered for a long time."—August Epps, Nance's Shops, Va.

It contains no quinine and is equally beneficial to young and old.

Elixir Babek, 50 cents, all druggists, or Klocsowski & Co., Washington, D.C. Adv.

Long-Felt Want.

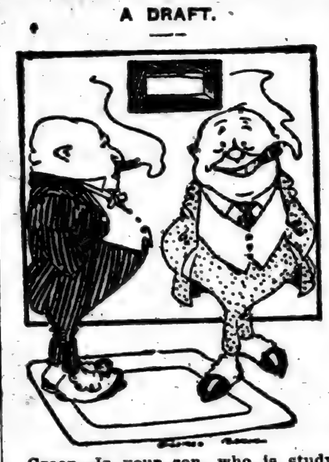
Man (entering store)—A card in your window says: "Boy wanted over sixteen years."

Proprietor—Yes, sir; have you one?

Man—No. I just dropped in to ask you if you weren't discouraged, that's all.

Occasionally a patient swears by his doctor, but more often at him.

A DRAFT.



Green—Is your son, who is studying art in Paris, learning to draw?

Wise—Well, he draws on me every week or so.

England's Motto.

"Dieu et Mon Droit"—God and My Right"—the royal motto of England, was the parole of the day given by Richard I. (he of the Lion Heart) to his army at the battle of Gisors, in France, on the 20th of September, 1198, when the French army was signally defeated. Dieu et Mon Droit appears to have been first assumed as a motto by Henry VI., 1422-1462. Semper Idem—"Always the Same"—was one of the mottoes of Queen Elizabeth; also adopted by Queens Mary and Anne.

Accepts the Rebuke.

A resident of an English city has made himself a marked man by insisting on saying "nought" instead of "O" when he calls a telephone number having ciphers in it. The telephone operator usually corrects him when he says "three double nought" by saying "Three double O." The other night he called up central and said, "Hello," and the girl replied: "Hell-nought." He accepted meekly the "quiet rebuke."—Springfield Republican.

The Kind He Was.

Many funny things happen in the courtroom.

A short time ago a negro was tried on the charge of killing another negro in the county jail.

"What kind of a man was this man you killed?" the negro was asked.

"Well, sah, b'lieve me," said the witness, "dat niggah was a ignoranomous pusillanimous degen'ate."—Columbus Evening Dispatch.

Breaking It Gently.

Pat—Mrs. Flannigan, yure mon Moike has just fell off th' scaffoldin' and killed himself, bedad!

Mrs. Flannigan (collapsing in chair)—Hivins!

Pat—Aisy—aisy! 'Tis only his leg thot's bruk. It's rejoiced ye'll be to hear it, whin ye thought he was killed fur-r-st!—Puck.

Simple Taste.

"Something mentally wrong with Kenworthy, don't you think?"

"Why so?"

"I asked him to come over and play 'auction bridge' with us last night, and he said he would rather waste his time playing 'bean-porridge-hot' or 'tit-tat-toe.'"

At the Prison.

"What are you in for, my poor fellow?"

"I'm afraid it's for keeps."

A great majority of summer ills are due to Malaria in suppressed form. Laxitude and headaches are but two symptoms. OXIDINE eradicates the Malaria germ and tones up the entire system. Adv.

There is no greater enemy than anger, which kills both laughter and joy.

BABY'S HAPPINESS DEPENDS ON HEALTH

When your baby is cross and fretful instead of the happy, laughing little dear you are accustomed to, in all probability the digestion has become disarranged and the bowels need attention. Give it a mild laxative, dispel the irritability, and bring back the happy content of babyhood.

The mother should make sure that the laxative used contains no opiate or narcotic drug. A mild, pleasant-tasting, harmless laxative like Dr. Caldwell's Syrup Pepsin is ideal for children because of its natural composition and gentle action. A small dose of Syrup Pepsin at bedtime will bring easy, certain relief next morning, and with no distressful griping or other discomfort. You can get Dr. Caldwell's Syrup Pepsin at any drug store. Your name and address on a postal to Dr. W. B. Caldwell, 203 West St., Monticello, Ill., will bring a free trial bottle by return mail. Adv.

Sensible Shift.

"Why does she dress so mannishly?"

"Well, she was no beauty as a girl, but she makes a fairly good-looking boy."

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form, and the most effectual form. For grown people and children, 50 cents. Adv.

So Like Strangers.

Nell—Bob Brown and Dolly Smith are engaged.

She—Indeed? I thought they were better acquainted.

If your appetite is not what it should be perhaps Malaria is developing. It affects the whole system. OXIDINE will clear away the germs, rid you of Malaria and generally improve your condition. Adv.

Babies are smart. You seldom hear one repeating the nonsensical things women say to them.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle. Adv.

Listeners seldom hear any good of themselves—or of anybody else.

If we could see ourselves as others see us we wouldn't believe it.

BACKACHE "GETS ON THE NERVES"

Many who suffer from backache and weak kidneys are unnaturally irritable, fretful and nervous. Not only does constant backache "get on the nerves", but bad kidneys fail to eliminate all the uric acid from the system, and uric acid irritates the nerves, keeping you "on edge" and causing rheumatic, neuralgic pains. Doan's Kidney Pills cure these ills by curing the kidneys. Here's proof:

"Every Picture Tells a Story"

A North Carolina Case:

Mrs. J. W. Wilkinson, Statesville, N.C., says: "I suffered acutely from bladder inflammation and almost total suppression of kidney secretions. My usual weight was 140 lbs., but I had run down to 90. Doctors said an operation was my only hope but I would not consent and was given up to die. Doan's Kidney Pills cured me completely."

One From Boston.

"Pa, was Job a doctor?"

"Not that I know of."

"Then why do people have so much to say about the patients of Job?"—Boston Transcript.

Bridge Scandal.

She—If you should hold a hand like that
To you what make would best appear?
He—Why, if I held a hand like yours, I think I'd make it diamonds, dear.

Was Not Guilty.

"Mordecai Judson," roared Colonel White, who had been aroused in the middle of the night by a suspicious noise in his poultry house, "is that you in there, you black thief?"

"No, sah," humbly replied a frightened voice. "Dis is muh cousin, Ink Judson, dat looks so much like me and steals everything he kin lay his dog-gawn han's on. Ah's at home dis minute, sah, a-sleepin' de sleep o' de jest."—Puck.

Chivalrous in Face of Misfortune.

At a mass meeting recently in a nearby town an old and foremost citizen who clings to the sartorial style of years ago, was called upon for his views on the subject in discussion. He made a brief speech, and as he was compelled to hurry back to his office, he turned to the seat next to his, on which he had deposited his silk hat, just in time to see a woman flatten it completely by sitting on it.

Ever polite, his feelings were nevertheless stirred, and the best he could think of to say under the circumstances was:

"I—I—I hope you have not injured yourself, madam."—Kansas City Star.

"PROUD AND GLAD"
Because Mother Looked So Well After Quitting Coffee.

An Ohio woman was almost distracted with coffee dyspepsia and heart trouble.

Like thousands of others, the drug *—caffeine—*in coffee was slowly but steadily undermining her nervous system and interfering with natural digestion of food. (Tea is just as injurious as coffee because it contains *caffeine*, the poisonous drug found in coffee.)

"For 30 years," she writes, "I have used coffee. Have always been sickly—had heart trouble and dyspepsia with ulcers in stomach and mouth so bad, sometimes, I was almost distracted and could hardly eat a thing for a week.

"I could not sleep for nervousness, and when I would lie down at night I'd belch up coffee and my heart would trouble me. It was like poison to me. I was thin—only weighed 125 lbs., when I quit coffee and began to use Postum.

"From the first day that belching and burning in my stomach stopped. I could sleep as soundly as anyone and, after the first month, whenever I met any friends they would ask me what was making me so fleshy and looking so well.

"Sometimes, before I could answer quick enough, one of the children or my husband would say, 'Why, that is what Postum is doing for her'—they were all so proud and glad.

"When I recommend it to anyone I always tell them to follow directions in making Postum, as it is not good to taste if weak, but fine when it has the flavor and rich brown color." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. Adv.

SPIRITUALIST GUILTY OF POISONING SON

MRS. LOUISE LINDLOFF GETS 25-YEAR PRISON SENTENCE.

GOT HER SON'S INSURANCE

It Has Been Twenty Years Since a White Woman Has Been Convicted of Murder in Cook County.

Chicago.—Mrs. Louise Lindloff, spiritualist and crystal gazer, was Monday found guilty of poisoning her son, Arthur Lindloff, for the purpose of collecting $3,500 insurance on his life. Punishments fixed at twenty-five years in prison. A new trial will be asked for.

The verdict, reached after five hours and one minute of deliberations, came as a startling surprise to everybody who has fololwed the case and to all who have watched for years the conduct of prosecutions against women for capital offenses.

It has been nearly twenty years since a white woman was convicted on a murder charge in Cook county.

Mrs. Lindloff heard the verdict without showing by any visible sign the emotion it caused her. Supported by Sadie Ray and Mrs. Anna Wentzler, two of her strongest witnesses, she walked from the courtroom, and it was not until she had reached the corridor that a sharp catching of her breath, bearing only the faintest resemblance to a sob, escaped her.

"FATHER" RUSSELL DIES

Founder of Prohibition Party and Old Methodist Preacher.

Detroit, Mich.—"Father" John Russell, founder of the Prohibition party and the oldest Methodist preacher in the Detroit conference, is dead at the home of his daughter in this city. He was born in Livingston county, N. Y., in 1822.

"Father" Russell co-operated with most of the leading temperance organizations during his life, such as the Sons of Temperance and the Good Templars, was twice at the head of the Order of Good Templars of the World and presided at the first session of the order ever held in England.

He wrote the first articles and made the first public speeches in favor of the organization of an independent political party on the issue of prohibition. He wrote the call for the first national convention in Chicago and was the party's first candidate for the vice-presidency in 1872.

LOSSES ARE 150,000

Total Number of Killed and Wounded on Both Sides.

Vienna.—According to a military authority here the total number of the killed and wounded on both sides in the Balkan war up to Monday is 150,000 men. The losses are distributed as follows.

At Kirk-Kilisseh and Adrianople—Turks, 25,000; Bulgarians, 7,000.

At Lule Burgas and during the Turkish retreat—Turks, 40,000; Bulgarians, 25,000.

At Mumanova—Turks, 7,000; Servians, 5,000.

Scutari and vicinity—Turks, 3,000; Montenegrins, 6,000.

In small engagements—Turks, 5,000; Servians, 3,000.

In engagements with the Greeks—Turks, 2,000; Greeks, 2,000.

POISON MYSTERY DEEPENS

Deaths at Mary Murphy Mine Not Due to Ptomaine.

Denver, Colo.—With the death of John Laverson Gower, an English capitalist, at Colorado Springs, the mystery surrounding supposed poisoning of several persons at the Mary Murphy mine near Buena Vista two weeks ago has deepened. Five deaths already have occurred among persons who ate in the boarding house October 21.

George E. Collins, general manager of the mine, declared that the investigation made by physicians of the food eaten at the boarding house disclosed no traces of ptomaine poison.

Women Aid Rioters.

Jacksonville, Fla.—Women joined in the violence in connection with the street car strike here Monday when a party of more than a dozen attacked a street car with bricks, bottles and other missiles. They made their escape before a hurry call brought a squad of miliamen to the scene.

CONFESSES TO OLD CRIME.

Kentuckian Admits Killing Man at Covington 24 Years Ago.

Dallas, Tex.—The police Monday made public a confession given them by G. H. Rose, asserting that twenty-four years ago at Covington, Ky., he killed W. H. Morris. He said he went under the name of N. W. Ingersoll when he killed Morris. Rose also said that twenty-four years ago at Independent, Ky., he stole $110 from Austain Stephens. Rose has resided in Dallas for twenty-three years and is forty-six years old.

NAMED AFTER CANDIDATES.

Washington.—Mr. and Mrs. J. H. Kyler of Dennison, Texas, sent a telegram to President Taft, at the White House, announcing the birth of three sons, named William Howard Taft Kyler, Theodore Roosevelt Kyler and Woodrow Wilson Kyler. The president's assistant Secretary Brahany sent a telegram to the parents expressing the wish that the triplets would live long and prosper.

STATE BRIEFS.

Birmingham.—Birmingham will be visited the first Sunday in December by General Ballington Booth, head of the Volunteers of America, and son of the noted General Booth, who died recently. He will preach at the Southside Baptist church. He is on a general tour of the United States, visiting every place where there is a branch of the Volunteers.

CARRY LARGE CARGO.

Mobile.—Thirteen thousand, three hundred bales of cotton were shipped out of Mobile in the holds of the British steamer Glendone and Iriston, bound for French and German ports The shipments were the largest for the year for a single day. The Iriston had as her cargo 6,563 square and 700 round bales of cotton. The Glendone had 6,200 bales of cotton.

CARGO OF COTTON SEED CAKE.

Mobile.—With an exclusive cargo of cotton seed cake, the steamship Norden sailed from Mobile for Aarhus, Denmark. The cargo was brought to Mobile over the Mobile and Ohio and Southern Railroads. The cargo is in 200 pound sacks and totals 9,433,740 pounds. The cake will be used in feeding cattle. Another cargo will be sent out in the near future.

MAY MEET PERMANENTLY.

Birmingham.—The Alabama State Land congress, to be held in Mobile November 12, 13 and 14, probably will be made a permanent organization to meet annually, and in this case probably will meet in Birmingham in 1913. That such a movement was under way was stated by Secretary W. C. Radcliffe of the Birmingham Chamber of Commerce.

NEW SCHOOL PROPOSED.

Anniston.—A new school is in the process of organization at Wellington, this county, on the crossing of the Seaboard and Louisville and Nashville railroads. The people of the town became dissatisfied with a ruling of the county board and will have an independent school in their own building.

TWENTY-FIVE STORY BUILDING.

Birmingham.—It was announced the new Jefferson County bank building will be 25 stories high instead of 22 stories as formerly planned. This, it is stated, will give Birmingham the highest building south of Washington, by several feet.

NEGRO DESPERADO KILLED.

Bessemer.—Barricaded in a private residence, a negro giving the name of Will Smith was riddled with bullets in a battle with a mob of infuriated citizens and officers of the law. Over 100 shots were fired.

The miniature "battle" followed the fatal wounding by the negro of Bessemer City Detective Frank Childers in the rear of Tery Brothers' pawn shop, 103 Nineteenth stree.

Childers lies mortally wounded at the Robinson hospital with two 41 calibre bullets in the body, the negro lies dead at the morgue of the Kennedy Undertaking establishment.

TALLADEGA MILLS INSANITARY.

Montgomery. — Complaint concerning the sanitary condition of Talladega County Cotton Mills is being made in a report which P. P. Hudson, Assistant State Mill Inspector, is compiling, covering the results of a trip of inspection. Condition of the Central Mills of Sylacauga and the Talladega Hosiery Mills of Talladega, is commended by the inspector, but arrangements for sanitation at the following mills are declared to be not good: Marble City Mills, Sylacauga; Highland City Mills, Talladega Cotton Factory Chinabee Mills, Talladega; Sycamore Mills at Sycamore, Munford Mills at Munford.

It is not likely that prosecution will be undertaken in the instance of any of the concerns. No violations of the child labor law or of other regulations governing mill operations were noted by the inspector.

UNDERWRITERS' HEADQUARTERS

Montgomery.—Headquarters of the Southeastern Underwriters Association in Alabama will be established in Montgomery, according to word received here. The selection of this city by the executive committee of the Underwriters Association at a meeting in Atlanta marks the end of a fight that has been waged betweene Montgomery and Birmingham over location of state headquarters.

The shooting occurred in the office of President James C. Oakley of the convict board, which is directly across the hall from the governor's office.

$5,000 FOR PERSONAL INJURIES.

Gadsden.—Martha Bishop has sued the Louisville and Nashville railroad to recover $5,000 for alleged personal injuries. She claims to have been injured while riding between Lodigh and Altoona.

COTTON SHIPMENTS AFFECTED

Gadsden.—Because of the car shortage much cotton cannot be shipped from the small stations in the country.

VICE-PRESIDENT SHERMAN IS DEAD

OVEREXERTION ON NOTIFICATION DAY HURRIED DEATH.

FAMILY WAS AT BEDSIDE

Death of President Taft's Running Mate Will Put Choice of Successor Up to Electors Who Would Vote for Man Suggested by Committee.

Utica, N. Y.—After a long illness, Vice-President James Schoolcraft Sherman died at his home in this city of uraemic poison caused by Bright's disease.

All the members of the immediate family were witnesses to the final scene. In addition to Mrs. Sherman there were in the death chamber their three sons, Sherrill, Richard U. and Thomas M. Mr. Sherman, and Mrs. L. B. Moore and Sherman, and their respective wives; R. M. and Sanford Sherman, brothers of Mrs. H. J. Cockinham, sisters of Mrs. Sherman.

Mr. Sherman's rapid decline in health dates from August 21, when he was formally notified of his nomination as vice-president, according to Dr. Peck. He was warned that the exertion incident to the ceremonies might have an ill effect, but insisted that the program as arranged be carried out.

"When it became apparent that he would not yield to my suggestions, I urged him to make a speech of not more than five minutes. Instead, he spoke for more than half an hour. Two days later the exertions of notification day began to tell on the patient and he began to fail."

NO EMBARASSMENT FEARED.

Washington.—Removal from the ticket of a vice-presidential candidate before the November elections does not lead to legal embarassment in his party.

This conclusion was based largely upon the fact that the voters do not vote directly for president and vice-president, but vote for electors, who are clothed with power under the constitution to select whomsoever they please when they meet in their respective states on the second Monday in next January to ballot for a president and vice-president and to certify that result to Washington.

It is stated that Republican electors would be as much bound to election of a vice-presidential candidate selected by the national committee as if the selection had been made months before the November election.

BOY WONDER IN STREET

I. C. Kringel, at 35, Controls Manhattan Insurance Company.

New York.—Another "boy wizard of finance" has come to the front in Wall street in the person of Ira C. Kringel, who has obtained control of the Manhattan Life Insurance Company.

Mr. Kringel at 35 years of age owns the capital stock of a company with $68,000,000 of outstanding insurance contracts, $100,000 capital and total assets of $22,000,000.

Mr. Kringel, who has rivaled the coup of Thomas Fortune Ryan in buying the Equitable Life Assurance Society from James Hazen Hyde, had his rise in the financial district as a corporation note broker, by no means a spectacular employment.

MEATS ARE HIGHER

Vegetables, However, Have Declined During the Past Year.

Washington.—The high cost of living continued to soar during the past year, so far as meat eaters were concerned, according to a report issued by the departemnt of agriculture. Vegetarians, however, were gainers, for according to the official showing, virtually all vegetables enumerated in the governmental list fell in price, with the single exception of beans, which cost on the farm $2.34 on October 15 last, as against $2.27 on the same date last year.

Super-Dreadnought Launched.

New York.—The super-dreadnought New York, greatest of the world's sea fighters, was launched Wednesday at the New York navy yards, Brooklyn. Forty thousand persons, including President Taft and the secretary of the navy, witnessed the ceremony.

Troops Called Out.

Jacksonville, Fla.—As a result of disorder and rioting here in connection with the street car strike, Gov. Gilchrist has ordered out the First and Second regiments, state troops, comprising about 3,000 men.

Wind, Hail and Rain.

Goree, Tex.—A wind, rain and hail storm swept this section Friday night. Hail which fell to a depth of about three inches caused heavy damage. All cotton left on stalks was stripped.

Graft in the Navy.

Washington.—A system of graft in the navy commissary department which may reach every ship in the Atlantic fleet has been revealed by a secret investigation which, Rear Admiral Osterhaus reported to the navy department, has resulted in the confession of C. T. Davis, chief commissary steward of the battleship Louisiana. Admiral Osterhaus' report contains no details further than that Davis has implicated stewards of other ships of the fleet—at least six—and several contractors.

NEITHER HAYSEED NOR ANGEL

But There Need Be Little Question That Young Lady Had Much Ingenuity.

Across the line on the Kansas side where the study of agriculture is compulsory, one of the high school girls took home her monthly report card and proudly announced:

"I took the highest grade in the class in history, English literature and German."

"That's all very well," replied her father, critically examining the card, "but how about this grade in agriculture?"

"Oh, well," explained the daughter, "I'm no hayseed!"

A little farther down a deportment grade, not altogether satisfactory, appeared.

"And how do you account for this grade in deportment?" he inquired.

"I'm no bloomin' angel, either," she replied.—Kansas City Star.

Situation Vacant.

The rich bachelor sighed and looked fixedly at the beautiful girl.

"Things with me," he said, "are at sixes and sevens. I feel the great need of a woman in my home—one who would straighten out my tangled affairs and make life worth living once again.

Her soft glance spoke her excitement and expectation.

"Yes?" she queried gently.

"Do you know," he continued, "of any good, able-bodied woman whom I could get to clean the house?"

Fond Memories.

"Baggs is such an ugly man, Miss Prettyface, that I cannot understand why he seems to interest you so."

"Of course, you can't, but with his dogged expression and his pug nose, he reminds me so much of my pet terrier."

To prevent Malaria is far better than to cure it. In malarial countries take a dose of OXIDINE regularly one each week and save yourself from Chills and Fever and other malarial troubles. Adv.

Contrary Causes.

"Why did Jinks break up housekeeping?"

"Because his wife broke down."

DOES YOUR HEAD ACHE?
Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Old Foes.

"How was the labor strike defeated?"

"It was done by capital management."

As a summer tonic there is no medicine that quite compares with OXIDINE. It not only builds up the system, but taken regularly, prevents Malaria. Regular or Tasteless formula at Druggists. Adv.

Sound One.

"What's your objection to my labor theory?"

"It won't work."

ITCH Relieved in 30 Minutes.
Woolford's Sanitary Lotion for all kinds of contagious itch. At Druggists. Adv.

Occasionally a couple marries in haste and live happily ever after—they secure a divorce.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe. Adv.

Rather Mixed.

"What is your walk in life?"

"I'm an aviator."

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

THE PRIZE BABIES.

Considerable interest was manifested during the county fair over the handsomest babies. The first prize for the boy baby was won by Mrs. P. I. Hopkins, of Clanton, and that for the girl by Mrs. Cavanaugh, of Jemison. The prize for the finest twins was awarded Mrs. John Minor.

James Williams, colored, was committed to the jail at Clanton on Tuesday, charged with the murder of a negro man at the camps of the Interstate Power Company. His preliminary trial is set for a day later in the present week.

Mr. Fate Popwell won the fine buggy given away at L. H. Reynolds' Saturday.

Mr. Frank Chrichton was feeling well enough Tuesday to be carried to the polls and cast his vote for the Progressive party.

140,000 ACRES OF FERTILE WEST FLORIDA LANDS for sale at from $5.00 to $25.00 per acre. Some improved, some timber, mostly cut over lands. Three railroads through property. Will sell in large or small tracts. Terms easy. Health, climate and productiveness of soil the best in the world.
Address DEKLE LAND CO.,
Nov7-4t Chipley, Fla.

Misses Eva Scott and Essie Atkinson, of Jemison, were the guests of Misses Anstice and Ida Bell Bruce last week.

Miss Minnie Muse has just received a shipment of American Beauty Corsets, from 50c to $3, the best corset ever sold for the money.

Don't waste your money buying strengthening plasters. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by Alred Drug Co.

Misses Nellie, Carrie, and Arthie Deming, of Jemison, were visitors here Friday.

Mr. Gamble, of the Gamble Hardware Company, came up from Wetumpka and spent several days during the fair.

Miss Nellie Williams, of Birmingham, was the guest of Miss Dovie Roper several days last week.

REMEMBER

You can always buy a good second hand Machine cheap at the Singer Store; Needles, Oil, Bands and Cans. C. Reese Mullins, Agent. 10-17-4t.

Mrs. Russell McDaniel, of Montgomery, spent several days with relatives in town last week.

Mr. Tom Dorminy, of Jemison was a pleasant visitor to Clanton Saturday.

Misses Lula Wells and Eva Simmons, of near Cooper, were visitors to Clanton last week.

Mr. and Mrs. J. L. Webb and daughters, of Jemison, attended the fair here Friday night.

Mr. J. E. Marley, of Jemison was a visitor to Clanton Friday.

Mr. and Mrs. Julia Webb, of Lomax, visited the fair Saturday.

Is your husband cross? An irritable, fault finding disposition is often due to a disordered stomach. A man with good digestion is nearly always good natured. A great many have been permanently cured of stomach trouble by taking Chamberlain's Tablets. For sale by Alred Drug Co

Mesdames O. M. Johnson and Michelson, of Thorsby, were in town Wednesday.

Miss Minnie Muse has reduced the price on all fall and winter millinery and will from this time on sell all hats a great deal below regular price, so call and see her.

Mr. and Mrs. Sam Latham, of Montevallo are the guests of Mr. and Mrs. E. E. Upchurch.

Misses Laura and Zonie Robinson, of Cooper were in town Friday.

Mr. W. H. Killingsworth, of Jemison, was among the visitors to Clanton during the fair.

The Methodist Ladies Aid Society will hold their next regular business meeting at the home of Mrs Bowden on the afternoon of November the 11th, 1912, at three o'clock. All the members are requested to be present.

Put a porous plaster on the chest and take a good cough syrup internally if you would treat a severe case of sore lungs properly. Get the dollar size HORE-AOUND SYRUP. With each bottle there is a free HERRICK'S RED PEPPER POROUS PLASTER for the chest. Sold by Upchurch Drug Co.

Mrs Sims and daughter, from Mountain Creek, and Rosia, Mary and Cathan Crawford from Verbena Ala. spent the day at Clanton Thursday.

Regulate the bowels when they fail to move properly. HERBINE is an admirable bowel regulator. It helps the liver and stomach and restores a fine feeling of strength and buoyancy. Price 50c. Sold by Upchurch Drug Co.

Misses Ollie Miller and Pearl Logan returned home after a pleasant visit to Clanton.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by Alred Drug Co.

At the quarters of the Twin Tree Lumber Company at Maplesville on last Sunday night, Floyd Gordon, colored, was shot by Arthur Arrington, also colored, during a frolic and dance. Arrington was arrested by Deputy-sheriff Ed Smitherman and committed to the jail at Clanton.

Rub a sore throat with BALLARD'S SNOW LINIMENT. One or two applications will cure it completely. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

Noah Wilson and Bert Giles were arrested on Saturday last at Clanton, charged with violating the prohibition law. They each made bond.

"It is a pleasure to tell you that Chamberlain's Cough Remedy is the best cough medicine I have ever used," writes Mrs. Hugh Cambell, of Lavonia, Ga. "I have used it with all my children and the results have been highly satisfactory." For sale by Alred Drug Co.

We want a good representative man in this county, who stands well with the farmers and business men, to represent us in the best enterprise that was ever promoted for the benefit of the farmers and the developement of the wealth of the county.

A fine opportunity is offered the right man in establishing a permanent business, which is a money maker from the start, in a number of ways.

CITATION TO APPEAR

State of Alabama, } Probate
Chilton County. } Court.

In the matter of the estate of Mary F. Bridges, Deceased.
To the Sheriff of said County:

Whereas J. T. Abbott Administrator of the estate of Mary F. Bridges, deceased, has filed his petition in said Court for a sale of the lands described therein, belonging to said estate, for division and to pay debts upon the ground that the same cannot be equitably divided among the heirs and the personal property is insufficient to pay the debts of the estate, and the 9th day of November 1912 has been appointed for the hearing of said petition.

You are therefore commanded to cite Mike Bridges, Delia Curtis, Alice Bench, Eliza Abbott, Sallie Chambers, Minnie Adams, Lee Jones, Bessie Rice, Marvin Williams, Rhoda Jones and all others to appear before the said court on said day to contest said petition if they think proper.

Witness my hand and seal this 23rd day of October, 1912.

B. B. DEASON,
Oct24-3t Judge of Probate.

Gave Up Hope
"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourn, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.
I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used I could do all my work. All the people around here said I would die, but Cardui relieved me."
TAKE CARDUI The Woman's Tonic
For more than 50 years, Cardui has been relieving women's sufferings, and making weak women strong and well. During this time, thousands of women like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, mild remedy for women.
Cardui strengthens, builds, restores, and relieves by preventing unnecessary pain and suffering. Just try it. Your druggist keeps it.
If you are a woman, begin taking Cardui today.

CUT OUT THIS AD.
Moles and Warts
Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.
Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.
Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

MARRIAGE LICENSES.

The following licenses have been issued from the Probate Judges' office this week:

Mr. Charlie Dawson and Miss Laura Blow; Mr. Earlie Killingsworth and Miss Beulah Veitch; Mr. C. E. Northrop and Miss Lela Mae Robinson; Mr. Arthur Mims and Miss Phroah Powell.

WEAK PEOPLE
will find, after a proper trial, that they feel much better and stronger from the use of St. Joseph's Liver Regulator, either liquid or powders. It removes toxic accumulations from the bowels, and thus gives Nature an opportunity to build up the system and insure good health. It is good for adults and children. A few doses will prove its efficacy. Druggists and general dealers sell it, liquid, 50 cents a bottle; powders, in tin boxes, 25 cents a box, five boxes for a dollar. Avoid substitutes—be sure to get "ST. JOSEPH'S."

A Peachy Machine.

A California high school student has patented a machine to cut and stone peaches and place the pieces right side up on drying trays at the rate of 1,500 boxes a day.

"There could be no better medicine than Chamberlain's Cough Remedy. My children were all sick with whooping cough. One of them was in bed, had a high fever and was coughing up blood. Our doctor gave them Chamberlain's Cough Remedy and the first dose eased them, and three bottles cured them," says Mrs. R. A. Donaldson, of Lexington, Miss. For sale by Alred Drug Co.

The Old Wagon Show.

The wagon show of long ago, it had a funny clown; we lined the way at break of day to see it into town. Our money went to the last cent to get us boys inside. But what of that? For hours we sat with eyes distended wide. The wagon show of long ago, it only had one ring, and we could sit close to it, and never miss a thing.

Stop coughing! you rack the lungs and worry the body. BALLARD'S HORE-HOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

Where the Court Erred.

Complaining at Tower bridge of her husband's conduct with two other "women-girls," a wife was told by the magistrate: "Madam, you may be married to a Don Giovanni." The applicant: "Indeed, sir, I ain't nothing of the sort!"—London Standard.

Unprofitable.

Householder—I give you my word, three seventy-five is all I have in the house, Burglar—Well, say! When ye figure me time an' me tools, how d'ye expect me to make any profit at that rate?—Life.

For the Hair
Are you so fortunate as to be well satisfied with your hair? Is it long enough, thick enough, rich enough? And your hair does not fall out? Well, well, that is good. But you may know of some not so fortunate. Then just tell them about Ayer's Hair Vigor. They will surely thank you after using it, if not before. Remember, it does not color the hair. Show this list of ingredients to your doctor. Let him decide.

Irregular bowel movements lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine vigorous condition. Price 50c. Sold by Upchurch Drug Co.

A. Mitchell, a general merchant near Bagdad, Ky., writes us:—"I think Foley Kidney Pills one of the greatest kidney medicines there is. My daughter was in terrible shape with kidney trouble and I got her to take it. She is completely cured now. I think it one of the greatest medicines made.
Upchurch Drug Co.

Dan J. Joyce, Sanville, Henry Co., Virginia, says:—"I took a cold with a cough which hung on for two years. Then I commenced using Foley's Honey and Tar Compound and the cough finally left me and now I am perfectly strong and well." Is best and safest for children and contains no opiates.
Upchurch Drug Co.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drug. Safe and always sure. Try them.
Upchurch Drug Co.

"Tells the Whole Story." To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops la grippe, coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, and accept no substitutes.
Upchurch Drug Co.

Huntsville, Ala. W. C. Tollard, a well known citizen, says:—"I have used Foley's Honey and Tar Compound and found it a most excellent preparation. In fact, it suits my case better than any cough syrup I have ever used and I have used a good many, for I am now over seventy years old."
Upchurch Drug Co.

J. K. Cotton, 1303 No. Market St., says:—"I heard of Foley Kidney Pills and took them for my case of kidney trouble. After taking them a few days the pain left my back, my kidneys acted regularly and the annoying bladder trouble was cured. I gladly recommend Foley Kidney Pills."
Upchurch Drug Co.

A LIVER MEDICINE THAT BEATS CALOMEL
Dodson's Liver Tone Does the Same Work as Calomel Without Making You Sick. It is Vegetable, Tastes Good and Never Fails.

Everybody who has ever taken Calomel knows what a strong drug it is. Calomel spurs the tired liver as if it were a tired horse, and while the liver works harder for a little while, it is soon weaker than ever.
Dodson's Liver Tone is a vegetable tonic that gently induces the sluggish liver to work. Taking it is followed by no bad after-effects. No restriction of habit or diet necessary. For either children or grown people. The Alred Drug Company sells it.
The Upchurch Drug Co. sells a large bottle of Dodson's Liver Tone for fifty cents and guarantees it to be a perfect substitute for calomel and will give you your money back if it disappoints you.

THORSBY NEWS.

Dr. Posey and family have moved to Thorsby and will make it their home. The Doctor will practice medicine.

Mr. P. K. Villadson is in the north on a business trip.

Thorsby is on the progressive list; every house in town is occupied, the next newcomers will have to pitch tents.

Mr. W. B. Tomlin has just made a trip to Mississippi.

The Commercial Club of Thorsby met Tuesday night for the purpose of organizing.

Rev. Butler preached at the Congregational church Sunday morning.

The new dormitory for the boys is being erected. There are improvements being made all around. The Twins.

SAMARIA.

Health of this community is very good at present.

Our Sunday school is progressing nicely under the careful management of E. B. Calloway, superintendent.

Brother Albert Foshee is our next preacher for the coming year. He filled his appointment the first Sunday and will be here the next first Sunday. Lets hear what he has to tell us, I know it will be something good.

Some of our girls were all smiles Sunday as our beaux were present.

Mr. Ephriam Smith was a pleasant visitor to Miss Bertha Calloway Sunday.

Miss Cara Foshee visited Miss Vera Williams Sunday.

Mr. Brooks Young returned to his home in Birmingham Sunday after a pleasant visit in Clanton the past week.

The school at this place started Monday with a nice little crowd.
His Lover.

MT. PLEASANT.

With a few exceptions, folks around here are enjoying good health.

Rev. Mullins will preach at this place next Sunday.

Miss Mamie Collins visited her sister Mrs. Alonzo Robinson Sunday.

Miss Katie Duncan spent Saturday night with Miss Matilda Smith.

Mrs. J. A. Duncan visited Mrs. John Duncan Sunday.

Mr. and Mrs. Jim Scroggins were recent visitors to Mr. and Mrs. Frank Scroggins.

Mr. and Mrs. J. C. Maddox visited the latter's parents, Mr. and Mrs. J. J. Culp, Sunday.

Mr. and Mrs. Ward visited Mrs. Foshee near Liberty Sunday.

There will be singing at Walter Foshee's Sunday afternoon. We are hoping to have a grand time.

Wonder what is the matter with J. C. J? He must have got stung over the way. By the way every thing will come right some day.

What's the matter with L. P.? He was out riding by himself.

Miss Kathrine Culp spent Saturday night with Mrs. J. W. Foshee.
Blue Jays.

POPLAR SPRINGS.

Health of this community is very good at present. Farmers are just about through picking cotton. 12c cotton makes the farmers hustle.

The singing school at this place taught by Prof. W. O. Rich closed last Friday. We had a good school. Everything went off nicely, and I never saw a greater progress in singing. We hope to have Prof. Rich to teach us another singing school in the near future. A STUDENT.

Isn't this the time you promised to bring in your subscription?

"THE BATTLE HAS JUST BEGUN."

STIRING WORDS OF ENCOURAGEMENT FROM ROOSEVELT.

NEW YORK, Nov. 11—Theodore Roosevelt made a formal statement tonight bearing upon the election and the future of the Progressive party. In line with previous expressions of his own, and of his colleagues, he reiterates that "the Progressive party has come to stay," and "so far from being over, the battle has just begun."

He regards the party's showing in polling more than 4,000,000 votes, in the face of numerous obstacles naturally in the path of a new movement, as "literally unparalleled in the history of free government."

The statement follows:

"I congratulate the Progressives of the country—that is, I congratulate those good men and woman who, with sincerity of purpose for the common good, have had the vision to look into the coming years, and see what the future demands from us.

"What the Progressive party has done since the theft of the Republican party by the Republican bosses at Chicago last June, is literally unparalleled in the history of free government worked under representative institutions. Three months have gone by since the new Progressive party was founded without much money, without any organization against the wealth of the country, against the entire organized political ability of the country, against the bitter hostility of ninety per cent of the press of the country, against the furious opposition of every upholder of special privilege, whether in politics or in business, and with the channels of information to the public largely choked--the Progressive party has polled between four and four and one-half million votes, has hopelessly beaten one of the old parties, both in the electoral college and in the popular vote; has taken second place in the nation, and either first or second place in some thirty-seven of these forty-eight States. No task in any way approaching this has ever before been performed by any party in our country. Such a feat, performed by volunteers hastily brought together and without any previous co-operation with each other, against the trained veterans of the political arena—these trained veterans, including the entire mercenary forces of politics—should be a source of pride, not only to those who performed the task, but to all believers in good citizenship and in the capacity of Americans for self government.

"During the camgaign, I said repeatedly that this was in no shape or way a one-man movement, but a movement for great principles—a movement which has sprung, as all healthy movements in our democracy must spring, from the heart and conscience of the people themselves. This truth must be kept steadily before the minds of us all. The Progressive party has come to stay. If either of the old parties will endeavor to put into legislation any one of our planks, it can count upon our hearty support in so doing; but we will not rest contented until the entire platform is enacted into law, and becomes part of our political system, National and State.

"I am proud, indeed, that the great good fortune has been mine to fight shoulder to shoulder with the men and women who, in the ranks, and in various positions of leaderships, have waged this great battle for social and industrial justice. So far from being over, the battle has just begun. We will not rest content until every feature of the Progressive program has been put into effect; and, when this has been done, unquestionably there will have opened to us new avenues along which it will still be a duty to work for the moral and economic betterment of our people.
(Signed) "Theodore Roosevelt."

J. K. Cotton, 1303 No, Market St., says:—"I heard of Foley Kidney Pills and took them for my case of kidney trouble. After taking them a few days the pain left my back, my kidneys acted regularly and the annoying bladder trouble was cured. I gladly recommend Foley Kidney Pills."
Upchurch Drug Co.

HAVE A PURPOSE IN YOUR FARMING.

Unquestionably, the main reason why many farmers make such a poor showing and accumulate so little is to be found in the fact that they have no definite purpose in their farming. They do not know what they are trying to do. Their main crop this year may be cotton, next year it may be corn, another year it may be something else. They may "go into" hogs when prices are high and out again when prices get low. They do not know even now what crops are to go in the different fields next year, and they have only the vaguest sort of idea as to what they will have to dispose of next fall or next spring.

This sort of farming will never succeed. The first thing for the farmer to do in planning his work is to decide what particular line of farming he will follow. If he is going to make cotton, or peanuts, or hogs, or dairy products, or anything else, his main dependence for cash, he must then plan his rotation, lay out his fields, arrange his work with a view to making this specialty as profitable as possible. Then he can give attention to the best methods of handling the other crops and other lines of work.

Judicious specialization, or at least judicious arrangement of crops and work with a definite end in view, is the only safe plan for the farmer to follow. This is not incompatible with proper rotation and diversification. In fact, it is almost an essential part of it. Haphazard rotations, uncertain aims, constantly changing plans must give way on thousands of our Southern farms to definitely planned progress toward a determined end, before any high degree of prosperity is reached.—The Progressive Farmer.

WEAK PEOPLE
will find, after a proper trial, that they feel much better and stronger from the use of St. Joseph's Liver Regulator, either liquid or powders. It removes toxic accumulations from the bowels, and thus gives Nature an opportunity to build up the system and insure good health. It is good for adults and children. A few doses will prove its efficacy. Druggists and general dealers sell it, liquid, 50 cents a bottle; powders, in tin boxes, 25 cents a box, five boxes for a dollar. Avoid substitutes—be sure to get "St. Joseph's."

VANDERBILT HUSTLER.

Nashville, Tenn., Nov. 8, '12.
J. Clinton Foshee, an Alabama boy, was today elected chairman of the committee of five on the Honor System, receiving the popular vote of the Freshman class of the Medical Department.

READING CIRCLE.

All members of the Alabama Teachers Reading Circle in Chilton County are earnestly requested to meet at the Court House, Clanton, on the first Saturday in December, for the purpose of completing the county organization and discussing plans for making the work of the Circle more effective.

This work will be attended to after the School Improvement Association, which meets on the same day, adjourns.
Cecil E. Harris, Co. Sec.
Jemison, Nov. 9.

Huntsville, Ala. W. C. Tollard, a well known citizen, says:—"I have used Foley's Honey and Tar Compound and found it a most excellent preparation. In fact, it suits my case better than any cough syrup I have ever used and I have used a good many, for I am now over seventy years old."
Upchurch Drug Co.

UNION GROVE.

All who are interested in the school at Union Grove are invited to be present at the school house Friday, Nov. 15, at 7 p. m., for the purpose of organizing a School Improvement Association. Prof. Howard Roper and other workers of ability will be present.

"Tells the Whole Story." To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops la grippe, coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, and accept no substitutes.
Upchurch Drug Co.

AFTER THE "GOOD THING."

Any good thing in this world worth having is worth asking for.—Opelika News.

The "thing," meant here is the pay that goes with a public office; to wit, a postmastership. The editor of the News is to some extent excusable, since the common way of regarding public office is as a reward, or, as the William L. Marcy dubbed it, the "spoils" of victory. He cannot have failed to observed however, that for some time past another view of the matter has met with considerable acceptance; and that office is, as Cleveland called it, a "trust, and as Woodrow Wilson says of it, a "trusteeship." It is a service; and Mr. Wilson has been studying ways and means of making public servants truly regardful of their duty. He is flatly down upon "jobs," political henchmen, the boss in politics, and the usual machinery for continuing presidents and other lesser lights in office. The poorest recommendation a citizen can give of himself to such a Democrat as Wilson is that the citizen has served long in the ranks, and now that he is old, deserves the ease and emoluments of public office. Mr. Wilson himself does not look upon public office as a reward but as a task—a something that calls for the hard work of a capable man, the best that lies in a man. And Mr. Wilson is likely to ask concerning an applicant, what is his honesty and his fitness to give the people the best possible service; and not how long has he voted the Democratic ticket or how many years he has helped distribute local offices in the state and community where he lives.

Democrats will be appointed to office, surely; and because they are in sympathy with Democratic policy and therefore better able to define and work out that policy than persons are who are opposed to it. No one need be surprised, however, to see many an applicant refused who has no better plea to present than that he has been a good party man and never failed to vote the party ticket.—Mobile Register.

REPORT ON CHILTON COUNTY JAIL

Montgomery, Oct. 14, 1912.
Hon. Emmett O'Neal,
Governor of Alabama,
Montgomery, Ala.,

Sir:—On October 8th, 1912, the jail of Chilton County was inspected by a member of this department, and I beg to submit herewith the following report.

At the time of this inspection there were ten prisoners confined in the jail, viz., two white males and eight negro males; all in apparently good health, receiving two meals daily and having no complaints to make as to their food or treatment.

This is an old jail and does not conform to law as to the number of apartments. It is poorly ventilated and poorly lighted, is heated by stoves, has no hot water connections and in all is a very poor jail.

The first story is built of stone, contains no cells whatever and is rarely used for jail purposes.

The second story has one small room for the confinement of females, and one large room only partly partitioned, containing four cells of old and unknown type, two for white men and two for negro men.

This jail had not been painted during the first week of October as required by law, though the Sheriff informed me it should be done immediately.

I have no recommendations to make at this time, except that the county arrange to have the building properly heated, preferably by steam or hot water, and that a hot water system for bathing purposes be installed at the same time.

Respectfully submitted,
W. H. OATES, M. D.,
State Prison Inspector.

Rub a sore throat with BALLARD'S SNOW LINIMENT. One or two applications will cure it completely. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

THE UNION
AND BANNER.

Published F ery Thursday at Clanton, Chilton County, Alabama.
UNION PUBLISHING CO.

FRANK B. TICKNOR,
Editor and Manager.

Subscription price, in advance, per year, $1.00.

Entered April 15, 1903, at Clanton, Ala. as second-class matter, under act of congress of March 3, 1879.

NOTICE TO CORRESPONDENTS: All communications to The Union and Banner must be signed by the writer's real name as well as that name which they wish to put in the paper. Letters must reach the editor Tuesday morning to get in the same week. While we will publish any and all communications complying with these requirements that do not contain any improper language, we are not responsible for the opinions expressed.

Read the ringing assurance of our leader, on the first page, that the battle has just begun, and the fight against class rule will be carried on with unflagging zeal.

If the merchants of Clanton, or any other town in the county, desire the country trade they must ask for it in the columns of the Union-Banner. It reaches every community of the county and a very large proportion of the homes. If you doubt it, step round to the office and look at the printed subscription list, always open to inspection. It reaches the people who do the trading.

On account of a miscount we were short a few copies of half of the paper last week so a few subscribers got only a half paper.

The farmers of Chilton county are advised to trade with those merchants who invite them to do so through the columns of the Union-Banner, the country people's paper.

Owing to the rush of campaign matter last month we neglected to call attention to a new and vigorous firm at Jemison, the J. E. Marley Hardware Co. This new firm has an unusually large and fine stock of hardware of all sorts and farmers will find it to their advantage to trade with them, even if they have to travel some distance.

The immense, and fearfully hungry, new pie brigade feel that the 4th of March is a long way off. Most of them need pie "right now."

Again we are disppointed in the matter of publishing the list of premiums awarded at the county fair. It was promised to us in time for this issue, but the officers failed to get it ready in time. What's the matter with a little work?

Over four million voters make a good beginning for a party and the progressives may congratulate themselves on having laid a good foundation from which to press the claims of the common people for a square deal.

The Progressive party will have more infuence in controling democrat action than the republican party could have had. In that way the people will reap benefit from the new organization; and organization which will gain strength through conflict during the next four years.

We want correspondents in every community in the county. Send us in the home news and let people know you are on the map. We want the Union-Banner to be a helpful home paper, so we especially desire the news the churches, Sunday schools and public schools. We do not care so much for "courting" items, but a little good natured gossip does not hurt.

The Union- Banner will do all it can to advance farming interests and all Farmers Union matter is most acceptable.

THE SAFETY

of the money on deposit with this Bank is guarded by as careful conservative a Board of Directors as you will find anywhere.

That our people appreciate this conservatism, this care for the safety of their money, is evidenced by the continued increase in our deposits and the growth of our general business.

The management given the affairs of this Bank by our Board of Directors speaks well for the future of the Bank and the prosperity of our patrons.

Pee-Gee Penetrating DYSTAIN
A Perfect Stain for Wood Work

Pee-Gee Dystain is different from other wood stains. It *strikes into* hard or soft, open or close-grain wood and brings out its natural beauty, without raising the grain.

Ten Permanent Colors that are just the right shade; shows no laps or streaks; dries quickly; leaves a smooth surface for finishing, and will not rub up.

Meets every requirement for interior wood work, floors and furniture.

Ask our dealer in your town for color cards and full information.

Made by Peaslee-Gaulbert Co., INCORPORATED
Louisville, Ky.

SOLD BY
UPCHURCH DRUG CO.

I HAVE JUST RECEIVED A FRESH car of the same flour I have been handling from the mills. A car of the same shorts and middlings which I have been selling. Remember I have plenty of genuine Texas Red Rust Proof Seed Oats, from Howe, Texas. I will sell Stoves at the lowest price for the balance of this month that they was ever sold in this market. I am over stocked in all kinds. Come in and look at my $25.00 Ranges before you buy.

Remember I keep a full line of everything the farmers need, and all I ask is for a look before you buy. I fully appreciate the trade I have been getting, and is my motto to make such prices that my trade will increase from day to day as it has been doing since I opened business last spring. I guarantee to give my customers exactly what they buy in quality, weights and measure.

L. H. REYNOLDS,
The Home of the Square Deal.

L&N

THE DOUBLE BURDEN

Statisticians have been busy for some time demonstrating by figures which never lie that the cost of living has increased very materially in the last decade.

The increase in the cost of living has exacted an increase in the cost of every known article required in the operation of a railroad.

The Louisville & Nashville Railroad Co. has had to pay a proportionate increased price for coal, steel rails, lumber for passenger and freight cars, locomotives, ties, rights of way and labor.

Those laborers engaged in the manufacture of the articles referred to have secured an increase in wage scale; the manufacturers of those articles have demanded and secured an increased price for the finished product.

The wage scale along the line of the L. & N. has had to be increased to enable the employees of the L. & N. to meet the requirements of the increased cost of living.

And yet while the tendency of the times is ever on the increase, the only changes in freight and passenger rates of the L. & N. have been decreases. The officials of the company are confronted on the one hand with the serious problem of the ever-increasing cost of operation, and on the other hand with the more serious problems of the ever-persistent effort to decrease rates.

Careful management, economy of operation and maximum efficiency have enabled the L. & N. to shoulder the double burden. But the time has now arrived when a fair-minded public must be advised.

Any injustice imposed upon the L. & N.—a servant of the general public—is an injustice imposed upon the business interests of the general public.

To think of a railroad as a thing of steel rail tentacles, snorting engines, grease boxes and plush cushions—all without a soul—is wrong. The L. & N. is human—incorporately so—and is confronted by those same human problems which confront every business man.

The effort to injure the L. & N. is a blow at the very vitals of the prosperity of the territory through which the road operates. We ask the public to give thoughtful consideration to existing conditions. Once those conditions are understood we are willing to rest our case. We have faith in the people.

Louisville & Nashville Railroad Co

NOT A POPULAR MAJORITY.

The democratic victory of Tuesday is sweeping only in the opportunity it offers for service. The peculiarities of our electoral system have made it appear that a great victory has been won, but it would be a fatal mistake to consider the everwhelming majority Governor Wilson will have in the electoral college and ignore the tremendous fact that he lacks much of having received a majority of the popular vote. Those who explode with amazement at the apparrent result fail utterly to see the real aspects of the victory.

Fundamentally, there were no surprises at all and would have been no surprise if Wilson had carried all the states. Indeed, the surprise is that he didn't, considering the republican troubles that made fair weather for him. Probably he has not received a greater vote than Bryan got four years ago, He has merely found the republican party crushed and riven and gained the crest of his ambition while his exhausted foes were struggling against each other.

Everybody knew that very thing would happen, and that portion of society or business which makes a point of getting panicky at the approach of eve-presidential election happened to know the result in advance and cut their little cloth accordingly.—Houston Post (Dem.)

Love.

Love feels no burden, thinks nothing of trouble, attempts what is above its strength, pleads no excuse of impossibility.—Thomas a Kempis.

Use ¼ less EAGLE-THISTLE SODA

It is so **FRESH** and **PURE** that **YOU USE ONE-FOURTH LESS** than with other brands. You save money. You get better results.

EAGLE-THISTLE SODA

is packed right where it is made (the only soda factory in the South), and comes to you in sealed, air-tight, strength-keeping cartons—fresh and pure.

16 Full Ounces to the Pound.

And no higher in price

SPECIAL

For a Limited Time Only.

Cut out the top from six Eagle-Thistle packages and enclose with coupon shown below and 58c to partially cover expense, and we will send you promptly, **all charges prepaid,** one set (6) Rogers' Guaranteed Silver Plated Teaspoons.

PRESIDENT SETS THANKSGIVING DATE

NOV. 28 TO BE OBSERVED IN THE NATION.

1912 KIND TO AMERICANS

Bountiful Harvests and Prosperous Industries Without War or Internal Strife, Has Been Fortune of This Country.

Washington.—President Taft issued the Thanksgiving proclamation setting aside Nov. 28 for the observance of that day.

The proclamation follows:

"A God-fearing nation like ours owes it to its inborn and sincere sense of moral duty to testify its devout gratitude to the All-Giver for the countless benefits it has enjoyed. For many years it has been customary at the close of the year for the national executive to call upon his fellow-countrymen to offer praise and thanks to God for the manifold blessings vouchsafed to them in the past, and to unite in earnest suppliance for their continuance.

"The year now drawing to a close has been notably favorable to our fortunate land. At peace within and without, free from the perturbations and calamities that have afflicted other peoples; rich in harvests so abundant and in industries so productive that the overflow of our prosperity has advantaged the whole world; strong in the steadfast conservation of the heritage of self-government bequeathed to us by the wisdom of our fathers and firm in the resolve to transmit that heritage unimpaired, but rather improved by good use, to our children and our children's children for all time to come, the people of this country have abounding cause for contented gratitude.

"Wherefore, I, William Howard Taft, president of the United States of America, in pursuance of long established usage and in response to the wish of the American people, invite my countrymen, wheresoever they may sojourn, to join, on Thursday, the twenty-eighth day of this month of November, in appropriate ascription of praise and thanks to God for the good gifts that have been our portion, and in humble prayer, that his great mercies toward us may endure."

MISSIONS NEEDED AT HOME

Startling Statement of Rapid Growth of Paganism in America.

Baltimore.—"There are 15,000 Americans today who worship the sun, and there is equally as large a number who are accepting the beliefs of Buddha and other Oriental deities."

This statement was made by the Rev. Dr. Paul S. Leinbach, of Easton, Pa., in an address at the reformed church gathering at the missionary exposition here. He declared that the work of the missionary was first at home in the slums of the great cities and afterwards in foreign lands.

The spread of Christianity abroad, especilly in the Far East, among the heathen and Mohammedans, was commended, but Dr. Leinbach said that the evangelist now was being called upon to stem the tide of paganism creeping up among the American people.

WOMEN WIN FOUR STATES

Great Rejoicing at National Headquarters in New York.

New York.—There was great rejoicing at the national woman suffrage headquarters in Fifth avenue over the victories for the cause in Oregon, Kansas, Michigan and Arizona.

"Now suffrage in ten years by federal amendment as a result of our great victory," said Dr. Anna Howard Shaw, president of the national association, as she scanned congratulatory telegrams.

FALLS DEAD IN GRAVE

Seventy-five-Year-Old Grave Digger Dies Boasting of Strength.

Muskogee, Okla.—Joseph Turby, 75 years old, unwittingly dug his own grave near Haskell, Okla., and when it was finished, fell into the grave dead. Turby and another man started to dig a grave for an old woman. They had just finished, and Turby, stooping over to gather up his tools, boasted of his physical strength for a man of his age when he fell [illegible] the grave.

His friend thought he had hurt himself, and got down in the grave to help him out, when he found that he was dead.

18th Child Born to Man 73.

Marshalltown, Iowa.—What is believed to be the largest family of children in the state has just been augmented by the birth of a girl, which makes the eighteenth child of Capt. D. K. Ewalt, aged 73.

Son of Patrick Henry Dead.

Lynchburg, Va.—Dr. Thomas S. Henry, said to be the last surviving grandson of Patrick Henry, died at Red Hill, the famous ancestral home of the Henry family. He was 80 years old.

Attacks Divine Sarah.

London.—Mme. Sarah Bernhardt, the world-famous tragedienne, was attacked by a bear in Cross Museum and had a narrow escape. While Mme. Bernhardt was viewing the animals the bear seized her and tore her fur garments.

Paying T. R. Expenses.

New York.—President Journalists [illegible] $10.50 a week has been paid to Col. Roosevelt since the latter went into the Milwaukee by The New York

14 KILLED, 90 HURT IN RAILROAD WRECK

FREIGHT CRASHES INTO EXCURSION TRAIN AT MANTZ, LA.

FIVE OF DEAD ARE WHITE

Fire Follows Wreck, and Three Coaches Destroyed—Brakeman Failed to Flag Oncoming Freight.

Baton Rouge, La.—Fourteen killed, four white women and two infants and nine negroes.

Ninety wounded, a dozen perhaps fatally, fifty being negroes and the others whites.

Three coaches and an engine destroyed by fire.

Such is the total damage done in a rear-end collision of a fast freight on the Yazoo & Mississippi Valley with a stalled double-headed New Orleans & Woodville passenger train standing on a curve near Mantz, La.

But for the heroism of Engineer Rodney, of the freight, who climbed upon his burning engine and released a jammed safety valve, a boiler explosion would have added many more to the list of dead. Conductor Stinson, of the passenger train, organized the work of rescue and saved scores.

Brakeman Cunningham is charged with responsibility for the wreck.

It was five minutes before 1 o'clock in the morning when the excursion, a double-header, came to a stand on a sharp curve, while one engine crew tinkered with a steam head and a drowsy brakeman stumbled back along the track to give warning to the fast freight scheduled just behind.

There were seven coaches on the train, three in the rear filled with white people, four others in which negroes were packed and jammed like sardines—500 of them in four big excursion day coaches.

EUROPE UP AGAINST CRISIS

Week May See General European War or Settlement.

Vienna.—Austria has presented a short ultimatum to Servia and declines any lengthy negotiations.

The envoys of Italy and Austria at Belgrade have presented their demands to the Servian prime minister, Pasitch, who refused to accede to them, and left at once for Uskub to confer with King Peter.

Vienna.—The situation continues to be most serious. A diplomat of the highest rank tells me that if it is true Russia insists upon Servia getting an Adriatic port, war is inevitable, for Austria is absolutely determined not to permit this.

MRS. WILSON HONORED

Accepts Honorary Presidency of Woman's Auxiliary to S. C. C.

Washington.—Mrs. Woodrow Wilson, the next 'mistress of the White House," it was learned, has acepted the position of honorary president of the woman's auxiliary of the Southern Commercial Congress.

Mrs. Wilson is a native of Georgia and is intensely interested in the development of the South.

The first congress of the women of the South will be held in Mobile, Ala., at the time of the fifth annual convention of the Southern Commercial Congress, and both will be coincident with the opening of the Panama canal.

BIG TIMBER DEAL.

Muskogee, Okla.—Eleven thousand acres of timber land near Hugo, Okla., was sold by J. George Wright, commissioner of the five tribes, for a total price of $316,034.37. The land was sold under a recent act of congress, and the sales must be approved by the department.

Archbishop Loses Case.

Washington.—The supreme court of the United States dismissed the appeal of Archbishop Harty, of the Catholic Church, from the decision of the supreme court of the Philippines, giving the municipality of Victoria, instead of the church, title to the large public plaza there.

Left All to Widow.

Utica, N. Y.—The will of Vice-President Sherman was admitted to probate. The document is very short and is in Mr. Sherman's handwriting, bearing date April 23, 1887. He names as his executor his widow, Carrye Babcock Sherman, and wills all of his estate to her.

May Contest Election.

Lansing, Mich.—State officials say that the women's suffrage question was not correctly submitted in five counties, and that plans are being made to contest the result which favored granting the ballot to women being allowed to stand.

Will Inspect Canal.

Washington.—Secretary of War Stimson sailed from New York for Colon to inspect the Panama canal as a basis for the recommendations he must make to congress in his annual report.

Prohibit Coloring Oleomargarine.

New Orleans, La.—At the closing session of the Farmers' National Congress, resolutions were adopted favoring the passage by congress of laws prohibiting the [illegible]

POOR JOHN NEATLY CAUGHT

Cleverly Contrived Trap That Led to the Downfall of One Forgetful Husband.

He had returned home in the evening tired and ready for a restful hour or two.

"John, my love," said his little wife sweetly, "did you post that letter I gave you this morning?"

"Yes, my pet," said John, hiding his conscience-stricken face behind the newspaper.

"Well, what is your answer?" still more sweetly.

"Wh-what is what?" gasped John.

"What is your answer, dear?" said his little wife, clearly. "That letter was addressed to you."

"Addressed to me?" exclaimed John. "I didn't notice it."

And then, like a foolish man, he fell into the trap and produced the letter from his pocket to see. The envelope was not addressed to him; but a long and severe lecture was shortly after.

FRIGHTFUL HANDICAP.

Beryl—Poor young Stickleby! He had to give up studying for a doctor.

Sibyl—Lack of brains?

Beryl—No; he found he couldn't raise a Vandyke beard.

Was Fun to Choose.

A number of drivers of racing cars who were in Louisville to participate in the motor races were present at a luncheon in honor of one of the leading contestants, who told several automobile stories.

"But my best story," said the racer, "is about a taxicab chauffeur. This man was discharged for reckless driving and so became a motorman on a trolley car.

"As he was grumbling over his fallen fortunes a friend said:

"'Oh, what's the matter with you? Can't you run over people just as much as ever?'

"'Yes,' the ex-chauffeur replied, 'but formerly I could pick, and choose.'"

Just Like Other Men.

Most surgeons simply go way up in the air when one of the world's great ones is stricken. When Sir Frederic Treves was called to operate on King Edward he split him open as nonchalantly as if the king had been an apple or a watermelon.—New York Press.

Its Kind.

"What is a voice from the tombs like?"

"It must be a skeleton's articulation."

Paradoxical Misfortune.

"There is nothing in this place but soft drinks."

"Just my hard luck."

NO MEDICINE
But Change of Food Gave Final Relief.

Most diseases start in the alimentary canal—stomach and bowels.

A great deal of our stomach and bowel troubles come from eating too much starchy and greasy food.

The stomach does not digest any of the starchy food we eat—white bread, pastry, potatoes, oats, etc.—these things are digested in the small intestines, and if we eat too much, as most of us do, the organs that should digest this kind of food are overcome by excess of work, so that fermentation, indigestion, and a long train of ails result.

Too much fat also is hard to digest and this is changed into acids, sour stomach, belching gas, and a bloated, heavy feeling.

In these conditions a change from indigestible foods to Grape-Nuts will work wonders in not only relieving the distress but in building up a strong digestion, clear brain and steady nerves. A Wash. woman writes:

"About five years ago I suffered with bad stomach—dyspepsia, indigestion, constipation—caused, I know now, from overeating starchy and greasy food.

"I doctored for two years without any benefit. The doctor told me there was no cure for me. I could not eat anything without suffering severe pain in my back and sides, and I became discouraged.

"A friend recommended Grape-Nuts and I began to use it. In less than two weeks I began to feel better and inside of two months I was a well woman and have been ever since.

"I can eat anything I wish with pleasure. We eat Grape-Nuts and cream for breakfast and are very fond of it." Name given by Postum Co., Battle Creek, Mich.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."

NEWS BRIEFLY TOLD

A CONDENSED RECORD OF EVENTS OF THE WEEK.

SEVEN DAYS' NEWS AT A GLANCE

Important Happenings In All Parts of the World Summarized for the Busy Reader.

Southern.

News has reached Charlotte, N. C., of the death at Red Hill, Charlotte county, Va., of Dr. Thomas Stanhope Henry, last surviving grandson of Patrick Henry, of revolutionray fame. The death of Doctor Henry occurred at the ancestral Henry home. He was 80 years old. He leaves three sons.

At a mass meeting in Baltimore under the auspices of the American Prison association, which is in annual congress, Mrs. Maud Ballington Booth of the Volunteer of America urged the delegates to use their influence in having enacted legislation which will give compensation to the families of convicts during their imprisonment.

Two men are dead and another was fatally wounded in a man hunt participated in by scores of citizens of Elmore county, Alabama and a mob of citizens is scouring the woods near Floyd for a negro believed to be the cause of the bloodshed. The dead are Claude Kidd, member of the posse and a negro named Berney. A white man was shot and fatally wounded by an unknown negro, who is now sought by the mob. The trouble started when the negroes caused a horse to run away.

Nine men are known to have been killed, one fatally injured and fifteen hurt in a terrific head-on collision near Cartersville, Ga., between a Western and Atlantic and a Louisville and Nashville freight. Six other men are missing, and their bodies lie beneath the wreckage. This has prevented the railroad from burning the splintered remains of the cars as the quickest means of clearing the tracks. Misunderstanding of flag orders was the cause of the wreck.

Sidna Allen and Wesley Edwards, two of the Allen clan, who, on March 14, last, shot up Carroll county court, and killed five persons, including the presiding judge, were taken to Wytheville from Roanoke, where they have been in jail since their capture at DesMoines.

William A. Travers of St. Thomas, Ontario, was rescued from drowning in the Mississippi river at New Orleans by Mrs. Lemmons of Oklahoma. Travels fell into the river from his launch, in which he and Mrs. Travers had been making a river trip. While he was struggling in the current, with his wife helpless to aid him, a witness, Mrs. Lemmons, from a nearby launch, plunged into the water, caught him just as he was sinking and swam with him to the shore.

General.

The northbound Shasta limited, the Southern Pacific coast train de luxe, was held up and robbed and one bandit killed at Delta, 30 miles north of Redding, Cal. A companion of the dead bandit escaped with the registered mail. None of the passengers was injured. A plucky brakeman nearly frustrated the robbers, and accounted for the one killed. The train stopped at Delta for water and two bandits climbed aboard. One climbed over the tender and covered the fireman and engineer with a revolver. The other entered the mail car and held up the mail clerks.

J. A. Wayland, a founder and owner of The Appeal to Reason, a Socialist weekly newspaper published at Girard, Kan., shot and killed himself in his home. Between the leaves of a book lying on the bed the following note was found: "The struggle under the competitive system isn't worth the effort; let it pass." The friends of Mr. Wayland attribute his act to despondency over the death of his wife, who was killed in an automobile accident a year ago.

Fourteen lives were snuffed out and ninety passengers injured when a through freight train crashed into the rear end of a northbound excursion train on the Yazoo and Mississippi Valley railroad near Montz, La. Of the dead four are white women, one a white infant, four negro women and five negro men. Forty-one of the injured are white and forty-nine negroes. It is expected that all of these, except possibly three, will recover.

After having lost $60,000 in business in eight months in Chicago, Patrick Carraher, 33 years old, appealed to the police for lodging. He was formerly a successful farmer in Nebraska.

According to tabulations made in the Socialist vote, the returns show an increase of 100 per cent.

Robbers blew open the safe in a saloon at Chicago and escaped with $2,500 after binding the bratender and porter with ropes. The thieves wrapped a large rug about the safe and executed their work so skillfully that guests above were not awakened.

Sir Cecil Arthur Spring-Rice, now British minister to Sweden, will succeed James Bryce as ambassador to the United States. Sir Cecil is regarded as one of the ablest men in the diplomatic service.

The outbreak of cholera in Constantinople is assuming serious proportions. Twenty-three cases had occurred among the troops along the Tchatalja lines. There are many more suspected cases among the wounded. A trainload of wounded has just reached Constantinople, eight of the soldiers having died on the way, presumably from cholera.

The Bulgarian attack on the Tchatalja lines goes on unrelentingly. More Turkish positions have been captured, but their location has not been indicated, in accordance with the anvariable Bulgarian plan never to reveal information to the enemy. There is another statement that Monastir has been captured. This and the capture of Dibra, an important town in Albania, by the Servians, after seavy fighting, constitute all the military news of importance.

Paul Felar, a lumber jack, ran amuck in a hotel at Troute Lake and, wielding a long knife, seriously cut five men, two of them fatally, near Sault Ste Marie, Mich. Resenting a jest from a bystander he flew into a rage, drew the knife from his pocket and attacked everybody in sight.

Gen. Jose Maria Valladres, the noted revolutionist, who, in years past, has caused much trouble in the governments of Honduras and Nicaragua, has fomented his last uprising. He was killed by government troops in a skirmish near Ojojona, his native town, which lies twenty-five miles southwest of Tegucigalpa.

John Jacob Astor, the infant son of Mrs. Madeline Force Astor will have an allowance of $3,333 a year for his support during the next three years. In her petition Mrs. Astor said she wanted the income on her $3,000,000 trust fund to accumulate until the child attained his majority.

President-elect Woodrow Wilson turned away an avalanche of telegrams and messages of congratulation the day after the election and went off for a brisk walk. For five miles he walked, swinging a heavy black cane, which came to grief on the fourth mile, when Capt. "Bill" McDonald, Texas ranger and bodyguard, tried to kill a rattlesnake. The governor spied the snake curling through the leaves and pointed it out to the captain, who borrowed the governor cane and killed it, but in doing so broke the cane.

Fifteen thousand persons on board fifty steamers on the Pacific ocean received election returns by wireless from stations in San Francisco. The first wireless election bulletin was flashed at eight o'clock on the night of the election.

Suffrage for women becomes part of the organic law of four more states because of the presidential election. Michigan, Kansas, Oregon and Arizona voted favorably on such an amendment. Wisconsin defeated it decisively.

Washington.

Washington medical officers are much gratified with the continued success of anti-typhoid vaccination in the army. Records show that among the 57,000 troops in the United States there have been during the past ten months but twelve cases of typhoid fever and only two deaths. Most of these cases were among recruits who had not received the treatment, and of the deaths one was an officer and the other was a recruit who had not been inoculated with the anti-typhoid serum.

President Taft has issued the annual Thanksgiving proclamation, setting aside November 28 for the observance of that day. He felicitates the country that it is at peace, free from the perturbations and calamities that have afflicted other peoples of the world, and says that the overflow of our prosperity has been of advantage to the whole world.

A sharp arraignment of the farmers' wives and daughters of the country and incidentally their city sisters, is contained in a report made by George K. Holmes, chief of the division of production and distribution of the national agricultural department. Although wages have risen steadily during 44 years, Mr. Holmes declares that the women of the present age have forgotten or are too proud to indulge in household work of the farm. He blames the lure of society

European powers most intimately concerned in the Balkan situation have undertaken to extend protection to Americans in Turkey. Various American embassies in Europe were instructed when informing the nations of the decision of the United States to send the cruisers Tennessee and Montana to Asiatic Turkey, to inquire whether provision had been made in the interest of American citizens in Turkey. Replies indicate that instructions issued by Great Britain and Russia anticipated the desires of the American government.

James Bryce, the British ambassador to the United States, has tendered his resignation, and will return to England. There has been no break in the harmonious relations of this distinguished Englishmen and his government, but it has been an open secret for some time that Mr. Bryce, advancing in years, desired to surrender his post and give entire attention to the completion of the literary work which has occupied so large a part of his life. His book on South America, written dfase his tour of that country two years ago, is just off the press.

Progressive Is Official Party

Must Be Reckoned With in Naming Bi-Partisan Committees.

G. O. P. EXTIRPATED—BULL MOOSE PLAN TO SHOW THEIR REAL STRENGTH IN CONGRESS.

(By Gibson Gardner.)

WASHINGTON, Nov. 10.—That the Progressive party must be recognized as the official party of the opposition is one of the most important results of Tuesday's balloting.

This recognition carries with it the legal right to join representation with the Democrats on all legislative committees, on election boards and boards of review, and on bi-partisan bodies like the interstate commerce commission and the civil service commission, and power to name half of the election judges, clerks and watchers at future elections.

In all but five states the Progressive party, when it did not run first, ran second. This fact sounds the knell of the old Republican organization. Reports from the South show that the Progressives polled in most Southern states five times as many votes as the old Taft organization. In some of these states it is said that the percentage of the regular Republican vote is so trifling that there may be a question as to the Right to place Republican candidates on the ballot in the future, except by petition. In other words, in these states the party has been practically obliterated.

Backbone of Party.

For the purpose of naming presidential candidates, the Southern Republican delegates have been the backbone of the party organization. This backbone has been stiffened always by patronage dispensed by a Republican President and a Republican majority in Congress. With a Democrat in the White House and Democratic control in Congress, there will be no jobs for Southern Republicans. Indeed, one of the first tasks for Wilson, on taking office, will be to work the official guillotine on the heads of some hundred thousand office-holders in the South. Incidently, these jobs will go to the building up of the regular Democratic machines in these states. Without patronage and without second place on the ballot, there will be no Republican party in the South and no way for securing anything that will look like delegates from that part of the country to a Republican national convention.

The Republican party still survives in five states, Vermont, Utah, Idaho, Wyoming and New York; the first three carried by Taft, and in New York the regular Republicans held second place. In pivotal states, like Illinois and Indiana, the Republicans polled enough votes to entitle them to a place on the ballot, but they are merely a third party.

Only Real Opposition.

Opposition to the Democrats will take its only formidable shape in the nominations made by the national Progressive party.

The Progressives plan to begin at once a vigorous campaign to strengthen their party in Congress; 1914 is already in sight. A committee on Progressive legislation is to be named at once and will open headquarters in Washington. This committee will frame bills and have them introduced in Congress by Progressive members, and will put out a Progressive propaganda. It is the plan also of the party managers to perfect local Progressive organization. Bull Moose clubs will be organized locally in every state, county, district, ward and precinct, with the idea that these clubs shall raise money, import speakers, conduct joint debates, and indulge in other political activities which shall be continuous instead of periodical.

Latest returns indicate that the Progressive party polled over four million votes. Taft polled about three and a half million. The Socialists, according to late estimates, have approximately one million.

Comfortable Plurality.

Thus, Wilson, with his six million, four hundred thousand, is elected by a comfortable plurality, but not by a majority of all. It will be many days before anything accurate is known as to the strength of the Republicans and Progressives in the next Congress. It is noted with satisfaction that those prominent lights of Toryism, McKinley and Cannon, of Illinois; Gardner, of New Jersey; Cy Sulloway, of New Hampshire; Hill, of Connecticut, and Focht, of Pennsylvania, have been carried out by the tide.

It is one of the illogical features of our government that the Congress which meets next December is not the new Congress just elected, but the hold-over Congress, with its Cannons and McKinleys and so forth. Every argument of reason would suggest that an election like the one just closed be followed by an immediate session of the newly-elected legislature, fresh with the impress of popular opinion and prepared to carry out the people's mandate. Such, however, is not the case. It will be a year from the coming December before the newly-elected members of Congress come to Washington, unless President Wilson calls a special session next spring.

OVER 2000 MEN OUT OF WORK.

Construction on the Grand Trunk Line in New England is Stopped.

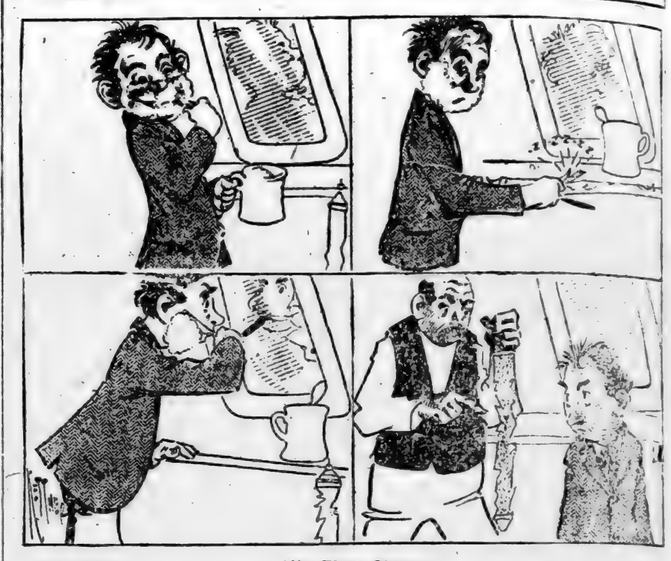
Providence, R. I.—Construction work on the lines of the Southern New England Railway company, the proposed extension of the Grand Trunk railway system in Rhode Island and Massachusetts, has been ordered stopped at once by President Edson J. Chamberlain of the Grand Trunk, throwing more than 2000 laborers out of work. The suspension is announced as being "for an indefinite period."

President Chamberlain said in a telegram from Montreal, answering a message of inquiry from this city:

"Temporary stoppage of work on the Southern New England is a precautionary measure brought about by an unsettled money market."

John S. Murdock, vice president and attorney for the Southern New England, refused to discuss a report that the order followed the reaching of an agreement between the Grand Trunk and the New York, New Haven and Hartford railroad interests.

"THOSE WERE THE HAPPY DAYS"



(Copyright.) His First Shave.

CORN CROP GREATEST IN WORLD'S HISTORY

IS LARGEST YIELD EVER PRODUCED BY ANY COUNTRY.

FEATURES BIG CROP YEAR

Estimated at 3,169,137,000 Bushels, Worth $1 850,776,000—Other Crops Valued at $5,000,000,000.

Washington.—A corn crop of 3,169,137,000 bushels, or 281,921,000 bushels more than the greatest crop of corn ever grown in any country of the world, is the feature of the country's most remarkable agricultural year in history, according to the November crop report of the United States depatrment of agriculture. This great crop of corn was worth on November 1 to farmers $1,850,776,000.

The enormous sum of $4,171,344,000 represented the farm value on November 1 of the United States crops of corn, wheat, oats, potatoes, flaxseed, rye and buckwheat. With the value of the growing cotton crop and the crops of tobacco, rice and apples, the aggregate value of these principal farm products will mount well beyond five billion dollars.

Upon the preliminary estimates of production and prices announced the value of the crops figure out as follows: Corn, $1,850,776,000; hay, $854,615,000; wheat, $603,639,000; oats, $476,169,000; potatoes, $188,501,000; barley, $120,845,000; flaxseed, $39,793,000; rye, $24,370,000; buckwheat, $12,526,000.

CORPSES COVER BATTLEFIELD

Battle at Prilip Resulted in 8,500 Casualties.

Uskup, Turkey.—The battle which resulted in the capture of the Turkish city of Prilip (or Perlepo) by the Servian troops, was one of the most severe that has been fought on this side of the Balkan peninsula. The Servians lost 2,500 killed and wounded, while the Turks suffered 6,000 casualties. The battlefield is still covered with corpses.

Owing to the broken nature of the country and the poor railroad communication, the members of the Red Cross Society are encountering the greatest difficulty in dealing with the wounded.

U. C. V. INSIGNIA REMOVED

Leader of D. A. R. Organization Objects to Southerners.

Washington.—Fighting the Civil War over again, the United Daughters of the Confederacy and the Daughters of the American Revolution have become embroiled because Mrs. Mathew T. Scott, president-general of the D. A. R., has loaned Continental Memorial Hall to the Daughters of the Confederacy for their convention.

Mrs. Scott is a member of both organizations and saw no harm in admitting the Southern women to Continental Hall, but this view is not shared by other members of the D. A. R. Notable among these is Mrs. Mary S. Lockwood, one of the founders of the D. A. R., who is up in arms against what she says is the invasion of the women who once followed a rebellious flag.

Attack Monroe Doctrine.

Washington.—Diplomats are discussing the attack on the Monroe doctrine made by Dr. Manuel De Oliveita Lima, of the Brazilian legation, Dr. Lima declared that the countries of the Western hemisphere were oppposed to the doctrine, not that they did not appreciate the protection of the United States, but they were resentful of the assumption by this country of the power of a protectorate. He offered as a substitute the communal opposition of the nations of the Western hemisphere against encroachment on the principles laid down by Monroe.

Bull Attacks Auto.

Sergeants Bluff, Ia.—A red bull came out victor in an encounter with a big red automobile on a country road near here. The bull was grazing in a pasture and became enraged at the flaming color of the touring car. The animal charged through a fence and met the automobile, beladown on the roadway, knocking it to one side. A second charge caught the machine amidships and sent it over the embankment. The passengers in the machine anticipated the intentions of the angered bull and escaped injury.

NEARLY MILLION DRAWING PENSIONS

THIS INCLUDES 536,000 SOLDIERS AND SAILORS.

RELICTS OF THREE WARS

321,932 Dependents and Widows and 362 Army Nurses Receive Annual Sums From the Tressury of the United States.

Washington.—There are now on the government's pension roll 538,000 soldiers and sailors, 321,932 dependents and widows and 362 army nurses, according to the annual report of the pension bureau. These include 497,263 survivors of the Civil War and 238 widows of the war of 1812. To provide for all of them this year $151,558,141 has been appropriated, a decrease of $3,276,096 from last year.

It is estimated that there were 2,213,365 individuals in the military and naval service of the United States during the Civil War, and that upwards of 75 per cent of them are now dead.

The report predicts that the abolishment of the pension agencies, effective January 31, 1913, will result in a more efficient and economical administration, avoiding duplication of work and saving expense.

The total number of pensioners under general pension laws is 838,210, their pensions aggregating $144,973,569, and under special acts of congress 22,084, aggregating $6,584,572 annually.

From foundation of the government to June 30 last the United States paid $4,383,368,164 in pensions to soldiers, sailors and marines, their widows, minor children and dependent relatives on account of military and naval service in the various wars and in regular service.

WOULD BUY MONTICELLO

National Park Would Be Established at Jefferson's Home.

New York.—A renewal of the campaign for the purchase by the government of Monticello, the home and burial place of Thomas Jefferson, began when the Jefferson-Monticello Memorial Association sent out blank petitions for signatures of persons interested in the movement. The petitions, which will be circulated in every state, will be presented to the house next month, when the bill for the purchase of the Monticello estate comes up for final action. The bill alreay has passed the senate.

The estate, which is situated about three miles from Charlottesville, Va., contains only about 200 of the 3,700 acres owned by Thomas Jefferson when he was president.

MANY DEMOCRATS SEEK PIE

Primaries to Nominate Postmasters Will Be Urged Upon Wilson.

Washington.—Already the correspondence of Democratic congressmen shows signs of an enormous increase.

Letters just received by congressmen show a sentiment for nominating candidates for postmaster by primary election, and it is said the proposition will be openly urged upon the next president.

The present administration is strongly inclined to place postmasters under the civil service, having already included fourth-class postmasters by executive order.

The suggestion of a primary election method of recommending candidates to line is working well.

Enoch Arden Again.

Washington.—Hugh Epsey, once a policeman here and who strangely disappeared while en route for the Philippines, sixteen years ago, returned repentently to his former home to find his wife had married again and that he was a grandfather.

Astor Infant Gets $3,000,000.

New York.—John Jacob Astor, the infant son of Mrs. Madeline Force Astor, will have an allowance of $3,333 a year for his support during the next three years. Surrogate Fowler has granted a petition filed by Mrs. Astor to this effect, and appointed Mrs. Astor as the child's guardian. In her petition Mrs. Astor said she wanted the income of her son's $3,000,000 trust fund to accumulate until the child attained his majority, and that until then she intended to educate and support him. The boy was born last August.

Lameness

Sloan's Liniment is a quick and reliable remedy for lameness in horses and other farm animals.

"Sloan's Liniment surpasses anything on earth for lameness in horses and other horse ailments. I would not sleep without it in my stable."—MARTIN DOYLE, 422 West 19th St., New York City.

Good for Swelling and Abscess.

MR. H. M. GIBBS, of Lawrence, Kan., R. F. D., No. 3, writes:—"I had a mare with an abscess on her neck and one 50c. bottle of Sloan's Liniment entirely cured her. I keep it all the time for galls and small swellings and for everything about the stock."

SLOAN'S LINIMENT

is a quick and safe remedy for hog cholera.

Governor of Georgia uses Sloan's Liniment for Hog Cholera.

"I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slops, decreasing the dose as the animal improved. Last month Gov. Brown and myself were at the Agricultural College building and in the discussion of the ravages of the disease, Gov. Brown gave the remedy named as unfailing." "OBSERVER." SAVANNAH DAILY NEWS.

At All Dealers. 25c., 50c. & $1.00.

Address Dr. Earl S. Sloan, Boston.

'TWOULDN'T BE LIKE HIM.

Mrs. Jones—What did you say to the janitor?

Jones—I told him that he could make some warm friends if he would only turn on a little heat.

Newspapers and Literature.

All this over emphasis of the unmeaning surface is due to a confusion of newspaper and literary standards, ends, aims. The word literary has come to suggest an absence of red-blood; spinners and knitters in the sun; the 35 cent magazine crowd; this is nonsensical, of course. In its elemental meaning literature is at least as stern a jab as journalism, albeit the intention and function of the latter is merely to present things that happen, of the former to volatilize such material into hovering and potent meanings, to strike the rock and raise a spirit that is life.

Another Investigation.

"Daughter, I heard suspicious sounds on the veranda last evening."

"Yes, mother."

"Was that young man kissing you or swatting mosquitoes?"

Thin Bits of Corn Toasted to A delicate Light Brown—

Post Toasties

To be eaten with cream and sugar, or served with canned fruit poured over—either way insures a most delicious dish.

Postum Cereal Co., Ltd. Battle Creek, Mich.

ELECTION HAS NO EFFECT ON TRADE

Buying Continues Large in All Lines. Car Shortage Felt.

New York.—Bradstreet's review of trade says:

The presidential election has come and gone with the barest possible effect upon trade and industry. Whether the election itself or its barest possible results, sweeping as they are, have thus far changed the optimistic undertone previously characterizing trade sentiment the situation in this respect presenting one of the most notable economic phenomena of recent times. In short, natural conditions coincident with heavy crop yields and consequent heavy consumptive requirements continue to predominate in trade and industrial circles.

Buying is large and in lines that may in the long run feel the effects of prospective schedules, business continues heavy with no talk of cancellations. Trade in staple lines is active with calls for immediate shipments a feature while operations for forward shipments are enlarging. At the same time demand for holiday goods is increasing and in dry goods markets for orders for the coming season are of good proportions.

Incidentally most industries report well filled order books, which insures a comparatively long spell of active operations. Conspicuous in this respect are iron and steel plants, flour mills, furniture factories and lumber mills. Two essential articles, coal and groceries, are in brisk demand, while such needful commodities as dry goods, hats and caps, shoes and clothing, are being taken in volume, not only for present, but for future requirements as well. All but a very few sections contribute favorable reports, the negatives being furnished by a comparatively small area in the South Atlantic states.

Business failures in the United States for the week ending November 7 were 209 against 257 last week, 237 in the like week of 1912, 207 in 1910, 211 in 1909 and 267 in 1908.

Business failures for the week in Canada number 35, which compares with 13 for last week and 32 in the like week of 1911.

Wheat, including flour, exports from the United States and Canada for the week ending November 7, aggregated 5,768,725 bushels against 6,498,275 last week and 3,325,820 this week last year.

For the 19 weeks ending November 7, exports are 80,277,333 bushels against 58,363,611 in the corresponding period last year. Corn exports for the week are 22,546 bushels against 81,520 last week and 278,502 in 1911. For the 19 weeks ending November 7, corn exports were 1,428,826 against 10,639,420 bushels last year.

New York.—R. G. Dun & Co.'s weekly review of trade says:

With the Balkan situation less menacing to world peace, though still serious, and with the uncertainties of the national election at an end, the business outlook is improved. This is reflecting the increased buoyancy of the field markets and in the continued expansion of trade and industry. A situation that is based upon an unprecedented movement of wheat and a record-breaker production of pig iron can be decided by no other means than prosperity. Every department of business experiences the uplift and expansion which resulted first from the tremendous crops and second from the restored confidence and credit.

Most of the current output of iron and steel is going directly into consumption and in many instances it is for prompt deliveries. The shortage of cars constitutes a serious drawback, particularly in the coke regions, but labor conditions have improved. The buying movement by railroads already referred to has been accelerated by the fact that the makers of equipment are expected to advance their prices in the near future. The demand for plates is brisk and premiums are offered for prompt shipments, the normal quotation being $1.50 Pittsburg for shapes and plates.

There is a scarcity of steel, while sheet and tin mills have been headed by a lack of sheet bars and the supply of billets is not up to the demand. Large contracts have been placed for line pipe and practically all finished departments are active and prices are firm. In pig iron heavy inquiries are pending for first quarter delivery and December grades are strong at $17.50 valley, while basic ruled at $16.75 valley.

Coke is still in urgent demand and the furnace grade is quoted at $4 and $4.25 at oven. The dry goods trade, both in cottons and woolens, is active and strong and while there is some check to retail distribution, due to the weather, the prospect is for Christmas trading on a scale never before reached.

The shoe trade is also very active. Hides continue very strong. Building supplies are in active demand. The paper trade continues to improve. There is a steady demand for bituminous and anthracite coal.

SPARKS FROM THE WIRES.

Los Angeles.—Establishment of a chain of aeroplane depots along the Pacific coast as an auxiliary to the coast artillery corps is the purpose of the war department, according to Lieutenant Augustus Norton of the coast artillery corps.

BACKACHE AND ACHING JOINTS

Together Tell of Bad Kidneys

Much pain that masks as rheumatism is due to weak kidneys—to their failure to drive off uric acid thoroughly.

When you suffer achy, bad joints, backache, too; with some kidney disorders, get Doan's Kidney Pills, which have cured thousands.

A MAINE CASE.

S. C. Verrill, Old Town, Me., says: "I was confined to bed two years, and the doctors did not know what ailed me. My back pained intensely and the kidney secretions were very irregular. The doctor said I would never walk again. After taking Doan's Kidney Pills I rapidly improved until once more in good health. I cannot express my gratitude."

SAILS.

Harold—Whenever I go skating, I always wear a cap that pulls down well over my ears.

Ellyn—Yes; I should think that would be absolutely necessary when you're skating against the wind.

Built Her Own Home.

Miss Francis Lyon of Westwood has the distinction of being the only woman in New England who lives in a house literally built with her own hands. Miss Lyons belongs to a club whose members are practicing the doctrine of going back to the farm. The club is limited to 40 members and owns property to the amount of $1,000 and about 70 acres of farming land not far from Westwood. Each member holds a deed to one acre and the balance of the land is held in common to be rented to any member who wishes to try farming on a larger scale.

English Stump Speech.

A correspondent, "Old Briney," sends us the following specimen of frenzied stump oratory: "Feller blokes! Thanks ter th' guv'ment, yer got yer d'minishin' wage, and yer little loaf, an' all that. Wotcher got ter do now is ter go fer devil-ootion and local anatomy, an' go it blind!" (Loud cheers.)—London Globe.

Escaped the Worst of It.

The worst things are the afflictions that have never happened, Bobby had just been soundly spanked for falling into the creek. "Gee!" he exclaimed, rubbing the seat of punishment, "what wouldn't I have got if I had drowned?"

House Plans Important.

The care in the home and all other forms of household work are greatly facilitated by right planning and the use of suitable materials for the construction and furnishing of the home. An adequate and convenient water supply and other conveniences are essential, not only for comfort and for saving labor, but also from the standpoint of home hygiene.

Scotch Query.

A bluff, consequential gentleman from the south, with more beef on his bones than brain in his head, riding along the Hamilton road, near to Blantyre, asked a herdboy on the roadside, in a tone and manner evidently meant to quiz, if he were "halfway to Hamilton?" "Man," replied the boy, "I wad need to ken whar ye hae come frae, afore I could answer your question."—Exchange.

Hard to See Under Water.

"There is no scientific instrument of the "scope" character which enables one to see down to 50 or 60 feet under water. When the sun shines vertically over water, a box or bucket with a glass bottom is often used to look into the water. A cloth covering to exclude light from the box or bucket is sometimes employed. But without electric or some other light in the water these devices are not very satisfactory.

Probably Prize Grouch.

A grouchy butcher, who had watched the price of porterhouse steak climb the ladder of fame, was deep in the throes of an unusually bad grouch when a would-be customer, 8 years old, approached him and handed him a penny.

"Please, mister, I want a cent's worth of sausage."

Turning on the youngster with a growl, he let forth this burst of good salesmanship:

"Go smell o' the hook."—New Orleans Daily States.

Quite the Thing.

"I told you that if you came tomorrow morning I would give you the money for my wash. Why did you come tonight?" said Miss Phillis to the daughter of her laundress.

"I know you said tomorrow mornin'," responded the girl, "but me mother she told me to come tonight, 'cause she was afraid you might be gone away by tomorrow mornin'."

"I certainly should not go without paying my laundry bill," said Miss Phillis sharply. "No respectable woman would do such a thing."

"Oh, yes, ma'am, they would," replied the child knowingly. "There's lots of respectable ladies does."

Fashion Note.

Lady Duff Gordon, at a tea at the Ritz-Carlton, praised the pannier skirt.

"Everybody likes it, it is so graceful," she said, smiling. "Everybody likes it except crusty old fellows."

She turned to a crusty old fellow upon a Louis Seize chair beside her and continued:

"I know a woman whose husband growled at her when she tried on a new pannier gown for him:

"'I don't see why you wear these ridiculous big panniers. You haven't got the hips to fill them.'

"The woman blushed and bit her lip. Then she said quietly:

"'But do you fill your silk hat, George?'"

"Real Fisherman's Luck for Duke's Mixture Smokers"

Good tobacco and a good reel! That's surely a lucky combination for the angler—and here's the way you can have them both.

Liggett & Myers

Duke's Mixture

All smokers should know Duke's Mixture made by *Liggett & Myers* at Durham, N. C.

Pay what you will, you cannot get better granulated tobacco for 5c than the big ounce *and a half* sack of Duke's Mixture. And with each of these big sacks you get a book of cigarette papers FREE.

Paid Minister in Tinfoil.

The meanest man in the world has been found. He is the man who gave the Rev. Thilo Gore, pastor of the German Lutheran church, an envelope filled with tinfoil for marrying him.

The bride and groom rang Dr. Gore's doorbell late one night and asked him to marry them. As they had a license, he did so. After the ceremony was performed the man handed the minister an envelope which was supposed to contain the fee. He found it contained nothing but several pieces of tinfoil.—Chicago Tribune.

Doing His Part.

"What part are you taking in the war on flies?"

"I do sentry duty at the breakfast table over the milk pitcher every morning."

What a Question.

"There is use for everything."

"Huh! Has anyone ever found a sensible use for a phonograph?"

YOUR best salesman cannot work more than 12 hours a day.

¶ An advertisement of your goods in this paper works while you sleep and wake—24 hours a day.

¶ It works in many households at the same time.

¶ It talks better than the most fluent $. . . a week salesman.

¶ No one slams the door in its face.

¶ RESULT: It sells goods.

¶ About the cost? Far less than the $. . . . salesman and does lots more work.

HAY FEVER ATTACKS QUICKLY ENDED

Just Try Ely's Cream Balm, A Cleansing, Healing Antiseptic Cream

Are you half sick for two or three months every summer with Hay Fever—violent sneezing spells, running at the nose, intense itching in the corners of the eyes, pain and soreness in the back of the throat, at nights a stuffed-up feeling in the head and an asthmatic wheezing in the throat and chest? If so, you can get almost instant relief by simply using a cleansing, healing antiseptic Cream called Ely's Cream Balm.

Hay Fever is due to an extremely sensitive condition of the membrane lining the nose and throat. Dust, smoke and certain odors irritate this delicate inside skin, it becomes inflamed, causing a watery discharge from the nose and violent spasms of sneezing.

Ely's Cream Balm will relieve all these distressing symptoms in five minutes' time. It opens up the air passages, soothes, heals and strengthens the weakened, inflamed membranes, restores them to healthy, normal condition, so that you are not subject to Hay Fever attacks.

Get a fifty cent bottle from your druggist to-day. Give it a fair trial, and get your money back if you are not satisfied.

SPANISH PREMIER IS ASSASSINATED

ASSASSIN IMMEDIATELY AT TEMPTS TO COMMIT SUICIDE.

ALFONSO DEEPLY AFFECTED

Senor Canalejas Was Leader in Spanish Campaign Against Clericism.

Madrid.—Jose Canalejas Y. Mendes, the prime minister whom Spain has regarded as one of the best of statesmen, was shot and killed by a young anarchist named Manuel Pardinas. The assassin attempted suicide, and it was first thought that he was dead, but when he had been carried to the hospital he was found to be living.

No event since the throwing of the bomb at the carriage of King Alfonso, on May 31, 1906, while the king was returning from the church after his marriage has caused such general consternation and such public sympathy.

Martin fired four shots at Premier Canaljes as he was entering the ministry of the interior to attend a cabinet meeting. Two of the shots struck the statesman behind the right ear and he dropped dead. The assailant is 28 years old. He is believed to be an anarchist expounder.

Alfonso Deeply Affected.

The King was informed of the tragedy as he was leaving the palace to attend the chrysanthemum exhibition. He sprang into an automobile and motored swiftly without escort to the ministry. As he reached the Puerta Del Sol the crowd acclaimed him, crying: "Long Live the Brave King." Running upstairs, four steps at a time, the King entered the salon and bent silently over the body of his late minister. He was greatly affected as he recited the prayer for the dead and turned to the assembled ministers to learn the details of the crime.

Jose Mendez Canaljas was selected to form the Spanish cabinet in February two years ago. He was leader of the monarchists or democratic party, which came into power on the resignation of the liberal cabinet headed by Senor Moret y Prendergast.

Senor Canaljas was of a wealthy family. He came into political life in 1900, when he took a leading part in the campaign against clericism. He had, however, taken great interest in politics as a student and was a public speaker before that for many years.

At the age of 25 he became a member of the Spanish parliament. He attached himself to the advanced liberals. Senor Canaljas became a member of Premier Sagasta's cabinet in 1902. He held the portfolio of agriculture. He introduced many reforms, especially in regard to the laboring classes and eventually created a department of labor.

When he was asked in February, 1910, by King Alfonso to form a ministry the request caused surprise, as it was the first time in the history of Spain that an advanced radical had been placed at the head of the ministry. His cabinet has since undergone many changes, but he has always retained the leading place.

He had much to do with the signing of the agreement between Spain and France on the question of the future of Morocco, which recently was settled satisfactorily.

The project introduced by Premier Canaljas for the separation of church and state caused a rupture of relations between Spain and the vatican authorities. These had ben resumed with a view of a friendly settlement. The Spanish government now insists upon the supremacy of the civil power. Senor Canaljas visited New York in 1907 just before the uprising in Cuba. It was stated then that his mission was to study the sentiment of the American people, and of the administration regarding Cuban affairs, but it was hinted that he was entrusted with a secret diplomatic mission to offer pecuniary inducements to the Cuban leaders to stop the rebellion in Cuba. He denied the truthfulness of the report. He was at that time editor of El Heraldo.

EXPLOSION KILLS SIX.

Ton of Dynamite in Powder Mill Packing Room Blows Up.

Gary, Ind.—Six workmen were killed by an explosion of 2,000 pounds of dynamite in one of the packing house at the Aetna Powder Company's plant near here.

The men who lost their lives had arrived at the plant for the day's work and were repairing one of the packing devices when the explosion occurred.

SCHRANK PLEADS GUILTY.

Sanity of Colonel Roosevelt's Assailant To Be Determined By Five Alienists.

Milwaukee.—John Schrank, pleading guilty to an attempt to murder Theodore Roosevelt, did not receive the quick disposition of his case he had looked for. Instead, on motion of District Attorney Winifred C. Zabel, Municipal Judge A. C. Backus appointed five Milwaukee alienists to act as a part of the court in determining the would-be slayer's mental condition.

DEMOCRATS WIN CONGRESS

Democrats Have Large Majority in the House and Will Control the Senate by Small Margin.

For the first time in eighteen years the Democratic party has captured the executive and legislative branches of the National Government, and will be in position to take positive control of the situation March 4.

Woodrow Wilson's vote in the Electoral college will be 433, William Howard Taft will have eight and Theodore Roosevelt is credited with 90. The Wilson vote marks a new record in national elections, although his popular vote will be less than that of any President elected since 1892.

Eighteen Democratic Governors were chosen out of the twenty-seven voted for.

Enough State Legislatures were changed from Republican to Democratic to overcome the Republican majority in the Senate. Poindexter, elected from Washington as a Progressive, announced that he will bolt the Republican caucus when he returns to Washington.

When it became apparent that Wilson had swept the country main interest centered in the race between Taft and Roosevelt, the party winning second place gaining many advantages, such as representation on nonpartisan commissions and on election boards. While the Bull Moose ticket undoubtedly had an aggregate vote in the country much greater than that of the regular Republicans, it came third on state tickets in many important commonwealths, notably New York, Ohio and Illinois, and in the latter state the Election Board issue already has been decided in favor of the Republican organization.

The strength of the Socialist vote is one of the features of the election, especially in the industrial centers of the Middle West, where there is more than one place Debs outran his three presidential rivals. The one national asset of the Socialist party, Representative Victor Berger, however, went down to defeat in his efforts to secure re-election from the Milwaukee District, and several Socialistic city governments were rebuked by the voters by retirement from office.

President Taft captured two states—one in New England and the other in the far West. Roosevelt took one Eastern state, two from the Middle West and one from the far West and one Pacific coast state. Wilson took all the others.

Popular Vote for President at Election of 1908.

Plans Forming for Party Control

Following the assurance that the Democrats will control the senate for the purpose of legislation and the prosecution of ordinary partisan legislation, lines are already being laid for control within the party. This foreshadows a sharp struggle between the so-caled Progressive element of the party for the control of committee machinery of the upper house.

Rumors of the impending clash based upon sentiments privately expressed by the Progressive Democrats were supported by the arrival in Washington of William Jennings Bryna and the announcement that Colonel Bryan would remain here probably a week.

Congress, after March 4, will be dominated by Progressive Democratic influence, in the opinion of Mr. Bryan, who was in Washington on his way to Florida with Mrs. Bryan. The Commoner, however, declined to give an opinion on the extra sesesion question or to say whether he will accept or reject a place in President-elect Wilson's cabinet.

NOT NEW.

Daisy—By the way, Frank, that's a lovely waistcoat you have. New, isn't it?

Frank—No.

Daisy—Strange; I never saw it before.

Frank—That's because my brother never called on you.

Truth About Old Age.

George F. Baer, the famous Philadelphia railroad man, said on his seventieth birthday:

"I agree with Professor Metchnikoff about the wisdom of the old. Professor Osler made it fashionable to decry gray hairs, but my experience has been that the old not only possess wisdom, but they seek it also."

With a smile Mr. Baer added:

"The only people who think they are too old to learn are those who really are too young."

SKIN DISEASE ON FACE

Barthell, Ky.—"I had a skin disease on my face, neck and hands that tormented me all the time and when I would get hot the places would burn so that I had to keep my face wet in cold water. It began as pimples and indeed it was disfiguring, for it would get in spots on my face and hands as large as a quarter of a dollar. It would get into blisters sometimes and I sure did suffer. My face burned all the time. It was this way so bad for about six years and I tried everything that I could hear of, but nothing did any good.

"One day I found the Cuticura Soap and Ointment advertised and ordered some at once. I would wash my face good with the Cuticura Soap and then apply the Cuticura Ointment and they have cured me. It would take half a tablet to tell all I suffered in those six years." (Signed) Mrs. Della Hill, Jan. 3, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

The Kind.

"How did they succeed in catching that defaulting aviator?"

"With a fly detective."

DOES YOUR HEAD ACHE?

Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

A voice used too much in scolding is not good to sing with.

OTHERS KNOW US TOO WELL

Easy to Deceive Ourselves, but the Rest of the World Is Generally Too Wise.

Senator Pomerene has a happy knack of driving home a statement with an epigram.

At a luncheon Senator Pomerene described a would-be literateur.

"Thanks to whisky and strong cigars," he said, "the poor fellow has failed to make good. He earns a precarious living by newspaper work, but, though he is 50 now, none of the wondrous novels and thrilling stories that he used to prate about have appeared.

"And yet, in his shabby apartment, over a bottle of cheap liquor and a box of cheap cigars, he will boast by the hour—poor, gray, wrinkled duffer—of his unfinished MSS. Oh, they will appear yet! Yes, he will yet illumine the world with the light of his genius."

Senator Pomerene sighed and concluded:

"Ah, if we could deceive others as easily as we deceive ourselves, what reputations we'd all have, to be sure!"

His Business.

"I see where Smith went to the wall."

"How did that happen?"

"He's a bill poster."

OXIDINE

THE ACKNOWLEDGED CHILL CURE

Some of the best physicians prescribe

OXIDINE

in cases of malaria

They can do so ethically, for Oxidine is a known remedy with a known result.

In cases of either incipient or chronic malaria, Oxidine effects definite benefit and almost instant relief. Take it as a preventive, as well as a remedy.

It is a great tonic.

OXIDINE is sold by all druggists under the strict guarantee that if the first bottle does not benefit you, return the empty bottle to the druggist who sold it and receive the full purchase price.

PREVENTION

better than cure. Tutt's Pills if taken in time are not only a remedy for, but will prevent

SICK HEADACHE,

biliousness, constipation and kindred diseases.

Tutt's Pills

TREES! TREES!

Grown in the South For the South

Orange, Fig, Pecan, Peach, Plum, Grapes, Shades, Etc.

Alvin Japanese Nursery Company, MOBILE, ALABAMA

The Stomach Is the Target

Aim to make that strong—and digestion good—and you will keep well! No chain is stronger than its weakest link. No man is stronger than his stomach. With stomach disordered a train of diseases follow.

Dr. Pierce's **Golden Medical Discovery**

makes the stomach healthy, the liver active and the blood pure. Made from forest roots, and extracted without the use of alcohol. Sold by druggists, in liquid form at $1.00 per bottle for over 40 years, giving general satisfaction.

If you prefer tablets as modified by R. V. Pierce, M. D., these can be had of medicine dealers or trial box by mail on receipt of 50c in stamps.

EVERY CHILD SHOULD HAVE THE

Faultless Starch Twin Dolls

Miss Lilly White and Miss Phoebe Prism.

If you will use the best starch made both of these rag dolls, each 12½ inches high and ready to cut out and stuff, will be sent to any address, postpaid, on receipt of six fronts of 210 cent Faultless Starch packages, or twelve fronts of 5 cent faultless Starch packages, and 3 cents in stamps to cover postage and packing. Or either doll will be sent on receipt of three 10 cent fronts or six 5 cent fronts and 4 cents in stamps. Cut out this ad. It will be accepted in place of one 10 cent front, or two 5 cent fronts. Only one ad will be accepted with each application.

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

Mrs. Deborah Rogers, of Atlanta, is the guest of Miss Minnie Muse this week.

Mr. and Mrs. J. J. Hayes, of Maplesville, spent Sunday with the family of Marshall Hayes.

Miss Etta Parker, of Jemison, was a visitor to Clanton Saturday.

Mrs. Callaway and sister, Miss Bonie Robinson, of Cooper, were in town Tuesday,

Regulate the bowels when they fail to move properly. HERBINE is an admirable bowel regulator. It helps the liver and stomach and restores a fine feeling of strength and buoyancy. Price 50c. Sold by Upchurch Drug Co.

Mr. W. H. Dorsey, of Atlanta, was a visitor to Clanton Tuesday

Miss Minnie Muse is selling her entire stock of millinery at and below cost. It will pay you to come and get you a hat now while they are going cheap.

Mr. P. D. Wilson went to Birmingham Friday.

Dan J. Joyce, Sanville, Henry Co., Virginia, says;—"I took a cold with a cough which hung on for two years. Then I commenced using Foley's Honey and Tar Compound and the cough finally left me and now I am perfectly strong and well." Is best and safest for children and contains no opiates.

Upchurch Drug Co.

We regret to learn that Rev. W. Baldwin will remove his family to Montgomery in the near future.

Don't fail to go to Taylors for your fall millinery.

Stop coughing! you rack the lungs and worry the body. BALLARD'S HORE-HOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

The Rev. Dr. Charles Lamar, of Wetumpka, once pastor of the church here, visited his sister Mrs. G. L. Phillips, this week. At the Methodist church Sunday morning he preached a strong sermon on "Faith." He made a clear distinction between credulity, which with some passes for faith, and that faith which is strong because it is fixed on the Power which is the source of all strength.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore eyes tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drug. Safe and always sure. Try them.

Upchurch Drug Co.

Hasten the day when Clanton shall have her streets lighted. We believe the day is not far off under the good administration we have when the town can have this and many other improvements.

It is a shame that the Western Union telegraph company should slight the towns along the L. & N. in the manner they are doing. And this a matter in which the Good Road Commission should lend a hand and force pecent service?

We wish some subscriber would bring this office a load of wood in payment of his subscription.

Mr. Mitchell, a general merchant at Bagdad, Ky., writes us: "I think Foley Kidney Pills are the greatest kidney medicine there is. My daughter was in terrible shape with kidney trouble and I got her to take it. She is completely cured now. I think they are the greatest medicines on earth."

Upchurch Drug Co.

Miss Kate Jones, one of our high school girls, left Sunday to take charge of the school at Cane Creek.

Mr. Emmett McKee, of Chattanooga, Tenn., is visiting his parents here this week.

Syrup making time. We hear of many fine yields of cane in the county.

COTTON.

Cotton this week is bringing 12 cents, with a possible upward tendency.

A preliminary hearing was had before Judge E. B. Deason on last Monday in the matter of Jim Williams, colored, charged with the murder of another colored man by shooting with a pistol, at the camps of the Interstate Contracting Company in the eastern part of the county. The defendant was remanded to jail without bail.

We noted recently a big sale Gamble Hardware Co. made. While in the store this week we noted one at the other extreme, when a little darkey demanded a "coppers worth of shot." He was supplied as readily as the big buyer was. It reminded us once seeing a little darky come into a country store with a bottle in one hand and egg in the other demanding an "aigs wuth of kaysene oil."

Clanton streets have a busy appearance every day in the week now—in fact it is hard to tell Saturday from any other day. The farmers are selling a good bit of cotton and doing considerable trading.

MILLINERY SCHOOL.

L. Block, of Birmingham, has opened a School of Millinery at Clanton. Thorough and practical instruction by Mrs. Clara Mullins and Miss Emma Dunlap teachers. Prices reasonable.

"DID YOU KNOW"

That no person ever knew a thing (secret or what not) but what they finally told it to some one? Then we kindly ask you just to call in Higgins' Jewelry Store in Clanton and see the hundreds of beautiful Christmas Presents. That's all we believe will be necessary for Higgins to do a big Christmas business. Course if you see all the fine presents you are sure not to keep it a secret.

MARRIAGE LICENSES.

The following licenses have been issued from the Probate Judges' office this week:

Mr. J. W. Wilson and Miss Lela Mae Collum; Mr. H. E. Erwin and Miss Sarah Virgin; Mr. C. C. Hayes and Miss Perdita Eiland; Mr. E. E. Williams and Miss Eva Driver.

140,000 ACRES OF FERTILE WEST FLORIDA LANDS for sale at from $5.00 to $25.00 per acre. Some improved, some timber, mostly cut over lands. Three railroads through property. Will sell in large or small tracts. Terms easy. Health, climate and productiveness of soil the best in the world.

Address DEKLE LAND CO., Nov7-4t Chipley, Fla.

We want a good representative man in this county, who stands well with the farmers and business men, to represent us in the best enterprise that was ever promoted for the benefit of the farmers and the developement of the wealth of the county.

A fine opportunity is offered the right man in establishing a permanent business, which is a money maker from the start, in a number of ways.

SOUTHERN FARMERS BREEDING & LIVE STOCK COMPANY.

Are You Nervous?

What makes you nervous? It is the weakness of your womanly constitution, which cannot stand the strain of the hard work you do. As a result, you break down, and ruin your entire nervous system. Don't keep this up! Take Cardui, the woman's tonic. Cardui is made from purely vegetable ingredients. It acts gently on the womanly organs, and helps them to do their proper work. It relieves pain and restores health, in a natural manner, by going to the source of the trouble and building up the bodily strength.

TAKE **CARDUI** The Woman's Tonic

Mrs. Grace Fortner, of Man, W. Va., took Cardui. This is what she says about it: "I was so weak and nervous, I could not bear to have anyone near me. I had fainting spells, and I lost flesh every day. The first dose of Cardui helped me. Now, I am entirely cured of the fainting spells, and I cannot say enough for Cardui, for I know it saved my life." It is the best tonic for women. Do you suffer from any of the pains peculiar to women? Take Cardui. It will help you. Ask your druggist.

Write for "Ladies' Advisory Dept." Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free.

CUT OUT THIS AD.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was removed. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be sent you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee that if it fails to remove your Mole or Wart, we will promptly refund your dollar.

ADVERTISED LETTER LIST.

List of letters remaining uncalled for in Clanton office for the week

Miss Aubr Sumels, Mrs. Mary J. Edwards, Miss Glennie Collins, Miss Fannie Clarks.

W. B. Parrish, K. K. Davis, P. D. Colbert, W. M. Wright, John McDuffie, G. S. Collins, Tom Florence, Pair Lee.

These letters will be sent to the Dead Letter office Nov. 23, 1912, if not delivered before. In calling for the above, please say "Advertised," giving date of list. F. O. Dudley, p. m.

Put a porous plaster on the chest and take a good cough syrup internally if you would treat a severe case of sore lungs properly. Get the dollar size HORE-HOUND SYRUP. With each bottle there is a free HERRICK'S RED PEPPER POROUS PLASTER for the chest. Sold by Upchurch Drug Co.

THE GOWAN ADDITION

The following residences have recently been built in this desirable part of "Greater Clanton:" Cottage, 5 rooms, W. H. Goodgame; cottage, 5 rooms, W. W. Fox; cottage, 6 rooms, Calvin Jones; cottage, 6 rooms, veneered brick, J. B. Downs. The following have purchased lots: W. J. Easterling, G. C. Harris, P. W. Mahan, Miss Ida Ward. Each of these have purchased from one to six lots. Streets are being rapidly graded and sidewalks improved, and altogether this section of Clanton presents an attractive appearance.

CARDS OF THANKS.

Editor Union Banner: Permit me to express to the voters of Chilton county my deepest appreciation for the honor conferred upon me by re-electing me to the office of county treasurer. Words cannot express how sincerely grateful I am, but I assure them that, as in the past, the people shall have my very best efforts for an honest and conscientious discharge of duty.

Faithfully,
J. Wiley Littlejohn.

Editor Union-Banner: Please allow me to express my thanks to the voters of the county for electing me to the office of coroner. I shall endeavor to perform the duties of the office conscientiously and to the best of my ability. Respectfully,

G. O. Foshee.

Irregular bowel movements lead to chronic constipation and a constipated habit fills the system with impurities. HERBINE is a great bowel regulator. It purifies the system, vitalizes the blood and puts the digestive organs in fine vigorous condition. Price 50c. Sold by Upchurch Drug Co.

A LIVER MEDICINE THAT BEATS CALOMEL.

Dodson's Liver Tone Does the Same Work as Calomel Without Making You Sick. It is Vegetable, Tastes Good and Never Fails.

Everybody who has ever taken Calomel knows what a strong drug it is. Calomel spurs the tired liver as if it were a tired horse, and while the liver works harder for a little while, it is soon weaker than ever.

Dodson's Liver Tone is a vegetable tonic that gently induces the most sluggish liver to work. Taking it is followed by no bad after-effects. No restriction of habit or diet necessary. For either children or grown people. The Alred Drug Company sells a large bottle of Dodson's Liver Tone for fifty cents and guarantees it to be a perfect substitute for calomel and will give you your money back if it disappoints you.

$100 Reward, $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, Ohio.
Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

Worked That Time, Anyway.

In the Irish rebellion a bombshell whizzed toward an Irishman's head. Pat dodged it with a low bow, and it went by, taking off the head of a man behind him. "Faith," exclaimed Pat, "ye niver knew a man to lose anything by bein' perlite!"

Why cough? Stop it!

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a medicine for coughs and colds, a regular doctor's medicine. Sold for seventy years. Use it! Ask your doctor if this is not good advice.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

Made by the J. C. AYER CO., Lowell, Mass.

SILAGE

At a farmers' institute not long ago the question was asked: How many housewives have silos? You can very easily guess the nature of the replies to this question, for none of those present had much of an idea what a silo really is. After a short explanation it was agreed that nearly everyone present in reality had a silo of some kind. Some of these were used for saving fruits, corn, and others for preserving cabbage for future use. We don't really speak of these as silos, but the effect on the saving of these beds when placed in jars is the same as it is with corn when stored in the silo; in other words, silage is corn preserved by storing in an air tight structure.

There probably are very few farmer folks that do not remember some rainy day or evening when all hands got busy preparing the cabbage to fill the kraut jar. Probably no thought was given the subject because it was a family task, and no one realized that in effect the saving of the cabbage by making it into kraut is the same as making corn silage. It undoubtedly served a good purpose in keeping the family in a healthy condition during the winter months when other green food was not available. The same is true of silage, which affords a succulent and nourishing feed for the live-stock.

There may be a question as to whether all stock will eat the sour corn silage, but give them a chance and this thought will be quickly dispelled, for all stock eat silage very greedily, and the returns in the form of milk and meat will amply pay for all the trouble and expense.

Yours very truly,
I H C SERVICE BUREAU.

VEGETABLE OILS

L. O. Miller, Bernardston, Mass., writes as follows: "Could you kindly give me some information about vegetable oils that are used as substitutes for linseed oil? Where, in your opinion, could soy beans and sunflowers be most profitably grown?"

There are various oils to adulterate linseed oil, but we are not aware of any oil that will take its place, or even add anything to its value. It seems that linseed oil is the only one that has ever been found that possesses the proper drying qualities to secure the results desired. Whatever is added to it seems merely to be a detriment.

Soy beans and sunflowers may be profitably grown under some conditions. There are a great many regions where they will grow satisfactorily, and we believe that the middle west or west would perhaps give the best returns, all things considered. In Colorado the Russian sunflower makes a wonderful growth. It is grown quite extensively for feeding chickens.

The soy bean is a crop that will stand a great deal of dry weather, hence is profitably grown on rather dry soils, although it responds to moisture as well perhaps as any other crop. It is grown extensively throughout the south; also some of the hardy varieties are found in the central sections.

If you are thinking of coming west with a view to taking up such work as growing these crops, you can get information by addressing any of the state colleges in the west.

You may be able to obtain further information as to vegetable oils by addressing the Indian Refining Co., 17 Battery Place, New York, N. Y., or the Union Petroleum Co., 35 South Second street, Philadelphia, Pa.

Yours very truly,
I H C SERVICE BUREAU.

LAND DRAINAGE A NECESSITY

Well Drained Soil Will Give Best Returns—Care Should be Exercised in Laying Tile Drains.

Reply to J. C. Tally, Stevenson, Ala. Drainage comes first, if the land needs it, and tile drainage is the modern and sensible way of draining. If the soil is low in humus, stable manure or vegetable matter must be added; if it is lacking in one or more of the elements of plant food, these must be supplied in commercial fertilizer, stable manure and legumes; if it is sour, an application of lime is necessary; if the soil is compact and there is a hard pan, deep plowing must be done. But if it needs drainage, stable manure, commercial fertilizer, vegetable matter, lime, and deep plowing will be of little avail.

There are many thousands of acres of land that are dry enough to induce farmers to try to farm them and are wet enough to soak all the profit out of cultivating them. Drainage on such soils is very urgent.

Drainage may be very simple or a very complex problem. It may require expert engineering so that every available inch of fall may be utilized or the location of the tile may be so apparent that the average practical farmer can easily locate it with the eye. Between these two extremes there are cases requiring varying degrees of skill.

If in a complicated proposition the services of a reputable engineer should be secured; if there are merely wet spots in your field, or if your field is wet with plenty of fall, you should be able to locate and lay your tile with no difficulty, by following the methods outlined in the Uniontown, Alabama, Experiment Station bulletins, Numbers 3, 5, 6, and 10. Be sure that no mistake is made in tiling your land. Tiling land is expensive and should be done right.

Yours very truly,
I H C SERVICE BUREAU.

ROYAL BAKING POWDER

Absolutely Pure

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

90 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

HAIR WHITE AS SNOW

Restored to Natural Color with

WYETH'S SAGE AND SULPHUR HAIR REMEDY

ALMOST A MIRACLE

My hair was as white as snow when I commenced using Wyeth's Sage and Sulphur Hair Remedy. One bottle restored my hair to its natural dark brown color. As I am now 70 years old, I consider the result most remarkable. It is an agreeable and refreshing hair dressing, keeping the hair soft and glossy, without being in the least greasy or sticky.

WM. WESTLAKE,
310 West Main Street, Rochester, N. Y.

Why hesitate when WYETH'S SAGE AND SULPHUR HAIR REMEDY is daily producing just such results?

After years of study and analysis of the hair, we have been able to produce an ideal Hair Tonic and Restorer, which contains an actual constituent of hair, combined with ingredients of recognized merit for treatment of hair and scalp diseases. It makes and keeps the scalp clean and healthy, gives life, strength and lustre to the hair, and

Restores Gray Hair to Natural Color

No matter how long and thick your hair is, WYETH'S SAGE AND SULPHUR HAIR REMEDY will make it longer and thicker. It will remove every trace of dandruff in a few days, stop falling in one week, and start a new growth in from one to three months.

Handsome Trophy for Best Corn.

The American Land and Irrigation Exposition company, whose general offices are in the Singer building, New York city, is offering a handsome trophy, valued at $500, to the farmer growing the best 30 ears of Indian corn of any variety with the largest yield per acre. The corn must be grown in the United States. Rules and shipping instructions and particulars for making entry for the privilege of competing in this contest can be secured by writing Mr. Gilbert McClurg, General Manager of the Exposition, Singer building, New York.

GUMBO SOILS

O. J. Berger, of Eudora, Kansas, writes: "I am on gumbo land, and it is not very well drained. I am told this land would improve if properly drained, and some say it can't be tiled, for a paste forms around the tile and the water can't get through it. How would concrete tile do? Can you give me any information on this subject?"

What we usually refer to as gumbo soil is a very heavy type of soil. In some localities is is very dark in color, while in other places it is slightly grayish in color. In the state of Iowa the gumbo soils are very dark and usually very heavy, while in parts of Kansas, also other parts of Iowa, the gumbo is of a light color, often of a reddish cast.

One of the first steps to take in attempting to handle gumbo land is to see that it is well drained. The very close grained, finely textured gumbo soils of Iowa have been drained successfully both by using open ditches and by using tile drain. In fact, some of the gumbo soils that have been tile drained often sell as high as $100 per acre. The experience in handling the heavy, sticky soils indicates that it is not necessary to place the tile as one would naturally think, close together and as shallow as first consideration might indicate. The experience of farmers in the heavy, waxy soils of Iowa shows that the tile lines are often placed ten to twelve rods apart, which is ample distance even in some other types of soil. The best way to settle this matter, inasmuch as those soils vary considerably, is to put in as many lines of tile as you can conveniently and watch the effect, or put only one tile line and note the distance it drains on either side. This would take but a short time for the effect can usually be noticed on close observation.

Proper Treatment for Gumbo Soil

It is highly important that you have a good outlet in attempting to use tile. After the land is well drained, the next important step is that of tillage. It has been found that for all kinds of conditions fall plowing is the best for gumbo soils. The action of freezing and thawing during the winter months renders the seed bed much more friable and reduces the clods in a way that cannot be accomplished by mechanical means. Care should be exercised not to plow or to cultivate this type of soil when it is unusually wet for it puddles very quickly, forming clods which can be reduced only by freezing and thawing.

One of the objectionable features of gumbo soil is the tendency to bake when drying out, thus injuring the crop materially. The time that this occurs is usually during the summer months. This objection may be overcome by surface tillage, using a spring-tooth, peg-tooth or disk in rows, together with cultivators, or by other means of maintaining a surface mulch to a depth of three or four inches.

Gumbo soils when well drained and in a good state of cultivation, which may be maintained as stated above, give splendid yields; in fact, better than some other kinds of soils in the corn belt. A frequent application of stable manure is also beneficial on these soils, inasmuch as it supplies vegetable matter, thus rendering the soil lighter and putting it in a better physical condition.

Some claim that the cement tile are more porous and thus permit a better movement of the water than the clay tile, but in reality there is very little difference. As far as the pores of the tile becoming filled is concerned, they would probably fill up about as quickly as the other. A large percentage of the water that enters the tile goes through the joints and does not soak directly through the tile. One will find that well vitrified tile and carefully made cement tile will serve your purpose satisfactorily. In cases where the trouble from alkali is exceptionally severe, it may be best to use the clay tile in preference to the cement.

NEIGHBORHOOD NEWS
AND LETTERS FROM THE PEOPLE

A CARD FROM THE TAX COLLECTOR

Editor Union Banner:—My attention has been called to some articles appearing in the Press regarding my tactions as Tax Collector and in reply to the same I beg to say that as the editor of the Press says that as a newspaper man "he knows how and where to find the records and get the figures" I admit that that there is no excuse for his not knowing the facts, but instead of stating the facts he has twisted and misrepresented them in such manner as he thought would serve his purpose—that is to make the impression that I had been guilty of withholding the county's money in a manner not authorized by law—which is not a fact.

The statement that the tax collector paid to the county treasurer the sum of $18,000.00 general funds belonging to the county on election day or at any other time this year, is false. Why was the statement made except to deceive?

As to the $11,000.00 paid into the treasury before Judge Reynolds went out of office, it was collected during December and could not be held over by the collector till after Judge Deason was inaugurated. Please read section 2200 of the Code of Alabama.

The above section fixes the time my monthly reports and settlements shall be made. The Press knows I have not violated said section.

Talk about dark, slick schemes, what do you call such misrepresentations as are being made by the Press?

Another false statement is that a check from the Louisville & Nashville Railroad Co., for the sum of $22,000.00, was deposited in the bank by me on October the 23rd. Why was this statement made except to deceive?

The Press absolutely has no excuse for misstating the facts except to prejudice and mislead the people where the facts will not serve his purpose.

I have always invited any taxpayer to investigate my official record and if I have violated any law, or have wronged any tax payer, I will be glad to make the necessary amends. But as the editor of the Press is not an individual tax payer I don't feel that I am due him anything.

He (the Press) demands an explanation: does he want it? No. The facts are not what he is after for he knows them, or should, being a newspaper man with the knowledge he has of records and figures.

The people of this county will fairly judge any man and I am willing to abide their judgment.

Yours truly,
J. N. DENNIS,
Tax Collector.

CARD OF THANKS

Editor Union-Banner—Please allow me to express my appreciation of the support given me in the recent election. It return I will exert my utmost efforts to please the people in the position I have so greatly honored me with. Again expressing my thanks, I am,

Your Servant,
J. N. Dennis.

Don't forget to pay in your subscription.

THORSBY NEWS

Mrs. Smith, of Meriden, Miss, is visiting her parents, Mr. and Mrs. Coleman.

Rev. E. W. Butler preached at the Congregational church Sunday morning.

The Commercial Club met last week and organized with 14 members. The club is for the purpose of promoting the interests of the town.

Next Sunday morning Dr. Eaves, of Birmingham, will preach at the Congregational church.

The city council met Monday night and had a very pleasant as well as profitable meeting.

Little Miss Edith Robinson is out again with her broken arm in a sling.

Mr. Mac Crumpton is one of the latest newcomers. It is rumored about town that he is to take charge of the Bank the first of January. The Twins.

Dr. O. E. Wilson was in Thorsby Sunday.

Drs. Marcus and Gragg, of Clanton, were in town Sunday.

J. H. Minor from Bibb county was in town last week very sick, but we are glad to state he is much better now.

Mrs. Cox and daughter, Mrs. Minor are expecting to visit Clanton this week.

Misses Belle and Hanie Cox visited Crossroads Sunday.

Brown Eyes.

Dr. O. E. Wilson was in town Sunday.

Mr. Bob Marshal, who has been in our town for some time is moving his family to Ensley.

Carnation.

RURAL SCHOOL SUPERVISOR TO MAKE SPEECHES

Hon. N. R. Baker, State Rural School Supervisor, will visit Chilton county three days in the week beginning December 2nd, 1912. He will address the people at Verbena, Monday, Dec. 2, 7:30 p. m.; Clanton, Tuesday, Dec. 3, 7:30 p. m.; Thorsby, Wednesday, December 4th, 7:30 p. m. I earnestly insist that as many of the teachers, district trustees and school people be present at each of these meetings as can do so. Mr. Baker is doing a great work in the rural schools of Alabama. During each day we will visit as many schools as we can reach. His work will be along educational lines and snggestions to teachers, so teachers don't fail to be present at one of his night sessions at least.

J. W. Moore,
County Supt. Education.

Editor Union-Banner—Please allow me space to express my thanks to the many friends and neighbors for their kind assistance to me during the illness and death of my sister Margaret Rogers, who passed away on Sunday, Nov. 17, aged 77 years.

H. Rogers.
Clanton, Rt. 1.

FAIRVIEW

There will be a debate at this place Saturday night, November 23, beginning at 7 o'clock.

Huntsville. Ala. W. C. Tollard. a well known citizen, says:—"I have used Foley's Honey and Tar Compound and found it a most excellent preparation. In fact, it suits my case better than any cough syrup I have ever used and I have used a good many, for I am now over seventy years old."
Upchurch Drug Co.

THE BIG DAM ON THE COOSA RIVER.

The first authentic details as to the tremendous developments that are under way by the Ala. Interstate Power company were made public yesterday from the offices of W. Winans Freeman, managing director of that company. The entrance of this company into Alabama and Birmingham particularly has created a great amount of interest.

The plan of harnessing the Coosa river at Ocampo, 40 miles from Birmingham, and transmitting to Birmingham and elsewhere in this state electric power has been spoken of for a long number of years, but not until a short time ago was work actually begun with this end in view.

The construction now under way by the Alabama Interstate comprises a dam 1550 feet long across the Coosa river, an electric generator system installed in a power house of large proportions, the construction of high tension cable lines into several of the foremost cities of the state, the construction of distributing plants in each of the cities and ultimately the sale and distribution of electric power to the consumer. To perform this work over 1500 men are now at work near the dam site, others are engaged on the high tension lines, while $5,000,000 is the appropriation that is to be spent in less than 12 months getting the electric power to this and other cities.

The dam at Ocampo will impound two and a half billion cubic feet of water, although in no practical way is the construction an impounding proposition. The dam will be 1550 feet long. It will be 85 feet high, with a waterfall at the dam 68 feet high. The construction is an overfall type, while the buttresses are not heavy gravity type construction. The general construction will be massed concrete and Cyclopean masonry. The dam will have on the top 26 control gates 14 feet by 30 feet, which will control the surface of the water. In the construction of the dam and power house foundation there will be used 190,000 yards of masonry. The base of the dam will be 70 feet wide, while the width on top varies. The buttress section will be 15 feet, while the spillway section will be curved. The construction of the dam is similar to that of the Tennessee Coal, Iron and Railroad Company's central waterworks in that the base will be of exceptional width while the top will represent a very small part of the width of the base.

In connection with the dam there is under construction a power house. The house is located between the buttress of one end and another buttress which permits the power station to occupy a gap between the two, forming a part of the dam construction

In the power house are located six single runner vertical water turbines, while space is being allowed for two additional ones. These turbines have a capacity of 17,500 horse power, running the total up to 70,000 horse power. They will generate 50,000 K. W. per hour, or however regulated. The transmission from the plant over the cable construction will be 110,000 volts, which will be reduced at points of consumption. Reducing stations will be prepared for that purpose.

The water enters the generating plant from the surface side and sweeps in a circle through the turbines located in the base of the buildings where the power is cultivated. That building will be 324 feet long, 140 feet wide and 106 feet high. It will be of steel and concrete and brick construction.

The work of the Ocampo construction is going ahead rapidly. Mr. Freeman is in the east now closing up the contracts for generators. A railroad is being constructed into the power house on account of the inability of ordinary means to handle the machinery. Once inside the shell at the power house a 40 ton crane carries the machinery to place.

The company is to build from the power house a line of transmission stations each 70 feet high and of steel. They will cost $100 each, and are so arranged as not to interfere with the cultivation of crops, as plowing is done without difficulty underneath the transmission towers.

CIRCUIT COURT.

The fall term of the Circuit Court, Judge W. W. Pearson presiding, will begin on Monday, Nov. 25.

LIST OF JURORS.

PEE-GEE
SPECIFICATION VARNISHES

CABINET VARNISH.— A high-quality but economical Varnish for interior wood work, cabinet mantles and furniture. Is of good body, light in color, dries free from dust in 6 to 8 hours and can be left in the gloss or rubbed to a dead finish. Has rich brilliant lustre, and is very durable. Will not mar white.

FLAT FINISH is absolutely free from wax, will resist the action of moisture and is very durable. When used as a finishing coat over gloss varnish it dries with a dull velvety finish, which has the appearance of having been rubbed, without the labor or expense of rubbing. One coat over stain is all that is necessary to get the modern mission finish, and dries hard over night.

Ask our dealer in your town for descriptive matter and full information.

NOTICE TO CORRESPONDENTS.
All communications to The Union and Banner must be signed by the writer's real name as well as that name which they wish to put in the paper. Letters must reach the editor Tuesday morning to get in the same week. While we will publish any and all communications complying with these requirements that do not contain ang improper language, we are not responsible for the opinions expressed.

WORKING PEOPLE SOUTH AND NORTH

Some of the state papers have recently had articles calling attention to and refuting a criticism of the South which is frequently made by people of the North. That is, that Southern people look down on "working people" as an inferior class; and so they, the Northern people, do not care to come and settle in a country where honest labor is considered a mark of inferiority.

There are, doubtless, some people in the North who, for lack of information, still hold to that time-worn notion. Some generations ago it had some foundation of fact, when slave labor had a tendency to degrade all work in competition with it; but even then the backbone of the South was made up of sturdy workers who honored the toil which gave them sustenance. Take all of upper and middle Alabama, in particular, and you find a race of farmers who were workers from the first settlement of the country until now. and their children, in all the fields of human endeavor, have proven their worth and the dignity of honest labor.

It is true there are to be found here and there throughout the South those who affect to despise the working man, although they may be living at his expense, but our observation, gained by residence in all parts of the country, is that these are more than matched by the same class in the North, and there is no ground for casting reproach at the South. The policy which has permitted certain classes to amass riches at the expense of the "common people," is to blame for this, whether it be North or South, and the evil has increased faster in the North, which was favored by this policy more than the South.

It is absurd for a Northerner to hold back from coming into this favored region for fear that he will not be socially welcomed. He will find as hearty recognition of his worth as a worker as in the cold clime he leaves. He may find a few snobs among those who have scraped up, by hook or crook, a little more than their fellows, but, surely, he has a plenty of them up there.

Speaking for Chilton county, we can assure the newcomer from the North that he will be honored for the worth of his work; and the more good workers coming the greater will be the appreciation.

WORKERS, NOT FIGHTERS, WANTED

We heartily agree with State Superintendent of Education Willingham in his protest against the effort being made in certain quarters to foster the military spirit in the schools, and to encourage rifle clubs and other such organizations as tend to make fighting machines of our young men.

There is already too much of "gun business" in the makeup of our boys, and the state and leading educators should do all in their power to divert their energies into worthier channels. This country has need of well-trained workers, men of brain and heart moulded into firm characters.

We have little or no need of soldiers. We are not like the European states, fronted by neighbors ever on the alert to encroach on our rights. We have not to sustain a governtal system which holds its grip upon the people by force; the people are the government and do not have to uphold it by the bayonet. For such police work as is necessary our State Guard system is more than sufficient, and we need not in time of peace prepare for a war we need never expect.

The fact of our being a non-military country is our greatest source of strength; it has exerted an immense influence over the people of the bayonet-ridden countries of Europe, and now that the savage and unreasonable Turk is forced out of Europe and the allied powers of that country shown that they cannot control the awakened forces of a liberty loving people, there seems to be a prospect of the coming of the end of militarism.

No, this attempt to force our country into line with the worst element of the older nations, to carry us just that far back into the barbarism from which we are beginning to escape, should meet with the earnest disapproval of all who care for that universal brotherhood of man the Christian prays for.

We need to train our boys for service, not for destruction.

Fewer Holidays in Argentine.

By a decree recently issued by the Argentine government four holidays, or feast days, are eliminated from the Argentine calendar. They are February 2, March 25, and the celebration of the feast of Corpus Christi (which this year fell on June 6), June 24 and September 8.

VITAL STATISTICS.

We have received the Bulletin of the State Board of Health. It gives many vital statistics of the counties in the State for the six months ending July 1st. Chilton is credited with: Births, 167; Deaths, 65; Marriages, 110; Divorces, none.

The estimated population of the state for 1912 is 2,199,972; the birth rate 193 per 1000 per annum; Death rate 8.03 per 1000.

The law requiring reports of births, deaths and contagious diseases is not complied with in all counties as carefully as it should be, as these are very imoprtant matters. Every county has a Medical Society which is the county Board of Health, and it is their duty to enforce the law for the collection of vital statistics.

England's Last Tollgate.

The distinction of being the last tollgate in England is now claimed by a gate in the Cambridgeshire Fens, one and a half miles from Chatteris, on the main road to Somersham. The gate stands in the middle of a section of about two hundred yards, once privately owned, and was erected over two hundred years ago. It was eventually purchased by a London company for $10,000.

Rumanian Amazons.

M. Vechiu, the superintendent of a large farm at Busoe, Rumania, was attacked by an army of 50 women, says a Bucharest correspondent. M. Vechiu had refused to allow their cows to graze on his land and to frighten the deputation away he had fired over the heads of the women. Infuriated the milkmaids rushed upon him and it was only by the interventien of some shepherds that he was rescued from their vengeance.

Jack and Bean.

Lord St. Levan owns that romantically beautiful Cornish fastness, St. Michael's Mount. Among other legends St. Michael's Mount is supposed to have been the scene of the fairy tale of "Jack and the Beanstalk," and hence come the nicknames of "Jack" and "Bean" borne by Lord St. Levan and his next brother, Major Edward St. Aubyn.

I HAVE JUST RECEIVED A FRESH car of the same flour I have been handling from the mills. A car of the same shorts and middlings which I have been selling. Remember I have plenty of genuine Texas Red Rust Proof Seed Oats, from Howe, Texas. I will sell Stoves at the lowest price for the balance of this month that they was ever sold in this market. I am over stocked in all kinds. Come in and look at my $25.00 Ranges before you buy.

Remember I keep a full line of everything the farmers need, and all I ask is for a look before you buy. I fully appreciate the trade I have been getting, and is my motto to make such prices that my trade will increase from day to day as it has been doing since I opened business last spring. I guarantee to give my customers exactly what they buy in quality, weights and measure.

LOOK OUT FOR THE RUSH

The prediction that there would be a grand rush for the pie counter in case of the election of a Democratic president is being made good, judging from reports that come to this office. We would like to see sound judgment exercised in making the changes so that we may have officers as good, if not better than the present incumbents. Simply because a man votes the Democratic ticket is no reason why he should be appointed to a federal office. President Wilson has got a character to sustain and he cannot afford to pick up any old political hacks or fossil and put him over the people. In many instances and especially in our congressional district he will do well not to turn the matter over to Congressmen as a part of their political capital.

Mr. Cleveland, during his first experience as president, did not do himself nor the people justice in a number of his appointments. The change is intended to be for the purpose of bringing about better conditions in the country, a more perfect and satisfactory public service and not to reward some individual for the manner in which he cast his vote nor the enthusiasm he manifested in doing so.—Rockford Chronicle.

"Tells the Whole Story." To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops la grippe, coughs and has a healing and soothing effect. Remember the name Foley's Honey and Tar Compound and accept no substitutes
Upchurch Drug Co.

Uncle Pennywise Says.

The latest high building in New York is so high that a man was doing business on the ground floor for two years before they put on the roof.

Rub a sore throat with BALLARD'S SNOW LINIMENT. One or two applications will cure it completely. Price 25c, 50c and $1.00 per bottle. Sold by Upchurch Drug Co.

Making His Opportunity.

A New York banker has made it the rule of his life never to swear except when he drops his watch, as he sometimes does absent-mindedly, and breaks it. Under strong provocation he took out his watch and flung it on the marble floor of his office. So, it seems, when you put your mind on it there is a way to solve every problem.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drug. Safe and always sure. Try them.
Upchurch Drug Co.

English "Hunting Parson."

The Rev. Lawrence Capel Curc, rector of Abbess Roding, whose death is announced, was known throughout West Essex as the "hunting parson." He invariably wore the old-fashioned smock and tall hat and was a familiar figure at the meets of the Essex hounds, which he attended regularly though in his seventy-eighth year.—London Evening Standard.

Poor Rich.

Sometimes poverty consists in just feeding the poor. Half the millionaires in the country don't know how much they are worth.—Atlantic Constitution.

Put a porous plaster on the chest and take a good cough syrup internally if you would treat a severe case of sore lungs properly. Get the dollar size HORE-AOUND SYRUP. With each bottle there is a free HERRICK'S RED PEPPER POROUS PLASTER for the chest Sold by Upchurch Drug Co.

Right Men Always on Hand.

One of the most striking features of the present decade is the miraculous way in which the right people have appeared to meet new needs.—Exchange.

Holds World's Record.

An electric elevator in a New York office building that travels to a height of 585 feet on each trip is believed to hold the world's record.

The Downtrodden Farmer.

An Ottawa man heard that a farmer wanted to sell a motor car. He sympathized with the poor farmer and his family because they were forced to part with the machine for financial reasons, he believed, and went out to the farm to buy it. The farmer was not at home, but his daughter was there. "I came out to buy your car," he said. "Which one?" asked the girl.—Kansas City Star.

The Modern Aesop.

A dog, who was accustomed to overeat, held a piece of meat in his mouth as he crossed a placid stream by means of a plank. Looking in, he saw what he took to be another dog carrying another piece of meat. Snapping greedily to get this as well, he let go the meat that he had and lost it in the stream. As a result his indigestion felt much better all the rest of the day.—Life.

Selfish Philosophy.

"You can be a great hero," said the campaign adviser, "by standing aside and letting someone else have the office you wanted." "Yes," replied the energetic candidate. "But the other fellow will get all the medals and applause. What's the use of being an anonymous hero?"

WHY BE MISERABLE WITH HAY FEVER

A Simple, Safe Remedy Gives Instant Relief, Even in The Worst Cases

Thousands of people are miserable two or three months every Summer with Hay Fever and Rose Cold. They go around sneezing, blowing the nose and wiping their eyes, and at night they are so choked up they can hardly breathe. There is no need of this. Ely's Cream Balm will relieve all these distressing symptoms in less than five minutes' time.

Hay Fever is due to an over sensitive condition of the membrane lining of the nose and throat. Ely's Cream Balm soothes, heals and strengthens this delicate inside skin, so that you not only get instant relief but are also protected against a return of the trouble.

Don't hesitate because you have been disappointed with other remedies. Get a fifty cent bottle of Ely's Cream Balm from your druggist, and if you are not satisfied after a fair trial, get your money back. All druggists sell and recommend it.

The SUITORS OF Mrs. MERRIWID

BY KENNETT HARRIS

MELISSA DOES NOT CARE FOR CALLOW YOUTH.

"You needn't tell me!" said Mrs. Merriwid's maternal maiden aunt Jane, indignantly.

Mrs. Merriwid held back the loose sleeve of her tea gown with one hand while she poured with the other, a movement which displayed the beauties of her arm and hand, literally, to admiration. It was a pity that no one but Aunt Jane was present. At the same time, Mrs. Merriwid's eyes sparkled mischievously and she giggled so that she spilled the tea.

"Very well, dearie," she said, "I won't tell you."

"He needs spanking," declared Aunt Jane, rubbing her nose, as she had a habit of doing when vexed, "and you do too," she added. "Why, he's an infant! And you, you are——"

"Count on your fingers," suggested Mrs. Merriwid. "You won't have to wrinkle up your forehead so much. Or I'll tell you, to save trouble. I'm twenty-eight if I'm a day."

"You're thirty," snapped Aunt Jane, "and he isn't much over twenty."

"But he's large for his age," said Mrs. Merriwid, dimpling. "Six feet and over. And you must admit that I am remarkably well preserved, so that the disparity isn't really so great as it might seem at the first blush. Some of the happiest marriages——"

"Fiddle!" Aunt Jane interrupted. "You know better."

"And he's seen a great deal of the world," Mrs. Merriwid continued, disregarding the interruption. "He says so, himself. He has been, in fact, a bit of a devil, but, of course, that was before he came under my ennobling and refining influence. He finds himself a changed man since that Waring hop. Really, auntie, dear."

"You ought to be ashamed of yourself," said Aunt Jane. "No, I don't want any more sugar in my tea. You're taking advantage of his youth and inexperience to make the poor boy unhappy."

"I make him unhappy!" exclaimed Mrs. Merriwid. "Why, sweetheart, he never knew what happiness was before he met me. It's the delirium of ecstacy—or the ecstacy of delirium—I forget which he said—just to be near me. And the touch of my hand—I can't recall at this moment exactly what the touch of my hand is, but the effect is something fierce, as we used to say in the office. And when you talk of inexperience, well, that is to snigger. He knows women up and down and all around, all the same like a book. He's wise to us, auntie. There aren't any of our little tricks and manners that he isn't, so to speak, hep to. It's positively uncanny, his penetration where women are concerned. That's without any reference to me, of course. I'm not an ordinary woman; I'm an enigma, even to him. He admits that. Dear Teddie!"

"I call it wicked," observed Aunt Jane. "If you were serious, it would be different. It would be bad enough then, but as it is, it's wicked."

Mrs. Merriwid set down the cup of tea she had been sipping and leaned back in her chair and sighed. "I wonder if I'm not serious?" she said. "Why shouldn't I be? Look at it in a reasonable light, auntie. Would it be any disadvantage to him to have a wife who was old enough to have some sense? Suppose he marries some half-fledged brotler, as he probably will in the course of time if I let him go. Well, she'll make him miserable by expecting too much of him, and she'll be miserable herself because he isn't all her fancy painted, and then he'll be more miserable. Now I wouldn't expect anything unreasonably angelic, because I've seen too many men, young and old, to entertain any illusions. Most of them will be fairly decent if a woman treats them decently. That means feeding them properly and keeping up a life-like appearance of cheerfulness. I practiced that on poor dear Henry Merriwid so long that I'm letter-perfect."

"That may be," conceded Aunt Jane. "But if you want a child to raise, why not go to an orphan asylum?"

"I thought we were going to consider this matter seriously," said Mrs. Merriwid. "And from a matrimonial point of view, dearie, I wouldn't have to wipe Teddie's little noty-poty or see that he washed his neck and around his ears, or worry about his habits of climbing trees and going swimming. I might have worries, but not that kind. I'm considering the advantage of marrying a young man. Well, he wouldn't have any murky past, to begin with, and I think I could take care that he wouldn't have any objectionable future, if I undertook its management. Then he would have generous impulses and large enthusiasms. Teddie has. All the freshness and kindness hasn't been knocked out of him. He has fine ideals and ambitions and I think it would be awfully interesting to direct them. Life doesn't mean money grubbing to him. It means poetry and philanthropy and romance and righteousness and music and—moonshine and such. He isn't bald and blasé. He hasn't any rheumatic tendencies or stomach trouble, and as I intimated, he thinks I am something wonderful."

"How do you think it would be in ten years' time when you were going on for fifty and he was hardly more than thirty?" inquired Aunt Jane.

"Auntie!" remonstrated Mrs. Merriwid. "How very catty! If he were hardly thirty, I should be barely forty, but waiving that, I think it would be perfectly lovely. I don't expect to find my faculties failing when I'm going on for fifty, even, and I shall only give up my masseuse and my few simple toilet preparations with the breath of life. Teddie's youth will be an additional incentive to me to keep beautiful. Most women, when their husbands begin to show signs of the sere and yellow, allow themselves to get sloppy and dowdy. That's where I shall have what is vulgarly termed the edge on them."

"Oh, well," sighed Aunt Jane. "If you've decided to make a fool of yourself, I suppose there's no use talking. When is the interesting event to take place, if one may ask?"

"Don't worry, dearie," said Mrs. Merriwid. "I'm not going to marry poor Teddie. He's a sweet boy and he's the only one ever told me that my eyes were pools of limpid light, but he's such an everlasting callow little idiot."

"Then why——" began Aunt Jane in bewilderment.

"Well, dearie, he'll be wiser when I get through with him," said Mrs. Merriwid. "I'm doing him a real kindness."

Held Back the Sleeve of Her Tea Gown While She Poured.

The Modocs.

The Modoc Indians—there were only a few hundred of them—were removed from their old habitat in the Oregon country by the government. Not liking the change, they returned to their old home, and under their able leader, "Captain Jack," defeated the troops sent to expel them in 1873. During the negotiations for a settlement they decoyed the United States commissioners into an ambush (April 11) and massacred General Canby and some forty others. Fighting followed, and the Indians retreated to an almost impregnable position. They were finally surrounded and after a brave resistance surrendered. "Captain Jack" was captured, tried in June, 1873, and executed October 3.

A REAL THANKSGIVING

By DONALD ALLEN.

"IF I was a girl I wouldn't go walking too far," said old Uncle Robert as a girl of 20 passed him on her way down to the gate of the farmhouse.

"And why not?" she asked as she almost came to a pause.

"Well, according to my ideas, it's going to rain and snow and blow and hail, and when the storm does break she's going to be a buster. You live in the city and don't know anything about the storms we have out here. I've seen it when we didn't have a train along for four straight days."

"I wanted to go to the postoffice to mail a letter."

"It's three miles there and back, and if I was you I'd put it off. Mebbe somebody'll be passing that you can send it by. Tomorrer's Thanksgiving, you know, and we are going to have the awfulest, biggest, nicest dinner anybody ever set down to. It's in your honor, you know. There'll be a turkey, a duck and a chicken; there'll be cranberry sass, pumpkin pies, currant jell, sweet cider and apple dumplin's; there'll be——"

"I think I'll just walk a little ways, anyhow," said the girl as she opened the gate and passed down the highway towards the village and the railroad depot.

"And if you come home as wet as a hen don't say I didn't warn ye. It's going to come, and it's going to be a buster."

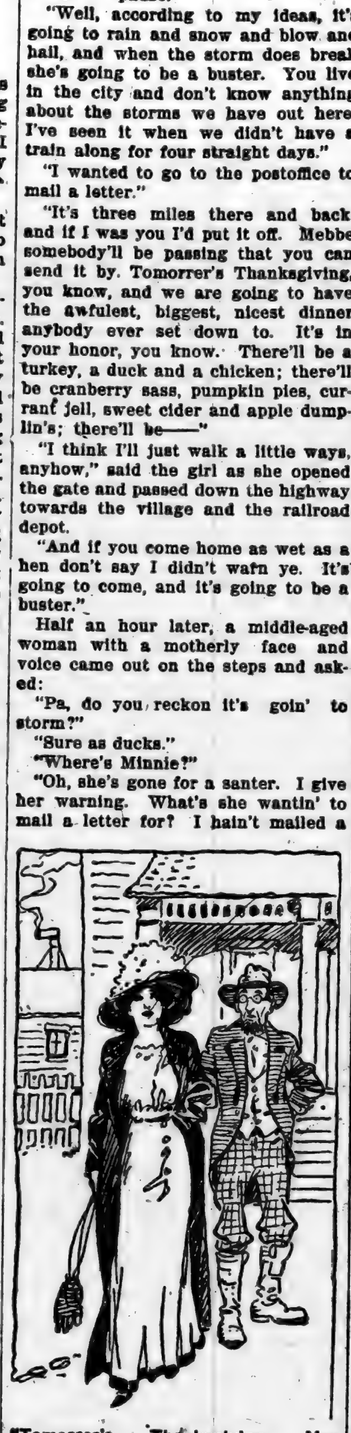
Half an hour later, a middle-aged woman with a motherly face and voice came out on the steps and asked:

"Pa, do you reckon it's goin' to storm?"

"Sure as ducks."

"Where's Minnie?"

"Oh, she's gone for a santer. I give her warning. What's she wantin' to mail a letter for? I hain't mailed a letter nor got one in 20 years, and I guess I'm about as well off as most folks. I was going to ask her but forgot it."



"Tomorrer's Thanksgiving, You Know."

"Don't you ask her a word about it," cautioned the wife as she came down to him. "I guess Minnie's got something on her mind, and it hain't none of your business. I reckon she'll tell me when she gets ready. Leastwise, I hain't goin' to do any pumping."

"Something on her mind, eh? That's funny. Didn't know that girls ever had anything on their minds except new clothes. Is that why she come visiting us all of a sudden?"

"None o' your business! I guess my own sister's daughter can come and see me any time she takes a notion, and that without writing ahead. What's on her mind, as nigh as I can make out, is about a young man. If I don't tell you you'll worry the shirt off your back. Pa, you got to be as poky as an old maid. You can't see a pillar-case flopping on the clothes line but what you want to know all about it. Yes; it's about a young man. They are engaged, and they've had a falling out, and she's sorter run away from him to find out if he really cares for her."

"And she's got scared about it and has written him a letter to tell where she is?" queried the husband.

"Go on! It's probably a letter to her ma, though I didn't see it nor ask. I hope she didn't start for town. It's going to storm for sure, and there hain't but one house on the road where she could find shelter. Look down the road and see if you can see her."

"Can't see hide nor hair of any girl," reported Uncle Robert after going out to the highway and taking a long look.

An hour later, with both uncle and aunt fidgeting about their girl visitor, the black clouds that had been banking up for hours began to advance before a breeze that soon strengthened into a gale. In five minutes the gray afternoon had become twilight. In fifteen there was cold rain and lively hail, and Uncle Robert was blown into the kitchen to exclaim:

"I told her it was going to be a buster, and that she mustn't blame me. I started down the road to meet her, but Lordy what a storm! I couldn't get ten rods if I was to die for it!"

Miss Minnie had reached town and mailed her letter and started back again when the storm broke. Before it came, she thought she could make out a human figure on the road ahead of her, but wasn't sure. The very first gust picked her up and turned her around and deposited her under a roadside tree. She remained there until the gale began to whip the branches off, and then let go her hold and ran for it. There were limbs falling all about her, and the hail-stones peppered her until she ran almost blindly. She hadn't gone a quarter of a mile when, as she crouched and covered her face, she was struck by a flying limb and knew no more.

It was the dim sight of the girl and the scream she uttered when hit, that sent the man who was clinging to the roadside fence back into the highway. He bent over the unconscious form and picked it up and staggered back to the fence and followed it until he saw a light and found the gate of a farmhouse. His lusty calls for help soon brought out a man, and the senseless burden was carried into the house and received by a woman.

"I don't know who she is, but I found her in the road," explained her rescuer. "There is blood on her hair, and I think she was struck down."

"We'll do all we can," replied the man and the woman together, "but you mustn't look for much. We are mighty poor folks. We hain't got no camphor nor whisky, and as for getting a doctor out from town—it can't be done tonight."

The girl was carried into the only bedroom and laid on the only bed, and when her wet clothing had been removed and she was between the sheets, the woman got a cloth and a basin of water and washed away the blood and whispered to the stranger:

"I don't think she's bad hurt. She's just fainted away with the scare of it. When she opens her eyes I'll tell her to go to sleep, and she'll be all right in the morning."

"Do you think it's some young lady from the village?" asked the stranger of the farmer as they talked in whispers in the outer room.

"No, I don't reckon so. I reckon it's that new girl that arrived at Turner's a few days ago. I saw her going towards the village two hours ago."

"Arrived at Turner's! Say, man, are you sure? Is it a strange girl to the neighborhood?"

"I've heard say it was Uncle Bob's niece, and that she come from the city. What ails you, stranger? Does this storm upset you?"

It wasn't the storm. Percy Kincaid had quarreled with the girl he loved and had asked to be his wife. It was about nothing, almost, as most lovers' quarrels are, but pride on either side held off a reconciliation until the lover finally learned that Miss Minnie had gone on a journey and left no word for him. She was going to spend Thanksgiving week in the country. Within two days she had relented; within three he was making every effort to locate her, that he might patch up a peace. He had succeeded. He was going to throw himself on her mercy and ask Uncle Robert for a place at his Thanksgiving table.

The storm grew fiercer as the night advanced. The girl woke and then slept a dreamless sleep, and the lover had long hours in which to ponder and think. When another day came even the cattle could not face the storm nor man move from his door. It was Thanksgiving day. At Uncle Robert's there was a feast to be spread; at Bradley's there was hardly better than poorhouse fare. But the victim of the accident was no longer in bed, and the rescuer no longer cared about the weather, and the farmer folks looked at each other and smiled and whispered:

"Even if we had a turkey and cranberry sauce I don't believe they'd eat a single mouthful. They've just sorter found each other, and are tickled to death."

And when at last they could make their way to Turner's, and Uncle Bob stuttered and Aunt Harriet cried for joy, Miss Minnie asked in a way that was almost heartless:

"Why do you take on so? I never had such a lovely Thanksgiving in all my life!"

(Copyright, 1912, by the McClure Newspaper Syndicate.)

ALL SHOULD GIVE THANKS

Every Life and Every Heart in the Land Has Some Occasion for Gratitude.

In their proclamations designating tomorrow as Thanksgiving day, the president and the governors of states have set forth in dignified and due order reasons why the people of this country should give thanks.

But every life and every heart in all the land has some occasion for special utterance of gratitude. Formal, official proclamations from the highest executive authorities may furnish suggestions for equally formal prayers in churches tomorrow, prayers in acknowledgment of divine favors received by us as a people and as individuals.

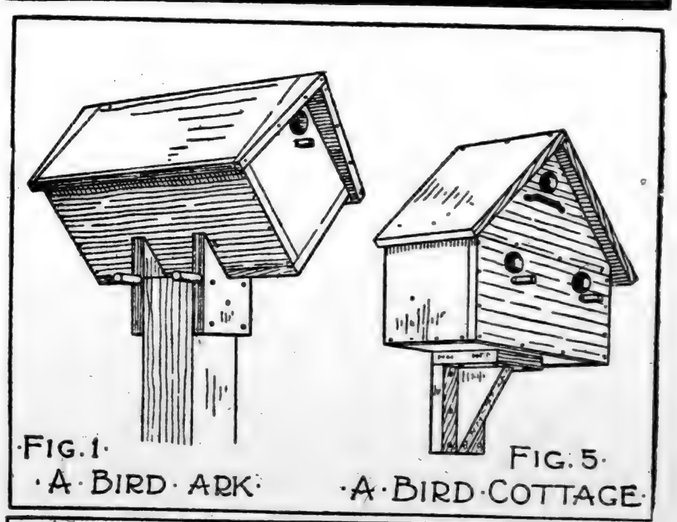
Cruden condenses the teachings of New Testament writers into his definition of thanksgiving: "An acknowledging and confessing, with gladness, the benefits and mercies which God bestows either upon ourselves or others."

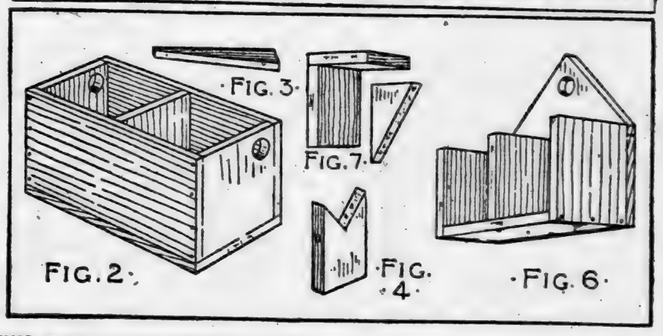
As "every heart knoweth its own sorrow," so every life knows its own occasion for gratitude. And no heart has so great sorrow and no life so sad mourning but reason for thanksgiving is manifested in just those "benefits and mercies."

BOYS' HANDICRAFT

By A. NEELY HALL

Author of "Handicraft for Handy Boys" and "The Boy Craftsman"





TWO EASILY MADE BIRD HOUSES.

It is a simple matter to induce the birds to build their nests near our homes if we but provide suitable shelters. These must be so situated that the birds will not only have ample protection from cats and other bird enemies, but have the feeing of security, and of course the houses must be firmly fastened so they will weather the severest of storms. If you have a back yard, the problem of finding secluded locations is an easy one, and a garden near by that will furnish seeds and insects, and a fresh supply of water for drink and bath are additional inducements which will make your chances of securing bird tenants almost certain.

A common box, properly arranged, is just as much of an attraction to birds as a house on which a large amount of time has been spent in working out ornamental roofs, steeples and doorways, but of course for the sake of appearances, a house should be of a neat design and be carefully built.

The bird ark shown in Fig. 1 is one of the simplest houses a boy can make. A starch box, or a box of about the same proportions, should be used for this. Partition off the inside of the box into two compartments, as shown in Fig. 2, and bore a hole through each end, near one corner, for doorways. Then nail the cover boards to the box. You will notice that the box is mounted cornerwise upon its support; this is done so the adjacent sides of the box will form a pitched roof that will shed water readily. The eaves of the roof are formed by nailing strips of the length of the roof boards to their edges, and for the projections over the ends four strips should be cut similar to that shown in Fig. 3, and nailed to the end edges of the roof boards.

If you support the house upon the top of a post, prepare two blocks with right-angled "bird's mouth" cuts in them (Fig. 4), and nail these to the sides of the post. Then fasten the box to the blocks. Drive a short peg into a hole bored below each end doorway, for a perch stick.

To prevent cats and squirrels from reaching the ark, a wide, projecting collar of tin or sheet iron should be fastened around the post one foot or so below the top.

The bird cottage shown in Fig. 5 contains three compartments. The lower portion may be made out of a box of about the size used for the ark, but better results will be obtained by building the entire house. Box boards will be good enough material. Divide the lower story of the cottage through the center, as in Fig. 6, and fasten the second story floor to the top of the partition and side walls. Cut the roof boards of the proper lengths and widths to form projections at the eaves and over the front, and after nailing them to the side walls of the house, cut the gable-end boards to fit between the roof boards and fasten them in place.

Cut the doorways in the positions indicated in Fig. 5, and fasten a perch beneath each. Instead of pegs, window-sash "lifts," drawer "pulls," screw-eyes, and many other small pieces of hardware may be used for perches.

The bracket support for this house is easy to make, as you will see by Figs. 5 and 7, and on account of the wide projection of the top and back members, over the triangular piece, it can be screwed or nailed to both the under side of the house and to the wall, thus providing a very strong means of fastening.

Do not paint the inside of your bird houses, but give the outside a couple of coats of green paint of about the shade generally used for flower boxes.

GREAT CROWDS AT BLACKPOOL

Multitude That Flocked to English Seaside Resort Impressed W. D. Howells, Veteran Traveler as He Was Acknowledged.

"Whenever we said we were going to Blackpool," writes W. D. Howels in the Atlantic, "it seemed to fill our English friends with surprise and pleasure. They asked why we were going to Blackpool, and when we tried to say they laughed the more.

"We were, in fact, so high in the social scale through our friendships that we might never have heard of Blackpool if it had not been for one of the most liberal of our acquaintances who had noted some years before our interest in the popular crowd at Llandudno, and told us we ought to see Blackpool.

"He tried to enlighten our dense superiority by explaining that Blackpool was the seaside resort beyond Liverpool of the whole cotton spinning and iron casting country, and that masters and men alike thronged it in the season, and masters lavished their gains and the men their earnings in one mad month or wild week of unstinted gayety.

"Before this in writing of English things I have had occasion to intimate that many of them afforded exercise for that modesty which is always really the heart of American brag. Whether the scale in England is so small generally that any variation from it seems prodigious or whether the things are really great, I am not ready to say, but in that little island there are certainly things that impress one as great.

"London, for example, unquestionably outdoes any city of ours. New York is a large town, but New York, except for her high grade of intelligence, could easily be lost in London. The only thing in which we excel England beyond parallel and peradventure is the spectacular purity of our municipal administrations and our freedom from graft in civic affairs.

"If you come, however, to something like the crowd on the promenade at Blackpool, you have several other English crowds to compare it with. You have the crowds at Folkestone, at Margate, at Brighton, which, although they are vastly smaller, are so much larger than any American seaside crowds that there is no talking in the same breath except of Atlantic City alone at Easter time.

"If you are there then, at that point where the myriads of the Board Walk thicken for a conscious moment under the eye of the camera scanning it for a postal card photograph, you can have some notion of the crowd forever writhing, forever worming, squirming up and down at Blackpool.

"Dreadful enough to look at, the mammoth mass became terrible when you fused yourself in its bulk. It seemed the same in bulk by night and by day; it must have slept some time, perhaps not in bulk but in detail, each atom that sank away to slumber replaced by another atom fresh for the vigil; of if it slept in bulk it was in some somnambulent sort, with the sense of a bad dream, a writhing and twisting nightmare.

"It was always awful to look upon, but awfullest at high noon, when it had swollen to its hugest and was imaginably famishing for lunch with the hunger of some consuming insect horde. Possibly I am exaggerating in the impression I am trying to give of the Blackpool crowd. Doubtless any happy couple, near wed or newly wed, of those that abounded in the mass could prove me grotesquely mistaken, if not wilfully false. They could say that they had the time of their lives that day at Blackpool and could ask nothing better than to repeat their transport."

Date of Start of Bad Habit.

The smoke habit started in England in 1702.

Holds World's Record.
Electric elevator in a New York building that travels to a height of feet on each trip is believed the world's record.

The Downtrodden Farmer.
Ottawa man heard that a farmwanted to sell a motor car. He sympathized with the poor farmer his family because they were to part with the machine for financial reasons, he believed, and went to the farm to buy it. The was not at home, but his daughter was there. "I came out to buy car," he said. "Which one?" the girl.—Kansas City Star.

The Modern Aesop.
who was accustomed to overheld a piece of meat in his mouth crossed a placid stream by of a plank. Looking in, he what he took to be another dog another piece of meat. Snapgreedily to get this as well, he the meat that he had and lost the stream. As a result his indigestion felt much better all the rest day.—Life.

Selfish Philosophy.
"You can be a great hero," said the sign adviser, "by standing aside letting someone else have the office you wanted." "Yes," replied the political candidate. "But the other will get all the medals and applause. What's the use of being an anonymous hero?"

MAY BE MISERABLE WITH HAY FEVER

Simple, Safe Remedy Gives Instant Relief, Even in The Worst Cases

Thousands of people are miserable two or three months every Summer Hay Fever and Rose Cold. They around sneezing, blowing the nose, wiping their eyes, and at night they so choked up they can hardly the. There is no need of this. Ely's am Balm will relieve all these distressing symptoms in less than five utes' time.

Hay Fever is due to an over sensitive dition of the membrane lining of the and throat. Ely's Cream Balm hes, heals and strengthens this delinside skin, so that you not only instant relief but are also protected inst a return of the trouble.

Don't hesitate because you have disappointed with other remedies. Get a fifty cent bottle of Cream Balm from your druggist, if you are not satisfied after trial, get your money back. druggists sell and recommend it.

NEWS BRIEFLY TOLD

A CONDENSED RECORD OF EVENTS OF THE WEEK.

SEVEN DAYS' NEWS AT A GLANCE

Important Happenings in All Parts of the World Summarized for the Busy Reader.

Southern.

Melvin Dodson and Luther Roberts of Van Buren county, Tennessee, alleged to be members of a powerful gang of moonshiners, which, some months ago, fought a desperate battle with revenue officers were taken to Nashville and placed in jail. They were indicted at the recent session of Federal court at Cookeville for attempting to assassinate G. S. Marsh, a posseman. Both men were held in the sum of $10,000 to answer to the next term of Federal court.

Catapulted into the air from the tonneau of an automobile and hurled underneath the tracks of a trolley car when it collided with her husband's machine directly in the front of their home, Mrs. Bessie Lyle and her two-year-old daughter, Margaret, were killed, as they started on a pleasure trip from Atlanta to Athens, Ga. Her husband, W. Richard Lyle, who was at the steering wheel of the fatal auto, and their other daughter, Olivia, who sat beside her father upon the front seat, escaped unhurt. The machine is almost a complete wreck.

Documents found in the possession of Lieut. Fred D. Mannerfelt, who committed suicide at a Tampa, Fla., hotel by shooting himself through the heart, identify him as the son of Maj. F. Mannerfelt of the personal staff of King Oscar of Sweden.

Lieut. Col. Joseph C. Gibson, in charge of the troops which hanged John Brown at Harper's Ferry, is dead at his plantation at Verbena, Ala, aged 79 year.

William O. Neff, one of the jurors who sentenced to long imprisonment a member of the Allen clan, is near death at Rural Retreat, Va. It is thought that he tried to take his own life.

Donald C. Livingston, a conductor on the Tampa-Sarasota branch of the A. C. L., was shot and killed by his wife. Mrs. Livingston stated that her husband went to his home in Tampa, Fla., and abused her all day. She says she sought safety in her room, when he forced the door, and commenced beating her. She seized a pistol, she stated, which was in his hip pocket, and shot him. She fired four times.

General.

One woman was fatally injured and a score of women and men seriously burned or bruised when an overturned lamp set fire to a building in which the Holiness church, sometimes known as the "Holy Jumpers" was holding its annual convention in Durham, N. C. A panic followed. Mrs. Iud Pope, one of the many who jumped from the second story windows, is expected to die. Some delegates were burned as they fought their way out of the building, and others were injured by falling glass and timbers.

The fourth annual convention of the Federation of Jewish Farmers of America opened in New York City with delegates in attendance representing fifty societies scattered over seven states. All the problems confronting the 1,000 Jewish farmers in the Eastern States will be discussed. Supreme Court Justice Samuel Greenbaum, president of the educational alliance, welcomed the delegates. He congratulated them for returning to the occupation of their forefathers.

Augustin Max, known throughout France as the "Blind Banker of Paris," has confessed that he misappropriated two million dollars of his clients' money.

Gov. Woodrow Wilson has announced that immediately after his inauguration as president of the United States he will call an extraordinary session of congress to convene not later than April 15 for the purpose of revising the tariff.

Convicts of the Illinois state penitentiary who have been paroled but who cannot be freed because they have not secured jobs have hit upon the unique plan of advertising for work through the want columns of the Chicago papers. The plan is working out very successfully.

While selecting a coffin for his wife, who died at Raleigh, N. C., George Newton, aged 65, was crushed when a show case containing half a dozen caskets fell upon him. Physicians say he will die.

Another gang of motor car bandits is operating in the outlying districts of Paris, France.

Unknown yeggmen looted the vault of the Kingston, Tenn., Bank and Trust company, escaping with about $1,000 in gold and silver, $60 in currency and several hundred dollars' worth of stamps and other postoffice supplies.

The Turkish fortress of Monastir has surrendered to the Servians. Fifty thousand Turkish soldiers and three generals laid down their arms. Monastir had virtually been surrounded by the Servian troops for some time, while Greek troops, coming from the south, had cut off the Turkish line of retreat to Ochrida. With cholera and typhus raging within her demoralized army, and a powerful enemy hammering at her gates, Turkey again appeals to the allies for terms. Monastir is the second city of importance in European Turkey. It was Turkey's stronghold in Macedonia, and by its downfall Macedonia passes completely out of Turkish hands.

The Mexican government is determined to carry out the threat recently made to resume the tactics employed so successfully by General Robles in the sttae of Morelos. This is indicated by the report of the war department announcing the total destruction of several towns and villages in the northern mountains of Oaxaca, where the revolution has been rampant. Two of the places destroyed were the strongholds of the Zerrano Indians. Convinced that the inhabitants of these towns were completely in accord with the rebels, orders were issued for their destruction. Without even calling upon the inhabitants to withdraw, the artillery began its work and ceased only when the towns had been reduced to a mass of ruins.

The storm which struck sections of Jamaica in the West Indies indicate that great damage has been done. Banana planters seem to be the heaviest losers, although railway and telegraph properties also have suffered greatly. Telegraph and railroad communication generally is demoralized, making it difficult to estimate the exact state of affairs in parts of the island. Reports say a hurricane passed over the northwest coast of Jamaica in the direction of Cuba.

With his head battered up, unconscious and in a dying condition and with his clothes saturated in kerosene oil nad his body partly cremated, P. A. High, identified as a railroad employee of Durham, was found in Yogan Greene's place on West Lenoir street, Raleigh, N. C. The man died a few hours later at Rex hospital without regaining consciousness. High was about 30 years old and his murderer, Logan Greene, negro, gave his age as 77 years.

Parental admonition resulted in the death of Ralph Conner, aged 11. The boy and his brother, McKinley, aged 14, were going nutting. The father urged the older boy to take a gun with them to be used in case they should meet a mad dog that had been terrorizing the neighborhood. The boys had filled up their sacks, and McKinley had picked up the gun to start home, when it was discharged, the contents striking the younger brother in the neck. He died in 30 minutes.

That the Turkish porte has entered into direct negotiations with Bulgaria for an armistice is confirmed. Nazim Pasha, the Turkish commander-in-chief, has received instructions to open communication with the Bulgarian generals, and he has sent an envoy to the Bulgarian headquarters.

What is practically a general strike in Russia has been declared by St. Petersburg factories and workshops in protest against the recent sentencing to death of seventeen sailors of the Black Sea fleet for instigating mutinies. Demonstrations were stopped by the police and many arrests have been made.

John Schrank pleaded guilty of attempting to murder Theodore Roosevelt, and in his plea he sought to distinguish between an assault on Roosevelt as a "menace" and an attack on Roosevelt as a citizen.

Washington.

One of the most important moves in recent years to prepare the national militia for use in time of war is proposed in letters addressed by Acting Secretary Oliver to governors of all the states and territories, inviting their co-operation in the war college plans for the organization of the militia into sixteen tactical divisions. The letters point out that if the militia is to be used as a field force effectively in war time, it can only be done by this system of divisions and that to insure the proper working of the plan all of the details should be worked out in time of peace.

President Taft has issued a proclamation fixing the rates that the foreign shipping of the world shall pay for passage through the Panama canal. The proclamation made under the authority of the canal act, passed by congress in August, establishes a merchant vessel rate of $1.20 per ton of actual carrying capacity, with a reduction of 40 per cent. on ships in ballast. American coastwise shipping was exempted from toll payment by congress. It was to this provision of the act that Great Britain diplomatically protested. No reference to the incident was made in the presidents proclamation.

The opening attack upon the constitutionality of the sections of the recent postal appropriation act requiring newspapers to give postal authorities access to their circulation records and to publish the names of their stockholders and bondholders, as well as to label political articles as advertisements, was made before the United States Supreme court in a printed brief filed by Robert G. Morris and G. B. Plante on behalf of the Journal of Commerce and Commercial Bulletin of New York City. The case is set for argument orally on December 2 in Washington, D. C.

THIEVES AT BAY DO DEADLY WORK

MAN AND WOMAN, SUSPECTED THIEVES, SPREAD DEATH.

CORNSRED IN A HOTEL ROOM

Four Victims May Die. Three Detectives and Two Employes of New York Hotel Get Bullets from Automatic Revolver.

New York—A man and a woman stood in a small room of a Raine's Law hotel in the Bronx and deliberately shot down three detectives and two other men who were trying to place the pair under arrest. After nearly emptying the eleven chambers of a large automatic revolver, reinforced by shots from an ordinary revolver, in the hands of his woman companion, and probably fatally wounding four of those whom he shot down, the man shot and killed the woman and then put a bullet through his own head, dying instantly.

The dead man was known by several names, having registered at the hotel as Joseph Vogel. The police declare that he was a Pole, named Pheres Dorogieskid. The woman with him had registered as Lottie Vogel. Vogel was about 48 years old and the woman about 25.

The detectives were on the trail of the pair, suspecting them of having been accomplices in a diamond robbery for which Sophie Beckendorf, a domestic, Central Office Detective Martin F. Fay and Private Detectives John Allen and Louis Gerade went to the hotel in search of their quarry. Louis Mondschein, the proprietor, told of the couple having arrived in a taxicab early in the evening, and ordered William Butler, a waiter, to show the detectives to the Vogel's room.

Vogel opened the door in response to a summons, and as Allen forced his way in, declaring that the couple were under arrest, Vogel struck the detective over the head with a black jack and then grasped a magazine pistol which lay upon the bed. His first bullet struck Allen in the head and he fell, probably fatally hurt.

Detectives Fay and Gerada rushed into the room, followed by Proprietor Mondschein and Butler. It is declared that they did not fire a shot, but expected to seize Allen's assassin. They were not quick enough. Vogel let go one shot after another, nearly every one taking effect. Fay and Mondschein both received probably fatal wounds in the abdomen. Gerada was shot in the leg and back, and Butler received a bad wound in the hip.

The woman, also armed, had fired several shots, some of which, it is believed, hit the detectives.

Evidently crazed at his gun work, Vogel turned to his woman companion and shot. She was shot through the abdomen and soon expired. Vogel made quick work of himself by putting the last bullet from his gun into his head and fell dead.

WANTS LINCOLN'S PICTURE

Texas Governor Demands That It Be Put in Text Books.

Austin, Tex.—"I would rather resign the governor's office of Texas," said Governor O. B. Colquitt, in a statement issued, "than to have my children studying a text book in our schools without Abe Lincoln's picture in it, and I am the son of a Confederate soldier, too."

The state text book board has been charged with a move to eliminate Lincoln's picture from a history. Governor Colquitt denied absolutely that any member of the board had made any such suggestion.

RIVERS AND HARBORS MEET

Three Days' Convention Opens in Washington December 4.

Washington.—The ninth annual convention of the national rivers and harbors cogress, which meets in this city on Dec. 4, to continue in session three days, gives abundant promise of being the most largely attended convention this association has had since its reorganization at the old Arlington a decade ago.

President Taft will deliver the opening address, and he is expected to still further emphasize his position looking to a broad and statesmanlike policy by the national government in the treatment of the waterways of the country to the end that all streams susceptible of navigation may be made navigable.

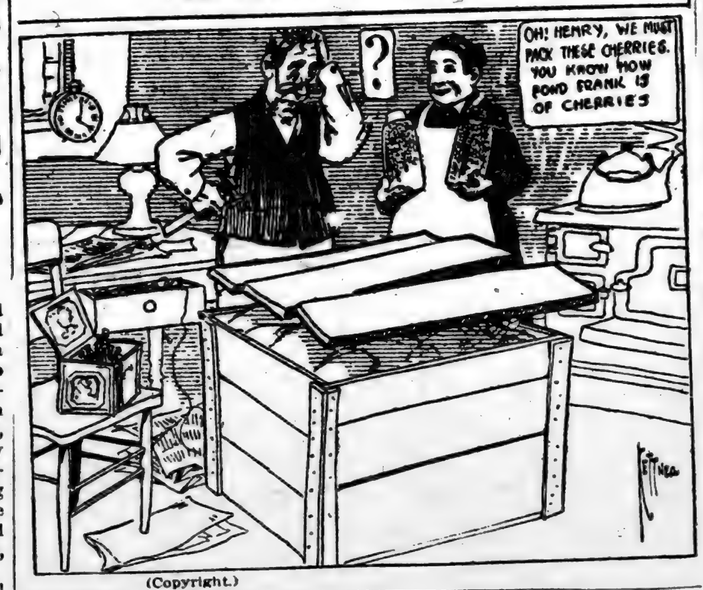
Bath Tub Trust Invalid.

Washington.—In an epoch-making decision in the so-called "bath tub trust" case, the supreme court laid down the broad principle that there can be no monopoly in the unpatented product of a patented machine without violating the Sherman anti-trust law. Justice McKenna delivered the unanimous opinion of the court. In accordance with this doctrine, the court struck down as illegal the "license agreements," by which manufacturers of the sanitary enameled iron in the United States were bound together in combination.

American Negroes Attacked.

Vancouver, B. C.—A cable from Melbourne, Australia, says the police were called out to protect an American negro minstrel troupe on the streets. A crowd had assembled because the negroes were seen walking with a white woman, and only the prompt arrival of the police prevented an attack. It is reported that the government may take steps to have the minstrels deported, as the feeling against negroes here is intense because of the Jack Johnson episode in Chicago.

FOR THE FOLKS IN TOWN



(Copyright.)

WREATH STATUES OF GRANT AND LEE

UNITED DAUGHTERS OF CONFEDERACY VISIT THE CAPITOL.

NEW PLAN FOR MONTICELLO

Mrs. Walke, Custodian of Flags, Proposes That Home of Jefferson Should Pass to State of Virginia.

Washington.—Wreaths of flowers were laid at the foot of the statues of Ulysses S. Grant and Robert E. Lee in the capitol by direction of the United Daughters of the Confederacy, who held their convention here.

A sentiment developed during the convention among the Virginia delegation of the United Daughters of the Confederacy, that the home of Jefferson should pass into the hands of the state of Virginia, instead of the national government, as so persistently advocated by Mrs. Martin W. Littleton, wife of Representative Littleton of New York.

Mrs. Frank Anthony Walke, custodian of flags and pennants of the U. D. C., is the leader of the movement to have Monticello taken over by the state of Virginia. It is a fact, however, and admitted by Mrs. Walke, that a great majority of the Virginia delegation has signed the petition of Mrs. Littleton and that thus most of the Virginia delegation is committed. Nearly all of the 600 in the Virginia delegation have signed for Mrs. Littleton, and among these signers is Mrs. A. J. Compbell, president of the state delegation. Mrs. Walke admits that her opposition is based in part upon the failure of Mrs. Littleton to meet her in Washington last winter to appear before a congressional committee on the subject.

HE STRANGLED LITTLE BOYS

Maniac Makes Confession by Postcards to the Police.

Lackawanna, N. Y.—Confession to at least three murders and admission that there are "still more" is the startling disclosure contained in postal cards from a modern "Dr. Jekyll and Mr. Hyde," the murderer of six-year-old Joseph Josephs, received by the police. The murder of the Josephs boy, whose entire body in decomposed fragments, was found in a cesspool near his home in Lackawanna, N. Y., after a search of over a year, is believed by the police to be but one of a long series of similar crimes committed throughout the country by the man who, according to his own confession, has an irresistible mania for killing boys. Gruesome discovery was made by following the minute instructions contained in the cards.

Kills Brother.

Mount Vernon, Ind.—Parental admonition resulted in the death of Ralph Couner, aged 11. The boy and his brother, McKinley, aged 14, were going nutting. The father urged the older boy to take a gun with them to be used in case they should meet a mad dog that had been terrorizing the neighborhood. The boys had filled their sacks and McKinley had picked up the gun to start home, when it was discharged, the contents striking the younger brother in the neck. He died in thirty minutes.

Quarrels, Jumps in River.

New York.—After a quarrel with her fiance, Charlotte F. Westland, a young widow, committed suicide by plunging 150 feet into the East river from the Manhattan bridge. According to Thomas D. Jackemo, whose report the police credit, he had prevented the young woman from jumping in front of a subway train a few hours earlier. They were walking across the big bridge when she ran to the roadway, clambered over the guard rail and dived to the river.

Gardner May Be in Cabinet.

Washington.—One cabinet place at least, it is confidently asserted by "knowing ones," has been prospectively filled. They say it is safe to predict that the next secretary of agriculture will be Obediah Gardner, of Maine, senator from that state, who was appointed by the governor to succeed the late Senator Frye. Mr. Gardner is one of the leading farmers of New England and a great favorite in agricultural circles, having been for ten years master of the Maine state grange.

WILSON ANNOUNCES AN EXTRA SESSION

SAYS BUSINESS SHOULD KNOW TARIFF PLANS AT ONCE.

WILL REDEEM HIS PLEDGES

Simultaneously With the Announcement President-Elect Wilson Made Statement That He Will Sail For Bermuda.

New York.—"I shall call congress together in extraordinary session not later than April 15. I shall do this only because I think the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible."—Woodrow Wilson.

As he issued his statement the president-elect remarked:

"The list of members of congress and prominent Democrats throughout the country who had expressed themselves on the subject showed that the sentiment in favor of calling an extra session was widespread—I might say almost unanimous. The extra session will have the advantage of giving us an early start towards effecting the reforms to which the Democratic party is pledged."

The president-elect gave out his statement before embarking on his vacation for two reasons. First, as declared in his statement, he desired to remove any uncertainty that might be injurious to the business interests of the country. The second reason was purely selfish, as he himself remarked. He wants to spend his vacation in quiet and peace. He realized, he said, that unless the question was settled at this time he would be besieged continually for a definite statement on the subject.

Simultaneously with the issuance of his statement, the president-elect gave permission to say that he is to spend his vacation in Bermuda.

EGGS BRINGING 72 CENTS

New Fall Brands Establish High Record. May Go Still Higher.

New York.—Fancy brands of fresh eggs made a new high fall record when they sold for 72 cents a dozen. They will go still higher before the month is over, dealers said.

As against 60 cents a dozen wholesale for nearly fresh eggs, Western fresh eggs are selling here wholesale at 38 to 41 cents a dozen and first-class storage eggs are literally going a-begging at 24 cents a dozen. Under the new law the dealers are obliged to label storage eggs, and housewives who can afford to pay the higher prices usually refuse to purchase the storage variety.

Unless customers change their minds the egg speculators of New York stand to lose from $500,000 to $1,000,000 in prospective profits between now and next spring on storage eggs.

Bachelors Prey to Insanity.

Washington.—Insanity seizes upon the bachelor with greater ease than upon the benedict, despite the worry the latter is supposed to undergo, according to the report of the government hospital for the insane.

WOMEN DRINKING MORE

Men Growing More Temperate at Washington, Says Attorney.

Washington.—Women, and especially young girls, are rapidly becoming more and more addicted to intoxicating liquor in the national capital, while the men are rapidly growing more abstemious, according to Albert E. Shoemaker, attorney for the Anti-Saloon League of the District of Columbia. His action has aroused women generally here and it is a subject of agitated discussion.

Heroes Must Hurry

Pittsburgh, Pa.—The Carnegie hero fund commission, it was announced, has placed restrictions on the time following an act of heroism when the hero may be rewarded for his deed. Heretofore the only restriction was that the act be performed since the commission was established in 1904. Effective Jan. 1 next, no act of heroism will be considered by the commission unless it has been performed within three years of the date on which application for recognition is made.

FEARING ROBBERY GIRL KILLS MOTHER

TRAGEDY OCCURS ON SPEEDING PENNSYLVANIA TRAIN.

FIRED WHILE HALF ASLEEP

Girl, Who Was in Berth, Killed Mother as She Entered—Was on Way to New York to Purchase Trousseau.

Philadelphia.— Mrs. J. Rape Myers, was shot by her daughter, Gladys Elizabeth Myers, in mistake for a robber, in a sleeping car on a Pennsylvania railroad train bound for New York. She died a short time later in a Trenton, N. J., hospital.

Miss Myers was on the way to New York to purchase a trousseau for her coming wedding to J. Blair Dillard of Salem, Va. She had a casket of jewels which she was taking to New York to have repaired and matched and when she heard her mother re-entering their section after Mrs. Myers had gone for a few minutes to the dressing room, she took her revolver from under her pillow and fired, thinking a burglar was after the gems. She was half awake at the time.

Miss Myers made the following statement:

"I was awakened by my mother, who informed me that she was going to the wash room and while she was absent I dozed off asleep. I was suddenly awakened from my sleep by seeing the curtain parted and some one crawling into the berth. I always sleep with a revolver under my pillow and knowing that the porter had seen my jewelry, I pulled the revolver from under the pillow and fired and was horrified to hear my mother scream and see her stagger into the smoker, where I found her."

FIXES RATES FOR CANAL

Foreign Shipping Must Pay $1.20 Per Net Ton.

Washington.—President Taft issued a proclamation fixing the rates that the foreign shipping of the world shall pay for pasage through the Panama canal. The proclamation, made under authority of the canal act passed by congress in August, estblishes a merchant vessel rate of $1.20 per net ton of actual carrying capacity, with a reduction of 40 per cent on ships in ballast.

The provisions of the proclamation are as follows:

"1—On merchant vessels acrrying passengers or cargo, $1.20 per net vessel ton—each 100 cubic feet—of actual earning capacity.

"2—On vessels in ballast, without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.

"3—Upon naval vessels, other than transports, colliers, hospital ships and supply ships, 50 cents per displacement ton.

"4—Upon army and navy transports, colliers, hospital ships and supply ships, $1.20 per net ton, the vessels to be measured by the same rules as are employed in determining the net tounage of merchant vessels."

Cannot Control Rates.

Atlanta, Ga.—The state of Georgia cannot control freight rates to be charged by the Western & Atlantic railroad, which is owned by the state, on traffic between Georgia points and Chattanooga, according to a decision by the state supreme court here.

After New York Central.

Chicago.—The federal grand jury has started an investigation with the object of seeking indictments against the New York Central Railroad Company and an Illinois mining corporation on charges of extensive rebating.

Bryan in the Running.

Pittsburg.—William Jennings Bryan, the Democratic "Commoner," has been put forward by his church brethren of Nebraska as a candidate for moderator of the general Presbyterian assembly in 1913.

Col. Gibson Does.

Montgomery, Ala.—Lieut. Col. Joseph C. Gibson, in charge of the troops which hanged John Brown for treason at Harper's Ferry, is dead at his plantation at Verbena, Ala.

Disorder in Commons.

London.—As the house of commons was being peremptorily adjourned after scenes of wild confusion following the attempt of Premier Asquith to rescind the vote taken last Monday on an amendment to the home rule bill by which the government sustained a defeat, a book thrown by one of the opposition members struck Winston Churchill, first lord of the admiralty, full in the face. Mr. Churchill was slightly stunned, but otherwise unhurt, although the force of the book left a spot on his cheek.

Foley Succeeds Park.

Chicago.—Announcement is made of the appointment of Thomas J. Foley as general manager of the Illinois Central railroad. Mr. Foley has been assistant general manager of the company for several years and succeeds W. L. Park as general manager.

Negro Murders Two.

Ocala, Fla.—J. T. Bergens, an aged farmer living near here, and his 15-year-old adopted daughter were murdered near their home by a negro.

GUNMEN FOUND GUILTY OF MURDER

JURY REACHED VERDICT AFTER SHORT DELIBERATION UPON RECEIVING CHARGE.

OUT LITTLE OVER AN HOUR

"Gunmen" Heard Verdict With Faces Unmoved—The Exception Was "Whitey Lewis."

New York.—"Gyp the Blood," "Lefty Louie," "Whitey Lewis" and Cirofici, alias "Dago Frank," the gunmen charged with killing Herman Rosenthal, were found guilty of murder in the first degree by a jury in the supreme court. The jury deliberated only an hour and 10 minutes. The verdict was a surprise to everybody. The jury in the case of Charles Becker deliberated for nearly seven hours before reaching a verdict. He is now in Sing Sing sentenced to the electric chair for having instigated the crime.

The "gunmen" heard the verdict with faces unmoved. The exception was Lewis who walked out with his head bowed.

3 PERISH WHEN HOTEL BURNS

Guests in Los Angeles House Leap From Fifth and Sixth Stories—Many Acts of Heroism.

Los Angeles, Cal.—Three persons were killed and at least 20 persons were injured in a fire on Third street near Main street in a hotel. The fire started on the second floor. With the draft from the elevator shaft it spread so rapidly that those on the fifth and sixth floors who did not receive the warning were compelled to jump from the windows.

The known dead are: Mrs. Charlotte Harrington, Mrs. Ella Moran, Joseph Martin, jewelry clerk, of Los Angeles.

Twenty or more owe their lives to the heroism of Oscar Jones, who ran the single elevator of the hotel. He continued to operate the elevator with the small car packed with humanity until flames and smoke made further trips impossible.

SIX ARE KILLED IN WRECK

Through Trains Collide at Granite, N. C.—Two Engineers, Two Firemen, and Express Messenger Dead.

Richmond, Va.—Six persons are known to be dead and many are injured as the result of a head-on collision near Granite, N. C., between the north and south-bound Florida-Cuba special trains on the Seaboard Air Line railway. Telegraph wires were torn down and communication destroyed.

The dead are: C. H. Beckham, engineer, Raleigh, N. C.; W. I. Fayson, engineer, Raleigh, N. C.; R. J. Gr— negro fireman; James Ruffin, negro fireman; O. V. Priddy, express messenger, Boykins, Va., and Express Messenger King.

Many of the passengers of both trains were injured. Conductor W. R. Tilgman and G. G. Shannonhouse, both of Richmond, are reported injured badly.

BANDITS HOLD UP TRAIN

Almost Every Person on Board Forced to Hand Over Money and Jewelry.

Ottumwa, Iowa.—The Southwest limited pasenger train on the Chicago, Milwaukee and St. Paul was held up by bandits between Ottumwa and Mystic. The passengers were robbed and were compelled to keep their hands up. Covering their retreat with weapons the robbers fled from the train at a way station.

The train was No. 12, running between Mystic and Ottumwa. The men obtained loot amounting to about $350.

SCHRANK INSANE.

May Remain in Asylum For Life Unless Shown to Have Recovered.

Milwaukee.—A commission of five alienists reported to Judge Backus, finding John Schrank, who shot ex-President Theodore Roosevelt, insane. The alienists' decision was unanimous. It means that Schrank cannot be tried for the attempted murder of Colonel Roosevelt. He will be committed to the Northern Hospital for the Insane at Oshkosh.

TURKEY SUING FOR PEACE.

Constantinople.—The porte will appoint plenipotentiaries to meet the Bulgarian plenipotentiaries with regard to an armistice.

An official note issued says that the Bulgarian government has replied to the Porte's recent communication respecting an armistice and that Bulgaria is ready to enter into relations with the Ottoman plenipotentiaries with a view to the conclusion of an armistice, and to discuss conditions of peace.

COTTON YARNS ARE HIGHER

Business Continues to Expand Despite War.

New York.—R. G. Dun & Co.'s weekly trade review says:

Business continues to expand unchecked by the Balkan war with its European complications. The domestic and foreign demand for iron and steel products is even larger than before, breaking all records. The railroads are making every effort to move promptly the tremendous traffic of the country, and at the same time are making due preparations for the requirements of the future. There are also signs of preparation for the opening of the Panama canal.

Evidence of the expansion in iron and steel was furnished by the increase of over 1,000,000 tons in the unfilled orders of the leading interests in October. This gain may be attributed in part to the steady development of new export business. Labor is now plentiful, but the steel mills are not operating quite up to the high rate maintained last month. Crude steel production has reached the maximum and there is still a scarcity of material with premiums asked for the small lots available in the heavies Pittsburg plants are booked to capacity for three-quarters of year ahead, and railroad contracts this week total about 1,000 tons. Orders for close to 44,000 cars are pending.

Increased orders for pig iron have been placed and quotations are firm with only moderate tonnage visible for deliveries of spot.

Greater strength has developed in dry goods, manufacturers of textile fabric reporting sales in advance. Prints are had more freely and reorders on shirtings and spring wash goods are more general. Far eastern export trade has been confined this week to sales of standard drills to India, the miscellaneous foreign markets being quiet. In woolens, stocks appear to have been cleaned away better than usual. Business is being offered in all lines with freedom. Many mills are so closely sold that they cannot accept further orders. Cotton yarns are higher and very steady, while worsted yarns are firm.

Conditions in footwear are becoming more satisfactory and spring business now is up to the average in volume.

All kinds of shoe leathers are in growing demand, and the market continues to display exceptional strength with tanners demanding further price inducements.

New York.—Bradstreet's review of trade says:

Activity is unabated. Practically all avenues of trade are busy and the post election period apparently has witnessed an increased rather than a decreased volume of business. Secondary distributors report the receipt of large mail orders, while at some markets buyers in person have operated freely. Buying for next spring is expanding, industrial operations are active, railway tonnage is large, goods are not over plentiful anywhere, collections are improving, old debts are being liquidated, retail trade is enlarging, holiday business is growing, the railways continue to buy material in volume and except in a few lines of textiles where tariff talk is in evidence, optimism is notable.

The iron and steel line continues to move at a rapid rate, with some mills unable to promise deliveries before next August and the price situation is one of exceptional firmness.

Returns from Texas and the border country indicate that collections are excellent and that trade is better than for years. Western advices are uniformly good. Returns from the northwest speak of activity though the weather has been too mild for free sales of seasonable goods at retail.

Business failures in the United States for the week ending November 14, were 260 against 209 last week, 238 in the like week of 1911, 248 in 1910, 232 in 1909 and 273 in 1908. Business failures in Canada for the week number 33 against 35 last week and 31 in the like week of 1911.

Wheat, including flour, exports from the United States and Canada for the week ending November 14 (Galveston exports not included) aggregate 5,171,894 bushels against 5,768,725 last week and 8,513,074 this week last year. For the 20 weeks ending November 14, exports are 85,449,227 bushels against 61,876,685 in the corresponding period last year. Corn exports for the week are 24,524 bushels against 22,546 last week and 164,278 in 1911. For the 20 weeks ending November 14, corn exports are 1,453,360 bushels against 10,803,698 last year.

MUST REIMBURSE WIDOW.

New York.—Joseph Bush, who killed James McNamara during a fight in Brooklyn, was sentenced to pay the widow $3 a week for one year.

511,235 BALES USED IN OCTOBER

Washington.—The cotton consumed in the United States during October amounted to 511,235 running bales, according to census bureau monthly advices. Cotton on hand October 31 was: In manufacturing establishments, 908,296; in independent warehouses, 2,425,010; exports, for the month, 1,536,741; imports, 10,570. This is equivalent to the 500 pound bales. Cotton spindles operated during October numbered 30,619,872.

Patience is No Virtue!

Be Impatient with Backache!

Too patiently do many women endure backache, languor, dizziness and urinary ills, thinking them part of woman's lot. Often it is only weak kidneys and Doan's Kidney Pills would cure the case.

A SOUTH CAROLINA CASE.

Mrs. Mary West, Spartansburg, S. C., says: "My back was so bad I couldn't get about. My appetite became poor and I felt all worn out and discouraged. Doan's Kidney Pills put me in good shape and now I feel better than before in years."

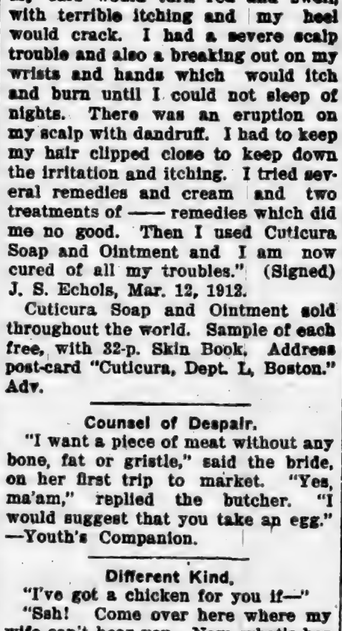
ENOUGH TO MAKE HIM WILD.



Manager—Yes, the old farmer was a little skeptical about our wild man really being wild, but I satisfied him.

Fat Man—You did? How?

Manager—Why, I told him the wild man was a bigamist who once had 16 wives.

BREAKING OUT WOULD ITCH AND BURN

Bolton, Ga.—"Some time ago my feet and ears were frost bitten, which troubled me very much every winter. My ears would turn red and swell, with terrible itching and my heel would crack. I had a severe scalp trouble and also a breaking out on my wrists and hands which would itch and burn until I could not sleep of nights. There was an eruption on my scalp with dandruff. I had to keep my hair clipped close to keep down the irritation and itching. I tried several remedies and cream and two treatments of —— remedies which did me no good. Then I used Cuticura Soap and Ointment and I am now cured of all my troubles." (Signed) J. S. Echols, Mar. 12, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Counsel of Despair.

"I want a piece of meat without any bone, fat or gristle," said the bride, on her first trip to market. "Yes, ma'am," replied the butcher. "I would suggest that you take an egg."—Youth's Companion.

Different Kind.

"I've got a chicken for you if—"

"Sah! Come over here where my wife can't hear you. Now, what's her name?"

"This is a chicken your wife ordered for your Sunday dinner."

DOES YOUR HEAD ACHE? Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Parched.

"Maybe that's why he has such a terrible thirst."

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form, and the most effectual form. For grown people and children, 50 cents. Adv.

Equivocal.

"Thrifty habits are your friends."

"Yes, I suppose a man nowadays is known by the bank accounts he keeps."

To prevent Malaria is far better than to cure it. In malarial countries take a dose of OXIDINE regularly one each week and save yourself from Chills and Fever and other malarial troubles. Adv.

Rather Mixed.

"He's dead in earnest."

"Yes, I've noticed he's a live one."

Marriage may either form one's character or reform it.

The more the trusts want the less the common people get.

His Authority.

"I thought you told me that man was a golden-mouthed speaker."

"Well, I had it from his dentist."

If your appetite is not what it should be perhaps Malaria is developing. It affects the whole system. OXIDINE will clear away the germs, rid you of Malaria and generally improve your condition. Adv.

More Exact.

"I'm afraid Jukes is a regular rounder."

"Oh, no. Jukes is a very irregular rounder."

CLAIMS BABEK SAVED HIS LIFE. Mr. Chas. W. Miller, of Washington, D. C., writes of Elixir Babek: "I can heartily testify to the virtue of your preparation known as Babek, as I consider that it was the means of my recovery from a bad case of intermittent fever and the saving of my life." What it did for him it can do for you, if you suffer from any form of malaria. Elixir Babek, 50 cents, all druggists, or Kloczewski & Co., Washington, D.C. Adv.

After Dinner Joke.

In the great Pecos valley apple country of New Mexico the latest arrival is always asked:

"What is worse than biting into an apple and finding a worm?"

He is stumped. They tell him, "Finding half a worm."

Very Hobbie.

Mrs. Stiles—How do you like my new gown?

Mr. Stiles—Reminds me of a crowded theater.

Mrs. Stiles—Crowded theater! How so?

Mr. Stiles—There seems to be standing room only.—Judge.

His Suspicions Aroused.

Lecturer—All statistics prove that the blond woman is more difficult to get along with than the brunettes.

Astonished Man in the Audience (starting up)—Are you certain of the fact?

Lecturer—It is a fact.

Astonished Man—Then I believe my wife's black hair is dyed.

Shop Talk.

The inventor was talking to himself.

"What with my heatless light, my leakless fixtures, my invisible ashcan and my disappearing bed, I have made the life of the urbanite well worth the living."

"Wrong!" corrected the downweighted Benedict. 'You have yet to perfect the footless meter and the vanishing gas bill."—Judge.

Not Needed.

While a traveling man was waiting for an opportunity to show his samples to a merchant in a little backwods town in Missouri, a customer came in and bought a couple of nightshirts. Afterwards a long, lank, lumberman, with his trousers stuffed in his boots, said to the merchant:

"What was them 'ere that feller bot?"

"Night shirts. Can I sell you one or two?"

"Naup, I reckon not," said the Missourian, "I don't set around much o' nights."—Lippincott's.

Her Name Was Not Polly Ticks.

During the late campaign an Illinois candidate for the legislature was driving through the country, seeking votes among the farmers, when he met a young man in farmer's garb, walking by the roadside.

Having in mind a prospective vote, he stopped his horse, and saluting him in a familiar manner, inquired:

"Are you paying any attention to politics nowadays?"

The young man stopped, looked at him suspiciously, and drawled out:

"No, stranger; that don't happen to be my gal's name; but ef it was, I wouldn't think it was any of your durned business."

This ended the interview as well as the prospect.

Speck on Their Black 'Scutcheon.

Mollie, a light-colored mulatto housemaid who has been in the employ of a South Side family for a number of years, recently gave up her position to get married, relates the Kansas City Star. A few days ago she returned and asked to have her old place back. The woman of the house was glad to have her return, but surprised that she came so soon after being married, and questioned her as to her reason for waiting to return. In reply the maid said: "My husband's folks is all jealous of me because I'm so light colored. You know my husband is very dark and all his folks is dark, too; and was mad because he married me. Why, one of his sisters told me, 'You's so bright you make a spot in our family.'"

FREE TO OUR READERS.

The readers of this paper are offered a free sample of an honest cure for Headaches, Biliousness, Constipation Malaria and Indigestion which gives prompt relief, going directly to the seat of many ills—the liver. No nausea, no griping and no constipation follow. It assists the liver to perform its functions naturally without any tear-to-pieces effects. One pill before retiring is a dose. You wake up well. This remedy sells for 25 cents at your druggist's, but to prove its value to you the Bond Pharmacy Company, Little Rock, Ark., will mail a sample to any address upon request.—Adv.

His Mistake.

After the services were over, one of the congregation turned to his wife and said:

"On my way to church I picked up a button and put it in my change pocket, where I had a quarter."

"Gracious, my dear!" anticipated his wife, very much horrified. "And you dropped it into the collection basket by mistake?"

"No, confound it!" replied her husband, "I put in the quarter."—Judge.

Diana of the Air.

The beautiful and athletic Eleanora Sears, at a luncheon at Sherry's, said of aviation:

"I like the biplane well enough, and the monoplane I am simply head over heels in love with."

To this remark one of Miss Sears' many unsuccessful suitors answered reproachfully:

"Ah, another case of man being supplanted by machinery!"

A Tender Point.

"What got you into trouble with this policeman?" demanded the New York judge.

"Just trying to ask him a civil question, your honor," said the visitor, "nothing more."

"What was that question?"

"I just asked him when the next official murder would be dragged off."

In New York.

First Prison Official—We'll have to stop giving permits to people to go in and see the prisoners.

Second Prison Official—Why so?

First Prison Official—Too much confusion. They keep getting in the way of the fellows who are escaping.—Puck.

A great majority of summer ills are due to Malaria in suppressed form. Lassitude and headaches are but two symptoms. OXIDINE eradicates the Malaria germ and tones up the entire system. Adv.

Extremes.

"Ought these two articles to go under the same heading?"

"No; they are not on the same footing."

For SUMMER HEADACHES Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

HOW GIRLS MAY AVOID PERIODIC PAINS

The Experience of Two Girls Here Related For The Benefit of Others.

Rochester, N. Y.—"I have a daughter 13 years old who has always been very healthy until recently when she complained of dizziness and cramps every month, so bad that I would have to keep her home from school and put her to bed to get relief.

"After giving her only two bottles of Lydia E. Pinkham's Vegetable Compound she is now enjoying the best of health. I cannot praise your Compound too highly. I want every good mother to read what your medicine has done for my child."—Mrs. RICHARD N. DUNHAM, 811 Exchange St., Rochester, N.Y.

Stoutsville, Ohio.—"I suffered from headaches, backache and was very irregular. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and before I had taken the whole of two bottles I found relief. I am only sixteen years old, but I have better health than for two or three years. I cannot express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I had taken other medicines but did not find relief."—Miss CORA B. FOSNAUGH, Stoutsville, Ohio, R.F.D., No. 1.

Hundreds of such letters from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for their daughters have been received by the Lydia E. Pinkham Medicine Company, Lynn, Mass.

Death Lurks In A Weak Heart

A PENALTY OF AGE

The tendency of advancing years to restrict activity and exercise is responsible for the constipated condition of most elderly people. The wear of years impairs the action of the bowels and the digestive organs are more sensitive to the demands upon them and rebel more quickly. Cathartics and purgatives are violent and drastic in their action and should not be used to correct constipation. A mild, yet positively effective remedy, and one that is recommended by physicians as well as by thousands who have used it, is the compound of simple laxative herbs with pepsin prescribed by Dr. W. B. Caldwell over thirty years ago and now sold by druggists everywhere under the name of Dr. Caldwell's Syrup Pepsin. Dr. Caldwell wants everyone troubled with constipation to try Syrup Pepsin and will send a trial bottle, free of charge, to all who write for it. Address Dr. W. B. Caldwell, 203 West St., Monticello, Ill. Adv.

Some Names Easily Remembered.

"Now, children," asked the teacher, addressing the class in United States history, "who was it that shot Roosevelt?"

"Why—er-ah!——" hesitatingly answered the brightest pupil. "I think it was a crank by the name of Swank or Frank, or something like that."

"What surgeon attended the colonel, and—"

Thereat, they all arose and exclaimed as with one voice: "Scurry L. Terrill, M. D.!"

From this we should learn that an unforgettable name is rather to be chosen than great riches.

Matters of Especial Moment to the Progressive Agriculturist

By the man we may measure the crop.

Be neighborly, and you will have neighbors.

Worldly ambitions often end in disgrace and defeat.

You can not lift up the people on whom you look down.

No man loses any of his own light by kindling it in others.

Those who shoot off their mouths make the most noise but the fewest hits.

Have you ever noticed that all the men who go to rest cures are married men?

Many a fellow puts up a bold front with nothing more than a fancy waistcoast.

It seems quite natural that a pull will get a man to the top quicker than a push.

Any candidate weighed in the balance will always be found wanting—an office.

It is a mistake to think that you can use a wagon stake in producing beefsteak.

There are three ways of getting out of a scrape—push out, back out, and keep out. Try it.

Progress does not grow out of debates; it comes up from the needs and hopes of the people.

Most of us rather would do a lot of regulation abroad than practice a little righteousness at home.

Many think they are defending faith when they are only fighting against the necessity of thinking.

When you fret and fume at the petty ills of life, forget not that the wheels which go round without creaking, last the longest.

Keep up the general appearance of the farmstead the year around. Don't forget that appearances count when you want to sell out.

In a true society it is not necessary for the members to stand in one pair of shoes. Each member should retain his own individuality if there must be a union of action.

BASIS OF ALL PROSPERITY

Wealth of Farmer Enters Into Every Business and Enriches by Creating Demand for Workers.

(By G. H. ALFORD, Atlanta, Ga.)

The prosperity of all classes of people in any country is dependent upon its farming interests. The wealth of the farmer is at the basis of all general prosperity. It enters into every business and enriches it as it goes, by creating a demand for the labor of workers in all occupations. Mining and manufacturing, commerce and transportation, all the wheels of industry refuse to run when agricultural conditions languish. When the farmer laughs the world laughs with him; when he weeps he does not weep alone.

The states of Mississippi, Maryland, Georgia, Alabama, Arkansas, Louisiana, Texas, and others have taken a long step forward in laying the foundation for a higher type of educated farmers, by establishing agricultural high schools and thereby placing a practical agricultural education within easy reach of the masses.

Let each county establish an agricultural school and thereby develop a saner, broader, and more practical education for the boys and girls of the farm. Let us establish agricultural high schools and fill our farms with well educated, broadminded men—men who will restore dignity to the long down-trodden, but honorable business of agriculture and raise it to the highest rank among the occupations of man.

Let us establish agricultural high schools and give our boys and girls an agricultural education—an education that produces wealth and thereby make the south the wealthiest section of the world.

GET LEARNING FROM BOOKS

Modern Farmer Who Does Much Reading No Longer Subject of Ridicule—Many Study.

The farmer who reads agricultural papers, books, and bulletins, and attends farmers' institutes is no longer ridiculed as a book farmer, except by an occasional simpleton whose censure amounts to real praise. People are studying agriculture as never before. Once, and not very long ago, either it was thought derogatory to the high character of the human intellect to engage it in the sordid affairs of business. Eventually brains became involved in business affairs as well as in philosophy, rhetoric, and poetry, and later even philosophers and poets became reconciled to this humiliation of the "God-like" faculty of man. Later farmers began to invoke the intellect to insure success and began to arouse themselves from the lethargy of centuries, and to ask, why so much progress in other lines and so little on the farm? Farmers are now combining in one enthusiastic chase in a hot pursuit of knowledge. Let every one of us run the race of our lives.

FARMERS AND THEIR AUTOS

Not Bought for Pleasure, but Because Machines Can Be Used to Much Advantage in Farming.

Recently there has been considerable pessimism expressed by country bankers over the alleged reckless extravagance of farmers in buying automobiles, and some state bankers' associations have gone so far as to express in official resolutions their disapproval of farmers taking their money out of the banks to buy machines and intimating that credit will be refused those who try to borrow money for that purpose.

These pessimistic "warnings" by the banks are so uniform in character and are sent with such marked regularity as to arouse the suspicion that they emanate from a certain source and are intended to conceal a sinister purpose. Perhaps this activity on the part of certain powerful financial interests may be explained by the reports that a great trust is being formed to take over all the principal automobile factories in the United States, and if the business can be demoralized by frightening people and thus preventing them from buying machines the central plants can be bought for less money.

While it is true that thousands of farmers have bought autos, it will doubtless be found on proper investigation that most of them had the money in the bank to pay for them, and that very little borrowed money has been used for this purpose. The report sent out by a Wall street agency that farmers all over the west were mortgaging their land for this purpose and that one bank in Kansas City held 58 farm mortgages which had been placed to get money to buy automobiles, have been proven to be entirely untrue.

Farmers are buying automobiles—not as bankers do, for pleasure—but because they have learned that they can use them to a great advantage in their farming operations. A trip to town which usually takes three hours with a good team can be made in forty minutes by an auto, a saving of nearly two and a half hours, and the team can be kept at work in the field meantime. This saving of time and the labor of a team and man in the field is well worth while and highly commendable.

Thousands of autos are used every day by dairymen, fruit growers and truckers to deliver their produce to market, and these machines, loaded to the guards, may be seen daily on the streets of market towns in every state, east, west, north and south.

Many farmers also use their autos for power to run separators and other light machinery on the farm, as it is the cheapest power that can be supplied. And if in addition to these needs the farmer uses his auto to take his family to town or to church or to visit his friends with comfort and celerity while the work teams are resting, he is merely showing further evidence of his conservative business judgment and good common sense which we may safely continue to trust.

ABANDON BIG PEACH ORCHARD

Bearing Trees to Number of 225,000 Cut Down to Make Way for More Profitable Crop.

An item appears of curious significance with regard to agricultural production in the south. It is that what is described as the largest peach orchard in the world, that of the Bayley estate of Americus, Ga., has been cut down and burned and the ground given to cotton raising. The orchard contained 225,000 bearing trees and for years has been among the first to supply the northern markets, says the Pittsburgh Dispatch. But while there have been immense shipments, large quantities went to waste and the owners believe that they can get more profit out of cotton on the same ground.

It has been one of the chief claims that the south's greatest hope was in diversifying its agriculture and especially in raising fruits and vegetables for northern markets. Yet it appears from this that the cost of shipping is an immense drawback for the southern producers of perishable crops, the greater part of which has to be sold in the north. Yet it remains the fact that there are few junctures when the southern peaches cannot be readily sold, and if northern raisers can get a good peach crop at all they can sell their product at good rates.

It is true that cotton gets a far better price now than when the southern fruit movement began. Yet we find it hard to believe that this great peach orchard would not have yielded its owners more than the cotton crop is likely to.

Water in the Cow Pasture.

It is most important that the dairy herd have plenty of pure water. If water is not abundant and pure the profits will be cut in two or cut out altogether. Keep the spring holes in the pastures clean and make the approaches safe. Water is a necessity in aiding the digestion and assimilation of solid food.

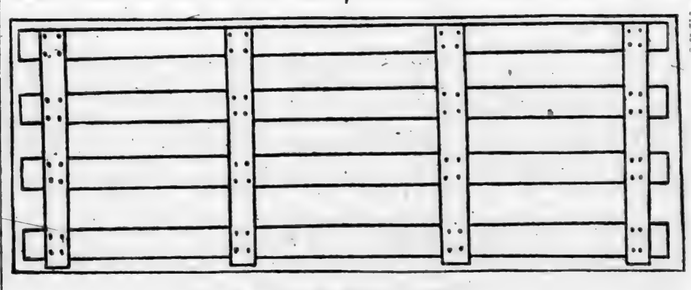
Watching Hog Results.

Keep all the hogs on the place busy. Let them do all the growing, fattening or producing young. You can't stay still in the hog business. Every animal is either losing money or making it for you. See that every individual hog is on the right side of the ledger, and that you have a definite object in keeping it.

CONVENIENCE IN FENCING PASTURE LOTS OBTAINED IN ARRANGEMENT OF HURDLES

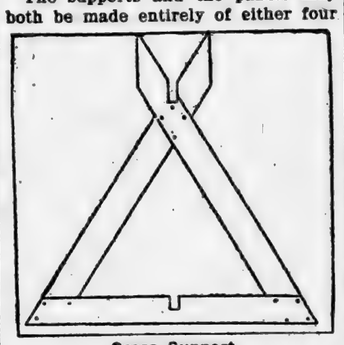
Farmers Will Find Panels Shown in Illustration Quite Satisfactory Where Frequent Changes Are Made in Feeding Roughage to All Farm Animals.

Farmers find it inconvenient to build and tear down fences continually with each change of hog, sheep and calf pastures in these days when special forage crops are made large use of and when labor is both scarce and high priced. A very convenient arrangement for the purpose consists of a series of hurdles, or so-called panel fence, which can be easily and readily taken up and put down again in a very short time. The manner of construction of these hurdles or panel fence is shown in the two accompanying illustrations, says the Wisconsin Agriculturist. The first shows the manner of construction of the supports which hold up and form the connection between the panels shown in the second.



Panel or Hurdle Section of Fence.

The supports and the panels may both be made entirely of either four



Cross Support.

or six inch material in width and one inch in thickness or material of both widths may be used in their construction to suit the economy and judgment of the farmer and builder. The base of each support is three and one-half feet long and has a slot two and one-fourth inches wide and three inches deep, cut at the center of its upper edge as shown in the illustration, to admit the lower boards of the adjoining panels. The oblique cross pieces are each four feet long and are notched at their point of crossing to correspond to the notch in the base board. The distance from the base of the lower notch to the base of the upper notch in the triangular support is three feet, which gives sufficient height to the fence to suit its purpose for fencing in either hogs, sheep or calves. In constructing the panels or hurdles this distance should be kept in mind when the upper and lower boards are nailed to the uprights. Obviously the distance from the lower edge of the lower board to the lower edge of the top board must correspond to it to give firmness and a close fit to the fence when it is set up. The length of the panels may be either 12 or 16 feet.

If the hurdles and triangular supports of this style of panel fence are carefully constructed of good material and are carefully and properly stored away under suitable protection from the weather, they will give service for a long term of years and will not be found expensive. If, however, they are not properly made and cared for they will be found a very expensive form of fencing. For convenience in fencing off forage lots for the calves, hogs and sheep where frequent changes are made they have no superior.

PRACTICAL TESTS IN NEW FARMING

Missouri Station Making Co-Operative Experiments With Farmers of That State.

The Missouri experiment station is making co-operative experiments with the farmers in 105 of the 114 counties of the state. These co-operative experiments are conducted for the purpose of determining the best methods of soil tilage, varieties of farm crops, methods of fruit production, profitable dairy farms and the organization and administration of farm enterprises.

In 1911, there were 366 men in 105 counties co-operating with the central Experiment Station of Columbia in experiments to determine the best methods of farming. In carrying on this work, 3,000 packages of seed and more than 20,000 pounds of fertilizer were used.

These co-operative experiments have already demonstrated that alfalfa can be successfully grown in every county of the state.

The horticulture investigations in eight differnt districts have shown that by proper fertilization of orchards and timely spraying, the profits from orcharding in Missouri may be greatly increased.

The dairy farm co-operators on seven farms in southwest Missouri have, under the direction of the dairy department, increased their profits in some cases more than 20 per cent.

The assistance given to farmers by the department of farm management in the organization and administration have accomplished in some cases extraordinary results in increasing yields. Some of the owners of farms co-operating in this work have made the following statements in reference to the value of this work on their individual farms:

1. "The yield has been increased at least four fold; corn from 10 to 40 bushels per acre."

2. "The financial side of my farming has been helped from three to five hundred dollars."

3. "The financial side has been helped $1,000 this year."

4. "The returns from my farm this year have been at least $1,500 more than they were before."

5. "Farm management has been the cause of my remaining on the farm. It put my farm on a business basis, restored confidence in my worn out farm, greatly increased the fertility of the farm. It has also lightened the labor of myself and family, encouraging us very much as we can see a bright future in store for us."

The Watering Trough.

Try putting a pinch of copperas in the watering trough once or twice a month. Better still, scrub out the trough and spray thoroughly with a copperas solution.

PROPER SYSTEM OF BOOKKEEPING

Value of Farmer Keeping Account of Farm Management Same as Business Man.

Farmers' Bulletin 511 of the Department of Agriculture contains some interesting facts and recommendations in connection with bookkeeping on the farm. "That there are over six million farms in the country which utilize land, labor, and capital as means of income making" gives the author, the opportunity to discuss the subject of the value of the farmer keeping an accurate and systematic account of his farm management the same as the business man or the railroad magnate.

This bulletin is not an attempt to outline a system of bookkeeping for the farmer. It is rather a discussion of the principles which are applicable to accounts on the farm. It is believed that any farmer who studies this bulletin sufficiently to grasp these principles will be able to devise a system suited to his particular needs.

Two important points must be considered in an attempt at farm bookkeeping. What does it cost to produce farm products? By selling at market prices, what profit is made on them?

"The problem of the farmer is to meet conditions on his own farm in a way which will give him the greatest net returns for his labor and the use of his capital. He should receive interest on his capital as well as wages for his labor, but owing to the lack of proper records few farmers know what wages they actually receive. There is reason to believe that the majority of farmers are really living on the interest of their investments rather than on the profits of their farms."

These suggestions are offered:

(1) Consider as one unit all that may be termed real estate, as land, farm buildings, fences, ditches, etc., whether the farm is rented or owned by the operator.

(2) Do not consider that the farmer or his family receive anything for their labor unless they are paid in cash the same as hired labor. If there is a surplus at the end of the year, it is their compensation. In this way the accounts will not be confused with items not strictly cash.

(3) Farm products used by the household should not be credited to the farm in the cash account along with the products sold, but should be taken care of separately."

Value of a Hoe.

So many people have a horror of using a hoe. It is the most comfortable implement to be found in the equipment of a gardener or farmer, and it is handy to use for so many purposes that one can not get along without it.

Terms.

"There is one thing I've been wondering about."

"What's that?"

"How racing men take joy rides in a sulky."

Similarly Minded.

The village tailor only received occasional orders from the vicar for such articles as hats, collars, or handkerchiefs. "You see," remarked the vicar one day, having called with his usual order, "when I want a suit I go to London. They make them there."

Calling again a few days later, the vicar remarked that he had not seen the tailor at church lately.

"No," replied the tailor; "when I want to hear a good sermon I go to London; they preach them there."

Farms for Children.

Perhaps the smallest farms in the world, each four by eight feet, have been devised by Mrs. Henry Parsons for the International Children's School Farm league, and demonstrated in New York. Each child becomes owner of his diminutive farm, in which he works, grows and harvests seven different kinds of vegetables, and these are borne by him in triumph to his family. About each farm is an 18-inch path, which he keeps in order; under his instructor it becomes a tiny object lessen in good roads.

Lot of Money Well Spent.

Arthur Blanchard, who spends much of his time traveling over the country, for the government, was seated behind a bride and groom in a Pullman car one afternoon when the train went through a long tunnel. As it emerged into the light of day the bride was grabbing desperately at her hat and fighting three fast rounds with one or two hairpins which had become loosened.

In order to relieve the situation and inject some harmless conversation into the gap Blanchard remarked:

"This tunnel cost $12,000,000."

"Well," said the bride judicially, "it was worth it."—Popular Magazine.

SCOFFERS

Often Make the Staunchest Converts.

The man who scoffs at an idea or doctrine which he does not fully understand has at least the courage to show where he stands.

The gospel of Health has many converts who formerly laughed at the idea that coffee and tea, for example, ever hurt anyone. Upon looking into the matter seriously, often at the suggestion of a friend, such persons have found that Postum and a friend's advice have been their salvation.

"My sister was employed in an eastern city where she had to do calculating," writes an Okla. girl. "She suffered with headache until she was almost unfitted for duty.

"Her landlady persuaded her to quit coffee and use Postum and in a few days she was entirely free from headache." (Tea is just as injurious as coffee because it contains *caffeine*, the same drug found in coffee.) "She told her employer about it, and on trying it, he had the same experience.

"My father and I have both suffered much from nervous headache since I can remember, but we scoffed at the idea advanced by my sister, that coffee was the cause of our trouble.

"However, we finally quit coffee and began using Postum. Father has had but one headache now in four years, due to a severe cold, and I have lost my headaches and sour stomach, which I am now convinced came from coffee.

"A cup of good, hot Postum is satisfying to me when I do not care to eat a meal. Circumstances caused me to locate in a new country and I feared I would not be able to get my favorite drink, Postum, but I was relieved to find that a full supply is kept here with a heavy demand for it." Name given by Postum Co., Battle Creek, Mich.

Read "The Road to Wellville," in pkgs. "There's a reason."

DEATH OF MRS. HESTER.

Mrs. Julia Hester, relict of Mr. William Hester, was born in Prattville 78 years ago. She died in Nashville, Tenn., on November 14th, at the home of her daughter, Mrs. Godshall, after an illness of several months. Her remains were brought to Clanton and laid to rest in the cemetery by the side of her husband, Rev. F. M. Woods, her old pastor and personal friend, who made a very touching and appropriate address. She and her husband were among the earliest settlers of this county and the family has a large number of friends. She left four sons and three daughters, among them being Mr. Joe Hester, our very popular railroad agent.

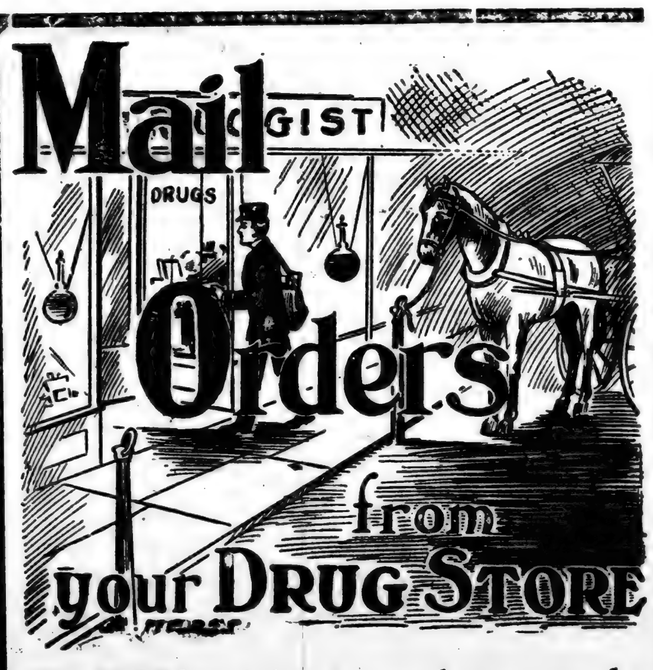
For a nerv... the Dr. Miles' Anti-Pain Pills are the best.

OYSTER SUPPER

The Methodist ladies will have an Oyster Supper at the Davis Bakery on Friday night. Will begin to serve supper at 5 o'cloce. Everybody invited.

COTTON

Cotton this week went as high as 12 1-8.



IF YOU wish to send your order by mail it will be as promptly attended to as if you called in person. We specialize in "hurry up" mail orders. You can get a prescription made up very conveniently in this way. All orders are sent out by the earliest possible return mail.

No need to wait till you come to town—send that order by mail today.

A LIVER MEDICINE THAT BEATS CALOMEL.

Dodson's Liver Tone Does the Same Work as Calomel Without Making You Sick. It is Vegetable, Tastes Good and Never Fails.

Everybody who has ever taken Calomel knows what a strong drug it is. Calomel spurs the tired liver as if it were a tired horse, and while the liver works harder for a little while, it is soon weaker than ever.

Dodson's Liver Tone is a vegetable tonic that gently induces the most sluggish liver to work. Taking it is followed by no bad after-effects. No restriction of habit or diet necessary. For either children or grown people. The Alred Drug Company sells a large bottle of Dodson's Liver Tone for fifty cents and guarantees it to be a perfect substitute for calomel and will give you your money back if it disappoints you.

Man the Only Reasoning Animal.

Men act according to knowledge and reasoning ability. Other animals act by instinct born with them, and upon which they never improve. Birds build the same kind of nests right along. Men are always using their ability to improve their houses. Instinct is the name for the inferior kind of knowledge the lower orders of creation naturally possess. In some cases, as with dogs, horses, etc., this can be increased by careful training, or even by imitation.

Sad Case.

Knicker—"Did the candidate get rattled?" Bocker—"Yes, he told the babies they lied and kissed the man who ran against him."

No Longer Forbidden City.

Lhasa, which is the capital of Tibet, for generations known as the Forbidden City, because of its political and religious exclusiveness. In 1904 a British armed expedition opened the mysterious old city. Previous to that time practically every European traveler had been stopped in his efforts to reach the place. The population of Lhasa is about 35,000.

GROWING OATS

October the Best Month for Planting Oats in the South—Compares Well in Profit with Corn

[By G. H. Alford, of I H C Service Bureau]

From October 1 to November 15, according to latitude, is the best time to sow oats in the cotton belt. The area in oats should be fully as large as that in corn. Great enthusiasm now prevails in regard to corn, but let us not forget that as a feed for stock and cash crop, oats is one of the best crops that can be grown in the south.

The chief crops grown all through the cotton belt are cotton and corn. As an average, for the period from 1900 to 1909, there was planted from ten to fifteen acres of corn for each acre of oats in the various cotton belt states. During the same time, the average value of the oat crop per acre was $10.09, while the average value per acre of corn was $11.02. Figuring the cost of growing an oat crop and a corn crop we find that the oat crop was the more profitable.

There are several important reasons why we should sow millions of acres of oats in the cotton belt. It would reduce washing and leaching to the minimum, furnish grazing, add to the deplorably deficient supply of humus, and add to the always short supply of food stuffs.

Of course, there are better winter cover crops than oats. Burr clover and crimson clover and the vetches, and in some cases some of the other winter cereals are better. We do not claim that oats alone, or that oats and hairy vetch combined should be grown for the sole purpose of supplying a cover crop. However, in view of the fact that oats will grow on poor land, poorly prepared, and that it costs little to seed an acre, it is a good winter cover crop.

Two and one-half acres were planted in oats at the experiment station at Baton Rouge, La., for grazing experiment on September 28. On October 29, seven poland china pigs, weighing in total 276 pounds, were put on this plat and were given no feed but the green oats during the winter. By February 17 the pigs weighed a total of 568 pounds. There was an average gain of .37 pounds per pig per day for 110 days. From October 29 to January 1, forty-five head of sheep were pastured on this same field. Of this number eight ewes and nine lambs were pastured continuously thereafter until February 17, at which date the lambs averaged sixty-eight days old and weighed 35.5 pounds each. Allowing six cents per pound gained by the lambs, we have a return of $13.40 per acre, plus the pasturage of sheep not considered in the estimate.

The loss of humus from the soil results in decreasing its power to store up and properly supply crops with water. Soils with a liberal amount of humus are capable of more effectually withstanding drought than similar soils with less humus. The oat crop fills the soil full of roots, and the stubble also adds much humus to the soil.

The oat grain is a very valuable feed, especially for young animals, because of the moderately high content of protein and the large amount of ash or mineral matter. Pound for pound, oats are not as valuable for feeding mature animals as corn, four pounds of corn being equal to about five pounds of oats.

In attempting to build up worn out cotton lands we must depend very largely upon the leguminous crops. Now the oat crop is harvested early enough to permit the growing of a leguminous crop. The leguminous crop may be plowed under or it may be used as feed, and the manure returned to the land. If we are going to build up our soils and raise good stock we must grow oat crops and follow with legume crops.

Oats will prove about the best paying small grain crop that can be grown over practically the entire cotton belt. The same soil that will produce one bale of cotton or forty bushels of corn per acre will produce sixty bushels of oats per acre. At an average price that has prevailed for oats during the past five years, the sixty bushels will sell for from $36 to $40 and the straw when baled will often pay for growing the grain.

After using the disk harrow to cut the corn stalks or cotton stalks, plow the land deep, then disk and double disk and harrow and cross harrow until every inch of the soil has been stirred and broken as fine as possible.

A mixture of 300 pounds of sixteen per cent acid phosphate, 100 pounds of cotton seed meal, and 200 pounds of potash, followed in March with a top dressing of fifty to seventy-five pounds of nitrate of soda per acre, is good fertilizer for oats on average soil.

The best varieties for fall sowing in the south are of the red rustproof type. The original red rustproof, the Appler and the Bancroft, are so nearly alike that no one can tell them apart if sown side by side. The Burt oat is for spring sowing.

There are three methods commonly practiced in planting oats—sowing broadcast, open furrow, and drilling. Drilling of the seed is to be preferred, since considerably less seed may be used if drilled by machine; the seeds are covered at a uniform depth, come up, grow, and ripen uniformly; the small ridges made by the drill afford a slight degree of protection from cold; and the yield from drilled oats is usually greater than from broadcast oats. The seed saved, and the larger crops that usually result from drilled oats will soon pay for a good drill on the farm.

Royal Baking Powder

Absolutely Pure

The only Baking Powder made from Royal Grape Cream of Tartar

Adds Healthful Qualities to the Food.

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

TAKE CARDUI The Woman's Tonic

Don't wait, until you are taken down sick, before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Write to: Ladies' Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., for *Special Instructions*, and 64-page book, "Home Treatment for Women," sent free. J 51

L&N

SERVICE

The service afforded the traveling public by the Passenger Department, and the shipping public by the Freight Department, of the Louisville & Nashville Railroad Company is not excelled by any railroad in any section of the world.

The Passenger Department operates trains with as much frequency as conditions warrant. The schedules are as fast as is consistent with safety. The coaches are made as comfortable as possible. No trouble or expense is spared to give maximum service at minimum cost to the public.

The Freight Department makes a careful study of agricultural and industrial conditions in the territory through which the road operates. Freight facilities are placed at the disposal of the shipper to enable him to develop the resources of his locality. The L. & N. anticipates the needs of the territory and always co-operates to have those needs supplied. Fast freight, low rates and personal service have contributed much to making the territory one of the most prosperous in the union.

The L. & N. is a public service organization, dependent for prosperity of the people it serves. It entertains for the people a cordial good will, similar to the good will entertained by the manufacturer or jobber for the merchant who is his customer. It endeavors in every possible way to merit the approval and secure the good will of farmer, merchant and manufacturer, all of whom are valued customers of the L. & N.

That, in a measure, accounts for the exceptional freight and passenger service; the good will of our customers, and their liberal patronage, makes it possible for us to give that service.

Locomotive's Diet.

Young Freddie is a natural student and observer, and he is especially interested in railway matters. The other day, waiting with his mother in a train mysteriously "held up" at a wayside station, Freddie pondered: "Mamma, I guess this is where the engine gets its dinner. They feed it on coal, hot water and matches, and I guess they let it have all the hot air it wants for dessert."

Old Tree of Historic Interest.

Sir Sidney Pocock, J. P., has just disposed of his residence, Charlton Court, Shepperton-on-Thames, Middlesex, England, in the kitchen garden of which is a very old mulberry tree bearing a tablet with the following inscription: "During the reign of Charles II. a fox was hunted from Windsor park and took refuge in this tree, where it was killed. The king, who was present at the kill, expressed a wish that the tree should be preserved to commemorate the longest run on record."

Joined His First Love in Death.

After an absence of over 20 years, a former aged resident of Rainham, Kent, England, returned to the district late the other night, and, groping his way through the tombstones in the local cemetery, found the graves of his first wife and son, and there shot himself. The man, who carried on business in Great Peter street, Westminster, posted a letter from Rainham to his second wife, and his daughter, saying he had gone to join his first wife and son.

Cost of Ocean Cables.

The average cost of ocean telegraph cables is about $2,000 a mile.

Cloth Made From Seaweed.

By a process recently developed in England a very desirable cloth is made from the fiber of posidonia australis, a species of seaweed found in the southern seas. Experiments made at Manchester university show that the fiber, after treatment, is soft, pliable, strong, much like wool in its disposition to curl and twist, and easy to spin in its raw state. It takes dye well, except green.

Queen Elizabeth's Pedigree.

One of the most interesting curiosities at Hatfield is the pedigree of Elizabeth, which is to be seen in the gallery. Those intrusted to make out the document wisely discovered that her descent could be traced through every important person, and especially through every beautiful person, straight back to Adam and Eve. It is on record that the Virgin Queen highly commended the work.—London Evening Standard.

Trapped.

"Don't you love me or do you?" asked the western girl. The eastern man studied for a minute and answered: "The former." And he tried to conceal his surprise when she threw herself into his arms.—Cleveland Plain Dealer.

Absent-Minded Professor.

A certain university professor was noted for his absent-mindedness. One morning as he sat at the breakfast table with a scientific magazine propped up before him, his wife was astonished to see him reach out for the maple syrup, pour it down his back, and lean over and scratch his pancake.

THINNESS

is often a sign of poor health. Loss of weight generally shows something wrong.

Scott's Emulsion

corrects this condition and builds up the whole body. All Druggists.

MILES MEDICAL CO., Elkhart, Ind.

stand too long, the leaves will be off when curing, also the stems will become more fibrous and coarse, thus decreasing the quality of the hay.

If any machine gave trouble, or is not up to date, you can hardly afford to store it and try to "get along" with it another year. Investigate the new machines advertised, and you will be surprised at the improvements.

See that sheds are in good shape to protect the stock that are in the pasture. The first storms do more damage than later ones because they are not accustomed to them.

LABOR SAVING

Farm Implements are Needed in the South

[By G. H. Alford, I H C Service Bureau]

The demand of the times is for improvement along every line: for building better roads, better homes, churches and school houses. We desire better equipment on our farms and in our homes. The teachers and ministers must have expensive educations and hence demand better salaries. Telephones, rural deliveries of mail, libraries, etc., are becoming necessities. It is the desire of every parent to educate the children at colleges or good schools.

Apparently the key to agricultural improvement in the south is more power and labor-saving farm implements on the farm. The average farm worker toils with a small mule or horse and his total annual income is about $148.00. In Iowa the average farm worker uses nearly four large horses and produces $611.11 annually exclusive of stock. Investigators show a much smaller use of power on the southern farms than in other sections of the country, and, consequently, less use of labor-saving farm implements and a correspondingly lower earning capacity of the farmers.

The power must come first and then the labor-saving implements. Every farmer in the south can easily raise the necessary horses. He can better afford to buy extra horses than to attempt to farm with one of two small mules. By the use of strong teams and labor-saving implements, the wages of one, and sometimes two men can be saved, and this will soon pay for an extra animal. However every farmer should raise his own horses. A good team of mares will do more work than several small mules, such as are largely used, and the colts raised will be a handsome profit, or furnish the additional power needed to handle larger farm machines.

Money-making farmers have proved that summer and winter pastures and well cured hays should be the main reliance for feed. The feeding of horses and mules on pulled fodder and corn is so expensive and out of date that the practice should be abandoned. I saw seventeen fine mules that were raised on good pasture and pea vine hay. The mule colts obtained their living entirely in pasture from March 1 until December 1. The pastures were not brush patches or fields of weeds and briars, but tracts of fertile soil, well set in Bermuda grass, lespedeza, white and burr clover. Plenty of pea vine hay was kept in large racks for them, from December 1 until March 1.

High-priced labor makes it imperative that more and better farm implements be used. On every farm there should be at least a reversible disc plow or a large turning plow or disc, a harrow, two sections of steel harrow, combination planter, single-row cultivator, grain drill mower and rake, and a binder and a hay press. The above are essential, and if the means of the farmer will allow, many other convient labor-saving implements, such as a two-row planter, thresher, gasoline engine, feed grinder, feed cutter, manure spreader, cream separator and an auto wagon could be added.

Yours very truly,

I H C SERVICE BUREAU.

GRASSES FOR WET LANDS

D. McWhinnie, of Hearnleigh, Alberta, writes as follows: "I have a flat of about 100 acres or so. About half of that is covered with water in the spring, which dries out about the middle of May so that one can work the land. I had thought that I could grow hay on it if I could get the grass started. Can you tell me the best kind of hay, and the best way to get this land started in grass?"

If this land can be drained, the best thing to do is to drain it either by using open ditches or tile, otherwise it is a rather difficult proposition to handle.

The water standing on the soil will kill out most of the tame grasses. Canadian blue grass and Kentucky blue grass are grown to some extent in parts of Canada for pasture purposes. Very few of the tame grasses will do so well on soils that are wet. The wild grasses, as a rule, grow very well on wet land. The grasses that do best on wet land are red top, timothy, meadow grass, combined with alsike clover. Timothy will do fairly well and may be started by simply sowing the seed without any cultivation. If you have had no experience, however, with these grasses in your section, and this is only a suggestion on our part.

The amount of seed to be sown depends on the kind of seed used. If the red-top, re-cleaned seed is used two or three pounds per acre will be sufficient, while if the ordinary seed is grown, twelve to fifteen pounds of alsike clover seed per acre should be mixed with this.

NEIGHBORHOOD NEWS
AND LETTERS FROM THE PEOPLE

FROM HON. L. H. REYNOLDS

Clanton, Nov. 26, 12.

Editor Union and Banner:—I thought I would write just a few lines on the last campaign. I am proud that I am associated with a people that always prove that they are honest and want to do the rght thing in politics, and that they do not belong to any clique or ring.

When we think of twelve hundred men walking out of a party in sixty days, and aligning themselves with a new party, it needs no argument to establish the fact that they acted from principle. If the day ever comes when more counties and even states in the South would quit their party when the party fails to do what the people want we will have better times.

If there ever was a time when the people ought to be congratulated on an election, it is on the last election in our county. It settles the question of honesty of purpose on the part of the people of this county. The success should not be credited to any individual, or party of men, but to the whole people. Everybody did their part, and the result should be a warning to us in the future, that every individual should do his part.

We ought to feel grateful to the Democrats that were willing to lay down party prejudice for the good of the county; and while but few business men ever help us elect our ticket, at the last election some of the strongest business men of this town walked up and split their ticket and voted for progress.

After the election it was so much differrent to what it was two years ago. We did not hear a howling drunken mob going over town, shouting like wild Indians, toting boxes around, etc. I heard that the liquor was bought and the dynamite secured to repeat the performance of two years ago, but if dynamite ruins by age it will be no good by the time the Democrats need it in this county. Liquor is said to get better the older it gets, and if this is a fact and the liquor is kept that was bought for the parade, it will be mighty good before it is used.

The people of this county are against boss rule, and they will not support those that practice it. We are truly a progressive county, our agricultural interests have increased more than any county I know of in the state. We are improving along all lines, we are going by leaps and bounds, and if the county government is kept in the hands of the people our progress will continue. If we keep principles in the lead and vote for the interest of all the people, our progress has just begun.

I hope no Progressive feels the least discouraged. Think of about twelve hundred men walking out of the party with so short a notice in this county, and think of twenty-five thousand men in the state voting the Progressive ticket without a campaign and only two papers in the state supporting our cause, the Union-Banner here and the People's Advocate in Shelby county. The Democrats did not receive a majority of the votes, Wilson was only elected on account of the division between Taft and Roseveit. We could easily have secured fifty thousand votes in this state if a campaign had been made. No, do not be discouraged, but look to the future, surely the Democrats of the state will some day get tired of being misgoverned. The cry of taxes on every hand, it is money, money, more money, but no where do the Democratic leaders say they will reduce expenses.

The Progressives have carried about five counties in this state, and about five million votes in the United States; more votes than any new party ever got in so short a time; we have broken the record. If we did so well in sixty days what will we do in two years?

In conclusion, I will say we can look for peace for the next four years, for the Democrats have had so much to say about Republicans scrambling for federal offices, that we can hardly expect them to ask for any appointments. It is said there are only about thirty thousand applicants now out of the eighty thousand votes Wilson got. I do not think there will be over fifty applicants for postmaster here. Yes, we expect quiet times, and that Mr. Wilson will have a hard time in getting patriotic men to fill the postoffices, etc.

I hope we will move along in public affairs as we are in our private affairs, and that we can build up our public roads in proportion to our progress along other lines.

Respectfully,
L. H. Reynolds.

THORSBY NEWS

J. L. Foss & Son are going to have a fine display of Christmas goods. You are sure to be treated with genuine courtesy at their store.

The Woodmen of the World gave a small affair last Friday night at their hall. They had fine music, an oyster supper, a good crowd, and everything to make an enjoyable time. Success to the Woodmen.

The Thorsby orchestra is to give an entertainment at Bates Hall Thursday night.

Sunday morning Dr. Eaves preached a fine sermon at the Congregational church.

There was preaching at the Baptist church Sunday morning and evening; a young man from Birmingham was down.

The Sunday School at Pates Chapel is growing more ineresting every week; a full attendance is always expected and found there. Quite a number of Thorsby people went out last Sunday. The school is busy now preparing for a Christmas tree and entertainment. They have just purchased a new organ and practice songs for an hour or so every Sunday. The superintendent appoints one a week ahead to make a little talk to the school; next Sunday Mayor Brice is on the program. The people are very fond of the superintendent, W. B. Tomlin. He is doing a good work for them.

The school children are going to send a load of goodies to the poor farm on Thanksgiving day. The people of Thorsby make it a practice to see that some good things in the way of a treat go to them, and also see that a little Thanksgiving service is held there; it is a pleasure to sing, talk and pray with the poor and helpless, they appreciate it, and it does us good to show little deeds of kindness to those who are less fortunate than we are.

ROCKY MT. ITEMS

Bro. Snipes preached a very interesting sermon at Mt Pleasant the 3rd Saturday. He brought to our minds the duty of tithing and told us that if we would practice tithing for five years there would be no more cry of "hard times." Bro. Snipes expects to go to Boaz, Alabama Christmas with the intention of spending a couple of years in school. We hate to see him leave this community, but wish him much success in his work.

There is no serious illness in this community at present.

Cotton picking will soon be a thing of the past.

The farmers have been very busy lately making up syrup. The syrup cane crop was extra fine this year.

Our school at Rocky Mt. is moving along nicely under the management of Prof. F. B. Williams and Miss Toinett Wooody. It fills our hearts with joy to see our school house now, for it has at last been pointed Mr. Strand os Thorsby did the work. The enrollment in our school is steadily increasing and we are looking forward to the best school this winter that we have ever had.

We hope to have our library his winter. Our ten dollars have already been deposited in the bank; so we are only awaiting the ten dollars from the county then the ten dollars from the State before putting in our order for a state school library. Our school has a new set of maps eight in number and also a twelve inch hanging globe which we are very proud of. We are glad to give our teachers the honor of bring to pass the above impravements.

We hope to be able to report many more improvements before the winter is over as our School Improvement association is beginning to wake up.

From a Citizen,

Huntsville. Ala. W. C. Tollard, a well known citizen, says:—"I have used Foley's Honey and Tar Compound and found it a most excellent preparation. In fact, it suits my case better than any cough syrup I have ever used and I have used a good many, for I am now over seventy years old."

Upchurch Drug Co.

MINERAL SPRINGS.

Everyone interested in a good Sunday School is asked to be at Mineral Springs the second Sunday in December at 9 o'clock for the purpose of organizing a Sunday School.

CARD OF THANKS

Editor Union-Banner—I wish to say to the people of Chilton, County, who supported me in the last Election for Tax Collector, that I have not got words to express my thanks to them, for their support and influence. I am sure that there was no one that appreciated their election any more than I.

And I will do all in my power to keep any one from regreting their helping me.

Yours for the Progressive.

J. Dudley Collins.

For Fine Job Printing come to the Union-Banner office.

THE UNION
AND BANNER.

Published Every Thursday at Clanton, Chilton County, Alabama.
UNION PUBLISHING CO.

FRANK B. TICKNOR,
Editor and Manager.

Subscription price, in advance, per year, $1.00.

Entered April 15, 1903, at Clanton, Ala. as second-class matter, under act of congress of March 3, 1879.

NOTICE TO CORRESPONDENTS:
All communications to The Union and Banner must be signed by the writer's real name as well as that name which they wish to put in the paper. Letters must reach the editor Tuesday morning to get in the same week. While we will publish any and all communications complying with these requirements that do not contain any improper language, we are not responsible for the opinions expressed.

It is to be hoped that all are duly thankful today for there is much to be thankfnl for, but it is to be feared that there are few who will give outward expression of thanks to "the Giver of all good." How many will attend church today to thank God for what they have received?

Reuben F. Kolb has come out as candidate for governor. He has a first class platform of retrenchment and reform, but he makes a great mistake if he thinks he can win, with that platform, a nomination from his old enemies, the democrats. The machine will not allow him to have it; he would stand a much better chance if he were loyal to the Peoples party who once looked up to him a leader. The people of the state most probably will demand most of the reforms he claims to stand for, but they will not look for them in connection with the democratic party.

One of our democratic exchanges writing of the division of the "spoils" among the hungry democrats of the state, States that a number of editors are looking to be rewarded for their services by receiving post offices and other federal appointments. It may be that they will get them, but there is a strong tendency now, even in the distribution of political plums, to look somewhat to the business fitness of the appointee. If a man makes a success out of his paper he does not want an office. If he can not even run a county paper successfully he is not fit to be trusted with public business.

Andrew Carnegie has provided a fund for pensioning ex-presidents. It is proposed to give them $25,000 a year as soon as they become "exes." This is an affront to the nation, and one would think no self-respecting president would accept it. The prospect of retiring on a fund amassed by a leader of the privileged class would link any president to the interests of that class and make him in effect a vassal of the would be money barons of the land—a class it is his supreme duty to regulate and keep under control. To accept the pension would be accepting a "free pass" to ignominy.

W. W. WADSWORTH.

Hon. W. W. Wadsworth, of Autauga county, died Nov. 23 1912 at the age of 71 years. He was a gallant soldier in the Confederate army for the full period of service.

For a number of years the deceased was prominent in Autauga County politics. He was an active trustee and a staunch friend of the girls, school at Montevallo from its organization, and his interest in the welfare of that school never warned. He is survived by his wife and three children, Mrs. S. W. Jackson of Wadsworth, Mrs. Gulledge of Verbena, and Edward Wadsworth; three brothers, M. S. Wadsworth of Autauga County, Jesse Wadsworth of Montgomery, and Daniel Wadsworth of Arkansas. The remains were interred at Wadsworth on Sunday.

Mark it down—Snow in Clanton on the 27th. day of November.

TEACHER'S EXAMINATION.

The next State Teacher's Examination for Chilton County will be held in the court house at Clanton, beginning on the third Monday in December 1912. The Examination will begin at 10 o,clock a. m. but all applicants should be present by 9 o,clock a. m. so that the enrollment and preliminary work may be done by 10 o,clock. J. W. Moore,
Co. Supt.

"Tells the Whole Story." To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, cheat and lungs. Stops la grippe, coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, and accept no substitutes.
Upchurch Drug Co.

STATUS OF WOMAN SUFFRAGE

With Arizona, Kansas, Oregon and Michigan now added by the recent election to Colorado, California, Idaho, Utah, Washington and Wyoming, ten states have given the full suffrage to women.

This increases the number of presidential electors for whom women will vote from 37 to 70 and adds over 300,000 square miles to equal suffrage territory.

It brings suffrage so far east Michigan.

It breaks the record for quick suffrage campaigns. In Arizona the initiative petition was filed July 5, only four months before the election.

Little Lola, aged five, upon being shown her twin brothers that had arrived the night such a said: "Well, I never saw before, woman as mama is for hunting up bargains."

L&N

DO THE PEOPLE APPROVE THIS POLICY?

Honest men frequently have honest differences of opinion. In such cases the questions involved are submitted to experts for decision. Good business and good morals demand the decision be accepted as final.

Asserting that they were working unselfishly in the interest of the general public, certain active individuals sought to secure a sweeping reduction in the freight and passenger rates charged by the Louisville & Nashville Railroad in the state of Alabama.

The officials of the road, men qualified by years of practical experience, knew that the rates charged were as low as consistent with safe business methods, and in many instances too low. As men trained in operating a railroad in the interest of the public they submitted their arguments in the interest of both the state and the railroad.

They were over-ruled. Sweeping rate reductions were put into effect. An experiment was engaged in with disastrous results to the treasury of the company and the ability of the company to supply to the people of Alabama the satisfactory service to which the people are entitled.

After two years the old rates were restored, and the questions involved submitted not alone to a duly constituted court of law, but to men of known integrity and unquestioned ability who served as special masters

The results of the judicial decision of the findings of the special masters proved the position of the L. & N., taken on the advice of men of expert knowledge, to be correct. The result of the rate reduction experiment was also eloquent testimony to the correctness of that position.

To one not inspired by other than patriotic and unselfish motives it would seem that the rates of the L. & N. had been subjected to sufficient test. It would seem that the agitation would stop, and that the men engaged in the operation of the L. & N. be permitted to devote their undivided effort to giving prompt and satisfactory service.

We suggest these facts to the people, because we believe that once the policy as outlined is fully understood, it will be repudiated by the people. We do not believe the people will permit a property operated in the interest of the development and prosperity of the people to be used in this way to gratify personal political ambitions.

Louisville & Nashville R. R. Co.

The SUITORS OF Mrs. MERRIWID

BY KENNETT HARRIS

MELISSA WOULD LIKE TO BE A SAILOR'S BRIDE.

Mrs. Merriwid dropped into a comfortable chair with a sigh of relief and took a comfortable cup of tea from the tray that her maid had just brought in. She was attired in a white middy blouse trimmed with Oxford blue, from the collar of which a silver boatswain's whistle depended by a snowy lanyard. Her hat, skirt and shoes were also white, and her face and bared arms were burned a fine brick red.

"You are simply a sight, Melissa," said her maternal maiden aunt Jane.

"A pleasing sight, I trust, dearie," her niece answered; "and believe me, this tea tray is not a revolving spectacle. It's certainly good to sit down and not have to trouble about adjusting one's center of gravity to a highly eccentric motion. Still, it might have been worse, and Captain Reefer was just as lovely as he could be; and if I put on plenty of cold cream, I may not peel off so very badly. One thing, if I ever marry again, I'm going to marry a sailor."

"I'm glad you've made up your mind at last," said Aunt Jane, with mild sarcasm. "I suppose I ought to feel grateful that you don't insist on marrying a burglar. There's no accounting for anything you take into your head."

"Why, auntie!" remonstrated Mrs. Merriwid, "how cruelly unjust! But still, there may be something in that burglar idea. You always hear of burglars as perfect models of husbands and fathers in private life. The trouble

"THE LAST WAVE OF MY LILY WHITE HAND FROM THE QUAY."

is that you never know who they are until they're arrested or you catch one under your bed. No, the chances are pretty slim of getting a burglar. I think I'll be a sailor's bride, tra la."

"And have your husband away at sea all the time," suggested Aunt Jane.

Mrs. Merriwid beamed upon her. "That's the idea exactly, darling," she said. "The great trouble with married life, according to my observation, is that the husband and wife see each other nearly every day, and it takes the cold, relentless hand of death, or the stern decree of the divorce court, to part them longer than a couple of weeks at a time. Of course, dearie, your experience is somewhat limited, so you'll have to take it from me that it's a great strain on the average man to keep amiable around the house. When he's had a trying day in the office, it's a tremendous relief for him to come home and take it out of the partner of his joys and sorrows. He can throw off the galling trammels of common decency and relax and be himself. He can sit down to the table in his shirtsleeves and sop his bread in the gravy dish, and kick the cat, and use strong language without forfeiting the regard of anybody but his own family. He doesn't have to be polite or considerate unless there is company—and that's what makes so many home-loving, domestic men. But all the same, he ceases to become the object of romantic devotion on the part of little wifey."

"I think that if a woman has a husband like that, she has herself to blame," declared Aunt Jane.

"I quite agree with you to a certain extent," said Mrs. Merriwid, "but you'll find that it isn't such an easy thing to poison him and get away with it as you might suppose. All that a woman can safely do under the circumstances is to stop taking care of her complexion, acquire the dressing sack habit, and season her conversation with the vinegar cruet. It's different altogether, though, when you marry a sailor."

"I'm always anxious to learn," said Aunt Jane. "Perhaps you won't mind enlightening me a little, my dear. Admitting that you would see less of a sailor husband, would that make him any more amiable when you did see him?"

"It's the one best bet," said Mrs. Merriwid. "My sailor husband, bless his true heart, gets away from restraint when he gets away from me. When he's seen the last wave of my lily white hand from the quay, heave ho! he turns around and knocks a foremast hand down with a marlinspike and gives the cabin boy a rope's ending. The next day he keelhauls the larboard watch and hangs a stowaway at the yard-arm. Then at night under the bright, twinkling stars, he paces the heaving deck and thinks of me, and the farther his gallant bark speeds before the swelling breeze, the more he thinks of me and the more he curses the crew. We'll say it's a six months' voyage. Well, by the time that's over, he's worked all the meanness out of his system and he's so sentimental that he can't look at my picture without crying. He's just aching for restraint and refinement and home cooking, and when he sees me all prettied up, standing on the same quay, just where he left me, it isn't like coming in on the 4:45 from the office, believe me."

"Naturally it isn't," observed Aunt Jane, drily.

"No, because I'm just as glad to see him," said Mrs. Merriwid. "I've been having conniption fits every time the wind blew since he was on the rolling deep, and I've been wondering if there really is anything in that nonsense about a sailor having a sweetheart in every port; then I'm anxious to know what he brought me from Ind and Cathay and the Coral islands, and I've got a lot of interesting things to tell him, and a lot still more interesting that I don't intend to tell him. And I know that he's got plenty to tell me, so that we won't run out of topics of conversation in the two or three weeks of regular honeymooning that are to follow. If it were four weeks, of course, it wouldn't be quite so enjoyable, and we might get to squabbling in six; but in three weeks at the outside, thank heaven! I shall be weeping scalding tears as I pack his clean shirts in his sea chest."

"If you really loved him, you would want him with you all the time," said Aunt Jane.

"Of course," agreed Mrs. Merriwid. "We're always wanting green apples and absinthe cocktails and things that are not at all good for us, and if we didn't want anything, we'd want to want something. So there you are, and looking at it by and large and alow and aloft, I think I'll marry a sailor."

"Not Captain Reefer!" exclaimed Aunt Jane. You don't tell me that—"

"Not by any means, dearie," replied Mrs. Merriwid. "Captain Reefer only has a two weeks' run to Buffalo, and he could return unexpectedly by train at any time. No, I really don't think that Captain Reefer would do at all."

(Copyright, 1912, by W. G. Chapman.)

Mind Reading.

A skeptic on the subject of things psychic attempted to account for certain curious happenings by calling them a matter of mind reading. He said the facts were uppermost in the mind of one of the two persons involved and were transferred to the mind of the other, after which they were dressed up and made to appeal in the light of mediumistic communication. That's all right, but why is mind reading any less psychic, any less phenomenal than a message from the dead? As I look at it, once admit the power of thought to the extent of mind reading and you admit the power of thought irrespective of the body, and hence quite as much alive after so-called death as before. No, mind reading doesn't appeal to me as much of an explanation.—Exchange.

Can't Face Her.

"Don't you find the long-distance 'phone a great convenience?"

"Yes, especially when I have to be firm with my wife."

GIOVANNITTI, ETTOR AND CARUSO FREED

TEXTILE STRIKE LEADERS EMBRACE EACH OTHER ON HEARING VERDICT.

DEMONSTRATION AFTER TRIAL

Men Are Released On Bond For Appearance For Trial On Other Charges That Pend.

Salem, Mass.—"Not guilty."

This is the verdict of the jury in the case of Joseph Ettor, Arturo Giovannitti and Joseph Caruso, tried on the charge of murdering Anna Lopizzo, who was killed in a Lawrence textile strike riot last fall.

When the three men had heard the words freeing them from the charge they embraced and kissed one another.

Giovannitti then sprang to his feet, saying:

"Gentlemen of the jury, in the name of justice, truth and civic advancement, I thank you."

His face beamed with joy.

Alfred Sacco, court interpreter, arose for Caruso and said:

"Mr. Caruso desires to thank you all, and now that he is a free man he says he was innocent of the crime."

Ettor, leader of the strike at Lawrence and chief center of interest in the case that has aroused world-wide attention, addressed the jury as follows:

"May it please the court, I thank you not only for myself but in the name of my companions. I also feel impelled to thank the court for the fair manner in which this trial has been conducted. The thanks we offer are not only ours, but thanks in the name of the working class."

The jury, which for more than six weeks had listened to the evidence in the notable trial was then excused from further service with the thanks of the court. The jurors hastened from the court and were cheered by the crowds of mill workers in the streets.

When the jurors had departed the court announced to Caruso there was another indictment against him, charging him with assault with a deadly weapon with intent to kill and that the court would release him on his own recognizance for the future.

When the prisoner had taken oath to appear in court when summoned, he was released from the cage. His wife, waiting at the rail behind the prisoner's cage, fell into his arms and many of his friends rushed forward and kissed him.

Ettor and Giovannitti were held also on another indictment. This charges them, together with William D. Haywood, of the Industrial Workers of the World, and others, with conspiracy to incite riot in the Lawrence strike. On this they were released in bonds of $500 each. These were furnished by Helen Dudley of Boston.

The Lawrence strike leaders were then freed from the prisoner's cage and immediately besieged by men and women in the court. Several minutes they were the recipients of affection. The defendants and their attorneys had a jubilation meeting after court.

DANGER OF GREATER WAR.

London.—The possibility and danger of a greater war than that between the Balkan states and Turkey absorbs public interest far more than the first bout of diplomacy between the belligerents.

The steps towards mobilization which Austria and Russia are taking, although but preliminary precautions, have made possible a vision of the vast consequences which, as far as Great Britain is concerned, are considered nothing less than appalling.

Apparently the British public has no desire to sacrifice lives and money, paralyze commerce and risk the navy over the settlement of the statue of the Balkan peninsula. Yet it is uneasy because ignorant of how far Great Britain's diplomatic engagements with France and Russia extend in the direction of an alliance, and of how much likelihood there is that the government will be drawn into a conflict in which one or both its partners in the entente may be engaged.

RICH MILL OWNER DEAD.

Robert Knight Spent Life in Cotton Mills, and Amassed Great Fortune.

Providence, R. I.—Robert Knight, owner of more cotton mills than any other individual in the world, died at his home in Elmwood, aged 86 years.

Mr. Knight was a native of Old Warwick, R. I. When 8 years of age he went to work in a cotton mill and was connected with the industry either as operative, manager or owner until his death. With his brother, Benjamin B. Knight, he took control of many of the mills operated by A. and W. Sprague, which failed for $25,000,000 in 1873.

Since his brother's death 15-year-old Robert had come into control of 23 spinning, weaving and finishing establishments, employing 6,500 operatives.

STATE BRIEFS.

CIRCUIT COURT MEETS.

Selma.—When the circuit court of Dallas county convened here the criminal docket of the court was taken up. On the criminal docket of the court more than 100 cases have been docketed to be tried during the week. Besides the criminal cases which have been docketed for the week there has also been set for trial murder cases against five negroes.

FIFTY-NINE LICENSES ISSUED.

Huntsville.—As a result of the activity of Game Warden LeGrand in enforcing the law, there has been a material increase in the number of hunters' licenses issued in this county. During this month 50 county licenses and nine state licenses have been issued, several arrests having been made for law violations.

EXAMINE DISPENSARY BOOKS.

Huntsville.—H. Y. Brooke, state examiner of public accounts, completed an examination of the books and accounts of the Huntsville dispensary and returned to Montgomery to compile his report. Mr. Brooke will make his report to the governor, but before his departure he intimated that every thing was found to be all right.

CONVENTION C. E. UNION.

Birmingham.—The convention of the Central Alabama Christian Endeavor union came to a most successful close. The meetings were well attended and a great deal of interest and enthusiasm was manifested. The following officers were elected during the business session: Phillip Kemp, of Anniston, president; Roger Snyder, Birmingham, vice president; Miss Lucile Moffett, Birmingham, secretary-treasurer; Miss Juanita Lanier, Woodlawn, junior superintendent; Miss Nannie Golden, Talladega, superintendent tenth legion; Burr Blackburn, superintendent quiet hour department.

GIRL QUEERLY STRICKEN.

Decatur.—After lying in a state of coma for several days at the home of her aunt in New Decatur, Miss Gidays Johnson, a fourteen-year-old school girl, has at last recovered consciousness and is able to talk. Miss Johnson was stricken with a strange malady while attending the Gordon school in New Decatur. Her physicians are unable to explain the cause of her strange condition.

SNEDECOR ELECTED MODERATOR

Marion.—The synod of Alabama elected the Rev. J. W. Snedecor of Tuscaloosa a smoderator for the seventy-seventh session and the Rev. W. I. Sinott of Centreville clerk. More than 100 pastors and elders were in attendance, representing the leading Presbyterian churches of the state.

FLORENCE PLANNING HOSPITAL.

Florence.—A meeting was held at the First Baptist church to devise ways and means for building a hospital here. Dr. E. B. Hardin, who is a prime mover in the scheme, said the plan was to enlist the ladies of Florence in a campaign to collect funds throughout the county to erect a suitable building.

ONE HUNDRED DIVORCE CASES.

Montgomery.—Judge Gaston Gunter has fixed December 2, 1912, as the date on which the dodddcket for the City Court in Equity will be called. Outside of more than 100 divorce cases that appear on the docket there are only two or three cases of importance.

U. S. CRUISER AT MOBILE.

Mobile.—To spend two weeks in Mobile, the United States cruiser Des Moines arrived in the harbor November 26. The Des Moines has a tonnage of 3,200, carries 18 officers and 279 men.

DECATUR TO HAVE WHITE WAY.

Decatur.—Work commenced on the great white way for Decatur.

FORTUNE SMILING ON PRINTER.

Opelika.—A former printer of Opelika, John O'Brien, for ten years a resident of Chattanooga, has been elected one of the three representatives to the general assembly of Tennessee.

COLUMBIA MILL BURNED.

Columbia.—Loss of $50,000 resulted from fire in the lint rooms of the cotton mill here. The plant will be rebuilt. There was some insurance.

GOVERNOR PAROLES NEGRO.

Montgomery.—Will Turner, a young negro boy of St. Clair county, was granted his freedom on parole by Governor O'Neal. Turner has been held a State prisoner since 1910, having been sent up for a term of three years after conviction on the charge of shooting into a train. Turner's release was effected on recommendation of the trial judge, and on the record of his parents, both worthy negroes, it is said.

PARROT IS TERROR IN BELGIAN PALACE

Repeats Everything He Hears, and Always, of Course, at the Wrong Time.

GIFT FROM AMERICAN

Imitates the Voice of the Countess of Flanders Exactly and Often Issues Orders Which Seem to Come Directly From Her.

Brussels.—Among the pets of King Albert's mother, the countess of Flanders, is a parrot, which is the terror of the household. It is a male "Polly," a remarkable talker with an extensive vocabulary, a great memory and unusual powers of mimicry. He repeats everything he hears, always, of course, at the wrong moment.

Sometimes he is banished from the countess' apartments. Then those who are near him talk in whispers or on their fingers (an art the parrot has not yet acquired); otherwise when he went back to his place near the countess he would reel off every word he had heard in the exact tone of the speaker, with dire results, as has often happened.

He imitates the voice of the countess of Flanders exactly and often issues orders which seem to come from her, throwing everything into confusion.

The other day, when a new foreign minister called for his first visit and was being conducted into the salon, he heard what seemed to be most uncomplimentary things said in the countess' voice about himself and his country. He started back in indignation.

"Take no notice," remarked the official who was escorting him. "It is only that blessed parrot."

In explanation of the chatter that startled an envoy it may be noted that this bird has had a diplomatic career. Charles Page Evans got it in Rio Janeiro, 10 years ago, when American minister to Brazil, kept it in the legation at Berne when he was transferred to Switzerland, carried it to Portugal and brought it here two years ago when he was promoted to this post.

When Colonel Roosevelt came here in 1910 on his way home from Africa

"It Is Only That Blessed Parrot."

the parrot achieved fame. A regimental band engaged by the burgomaster to serenade the former president started to play in front of the American legation. The parrot seemed to take this as a challenge and immediately entered into such a noise-making competition that he got into the newspapers.

Crown Prince Leopold read about it and straightaway developed great interest in the feathered diplomat. Learning this, Minister Bryan sent the parrot to the crown prince as a present. For a few days it was treated as an honored guest at the royal palace at Laeken, hanging in King Albert's study, but became so talkative and so often interrupted the royal councils that it was consigned to Prince Leopold's playroom. After a time the prince tired of the pet and then it was sent to his grandmother.

CATCH 21,750 FISH IN A DAY

Six Japanese Make Fine Yellowtail Haul on Hook and Line at Santa Monica, Cal.

Santa Monica, Cal.—All records for the number of fish caught one day at this beach were broken when 21,750 yellowtail were caught at the long wharf by six Japanese fishermen with ordinary hook and line tackle.

Three schools of yellowtail swam to the wharf early and remained all day. The Japanese fishermen, who made the catch from boats, were exhausted from landing the fish when evening came, and their arms were numb.

Nab Bill "Raiser."

Hammond, Ind.—Ega Malatin, arrested by Federal authorities, is accused of "raising" $10 to $100 bills and passing them on several big banks in the middle west.

New One.

"When I saw Speedem today he was on the qui vive."

"What make is that?"

If your appetite is not what it should be perhaps Malaria is developing. It affects the whole system. OXIDINE will clear away the germs, rid you of Malaria and generally improve your condition. Adv.

Marriage.

The couple were being married by an out-of-town justice of the peace.

"Until death do you part?" the magistrate asked, in the usual form.

The man hesitated. "See here, judge, can't you make it an indeterminate sentence?" quoth he, after thinking a moment.—Puck.

Suiting Himself.

The modern small boy is painfully cautious.

"Would you like to come to our bonfire on the 5th of November?" one was asked.

Back came an answer worthy of a cabinet minister: "Well, if I haven't a bonfire of my own, and if my father doesn't take me to Belle Vue, and if I'm not asked to a better bonfire, I'll be awfully glad to come."—Manchester Guardian.

Turkish Counting of Time.

Through the center of the mosque of St. Sophia runs the theoretical meridian which gave the Turks true local time—one hour and fifty-six minutes fifty-two seconds fast on Greenwich—until, two years ago, the new government fell in with the standard system of time zones, and came into the eastern European zone, exactly two hours ahead of Greenwich time. For religious purposes, however, 12 o'clock always happens at sunset, and noon thus wanders with the seasons all round the clock.—Westminster Gazette.

Frontier Medical List.

In good old frontier days castor oil was the principal medical beverage—good full measures, too. Only the biggest person could hold a whole dose—one-half a dipperful, with half a dipperful of New Orleans molasses added to help slick it down and make it taste good, only it didn't taste good. In those historic days every old woman was a doctor and gathered her own "yarbs" in the woods and knew how to mix up medical messes that would stir the vitals of a brass monkey or a cast iron dog. All backwoodsmen believed in "yarb" doctors. Something in "yarbs," at that.

Curious Russian Law.

Russia has a law which to outside observers seems almost to put a premium on theft by which stolen goods become the property of the thief if he can prove that he has had possession of them for over five years. In the thieves' market—which is, of course, licensed by the police—goods that admittedly have been stolen (more than five years before) are openly offered for sale, and the place is a veritable Mecca for the light fingered gentry and their enterprising friends, as also for the more honest members of society, who secure many a tempting bargain.

A MOLLYCODDLE.

He—Why, darling, I'd be your slave. She—I'd want a stronger one.

A Treat Anytime

Crisp, delicately browned

Post Toasties

Ready to serve without further cooking by adding cream or milk.

Often used with fresh or canned fruit.

"The Memory Lingers"

Postum Cereal Co., Ltd. Battle Creek, Mich.

NEWS OF THE WEEK

LATE NEWS OF THE WORLD TERSELY TOLD.

SOUTH, EAST, NORTH AND WEST

Notes From Foreign Lands, Throughout the Nation and Particularly the Great South.

Southern.

W. B. Blakey, an Americus, Ga., linotype operator, charged with murder in the first degree, has been jailed for shooting a Greek concessionaire connected with the carnival which has been exhibiting in Americus.

Posses totaling nearly eight hundred men, with two packs of bloodhounds, are searching the swamps 12 miles south of Collins, Miss., for a lone burglar who shot and dangerously wounded two men and burglarized half a dozen residences and stores. The hunted man is heavily armed with firearms taken from the burglarized places. He is without shoes, and for this reason his pursuers believe he will soon be captured, as the dogs readily caught the trail.

It is stated that the body of "Light Horse Harry" Lee will be removed from Cumberland Island, Ga., to the Washington and Lee University, Lexington, Va., where it will be re-interred beside the body of his son, Gen. Robert E. Lee.

William Jennings Bryan, stated to a Waycross, Ga., newspaper man that he was not going to Bermuda to confer with President-elect Wilson in regard to the cabinet.

One hundred girls narrowly escaped death at Washington, Ga., when the St. Joseph's academy, the only Catholic college exclusively for girls in Georgia, was totally destroyed by fire. The damage is estimated at $75,000.

Despondent over continued ill health, Dr. Alphonso R. Price, a veterinary surgeon and the brother of the late Daisey Price, one time mayor of Macon, slashed his throat with a caseknife while sitting in his home, 854 Edgewood avenue, in the presence of his wife and several friends and neighbors. There is little hope of his recovery.

Mrs. Eveline Stalnaker, suing the Modern Woodmen lodge of Independence, to force payment of a $20,000 policy on her husband's life was confronted by Stalnaker in the district court at Independence, Kans. The case was dismissed with the costs assessed against Mrs. Stalnaker. Mrs. Stalnaker earlier had taken the stand. She said her husband was the brother of her first husband and that when she married him he was 19 years old and she 40. In 1904, she related, he left her and she claimed he was dead.

The body of Joseph Meriwether Terrell, former governor and United States senator, who died in Atlanta, was buried in the old cemetery at Greenville, Ga. The interment was attended by hundreds of Georgians who had known and honored Mr. Terrell since his early manhood.

Eight trainmen were killed and three badly injured near Norlina, N. C., when Seaboard Air Line through passenger trains running between New York and Jacksonville, Fla., collided head-on. Both locomotives and three passenger coaches were demolished. Further deaths and injuries were prevented by the fact that there were no passengers in the coaches demolished.

The date for the execution of Floyd Allen and his son, Claude S. Allen, for participation in the Hillsville court house murders, was postponed by Governor Mann of Virginia from November 22 to December 13. The respite was granted so that Claude Allen might take an appeal to the United States Supreme court on the constitutional ground that his life had twice been placed in jeopardy.

General.

Representative Oscar Underwood of Alabama has purchased the former residence in Washington, D. C., of Maj. Archibald D. Butt, who lost his life in the Titanic disaster.

"Gyp the Blood," "Lefty Louie," "Dago Frank" and "Whitey Lewis" killed the gambler, Herman Rosenthal, at the instigation of Charles Becker and must pay the penalty of death in the electric chair. The jury which has been hearing the evidence against the four gunmen so decided, when it returned a verdict of murder in the first degree, after but 20 minutes of deliberation. The gunmen heard the verdict pronounced against them without show of emotion.

While selecting a coffin for his wife, who died at Raleigh, N. C., George Newton, aged 65, was crushed when a show case containing half a dozen caskets fell upon him. Physicians say he will die.

Another gang of motor car bandits is operating in the outlying districts of Paris, France.

Unknown yeggmen looted the vault of the Kingston, Texas., Bank and Trust company, escaping with about $1,500 in gold and silver, $90 in currency and several hundred dollars' worth of stamps and other postoffice supplies.

Attainment of a four-billion-dollar foreign trade by the United States in 1912 will be one of the most noteworthy facts for historian to record.

A tablet in memory of Mrs. Isadore Straus and of the devotion which led her to stay by her husband's side when the Titanic sank, was unveiled at the home of the Daughters of Jacob in New York City.

Twenty-four men were killed outright when fire damp exploded in a coal mine at Alais, France.

A terrible panic was caused by the cry of "Fire!" at a moving picture show at Bilboa, Spain. About fifty children and others were killed. Only one woman was found among the dead. The number of injured is not known, as most of them were taken home by friends. The managers and other employes of the show have been arrested and are held pending an inquiry.

Milton Eix, manager of a pool room in Helena, Ark., was mortally wounded and Charles Norman, a barber, was instatly killed at Marvell, Ark., when a bullet fired by Robert Davidson plowed through the body of Eix and struck Norman. Eix died later. The cause of the shooting could not be ascertained. Davidson, a member of a prominent family, is under arrest.

Returns on the initiative and referendum measures submitted to Montana voters at the recent election make certain that the measures providing for party nominations for state officers by direct vote, limiting of campaign expenditures of candidates to 15 per cent. of the office salary for one year, providing for the direct election of United States senators, and for a presidential primary, all carried by a margin of 2 to 1.

John Schrank, who shot Col. Theodore Roosevelt on the night of October 14, in Milwaukee, is insane, and has been committed by Municipal Judge A. C. Backus to the Northern hospital for the insane, near Oshkosh, until cured.

Chicago burglars hurled a horseshoe, wrapped in a newspaper through the window of Berg & Co., jewelers on Michigan boulevard, and escaped with jewelry valued at $2,500.

The annual session of the Virginia Methodist conference, which has been in session in Lynchburg, ended after the annual appointments. The last business was the report of the board of missions, which showed collections for the year amounting to $142,000 for home and foreign work. Of this $90,000 was raised through the churches, the remainder being from the women's and chidren's work.

Armed with an infernal machine, containing enough dynamite to destroy an entire city block, a bottle of nitroglycerine and a 45-calibre revolver, a masked man took possession of the Central police station at Los Angeles, Cal., and held it for more than an hour, while hundreds of occupants of the building and those for blocks around, panic-stricken, sought safety in distance.

The Turkish fortress of Monastir has surrendered to the Servians. Fifty thousand Turkish soldiers and three generals laid down their arms. Monastir had virtually been surrounded by the Servian troops for some time, while Greek troops, coming from the south, had cut off the Turkish line of retreat to Ochrida. With cholera and typhus raging within her demoralized army, and a powerful enemy hammering at her gates, Turkey again appeals to the allies for terms. Monastir is the second city of importance in European Turkey. It was Turkey's stronghold in Macedonia, and by its downfall Macedonia passes completely out of Turkish hands.

Washington.

Political campaign material transmitted free of postage through the mails, accounted according to postoffice department records, for the difference between a postal surplus and a postal deficit for the last fiscal year, ending June 30.

The $500,000 appropriated by the last session of congress for improvement of roads will be distributed equitably among the states that co-operate with the Federal government in this work. The amount will be allotted among all states on the basis of $10,000 to each state that agrees to spend on its part $20,000 of its own funds.

A nation-wide raid, involving practically simultaneous arrests of 173 persons in the principal cities of the country, was made by postoffice inspectors and United States marshals upon doctors and drug concerns who are charged with the misuse of the mails to solicit criminal medical practice, or to dispose of medicines and instruments connected with such practice. The arrest is the culmination of the crusade instituted two years ago against the fraudulent use of the mails, and it is asserted that the wide publicity given to the arrests made will do more to put an end to this particular sort of criminality than any number of practically unknown prosecutions of widely separated cases.

The opening attack upon the constitutionality of the sections of the recent postal appropriation act requiring newspapers to give postal authorities access to their circulation records and to publish the names of their stockholders and bondholders, as well as to label political articles as advertisements, was made before the United States Supreme court in a printed brief filed by Robert G. Morris and G. B. Plante on behalf of the Journal of Commerce and Commercial Bulletin of New York City. The case is set for argument orally on December 2-3 Washington, D. C.

BANKERS PREDICT PROSPEROUS YEAR

EASIER MONEY AND EXPANDING BUSINESS WILL BE RULE.

BOUNTIFUL CROPS THE BASE

For First Time in Years Each Section Was Its Own Financier—All Parts of the Country Agree in Statement.

Cleveland, Ohio.—Easier money, expanding business and an era of the greatest prosperity this country has ever seen. Such were the predictions made by five score investment bankers now on their way to New York to attend the first annual convention of the recently formed association. Politics, they said, cannot stop it, and the tariff discussion will not materially delay it. The country is ripe for a fresh extension of commercial activities. Representative investment bankers of New Orleans, San Francisco, Seattle, St. Louis and the Ohio valley agree that the moment the crop movement is over and the millions of dollars now locked up by this newly created wealth are released, commercial activities will be resumed on a scale hitherto unparalleled.

"In Louisiana and on the gulf the monetary situation annually is a peculiar one," said R. S. Hecht, of the Hibernia Bank and Trust Company, New Orleans. "From September to January we borrow from Chicago and the East; the rest of the year we loan. Rates in early winter are high; we are getting 7 per cent now. That means slow bond business until New Year's, but from that day on money is easier with us and investments multiply."

"We have all the money we need to finance the big crops raised in our Northwestern States," said Eugene M. Stevens, of Stevens, Chapman & Co., of Minneapolis. "Money is high, of course, but not abnormally so. With the biggest crop ever harvested, conditions for handling it so far have been ideal. Farmers have taken their time in marketing it and there have been no strains at any time. We expect to see funds flood back in quantity soon after the new year. Large projects are contemplated, which will be brought out after crop requirements have passed."

FOR TRADE AUTONOMY

Principle of Industrial Unionism Defeated by Federation.

Rochester, N. Y.—After a debate that lasted all day, members of the radical wing of the American Federation of Labor were defeated by a vote of nearly two to one in their attempt to have the federation adopt the principle of industrial unionism in place of its policy of trade autonomy. Two hundred and forty-nine delegates voted against the minority report of the committee on education, which favored the principle of industrial unionism, and 142 voted in its favor.

The voting strength of the convention, based on membership in represented bodies, went 10,983 against the minority report and 5,929 for it. After the minority report had been defeated, the majority report in favor of the continuance of trade autonomy was adopted by acclamation.

CAPT. W. G. WATKINS DEAD

Confederate Escaped While Under Orders to Be Shot.

Clinton, Mo.—Capt. W. G. Watkins, who served under Gen. George Shelby in the Civil War, died here, aged 79. While recruiting a company for the Confederate army Capt. Watkins was discovered within the Union lines and was captured, courtmartialed and ordered shot. President Lincoln approved the order but Watkins escaped, rejoined his regiment and served through the remainder of the war.

A copy of his death warrant signed by Lincoln given him after the war was highly prized by Capt. Watkins.

Suffragists Give Thanks for Victory.

Philadelphia, Pa.—With bowed heads and led in prayer by Bishop Rhinelander of the Protestant Episcopal diocese of Pennsylvania, more than 500 delegates to the National American Woman Suffrage convention and thousands of their friends gave thanks to the Almighty for the recent suffrage victories in the four states of Arizona, Kansas, Michigan and Oregon.

The meeting was in the nature of a jubilee for the success at the polls of woman's enfranchisement.

Lectures on Jefferson.

Washington.—"The Influences of Thomas Jefferson," is the theme of a series of lectures Senator John Sharp Williams has consented to deliver at Columbia University. The senator has accumulated very considerable data and commentaries, with his own observations of the life and potentialities in the affairs of men to the founder of the Democratic party and the master builder of republic of the United States.

Money From Morgan.

New York.—Announcement is made that the New York, New Haven and Hartford Railroad Company has sold $40,000,000 one-year 5 per cent notes to a banking syndicate headed by J. P. Morgan & Co.

Pipe Ignites Whiskers.

Middletown, N. Y.—A spark from the pipe John E. Gilson was smoking ignited his long whiskers. The flames spread to his clothing and he was burned to death.

LIFE'S DISAPPOINTMENTS

(Copyright.)

MARK GRAVES OF CONFEDERATE DEAD

HEADSTONES PLACED ON 22,401 GRAVES IN LAST SIX YEARS.

BERRY'S WORK IS COMPLETE

Arkansan Alone of Commission Appointed in 1906 by Congress Lived to Report Quest for Lasting Places of Comrades.

Washington.—So far as an earnest and careful search by one of their own leaders on the field of battle can assure, every Confederate soldier and sailor who died in a Northern prison and was buried nearby now lies beneath a headstone or a monument of marble. Gen. James H. Berry, ex-senator from Arkansas, the only surviving member of the commission entrusted by congress with this task, has just reported the completion of his work to the secretary of war.

The suggestion that the national government mark these long-neglected graves came originally from the late President McKinley in the course of one of his speeches delivered in the South and took form in an act of congress of March 9, 1906. This appropriated $200,000 for marking the graves and created a commission to do the work. In the past six years two commissioners, ex-Representative Elliott of South Carolina and Gov. Oates of Alabama, have passed away and it has remained for Gen. Berry, one of the few living Confederate generals, to carry out the work.

Gen. Berry's report will be transmitted to congress. It shows that the general found and marked by headstones and tablets the bodies of 22,401 Confederate dead, including all positively known to fall within the terms of the act. In every case where it was possible each of these graves was marked with a white marble headstone, similar to those placed over the graves of the Confederate section of the Arlington national cemetery.

PROVIDE FOR EX-PRESIDENTS

Representative Burleson Would Pay Them $17,500 Yearly.

Washington.—Representative Burleson of Texas has a plan for taking care of ex-presidents that will in all probability be put through this congress in a hurry so as to give an official reply to Andrew Carnegie's offer to pension them, an offer which Burleson thinks abhorrent to every right-thinking American. He is going to offer an amendment to the legislative, executive and judicial appropriation bill making former presidents life members of the house of representatives, with right to introduce bills and take part in the discussion, but not to vote, each to have an annual salary of $17,500.

Taft Outran Colonel.

Dallas, Tex.—Taft ran ahead of Roosevelt in Texas, and the Socialist vote was such a good runner-up that the Socialists stood second to the Democrats for governor, though beaten on national tickets by the Republicans and the Progressives. The Texas vote was:

Wilson 221,435, Taft 28,668, Roosevelt 26,740, Debs 25,742, Chafin 1,738, Reimers 442.

Down and Outers Aided.

New York.—A week's celebration of thirty-three years' work in helping "down and outers" to the "up and in ranks" was begun by the Bowery Mission with song, prayer, anniversary sermon, reminiscences and much feasting. The latter, in which hundreds shared, was at the expense of "Mother" Sarah Bird and Frederick Townsend Martin and it marks the reopening this week of the winter bread line, at which a thousand cold and empty stomachs are warmed and filled every midnight with hot coffee and rolls.

200 Bodies Recovered.

Mexico City.—The bodies of two hundred persons killed in the earthquake Tuesday have been recovered from the ruins of the little town of Acambey, in the northern part of the state of Mexico.

Miss Taft Tests Lock.

Colon, Panama.—One of the giant gates of the Gatun locks in the Panama canal was tested for the first time, when Miss Helen Taft put the electrical machinery in operation and swung the gate open.

PROVIDE PENSION FOR EX-PRESIDENTS

$25,000 A YEAR WILL BE PAID WITHOUT APPLICATION.

WIDOWS DRAW SAME AMOUNT

Executives Will Be Given Oportunity to Devote Their Knowledge to Furthering Public Good Free From Pecuniary Worries.

New York.—Futuere ex-presidents of the United States are to be pensioned in the sum of $25,000 each annually, by action of the Corporation of New York. The grant is provided with the idea of enabling former executives of the nation to devote their unique knowledge gained in public affairs to the public good, free from pecuniary care. A similar amoun is to be paid widows of ex-presidents as long as they remain unmarried.

The pensions are to be promptly offered to the ex-presidents or their widows, so that no application will be required from them. Payment is to be continued so long as the recipients remain unprovided for by the government.

The announcement followed the second annual meeting of the corporation, held at the residence of Andrew Carnegie here and attended by the corporations eight trustees.

Five of these eight trustees are the heads of five institutions which Mr. Carnegie has founded—the Carnegie endowment for international peace, Elihu Root, president; the Carnegie foundation for the advancement of teaching, Henry S. Pritchett, president; the Carnegie Institution of Washington, Robert S. Woodward, president; Carnegie hero fund commission, Pittsburg, Charles L. Taylor, president; Carnegie Institute of Pittsbug, William M. Frew, president. The successors of these five men become ex officio trustees of the Carnegie Corporation of New York.

HONOR CAPTAIN ROSTRON

President Taft Approves Selection of the Medal.

Washington.—President Taft approved the choice of the fine arts commission for the design of a gold medal to be presented to Capt. A. H. Rostron of the Cunard liner Carpathia for his heroic services in saving the survivors of the Titanic disaster.

The accepted design bears on one side a bas-relief head of Capt. Rostron, encircled by the words "To Arthur Henry Rostron, the thanks of congress for heroically saving the 714 passengers of the Titanic in mid-ocean."

On the reverse appears a bas-relief scene showing two male figures in a life boat casting a line to a man just about to sink beneath the sea. On this side also appears the date of the rescue, April 15, 1912.

ALLEN GETS FIFTEEN YEARS

He is Found Guilty of Second Degree Murder.

Wytheville, Va.—Sidna Allen, leader of the clan which shot up the Carroll county court at Hillsville last March resulting in the death of five persons, was found guilty of murder in the second degree for the killing of Judge Thornton L. Massie. The jury fixed the penalty at fifteen years in the penitentiary.

The jury deliberated twenty hours before reporting its verdict. Wesley Edwards, nephew of the clan leader, who was captured with him at Des Moines September 14, remains to be tried.

The prosecution announced that it would next take up another indictment against the prisoner, that charging the murder of Commonwealth Attorney William M. Foster.

Until the case of Sidna Allen is disposed of, nothing will be done in the case of his nephew, Wesley Edwards.

Brauer Plan Loses.

Spokane, Wash.—The Brauer plan for a million-dollar corporation for direct co-operative marketing of farm products was voted down by the National Grange after a sharp fight. In place of the Brauer plan the grange indorsed a plan for state and national "bureaus of information" as the first step toward co-operative marketing of farm products by this plan each state grange will establish a bureau which subordinate grange will keep informed as to marketing conditions.

SENATOR RAYNER CALLED BY DEATH

MARYLAND SENATOR SUCCUMBS AFTER FIVE-YEAR ILLNESS.

SENATE EVENLY DIVIDED

Gov. Goldsborough Will Name Republican—Rayner's Death Sweeps Away Democratic Majority of One Vote in Senate.

Washington.—Isidor Rayner of Maryland, one of the leading Democratic members of the United States senate and a man whose name was offered to the Baltimore convention by William J. Bryan as a suitable candidate for the presidential nomination, died here at the end of a long illness, resulting from continued attacks of neuritis.

His severe illness covered a period of

ISADOR RAYNER.

about six weeks, dating from the efforts made in the joint political debate with Bourke Cockran at Baltimore, late in September. Physicians compelled him to retire from the campaign immediately after that, and he returned to his Washington home, where he died.

For over five years Senator Rayner had been a sufferer from neuritis, the attacks of which often made his work in the senate arduous and painful.

His death creates a vacancy in the senate that probably will be filled by a Republican through appointment by Gov. Goldsborough of Maryland. While the legislature of that state is Democratic, it does not meet this winter, and the Republican governor's appointment will hold through the opening session of the next congress.

Senator Rayner was one of the striking figures of the senate. He had been a member of that body for almost eight years and was one of its strongest debaters and a recognized authority on constitutional law.

Before he entered the senate he had attained a national reputation because of his vigorous conduct of the late Admiral Schley's case before the naval court of inquiry that investigated the action of American officers in the battle with Admiral Cervera's Spanish fleet.

Mr. Rayner was a native of Baltimore and was 63 years old.

SCHRANK PLACED IN ASYLUM

Colonel's Assailant Says He Is Fond of Hunting Bull Moose.

Oshkosh, Wis.—John Schrank, who shot Col. Theodore Roosevelt, arrived at the Northern Wisconsin Hospital for the Insane Monday, and was assigned to a ward of the criminal insane.

When Lake Winnebago came into view he was asked if he was fond of hunting, and replied with a smile:

"Only of bull moose."

PHYSICIAN LOST IN WOODS

Hope Abandoned for Dr. Stevenson, Missing Eight Days.

Fort Smith, Ark.—Dr. Eugene Stevenson, one of the most prominent young physicians in Fort Smith, has been lost for eight days in the Kiamichi mountains in Oklahoma, according to members of his hunting party, who returned to Fort Smith. All hopes of finding him alive have been abandoned. The mountains furnish one of the wildest spots in the Southwest, and are infested with many species of wild animals. Dr. Stevenson became separated from his companions while hunting, and, although a wide search was made, no trace of him could be found.

GRAFT SKIN ON BABY

Actress' Child Rushed Across Continent for Aid.

Los Angeles, Cal.—"Baby" George Harrington, six-months-old son of Mrs. Charlotte Harrington, an actress, who lost her life in the St. George Hotel, is being rushed East in an effort to save its life.

The baby was so severely burned that at first it was feared it would be necessary to amputate one leg, but it was decided later to try skin grafting. On the same train with the child is the body of the mother.

Hyde Denies He Juggled Funds.

New York.—Charles H. Hyde took the stand in his own behalf at his trial on the charge of bribery and categorically denied accusations that, as city chamberlain in 1910, he forced the Northern Bank to lend the Carnegie Trust Company a large sum of money by juggling with city deposits, and that a specific case of bribery had resulted from a conversation with Joseph G. Robin of the Northern Bank on August 28, 1910. At the time the alleged bribery conversation took place, Hyde asserted he was at his suburban home on Long Island.

AFTER HE HAD COUNTED THEM

His Companions Safe, Philadelphia Man Was Satisfied That He Had Really Shot Buck.

Thomas Martindale, the Philadelphia moose hunter, said, apropos of the opening of the deer season:

"Buck fever is a strange disease. The victim of it does some remarkable things.

"A Philadelphian was deer hunting in Maine. He shot four or five shots into a thick copse, and then he shouted:

"'All of you come out of there!'

"Half a dozen sportsmen issued from the copse hurriedly.

"'Are you all out?' said the Philadelphian. 'One, two, three, four Where's Jake? Oh, there you are, Jake. Are you all out, sure?'

"'Yes,' they answered. 'We're all out; the whole party's out.'

"'Hurrah, then!' shouted the Philadelphian. 'Hurrah! I've shot a buck!'"

It may be all right for a man to have a past, if it will only stay past.

To prevent Malaria is far better than to cure it. In malarial countries take a dose of OXIDINE regularly one each week and save yourself from Chills and Fever and other malarial troubles. Adv.

Good Reason.

"Why do you call the popular game poker?"

"Because it stirs things up."

DOES YOUR HEAD ACHE?
Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Limit.

"Here's your portrait, sir."

"That my portrait? Well, I may have sat for it, but I won't stand for it."

Chance.

"I always embrace an opportunity."

"But, then, you must be careful you are not hugging a delusion."

That Is Unkind.

Smelled a Grafter.

A Boston clubman recently returned from a visit to New York city. In discussing his trip one of his friends asked him whether he had a policeman in his pocket. The clubman hesitated for a moment, seriously questioning his friend's sanity, when the latter added:

"I didn't know whether you could be there a week without some grafter or other getting into your pocket."

Usual Kind of Office Seekers.

"Well, how's every little thing, now that election is over?" asked the recently arrived washing machine agent.

"'Bout as they are every place else, I reckon," a bit pessimistically replied the landlord of the Tuxgidtown tavern. "The banker, the storekeepers, the lumber yard man, the doctor, the stock buyer, the blacksmith and all the rest of the business men who have always peared to be capable of managing their various sized affairs successfully, are going on calmly and carefully attending to 'em, while all the trifflin', one-gallused incompetents that have never had any affairs of their own to attend to and wouldn't be capable of conducting 'em properly if they had any, are out hotfoot and hell-bent to get and manage the postoffice for the rest of us!"

A FRIEND'S ADVICE
Something Worth Listening To.

A young Nebr. man was advised by a friend to eat Grape-Nuts because he was all run down from a spell of fever. He tells the story:

"Last spring I had an attack of fever that left me in a very weak condition. I had to quit work; had no appetite, was nervous and discouraged.

"A friend advised me to eat Grape-Nuts, but I paid no attention to him and kept getting worse as time went by.

"I took many kinds of medicine but none of them seemed to help me. My system was completely run down, my blood got out of order from want of proper food, and several very large boils broke out on my neck. I was so weak I could hardly walk.

"One day mother ordered some Grape-Nuts and induced me to eat some. I felt better and that night rested fine. As I continued to use the food every day, I grew stronger steadily and now have regained my former good health. I would not be without Grape-Nuts, as I believe it is the most health-giving food in the world." Name given by Postum Co., Battle Creek, Mich.

Read the book, "The Road to Wellville," in pkgs. "There's a reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest. Adv.

OPTIMISM SHOWN IN TRADE CHANNELS

Southern Trade Tends to Lag Behind —Exports Are Heavy.

New York.—Bradstreet's review of trade says:

Trade channels are running full with optimism predominant and this despite widespread evidences that mild weather is a bar to fullest activity in final distribution. It is to be noted, however, that mild climate conditions are and have been in a high degree favorable to agricultural and transportation interests.

The strength of prices and of demand in the textile trades is a subject of interest. Dry goods are in active demand from mill to retailer, though mild weather hampered retail demand for heavy weight goods. Cotton goods are strong and print cloths and brown cottons have advanced in price with commission men. In the yarn trades both cotton and woolen lines are strong and active. Raw wool of the old clip is in scant demand. Specials in normal demand and firm in prices. Best reports as to jobbing and retail trade as heretofore and from the west, northwest and southwest warehouse trade has fallen off as in the case of some markets, road orders have more than made good the deficit.

Southern trade tends to lag somewhat behind the other sections. Real slowness is manifested only at a few southeastern points.

Operations in iron and steel lines continue as active, if not more active, than heretofore.

Business failures in the United States for the week ending November 21 were 268 against 260 last week, 293 in the like week of 1911, 212 in 1910, 217 in 1909 and 193 in 1908.

Business failures in Canada number 36, which contrasts with 33 for last week and 34 in the like week of last year.

Wheat, including flour, exports from the United States and Canada for the week ending November 21 aggregate 6,114,537 bushels against 5,171,894 last week and 4,002,440 this week last year. For the 21 weeks ending November 21 exports are 91,563,764 bushels against 65,879,125 in the corresponding period last year. Corn exports for the week are 59,464 bushels against 24,524 last week and 188,803 in 1911. For the 21 weeks ending November 21 corn exports are 1,512,824 bushels against 10,992,501 last year.

New York.—R. G. Dunn & Company's weekly review of trade says:

Trade in the United States shows further expansion, reports from different sections and all statistics of traffic and exchanges speaking of a great activity that in some instances is bounded only by the limit of capacity.

In iron and steel the leading interest is operating at about 95 per cent of capacity. Current bookings continue to exceed production, with railroad requirements forming a large share of the new business.

Estimates indicate that more than 2,000,000 tons of rails already have been closed for next year, while Chicago reports the sale of 30,000 tons of car material, practically all of which is for delivery during the second half of 1913. Quotations in all lines are firm, nd premiums are paid with increasing frequency. Purchases of pig iron by steel making concerns add strength to the market, and basic iron for the first quarter is likely to advance. Continued pressure for steel billets and sheet bars is noted and available tonnages for prompt shipment are quickly taken. Open hearth and Bessemer billets are strong at $28.50 to $29.50, Pittsburg. Plate and shape mills are covered several months ahead, and some producers virtually have withdrawn from the market.

In the primary dry goods market there is a large volume of business, with prices in practically all instances well maintained. Jobbers of cotton goods are making liberal purchases of domestics and staples for spring. Bleached cottons have stiffened. There is more activity in print cloths for future delivery, and the duck markets continue very strong. Export trade has been only moderate of late, but shipments for the year to date aggregate 364,000 bales, against 314,000 bales during the same period in 1911.

In woolen, there is an active demand for overcoatings for immediate delivery, and desirable goods bring full market rates. Considerable business has been offered the mills for the next heavyweight season, but comparatively few orders have been placed because manufacturers are asking higher prices than buyers are willing to pay. A very active trade is moving in worsted knitting yarns and cotton yarns have sold freely at firm prices.

The activity in the shoe trade has now reached to the point of productive capacity. Leather and hides continue very strong.

AND GETS LEFT.

Lady—I hope you go to Sunday school regularly, my little man.

Little Man—Dat's what ma hopes, too.

ECZEMA ON CHILD'S FACE

R. F. D. No. 5, Lexington, Tenn.—"My little boy broke out on the face with that terrible disease, eczema, when he was just one month old, and I just thought sure it would kill him, as it killed our other baby at five months old. It would break out in pimples and scab over, and he cried day and night. I thought that there was no cure for him at all. His face would itch and burn so bad that I had to tie his little hands down so he could not scratch his face.

"We began at once to have him treated until he was seven months old, and he got worse all the time. I sent and got a box of Cuticura Ointment and one cake of Cuticura Soap. I had not used them a week until I could see a great change, and they cured him sound and well and never left a single scar." (Signed) Mrs. Lillie Sikes, Feb. 17, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

A Civil Answer.

BOSTON CHILD KEPT DIGNITY

Matron Meant to Be Kindly, But Youngster Was Not Conversationally Inclined.

This story has been going the rounds of Boston about the ten-year-old son of Director Russell of the Boston opera house.

One evening during an entr'acte at the opera house Master Russell was promenading alone in the foyer, in faultless evening dress—a very glass of fashion. A Boston matron, seeing that he was lonely, began to make herself "agreeable."

"You are Director Russell's little boy, aren't you?" she asked, with patronizing sweetness.

Master Russell resented this intrusion on his dignity, but his courtly maners were unruffled. "Yes, madam," he replied, with an elaborate bow.

"Where were you born?"

"In France, madam"—Slightly more frigid.

"What part?" continued the lady, feeling the conversation well started.

"All of me, madam."

And he bowed and walked away.—Judge.

Suicide Among German Children.

Why do so many German children commit suicide? No one seems to know, but there is no dispute about the fact. Indeed, it has been said that the majority of suicides are those of children, and experts seem inclined to connect the grisly epidemic with the educational system. That "the weak must go to the wall" has become an axiom that has been extended to the schools, and the undeveloped mind of the child seeks relief in suicide from the discouragement of failure. It would be interesting to know if any of the so-called heathen countries of the world have ever experienced such a horrid social phenomena as that of child suicide.

The Tender Spots.

"What have you done toward punishing lawbreakers?"

"Well," replied the shady police officer, "I have done a great deal toward hurting their feelings by taking their money away from them."

A great majority of summer ills are due to Malaria in suppressed form. Lassitude and headaches are but two symptoms. OXIDINE eradicates the Malaria germ and tones up the entire system. Adv.

Boomerang.

Mrs. Hiram Offen—I'm afraid you won't do. As nearly as I can find out, you have worked in six or seven places during the last year.

Miss Brady—Well, an' how many girls has yerself had in the same toime? No less, I'm thinkin'.—Boston Transcript.

THE DREADFUL DISEASE MALARIA quickly cured by that wonderful remedy Elixir Babek.

"The result has been an absolute cure to me, and it affords me the greatest pleasure to recommend 'Babek' to all who are suffering from that dreadful disease, known as malaria."—Clarence Elmo Ergood.

Don't suffer from chills & fever, ague or grippe when you can get prompt relief.

Elixir Babek, 50 cents, all druggists, or Klocszewski & Co., Washington, D.C. Adv.

Society.

Mrs. Wayupp—No wonder I look worried, my dear. My husband has just gone out, and if he is discovered it will probably cost us our social position.

Mrs. Blase—Goodness! Where is he?

Mrs. Wayupp—He has gone out incog, to pay a bill.—Puck.

Muff.

Senator Borah was talking about a disgruntled political opponent.

"His attitude," said the eloquent senator, "reminds me of a young lady at the seashore.

"Discussing this young lady and a Chicago millionaire, a girl remarked:

"'She says he's not a very good catch, after all.'

"Another girl, tossing her head, then made the comment:

"'She says, that, does she? Then he must have dropped her.'"

Worth Three Times a Diamond.

Nearly all the emeralds mined today come from Colombia. And, in spite of the supposed higher value of diamonds, the emerald is the most precious of gems. Carat for carat, a flawless emerald would bring perhaps three times the price of a flawless diamond in the jewelry market. India, the storehouse of precious stones, is credited with producing the first emeralds, but the Oriental emerald is not identical with the modern gem, as it is a variety of the ruby, of green color and extremely rare.

Poor Girl.

"How long have you been married?"

"It will be six months next Thursday."

"And do you still regard your husband as the most wonderful man who ever was born?"

Then the poor girl broke down, says the San Francisco Star, and sobbed piteously. When she could trust herself to speak again she said:

"No. Charles has disappointed me terribly. I'm afraid I have wrecked my little life. Last night when I asked him to get up and see if there wasn't a burglar in our room he bumped his nose against the edge of the open door and he said three simply awful words just as if they came natural to him."

TRY, TRY AGAIN.

She—And why are you afraid to ask papa?

He—Well, I've asked him for three of your sisters already.

Education and Larger Life.

It seems to me that the woman who cannot cut out a garment better because of her geometry and her drawing lessons, who cannot speak English more distinctly and with fuller vocabulary because of her study of French or German, who cannot find a hundred uses for her chemistry in the little everyday emergencies of her housekeeping, has not succeeded in getting from her studies all that they had to give her.—Home Progress Magazine.

Exceptional Child.

First School Teacher—Does Edith's little girl ever make any bright answers?

Second School Teacher—No; she always knows her lessons.—Judge.

Not the Same.

"You used to call your wife 'Kitten.'"

"I know, but she has grown since then."—Judge.

Their Class.

"How would you describe these letters of a chiropodist?"

"I'd class them as foot notes."

Providing.

"Is it really easy taking candy from a baby?"

"Not if the baby takes the place."

Too Great Expectations.

First Angler—Look, this fish was almost caught before; see the broken hook in its mouth.

Second Angler—It should have had sense enough to steer clear of hooks after that.

First Angler—Oh, come, you can't expect a fish to exhibit more sense than a human being.—Boston Transcript.

Heredity.

She—Sometimes you appear really manly and sometimes you are effeminate. How do you account for it?

He—I suppose it is hereditary. Half of my ancestors were men and the other half women!—Tit-Bits.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM
Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form, and the most effectual form. For grown people and children, 50 cents. Adv.

Overheard in a Laundry.

"He musta gotta raise, Bella. Here's two shirts in the wash the same week."

As a summer tonic there is no medicine that quite compares with OXIDINE. It not only builds up the system, but taken regularly, prevents Malaria. Regular or Tasteless formula at Druggists. Adv.

A deaf mute in Ohio recently gave a minister a $250 marriage fee. A wife ought to be worth that to a deaf man.

Matters of Especial Moment to the Progressive Agriculturist

Everybody loves a booster.

A pig never squeals because he has too much to eat.

If a man is a financial success people overlook the means that made him so.

It's a waste of time to fix up your statistics for the benefit of the recording angel.

Be sure the specifications are correct, when you start building that reputation.

Many a man thinks he is a saint because he has dreams of heaven every Sunday.

A carefully kept account book saves your head, your hands, and your hard earned cash.

We never yet knew of a law suit that paid anybody in the long run except the lawyers.

The man who talks to please himself soon has the audience well pleased with itself.

When you hear an extravagant compliment you are disposed to think there is a good deal in it.

The man who practices honesty solely as a matter of policy does not know what real honesty is.

There are those who work very hard to keep up a home which they never help to make pleasant.

As long as farmers can be kept pulling apart the middlemen will continue to get fat on their labor.

The average girl treats a new acquaintance better than she does an old friend—so the old friend thinks.

Some farmers appear to think when you suggest a new idea to them that you are trying to knock the foundations of life from under them.

Don't forget the school children need tools to work with just as much as any other worker. Here surely is not the place to "cut down expenses."

Who is not wiser in the fall than he was in the spring has not made the best use of summer, no matter how full his granaries promise to be.

We maintain that any man whose farm is big enough to keep two or three hired men busy, can make more money by the use of his brains than by working with his hands.

Some of us let mighty good opportunities slip by waiting for inspiration or the psychological moment, all the time forgetting that idleness never inspired anybody to do anything.

BETWEEN CITY AND COUNTRY

Era of Misunderstanding Fast Disappearing and Progress Means Solution of Big Problems.

To the Members and Officers of the Farmers' Union:

Unrest is back of every intellectual or political crusade or tendency in this country today.

One need not be a Republican, a Democrat, a Socialist, a Bull Moose or a member of any other party to realize that fact.

Look about you and with very few exceptions you will see few people who are satisfied with existing conditions. One party may diagnose the trouble in its own particular way, and prescribe its own particular remedy. Another party may take an exactly opposite course.

But the man in the city or the country, if he reads and thinks and observes even a little, realizes that slowly, but irresistibly, there is approaching a readjustment in America; and in this readjustment, the main battle cry will be a more equal distribution of the burdens and the rewards, of the penalties and the premiums.

The great majority of Americans are discontented with the status as it now is, and the new spirit that is breathing over the face of the waters of thought and sentiment is the genuine and not the fake brotherhood of man—or at least a condition nearer approximating it than we have seen yet in this nation.

In that day of change, of evolution, that is coming, it is to the interest of both town and country to stand as one. In the final analysis, we are all Americans.

It is true, that a few prey upon town and country alike. It is against the interest of this few to encourage a thorough understanding between town and country.

We must remember, in considering this fact, that the cityman of today was the countryman of yesterday; that the countryman of today is likely to be the cityman of tomorrow; that both are of the same blood, with the same ties and the identical ultimate interest.

I am glad, as every thinking American should be glad, that the era of misunderstanding between city and country is disappearing. Progress in that direction means that in the arduous and delicate solution of the problems that beset our common nation, town and country will be arrayed together and battling for human rights, whether in the most popular city or the most sparsely settled country.

CHARLES S. BARRETT.
Union City, Ga.

Turkeys Pay.

Early turkeys are what pay, and these can only be had from early laid eggs.

FARMERS TOO CONSERVATIVE

More Knowledge and Better Business Methods Needed in South—Urged to Rotate Crops.

I have been in the farming business and associated with others who dig their living out of the ground for a long time, and I know the conditions and the shortcomings of the people in this line of business.

And the thing that impresses me most is that most of us are so apt to go along in the beaten track, doing the things we have been doing and that our neighbors are doing, without even thinking about making any change in the regular program. And there is a good reason for this, too, says a writer in the Farm Progress. When we branch out and tackle some new kinds of crops and new ways of doing things, we are pretty sure to strike a snag. Where I was raised, in an eastern state, every farmer I knew in a radius of ten miles planted corn and tobacco, and sowed wheat and oats. Some made money and some did not; it depended on the business methods of the farmer.

I thought then, and I know now, that it is foolish for a man to go on doing the same things the others are doing, just from force of habit. And this is notably true of the people in most of the southern states and those bordering on them. But it is quite true also of many farther north.

What we need is for men to rise above the level of the daily work and its associations and do some thinking for themselves. I have been in the business most of my life, and my opinion is that the man who gets his living from the soil is more "set in his ways" than anybody in any other business. And there is where we make our mistake.

For a third of a century I have been associating with the same men who own farms in one of the oldest states, and I have never known them to make any material change in their methods. Their crops are composed of wheat, oats, corn and tobacco. Their rotation is oats after corn, wheat after tobacco. Some of them save all the manure; all of them buy some fertilizers for tobacco, and some have them for their wheat.

Almost all of them sow clover on the wheat, and generally get a good growth of both on tobacco land. They may sow some grass on the oats; but most likely they do not. So it is very natural that the "tobacco lots" are keeping up, and the rest of the land is running down. But there are some who are wide awake, and in some neighborhoods they have taken to sowing Canada peas, as well as the common cowpea, on as much of their land as possible, and I do not know of a man who is a crank on cowpeas who is not making his farm better every year. Some, not so many, sow a good many of the Canada field peas, which come earlier and when there is greater need for something to supplement pasture for cattle or hogs.

I have used both these forage crops with great satisfaction, and I am confident that the general adoption of a rotation including one or both of them will do more to cheapen production of pork or of beef and milk than any crop not of the grass or clover kind. If a man is cropping his farm to corn, wheat and oats, with some other special "money crop," he will find that, any such crop will make better returns planted on a clover sod or peas than anywhere else; no matter whether it is tobacco, cotton or any of the market crops that prevail in the limits of the corn belt.

Both corn and wheat can be counted on for the best yields when they follow any of the leguminous crops. And, if the owner is wise and up to date, no matter whether his main crop is to be corn, tobacco, potatoes, wheat, oats or something else, he will find that stimulating the soil for the improving crop is by far the best method to secure the largest crop of whatever he gets his profit out of. In some tests I have made with corn I found that where the soil was a little thin in spots, and the clover had to be helped by a good application of fine manure, the clover on such places was almost equal to the rest, and the succeeding crop was even better. I like to see a field in any crop, particularly of grain even in growth, color and yield, and I cannot but feel that a man is a mighty careless farmer who will let thin spots in a field mar the beauty of appearance and cut down the actual profits. And it is really surprising how many men seem to be extremely careless about such things.

Perhaps, when all the young men in the agricultural colleges get down to practical farming all over the country, their example will stimulate us older ones to adopting better ways.

Cultivator Pays.

Professor Massay says: "The man who walks across the fields four times, or even two times to cultivate each row of corn or cotton, wastes enough labor in one season, if he has a crop of any size, to pay for a two horse cultivator." If you doubt this statement just take a day off and figure it out with your pencil and paper.

Vigorous Sires.

It is reasonable to concede that animals which are enfeebled either by disease or age are not capable of siring or producing foals, which at maturity will have as much vitality, strength and endurance as the foals sired or produced by the same animals before their vigor is impaired.

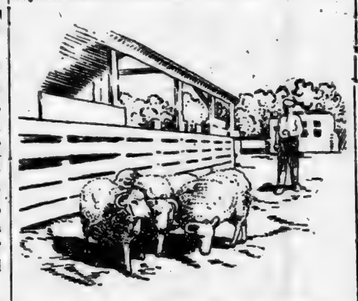
MOST PROFITABLE SHEEP FOR AVERAGE MAN TO RAISE IS DUAL PURPOSE ANIMAL

Wool Should Not Be Too Coarse or Excessively Fine, but Should Possess Something of Medium Quality—Superior of Mutton and Wool Most Desirable.

(By L. C. REYNOLDS.)

The best time to study the wool producing quality of one's flock is when the animals are sheared. As wool is being removed from the sheep time should be taken to remove a few fibers of the fleece and note its quality. In every flock there is wide variation in the quality of the wool from different individuals, despite the fact that they were sired by the same ram and given practically the same care and feed. The average wool producing sheep of the double-deck type should shear at least twelve pounds of wool of good length and density. The wool should not be excessively fine nor, on the other hand, too coarse, but should possess something of medium quality. I have a number of individuals in my flock that annually shear from twelve to thirteen pounds of wool of the quality that always demands the highest market price. These ewes are on the order of the mutton breed, although they have been bred for a number of years for both wool and mutton production.

I am firmly of the opinion that the most profitable sheep for the average farmer to raise in the future is the animal that will produce a high quality of both wool and mutton. In view



Prize Mutton and Wool Sheep.

of the fact that many of our flocks at the present time have been bred along mutton lines exclusively, I believe flock owners can well afford to give more attention to the wool producing side of their flocks.

For the past few years wool has been commanding a very high and uniform price. The mutton market is well established. To insure the greatest profit from the growing of sheep, either on the farm or Range, a superior grade of both wool and mutton must be marketed.

There has been a decided improvement in the sheep producing industry in the past few years along the line above considered, but I am fully aware there is plenty of room for considerable more along the line of combining both the wool and mutton qualities.

An impression prevails in the north of England, says John Wrightson in London Live Stock Journal, that sheep never drink, and in this faith I was brought up. Water was always considered to be an important accessory in cattle pastures, but its absence was never looked upon as an objection to sheep runs. There is a breed known as "crag" sheep in Lancashire, which range over the extensive upland of the mountain limestone, that are said to require no water; but this does not strike a Northumbrian as very remarkable as it fits in with his preconceived notions.

Mr. Primrose McConnell supports this view when he writes that "in his boyhood he had herded sheep and cows together in hot summer weather, and been struck by the cows constantly repairing to the water, while the sheep never went near it, and were never seen to drink at all, although they had access to a running stream close at hand." He adds that a northern shepherd would ridicule the idea of a sheep ever drinking unless it was in bad health. This opinion I can endorse with slight modification, as my idea in the north of England was that sheep were practically independent of water.

That this is also true to a certain extent in the south is shown by the practice of many good shepherds, who do not allow their ewes water during the period of gestation. There are circumstances in which this rule is not adhered to, but they constitute exceptions which may be said to prove the rule.

To speak generally, it is a bad sign when a ewe drinks frequently, and indicates unsoundness in some form. The truth seems to be that as long as herbage is succulent, or is moistened with dew, or from rain from time to time, sheep do not require water.

When ewes are fed on hay they should have water; and when they receive cake and hay together, and are not allowed roots, it is evident that the moisture of the body must be kept on. On the other hand, if they have access to roots they do not require water, and this is one of the best reasons for growing roots on high and dry situations.

Again, the need of ewes which have to support lambs at foot are different to either dry sheep or pregnant ewes. They are called upon to supply a larger quantity of water in their milk, and they must be supplied either directly or through succulent food in order to do so.

ATTENTION NEEDED FOR WINTER PIGS

To Raise Two Litters Annually One Must Not Allow Overstocking.

(By G. W. BROWN.)

There is a decided difference in caring for the pigs of autumn farrowing and those of the spring litters. On the average farm the latter have the advantage over the former of coming in previous to the advent of the spring grasses, and have a more generous supply of milk and other laxative foodstuffs to keep them growing and in perfect order.

It has been my practice for a number of years to raise two litters of pigs a year. To do this successfully I find that one must not allow overstocking, but rather should sell off a portion of the pigs soon after weaning time, keeping only so many as he knows he can accommodate with good quarters and generous feeding. One must not slight pigs during cold weather either in housing or feeding.

Besides dry nesting quarters the pigs should have a good-sized lot in which they may get plenty of exercise. Growing pigs should not be crowded into close, filthy quarters, exposed to vermin and disease.

Our winter pigs are very profitably fed upon whole corn in the fodder, as they delight in getting their feed from this material. I find that they eat very much of this fodder, which forms a fine diet. The cobs and the coarse stalks are raked up and burned frequently, affording the pigs a generous supply of charcoal.

I aim to keep a cow for every litter of winter pigs, and with the milk and milkstuffs I can grow a bunch of pigs equal to the spring litters.

Floors for Hog Houses.

Our experience is that wooden floors in the hog houses will produce rheumatism in the animals just as quickly as cement floors if former are allowed to remain damp and the bedding holds moisture, says a writer in an exchange.

If the cement floors are kept clean and well littered with dry straw or other material frequently, rheumatism will not result.

Better have a pole two feet wide at the top of the pen and a crack two inches wide at the bottom. It is the cold air blowing under the doors and around the pen that causes the greatest discomfort.

PROPER FEEDS AND CARE FOR THE CALF

Young Animal Must Have Exercise and Freedom of Yard and Farm.

(By J. C. FRY.)

Feeding and raising the calf on skim-milk is not always an easy proposition, but I have had very good success. The calf stays with the mother until the milk is good to use; then it is given whole milk for three weeks; then it is gradually changed to skim-milk. The calf will soon learn to eat alfalfa hay. By putting a little corn chop in the bucket when the calf is through drinking it will soon learn to eat it. Corn will supply the fat that is taken out of the milk. The calf must have exercise and is allowed the freedom of yard and farm. We have the best success with the fall and winter calves. Hay is better for the calf than grass.

ROOTS ARE FINE FOR PRODUCTION OF MILK

Make Valuable Addition to Rations During the Cold Winter Months.

No matter what some people tell you, turnips and other roots make fine milk-producing feed. Turnips will not affect the flavor of milk if fed at the right time.

If turnips are fed in large quantities, and two or three hours before milking, they are likely to give the milk an unpleasant taste, but if fed directly after milking no flavor whatever will be noticed.

A peck of turnips to each animal per day is sufficient in most cases. A good plan is to feed directly after hay in the early morning, and once a day is often enough.

Roots make a very valuable addition to the winter rations because they add to the variety of the feed and no animal on the farm appreciates variety more than the dairy cow.

Cleanliness and Ventilation.

Clean pens, stalls, bedding, etc., and plenty of ventilation are important and without these things hogs are in such weak condition they are likely to take anything.

NEW KIND OF AN IRISHMAN

Definition That by His Own Confession Was Very Little Far From the Truth.

Apropos of the very telling retorts that Sam Schepps made to Cross-Examiner McIntyre in the Becker case, Jerome S. McWade, the Duluth connoisseur, said:

"I like to see anyone get back at an impudent lawyer. I got back at such a lawyer myself the other day.

"The man was my counsel in a customs dispute over some Gobelin tapestries that I'd imported. His name had, like my own, a 'Mick' in it, and I said to him, as I settled his very large bill:

"'Are you an Irishman, sir?'

"'No,' he answered, with a pompous laugh, 'but I've made a lot of money out of Irishmen in my time.'

"'Oh, I see,' said I. 'I suppose we might call you an Irishman by extraction, then.'"

Why He Wept.

At a reception one night, says the Woman's Home Companion, a loud-voiced young man was invited to sing. Desultory applause followed, and he responded with a vociferous rendering of "My Old Kentucky Home." The hostess was passing among her guests beaming at the success of her entertainment and sure that everybody was having a good time, when suddenly, to her surprise, she came upon a middle-aged man but slightly known to her, who was weeping silently but bitterly in a secluded corner. Thinking that his heart had been touched by the old song, she asked sympathetically:

"Why do you weep? Are you a Kentuckian?"

"No, madam," he replied. "I am a musician."

As a summer tonic there is no medicine that quite compares with OXIDINE. It not only builds up the system, but taken regularly, prevents Malaria. Regular or Tasteless formula at Druggists. Adv.

Not According to Rule.

"Her emotions are ungrammatical."

"What do you mean by that?"

"All her moods are tense."

For SUMMER HEADACHES

Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

Unlucky.

"Pa, what is the Bridge of Sighs?"

"That's the bridge your mother plays, my son."

If you make a remark don't you enjoy having some one say, "Is that so?"

GOOD DESCRIPTION.

Teacher—Willie, what is a volcano?

Willie—Why-er-er, it's like a furnace full of Roman candles wid de door open.

Regular practicing physicians recommend and prescribe OXIDINE for Malaria, because it is a proven remedy by years of experience. Keep a bottle in the medicine chest and administer at first sign of Chills and Fever. Adv.

Of course we all feel sorry for people who don't like us.

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

Dr. J.V. Higgins and family took a flying trip to his father's home in Coosa County Sunday. He made the 12 mile trip to the river in 34 minutes.

Misses Bessie and Belle Carter, of Maplesville were in town Monday.

Mrs. Ernest Hopkins, of Birmingham, visited Clanton Monday.

Mrs. Mary Daniels had a visit from her mother, Mrs. Daniels Monday.

Mrs. Matt Whitfield, of Montgomery visited Mrs Morgan Monday.

Stop coughing! you rack the lungs and worry the body. BALLARD'S HORE-HOUND SYRUP checks irritation, heals the lungs and restores comfortable breathing. Price 25c, 50c and $1.00 per o ttle. Sold by Upchurch Drug Co.

Dr. C. N. Parnell of Maplesville attended Court here Monday.

Jake Kuffman of Montgomery was in Clanton on business Monday.

B. O. Glover of Maplesville, Ala. attended Court here Monday.

Miss Eula Sartor spent the week end with friends in Birmingham.

Miss Ruby Downs who is now teaching near Mt. Creek spent Saturday and Sunday here with her parents Mr. and Mrs. J. B. Downs.

A. Mitchell, a general merchant near Bagdad, Ky., writes us: —"I think Foley Kidney Pills one of the greatest kidney medicines there is. My daughter was in terrible shape with kidney trouble and I got her to take it. She is completely cured now. I think it one of the greatest medicines made. Upchurch Drug Co.

Miss Mary Daniels spent Sunday with her mother at Billingsley.

Miss Lena Downs spent Saturday with her parents in the country.

Mr. Harrison Taylor of Verbena was in Clanton on business Monday.

Miss Ruby Downs entertained a few friends at home Friday evening.

The new holiday goods are being very extensively shown by the Alred Drug Co.

Hon. C. D. Logan and father of Centerville are here this week on legal business.

Ralph Galloway the popular post master of Maplesville is here on legal business this week.

Mr. J. H. Tippett and family of Pletcher, are visiting relatives in Clanton this week.

Mr and Mrs Ben Sessions of the Littlejohn settlement have moved to town. We hope they will enjoy the city life.

Emmett Powell, for a long time printer in the Union-Banner office, having fitted himself to be a telegraph operator, has secured a position in Chattanooga. This office was sorry to see him leave and our good wishes go with him.

Dont forget about that subscription when you are in town. And if you are not behind drop in, anyhow, and shake hands.

Ephraim Smith of Liberty-Hill is the new boy in the Union-Banner office.

The corn shuck weather prophet says that this will be a hard winter November weather has been along that line.

Dr. P. I. Hopkins has a new automobile and seems to keep it going.

Claud Jones has sold his grocery store to J. M. Potts & Co.

Dan J. Joyce, Sanville, Henry Co., Virginia, says;—"I took a cold with a cough which hung on for two years. Then I commenced using Foley's Honey and Tar Compound and the cough finally left me and now I am perfectly strong and well." Is best and safest for children and contains no opiates. Upchurch Drug Co.

COTTON—Selling Wednesday at 12 1-2c.

WELCOME VISITORS.

A NERVY RASCAL.

Last Friday a young man went to the Wade Light ond Power Company and secured $12.00 worth of lights claiming they were for Dr. J. V. Higgins. He then went to some of the stores in town and tried to sell the lights at a reduced price. Not finding much sale he left for Calera when Mr. Wade caught on to his trick and telephoning up had him arrested and brought back. The youug man gave his name as "Smith" but gave others. He was jailed, but two drummers claiming to be nis brothers paid the charges against him and he was releaed.

ADVERTISED LETTER LIST.

List of letters remaining uncalled for in Clanton office for the week

Ladies—Mrs. Lottie Sims, Miss Josie Walls, Mrs. Hattie Thompson(2), Miss Sarah Jones, Mrs. Willie L. Bryant.

Gentlemen—A. W. Wood, U. H. Tayler, Arthur Johnson, (col) Wallace Jones, Luther Bennett, Pate Carly, V. C. Blakey, T. Bass, James Ryan, Bob Papen, Kin Vinson.

These letters will be sent to the Dead Letter office Dec. 7, 1912, if not delivered before. In calling for the above, please say "Advertised," giving date of list. F. O. Dudley, p. m.

RURAL CARRIER EXAMINATION

There will be a civil service examination at Clanton on Saturday, December 14th for the position of rural carrier, as a result of which it is expected to make certification to fill a vacancy in the positiou of rural carrier at Clanton, and other vacancies as they may occur in the county.

Particulars as to the requirements can be had by applying to the postmaster at Clanton.

Association Clerks please call for Minutes.

Fatherly Pride.

"Is he proud of his baby boy?" "Proud of him? I should say he is. Why, he spent two hours yesterday trying to imagine how he'll look in a silk hat!"

NO COMPROMISE SAYS ROOSEVELT

New York, Nov. 19.—Theodore Roosevelt and Oscar S. Straus addressed a general conference of Progressive state leaders in session here today. It was Colonel Roosevelt's first speech since the election. He said:

"There have been times when it was expressed that we were merely a bolting faction of one of the old parties and would attempt to fuse again with that party. We will not. In this party organization of ours ex-democrats and ex-republicans stand alike. Both of the old parties represented the same privilege and both of them stand on the vital issues of the day shoulder to shoulder, side by side, and it is our business to show the people that they are simply deluded when they are persuaded to vote under either of the old parties. It does not make any real difference which they vote for as long as they continue in either of the old parties, they are casting their votes against their own interests and for the perpetuation of the combination between privilege in politics and privilege in business."

Continuing, Colonel Roosevelt said that he was in the ranks as a man and not as a leader. He said that he hoped that in no legislative assembly in which the Progressives had representation would there be any submission to either of the old parties if they desired to combine the men of the Progressive party with their party organization.

"I hope we will make it plain to the people," he said, "that it is up to the old parties to combine against us; and our representatives in the state legislatures and in congress are not going to enter into any deal of any degree for personal advantage with either of the old parties. Let them do that work.

"I further earnestly hope that in congress, the men elected state state senators and assemblymen, will, at the earliest possible date, introduce bills embodying all of the principles in our Progressive platform and fight as hard as they know how to have these bills enacted into laws."

OCAMPO RAILROAD IS NOW FINISHED

The railroad extension of 14 miles to the Alabama Interstate Power Company's dam construction at Ocampo, has been completed and machinery is moving to that place.

The construction of the railroad was necessary to get the heavy machinery from the main line of the nearest railroad to the site of the construction, and was awarded to Dunne & Lallande of Birmingham. The construction forces have some work yet to do, it is understood, before operations will be at the maximum.

The work on the dam at Ocampo is moving forward very satisfactorily, according to the local officials, and it is announced that contracts for the turbines and other equipment that are pending will be announced soon. W. Winans Freeman, managing director for the company, who has been in New York several days, is expected home this week, after which it is probable that several important contracts will be announced.

ADAM EDITED OUT

From the New York American.

First copies of the revised edition of the Bible published by the American Baptist Publication society have reached the society's headquarters. The new edition is a radical departure in its construction from the language used in the King James version.

In the new Bible the names "Adam and Eve" do not appear. Their place is taken by the words "man" and "woman" which is a direct translation of the old Hebrew names. The word "hell" is eliminated, "underworld" being inserted in its place.

Other great changes are made. The story of Jonah and the whale is changed so that the words "great fish"—as being a nearer interpretation of the ancient Hebrew—take the place of "whale." "Jehovah thy God" takes the place of "Lord thy God." "Carved" replaces "graven," and the word "immersed" in parentheses follows the word baptize in every instance. In the new edition the Lord's Prayer becomes:

"Our Father who are in heaven, hallowed be Thy name. Thy kingdom come Thy will be done, as in heaven so on earth. Give us this day our daily bread. And forgive us our debt, as we also have forgiven our debtors, And bring us not into temptation, but deliver us from the evil one. Amen

Owing to its recent arival none of the Baptist ministers seen would commit themselves to an expression of opinion concerning the new edition, saying that they had not yet had an opportunity to study it. One of them, when asked whether he thought the charm of the old English phraseology would not be spoiled by the alterations, replied that the aim of the society had been to produce an absolutely correct Bible, irrespective of any charm of charm of language.

USE COMMON SENSE IN BUYING FRUIT TREES.

When buying trees, seed, or anything else for that matter, either from an agent or by mail, you want to use your own common sense. It is often the case that while things that are said are facts, we, in accepting them, overlook a lot of things that would come to us at once if we used a little common sense. Too often, the good points only are stated.

The agent or catalog may say that a certain peach is the "finest late peach grown," and tell the truth, and not say that it is the shyest bearer known and that it would be about once in 15 years, when there was an exceptionally favorable year for that particular peach, that you would get any of them, or that it rotted badly.

When they tell you about the big chestnuts, the biggest in the world, they don't tell you they eat about like raw [illegible] they tell you about [illegible] apple being such a [illegible] such a good [illegible] they do [illegible] that much [illegible] flavor and tas[illegible] W[illegible] you of mammoth [illegible] show you a sample. [illegible] tell you that the tree [illegible] bearer of any pecan [illegible] it will have only a few [illegible] nuts on it and they [illegible] out. They catch you [illegible] size. When they tell [illegible] wonderful berry that [illegible] quarts and quarts [illegible] say they would almost [illegible] to eat them.

It seems the public [illegible] ways looking for something "big" or something "wonderful" and is ready to bite without thinking, and then talk of "frauds," because it didn't turn out as they thought. The best plan is to stick to the tried and proven kinds. Know what you want yourself and for what purpose you want it, and see if that fills the bill, and get the varieties that suit your section, your soil and climate. What is fine in one place may be an utter failure in others.

PAUL HOFFMAN.

Waverly, Ala.—In Progressive Farmer.

COTTON GINNED

The amount of cotton ginned by the three gins in Clanton up to Saturday, Nov. 16, was 4,475 bales. They expect to gin about 200 bales more before the season ends.

Royal Baking Powder
Absolutely Pure

The Woman Makes the Home

She makes it best who, looking after the culinary department, turns her back resolutely upon unhealthful, or even suspicious, food accessories. She is economical; she knows that true economy does not consist in the use of inferior meat, flour, or baking powder. She is an earnest advocate of home made, home baked food, and has proved the truth of the statements of the experts that the best cooking in the world today is done with Royal Baking Powder.

requires special nourishment of easy assimilation.

Scott's Emulsion

contains these vital properties in concentrated form and distributes them all over the body without taxing the digestion.

Scott & Bowne, Bloomfield, N. J. 12-12

A QUICK RELIEF FOR HAY FEVER

A Simple, Safe, Inexpensive Treatment Relieves All Distressing Symptoms

Do you suffer for weeks every Summer with Hay Fever or Rose Cold? If you do, just get a fifty cent bottle of Ely's Cream Balm from your druggist, and see how quickly you will get relief. In five minutes after applied that stuffed-up feeling in the head will be gone, the pain and soreness in the back of the throat relieved, and the sneezing and running at the nose stopped.

Moreover, this remedy does not simply give you temporary relief, but heals and strengthens the weakened, inflamed membrane lining of the nose and throat, making it less sensitive to dust, dampness and certain odors, which generally bring on the fits of sneezing and weeping.

Don't suffer any longer, and don't experiment with strong snuffs, powders and sprays which only aggravate the trouble, but try this simple, sensible treatment. If you are not satisfied after fair trial, your druggist will give back your money.

PEE-GEE DYSTAIN

A Perfect Penetrating Stain For Wood, In Ten Colors

Different from other wood stains. *Strikes into* the wood and brings out its natural beauty, without *raising* the grain.

Colors just the right shade; *permanent*; shows no *laps* or *streaks*: *dries* quickly; leaves a perfectly *smooth surface* for finishing, and will not *rub up*.

Used with success on hard or soft, open or close grain wood; meets every requirement for interior wood work, floors and furniture.

Moles and Warts

Removed with Molesoff, without pain or danger, no matter how large, or how far raised above the surface of the skin. And they will never return, and no trace or scar will be left, where the mole or wart was seated. Molesoff is applied directly to the Mole or Wart, which entirely disappears in about six days, killing the germ, leaving the skin smooth and natural.

Letters from personages we all know, together with much valuable information, are contained in an attractive booklet, which will be mailed you free upon request.

Molesoff is put up only in one dollar bottles. Orders are filled immediately upon receipt of price, and mailed in a plain case, accompanied by full directions, and contains enough remedy to remove six to ten ordinary Moles or Warts. We sell Molesoff under positive guarantee, if it fails to remove your Mole or Wart, we will promptly refund you your dollar.

Gave Up Hope

"I suffered five years, with awful pains, due to womanly troubles," writes Mrs. M. D. McPherson, from Chadbourn, N. C. "They grew worse, till I would often faint. I could not walk at all, and I had an awful hurting in my side; also a headache and a backache.

I gave up and thought I would die, but my husband urged me to try Cardui, so, I began, and the first bottle helped me. By the time the third bottle was used, I could do all my work. All the people around here said I would die, but Cardui relieved me."

TAKE **CARDUI** The Woman's Tonic

For more than 50 years, Cardui has been relieving woman's sufferings, and making weak women strong and well. During this time, thousands of women have written, like Mrs. McPherson, to tell of the really surprising results they obtained by the use of this purely vegetable, tonic remedy for women.

Cardui strengthens, builds, restores, and relieves or prevents unnecessary pain and suffering from womanly troubles.

If you are a woman, begin taking Cardui, today.

Coughs and Colds

You could not please us better than to ask your doctor about Ayer's Cherry Pectoral for coughs, colds, croup, bronchitis. Thousands of families always keep it in the house. The approval of their physician and the experience of many years have given them great confidence in this standard cough medicine. Sold for seventy years.

Any good doctor will tell you that a medicine like Ayer's Cherry Pectoral cannot do its best work if the bowels are constipated. Ask your doctor if he knows anything better than Ayer's Pills for correcting this sluggishness of the liver.

Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them:

"Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is excellent and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection.

The rich chocolate flavor and absence of other taste, make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist. A box of 25 doses costs only 25 cents. Never sold in bulk. MILES MEDICAL CO., Elkhart, Ind.

HOLDEN LEAVES IOWA COLLEGE

The "Corn Man" Joins I H C Service Bureau.

TO HELP PUSH WORK FORWARD

Co-Operation Movement for Larger Crops, Better Roads, More Prosperous People and a Better Nation.

This marks the beginning of a new and greater business service. It is a co-operative movement for larger crops, better roads, happier homes, more prosperous people, and a richer and better nation. That is to say, the I H C Service Bureau proposes to help do for all the states and for Canada what Holden has done for Iowa.

After considering many offers, and after an investigation of the company and its works, Professor Perry G. Holden has entered the service of the I H C Service Bureau at Chicago.

Professor Holden is known wherever real agriculture is known. His whole life is one of service. He originated the idea of carrying information direct to farmers. He is the father of the demonstration train, short school courses, the corn show, county

PROF. PERRY G. HOLDEN.

demonstration farms, and the National Corn Exposition. As head of the extension department of Iowa State College of Agriculture he did a work which, Senator Cummins says, up to the present time has increased the wealth of Iowa $30,000,000.

The object of the I H C Service Bureau is the promotion of agriculture, education, and a co-operation which will tend to raise the whole tone of commercial, industrial and farm life. Since agriculture is the basis of prosperity and progress, naturally farm problems claim first attention. The aim is higher efficiency, both on and off the farm.

To do a big work a big organization is necessary. Not only the big men but the perfection of the International organization as well appealed to Professor Holden. The big general agencies, scattered all over the United States and Canada; the salesmen, travelers and expert machine men, the 40,000 dealers—every one, so far as possible, is to be made an agent of better farming.

For years the International Harvester Company has realized the importance of service. It has spent millions of dollars in the perfection of labor-saving machines, and now the company is going in for direct service—direct to the farmers, and direct to the farmers' children, that the men and women of tomorrow may be more capable and so more prosperous than the men and women of today.

It is no longer a theory that if we are to get the most out of life we must raise more per acre. "Intensive farming" is in the air. It is the battle cry of peace and plenty. Not raising more is the result of not muscle. We must know. We must not only that, we must know, and know why we know. We must know good seed from bad, the cultivation from wrong, and the why and wherefore of climates, soils, fruits, cattle, horses, poultry, and so forth.

For these things the bureau is established. But the bureau and Professor Holden see more than the average increase of a few bushels. They see a time coming when farms will raise twice as many bushels of corn, wheat and oats to the acre and like yields of all other kinds of farm products. They see a time when farmers and farmers' wives and farmers' children will think more and work less. Every bushel raised means that much profit, and the profits on the farm promote commerce and industry.

After a period of good work in Iowa agricultural college, better work at Illinois, and a great work at Chicago, Professor Holden now enters the world's work. While in future Professor Holden will, doubtless often be home, he says he is not leaving Iowa—he is merely carrying Iowa to the rest of the world.

OUR PROGRESSIVE LEADERS.

BY FRANK CRICHTON.

The recent election has demonstrated one thing in the most unmistakeable manner, and that one thing is the remarkable hold the Progressive movement has taken hold of the people of Chilton county. The vote was most emphatic, there could be no mistake or quibbling about the result—a clear majority of 230 left no grounds for dispute—unlike the election when if the case had been carried before an impartial tribunal the very meager majorities would probably have resulted in the seating of different officials. But we are not discussing bygones, the present and the future are far more alluring. The Progressive party has made a most auspicious commencement and there is not the slightest doubt but at the end of the incoming administration the Progressive Party will succeed it and lead the country to a better future. Five million votes is a good start, and it should be remembered that there were many voters at the recent election who felt constrained by their obligations incurred in the primaries to support their old party tickets. With the Progressive Party thoroughly organized, its doctrines taught and accepted by the people, an era of progression confronts us such as never witnessed hitherto.

An important meeting of the Progressive Party is to be held next week in Chicago and interesting developments are expected.

J. WILEY LITTLEJOHN.

Among the men who have been distinguished by theirfellow citizens the well-known figure of J. Wiley Littlejohn stands conspicuously forward, and for the second time he has been elected to the responsible position of County Treasurer, a position he has well earned by faithful and efficient service in the interests of the people. That his valuable services are recognized is attested by the handsome majority he received at the polls, and we confidently look forward to an increase in his reputation as a fincier before the expiration of his new term. Then may be applied the injunction "well done thou good and faithful servant."

J. N. DENNIS,

another faithful and efficient public servant to receive a well merited reward was J. N. Dennis who for the last four years has been our efficient and popular Tax Collector. This time, however, he has made a change and been elected Tax Assessor, in which office he will undoubtedly fill the satisfaction and advantage to the county. Familiarity with the duties of the office are a great assistance to the incumbent and in this respect he will have the advantage of the experience gained as Tax Collector. With every confidence we anticipate a worthy discharge of the duties of the office.

J. DUDLEY COLLINS.

The new man will take charge of the office of Tax Collector—that is a new man to the office, but one who is well and favorably known to a large number of our people. Those who are not acquainted with Dudley Collins will be pleased to meet him. In a courteable manner he will collect your tax, smile pleasantly and thank you. Young and energetic, careful in his manner of doing business, he will make an efficient collector and reflect credit upon the county. Taxes have to be paid and it is well to pay them to an agreeable person in an agreeable manner.

J. GILVEY FOSHEE.

Few want to make the personal acquaintance of the Coroner in his professional capacity, but in a non-professional way we are always pleased to see J. Gilvey Foshee, the newly elected Coroner of Chilton county. He is a pleasant and affable gentleman who will doubtless perform the unpleasant duty of his office in an agreeable manner, lending grace and dignity to the occasion. We hope that Mr. Foshee will be seldom called upon in his official capacity, but we are satisfied of his ability to make an exemplary official.

MOSES ROBINSON.

With much pleasure we hail the return of Moses Robinson to the office of County Commissioner, an office he has filled time and again for more than twenty years to the entire satisfaction of the county. From his great experience we confidently expect an economical administration, commensurate with the growing needs of the county, which is leaping with leaps and bounds, satisfied that in his hands the county is safe from reckless expenditure.

W. T. HERROD.

This gentleman brings new life to the time honored Commissioners Court and can be relied upon to see that the county gets a full return for all of its expenditure. Mr. Herrod is a practical man, acquainted with the needs of the county, able and willing to see that all demands are fairly met in a progressive spirit, and is a great acquisition to the Commissioners Court.

ARE YOU BILIOUS?

If you are sallow, have headache, dizziness, loss of appetite, and feel dadly generally, you should use a good aperient and liver regulator. St. Joseph's Liver Regulator has for many years relieved these ailments. It is carefully prepared and is believed by the many people who use it to be the best medicine of its kind on the market. It is made in both liquid and powdered form. Druggists and general dealers sell it, liquid 50 cents a bottle; powered, in tin boxes, 25 cents a box, or five boxes for a dollar.

What a vast sum of money has been paid by farmers this fall on account of "time prices" for goods purchased—excess paid out for "credit" as compared with cash prices! If all this money could have been saved, how far it would go toward buying the necessary harrows and planters and riding cultivators and stump pullers and manure spreaders, and pure-bred hogs and cattle and poultry that the South so much needs. It cannot be said too often, that our banking facilities for the farmer are disgracefully poor; but as poor as they are, they are not utilized to half the extent they should be. Many a farmer has credit sufficient to enable him to borrow money at 6 or 8 per cent whereas he is paying from 15 to 50 per cent in "time prices." Think about this, and see what reform you can make next year.

—Progressive Farmer.

NOTICE

Circuit Court news on page four.

STATEMENT FROM COUNTY TREASURER

Editor Union-Banner: As there appears to have gone out an erroneous statement regarding the taxes collected during October and paid into the county treasury during the first part of November, please allow me space to say that on November 4th the tax collector filed with me a report of all collections made during October, showing that during the month of October he had collected eleven thousand, three hundred eighty-six 34-100 dollars general county taxes, and five thousand, six hundred ninety-three 16-100 dollars special road taxes. On Nov. 6, said tax collector paid into the county treasury said amounts as given above, less the commissions of the tax assessor, which were net eleven thousand, seventy-eight 11-100 dollars, general county taxes, and five thousand, five hundred thirty-nine 4-100 dollars, special road taxes as required by Section 2200 of the Code of Alabama.

The above monthly report was sworn and subscribed to before Hon. E. B. Deason judge of probate.

J. Wiley Littlejohn,
County Treasurer.

THORSBY NEWS.

Mrs. E. W. Butler and Mrs. Topper are both on the sick list.

Mrs. F. W. Robinson and children are visiting in Louisville.

Last Friday morning while Charlie Howard was in Clanton, a young man came and "set up" a claim at Charlie's home; from appearances Mr. Howard intends to let him stay.

Dr. Posey, who lately came to Thorsby, has accepted a position in Birmingham; his family is to join him soon.

We are glad to let the friends of Mrs. S. H. Herbert know that she is home again after a long illness in the hospital. Mrs. Herbert is not able to be up yet, but she is slowly improving.

The Jackson-Kerne show was a success and Mrs. Annie Bostrow won the gold watch.

On last Friday night the Thorsby orchestra gave an entertainment at Bates Hall. This is the first of a series of six entertainments to be given for the benefit of the school; the full course tickets was $1. Each entertainment is worth that much. Every body should hear these lectures and recitals.

Professor Herbert preached a fine sermon at the Congregational Church last Sunday morning.

Mr. Alfred Ryder was in town Monday night.

Mayor Bice was attending court in Clanton on Monday and Tuesday.

The Twins.

NOTICE TO FARMERS.

On and after November 30th, 1912, the gins in Clanton will only run on Fridays and Saturdays of each week Please be governed accordingly.

CLANTON GINNERY.
CLANTON GIN COMPANY.
CHILTON WHSE & MFG. CO.

MT. PLEASANT.

Our school is progressing very nicely under the management of Prof. R. L. Duffy as principal and Miss Beulah Vance as assistant.

Mr. and Mrs. F. M. Scroggins left on Saturday for Texas as their future home. we wish them success and good luck in their new surroundings.

Mr. B. G. Burnett who has lived in Shelby County this year has moved back to our community and we are glad to have him with us.

Miss Beulah Vance spent the week end at home with her parents.

Miss Lizzie Oden visited Miss Eula Bell Foshee Saturday and Sunday.

Mr. and Mrs. L. R. Robinson spent Sunday with Mr. Grant Robinson of Lomax.

Miss Eula Wells spent last week with her cousin Miss Katie Duncan.

Mr. and Mrs. R. C. Thomas visited the formers father, Mr. J. P. Thomas on last Sunday.

Mrs. Rilla Massey of Weogufka is now spending a few days with with her son G. A. Massey.

Mr. W. H. Foshee and family were recent visitors to Mr. Bart Owens.

Mr. and Mrs. Walter Ward visited at Mr. F. M. Scroggins' last week.

Mr. Ben Duke of Weogufka was a visitor in our community last week and will move to this community soon.

Misses Bertha and Neomi Pate visited at J. E. Bellew's first of last week.

Dr. and Mrs. Hyman of Clanton were recent visitors of J. Wiley Foshee.

Mr. Lee Vickers and family recently visited J. J. Culps.

Mr. Burba Bean made a trip to Pleasant Grove last Sunday.

Pay the poll tax that you are due before first of February, 1912.

No Democrat is trying to get Dudley appointed postmaster at Clanton; that seems strange as they always worked to that end before. If they do not get him appointed they will prove ungrateful to him, for he has been one of their greatest servants in the past few years.

Little Viewer.

ENTERPRISE.

Rev. Yeargons preached a fine sermon at New Prospect on last Sunday.

Prof. B. F. Boockholdt was the guest of Miss Geneva Barbour.

Miss Dessie McDonald was the guest of Miss Cassie Watts last Sunday.

Mr. Jud McDonald of Coosada, was the guest of his parents on Saturday.

Mrs. Minnie and Miss Leala Drives are to to leave on Dec. 3d to go to their new home in Franklin county.

Miss Dessar McDonald attended preaching at Prospect Sunday morning and says that she had a nice time. A Lonesome Kid.

COUGHING AT NIGHT

One bad cough can keep the whole family awake at night. Phil. Disorneau, Schaffer, Mich., says: "I could not sleep on account of a bad cough and I was very weak. I used Foley's Honey and Tar Compound, and soon the cough left and I slept soundly all night." Upchurch Drug Co.

What's the use of saving a few cents and ruining your watch? If it is not keeping time it needs repairing—just the same as your body needs a doctor when it is sick. And like your body, unless it is doctored AT ONCE, it will go permanently wrong.
Bring that Watch in today

PEE-GEE
SPECIFICATION VARNISHES

FLOOR VARNISH. For panels, treating and filling the pores of wood and producing a smooth polished surface. One coat on oil cloth or linoleum doubles its durability and keeps the coloring bright and fresh. Dries dust-proof in 4 to 6 hours and can be walked on in 24 hours. Can be rubbed or left in the glass as preferred. Will not crack or show heel marks.

FLAT FINISH is absolutely free from wax, will resist the action of moisture and is very durable. When used as a finishing coat over glass varnish it dries into a dull velvety finish, which has the appearance of having been rubbed, without the labor or expense of rubbing. One coat over stain is all that is necessary to get the modern mission finish, and dries hard over night.

Ask our dealer in your town for descriptive matter and full information.

OWN LAND, PAY CASH.

That is the foundation of success in farming. The structure is to be built on this by intelligent cultivation and steady work, but without the land and without the advantage that cash purchase of supplies gives the farmer can never hope for more than a bare living. Renters have a place in the work of the country, but for a section to be really prosperous there must be a majority of small farm owners, and these owners must so learn to conduct their affairs on such a business basis that the profit from their work will come to them, and not to the merchant and land owner. Every man who expects to make his living out of the soil, and that is by far the noblest way to live, should become the possessor of a tract of land, even it is a small one. This is not difficult to obtain now, as much land is offered at reasonable prices, but each year finds the prices of land higher and young men should waste no time in securing what they need. When the class of renters is narrowed down the owners of large tracts of land will be more willing to sell off small farms and our country will take on the condition of the more prosperous of rural sections.

Then when a young man does own a piece of land it is not necessary for him to put himself into the hands of a merchant and pay extravagant time prices and interest. There is more money in the country now than in the past and any man with land and fair prospect of a crop can borrow enough for him to pay cash for what he needs to run him.

In this way he will buy cheaper, pay a smaller rate of interest and be more careful as to what he buys. Of course it will be better still if he will so manage his farm as to have very little to buy, and can get enough ahead to avoid borrowing, but even without this he can make arrangements for securing enough to buy for cash, and save enough to improve his farming methods.

We do not give this as merely our advice, but as the summing up of what we observe among those who are succeeding, and from what the writers who have made a business of studying agricultural problems say. Let every man who proposes to farm see if he cannot arrange for next year on this basis, and he surely will find at the end of the year that he is much better off.

THRIFTY IMMIGRANTS FOR CHILTON COUNTY.

A large number of immigrants from Germany, Bohemia and Austria are coming to Alabama as homeseekers; Mr. R. J. Hanak, superintendent of Bohemian colonization to Alabama has the locating of these industrious people and has decided to place as many as twenty-five families in the vicinity of Mountain Creek. Mr. Charles Brown is interested in this matter, and intends to assist in securing lands for these desirable new comers to Chilton County. Mr. W. P. Thompson, of Mountain Creek, talked with one of the three men representing these immigrants recently and says that "although the promotor has only been in America a short time that he evidently is familiar with the requirements as to soil and other needs of the families coming here. They want homes and are willing to pay a reasonable price for good and average farming lands."

The new settlers will become naturalized and make good citizens of our county and state.

PROGRESSIVE PARTY SOLVES SECTIONALISM

Kansas City, Nov. 26.—That the Progressive party is the natural solution of an abnormal geographical division in American politics—that between the North and the South—was the assertion made here tonight by Albert J. Beveridge in an address at a "dollar dinner" given under the auspices of the Jackson County Progressive Association.

"Of all the people of the earth," said Mr. Beveridge, "only in America does geography settle political action. Only in America are votes cast by physical location. The wrong that this does to every Amnrican man and woman, the shackles that it puts on normal thought and national improvement, the drawback it is to the general welfare, is plain to all of us and to the whole world.

"In their hearts all Americans want to get rid of this abnormal condition. Yet so long as the Democratic and Republican parties live everybody knows that we cannot get rid of it. It is asking too much of human nature.

"The Progressive party surely will break this sectional blockade of true Americanism. Southern men and women are even more eager than Northern men and women to express themselves politically as they think. They beg the nation to let them do so.

"The time has come when there must be a frankly Progressive or liberal party in this country and a frankly reactionary or conservative party. And the Republican party cannot become either. And so very soon the progressive of all parties must come to the Progressive party. They will have nowhere else to go. And the conservatives of all parties very soon must go to the Democratic party, because they will have nowhere else to go.

THE STANDPATTERS.

By Berton Braley.

"Let well enough alone," the High Priest said.
"Let well enough alone," the rich man cried.
Are not our temples splendid in their pride?
Are not our houses great, our fields widespread?
What if some unkempt thousands cry for bread?
Shall we the wisdom of our God deride,
Tamper with Institutions Old and Tried,
And bring about us Anarchy instead?
And so they babbled on—their logic spent—
Vowing that all was well, with every breath,
Or shrieking, "Agitator! Malcontent!"
At Him who came to them from Nazareth,
"Let us alone!" they cried, but Jesus went
His way that led to Cavalry—and Death!

RESULTS OF CAMPAIGN AGAINST THE SOUTHERN PINE BEETLE.

The active campaign against the Southern pine beetle conducted under instructions from the Bureau of Entomology, during the summer and fall of 1911, has shown some excellent results during the past season. The work was done by various pine beetle associations and individual owners, during the past winter, in the principal centers of infestation.

The amount of cordwood cut from the infested trees and burned before spring, disposed of the beetles that were wintering in the outer bark. This has resulted in the elimination of the beetles from the former centers of infestation. Furthermore the timber is healthy in the neighboring localities in which the beetle would normally have been present had control measures not been put into effect.

It is believed that the people of the South have now so thoroughly grasped the methods of control, that they will in the future utilize and dying and beetle-infested trees for cordwood or lumber, and thus protect their pine from any further destructive outbreaks of this beetle.

Daily Thought.

"Love can never die. That's the present He gave to everybody."

THE SAFETY

of the money on deposit with this Bank is guarded by as careful conservative a Board of Directors as you will find anywhere.

That our people appreciate this conservatism, this care for the safety of their money, is evidenced by the continued increase in our deposits and the growth of our general business.

The management given the affairs of this Bank by our Board of Directors speaks well for the future of the Bank and the prosperity of our patrons.

The United States Government deposits with us. Why not you?

Marion Institute
Marion, Alabama
SIX SEPARATE COURSES OF STUDY ARE OFFERED AS FOLLOWS:

1. **Classical and Scientific Courses.**
2. **Army and Navy Coaching Courses** to prepare for Annapolis and West Point.
3. **Oxford Rhodes Scholarship Courses.**
4. **Commercial Courses** combining all the technical training of the city business schools with the elements of a liberal education in a broad college course.
5. **University Preparatory Courses.**
6. **Special Courses** for mature young men who desire to secure in one or two years thorough training for professional study in Law, Medicine, Engineering, Pharmacy, Dentistry, Teaching or the Ministry.

Second Term begins January 8, 1913. New Classes begin at this time for new students.

For information of Courses, Conditions of Admission and expenses, address
H. O. MURFEE, Superintendent MARION, ALABAMA

Attention Ladies!

I have just received from New York a full supply of the latest models and styles of LADIES' SUITS, and Raincoats for Ladies and Men.

I will close them out at the lowest prices this class of goods was ever sold for in this market. All I ask is a look before you buy. Come quick before they are all picked over.

I am going to reduce the price of Flour for fifteen days Every barrel guaranteed.

L. H. REYNOLDS.

CROCKERYWARE

Just Received a large shipment of the Best Grades. To be sold at the lowest prices ever known here.

L. H. REYNOLDS,
The Home of the Square Deal.

TAFT SENDS IN MESSAGE ABOUT FOREIGN AFFAIRS

President Informs Congress of Our Relations With Other Nations.

AMERICAN DIPLOMACY WINS

Its Success In Settling Central American Troubles.

DIPLOMATIC SERVICE BETTER

Reorganization Has Done Much to Increase Its Efficiency—Adjustment of the Sealing and Fisheries Disputes—Interests of United States in the Near and Far East.

Washington, Dec. 3.—President Taft submitted to congress today the first of several messages. It was devoted to our foreign relations and in part was as follows:

To the Senate and House of Representatives: The foreign relations of the United States actually and potentially affect the state of the Union to a degree not widely realized and hardly surpassed by any other factor in the welfare of the whole nation. The position of the United States in the moral, intellectual, and material relations of the family of nations should be a matter of vital interest to every patriotic citizen. The national prosperity and power impose upon us duties which we can not shirk if we are to be true to our ideals. The tremendous growth of the export trade of the United States has already made that trade a very real factor in the industrial and commercial prosperity of the country. With the development of our industries the foreign commerce of the United States must rapidly become a still more essential factor in its economic welfare. Whether we have a far-seeing and wise diplomacy and are not recklessly plunged into unnecessary wars, and whether our foreign policies are based upon an intelligent grasp of present-day world conditions and a clear view of the potentialities of the future, or are governed by a temporary and timid expediency or by narrow views befitting an infant nation, are questions in the alternative consideration of which must convince any thoughtful citizen that no department of national polity offers greater opportunity for promoting the interests of the whole people on the one hand, or greater chance on the other of permanent national injury, than that which deals with the foreign relations of the United States.

The fundamental foreign policies of the United States should be raised high above the conflict of partisanship and wholly dissociated from differences as to domestic policy. In its foreign affairs the United States should present to the world a united front. The intellectual, financial and industrial interests of the country and the publicist, the wage earner, the farmer, and citizen of whatever occupation must co-operate in a spirit of high patriotism to promote that national solidarity which is indispensable to national efficiency and to the attainment of national ideals.

The relations of the United States with all foreign powers remain upon a sound basis of peace, harmony and friendship. A greater insistence upon justice to American citizens or interests wherever it may have been denied and a stronger emphasis of the ideal of mutuality in commercial and other relations have only served to strengthen our friendships with foreign countries by placing those friendships upon a firm foundation of reality as well as aspirations.

Before briefly reviewing the more important events of the last year in our foreign relations, which it is my duty to do as charged with their conduct and because diplomatic affairs are not of a nature to make it appropriate that the secretary of state make a formal annual report, I desire to touch upon some of the essentials of the safe management of the foreign relations of the United States and to endeavor, also, to define clearly certain concrete policies which are the logical modern corrollaries of the established and traditional fundamentals of the foreign policy of the United States.

Reorganization of the State Department.

At the beginning of the present administration the United States, having just entered upon its position as a world power, with the responsibilities which rest upon it by the results of the Spanish-American war, and already engaged in laying the groundwork of a great foreign trade upon which it must in one day become more and more dependent, found itself without adequate machinery for giving thorough attention to, and taking effective action upon, a mass of intricate business relating to American interests in every country in the world.

The department of state was an archaic and inadequate machine lacking most of the attributes of the foreign office of any great modern power. Under an appropriation made upon my recommendation by the congress on August 5, 1909, the department of state was completely reorganized. There were created divisions of Latin-American affairs and of far eastern, near eastern, and western European affairs. To these divisions were called from the foreign service diplomatic and consular officers possessing experience and knowledge gained by actual service in different parts of the world and thus familiar with political and commercial conditions in the regions concerned. The work was highly specialized. The result is that where previously this government from time to time would emphasize in its foreign relations one or another policy, now American interests in every quarter of the globe are being cultivated with equal assiduity.

Merit System in Consular and Diplomatic Corps.

Expert knowledge and professional training must evidently be the essence of this reorganization. Without a trained foreign service there would not be men available for the work in the reorganized department of state. President Cleveland has taken the first step toward introducing the merit system in the foreign service. That had been followed by the application of the merit principle, with excellent results, to the entire consular branch. Almost nothing, however, had been done in this direction with regard to the diplomatic service. In this age of commercial diplomacy it was evidently of the first importance to train an adequate personnel in that branch of the service. Therefore, on November 26, 1909, by an executive order I placed the diplomatic service up to the grade of secretary of embassy, inclusive, upon exactly the same strict non-partisan basis of the merit system, rigid examination for appointment and promotion only for efficiency, as had been maintained without exception in the consular service.

Statistics as to Merit and Nonpartican Character of Appointments.

How faithful to the merit system and how nonpartisan has been the conduct of the diplomatic and consular services in the last four years may be judged from the following: Three ambassadors now serving held their present rank at the beginning of the administration. Of the ten ambassadors whom I have appointed, five were by promotion from the rank of minister. Nine ministers now serving held their present rank at the beginning of the administration. Of the thirty ministers whom I have appointed, eleven were promoted from the lower grades of the foreign service or from the department of state. Of the nineteen missions in Latin America, where our relations are close and our interest is great, fifteen chiefs of mission are service men, three having entered the service during this administration. The thirty-seven secretaries of embassy or legation who have received their initial appointments after passing successfully the required examination were chosen for ascertained fitness, without regard to political affiliations. A dearth of candidates from southern and western states has alone made it impossible thus far completely to equalize all the states' representations in the foreign service. In the effort to equalize the representation of the various states in the consular service I have made sixteen of the twenty-nine new appointments as consul which have occurred during my administration from the southern states. This is 55 per cent. Every other consular appointment made, including the promotion of eleven young men from the consular assistant and student interpreter corps, has been by promotion or transfer, based solely upon efficiency shown in the service.

In order to assure to the business and other interests of the United States a continuance of the resulting benefits of this reform, I earnestly renew my previous recommendations of legislation making it permanent along some such lines as those of the measure now pending in congress.

Larger Provision for Embassies and Legations and for Other Expenses of Our Foreign Representatives Recommended.

In connection with legislation for the amelioration of the foreign service, I wish to invite attention to the advisability of placing the salary appropriations upon a better basais. I believe that the best results would be obtained by a moderate scale of salaries, with adequate funds for the expenses of proper representation, based in each case upon the scale and cost of living at each post, controlled by a system of accounting, and under the general direction of the department of state.

In line with the object which I have sought of placing our foreign service on a basis of permanency, I have at various times advocated provision by congress for the acquisition of government-owned buildings for the residence and offices of our diplomatic officers, so as to place them more nearly on an equality with similar officers of other nations and to do away with the discrimination which otherwise must necessarily be made, in some cases, in favor of men having large private fortunes. The act of congress which I approved on February 17, 1911, was a right step in this direction. The secretary of state has already made the limited recommendations permitted by the act for pay one year, and it is my hope that the bill introduced in the house of representatives to carry out these recommendations will be favorably acted on by the congress during its present session.

Diplomacy A Handmaid of Commercial Intercourse and Peace.

The diplomacy of the present administration has sought to respond to modern ideas of commercial intercourse. This policy has been characterized as substituting dollars for bullets. It is one that appeals alike to idealistic humanitarian sentiments as the dictates of sound policy and strategy, and to legitimate commercial aims. It is an effort frankly directed to the increase of American trade upon the axiomatic principle that the government of the United States shall extend all proper support to every legitimate and beneficial American enterprise abroad. How great have been the results of this diplomacy, coupled with the maximum and minimum provision of the tariff law, will be seen by some consideration of the wonderful increase in the export trade of the United States. Because modern diplomacy is commercial, there has been a disposition in some quarters to attribute to it none but materialistic aims. How strikingly erroneous is such an impression may be seen from a study of the results by which the diplomacy of the United States can be judged.

Successful Efforts in Promotion of Peace.

In the field of work toward the ideals of peace this government negotiated, but to my regret was unable to consummate, two arbitration treaties which set the highest mark of the aspiration of nations toward the substitution of arbitration and reason for war in the settlement of international disputes. Through the efforts of American diplomacy several wars have been prevented or ended. I refer to the successful tripartite mediation of the Argentine republic, Brazil, and the United States between Peru and Ecuador; the bringing of the boundary dispute between Panama and Costa Rica to peaceful arbitration; the staying of warlike preparations when Hayti and the Dominican republic were on the verge of hostilities; the stopping of a war in Nicaragua; the halting of internecine strife in Honduras. The government of the United States was thanked for its influence toward the restoration of amicable relations between the Argentine republic and Bolivia. The diplomacy of the United States is active in seeking to assuage the remaining ill-feeling between this country and the Republic of Colombia. In the recent Civil war in China the United States successfully joined with the other interested powers in urging an early cessation of hostilities. An agreement has been reached between the governments of Chile and Peru whereby the celebrated Tacna-Arica dispute, which has so long embittered international relations on the west coast of South America, has at last been adjusted. Simultaneously came the news that the boundary dispute between Peru and Ecuador had entered upon a stage of amicable settlement. The position of the United States in reference to the Tacna-Arica dispute between Chile and Peru has been one of non-intervention, but one of friendly influence and pacific counsel throughout the period during which the dispute in question has been the subject of interchange of views between this government and the two governments immediately concerned. In the general easing of international tension on the west coast of South America the tripartite mediation, to which I have referred, has been a most potent and beneficent factor.

China.

In China the policy of encouraging financial investment to enable that country to help itself has had the result of giving new life and practical application to the open-door policy. The consistent purpose of the present administration has been to encourage the use of American capital in the development of China by the promotion of those essential reforms to which China is pledged by treaties with the United States and other powers. The hypothecation to foreign bankers in connection with certain industrial enterprises, such as the Hukuang railways, of the national revenues upon which these reforms depended, led the department of state early in the administration to demand for American citizens participation in such enterprises, in order that the United States might have equal rights and an equal voice in all questions pertaining to the disposition of the public revenues concerned. The same policy of promoting international accord among the powers having similar treaty rights as ourselves in the matters of reform, which could not be put into practical effect without the common consent of all, was likewise adopted in the case of the loan desired by China for the reform of its currency. The principle of international co-operation in matters of common interest upon which our policy had already been based in all of the above instances has admittedly been a great factor in that concert of the powers which has been so happily conspicuous during the perilous period of transition through which the great Chinese nation has been passing.

Central America Needs Our Help in Debt Adjustment.

In Central America the aim has been to help such countries as Nicaragua and Honduras to help themselves. They are the immediate beneficiaries. The national benefit to the United States is two-fold. First, it is obvious that the Monroe doctrine is more vital in the neighborhood of the Panama canal and the zone of the Caribbean than anywhere else. There, too, the maintenance of that doctrine falls most heavily upon the United States. It is therefore essential that the countries within that sphere shall be removed from the jeopardy involved by heavy foreign debt and chaotic national finances and from the ever-present danger of international complications due to disorder at home. Hence the United States has been glad to encourage and support American bankers who were willing to lend a helping hand to the financial rehabilitation of such countries, because this financial rehabilitation and the preservation of their political independence would remove at one stroke the menace of foreign creditors and the menace of revolutionary disorder.

The second advantage to the United States is one affecting chiefly all the southern and gulf ports and the business and industry of the south. The republics of Central America and the Caribbean possess great natural wealth. They need only a measure of stability and the means of financial regeneration to enter upon an era of peace and prosperity, bringing profit and happiness to themselves and at the same time creating conditions sure to lead to a flourishing interchange of trade with this country.

I wish to call your especial attention to the recent occurrences in Nicaragua, for I believe the terrible events recorded there during the revolution of the past summer—the useless loss of life, the devastation of property, the bombardment of defenseless cities, the killing and wounding of women and children, the torturing of non-combatants to exact contributions, and the suffering of thousands of human beings—might have been averted had the department of state, through approval of the loan convention by the senate, been permitted to carry out its now well-developed policy of encouraging the extending of financial aid to weak Central American states with the primary objects of avoiding just such revolutions by assisting those republics to rehabilitate their finances, to establish their currency on a stable basis, to remove the custom houses from the danger of revolutions by arranging for their secure administration, and to establish reliable banks.

During this last revolution in Nicaragua, the government of that republic having admitted its inability to protect American life and property against acts of sheer lawlessness on the part of the malcontents, and having requested this government to assume that office, it became neessary to land over 2,000 marines and bluejackets in Nicaragua. Owing to their presence the constituted government of Nicaragua was free to devote its attention wholly to its internal troubles, and was thus enabled to stamp out the rebellion in a short space of time. When the Red Cross supplies sent to Granada had been exhausted, 8,000 persons having been given food in one day upon the arrival of the American forces, our men supplied other unfortunate, needy Nicaraguans from their own haversacks. I wish to congratulate the officers and men of the United States navy and marine corps who took part in re-establishing order in Nicaragua upon their splendid conduct, and to record with sorrow the death of seven American marines and bluejackets. Since the re-establishment of peace and order, elections have been held amid conditions of quiet and tranquility. Nearly all the American marines have now been withdrawn. The country should soon be on the road to recovery. The only apparent danger now threatening Nicaragua arises from the shortage of funds. Although American bankers have already rendered assistance, they may naturally be loath to advance a loan adequate to set the country upon its feet without the support of some such convention as that of June, 1911, upon which the senate has not yet acted.

The president alluded briefly to the enforcement of neutrality laws, to Secretary Knox's visit to Central America and to the unfortunate disturbances in Mexico. Continuing, the message said:

Agricultural Credits.

A most important work, accomplished in the past year by the American diplomatic officers in Europe, is the investigation of the agricultural credit system in the European countries. Both as a means to afford relief to the consumers of this country through a more thorough development of agricultural resources and as a means of more sufficiently maintaining the agricultural population, the project to establish credit facilities for the farmers is a concern of vital importance to this nation. No evidence of prosperity among well-established farmers should blind us to the fact that lack of capital is preventing a development of the nation's agricultural resources and an adequate increase of the land under cultivation; that agricultural production is fast falling behind the increase in population; and that, in fact, although these well-established farmers are maintained in increasing prosperity because of the natural increase in population, we are not developing the industry of agriculture. We are not breeding in proportionate numbers a race of independent and independence-loving land owners, for a lack of which no growth of cities can compensate. Our farmers have been our mainstay in times of crisis, and in future it must still largely be upon their stability and common sense that this democracy must rely to conserve its principles of self-government.

The need of capital which American farmers feel today had been experienced by the farmers of Europe, with ago. The problem had been successfully solved in the old world and it was evident that the farmers of this country might profit by a study of their systems. I therefore ordered, through the department of state, an investigation to be made by the diplomatic officers in Europe, and I have laid the results of this investigation before the governors of the various states with the hope that they will be moved to adapting in their legislating meeting.

[illegible]

fiscal year 1912 shows that this rate of advance has been maintained, the total domestic exports having a valuation approximately of $2,200,000,000, as compared with a fraction over $2,000,000,000 the previous year. It is also significant that manufactured and partly manufactured articles continue to be the chief commodities forming the volume of our augmented exports, the demands of our own people for consumption requiring that an increasing proportion of our abundant agricultural products be kept at home. In the fiscal year 1911 the exports of articles in the various stages of manufacture, not including foodstuffs partly or wholly manufactured, amounted approximately to $907,500,000. In the fiscal year 1912 the total was nearly $1,022,000,000, a gain of $114,000,000.

Advantage of Maximum and Minimum Tariff Provision.

The importance which our manufactures have assumed in the commerce of the world in competition with the manufactures of other countries again draws attention to the duty of this government to use its utmost endeavors to secure impartial treatment for American products in all markets. Healthy commercial rivalry in international intercourse is best assured by the possession of proper means for protecting and promoting our foreign trade. It is natural that competitive countries should view with some concern this steady expansion of our commerce. If in some instances the measure taken by them to meet it are not entirely equitable, a remedy should be found. In former messages I have described the negotiations of the department of state with foreign governments for the adjustment of the maximum and minimum tariff as provided in section 2 of the tariff law of 1909. The advantages secured by the adjustment of our trade relations under this law have continued during the last year, and some additional cases of discriminatory treatment of which we had reason to complain have been removed. The department of state has for the first time in the history of this country obtained substantial most-favored-nation treatment from all the countries of the world. There are, however, other instances which, while apparently not constituting undue discrimination in the sense of section 2, are nevertheless exceptions to the complete equity of tariff treatment for American products that the department of state consistently has sought to obtain for American commerce abroad.

Necessity for Supplementary Leigslation.

These developments confirm the opinion conveyed to you in my annual message of 1911, that while the maximum and minimum provision of the tariff law of 1909 has been fully justified by the success achieved in removing previously existing undue discriminations against American products, yet experience has shown that this feature of the law should be amended in such way as to prevent a fully effective means of meeting the varying degrees of discriminatory treatment of American commerce in foreign countries still encountered, as well as to protect against injurious treatment on the part of foreign governments, through either legislative of administrative measures, the financial interests abroad of American citizens whose enterprises enlarge the market for American commoditiees.

I can not too strongly recommend to congress the passage of some such enabling measure as the bill which was recommended by the secretary of state in his letter of December 13, 1911. The object of the proposed legislation is, in brief, to enable the executive to apply, as the case may require, to any or all commodities, whether or not on the free list from a country which discriminates against the United States, a graduated scale of duties up to the maximum of 25 per cent. ad valorem provided in the present law. Flat tariffs are out of date.

Special Claims Arbitration With Great Britain.

The special agreement entered into between the United States and Great Britain on August 18, 1910, for the arbitration of outstanding pecuniary claims, a schedule of claims and the terms of submission have been agreed upon by the two governments, and together with the special agreement were approved by the senate on July 19, 1911, but in accordance with the terms of the agreement they did not go into effect until confirmed by the two governments by an exchange of notes, which was done on April 26 last. Negotiations are still in progress for a supplemental schedule of claims to be submitted to arbitration under this agreement, and meanwhile the necessary preparations for the arbitration of the claims included in the first schedule have been undertaken and are being carried on under the authority of an appropriation made for that purpose at the last session of congress. It is anticipated that the two governments will be prepared to call upon the arbitration tribunal, established under this agreement, to meet at Washington early next year to proceed with this arbitration.

Fur Seal Treaty and Need for Amendment of Our Statute.

The act adopted at the last session of Congress to give effect to the fur-seal convention of July 7, 1911, between Great Britain, Japan, Russia and the United States, provided for the suspension of all land killing of seals on the Pribilof islands for a period of five years, and an objection has now been presented to this provision by the other parties to the agreement, which raises the issue as to whether or not this prohibition of land killing is inconsistent with the spirit of the convention, upon how far, if at all, it is necessary for protecting and preserving the American fur-seal herd and for increasing its number. This is a question requiring examination of the present condition of the herd and the treatment which it needs in the light of actual experience and scientific investigation. A careful examination of the subject is now being made, and this government will soon be in possession of a considerable amount of new information about the American seal herd, which has been secured during the past season and will be of great value in determining this question; and if it should appear that there is any uncertainty as to the real necessity for imposing a close season at this time, I shall take an early opportunity to address a special message to congress on this subject, in the belief that this government should yield on this point rather than give the slightest ground for the charge that we have been in any way remiss in observing our treaty obligations.

Final Settlement of North Atlantic Fisheries Dispute.

On the 20th of July last an agreement was concluded between the United States and Great Britain adopting, with certain modifications, the rules and method of procedure recommended in the award rendered by the North Atlantic Coast Fisheries Arbitration Tribunal on September 7, 1910, for the settlement hereafter, in accordance with the principles laid down in the award, of questions arising with reference to the exercise of the American fishing liberties under Article I of the treaty of October 20, 1818, between the United States and Great Britain. This agreement received the approval of the senate on August 1 and was formally ratified by the two governments on November 15 last. The rules and a method of procedure embodied in the award provided for determining by an impartial tribunal the reasonableness of any new fishery regulations on the treaty coasts of Newfoundland and Canada before such regulations could be enforced against American fishermen exercising their treaty liberties on those coasts, and also for determining the delimitation of bays on such coasts more than 10 miles wide, in accordance with the definition adopted by the tribunal of the meaning of the word "bays" as used in the treaty.

Imperial Valley and Mexico.

In order to make possible the more effective performance of the work necessary for the confinement in their present channel of the waters of the lower Colorado river, and thus to protect the people of the Imperial Valley, as well as in order to reach with the government of Mexico an understanding regarding the distribution of the waters of the Colorado river, in which both governments are much interested, negotiations are going forward with a view to the establishment of a preliminary Colorado river commission, which shall have the powers necessary to enable it to do the needful work and with authority to study the question of the equitable distribution of the waters. There is every reason to believe that an understanding upon this point will be reached and that an agreement will be signed in the near future.

The message told what the government has done in connection with the Balkan war and in placing the government of Liberia in position to pay its debts. The new condition of affairs in China was set forth, and then our relations with Central and South American governments were set forth in more detail. It concluded as follows:

Congress should fully realize the conditions which obtain in the world as we find ourselves at the threshold of our middle age as a nation. We have emerged full grown as a peer in the great concourse of nations. We have passed through various formative periods. We have been self-centered in the struggle to develop our domestic resources and deal with our domestic questions. The nation is now too mature to continue in its foreign relations those temporary expedients natural to a people to whom domestic affairs are the sole concern. In the past our diplomacy has often consisted, in normal times, in a mere assertion of the right to international existence. We are now in a larger relation with broader rights of our own and obligations to others than ourselves. A number of great guiding principles were laid down early in the history of this government. The recent task of our diplomacy has been to adjust those principles to the conditions of today, to develop their corollaries, to find practical applications of the old principles expanded to meet new situations. Thus are being evolved bases upon which can rest the superstructure of policies which must grow with the destined progress of this nation. The successful conduct of our foreign relations demands a broad and a modern view. We can not meet new questions nor build for the future if we confine ourselves to outworn dogmas of the past and to the perspective appropriate at our emergence from colonial times and conditions. The opening of the Panama canal will mark a new era in our international life and create new and world-wide conditions which, with their vast correlations and consequences, will obtain for hundreds of years to come. We must not wait for events to overtake us unawares. With continuity of purpose we must deal with the problems of our external relations by a diplomacy modern, resourceful, prepared, and thoroughly conversant of the rich needs of a great nation.

NEWS BRIEFLY TOLD

A CONDENSED RECORD OF EVENTS OF THE WEEK.

SEVEN DAYS' NEWS AT A GLANCE

Important Happenings in All Parts of the World Summarized for the Busy Reader.

Southern.

The commission form of municipal government has been inaugurated in New Orleans. Martin Behrman, mayor for the past eight years, was again sworn in for another four-year term. Under the new form of government, the mayor is also "commissioner of public affairs." Four other commissioners complete the organization.

Richard Frayne, an aeronaut, fell 2,000 feet from the air at Jacksonville, Fla., and was instantly killed. Three thousand people saw the accident. The aeronaut was thrown from his seat in the parachute just after he had cut loose from the balloon. His body landed in the driveway of the Evergreen cemetery. Physicians say that every bone in his body was broken.

Governor Goldsborough of Maryland has announced the appointment of William P. Jackson, Republican national committeeman from Maryland, to succeed the late United States Senator Isidor Rayner from that state.

Bonds having a face face value of $140,000, together with cheques and a small amount of coupons, that disappeared in Kansas City, Mo., June 5, when two registered mail sacks were stolen while en route from the postoffice to the railway station here, have been found on the city dump by three laborers.

Savannah's (Ga.) corn club exhibition opened in the First regiment armory with in the neighborhood of 250 exhibits from eighteen counties in that section of Georgia. Despite the very bad season the boys' corn clubs of that section of Georgia did very well and the show is a great success.

General.

The work of charting a new map of what hitherto has been European-Turkey began immediately after the signature of the armistice by the plenipotentiaries of the Turks and allies. The comparatively favorable terms which seem to have been offered to Turkey are so different from the original proposals that they suggest the idea that the governments of the Balkan League realize that with winter gripping the country, Turkey has gained an ally which will prove more fatal to the armies fronting Adrianople, Scutari and Tchataja than have been the Ottoman cannon.

"The American Bird Banding association," which has just been organized in New York City for the purpose of placing identification bands on wild birds, says this is the only practical and reliable method by which ornithologists can study bird movements and tell where and how far they fly. In the majority of cases aluminum bands will be placed on the legs of young birds unable to fly found in nests. On each band the words "notify American Museum, New York," will be placed.

Searching parties have dragged the Ashley river at Charleston, S. C., in a vain search for the body of Joseph M. Thomas, a well known merchant of that city, whose overcoat and hat, found near the edge of the boulevard, are believed to mean that he committed suicide by leaping into the river. A reward of $300 for the recovery of the body has been offered by Mr. Thomas' son. Members of the family are at a loss to assign a motive which might have induced Mr. Thomas to take his own life.

Convinced that the numerous bands of rebels in the states of Durango, Coahuila and southern Chihuahua are continuing their operations merely because they believe surrender would mean summary execution under the suspension of guarantees, Rafael Hernandez, the new Mexican minister of the interior, has announced that he will attempt to gain for them a promise of amnesty.

Parts of a giant bird, which winged its way over North America 3,000,000 years ago, have just been brought to the American museum of natural in New York City by Professor Granger, who has been making fossil investigations in Wyoming. The bird, according to Professor Granger, was the largest feathered creature that ever existed in North America. The fragments brought here consist of the bones of the feet, found in the Big Horn basin east of Yellowstone Park.

At New York City the Waiters' Association, at the celebration of its ninth birthday, dedicated a library of 2,000 volumes, bought with money obtained by selling champagne corks at $2.50 per thousand.

After more than sixteen years depositors in the private bank of Emilio de Stefano of Chicago will be paid.

Although he will celebrate his 140th birthday anniversary soon, Jacob Spears, Gulliopton's (Ind.) oldest resident, submitted to his first shave at the hands of a barber. The job is said to be perfect. The barber has announced secretly that he disapproves

According to the authorities at the University of Pennsylvania museum, the high cost of living and excessive transportation rates were as much a problem in Theadelphia, a small city in Egypt, 1,800 years ago, as they are today in the United States. In an ancient Greek manuscript, just deciphered by the museum's experts, a collector of internal revenue tells of the graft and excessive profits demanded by the trust magnates and political leaders of those days. He believes there will be little hope for future generations in fighting the combinations.

The Constantinople correspondent of the Paris Tempes gives, under reserve, the main lines of a peace scheme as outlined by Turkish semi-official sources. According to this scheme Greece gets Epirus; Servia gets old Servia and Movipazar, and Bulgaria gets Thrace, following the frontier from Midia to Dedeaghatch or Kavala, but excluding Adrianople, which remains connected with Constantinople and the Dardanelles. The final condition is the admission of Turkey to the Balkan League.

This year the international business of the world will reach the enormous total of thirty-five billions of dollars. The estimate is made by the bureau of foreign and domestic commerce, which has official returns of exports and imports from virtually every commercial country in the world. The new figure will establish a record, for it is four billions greater than the trade in 1910 and more than double that done in 1890.

Four Japanese stowaways, who had borne up under the pangs of hunger for five days and had existed on a diet of crackers for thirteen days preceding reached Tacoma only to fall into the arms of immigration inspectors. The four Japanese, all neatly dressed, had managed to leave the steamer Seattle when the immigration watchman espied them on the docks. They were very weak and were placed in the care of physicians. They are being held for deportation and will be imprisoned when they reach Japan.

The accidental killing of a man in Lowell, Mass., twenty years ago was given by John Frank Hickey, in a signed confession at Buffalo, N. Y., as the staring point of a career of debauchery and crime during which he muredered two boys and assaulted many others. Hickey's victims, according to his confession, were Ed Morey of Lowell, Mass., poisoned with laudanum over twenty years ago; Michael Kruck, 12 years old, a New York newsboy, strangled in Central Park in 1902, and Joseph Joseph, the 17-year-old son of Joseph Joseph, a merchant of Lackawanna, killed in a similar manner, October 12, 1911.

Three superdreadnaughts and nine first class armored cruisers will very shortly be presented to the British government by the independent rulers, princes and nobles of India if they can carry out successfully a plan recently drawn up by them to collect funds for the purpose among themselves.

The president-elect, accompanied by Mrs. Wilson and the members of his family, attended the oldest Presbyterian church in Hamilton, Bermuda, of quaint setting. The pastor prayed for the success of the close of the Taft administration and then prayed for the success of Mr. Wilson's administration.

Women from th West, South, North and East, delegates to the convention of the National American Woman's Suffrage association, realized their principal ambition in Philadelphia when they exercised their right of franchise in choosing officers of that association for the ensuing year. They will preserve a non-partisan attitude to all political parties.

The possibility and danger of a greater war than that between the Balkan states and Turkey absorbs public interest far more than the first out of diplomacy between the belligerents outside of Constantinople.

Washington.

The expiring Sixty-second congress assembled for its final work of legislation. In the brief period remaining before constitutional limitations bring it to an end and turn many of its members back into private life, fifteen appropriation bills, carrying over one billion dollars for the support of the government, must be passed; the impeachment of Judge Archbald of the commerce court must be tried in the senate; many investigating committees must conclude inquiries and make their reports; and scores of legislative matters must be disposed of during the session.

Appropriations of nearly two hundred million dollars for pensions to veterans of American wars will be necessary at this session of congress. The unusual sum exceeding all appropriations of former years, will be necessary to make up a deficit of nearly twenty million dollars, resulting from the increase of pensions by the Sherwood bill last winter and the proportionate increase of the general pensions authorized by this act.

The Supreme court declined to intervene the pure food law as involved in the case of the seizure of 143 cases of lemon egg products by the government, holding the circuit court of the Third circuit had no jurisdiction to hear the case. Pure lemons and lemon oils of Italian pig products shipped from Kansas, were seized by the government as being adulterated. The question of the interstate character of the shipments was raised on the ground that it was a fraud on the government.

HARRIMAN MERGER IS KNOCKED OUT

SUPREME COURT RULES ON UNION AND SOUTHERN PACIFIC.

VIOLATED SHERMAN LAW

Competition Suppressed—Any Plan for Disposition of Stock Must Be Such as to Effectually Dissolve Unlawful Combination.

Washington.—The great Harriman merger, created when the Union Pacific Railroad Company bought 46 per cent of the stock of the Southern Pacific Railway System, was split asunder by the supreme court of the United States as a violation of the Sherman anti-trust law. Then, with the end of the merger before it, the court sent forth its portentous declaration that "while the law may not be able to enforce competition, it can reach combinations which render competition impracticable."

Justice Day announced the unanimous opinion of the court. Justice Van Deventer took no part in the consideration of the case, but his personal finding when he was a judge of the Utah circuit court, to the effect that the two roads were not competitors and, therefore, no violation of the law had resulted from the purchase, was reversed and annulled.

Instead of following the reasoning of Justice Van Deventer and Judges Sanborn and Adams, the court, in substance, approved the minority holding of Judge Hook, that the roads were competitors, and that it was just as much a violation of the law for one road to buy the controlling stock of a competitor as it was for a holding company, as in the Northern Securities case, to buy the controlling stock of two competing companies.

It is the general belief here that the application of the decision to the railroad situation of the country will be widespread, placing a powerful precedent in the hands of the attorney general to prevent consolidation of competing roads.

Department of justice officials, however, were not prepared to discuss the full effect of the decision. Attorney General Wickersham, elated over the outcome, issued a statement in which he simply declared the case extended principles of the Northern Securities case and reaffirmed those of the Standard Oil and St. Louis Terminal Association cases.

SEES NO FINANCIAL CRISIS

Secretary MacVeagh Will Not Put Surplus in National Bank.

Washington.—Secretary MacVeagh of the treasury department declared it his opinion that no emergency existed in the money market at this time to justify the government in depositing surplus federal funds in the national banks. With the rate on call money from 10 to 20 per cent in the last few days, there have been rumors in Wall street that the secretary might deposit $25,000,000 or more to replenish the supply.

"From no responsible source," said the secretary, "have I received an appeal stating that the government should act."

Mr. MacVeagh attributed the high rates to several temporary factors and said apparently all transactions were being met. If necessity arose, he added, the government would come to the rescue.

CHARLEY TAFT GAVE $150,000

Total Republican Campaign Fund Was $904,828.

Washington.—Charles P. Taft, of Cincinnati, brother of the president, led the contributors to the Republican campaign fund with $150,000, according to the final statement of the Republican national committee filed with the clerk of the house. The total contributions reached $904,828. The expenditures were $900,363, for speakers, salaries, advertising, rent and other purposes, including $75,000 to the American Association of Foreign Newspapers.

In the list of individual contributions were items of $50,000 from Francis L. Leland of New York, $25,000 each from the J. P. Morgan Company and Andrew Carnegie, while the Yale Taft Club, class of '78, in New Jersey, contributed $14,725, and Harry B. Rosengarten, Philadelphia, $15,500.

Had Varied Career.

Washington. — Lumberjack, cowboy, clerk, cashier in a store, reporter, bod carrier and lawyer, is Senator Ashurst's description of his life work, as it appears in the new congressional directory.

Will Buy Davis Home.

Danville, Va.—A civic movement was launched here to purchase by popular subscription the residence occupied by President Jefferson Davis as an executive mansion during the closing days of the Confederacy.

Young Boy Bandits.

Fort Smith, Ark.—Two boys, neither more than 15 years of age, held up and robbed Berke West, a tramp, in broad daylight. One of the boys covered West with a revolver, while his companion searched the farmer.

Can Deport Prostitutes.

Washington.—The constitutionality of the immigration act of 1907, authorizing the government to deport women who become, subsequently, prostitutes within three years from the time of their arrival in the United States was upheld by the supreme court.

Please Do Your Christmas Shopping Early.

NATION'S CONGRESS RESUMES GRIND

NEARLY $1,100,000,000 MUST BE APPROPRIATED.

WILL BE ROUTINE SESSION

Democrats Prepare for April Session. Taft's Order Putting Postmasters in the Civil Service May Be Revoked.

Washington.—The last session of the Sixty-second congress, which opened at noon Monday, will be featured more by matters relating to the Sixty-third congress than to questions of importance and direct bearing. In other words, the Democratic majority in the house is disposed to confine the work of the dying session within the limits of things actually necessary for the routine of government. This means that the passage of appropriation bills will be the chief results of the expiring session.

Should the recent order of President Taft, placing 36,000 fourth-class postmasters in the classified service, not be revoked or suspended by President Wilson, there will be very little in the way of federal patonage for Democratic members to bestow. Undoubtedly pressure to have the Taft order revoked or suspended will be made by Democratic members. President-elect Wilson, however, is understood to be a hearty subscriber to the main principles underlying civil service.

While there will be little legislation except to pass appropriation bills, it is a fact that these bills will be more than ordinarily important. In the first place, they will carry much legislation. In the second place, they will be enormous in the aggregate.

When the adding machines complete their work next March 4, they will show appropriations and authorizations in all probability of nearly $1,100,000,000. Indications point to the biggest expenditures in the history of the government. A rivers and harbors bill, which will carry about $50,000,000, and a public buildings bill, carrying not less than $25,000,000, are on the cards.

WILL CARE FOR VETERANS

Confederates and Federals Will Be Remembered at Gettysburg.

Washington.—The war department is making plans to care for the feeding and shelter of the army of veterans, Confederate as well as Federal, who are to attend the encampment of the Grand Army of the Republic on the battlefield of Gettysburg next July, when the fiftieth anniversary of the great battle will be celebrated.

It is roughly estimated 40,000 veterans must be placed under canvas and fed next July, so that a great deal of work must be done to prepare quarters and get proper water supply. The president of the United States, the governors of states and other notables who attend the celebration will be quartered in the academy buildings and fraternity houses of the local colleges, but the bulk of the visitors must be sheltered in tents.

Gold Discoverer Dead.

Reno, Nev.—James Burke, partner of James Marshall, who first discovered gold in California, died near here, aged 82 years. Burke was one of the historic figures in pioneer life.

Women Enter Politics.

Boston.—Women will take a prominent part in this month's city elections in Massachusetts. More than 3,000 women have registered in Fall River—nearly three times as many as previously were on the list.

Wins Typographic Women.

Cleveland, O.—Chief of Police Kohler issued orders that henceforth all girls and women under 18 in disorderly houses will be photographed and measured by the Bertillon system.

HARVESTER TRUST METHODS REVEALED

GOVERNMENT CHARGES COMPETITION SUPPRESSION.

100 LETTERS TO BE SHOWN

President of International Company Directed to Produce Document That Dealt With Meeting of Executive Committee.

Chicago.—R. C. Haskins, president of the International Harvester Company of America, bore the brunt of a severe cross-examination by Attorney Grosvenor, assistant to Attorney General Wickersham, in the hearing of the Harvester dissolution suit here.

It developed as a result of Mr. Haskins' examination that the government is laying great stress upon the importance of approximately 100 letters from lesser officials to Cyrus McCormick and James Deering.

These letters cover a period from December, 1902, to January, 1905 The letters, it was said by Mr. Grosvenor, referred to price fixing, suppression of competition in various sections of the country and to methods of handling agents who were selling other than International articles

Mr. Haskins was directed to get these letters and produce them at the hearings. Mr. Haskins also was given explicit directions to produce a report of the executive committee dated July 16, 1903, at which it was intimated charges were made from a sales committee to some other method in the management of the sales department.

In this connection Attorney Grosvenor said:

"You, as president of the selling company, are responsible for the papers of your company and for this particular report. I want you to understand that if they have been taken from your files you are responsible, and you ought to know it. I want you to get that report and bring it here. It is undoubtedly an important paper, and the government must have it."

WORLD'S BUSINESS GROWS

International Trading Will Reach Total of $35,000,000,000.

Washington.—This year the world's international business will reach the enormous total of $35,000,000,000, according to a report issued by the bureau of foreign and domestic commerce.

The new figure will establish a record, for it is four billion dollars greater than the trade in 1910 and more than double that done in 1890, twenty-two years ago.

Morgan Corners Money Market.

New York.—Stock exchange houses complained angrily that the Morgan bank and trust companies had "cornered" the money market. The call rate was rushed up to twenty per cent, the highest rate since the 1907 panic.

A dispatch from Washington, stating that the treasury department was making an investigation of the squeeze in money rates here, indicated that complaint has been made by bororwers. Relief may be forthcoming in the shape of deposits of government money.

9,000 Turks Surrender.

Sofia, Bulgaria.—Two entire divisions of Turkish reserves surrendered to the Bulgarian troops near the village of Marhanli, between the port of Dedeagatch and Demotika.

Republican Succeeds Rayner.

Baltimore, Md.—Gov. Goldsborough announces the appointment of William P. Jackson, Republican national committeeman for Maryland, to succeed the late United States Senator Isidor Rayner. He will serve until January, 1913.

Col. Randall Dead.

Washington.—Col. Daniel M. Randall, sergeant-at-arms of the United States senate, former United States marshal for the District of Columbia, and an intimate friend of the late President Harrison, died here of the result of an operation.

Miss Alexander Wed.

GOV. DIX PARDONS ALBERT T. PATRICK

WAS SENTENCED IN 1900 FOR MURDER OF MILLIONAIRE RICE.

WAS SERVING A LIFE TERM

"Always Air of Mystery in Case," Says Gov. Dix—Patrick Has Made Remarkable Fight for Freedom.

Albany, N. Y.—Albert T. Patrick, who is serving a life sentence in Sing Sing prison for the murder of William Marsh Rice, an aged millionaire, in New York City on September 23, 1900, was pardoned by Gov. Dix.

Patrick, who was saved from the electric chair by the late Gov. Higgins in December, 1906, has made a remarkable fight for freedom. A lawyer by profession, he protested when Gov. Higgins commuted the death sentence to life imprisonment, declaring that the governor had no legal right to cancel the original sentence and impose a punishment of life imprisonment.

"There has always been an air of mystery in this important case," Gov. Dix said. "Quoting from the minority opinion of the court of appeals, the atmosphere that surrounded the defendant showed that a fair and impartial trial was scarcely possible.

"I trust that Mr. Patrick will devote his energies to a complete vindication of his declared innocence.

"During the past year I have given much consideration to this case and am convinced that the defendant is entitled to have a full pardon."

Patrick was charged with having brought about the death of Mr. Rice, not by his own hand but through the agency of Charles F. Jones, a valet employed by Rice. It was principally upon the testimony of Jones, who confessed having administered chloroform to Rice at the behest of Patrick while Rice was asleep that Patrick was convicted. Jones escaped punishment and has long been able to hide his identity from the public.

KANSAS CROP LARGEST

State Has Never Before Produced So Much Grain.

Topeka, Kas.—Kansas crops of wheat, corn and oats this year are the largest the state ever has produced, according to a report of the state board of agriculture. The present wheat prospect is 91 per cent on 7,500,000 acres. The report says:

"The combined value of Kansas' wheat, corn and oats this year is $170,733,666, or about $55,000,000 more than in 1911. The next best record was in 1909, when their value was $169,262,323. This year's yields were in each instance considerably in excess of those of 1909, but prices were lower.

"This year Kansas raised between a fifth and a fourth of all the flour wheat produced in the United States. The yield of wheat, 88,889,128 bushels, exceeds 1911 by 38,000,000 bushels. The average yield per acre was 14.24 bushels.

"This year's corn yield, 156,493,382 bushels, from a considerably diminished acreage."

ETTOR PARADES 5TH AVENUE

Thousand Laborers March Singing the "Marsellaise."

New York.—Fifth avenue, the street whose very name spells wealth, class and capital, saw the "other side of life" when 1,000 poorly attired men, women and children jostled wildly down the famous thoroughfare singing the "Marsellaise" in their language and doing adulation to two men who walked in the center—Joseph J. Ettor, a ruddy-cheeked young Itailan, fresh from acquittal on a charge of murder at the hands of a Massachusetts jury, and William D. Haywood, burly labor organizer. The singing continued from Forty-second street down to Union Square, men and women pressing around Ettor and his companion, "Big Bill."

As he walked down the avenue some one pinned a red carnation on his lapel, a dozen others—men and women—kissed him joyously, and one frenzied girl seized his hat as a souvenir, and laughingly, he accepted another from a bystander.

She Supported Colonel.

Atlanta, Ga.—Mrs. Helen D. Longstreet, widow of the famous Confederate general, will be removed by President Taft as postmistress in Gainesville because of her activity in support of Theodore Roosevelt.

BABY IN THE WHITE HOUSE

Washington.—When Gov. Wilson becomes president of the United States the halls of the White House, for the first time in fifteen years, will resound with the prattle of an "administration baby." The baby is 16 months old, Josephine, daughter of Mrs. Perin Cothran of Raleigh, N. C., a favorite niece of the next president. Gov. and Mrs. Wilson are said to have invited Mrs. Cothran to make her home in the White House during the four years from March 4 next.

Selling Liquor a Felony.

Iola, Kan.—The first conviction under the Kansas law which makes persistent violation of the prohibitory liquor law a felony was returned by a jury against Julia Rosenberg. Under the terms of the verdict Mrs. Rosenberg will be sentenced to the penitentiary.

Show at Atlanta.

Atlanta, Ga.—The first show of [illegible] will be held here shortly [illegible]

3 BALKAN STATES SIGN ARMISTICE

GREECE NOT PARTY TO TRUCE.

MUCH SPECULATION AS TO OUTCOME.

THE TERMS OF TRUCE

Turkey Will Have the Right of Reprovisioning Her Fortresses Now Besieged

Constantinople.—It is officially announced that an armistice has been signed between Turkey and Bulgaria, Servia and Montenegro.

Apparently Greece has not signed.

London.—Terms of the armistice provide that the truce shall continue during the entire period of the peace negotiations, according to dispatches from Constantinople.

Turkey will have the right of reprovisioning her fortresses now besieged and all the detached bodies of Turkish columns remaining in Macedonia and elsewhere as well as the Turkish population in the various parts of the war area. The allied Balkan nations are to furnish safe conduct for the reprovisioned corps and the Turkish convoys are to be permitted to pass if necessary through forces of the allies. The blockade of the Aegean and Adriatic coasts of European Turkey is to be raised. The terms are generally recognized as generous, but on account of the difficulty with Turkey necessarily will find in again victualizing her scattering forces the practical effect will probably not be important. The fact that the negotiations for the armistice were regarded as an integral part of the peace negotiations also helped Turkey to secure more favorable terms than would have been granted under other exigencies.

The fact that Greece is not among the signatories is interpreted as meaning that hostilities will be continued between that state and Turkey and there is considerable speculation as to what will become of the alliance agreement between the Balkan states.

It has not been determined when and where the peace negotiations will begin.

The authorities at Janina report that the Albanians there contemplate proclaiming independence. Instruction is required as to the action to be taken by the Turks should this intention be carried out.

JOHN B. SNEED ACQUITTED.

Found Not Guilty of the Murder of A. G. Boyce.

Fort Worth, Tex.—John Beal Sneed was found not guilty of the murder of Capt. A. G. Boyce.

Sneed shot Captain Boyce to death January 13, 1912, in Fort Worth, soon after Sneed had returned from Winnipeg, Manitoba, with his wife, with whom A. G. Boyce, Jr., son of Captain Boyce, had eloped.

Captain Boyce was sitting in a hotel lobby when Sneed entered and almost immediately shot him. Captain Boyce, it was testified, was unarmed.

Sneed claimed self-defense and also a conspiracy of the Boyces to rob him of his wife.

A. G. Boyce, Jr., was killed September 14 by Sneed in Amarillo. Sneed will be tried at Vernon for this crime in February.

The two killings have become celebrated in Texas. The families involved are wealthy and have played prominent parts in the upbuilding of Texas. After the elopement Sneed spent $20,000 in a chase across the continent to find his wife.

The first trial of Sneed for killing Captain Boyce was held last winter and the jury disagreed.

Mrs. Sneed awaited the verdict downtown. Sneed took the verdict to his wife.

REAR-END COLLISION.

Eight Killed in Wreck on Pennsylvania Road.

Zanesville, O.—Eight lives were sacrificed and four persons are not expected to live as a result of a wreck on the Pennsylvania railroad near Dresden, O. Four persons were killed outright and four died soon after the crash. The casualties occurred in the rear coach of a passenger train when the engine of another train ploughed through reducing the car and its occupants into a tangled mass of broken bodies and steel and timber.

Jack Johnson is Married.

Chicago.—Jack Johnson, negro pugilist, married Lucille Cameron, the 19-year-old white girl of Minneapolis, who recently appeared as a witness against him before the federal grand jury which returned indictments charging him with violation of the Mann act. The ceremony was performed at the home of Justice of the Peace Carter by a negro preacher in the presence of a dozen newspaper men.

STATE BRIEFS.

COMPANY TO AID FARMERS

Montgomery.—Tentative plans for the formation of a loan and trust company that will aid the Alabama farmer in improving agricultural conditions in this State will be considered at the meeting of the executive committee of the Alabama State Land Congress and the advisory council of the same body which will be held here January 8th.

This action was taken at the meeting of the executive committee in Birmingham. Bruce Kennedy, a member of the committee, says the meeting her will culminate in the carrying out of the plans adopted by the congress at its Mobile session.

W. P. G. Harding, of Birmingham, president of the First National Bank of that city, proposed a plan for the organization of the trust company which was adopted, following an amendment made by R. E. Spragins, of Huntsville. This adoption will be ratified at the January meeting here.

At the Birmingham meeting an advisory council composed of twenty-five men from all sections of the State was created. A finance committee, a press committee and a transportation committee wer also named. All of thes committees will be present at the Montgomery meeting in January.

WILL ENLIST 7,000 DEPUTIES.

Montgomery. — Strengthening the system of conserving and protecting game in Alabama, John H. Wallace, Jr., State Game and Fish Commissioner sent letters to about 7,000 constables and justices of the peace of the State, who were elected recently, and who, under the provisions of the game and fish preservation statutes of the code, are ex-officio game wardens. To each of the 7,000 goes the same message.

"I have the honor to invite your cordial and active cooperation to the end that every provision of our statutes for the protection and preservation of birds, game and fish may be strictly enforced."

The letter which goes to each of the ex-officio wardens contains detailed information regarding the administration of the laws.

ILLICIT DISTILLER CAPTURED.

Anniston.—J. G. Biggers, who was arrested in Cleburne county, near Edwardsville, has been brought to this city and lodged in the county jail by Deputy Marshal Oscar Fulghum on a charge of having violated the internal revenue laws by illicit distilling.

ALABAMA DEFEATS TENNESSEE.

Birmingham—Outweighed 15 pounds to the man, and outplayed throughout three of the four quarters of the contest, the Crimson-jerseyed warriors of the University of Alabama fought their way to a 7 to 0 victory over the University of Tennessee on Rickwood Field. The contest was a spectacular example of determination and versatality pitted against brawn and power. In speed the two teams were well matched, but the superior weight of the Tennesseeans coupled with the aggressive power of their drives for three quarters kept the Alabamians fighting grimly to stave off a defeat. Three times before Alabama's open defence they rushed the pig skin within the shadow of the Crimson goal, but three times the Alabamians braced and the Tennesseeans were held for downs.

O'NEAL ADDRESSES GOVERNORS.

Richmond, Va.—Governor O'Neal, of Alabama was one of the governors who delivered an address before the conference of governors, who assembled here on December 5. His address was well received.

COURT DOCKET LOST.

Anniston.—A docket for the circuit court of Calhoun county for the year 1908 figured in the case of the Anniston City Land company, who were being sued by the state for taxes on the property of the Anniston Inn. Both Mr. Davis, general manager of the land company, and Back Tax Commissioner Martin testified that the docket could not be found. It is said to have an important bearing on the case in question.

O'NEAL APPOINTS JUSTICES.

Montgomery.—Governor O'Neal is daily making appointments of justices of the peace and constables who were nominated in the spring primary, but who did not run in the regular election. This situation arose in a number of beats and precincts throughout the state, the names of the nominees having been left off the ticket after having been regularly published as such when the nominations were made in the primary.

MANY BEEF CATTLE SHIPPED.

Wise—Well, why don't you go to Greenland?

THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura Soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair.

Cuticura Soap and Ointment sold throughout the world. Sample of each free with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Perils of Overdelicacy.

A bridegroom gave his best man an envelope.

"Hand it to the parson after the ceremony," he said, "but don't do it ostentatiously."

The best man followed instructions, but it seems that he performed his task too covertly, for the father of the bridegroom, after the pair had departed, believed that an omission had occurred and quietly pressed a banknote into the minister's hand. But he also was too secretive about it, and before the party broke up the bride's brother felt called upon to draw the minister aside and thrust a $10-bill upon him.

King George Superstitious.

An incident which occurred while the king was out shooting recently over the Hon. John Ward's preserves at Woolley shows that the monarch shares with many other persons the superstition about the number thirteen. The eight guns were joined at luncheon by five women of the party staying at Chilton, and the king noticing the unlucky number would not sit down until Donald Harding, the acting agent upon the estate, was called in to make the number up to fourteen.—New York Herald.

The Real Problem.

"Well, dear," said the young husband to his bride, "I'll make out the deposit slip in your name and all you have to do is to take it to the bank."

"Yes," she responded, "but suppose I want to draw out some money some day, how will they know which is my money?"—Harper's Bazar.

Retort Discourteous.

Stranger (looking at the taximeter)—Nine dollars and fifty cents! I told you I wanted to come in the most direct way, and I think you've been driving me round about.

Cabby—Round about, eh? You ought to have hired an aeroplane.—Judge.

Regular practicing physicians recommend and prescribe OXIDINE for Malaria, because it is a proven remedy by years of experience. Keep a bottle in the medicine chest and administer at first sign of Chills and Fever. Adv.

He Answered Truly.

HOME YOUR HEAD ACHE?

Use Hicks' CAPUDINE. It's liquid—pleasant to take—relieves Headache—acts in a few minutes. Sick Headache and all nervousness vanish. Don't suffer! Get a package today. 10c., 25c. and 50c. at druggists. Adv.

The Reason.

"Miss is a mighty big," he remarked. "Do doctors always prescribe for her as much as they do for other people?"

"If your collector is as persistent in getting after you as mine is after me, I don't wonder that you are sick," said the other.

WOMEN SHOULD NEVER USE HARSH PHYSICS

Women are especially susceptible to constipation and their more delicate organisms rebel at the violence of cathartics and purgatives. Drastic medicines like salts, mineral waters, pills and powders may afford temporary relief, but their violent action on the stomach and bowels tends to upset the entire system.

A mild laxative is far preferable and more effective. The combination of simple laxative herbs with pepsin prescribed by Dr. W. B. Caldwell, and sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is ideal for women, being gentle in action, positive in effect and pleasant to the taste. A spoonful of Syrup Pepsin at night will bring natural relief next morning and, used regularly for a brief period, will so strengthen and tone the muscles of the stomach and bowels that there will be little, if any, further need for medicine.

Dr. Caldwell's Syrup Pepsin can be procured in any drug store. Your name and address on a postal to Dr. W. B. Caldwell, 203 West St., Monticello, Ill., will bring a free trial bottle by return mail. Adv.

Getting Even.

"Your first name is June, is it, little girl?"

"Yes, sir; only I don't spell it the way most folks do."

"How do you spell it?"

"J-u-e-n."

"Why is that, little girl?"

"Do you 'spose I'm goin' to let the Maes got ahead of men when it comes to spellin' names different?"

Wireless Map.

A novelty in the way of maps has just been issued by the German imperial post office, which has compiled a chart showing the principal wireless telegraph stations in the world. The object is to advertise the facilities now afforded in Germany for "drahtlose" telegraphy. German stations are, of course, given special prominence on the map, and in this connection it is interesting to note that the station at Neuen is claimed to be the most powerful in existence, its range being 2,100 miles. This is two hundred miles more than that of Eiffel tower.

A WONDERFUL DISCOVERY.

In this age of research and experiment, all nature is ransacked by the scientific for the comfort and happiness of mankind. Science has indeed made giant strides in the past century, but among the very few really important discoveries in medicine is that of Therapion, which has been used with great success in French Hospitals and that it is worthy the attention of those who suffer from kidney, bladder, nervous diseases, chronic weaknesses, ulcers, skin eruptions, piles, &c., there is no doubt. In fact it seems evident from the big stir created amongst specialists, that THERAPION is destined to cast into oblivion all those questionable remedies that were formerly the sole reliance of medical men. It is of course impossible to tell sufferers all we should like to tell them in this short article, but those who would like to know more about this remedy that has effected so many—we might almost say, miraculous cures, should send addressed envelope for FREE book to Dr. Le Clerc Med. Co., Haverstock Road, Hampstead, London, Eng. and decide for themselves whether the New French Remedy "THERAPION" No. 1. No. 2 or No. 3 is what they require and have been seeking in vain during a life of misery, suffering, ill health and unhappiness. Therapion is sold by druggists or mail $1.00. Foncera Co., 90 Beekman St., New York.

Every invalid woman is invited to consult our Staff of Physicians, Surgeons and Specialists, at the Invalid's Hotel and Surgical Institute, Buffalo, N. Y., by letter or personally at my expense.—R. V. PIERCE, M. D.

I Invite Suffering Women

There is every reason why women should not trust their delicate constitutions in the hands of unskilled persons. It requires a thorough medical education to appreciate and understand the delicate female organism. There is every reason why she should write or personally consult an experienced specialist.

As a powerful, invigorating tonic, "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For "run-down," debilitated women of all occupations

DR. PIERCE'S Favorite Prescription

is unequaled as a restorative tonic. As a soothing and strengthening nervine "Favorite Prescription" allays and subdues nervous excitability, irritability nervous exhaustion, and other distressing symptoms commonly attendant upon functional and organic diseases of the feminine organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is devised and put up by a physician of vast experience in the treatment of women's maladies. Its ingredients have the indorsement of leading physicians in all schools of practice.

The "Favorite Prescription" has been sold by dealers in medicine in its liquid form for over 40 years. Now it can also be obtained of them in tablet form—or send 50 one-cent stamps to Dr. Pierce for trial box.

Dr. Pierce's Pleasant Pellets invigorates the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Send 21 one-cent stamps to pay cost of wrapping and mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, cloth-bound. Invalid's Hotel and Surgical Institute, R. V. Pierce, M. D., President, Buffalo, N. Y.

"It Helped Me So Much."

Mrs. F. W. Myers, of Bodines, Pa., says: "Your 'Favorite Prescription' has done me a wonderful lot of good. Seven years ago when our first child was born I was left miserable. I doctored with two physicians without any relief. I then went to see one of the head doctors in Williamsport; he said I must have an operation at once and that I should quit work, but that was something I could not do. I then began taking your 'Favorite Prescription' and it helped me so much. I always suffered so until our last child when I got along nicely. I shall never go through it again without your medicine.

"I will close by wishing you much success in future."

"Well, Edward, one learns from them much good manners, don't you know!"

One of His Worst.

The Doctor—"Did you hear about that Methodist preacher's daughter down south who turned sleuth, hunted up the pickpocket who had robbed her of her purse, and finally landed him in the penitentiary?" The Professor—"Good for her! She was an M. E. sis, with a vengeance."—Chicago Tribune.

Old Landmark Gone.

The Blaine schoolhouse in Mars Hill up on the hill, the one James G. Blaine honored years ago by giving a bell, which still hangs in the belfry, is no more. It has been converted into a storeroom and moved to another site. A good many bright boys and girls, now old men and women, graduated from this historical building, and no doubt there is a feeling of sorrow as the old schoolhouse leaves the foundation it was builded upon years and years ago.—Kennebec (Me.) Journal.

Reason for Inquiry.

The following after-dinner story was related by Dr. Henry Churchill King, president of Oberlin college, before the Chicago Congregational club banquet:

"I was standing out in front of one of the big exposition buildings at the St. Louis fair, when a man came out of the building much the worse for liquor.

"'What's the name of thish here building?' he asked as he reeled away.

"I told him the name of the building.

"'Thanks,' he said. 'I was just in it and I wanted to check it off.'"

A DOCTOR'S SLEEP
Found He Had to Leave Off Coffee.

Many persons do not realize that a bad stomach will cause insomnia.

Coffee and tea drinking being such an ancient and respectable form of habit, few realize that the drug—caffeine—contained in coffee and tea, is one of the principal causes of dyspepsia and nervous troubles.

Without their usual portion of coffee or tea, the caffeine topers are nervous, irritable and fretful. That's the way with a whisky drinker. He has got to have his dram "to settle his nerves"—habit

To leave off coffee or tea is an easy matter if you want to try it, because Postum gives a gentle but natural support to the nerves and does not contain any drug—nothing but food.

Physicians know this to be true, as one from Ga. writes:

"I have cured myself of a long-standing case of Nervous Dyspepsia by leaving off coffee and using Postum," says the doctor.

"I also enjoy refreshing sleep, to which I've been an utter stranger for 10 years.

"In treating dyspepsia in its various types, I find little trouble when I can induce patients to quit coffee and adopt Postum."

The Dr. is right and "there's a reason." Read the little book, "The Road to Wellville," in pkgs.

Postum now comes in concentrated, powder form called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavour is always uniform. Sold by grocers—50-cup tin 30 cts., 100-cup tin 50 cts.

A 5-cup trial tin mailed for grocer's name and 2-cent stamp for postage. Postum Cereal Co., Ltd., Battle Creek, Mich.—Adv.

Farmers' Educational and Co-Operative Union of America

Matters of Especial Moment to the Progressive Agriculturist

Co-operation is action, not talk.

Shelter is a partial substitute for feed.

He who lives to himself dies by himself.

The "best bet" too often stumbles in the home stretch.

And all that most of the politicians picked was a lemon!

A farm home without a farm paper is bread without butter.

A preacher has an easy time earning his salary, but he has to work like blazes to collect it, the same as the newspaper men.

A farmers' club, founded for the purpose of doing something of lasting value for the neighborhood, will live, and will accomplish its end.

CO-OPERATION REALLY PAYS

Farmers of Central Kansas Form Organization for Purpose of Buying and Selling Crops.

Ten cars of seed wheat, sold at a long advance over Kansas City prices, were shipped by the Lost Springs (Kansas) farmers' union this year. In addition a large quantity of seed was sold in smaller lots. This extensive marketing of high priced seed wheat was made possible by co-operative growing and selling.

Lost Springs is a small town in central Kansas. It is in a rich farming region. The farmers grow good crops and they determined to get the best prices for them. So they organized a union and now they do their own buying and selling in large lots. When the union was organized the number of its members could easily have been counted on the fingers of two hands. Co-operation might be a good thing, but most of the farmers in the country near Lost Springs desired to be shown before they joined. They soon were converted, writes Floyd B. Nichols, in the Orange Judd Farmer. Now the membership has increased to over 50. Almost all of the farmers within ten miles of Lost Springs belong to the union.

So far this year the union has shipped 31 cars of wheat to be sold for milling purposes. The wheat that was shipped to the central markets brought an average of five cents a bushel, after the freight and other expenses were paid, more than the local buyers offered. They have shipped 27 cars of corn and nine cars of oats, which were sold at two to six cents' advance over the prices offered by the local buyers.

The union also has handled 600 bushels of kafir corn, 500 bushels cane seed, 225 gallons of kerosene and 40 gallons of gasoline so far this year.

Thus, by the system of distribution which the Lost Springs farmers have worked out the middleman is eliminated. The producer and consumer can divide his profits.

Seed wheat is one of the specialties of the members of this association. Every farmer grows pure Kharkof wheat—wheat that was reported as excellent by a representative of the milling department of the Kansas agricultural college last June. The original seed was purchased in carload lots two years ago. All the wheat in the neighborhood is uniformly pure Kharkof.

Remedy for Skin Disorder.

The following powder given each day is said to be good for skin disorder in horses: Finely powdered iodine of potash, four ounces granulated sugar and common salt, of each one pound. Mix well together and divide into 32 powders. Feed no corn, but let the grain feed be oats and wheat bran. Use tincture of iodine on the lumps every second day until the skin becomes a little tender.

Clover Silage.

Red clover makes a silage that is second only to corn. When it is to be put in the silo cut when in full bloom, but be sure that it goes into the silo while still green and before it has wilted.

SAVING IN SELLING PRODUCE

Wisconsin Expert Says $225,000,000 Is Lost to Consumers and Producers of Farm Truck.

That a saving of $225,000,000 could be made to the consumers and producers of the farm produce of this country through co-operative buying and selling is the opinion of John Sinclair of the Wisconsin legislative reference library.

For the purpose of devising some plan whereby consumers could reduce the cost of living by paying less for their food products while the farmers of the state would, at the same time, receive more for their crops and produce, more than a year ago Mr. Sinclair was sent by the Wisconsin state board of public affairs, to England, Denmark and other European countries in which co-operative marketing has succeeded, to study the methods followed there, and to determine whether or not these would be applicable to Wisconsin conditions. A report but lately issued by this department contains a summary of his findings which should be of unusual interest to the consumers and producers of the state.

The farm produce of this country is worth about $9,000,000,000, and assuming that half of this represents the cost of marketing under the present system, Mr. Sinclair, in this report, estimates that at least five per cent. of the other half could be saved by the producers by having their own co-operative managers and sales agents. This would mean a net gain to the people of $225,000,000. And the experience of co-operators in Ireland and Denmark, as told in Mr. Sinclair's report, was that many times five per cent. could be saved.

The great aim of co-operation, according to this investigator, is to increase production and to get the product to the consumer as economically as possible. Getting the product into the hands of the consumer is, of course, a very intricate process where growers and consumers are as far removed from each other as they are at the present time. Naturally enough the large producers cannot attend personally to all the details of transportation and marketing of their output of produce. They can, however, hire competent men at regular salaries to properly take care of some of these phases of production and marketing. But they can only afford to do this by co-operating with other producers.

Secretary Wilson of the department of agriculture, has estimated that but 46 per cent. of what the consumer pays for his product ever gets back to the farmers. If the present charges of distributing and retailing farm products by private concerns were not excessive, there would be no need of changing the system. But it is evident that 50 per cent. of the selling price is a high rate to pay for putting the products into the consumers' hands. Experience in other countries and to a lesser degree in this, has already gone far to show that co-operative agencies give improved service at a largely diminished cost. How important a further application of this principle is, may be judged from the fact that the present annual retailing value of farm produce in this country is about $9,000,000,000. Assuming that half of this represents the cost of marketing under the present system, and if but five per cent. of the other half could be saved to the producers by hiring their own co-operative managers and sales agents, it would still mean a net gain of $225,000,000.

Co-operation can unquestionably accomplish more through the savings which producers may realize by conducting their own distribution, than through increase in the wholesale price obtained. We need a better adjustment of supply and demand, which will make it possible to market commodities when and where they will bring the largest net return.

USE AND ABUSE OF STORAGE

Enormous Quantities of Food Wasted in Order to Secure Higher Prices —How It Works.

Few things are more useful or more abused than the cold storage of food products. In the producing season of various edibles, there is usually a surplus which must be wasted unless there is some provision for preserving it for use during the lean season. In the true economy of existence this preservation is the purpose of cold storage. But, in the economy of dollar chasing, cold storage has been used to increase prices during the season of plenty, and to make them still higher during the season of scarcity. One of the effects of this has been to waste enormous quantities of food. In some instances it has been found to be more profitable to let some of such food rot, because the increased price of that which was saved more than offset the loss by waste. It is true that this has not always been the case, as was shown by the loss of the egg packers two years ago. But the important thing is that the people should not be robbed of food by the cupidity of the speculators. Waste never made a people rich, no matter how some individuals have profited by it, and the avoidance of such waste would have served to give men and women strength and ability to do the work that the nation needs. We have too many people who are struggling—and failing—to make both ends meet in this land of plenty. —Indianapolis News.

Capons Profitable.

Capons are the most profitable parts of the chicken business, and as steers are the most profitable part of the cattle industry.

RAISING HOGS REQUIRES COMMON SENSE AND KNOWLEDGE OF DIFFERENT DISEASES

Whitewash and Disinfectants Must Be Used Freely About House and Yards Used for Swine—Animals Affected Must Be Separated and Watched Carefully.

(By PROF. R. A. CRAIG.)

It is very necessary that we recognize hog cholera and swine plague in the very early stages in order to prevent them from spreading. In some outbreaks the symptoms are not typical and we cannot diagnose the disease by the symptoms alone. In such cases we should destroy a sick hog and make a careful post-mortem examination.

If the disease proves to be hog cholera or swine plague, and it is practical under the conditions, the herd should be divided into small bunches. The sick animals should be separated from the well ones and all possible precautions taken against the spread of the disease.

Do not move the hogs to different parts of the farm, nor scatter the disease over the farm. If the yards and hog houses are in such a condition that they cannot be properly cleaned and disinfected we should move the herd to some convenient place and build temporary quarters.

When the weather is warm the only protection needed is shade. In cold weather it is necessary to provide quarters warm enough to prevent the hogs from piling up and catching cold. Portable hog houses are very useful for this purpose.

The yards, feeding floors, troughs and hog houses must be kept clean. All litter must be removed daily, and the frequent spraying of the hogs, feeding floors and sleeping quarters with a water solution (two per cent or more) of a tar disinfectant is a necessary part of the care.

Both the sick and well hogs should be fed a light diet of sloppy food, shorts, bran and the like. Water or slop must not be left in the trough for the hogs to wallow in. Copper sulphate dissolved in the water and slop in the proportion of four or five ounces to the barrel may lessen the chance of infection.

As soon as a hog comes down with the disease it should be removed to the pens set off for the sick animals. These pens should not communicate in any way with the pens where the well hogs are kept.

The dead hogs should be burned. This is not a difficult task if the body is placed on top of a pile of wood that will burn quickly and make a hot fire. If disposed of by burying it should be well done and the body covered with lime. However, this is not as satisfactory as burning.

The length of time that the hog houses and their surroundings will remain infected will depend on the care taken in cleaning them. In filth the germs may live for five months. All litter about the yards must be burned or removed to a place where the hogs cannot come in contact with it.

Whitewash and disinfectants must be used freely about the hog house and yards. If the cleaning and disinfecting is carefully done we may be able to stock up again within a few weeks after the hogs have stopped dying and suffer no further loss, but it is usually best to wait two or three months before we do this, or depend on the hogs that have survived for a fresh start.

Where it is practical we should move the hogs to some other part of the farm and build new and better yards.

The pure-bred hog will mature and come into money more quickly than a scrub, and bring more money for the same weight at that.

If sows are closely watched at farrowing time and the pigs immediately be placed in a position to suck they are not so apt to devour them.

The farmer who marketed his corn in the hog yard and who is now marketing the hogs, can look any man in the face and tell him to go to any old place.

One acre of alfalfa will furnish more forage for hogs than two acres of clover, and it grows faster and keeps on growing as fast as the hogs eat it down.

Healthy Pigs Are Always Profitable.

Pigs will live and grow on rape without a supplement of grain, but a small addition of the latter is profitable. Dry sows will, however, do well on the rape alone.

Never feed more than hogs will eat up freely. Many farmers do not practice this, but keep a quantity of uneaten food lying in the lot at all times.

A few coals from the wood fire of the kitchen put into the houses now and then, where the hogs can grind them up into charcoal, help to keep the hogs healthy.

Steaming food for hogs is an easy matter. All that is required is a large box connected with a small boiler by a one-inch pipe. The pipe should connect the box at the bottom.

If you are in doubt kill the bigger hog, for it makes better meat and the ham of a light hog is hardly worth curing, if you are fond of the meat, for it dwindles far too rapidly.

Southern farmers have learned that feeding cottonseed meal in large quantities is a bad business, as it often leads to fatalities. Fed in small quantities, however, with corn and alfalfa, it is beneficial.

PROPER CARE OF ALL YOUNG PIGS

Successful Hog Raiser Is Present at Farrowing Time to Prevent Accidents.

Take care of the young pigs. Give them close attention from the time they are farrowed until they are large enough to take care of themselves. Personal attention to one's pigs, says T. R. H. Wright, assistant in animal husbandry at the Kansas Agricultural college, is the most important essential in successful hog raising.

The man who cares for and feeds the sow should be with the sow at the time of farrowing. After farrowing about one-half of the litter, the sow will very often get up, turn over and kill about half the pigs already farrowed. So the only safe way is to be in the shed and remove the young pigs as fast as they are farrowed.

See that the pigs are dried properly and put them in a covered box lined with burlap. If the weather is cold, put a jug of hot water or a few hot bricks in the center of the box to keep the pigs warm. The jug or bricks should be wrapped to keep the young pigs from being burned.

Reduce the feed of the sow for a short time before farrowing and give her a little slop the first few days after farrowing. Increase the feed as the pigs get older and as the sow seems to need it.

If the pigs should get too fat, diminish the amount of feed fed to both sow and young. Pigs that are too fat are likely to have scours or thumps. The pigs usually will begin to eat when about two weeks old. Then they should have some feed in addition to their mother's milk. They may be fed with the sow by giving her a little more than she will eat or by providing a separate pen, which the pigs can enter but the cow cannot. Keep the pigs' trough clean, as sour feed or milk will cause trouble.

A good feed for both sow and pigs is a mixture of corn, shorts, oil meal, and tankage. The amount of each to feed must be largely determined by the feeder, because the proportion that is best for one sow and her litter may not be best for another. The run of a good pasture should be given them. Alfalfa, clover and rape pastures make good feed for sow and pigs.

If pasture is not available, alfalfa hay may be fed instead, as pigs relish this almost as well in the summer as in the winter, and it can be conveniently fed in racks. The yards and pens should be so situated as to receive the maximum amount of sunshine, as it is one of the best means of keeping the pens in a sanitary condition.

English Milking Machine.

An English milking machine is declared by recent papers.

End of a Noted Folly.

The monocle has long since been out of fashion in England, and is soon to disappear from Paris, which has been its last stronghold. It was invented by a Dutch dandy, and its evil effects upon the eye were at once noted by oculists. The monocle first appeared at the congress of Vienna in 1814, when it was worn by its inventor. One folly, at least, has had only about a century of life.

Lady Uses Tetterine for Eczema.

Edgar Springs, Mo., July 15, 1908.

The Eczema on my face usually appears in the spring and your salve always helps it. I use no other preparation but Tetterine and find it superior to any on the market. Respectfully,

Elsie M. Judvine.

Tetterine cures Eczema, Tetter, Itching Piles, Ring Worm and every form of Scalp and Skin Disease. Tetterine 50c; Tetterine Soap 25c. At druggists or by mail direct from The Shuptrine Co., Savannah, Ga.

With every mail order for Tetterine we give a box of Shuptrine's 10c Liver Pills free. Adv.

Demands of Trade.

"It would seem a flagrantly clear case," said the magistrate, adding, to the burglar who had been haled before him, "What have you to say for yourself?"

"Not much, your honor. But I hope you can give me a short sentence. This is my busy season."—Judge.

AFTER THE DOCTOR FAILED.

Even the most stubborn cases of malaria yield to **Elixir Babek.**

"In the summer of 1896. I contracted the disease known as Malaria. After a year's fruitless treatment by a prominent Washington physician, I was entirely cured by your **Elixir Babek.**"—Brasie O'Hagan, Troop E, 6th U. S. Cav.

It is equally good for bilious disorders. **Elixir Babek,** 50 cents, all druggists, or Kloczewski & Co., Washington, D.C. Adv

Reason.

"Pa, why do they call it the rhinoceros?"

"Because he has such a thick rind, son."

As a summer tonic there is no medicine that quite compares with OXIDINE. It not only builds up the system, but taken regularly, prevents Malaria. Regular or Tasteless formula at Druggists. Adv.

Mighty Hard to Eat.

"So you like all kinds of pie?"

"Yes; all except humble."

ITCH Relieved in 30 Minutes.

Woolford's Sanitary Lotion for all kinds of contagious itch. At Druggists. Adv.

Life is a grind, but it at least sharpens a man's wits.

Whenever You Use Your Back

Does a Sharp Pain Hit You?

It's a sign of sick kidneys, especially if the kidney action is disordered, too, passages scanty or too frequent or off-color.

Do not neglect any little kidney ill for the slight troubles run into Dropsy, Gravel, Stone or Bright's disease.

Use Doan's Kidney Pills. This good remedy cures bad kidneys.

A NEW JERSEY CASE.

Evan Bowen, 8 Mulberry St., Millville, N. J., says: "My back was so lame I could not stand erect. The kidney secretions were painful and I was in a nervous and run-down condition. Doan's Kidney Pills soon made me better and when I had used six boxes I was entirely cured."

v21-3t Autaugaville, Ala.

Miss L. E. Morgan is spending a few days with friends in Birmingham this week.

Miss Alee Stewart of Nashville, Tenn., spent several days here with her mother. She returned to Nashville on Sunday afternoon.

Mr. Lawrence Gerald, who is attending the University in Tuscaloosa, was here last week attending court.

Miss Mary Will Stewart, of Montgomery, spent Thanksgiving with her mother, Mrs. Sallie Stewart.

Miss Ora Shaw, of Jemison, was in Clanton Saturday.

Col. Wm. A. Collier, of Eufaula, Okla., is visiting friends at Verbena.

Christmas Goods. Upchurch Drug Store. Right now.

Mrs. Mack D. Ruffin is employed in the Probate office.

Miss Elna Sorter enttertained a few friends Friday evening.

Mrs. S. J. Watt and Mrs. Evelyn Rylout attended the oyster supper given by the Verbena Junior School Association on Monday night.

If you know what you want to buy for Christmas presents you will find it at Upchurch Drug Store if you will go at once before the stock is picked over.

Messrs. P. O. Glover, Tom Elam, J. R. McAfee and George Bearden, of Maplesville, attended court this week.

Mr. Thos. D. Woods has accepted a position with McArthur Bros.

Miss Ora Shaw spent Saturday with her sister, Miss Ether. Miss Ora is attending Massey's Business College at Birmingham.

Clerks of Chilton County and Weogufka Baptist Associations please call for Minutes.

Work on W. H. Wright's building is progressing well. It is to be occupied by a moving picture show conducted by a local company. No doubt such a place will be appreciated here.

Mr. Tip Mullins is preparing to build a store between Wright's and J. C. Jones & Co. This will make a solid brick block.

The friends of Frank Crichton will be pleased to note that he has gained strength enough to write the articles on the first page. He picks them out on the typewriter with his left hand.

If you don't know what to buy for Christmas presents go to the Upchurch Drug Store at once before somebody is ahead of you and in the large and varied stock of Christmas goods there you will be sure find something that will suit you.

Mrs. L. H. Reynolds received a message Monday morning that her daughter, Miss Willis, who is in school at Montevallo, was very ill and she immediately left to be with her. We learn later that Miss Willis is much better.

Mr. Small, of Gadsden, is here visiting his daughter, Mrs. Clara Mullins.

Miss Bessie Martin, of Thorsby, is here, taking a course in millinery.

A young man from Beat 2 was fined $2 and costs for having failed to make good one day's work. The whole fine amounted to $31. This case is a warning to those who owe road duty. It is costly to defy the law.

THE SECRET TERROR

The haunting fear of sickness and helplessness is the secret of the working man. Health is his capital. Kidney diseases rob a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Upchurch Drug Co.

When Humor Grins.
When a man is not amused, he feels an involuntary contempt for those who are.—Edward Bulwer Lytton.

MARRIAGE LICENSES.

The following licenses have been issued from the Probate Judges' office this week:

Chas. H. Miur and Rachel E. Edwards; W. F. Crump and Neoma Moore; H. Moore and Elvie Mims; J. W. Houston and Sadie Deason; E. W. Wilson and Gracie Baker; J. L. Minor and Della Baker.

ADVERTISED LETTER LIST.

List of letters remaining uncalled for in Clanton office for the week

Will S. Smith, Rufus Wooms, Jominy McKee, J. C. Johnson, Leo Cooper, H. S. Greenton, Sam Greenton, Frank Griffin, C. C. Christian, Clanton Oil Mills.

These letters will be sent to the Dead Letter office Dec. 7, 1912, if not delivered before. In calling for the above, please say "Advertised," giving date of list. F. O. Dudley, p. m.

TEACHER'S EXAMINATION.

The next State Teacher's Examination for Chilton County will be held in the court house at Clanton, beginning on the third Monday in December 1912. The Examination will begin at 10 o,clock a. m. but all applicants should be present by 9 o,clock a. m. so that the enrollment and preliminary work may be done by 10 o'clock. J. W. Moore,
Co. Supt.

CALOMEL GIVES ONLY TEMPORARY RELIEF.

So Powerful It Shocks Liver and Leaves It Weaker Than Before. Dodson's Liver-Tone a Perfect Substitute.

Nearly everybody who has ever tried calomel for constipation or a sluggish liver has found that it gives only a temporary relief. For calomel is such a powerful drug that it shocks and weakens the liver and makes it less able afterward to do its duty than in the first place.

This is one of the reasons why The Upchurch Drug Co. would rather sell Alred Drug Company would rather sell Dodson's Liver-Tone to you than calomel. We know that Dodson's Liver-Tone is a pure vegetable liver tonic that will cure constipation quickly and gently without any danger of bad after-effects. We guarantee it to do this with a guarantee that is simple and fair. If you buy a bottle of Dodson's Liver-Tone for yourself or your children, and do not find that it is a perfect substitute for calomel, then come back to the store and get your money. If you don't get value for your money out of this tonic, it's your right to expect your money back, and we will gladly give it to you.

Old Tree of Historic Interest.
Sir Sidney Pocock, J.P., has just disposed of his residence, Charlton Court, Shepperton-on-Thames, Middlesex, England, in the kitchen garden of which is a very old mulberry tree bearing a tablet with the following inscription: "During the reign of Charles II. a fox was hunted from Windsor park and took refuge in this tree, where it was killed. The king, who was present at the kill, expressed a wish that the tree should be preserved to commemorate the longest run on record."

Queen Elizabeth's Pedigree.
One of the most interesting curiosities at Hatfield is the pedigree of Elizabeth, which is to be seen in the gallery. Those intrusted to make out the document wisely discovered that her descent could be traced through every important person, and especially through every beautiful person, straight back to Adam and Eve. It is on record that the Virgin Queen highly commended the work.—London Evening Standard.

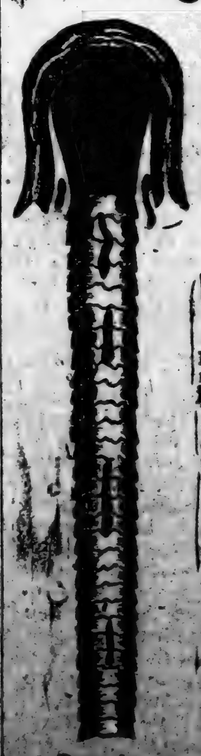
HUMAN HAIR ROOT

Showing Dandruff Germs At Work



WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes

but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as represented.

PRICE 50C AND $1.00 AT ALL DRUGGISTS

If your druggist does not keep it send 50c. in stamps and we will send you a large bottle, express prepaid.
WYETH CHEMICAL COMPANY, 74 CORTLANDT STREET, NEW YORK

FREE A Trial Cake of Wyeth's Sage and Sulphur Toilet Soap Free to anyone who will send us this advertisement with 10c to stamps to cover cost of wrapping and mailing the soap.

70 Years with Coughs

We have had seventy years of experience with Ayer's Cherry Pectoral. This makes us have great confidence in it for coughs, colds, bronchitis, weak throats, and weak lungs. We want you to have confidence in it, as well. Ask your own doctor what experience he has had with it. He knows. Keep in close touch with him.

One of Ayer's Pills at bedtime will cause an increased flow of bile and produce a gentle laxative effect the day following. Formula on each box. Show it to your doctor. He will understand at a glance. Dose, one pill at bedtime, just one.
Made by the J. C. AYER CO., Lowell, Mass.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.
F. J. CHENEY & CO., Props., Toledo, O.
Sold by Druggists, price 75c.
Take Hall's Family Pills for constipation.

NOSE STOPPED UP WITH CATARRH

A Common Sense Treatment for Colds and Catarrh. Gives Instant Relief.

No matter how miserable you are with catarrh or a cold in the head, nose stopped up, throat sore, eyes running, dull pain in the head, dry cough, fever, foul breath, Ely's Cream Balm will give you instant relief.

It gets right at the root of the trouble, cleanses, heals and strengthens the raw, sore membrance, stops the nasty discharge so that you are not constantly blowing the nose and spitting. In a few minutes after applied you can just feel it doing its work of clearing the head, the pain and soreness are relieved, the breathing becomes natural and the stuffed up feeling is gone. This cleansing, healing, antiseptic Balm contains no mercury, cocaine or other harmful drugs. It is easy to apply, pleasant to use, and never fails to give relief, even in the worst cases.

Never neglect a cold, and don't suffer the miseries of catarrh nor disgust your friends with your hawking, spitting and foul breath. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and start the treatment at once. You will find that it will be the best investment you ever made.

GRAND JURY REPORT.

State of Alabama,
Chilton County.

In the Circuit Court of said County, Fall Term, 1912,

To the Hon. W. W. Pearson. Judge of the 15th Judicial District:

We, the Grand Jury duly empanneled and sworn at the Fall Term, 1912, of the Circuit Court of Chilton County, Ala., has leave to submit this our final report:

We have investigated niuety-eight cases alleged violations of the law and have returned into your Honor's court fifty-three true bills.

GENERAL CONDITION OF THE COUNTY.

We find the general conditions of the county as to prosperity good. The county treasury shows a substantial sum of cash on hand. The report of the County Treasurer which has been verified by the committees appointed by this grand jury is hereto attached marked Exhibit A, and asked to be taken as a part of this report.

The roads of the county are in a fairly good condition, but we attribute this largely to the ideal weather we have had during the fall rather than to any special work that has been done on same.

Violations of the prohibition law in the county seem to be on the decrease, but disturbances of religious worship and public assemblages on the part of thoughtless young men seems to be general, and we call on all good citizens every where to take due notice of this and report all such violations to the proper officials and take such other steps as are necessary to cut down and contract this evil.

THE COUNTY POOR.

We find that there are seventeen inmates iu the county poor house, eleven females and six males, all white, except one negro female. They are well provided for as to comfort and food, and the premises are neatly and cleanly kept. We would suggest that the County Commissioners, however, provide two closets which are needed, so as to prevent inmates from having to go out in bad weather to answer calls of nature.

A fire place should be placed in the room used as a dining room as at present there is no way to provide fire in this room.

COUNTY PROPERTY.

We find the court house and jail nicely kept. The jail and court house are clean and sanitary so far as same can be kept, but there is not a sufficient water supply either for the court house or jail, and we would suggest that the Court of County Commissioners at once provide a water supply adequate for the demands. This should be attended to at once, as it might cause sickness among the prisoners at the jail unless same should have immediate attention. It might be secured by digging another well, or perhaps the present well might be deepened. The Court should look into this at once and take such steps as are necessary to provide an adequate water supply.

We would also recommend that at least two more rooms be added to the rear of the court house, so as to provide the necessary office room for transacting the work of the county. As it now is, the court house is not ample for the business of the county,

BUILDING COUNTY ROADS.

We have carefully investigated as to the sentiment of the county looking towards the building of better roads in Chilton County, and we find that the general sentiment of the county is that we need and should have better roads throughout the county, that the present roads are neither in keeping with the general progress of the county, nor are they adequate and fit for the business of the county, but there is no fixed idea among the people as to what is the best manner of securing good roads. We have carefully inquired as to the sentiment of the people as to a bond issue for the purpose of building roads, and while the majority of this grand jury favors a bond issue, and believes that that is not only the quickest way to secure good roads, but it is at the same time the cheapest and best way, still we are constrained to say that from what we can gather from the sentiment of the people over the county at the present time we do not believe that a bond issue would carry if submitted to a vote of the people just at this time. We do believe, however, that the minds of the people are open to conviction, and that if the matter were properly submitted to them so that they might have a proper understanding of the cost, manner and meaning of a bond issue, in other words, if they properly understood it, that they would vote for a bond issue for building roads. And to the end that the people of the county may fully understand its cost and meaning, we would recommend that the County Commissioners take such steps as are necessary, acting through their secretary, to secure the services of a government expert on road building to come to Chilton County so soon as his services can be secured, and that he make a survey of the principal roads of the county and make a map of same, and at the same time make an estimate of the cost of building good roads in this county, and that his report be given such publicity that the people may know and fully understand all about it. We believe that the small cost that this would entail on the county would be one of the best investments that the county could make.

COURT OFFICERS.

Committees of this grand jury have investigated books and county offices of all the officers of the county, as the law requires, and we find that the bonds of the county officers are ample, and that all books are well and carefully kept so far as we have been able to determine.

In conclusion, we would say that the heating of the court house might be more economically done by extending the heating plant now installed in such a manner as to heat the offices of the court house, this would do away with the grates in several of the offices, and the entire building could practically be heated with very little additional expense, and the saving of coal and janitor service would pay for the expense of enlarging the heating plant in a very short time. We recommend that the Commissioners Court look into this matter we the view of making this change, should an investigatton on their part convince them that we are right in the premises; and we also recommend that the jail be furnace heated instead of the present way. We desire to thank our able Solicitor for valuable assistance given us in the discharge of our duty, also thank your honor, Judge W. W. Pearson, for his able charge, and the bailiff for his attendance upon our body.

Having completed our labors, we respectfully ask that we be finally discharged.

T. L. ELAM,
Foreman.

TREASURER'S REPORT TO THE GRAND JURY.

November 25th, 1912.

To the honorable Solicitor and Gentlemen of the Grand Jury of the Fall Term, 1912, of the Circuit Court of Chilton County, Ala.

Gentlemen:—I beg to report to your honorable body that I have cash on hand to credit of the following funds:

Nov. 15, to cash on hand		
" "	general funds -	$5585.98
" "	Special Road - Fund. -	7060.17
" "	Fine & F. funds	1587.01
" "	Redemption of Land Rec. -	130.78
		$14,363.94

I, J. W. Littlejohn, Treasurer of Chilton County, Alabama, do hereby certify that the above is a true and correct statement of the finances of Chilton County as appears from my books.

Respectfully submitted,
J. W. LITTLEJOHN,
Treasurer Chilton County, Ala.
Clanton, Ala., Nov. 25, 1912.

The following civil cases were tried in the Circuit Court last week and judgment rendered:

R. A. Miller vs Luther Crayton, pltf.

Grasselli Chem Co. vs Chilton Whse & Mfg Co, pltf, $2318.

Mrs. J. F. Palmer vs Jno S Catts, pltf 950.

CIRCUIT COURT.

The criminal term of the court now in session will continue probably three weeks. Among the prominent cases to be tried are those of the state against Bill Oden, murder; Ed Martin, murder; Jean Martin, (col.) murder; John Read, (col.), murder; Wm Davis, (col.), murder.

A verdict was given in the following cases tried up to Wednesday:

Fonzo Culp, S. I. hard labor.

Houston Harrell, S. I. $250.

Scott Craddock, S. I. not guilty.

Geo. Kilgore, dis. con, $1.

Alern Harrell, S. I. $75.

Jas. H. Davidson, dis. con. n. s.

Caleb Hadny, two cases, S. I., $50 in each case.

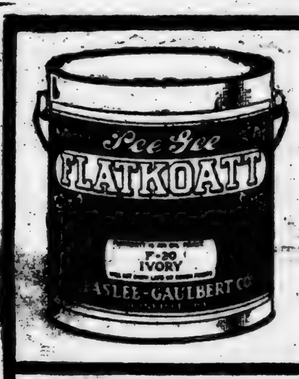
A. Rider, larceny, n. g.

Dolby Robinson, n. g.

Jim Parker, case thrown out.

CROUPY COUGHS AND WHEEZY COLDS

The quickest simplest way to rid the children of dangerous croupy coughs and wheezy stuffy colds is to give them Foley's Honey and Tar Compound. It gives almost instant relief and stops a cough promptly. It soothes and heals. Contains no opiates. Upchurch Drug Co.



"Get Out of the Rut" and save money on the Finish of your

Walls and Ceilings

Ask our dealer in your town for our beautiful book: "*Modern Method of Finishing Walls*," giving color schemes and practical suggestions and full information about

PEE-GEE FLATKOATT,

The Sanitary, Durable, Flat Oil Finish

Pee-Gee Flatkoatt is rapidly superceding wall papers, kalsomines and lead-and-oil paints, which are unsanitary, unsatisfactory and more expensive.

Pee-Gee Flatkoatt gives tone, character and harmonious effect; and is the modern wall finish for private houses and public buildings. The plain directions on each can make it easy to apply with perfect success.

Stubborn Case

"I was under the treatment of two doctors," writes Mrs. R. L. Phillips, of Indian Valley, Va., "and they pronounced my case a very stubborn one, of womanly weakness. I was not able to sit up, when I commenced to take Cardui.

I used it about one week, before I saw much change. Now, the severe pain, that had been in my side for years, has gone, and I don't suffer at all. I am feeling better than in a long time, and cannot speak too highly of Cardui."

TAKE CARDUI The Woman's Tonic

If you are one of those ailing women who suffer from any of the troubles so common to women.

Cardui, is a builder of womanly strength. Composed of purely vegetable ingredients, it acts quickly on the womanly system, building up womanly strength, toning up the womanly nerves, and regulating the womanly system. Cardui has been in successful use for more than 50 years. Thousands of ladies have written to tell of the benefit they received from it. Try it for your trouble. Begin today.

ROYAL BAKING POWDER

Absolutely Pure

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

A Nervous Woman Finds Relief After Many Years

Women who suffer from extreme nervousness, often endure much suffering before finding any relief. Mrs. Daniel Kintner, of Defiance, O., had such an experience, regarding which she says:

"I had stomach trouble when I was eighteen years old that broke down my health, and for years I suffered with nervousness, headache, indigestion and nervous spasms. The spasms got so bad I would have them three or four times a week. After trying nearly every remedy recommended, I began taking Dr. Miles' Nervine, and I must say it helped me wonderfully. I have had no severe nervousness for several years."

MRS. DAN. KINTNER,
1002 Pleasant St., Defiance, O.

Many remedies are recommended for diseases of the nervous system that fail to produce results because they do not reach the seat of the trouble. Dr. Miles' Nervine has proven its value in such cases so many times that it is unnecessary to make claims for it. You can prove its merits for yourself by getting a bottle of your druggist, who will return the price if you receive no benefit.

MILES MEDICAL CO., Elkhart, Ind.

Fatherly Pride.

"Is he proud of his baby boy?"

"Proud of him? I should say he is. Why, he spent two hours yesterday trying to imagine how he'll look in a silk hat."

AWAY WITH CATARRH A FILTHY DISEASE

A Safe Old-fashioned Remedy Quickly Relieves All Distressing Symptoms.

If you are subject to frequent colds, or if you have any of the distressing symptoms of catarrh, such as stuffed up feeling in the head, profuse discharge from the nose, sores in the nose, phlegm in the throat causing hawking and spitting, dull pain in the head or ringing in the ears, just anoint the nostrils or rub the throat or chest with a little Ely's Cream Balm, and see how quickly you will get relief.

In a few minutes you will feel your head clearing, and after using the Balm for a day or so the nasty discharge will be checked, the pain, soreness and fever gone, and you will no longer be offensive to yourself and your friends by constantly hawking, spitting and blowing.

Shake off the grip of catarrh before it impairs your sense of taste, smell and hearing and poisons your whole system. In a short time you can be completely cured of this distressing disease by using Ely's Cream Balm. This healing, antiseptic Balm does not fool you by short, deceptive relief, but completely overcomes the disease. It cleans the nose, head and throat of all the rank poison, soothes, heals and strengthens the raw, sore membranes, making you proof against colds and catarrh.

One application will convince you, and a 50 cent bottle will generally cure the worst case of catarrh. It is guaranteed. Get it from your druggist to-day.

Absent-Minded Professor.

A certain university professor was noted for his absent-mindedness. One morning as he sat at the breakfast table with a scientific magazine propped up before him, his wife was astonished to see him reach out for the maple sirup, pour it down his back, and lean over and scratch his pantaloons.

JUDGE PEARSON ON ROAD BUILDING AND A BOND ISSUE.

Judge Pearson, in his charge to the Grand Jury after giving much valuable advice and instruction, in accordance with a promise he had made takes up the question of building roads in the county, and, with due deference to his superior judgment and his positiont as an officer, not of a political party but of the whole people, he leads off with an inviduous insinuation which we believe to be unwarranted and uncalled for. He says:

"I have promised the citizens of Chilton never to charge a Grand Jury without referring to one thing in which you are all vitally interested or until you have accomplished something tangible in the direction indicated. I guess it is useless to say that I refer to your public roads. You have permitted one or two men who are indiscreet to lead you off in one direction or another and have prejudiced your minds to such an extent that you are cutting your own throats in the mattter of public roads. I do not refer to any individual, they are, perhaps, on both sides, but you have permitted politics to enter into the discussion of road building. This ought not to be; politics should never enter into religion, schools or public roads. There is no room for politics in either of these. Yet when the proposition for the issuance of bonds to build roads is mentioned your nerves are so unsettled that you do not look at the matter in the proper light."

We think the road question, especially the bond issue, which he takes upon himself to champion, is not in this county so much a question of politics as of common sense. There are politicians who have tried to force a bond issue upon the people in a way that "got onto their nerves," to slightly change the Judge's expression, but the bulk of the people are inclined to study the question from an economic and business standpoint. If the Judge had chosen to say that in his opinion public roads could best be built by having a bond issue, his opinion would have weight for whatever itis worth; but this is an extra-judicial question and he cannot lay down the laws. He goes on:

"A man starting from Maplesville with a two mule team could scarcely reach Clanton with three bales of cotton; why is this? Because your roads are not as such as you should have. A bond issue, properly expended, would forever settle this question for you."

Right there he touches one of the points which grate upon the "nerves" of the tax payers of the county. The best showing so far made for bond issue roads is that a limited number of miles could be built with the bonds, connecting certain favored portions of the county, but what the county needs is a system of road work which will afford every neighborhood a chance to reach their own market, churches and schools, not a road on which to haul cotton from Maplesville to Clanton. Who expects to haul "three bales" or "seven bales" from that town on two railroads to this?

Then he proceeds with an argument which must unsettle the "nerves" of the blind-folded statue of Justice which is supposed to preside over every temple of the Law in the land:

"I have asked your Tax Commissioner (Mr. VanDerveer) to figure out for me what proportion of the bond issue tax the farmers of the county would probably have to pay; he states that it would not be over twenty-six per cent, or in other words, every time you farmers put twenty-six cents into the building of your public roads the corporations and large industries would have to put seventy-four cents, yet you are to be large beneficiaries, and the same man above mentioned under good road conditions could come from Maplesville with his two mule team and bring seven bales of cotton."

The figures may be correct, and the farmer may pay only "twenty-six per cent" of the taxes, but the whole hundred per cent goes to pay the running expenses of the county and anything taken from the amount or any extra expense added calls for more money. Bonds and interest must be paid out of tax money and even if it be a wise expenditure is it just to demand that the payers of the seventy-four per cent should be unduly burdened for the benefit of the twenty-six per cent. The argument is an old one, popular with politicians who desire to draw the small tax payers into some scheme, and we know of counties struggling with debts they were lured into by the claim that "the big corporations" would pay the most of it. But, some how, the claim does not sound good coming from the temple of even an impartial justice.

"Again you say, when this proposition is broached, that you are unable to pay for a bond issue. It would be vastly cheaper to you and to your children if good roads should be built by the issuance of bonds. Let's see for a moment. Montgomery, Elmore and Autauga have issued bonds and have built excellent systems of roads; no one in these counties complains of additional taxation for they have received much more in return than they paid for the roads."

That is a matter for investigation: the question should not be settled without getting all the information bearing upon it. It is quite possible that counties will be found that are heavy losers by bond built roads, and we are sure that counties which have secured good roads under other systems are numerous.

This paper is in favor of good roads, and hopes that the best and most efficient plan may be arrived at speedily. We believe that if an amount equal to the entire taxation at present were spent on roads it would prove a good investment for the farmer, but we cannot believe that issuing bonds for roads in favored sections is the best way to get at it; we believe there are better ways to reach the desired end of a system of fairly good roads reaching all parts of the county. That is our opinion given for what it is worth. We do not believe the ipse dixit of any one man will have a narcotic effect upon the "nerves" of the tax payers and voters of the county.

News was received in Clanton Monday morning of the death of Dr. Sam Woolley, of Jemison. He was only sick a short time, having been in attendance on court here last week.

NOTICE.

All members of Unity Local Union No 740, are urgently requested to attend the meeting on next Saturday, Dec. 14, at 1:00 o'clock.

Business of importance is to come before the meeting. We want every farmer in the community to join us in building up the farmers interests of our county. If we could only get every one interested the burden would be light on those who are carrying the load. Let us co-operate for the general benefit of all.

Yours for education,

J. M. Smith,
S. H. Riggins,
F. C. Gulliga.

A BROAD VIEW OF THE PROGRESSIVE PARTY

In England, to a great extent, politics means something more than a scramble for office or a blind following of partizan leaders. The prominent satesmen are men who zealously and without hope of reward champion causes which are for the benefit of the people and the people generally do not accept party lines as binding them into a blind following of the "ring" leaders. The system which has ruled this country for many years has been an amazement and a mystery to the freemen of Briton. They, however, see hope for better things over here in the rise of the Progressive party.

The best summary of the result of the movement we have seen, is this from the London Spectator, a journal of the highest thought:

The Bull Moose has done better than win the election. He has put the fear of God into the hearts of party politicians throughout the length and breadth of the United States. He has made them understand that there is something more than party to be considered, and there is a limit to political self-interest. Hitherto it has been supposed that the American voter was so much enslaved by party that there was hardly any sacrifice which he would not make, provided he were told in loud and emphatic tones that it was demanded in the interests of the party to which he belonged. He might be sad, sorry and ashamed, but it was held as an article of faith that he would accept almost any humiliation, and would support even men he believed to be unworthy, provided he were told it would ruin the party if he were to show any signs of independence. The election just over has changed all that. It will, we believe, leave an indelible mark upon American politics."

It will not, of course, do away with all political evils at once, or perhaps ever, but it gives an available and substantial foundation on which the independent voter can stand to claim what he believes to be his rights and demand progression and action in all the lines that concern his welfare, The lines of this independent party have been well laid and in the next four years will the most of the thoughtful voters will be drawn to it, not so much as a "party," in the old partizan sense, but as a movement to enable the voters to claim what they want.

Another London paper, the Outlook, remarks that whatever may happen

"American politics can hardly slip back into their old state of artificial divisions and obselute or meaningless war-cries. The advent of the Progressives, if it has done little else, has at least vastly enlarged the political horizon and interests of the average man and turned his thoughts toward concrete and immediafe issues of social aud industrial readjustment."

The enlargement of our political horizon will mean that freed from all geograpical limitations and the hampering bonds of old party prejudices the voters will be able to calmly consider and demand all those social reforms which present conditions of the country call for. There is no promise of this in the party accidentally in power as the result of the election just passed or in the thoroughly discredited party just going out of power. The "standpatters," who are content with old methods and leaders will, most probably, all adhere to the democratic standard; those who desire independence, reform and progress will group their strength in the new party, and, if we read the signs of the times aright, this new party has now—among the voters, mind you—all the elements of power needed to bring about reform.

It is the party of independence and every thoughtful voter may feel proud to be among the number, whether the party succeeds at first or not. It is not a question of grabbing offices, but of settling great social questions. Its platform has as its base the universal brotherhood of man, and the scope of its work is necessarily vast. [illegible] political holidays [illegible]

THE GREATEST SALE

EVER PULLED OFF IN THIS MARKET

will take place at my Store, commencing Thursday, Dec. 12, and ending Feb. 1, '13.

I have just purchased the large stock of Goods formerly owned by Mr. Vanderveer, of Montgomery, at less than one half wholesale cost, and they consist of winter goods and must be sold before the season is over, regardless of price.

I have space to mention but a small part of the goods, but the stock consists of General Merchandise, such as Shoes, Clothing, Hats, Gentlemen's and Ladies, Underwear, Calico, Outing, Dress Goods of all kinds. There is in this stock $2,000 worth of Endicott Johnson and Roberts, Johnson & Rand Shoes which were bought last September and are of the latest styles.

In fact, the goods are brand new, nothing old or shoddy. I would mention more prices, but all I ask is a look, and if you are in the market we will sell you.

I will mention just a few prices which will rule as long as the articles last: Sugar, 20 lbs. for $1; Shorts, $1.60 per 100; Pure Middlings in white sacks, $1.85 per 100; Flour, $5.60 per bbl, the same grade I have been selling.

Remember, I still have Genuine TEXAS RED RUST PROOF OATS, right from Howe, Texas. Were not shipped through a jobber, but I bought them direct.

I have a large stock of Stoves, and Harness of all kind, brand new, which will go for less than half wholesale prices.

Wagons, Buggies, Stalk Cutters, Mowers and Reapers.

With every Dollars worth of Goods Sold for Cash I will give a Ticket and on the first day of February, 1913, at 12 o'clock, the lucky number will get a handsome new Domestic Sewing Machine. The second lucky number I will give $10.00 in Merchandise.

The First Ten Ladies that trade Five Dollars worth after ten o'clock Thursday morning, the 12th I will give them ten yards of Calico.

The Coughs of Children

They may not cough today, but what about tomorrow? Better be prepared for it when it comes. Ask your doctor about keeping Ayer's Cherry Pectoral in the house. Then when the hard cold or cough first appears you have a doctor's medicine at hand. This cough remedy is especially good for children. It [illegible]

Trapped.

"Don't you love me or do you?" asked the western girl. The eastern man studied for a minute and answered: "The former." And he tried to conceal his surprise when she threw herself into his arms.—Cleveland Plain Dealer.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials, free.

A HIDDEN DANGER

It is a duty of the kidneys to rid the blood of uric acid, an irritating poison that is constantly forming inside.

When the kidneys fail, uric acid causes rheumatic attacks, headache, dizziness, gravel, urinary troubles, weak eyes, dropsy or heart disease.

Doan's Kidney Pills help the kidneys fight off uric acid—bringing new strength to weak kidneys and relief from backache and urinary ills.

A KENTUCKY CASE.

Mrs. K. P. Ward, 713 Church St., Bowling Green, Ky., says: "I suffered terribly from my kidneys and had awful pains in my back. I had run down to 105 pounds and was rapidly growing worse. Doan's Kidney Pills helped me from the first and I steadily improved. I now weigh 125 pounds and feel better than before in years."

$600,000 IS LOST IN CINCINNATI FIRE

GIBSON HOTEL, TWO STORES AND HUNDRED OFFICES ARE DESTROYED.

UNKNOWN STEAMER SINKS

Centurion Rams Small Vessel, Which Sinks Before Being Identified.

Cinchmati.—Three of this city's leading establishments, as well as more than 100 offices were destroyed by fire when the Gibson hotel, the Rendigs-Lothman company, a department store; W. L. Douglas Shoe company, and the offices of the Missouri Pacific railway were swept by flames while the top 10 floors of the Union Trust building, a 17 story fireproof structure, practically were gutted.

Whether there was any loss of life is undetermined. The hotel manager insists all of the guests were notified in time to get out, while the police are of the opinion that there might have been persons left in the rooms. This opinion is based on the rapidity with which the flames spread.

The loss as estimated by the management of the Gibson house is $350,000; that on Rendigs-Lothman, $100,000; Douglas Shoe company, $25,000; Missouri Pacific offices, $15,000, and the Union Trust building, $200,00.

The firemen reported that they had seen six women on the fifteen the floor of the Union Trust building shortly after the flames had eaten their way into that strucure, and that, despite all efforts, they were unable to reach them and were of the opinion that they had perished. An investigation of this report was at once begun.

UNKNOWN STEAMER SINKS.

Devonport, England.—The British dreadnaught Centurion, while speeding at a rate of 2 knots off Portland hill ran down and sank a small unidentified steamer. The battleship returned to port leaking badly and with a battered bow.

The steamer tried to cross the bow of the warship, which struck her well forward with such force that the steamer's port light was found still burning after the collision on the Centurion's forecastle.

Before the steamer cleared the battleship's smoke she sank and no trace of her could be found although boats were lowered and the Centurion cruised about until long after dawn. The steamer plunged to the bottom so quickly that the crew of the battleship could not determine whether she was a tramp or a passenger ship.

The bows of the battleship were damaged by the anchor being driven through the plates.

ONE MAN SLAIN IN RAID.

Dead Man Is Supposed to Have Been Notorious Safe-blower.

Memphis, Ten.—In a raid on a house in the southeastern suburbs of the city "Kinney" Bergen, believed to be a widely known safeblower and all round thug, was killed by city detectives.

Frank Holloway, known to the police authorities of the Middle West and Southwest as a robber and swindler, with two other men and a woman, was placed under arrest at the same time.

BEGGARS MAIM THEIR CHILD.

Parents Cut Out Girl's Eyes To Make Business More Profitable.

Cerbere, France.—A man and wife living in Gave, Catalonia, were caught in the act of gouging out the eyes of their 5 year old child, aiming to maim it and render it more pitiable and thus better able to obtain as a beggar more sympathy from the public.

The other inhabitants of the village were attracted by the screams of the child and when they arrived on the scene they found it had already been blinded. The man and woman were arrested.

SPARKS FROM THE WIRES.

Paris.—At the first day's sale of the collection of the late Henri Rouart, consisting of modern paintings, $352,799 was realized.

Sheridan, Wyo.—Henry A. Coffeen, aged 71, a member of the fifty-third congress and the only democrat that ever represented Wyoming in congress, died suddenly at his home here.

Washington.—The appointment of Carmi Thompson, President Taft's former secretary, as treasurer of the United States was unanimously confirmed by the Senate.

Auburn, N. Y.—The Rev. Bronson Ives, an intimate friend of Abraham Lincoln, Horace Greeley, T. DeWitt Talmage and other eminent men, died here. He was 91 years old.

Guilford, Ind.—Harvey and Jesse Osgood, [illegible]

OXIDINE

To let malaria develop unchecked in your system is not only to "flirt with death," but to place a burden on the joy of living.

You can prevent malaria by regularly taking a dose of OXIDINE. Keep a bottle in the medicine chest and keep yourself well.

WANTED TO FINISH THE JOB

Pride in His Work, Not Tender Heart, Was What Induced the Chauffeur to Return.

They were going along the public highway at a leisurely rate of forty miles per hour, when a decrepit hen and rooster started to do the chicken special—cross the road.

The front and hind wheels on the right side struck the poor, old, stiff-jointed rooster amidships, and with one squawk he succumbed.

Immediately the man at the steering wheel started to slow down and to look about for a place to turn.

His solicitous wife turned to her seatmate and said:

"Isn't that just like his tender heart? He won't be satisfied unless he goes back and settles for that rooster. He just can't bear to feel he has injured anyone or anything."

Then louder, to her husband, she said: "George, remember that appointment. We haven't any time to go back for anything."

Glancing at the clock near his feet and at the speedometer near by, he sighed and said:

"You're right, Jennie; but I just know if I had turned back I could have killed that old hen just as easy as I did the rooster."—Judge.

ECZEMA SPREAD OVER BODY

R. F. D. No. 1, Lewisburg, Ky.—"Fifteen years ago I was badly affected with eczema upon my scalp first, then it spread all over my body and continued to grow worse for four years. It began with a dry rash. After forming thick scales or scabs the irritation forced me to scratch the scabs off and the hair would come out with them. Upon my face and body the sores would get inflamed and they disfigured my face. It was worse where my clothes irritated them. The eruption was a yellowish watery kind, sometimes bloody. In warm weather it was so bad I was not able to work on account of the raw irritating sores on my head and body.

"After trying various medicines without relief I tried Cuticura Soap and Ointment. After using four cakes of Cuticura Soap and four boxes of Cuticura Ointment and one bottle of the Resolvent I was entirely sound and well and have been for eleven years." (Signed) W. H. Williams, Mar. 19, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

Push Sale of Red Cross Seals.

The American Red Cross has already printed over 85,000,000 Red Cross Christmas seals and probably the edition will number 100,000,000 before the end of the campaign. If the anticipations of the anti-tuberculosis workers are realized, no less than $400,000 will be obtained from the sale of Red Cross seals. Practically all of the money remains in the state or city where the seals are sold, only a very small percentage of it is going to pay for the cost of the printing and distributing the seals and for the expenses of running the campaign.

In case any persons cannot obtain seals in the community where they live, they can secure them by writing to Red Cross Seal Headquarters, 715 Union Trust building, Washington, D. C. Red Cross seals cost one cent each, and every seal sold is a bullet in the fight against tuberculosis.

Lost Trousers Playing Poker.

William Verne appeared in a Detroit police court attired in a dress coat and some underwear—he had bet the trousers in a poker game the evening before and lost. His cash, his watch and his diamonds preceded the trousers into the "bank." The trousers were of good quality, so William bet several blue chips on them. But his luck didn't turn and when he was cleaned out again he broke up the game by quitting. He begged the loan of the trousers to go home in, but the bank took no risks and declined. So William started in dress coat and underwear and was arrested.

Not to Be Caught.

Farmer (on one side of the hedge to boy on the other side)—Now, then, my lad, didn't I tell you not to let me catch you here again?

Boy (preparing to run)—All right, don't make a fuss. You ain't caught me yet!—Weekly Telegraph.

Very Much So.

"When Mrs. Jibbetts was asked why she neglected her friends so, she gave a bald excuse."

"What was it?"

"The baby."

Its Cause.

"Why do they want corporal punishment restored in the schools?"

"To whip the young idea into shape."

Successful.

"Is he a very successful surgeon?"

"Very. Nearly all of his patients live long enough to pay their bills."

A small boy doesn't find it very amusing to do the things his parents are willing to let him do.

The honeymoon is on the wane when hubby quits taking wifie every where he goes.

This is a Duke's Mixture Umbrella

Whether you smoke Duke's Mixture in pipe or cigarette, it is delightfully satisfying. Everywhere it is the choice of men who want real, natural tobacco.

Liggett & Myers

Duke's Mixture

In each 5c sack there are one *and a half* ounces of choice Virginia and North Carolina tobacco—pure, mild, rich—best sort of granulated tobacco. Enough to make many good, satisfying cigarettes—the kind that makes rolling popular. And with each sack you get a present coupon and a book of cigarette papers free.

Get an Umbrella Free

The coupons can be exchanged for all sorts of valuable presents. The list includes not only smokers' articles—but many desirable presents for women and children—umbrellas, cameras, toilet articles, tennis rackets, catcher's gloves and masks, etc.

During December and January only we will send our illustrated catalogue of presents FREE to any address. Ask for it on a postal, today.

Coupons from Duke's Mixture may be assorted with tags from HORSE SHOE, J. T., TINSLEY'S NATURAL LEAF, GRANGER TWIST, *coupons from* FOUR ROSES *(10c-tin double coupon),* PICK PLUG CUT, PIEDMONT CIGARETTES, CLIX CIGARETTES, *and other tags or coupons issued by us.*

MORPHINE

PRESIDENT TAFT SUBMITS SECOND OF HIS MESSAGES

It Deals With Fiscal, Military, Insular and Judicial Affairs of Nation.

MONEY CONDITIONS ARE GOOD

Plans for Reorganization of the Army Explained.

FILIPINO BILL CONDEMNED

Chief Executive Declares the Islanders Are Far From Ready for Self-Government—Regulation of Water Power Site Projects Urged—Promoting of Colonel Goethals Recommended.

Washington, Dec. 6.—Congress today received from President Taft the second of his messages to the short session. It deals with fiscal, military, insular and judicial affairs and in part is as follows:

The condition of the country with reference to business could hardly be better. While the four years of the administration now drawing to a close have not developed great speculative expansion or a wide field of new investment, the recovery and progress made from the depressing conditions following the panic of 1907 have been steady and the improvement has been clear and easily traced in the statistics. The business of the country is now on a solid basis. Credits are not unduly extended, and every phase of the situation seems in a state of preparedness for a period of unexampled prosperity. Manufacturing concerns are running at their full capacity and the demand for labor was never so constant and growing. The foreign trade of the country for this year will exceed $4,000,000,000, while the balance in our favor—that of the excess of exports over imports—will exceed $500,000,000. More than half our exports are manufactures or partly manufactured material, while our exports of farm products do not show the samo increase of domestic consumption. It is a year of bumper crops; the total money value of farm products will exceed $9,500,000,000. It is a year when the bushel or unit price of agricultural products has gradually fallen, and yet the total value of the entire crop is greater by over $1,000,000,000 than we have known in our history.

Condition of the Treasury.

The condition of the treasury is very satisfactory. The total interest-bearing debt is $963,777,770, of which $134,631,980 constitute the Panama canal loan. The non-interest-bearing debt is $378,301,284.90, including $346,671,016 of greenbacks. We have in the treasury $150,000,000 in gold coin as a reserve against the outstanding greenbacks; and in addition we have a cash balance in the treasury as a general fund of $167,152,478.99, or an increase of $26,975,552 over the general fund last year.

Receipts and Expenditures.

For three years the expenditures of the government have decreased under the influence of an effort to economize. This year presents an apparent exception. The estimate by the secretary of the treasury of the ordinary receipts, exclusive of postal revenues, for the year ending June 30, 1914, indicates that they will amount to $710,000,000. The sum of the estimates of the expenditures for that same year, exclusive of Panama canal disbursements and postal disbursements payable from postal revenues, is $732,000,000, indicating a deficit of $22,000,000. For the year ending June 30, 1913, similarly estimated receipts were $667,000,000, while the total corresponding estimate of expenditures for that year, submitted through the secretary of the treasury to congress, amounted to $656,000,000. This shows an increase of $76,000,000 in the estimates for 1914 over the total estimates of 1913. This is due to an increase of $25,000,000 in the estimate for rivers and harbors for the next year on projects and surveys authorized by congress; to an increase under the new pension bill of $32,500,000; and to an increase in the estimates for expenses of the navy department of $24,000,000. The estimate for the navy department for the year 1913 included two battleships. Congress made provision for only one battleship, and therefore the navy department has deemed it necessary and proper to make an estimate which includes the first year's expenditure for three battleships in addition to the amount required for work on the uncompleted ships now under construction. In addition to the natural increase in the expenditures for the uncompleted ships, and the additional battleship estimated for, the other increases are due to the pay required for 4,000 or more additional enlisted men in the navy; and to this must be added the additional cost of construction imposed by the change in the eight-hour law which makes it applicable to ships built in private shipyards.

With the exceptions of these three items, the estimates show a reduction this year below the total estimates for 1913 of more than $5,000,000.

The estimates for Panama canal construction for 1914 are $17,000,000 less than for 1913.

The president then explained at some length the national reserve association system recommended by the monetary commission and urged congress to examine the plan impartially from all standpoints and then to adopt some plan which will secure the benefits desired.

Concerning the tariff he had little to say in view of the fact that a new congress has been elected on a platform of tariff for revenue only.

Army Reorganization.

Our small army now consists of 83,809 men, exvluding the 5,000 Philippine scouts. Leaving out of consideration the coast artillery force, whose position is fixed in our various seacoast defenses, and the present garisons of our various insular possessions, we have today within the continental United States a mobile army of only about 35,000 men. This little force must be still further drawn upon to supply the new garrisons for the great naval base which is being established at Pearl Harbor, in the Hawaiian islands, and to protect the locks now rapidly approaching completion at Panama. The forces remaining in the United States are now scattered in nearly fifty posts, situated for a variety of historical reasons in twenty-four states. These posts contain only fractions of regiments, avereging less than 700 men each. In time of peace it has been our historical policy to administer these units separately by a geographical organization. In other words, our army in time of peace has never been a united organization but merely scattered groups of companies, battalions and regiments, and the first task in time of war has been to create out of these scattered units an army fit for effective teamwork and co-operation.

To the task of meeting these patent defects, the war department has been addressing itself during the past year. A comprehensive plan of reorganization was prepared by the war college division of the general staff. This plan was thoroughly discussed last summer at a series of open conferences held by the secretary of war and attended by representatives from all branches of the army and from congress. In printed form it has been distributed to members of congress and throughout the army and the national guard, and widely through institutions of learning and elsewhere in the United States. In it, for the first time, we have a tentative chart for future progress.

Under the influence of this study definite and effective steps have been taken toward army reorganization so far as such reorganization lies within the executive power. Hitherto there has been no difference of policy in the treatment of the organization of our foreign garrisons from those of troops within the United States. The difference of situation is vital, and the foreign garrison should be prepared to defend itself at an instant's notice against a foe who may command the sea. Unlike the troops in the United States, it can not count upon reinforcements or recruitment. It is an outpost, upon which will fall the brunt of the first attack in case of war. The historical policy of the United States of carrying its regiments during time of peace at half strength has no application to our foreign garrisons. During the past year this defect has been remedied as to the Philippines garrison. The former garrison of 12 reduced regiments has been replaced by a garrison of six regiments at full strength, giving fully the same number of riflemen at an estimated economy in cost of maintenance of over $1,000,000 per year. This garrison is to be permanent. Its regimental units, instead of being transferred periodically back and forth from the United States, will remain in the islands. The officers and men composing these units will, however, serve a regular tropical detail as usual, thus involving no greater hardship upon the personnel and greatly increasing the effectiveness of the garrison. A similar policy is proposed for the Hawaiian and Panama garrisons as fast as the barracks for them are completed. I strongly urge upon congress that the necessary appropriations for this purpose should be promptly made. It is, in my opinion, of first importance that these national outposts, upon which a successful home defense will, primarily, depend, should be finished and placed in effective condition at the earliest possible day.

The Home Army.

Simultaneously with the foregoing steps the war department has been proceeding with the reorganization of the army at home. The formerly disassociated units are being united into a tactical organization of three divisions, each consisting of two or three brigades of infantry and, so far as practicable, a proper proportion of divisional cavalry and artillery. Of course the extent to which this reform can be carried by the executive is practically limited to a paper organization. The scattered units can be brought under a proper organization, but they will remain physically scattered until congress supplies the necessary funds for grouping them in more concentrated posts. Until that is done the present difficulty of drilling our scattered groups together, and thus training them for the proper team play, can not be removed.

Regular Army Reserve.

One of the most important reforms accomplished during the past year has been the legislation enacted in the army appropriation bill of last summer, providing for a regular army reserve. Hitherto our national policy has assumed that at the outbreak of war our regiments would be immediately raised to full strength. But our laws have provided no means by which this could be accomplished, or by which the losses of the regiments when once sent to the front could be repaired. In this respect we have neglected the lessons learned by other nations. The new law provides that the soldier, after serving four years with colors, shall pass into a reserve for three years. At his option he may go into the reserve at the end of three years, remaining there for four years. While in the reserve he can be called to active duty only in case of war or other national emergency, and when so called and only in such case will receive a stated amount of pay for all of the period in which he has been a member of the reserve. The legislation is imperfect, in my opinion, in certain particulars, but it is a most important step in the right direction, and I earnestly hope that it will be carefully studied and perfected by congress.

The National Guard.

Under existing law the national guard constitutes, after the regular army, the first line of national defense. Its organization, discipline, training, and equipment, under recent legislation, have been assimilated, as far as possible, to those of the regular army, and its practical efficiency, under the effect of this training, has very greatly increased. Our citizen soldiers under present conditions have reached a stage of development beyond which they cannot reasonably be asked to go without further direct assistance in the form of pay from the federal government. On the other hand, such pay from the national treasury would not be justified unless it produced a proper equivalent in additional efficiency on the part of the national guard. The organized militia today cannot be ordered outside of the limits of the United States, and thus cannot lawfully be used for general military purposes. The officers and men are ambitious and eager to make themselves thus available and to become an efficient national reserve of citizen soldiery. They are the only force of trained men, other than the regular army, upon which we can rely. The so-called militia pay bill, in the form agreed on between the authorities of the war department and the representatives of the national guard, in my opinion adequately meets these conditions and offers a proper return for the pay which it is proposed to give to the national guard. I believe that its enactment into law would be a very long step toward providing this nation with a first line of citizen soldiery, upon which its main reliance must depend in case of any national emergency. Plans for the organization of the national guard into tactical divisions, on the same lines as those adopted for the regular army, are being formulated by the war college division of the general staff.

National Volunteers.

The national guard consists of only about 110,000 men. In any serious war in the past it has always been necessary, and in such a war in the future it doubtless will be necessary, for the nation to depend, in addition to the regular army and the national guard, upon a large force of volunteers. There is at present no adequate provision of law for the raising of such a force. There is now pending in congress, however, a bill which makes such provision, and which I believe is admirably adapted to meet the exigencies which would be presented in case of war. The passage of the bill would not entail a dollar's expense upon the government at this time or in the future until war comes. But if war comes the methods therein directed are in accordance with the best military judgment as to what they ought to be, and the act would prevent the necessity for a discussino of any legislation and the delays incident to its consideration and adoption. I earnestly urge its passage.

Porto Rico, Mr. Taft says, continues to show notable progress and he urges the senate to pass the bill granting the Porto Ricans American citizenship.

Philippines.

A bill is pending in congress, continues the message, which revolutionizes the carefully worked out scheme of government under which the Philippine islands are now governed and which proposes to render them virtually autonomous at once and absolutely independent in eight years. Such a proposal can only be founded on the assumption that we have now discharged out trusteeship to the Filipino people and our responsibility for them to the world, and that they are now prepared for self-government as well as national sovereignty. A thorough and unbiased knowledge of the facts clearly shows that these assumptions are absolutely with justification. As to this, I believe that there is no substantial difference of opinion among any of those who have had the responsibility of facing Philippine problems in the administration of the islands, and I believe that no one to whom the future of this people is a responsible concern can countenance a policy fraught with the direst consequences to those on whose behalf it is ostensibly urged.

In the Philippine islands we have embarked upon an experiment unprecedented in dealing with dependent peoples. We are developing there conditions exclusively for their own welfare. We found an archipelago containing 14 tribes and races, speaking a great variety of languages, and with a population over 80 per cent. of which could neither read nor write. Through the unifying forces of a common education, of commercial and economic development, and of gradual participation in local self-government we are endeavoring to evolve a homogeneous people fit to determine, when the time arrives, their own destiny. We are seeking to arouse a national spirit and not, as under the older colonial theory, to suppress such a spirit. The character of the work we have been doing is keenly recognized in the Orient, and our success thus far followed with not a little envy by those who, initiating the same policy, find themselves hampered by conditions grown up in earlier days and under different theories of administration. But our work is far from done. Our duty to the Filipinos is far from discharged. Over half a million Filipino students are now in the Philippine schools helping to mold the men of the future into a homogeneous people, but there still remain more than a million Filipino children of school age yet to be reached. Freed from American control the integrating forces of a common education and a common language will cease and the educational system now well started will slip back into inefficiency and disorder.

An enormous increase in the commercial development of the islands has been made since they were virtually granted full access to our markets three years ago, with every prospect of increasing development and diversified industries. Freed from American control such development is bound to decline. Every observer speaks of the great progress in public works for the benefit of the Filipinos, of harbor improvements, of road and railways, of irrigation and artesian wells, public buildings, and better means of communication. But large parts of the islands are still unreached, still even unexplored, roads and railways are needed in many parts, irrigation systems are still to be installed and wells to be driven. Whole villages and towns are still without means of communication other than almost impassible roads and trails. Even the great progress in sanitation, which has successfully suppressed smallpox, the bubonic plague, and Asiatic cholera, has found the cause of and a cure for beriberi, has segregated the lepers, has helped to make Manila the most healthful city in the Orient, and to free life throughout the whole archipelago from its former dread diseases, is nevertheless incomplete in many essentials of permanence in sanitary policy. Even more remains to be accomplished. If freed from American control sanitary progress is bound to be arrested and all that has been achieved likely to be lost.

If the task we have undertaken is higher than that assumed by other nations, its accomplishment must demand even more patience. We must not forget that we found the Filipinos wholly untrained in government. Up to our advent all other experience sought to repress rather than encourage political power. It takes long time and much experience to ingrain political habits of steadiness and efficiency. Popular self-government ultimately must rest upon common habits of thought and upon a reasonably developed public opinion. No such foundations for self-government, let alone independence, are now present in the Philippine Islands. Disregarding even their racial heterogeneity and the lack of ability to think as a nation, it is sufficient to point out that under liberal franchise privileges only about 3 per cent. of the Filipinos vote and only 5 per cent. of the people are said to read the public press. To confer independence upon the Filipinos now is, therefore, to subject the great mass of their people to the dominance of an oligarchical and, probably, exploiting minority. Such a course will be as cruel to those people as it would be shameful to us.

Our true course is to pursue steadily and courageously the path we have thus far followed; to guide the Filipinos into self-sustaining pursuits; to continue the cultivation of sound political habits through education and political practice; to encourage the diversification of industries, and to realize the advantages of their industrial education by conservatively approved co-operative methods, at once checking the dangers of concentrated wealth and building up a sturdy, independent citizenship.

Regulation of Water Power.

There are pending before congress a large number of bills proposing to grant privileges of erecting dams for the purpose of creating water power in our navigable rivers. The pendency of these bills has brought out an important defect in the existing general dam act. That act does not, in my opinion, grant sufficient power to the federal government in dealing with the construction of such dams to exact protective conditions in the interest of navigation. It does not permit the federal government, as a condition of its permit, to require that a part of the value thus created shall be applied to the further general improvement and protection of the stream. I believe this to be one of the most important matters of internal improvement now confronting the government. Most of the navigable rivers of this country are comparatively long and shallow. In order that they may be made fully useful for navigation there has come into vogue a method of improvement known as canalisation, or the slack-water method, which consists in building a series of dams and locks, each of which will create a long pool of deep navigable water. At each of these dams there is usually created a long pool of deep navigable water. At each of these dams there is usually created also water power of commercial value. If the water power thus created can be made available for the further improvement of navigation in the stream, it is manifest that the improvement will be much more quickly effected on the one hand, and, on the other, that the burden on the general taxpayers of the country will be very much reduced. Private interests seeking permits to build water-power dams in navigable streams usually urge that they thus improve navigation, and that if they do not impair navigation they should be allowed to take for themselves the entire profits of the water-power development. Whatever they may do by way of relieving the government of the expense of improving navigation should be given due consideration, but it must be apparent that there may be a profit beyond a reasonably liberal return upon the private investment which is a potential asset of the government in carrying out a comprehensive policy of waterway development. It is no objection to the retention and use of such an asset by the government that a comprehensive waterway policy will include the protection and development of the other public uses of water, which cannot and should not be ignored in making and executing plans for the protection and development of navigation. It is also equally clear that inasmuch as the water power thus created is or may be an incident of a general scheme of waterway improvement within the constitutional jurisdiction of the federal government, the regulation of such water power lies also within that jurisdiction. In my opinion constructive statesmanship requires that legislation should be enacted which will permit the development of navigation in these great rivers to go hand in hand with the utilization of this by-product of water power, created in the course of the same improvement, and that the general dam act should be so amended as to make this possible. I deem it highly important that the nation should adopt a consistent and harmonious treatment of these water-power projects, which will preserve for this purpose their value to the government, whose right it is to grant the permit. Any other policy is equivalent to throwing away a most valuable national asset.

The Panama Canal.

During the past year the work of construction upon the canal has progressed most satisfactorily. About 87 per cent of the excavation work has been completed, and more than 93 per cent of the concrete for all the locks is in place. In view of the great interest which has been manifested as to some slides in the Culebra Cut, I am glad to say that the report of Col. Goethals should allay any apprehension on this point. It is gratifying to note that none of the slides which occurred during this year would have interfered with the passage of the ships had the canal, in fact, been in operation, and when the slope pressures will have been finally adjusted and the growth of vegetation will minimize erosion in the banks of the cut, the slide problem will be practically solved and an ample stability assured for the Culebra Cut.

Although the official date of the opening has been set for January 1, 1915, the canal will, in fact, from present indications, be opened for shipping during the latter half of 1913. No fixed date can as yet be set, but shipping interests will be advised as soon as assurances can be given that vessels can pass through without unnecessary delay.

Recognizing the administrative problem in the management of the canal, congress in the act of August 24, 1912, has made admirable provisions for executive responsibility in the control of the canal and the government of the Canal Zone. The problem of most efficient organization is receiving careful consideration, so that a scheme of organization and control best adapted to the conditons of the canal may be formulated and put in operation as expeditiously as possible. Acting under the authority conferred on me by congress, I have, by executive proclamation, promulgated the following schedule of tolls for ships passing through the canal, based upon the thorough report of Emory R. Johnson, special commissioner on traffic and tolls:

1. On merchant vessels carrying passengers or cargo, $1.20 per net vessel ton—each 100 cubic feet—of actual capacity.

2. On vessels in ballast without passengers or cargo, 40 per cent less than the rate of tolls for vessels with passengers or cargo.

3. Upon naval vessels, other than transports, colliers, hospital ships, and supply ships, 50 cents per displacement ton.

4. Upon army and navy transports, colliers, hospital ships, and supply ships, $1.20 per net ton, the vessels to be measured by the same rules as are employed in determining the net tonnage of merchant vessels.

Rules for the determination of the tonnage upon which toll charges are based are now in course of preparation and will be promulgated in due season.

Panama Canal Treaty.

The proclamation which I have issued in respect to the Panama Canal tolls is in accord with the Panama Canal act passed by this congress August 24, 1912. We have been advised that the British government has prepared a protest against the act and its enforcement in so far as it relieves from the payment of tolls American ships engaged in the American coastwise trade on the ground that it violates British rights under the Hay-Pauncefote treaty concerning the Panama Canal. When the protest is presented, it will be promptly considered and an effort made to reach a satisfactory adjustment of any differences there may be between the two governments.

Promotion for Col. Goethals.

As the completion of the canal grows nearer, and as the wonderful executive work of Col. Goethals becomes more conspicuous in the eyes of the country and of the world, it seems to me wise and proper to make provision by law for such reward to him as may be commensurate with the service that he has rendered to his country. I suggest that this reward take the form of an appointment of Col. Goethals as a major general in the army of the United States; and that the law authorizing such appointment be accompanied with a provision permitting his designation as chief of engineers upon the retirement of the present incumbent of that office.

Navy Department.

The navy of the United States is in a greater state of efficiency and is more powerful than it has been before, but in the emulation which exists between different countries in respect to the increase of naval and military armaments this condition is not of a permanent one. In view of the many improvements and increases by foreign governments the slightest halt on our part in respect to new construction throws us back and reduces us from a naval power of the first rank and places us among the nations of the second rank.

A year ago congress refused to appropriate for more than one battleship. In this I think a great mistake of policy was made, and I urgently recommend that this congress make up for the mistake of the last session by appropriations authorizing the construction of three battleships, in addition to destroyers, fuel ships, and the other auxiliary vesesls as shown in the building program of the general board. We are confronted by a condition in respect to the navies of the world which requires us, if we would maintain our navy as an insurance of peace, to augment our naval force by at least two battleships a year and by battle cruisers, gunboats, torpedo destroyers, and submarine boats in a proper proportion. We have no desire for war. We go as far as any nation in the world to avoid war, but we are a world power. Our population, our wealth, our defini policies, our responsibilities in the Pacific and the Atlantic, our defense the Panama canal, together with enormous world trade and our sionary outposts on the frontier civilization, require us to reco our position as one of the for in the family of nations, and to ourselves with sufficient naval to give force to our reasona mands, and to give weight influence in those directions ress that a powerful Christia should advocate.

Department of Justi

This department has b very active in the enforcement of the law. It has been better organized and with a larger force than ever before in the history of the government. The prosecutions which have been successfully concluded and which are now pending testify to the effectiveness of the department work.

The prosecution of trusts under the Sherman anti-trust law has gone on without restraint or diminution, and decrees similar to those entered in the Standard Oil and the Tobacco cases have been entered in other suits, like the suits against the powder trust and the bath tub trust. I am very strongly convinced that a steady, consistent course in his regard, with a continuing of Supreme court decisions upon new phases of the trust question not already finally decided, is going to offer a solution of this much-discussed and troublesome issue in a quiet, calm and judicial way, without any radical legislation changing the governmental policy in regard to combinations now denounced by the Sherman anti-trust law. I have already recommended as an aid in this matter legislation which would declare unlawful certain well-known phases of unfair competition in interstate trade and I have also advocated voluntary national incorporation for the larger industrial enterprises, with provision for a closer supervision by the bureau of corporations, or a board appointed for the purpose, so as to make certain compliance with the anti-trust law on the one hand and to give greater security to the stockholders against possible prosecution on the other. I believe, however, that the orderly course of litigation in the courts and the regular prosecution of trusts charged with the violation of the anti-trust law is producing among business men a clearer and clearer perception of the line of distinction between business that is to be encouraged and business that is to be condemned, and that in this quiet way the question of trusts can be settled and competition retained as an economic force to secure reasonableness in prices and freedom and independence in trade.

Workman's Compensation Act.

The workman's compensation act reported by the special commission appointed by congress and the executive, which passed the senate and is now pending in the house, the passage of which I have in previous messages urged upon congress, I venture again to call to its attention. The opposition to it which developed in the senate, but which was overcome by a majority in that body, seemed to me to grow out rather of a misapprehension of its effect than of opposition to its principle. I say again that I think no act can have a better effect directly upon the relations between the employer and employe than this act applying to railroads as common carriers and an interstate character, and I am sure that the passage of the act would greatly relieve the courts of the heaviest burden of litigation that they have, and would enable them to dispatch other business with a speed never before attained in courts of justice in this country.

Comer Rates Have Cost Alabama Tax-Payers Nearly $200,000

In Spite of This Immense Outlay, Spent For Lawyers and Court Costs, etc., the Status of the Litigation Is Practically the Same As It Was In 1907. Figures Are Taken From the Official Records—And It Seems the End Is Not Yet!

Mr. Hugh W. Roberts, the well known staff correspondent of the Birmingham Age-Herald, made the statement in that paper, issue of October 13th, 1912, in an article dealing with the extravagant expenditure of the tax-payers' money, that the railroad rate litigation—which is still under way—has cost the people approximately $200,000, and that the status of the case is practically identical with the status at the beginning.

As one of the largest individual tax-payers in the State, the L. & N. R. R. Company is interested in the expenditure of the tax-payers' money. It is particularly interested in view of the frequent erroneous statements made by former Governor Comer that the L. & N. R. R. Co. was imposing an unfair tax on the people in the way of freight rates, whereas the former Governor had no statement or criticism to make concerning the enormous tax levied by him on the people to raise the funds expended in his rate litigation.

The official records in the office of the State Auditor show that from the inception of the rate litigation in 1907 to July 25, 1912, the special counsel employed by former Governor Comer to represent the State in these cases exclusively, received $80,497.07. The larger part of this sum was in fees paid direct to the attorneys; two of the attorneys received through most of this time $1,000 a month each. The remainder was paid for the personal expenses of the attorneys engaged in the litigation.

To the above amount must be added the sum of $58,084.02, paid by the State in Court costs and other expenses of this litigation.

To these two amounts must be added the cost of the extra session of the legislature, held in November of 1907, amounting to $20,388.80, and the extra session of the legislature held in July, 1909, amounting to $34,679.82, making the total cost to the tax-payers of Alabama amount to nearly $200,000 out of a depleted treasury, for the conduct of litigation "the status of which is identical with that of 1907."

Since July 25th, this heavy expense has been greatly increased, and may be still more heavily increased.

It should be borne in mind by a just and fair public that a large percentage of this tax money was paid into the State treasury by the L. & N. R. R. Co., the former Governor using that, and the money of other tax-payers, to fight the L. & N. R. R. Co., thus forcing the L. & N. R. R. Co. to the duplicate expense of paying its pro rata share for the fight against it, and paying all the expense for the defense against that fight.

A recapitulation of the expenses incurred is interesting, and is given herewith as information of value to the tax-payers:

Lawyers' fees—to Samuel D. Weakly	$ 41,905.37
" " " H. C. Selheimer	35,044.70
" " " Horace Stringfellow	2,547.00
" " " F. S. White	500.00
" " " R. W. Walker	500.00
Court costs and other expenses	58,084.02
Extra session of legislature in November, 1907	20,388.80
" " " " " July, 1909	34,679.82
Total spent up to July 25, 1912, for rate litigation and legislation	$193,649.71

The L. & N. R. R. Co. has been denounced from one end of Alabama to the other, unfairly and unjustly denounced, for levying alleged unfair freight and passenger rates on the people of the State.

But not one word, not one whisper, of criticism has been vouchsafed by this enemy to the public advancement concerning the enormous tribute he levied on the tax-payers during his administration.

Any citizen can readily imagine the many benefits to be derived for educational and social advancement through the proper expenditure of $200,000 in the interest of the people from whom the payment was exacted.

And remember, please, the treasury was full when he went in, but empty when he went out.

Louisville & Nashville Railroad Company.

Proved.

"Do you believe that money makes the mare go?" asked Dubbleigh.

"Sure," said Wiggley. "As soon as a man gets money he buys an automobile, and the mare goes for what she's worth."—Harper's Weekly.

Do not marry the young woman who allows herself to float around the neighborhood in a top buggy or automobile until 2 o'clock in the morning with a counterfeit sport with a weak jaw and weaker morals.—Rev. E. N. Askey, Methodist, Sharon.

To Amuse an Invalid.

To amuse an invalid who cannot sit up in bed arrange a mirror on an easel in such a way as to reflect the moving panorama to be seen from the window. If the street scene wearies the invalid the glass may be so fixed as to show the slowly changing sky.

Killing Made Painless.

In English slaughter houses animals are killed by a new and humane method. The instrument employed is a spring operated pistol that projects a sharp blade into the animal's head.

Strange as it may seem, France has joined the forces which are at war against the undraped statue. The objection of American prudes to a beautiful Bacchante was not the first exhibition of Boston's sentiment on that subject and it caused less surprise in artistic circles than the order which halted the erection of "insufficiently draped" statues on a theater in Germany. But now even France objects. Epstein's memorial to Oscar Wilde must have trousers before it can be placed in Pere la Chaise, for which historical place it was intended.

Parents Indignant.

A strange protest has been lodged with Mr. Sato Kisaku, principal of the Tagoshi primary school in Kanagawaken, by Major Okada of the Yokosuka naval station. The principal made an address to his pupils in which he told them their parents were like ducks, since they had left their children uncared for since they were born. The parents were indignant at the address and held a meeting recently, which resulted in a strong protest to the principal.—Japan Advertiser.

The Essex squire who has been carried to his burial in a farm wagon drawn by a farm wagon team perpetuates a custom which still exists in other families and in other countries and is of very ancient origin.

It typifies the intimate connection that used to exist between the landlord of the soil and its tenants. The wagon is not usually made funereal nor is the team put into mourning. The wagoner walks with a bit of crepe on his whip and a black armlet to his smock; that is all.—Pall Mall Gazette.

Powerful Salve.

A man in Nebraska has invented a new powerful double-acting salve which shows powers never before exhibited by salves of any kind.

The inventor accidentally cut off the tail of a lame wolf, and immediately applying some of the salve to the stump, a new tail grew on.

Then picking up the old tail, he applied some of the salve to the end of that, and a calf grew on it; but he was a wild wolf, and

Farmers' Educational and Co-Operative Union of America

Matters of Especial Moment to the Progressive Agriculturist

Home-made troubles are never satisfactory.

Every day has its own especial opportunity.

People seldom get the blues when busy and successful.

When the farmer prospers everybody prospers, and vice versa.

A cruel word spoken can never be recalled; think twice before you speak.

When a man's going to marry a girl it's a cinch she knows it long before he does.

A man's good opinion of himself is indorsed by everybody except the rest of the world.

It is all right to be something of a dreamer, provided that you can keep wide awake most of the time.

Always remember that the neighbors watch you closely, and that the neighbors are very particular.

Too many of us seem to think that when we want to show our independence we must get mad about it.

The man in the moon should be mighty glad that he is not responsible for all the crop failures that are laid upon his habitation.

Progress is always measured by the achievements of those who are not satisfied with what was good enough for former generations.

The man with the hammer really is engaged in a process of slow suicide. And it isn't a happy death he is treating himself to, either.

SUBJECT OF RURAL CREDITS

President Barrett Believes Modified System in America Is Feasible—Time for Action.

To the Officers and Members of the Farmers' Union:

Discussion the country over is raging around the subject of rural credits. At the outset, I want to say I have made some investigation of the matter, that I believe a modified system of rural credits feasible in America, that I am convinced the time has come for action, and not merely talk, and that rural credits may be used to stem the tendency toward landlordism which I know to be one of the gravest menaces facing this nation.

There is little use for me to dwell upon the various plans offered whereby some system of rural credits can be made effectual. It is only essential to say that the Raiffeisen and other plans have been followed in Germany and other old world countries with signal success for more than a century. It is possible, under one of these plans, for a number of farmers in a given community to become mutually responsible for loans extended to their respective members. It is also possible for rural credits to be materialized by constituting the land itself the basis of loans—and that plan is meritorious and economically sound, for the simple reason that in the last analysis the soil is the source of all wealth.

The International Institute of Agriculture in Rome, under the direction of David Lubin, has made thorough inquiry into all these plans, and if any American farmer desires detailed information, Mr. Lubin will be glad to furnish it.

I want to stress right now to every farmer in this country who is talking excitedly about "plans," and who thinks that all that is necessary to succeed with rural credits or anything else is to find "plans"—that there are plans galore. What is needed right now is men bold enough and with sufficient initiative in every community to carry these plans into execution, and to do it in the face of discouragement, difficulties and sacrifice of time and health, if that is necessary.

It is just as well, therefore, to stop worrying so much about "plans," and think more about how we are going to find the men to execute the plans, not just for one week, but right on to the end of the chapter.

It is necessary to remember, however, that Germany is a country of thickly settled, small communities, and that the plans which have proved advisable there may have to be altered to take into account separation of agricultural units in America. This process resolves itself, therefore, into a matter of detail, and the main portion of the task is, as I have stated, the location and training of the men to carry into effect any system of rural credits that may be devised, whether under governmental or private supervision.

Now, to the second feature, that of landlordism in America. I believe that a perfected system of rural credits can do much to overcome or at least lessen this evil. If you doubt that it exists, I only ask that you investigate in your own neighborhood as to the number of men who own their farms, and as to the number of acres, wild or cultivated, owned by an absentee landlord.

After all is said, it remains that America is to solve the prosperity and greatness of which she founded on principles. If we allow to farm in this country a class of tenants, who

a system that is the direct opposite of democratic government and that will eventually lead to a condition of land monopoly beside which the problems of the so-called high cost of living and other much agitated issues will dwindle to insignificance. I was astonished when, in conversation recently with Professor E. C. Branson of Athens, Ga., he gave me figures relating to Georgia alone of absentee ownership which are almost incredible. Had not the figures been based on conditions of which I am personally aware, I would have doubted them.

Unless it is checked ownership of the land by a few in each community is going to strangle individual initiative and collective prosperity in America. If every farmer, every American who reads these lines and who is genuinely concerned for his individual welfare and that of the country will deliberately study these conditions I have outlined, he will be convinced as to the need and the duty of securing leaders who will materialize rural credits or any other sound, proven agency that will prove a remedy for the drift toward landlordism.

Finally, don't fret so eternally about the plans. The men to execute them constitute the real problem, and the spirit of co-operation in every community.

Union City, Ga.

CREDIT SYSTEM IS NEEDED

Methods Employed by American Farmer Called Primitive and Way Behind Those of Europe.

"European Rural Banking and Credit Systems" was the subject of an address delivered before the Farmers' National Congress at New Orleans, by Harvie Jordan of Atlanta, Ga.

The speaker has made a close study of the way in which foreign farmers have solved their financial problems and the address was listened to with keen interest.

Mr. Jordan said in part:

"The credit system as employed by American farmers is not only primitive and out of date, but it has persistently kept the producers of the agricultural wealth of the nation as much enslaved, and as helpless in the proper distribution of their products, as were the peasants during the decadence of the Roman empire.

"Place the American farmer on the same footing as the European farmer through his co-operative societies, his rural banking systems, his marketing methods and the use of dynamic money, and he will manage his affairs with safety to himself and satisfaction to the public at large.

"We must establish a credit system of, for and by the farmers of the United States. And this system must be put into practical operation by the co-operative efforts of the farmers themselves, under the enactment of wise, safe and sound state and federal laws.

"While commerce has all the active or dynamic dollars at its command, our great agricultural interests have but little, if any kind of money at their command, and that little is mostly static or dead money, which is capable of being turned over but once a year.

"It is believed that this can be succesfully done by adopting the methods employed in European countries through their systems of rural credit banks.

"The Raiffeison system of banks in Germany are small banks, organized by small farmers in local communities; and the business done is on loans granted upon the plan of unlimited liability, that is to say, each loan to each individual member of the bank is guaranteed by indorsements of all the members constituting the shareholders of the bank.

"This system of small banks in Germany last year did a business exceeding one billion five hundred million dollars, without losses and an interest charge not exceeding 4 per cent.

"These small banks are not operated primarily for the purpose of making big dividends or paying large salaries, but for the purpose of maintaining a medium for financing the membership of the institutions with ready capital when needed in the conduct of their farming operations.

"The Schultze-Delitsch system of banks are known as the popular urban banks and are operated somewhat after the fashion of our present country banks, only the stockholders are much more numerous and the rate of interest does not exceed 4 per cent per annum.

"The Landschaften system of banks are under the direct control and operation of the landowners of the various provinces where they do business. These are the strongest and most powerful rural banks in the whole of Europe, and under this plan the system of doing business is substantially the same as that of the American merger or trust corporation.

"In Germany alone last year, these three systems of agricultural co-operative banks did a business among the farmers of over five billion dollars, and Germany is hardly twice the size of an American state.

"If this commission should be able, after thoroughly investigating the European rural banking systems, to devise practical plans for meeting the requirements for an abundant supply of ready money for producing and marketing our farm products, they will have accomplished more than the Congress of the United States has done from the foundation for a period of the first century of our existence, which is admitted by all students of economics to be the most critical period in the history of any nation. Let us get to work."

Ship Your Furs to FUNSTEN

We Want Ten Million Dollars' Worth of Furs Bigger Prices! Better Grading! Most Money by Return Mail! These are some of the advantages that are yours when you send your furs to Funsten Bros. & Co. in St. Louis—the Largest Fur House in the Largest Primary Fur Market in the World. Our sales are attended by the greatest fur buyers of this country, Europe and Canada. Competition among them is fierce. And up go the prices! Dealing direct with us as we do, can't you see why we can afford to pay you biggest prices?

Big Money in Trapping

Trap during spare time. Mink, Coon, Skunk, Muskrat, Wolf, Lynx, White Weasel and other furs are valuable to us, and it's a cinch to catch them with Funsten Animal Bait. We want Ten Million Dollars' worth of just such furs and will pay cash for them. To get best results use—

Largest in the World!

Funsten Animal Bait—$1 Can

We guarantee this bait to increase your catch. Animals can't resist it. One can, at a dollar, made $1,199 clear profit for one man. Used by U. S. Government and by experienced trappers everywhere. Took Grand Prize, World's Fair, 1904. A different bait for each kind of animal. State kind wanted.

TRAPS AT FACTORY COST—including the famous Victor, also entire outfits for trappers. All at saving prices.

TROUBLE IN DINING ROOM

Little Mixup Between Ladies Accepted Philosophically by the Torpidville Landlord.

"At one time yesterday it looked like we was going to have a little trouble here in the dining room, but it didn't come to nothin' much," related the landlord of the Torpidville tavern. "Maxine and Sylphie, the young ladies that are waitin' table, got to squabblin' about a p'int of etiquette, or the merits of their respective fellers, or something that-a-way, as ladies is everlastin'ly doin'; and Sylphie, I reckon it was, told Maxine, or mebby Maxine told Sylphie—anyhow, one told the other that she wasn't no better than she ort to be. And Maxine, or Sylphie, whichever it was, got sorter fussy about it, and answered that she was too, and she didn't care who knew it! And then they kind o' tied in on each other and went 'round and 'round as it were, and it took 'em quite a while after it was over to wash the ketchup and broken glass out of their coffers, as they call their hair. But that's all it amounted to, and there's no use in firin' 'em, for ladies will be ladies and there ain't no help for it."—Kansas City Sun.

Real Thing.

"Who was this great god Pan you read about who worked on pipes?"

"I guess he was a boss plumber."

Every woman should have an aim in life, even if she can't throw a stone with any degree of accuracy.

NEVER TIRES

Of the Food That Restored Her to Health.

"Something was making me ill and I didn't know the cause," writes a Colo. young lady: "For two years I was thin and sickly, suffering from indigestion and inflammatory rheumatism.

"I had tried different kinds of diet, and many of the remedies recommended, but got no better.

"Finally, Mother suggested that I try Grape-Nuts, and I began at once, eating it with a little cream or milk. A change for the better began at once.

"To-day I am well and am gaining weight and strength all the time. I've gained 10 lbs. in the last five weeks and do not suffer any more from indigestion, and the rheumatism is all gone.

"I know it is to Grape-Nuts alone that I owe my restored health. I still eat the food twice a day and never tire of it." Name given by Postum Co., Battle Creek, Mich.

The flavour of Grape-Nuts is peculiar to itself. It is neutral, not too sweet and has an agreeable, healthful quality that never grows tiresome.

One of the sources of rheumatism is from overloading the system with acid material, the result of imperfect digestion and assimilation.

As soon as improper food is abandoned and Grape-Nuts is taken regularly, digestion is made strong, the organs do their work of building up good red blood cells and of carrying away the cause of disease-making material from the system.

The result is a certain and steady return to normal health and mental activity. "There's a reason."

NEWS BRIEFLY TOLD

A CONDENSED RECORD OF EVENTS OF THE WEEK.

SEVEN DAYS' NEWS AT A GLANCE

Important Happenings In All Parts of the World Summarized for the Busy Reader.

Southern.

By the unanimous opinion of the supreme court of South Carolina, the custody of the two little children of Mrs. Lucy Dugas and her former husband, B. R. Tillman, Jr., son of Senator B. R. Tillman, is divided between the two.

Tom Cleghorn, who figured in the investigation of the death of Minnie Marchman at Ashburn, Ga., a short time ago, was shot on the streets there by W. F. Cochran, a brother-in-law of the Marchman girl. First reports that spread about the town were that Cleghorn had been killed, but Cleghorn is still alive and is not fatally wounded. Cleghorn was alone at the time of the shooting, according to the information obtained.

Dangling from the limb of a tree, the body of Azariah Curtis, a young negro, was found at Butler, Ala., as mute evidence that the murder of B. B. Bush, a planter who was shot to death had been avenged. Curtis confessed that he and two other negroes killed Mr. Bush while they were lying in wait for two men whom they intended robbing. According to the negro's confession the highwaymen were waiting for Tax Collector T. B. Bennett and J. F. Howington, both of whom were known to have large sums of money on their person.

Permanent organization of the governors of the various states of the United States in an association to be known as "The Governors' Conference," was effected here at the annual conference of the state executives. Annual meetings of the organization will be held. Its active members will embrace the governors and governors-elect of the various states. Ex-governors will be admitted to the conference as honorary members, with all privileges of the organization except the right to vote. Colorado Springs, Col., was selected as the place of meeting for the conference next year.

General.

Important changes have taken place in the Austro-Hungarian war department. General Auffenberg, minister of war, has resigned. General Krobatin, under secretary in the war office, has been appointed as his successor. General Schemua, chief of the general staff, who recently paid a visit to Berlin and conferred with Count Von Moltke, chief of the general staff of the German army, also has resigned. He has been succeeded by General Von Hoetzendorf, who held the same post several years ago. No explanation is yet forthcoming of the resignations.

The suit of the United States against Col. John F. Gaynor and other members of his family to recover about $500,000 alleged proceeds of the Savannah harbor frauds of 1897, has been settled for $125,000. The decree in the case was signed by United States Judge Day at Norwich.

A jury in the circuit court at Baldwin Mich., declared O. M. Arebach guilty of first degree murder for the shooting of his partner, Harry Fisher, a Chicago business man. Fisher was killed in the woods near there last September, while the two men were on a hunting trip. On the morning of September 19 the two men went into the woods to hunt partridges. A short time afterwards Arebach rushed into a neighboring farmhouse and reported that Fisher had been accidentally shot. According to evidence given at the trial, both Mrs. Fisher and Arebach endeavored to have him shipped to Iowa without the formality of a coroner's inquest. The inquest took place, however, and Arebach was held responsible for the shooting.

That the operating departments of a city government should be manned by a force selected and retained solely because of competence, was a suggestion contained in the joint committee report of the National Municipal League and the National Service Reform League, presented at the annual meeting of the latter organization at Milwaukee, Wis.

It cost the Democratic national committee $1,159,446 to carry the election for Wilson and Marshall.

Eleven dollars and eighty-five cents was the average weekly wage of the 21,230 coal miners in Indiana last year, according to the annual report of Frank I. Pearce, state mine inspector.

President Taft has placed 20,000 employees in the United States navy yards under civil service.

Representative Johnson of Kentucky has introduced a bill for the acquisition by the government of the farm and the log cabin in Kentucky in which Abraham Lincoln was born. He proposes the homestead be kept as a national park.

Four big golden headed eagles were taken to Kingfisher, Okla., by farmers who captured them and killed a fifth in the Gyp hills, northwest of Kingfisher. The farmers said a flock of seven of the birds had their aeries in the hills and have been carrying off small stock in such numbers that they organized to exterminate them. The birds have taken away lambs and pigs, and some of the residents assert that the eagles, instead of gypsies, carried away an infant child from the community a few months ago.

The immediate fortification and the mobilization of troops in Panama in Hawaii for the protection of American property at those points, the passage of a national volunteers bill allowing the draughting of an efficient fighting force in time of need and the extension of pay to the National Guard under the condition that that body be made available for general army use were among the major suggestions made by Secretary of War Henry L. Stimson in his annual report to the president. These measures will very likely be taken up at this session of congress.

Alarm at the growth of Buddhism on the Pacific coast is expressed in the report of the home missions committee at the federal council of the Churches of Christ submitted. "One of the most startling facts, confirmed by investigation, is that Buddhism in Seattle, San Francisco and Los Angeles is aggressively propagating itself from these centers," says the report. Buddhist temples have been erected in which cultured priests administer the rites and ceremonies of their religion.

Loud applause greeted the jury's verdict of "first degree murder" in the trial of William J. Brown for the murder of Alfred Percy. Mrs. Alfred Percy, wife of the victim, clapped her hands with delight. "I would not take a thousand dollars for that verdict," she exclaimed a few minutes later. The wife of the accused man nodded her satisfaction with the outcome of the trial. Brown killed Percy as the latter stepped from a street car in Oakdale, Ala., July 6, last.

William Collier of Los Anegles and an unknown companion were burned to death in the local jail after they had started in the flames in the hope of making their escape at Crawley, La. Collin Lebeu, also a prisoner, was seriously burned. Collier and the unknown prisoner were being held on a minor charge. According to Lebeu the two men started the conflagration, despite his efforts to dissuade them. They both were overcome by smoke in their cells, where their charred bodies later were found.

Washington.

Great Britain and the United States have agreed upon the composition of the tribunal for the arbitration of pecuniary claims, as provided in the special agreement recently ratified by the two governments. Sir Charles Fitzpatrick, chief justice of Canada and the British member of the north Atlantic coast fisheries arbitration tribunal at The Hague in 1910, will represent Great Britain. Candler P. Anderson, counsellor of the department of state, will represent the United States. These will select a third member, who will act as umpire and will be a subject of neither Great Britain nor the United Statees. The third member's name will be announced later.

An extensive system of government supervision over wireless telegraphy will become effective four months from the date of the enactment of the law. Plans have been made to carry out the new system, both as to the shore stations and steamships operated by commercial companies and the army and navy stations. Government licenses hereafter will be required for all shore stations and for any steamers leaving an American port.

Chairman William F. McCombs of the Democratic national committee is in Washington conferring with local Democratic leaders concerning the appointment of a chairman for the inauguration committee. It was said no decision was reached, but that an announcement will be made soon.

President Taft and Secretary of Agriculture James Wilson, after several months of consideration, have decided upon the appointment of Dr. Carl Alsberg, a chemist in the bureau of drugs and plants, as chief of the bureau of chemistry of the department of agriculture, a position that has been vacant since the resignation last spring of Dr. Harvey Wiley, the famous defender of the pure food law. Doctor Alsberg has been in the department of agriculture four years. Before coming to Washington he was in charge of the department of biological work in Harvard university.

After sixteen years, a record of service in the cabinet, Secretary of Agriculture Wilson, has submitted to President Taft the last annual report he will make as head of the United States department of agriculture. The report is more than a review of the past year's work; it contains a summary of the agricultural advance of the country during the venerable secretary's term of public service.

Great Britain's formal note of protest against that section of the Panama canal act, which exempts American coastwise shipping from payment of tolls for passing through the Panama canal, has been presented to United States Secretary of State Knox by the British ambassador at Washington. James Bryce read the note word for word to the secretary at the latter's home. It is an elaboration of the points of objection in the note presented to the state department last July. It is not known what action congress will take in the matter.

PRESIDENT WOULD PREVENT FLOODS

OPPOSES ALL OTHER MISSISSIPPI RIVER SCHEMES.

FAVORS $50,000,000 FUND

Wants Work Placed in Hands of Army Engineers—First Time He Had Recommended Waterway Funds for Prevention.

Washington.—President Taft told delegates to the National Rivers and Harbors Congress in session here, that he was opposed to any scheme of improvement for the Mississippi river which did not contemplate as a primary object the prevention of floods.

He favored the expenditure by the United States government and the states of the Mississippi valley of between $40,000,000 and $50,000,000 for the Mississippi improvements. He said that before all other considerations must be placed the idea of preventing floods like those of last spring which caused such great destruction from Cairo to New Orleans. He declared that his indorsement of improvement would be forthcoming only if the work were placed in the hands of army engineers.

So far as other waterway projects were concerned, the president said, his approval would be lacking unless their backers could show as good a case and as dire a necessity as could the Mississippi valley states.

Many of the delegate were startled by the president's speech. So far as they knew, it was the first time he had recommended appropriations for waterway improvements, contingent upon flood prevention. In spite of the fact that it apparently did not meet the views of scores of delegates the speech was warmly applauded.

OUR CURRENCY SYSTEM BAD

Secretary of Treasury MacVeagh Suggests Reform.

Washington.—Strongly urging radical reform of the "unreasoned and unscientific" banking and currency system of the United States, Franklin MacVeagh, secretry of the treasury, freely warns congress in his annual report that the federal government, as long as the present scheme exists, will be exclusively responsible for the commercial, industrial and social disasters which flow from panics and attack, directly or indirectly, every home in the nation.

The present system promotes and develops panics and legislation is urgent, declared Mr. MacVeagh, of an adequate relief measure. Aside from affording flexible and elastic currency and reserves, such a revision, he says, would bring the banks into organized co-operation and provide for a central agency through which they could work together, free of political or trust control.

According to the estimates of the treasury department, the secretary foresees a deficit of $22,356,023, exclusive of Panama canal expenditures, for the fiscal year ending June 30, 1914, the first fiesal year of President Wilson's administration.

CHOLERA CAUSING HAVOC

Over 1,000 Cases in 20 Days Discovered in Constantinople.

Constantinople.—Cholera is causing great havoc in the native quarters of the Turkish capital. It is officially admitted that over 1,000 cases have occurred during the past few days and that half of them have been fatal. This total, however, is believed to be much below the real figures.

The prefect, in a proclamation, refers to the great proportions of the epidemic and warns the public that failure on their part to notify cases of cholera to the authorities will be punished by fine and imprisonment.

Americans in Jail.

El Paso, Tex.—J. Long and Oscar Lagendorff, American mining men, are in jail at Parral, Mexico, on a charge of murder. The letters explain that the camp of the two men was attacked by bandits and they sent to Parral for aid. The Parral chief of police and a band of citizens responded, and when they arrived without uniforms the Americans thought them more bandits and fired at them. The chief of police was killed and the Americans were arrested.

Cost $1,159,446 to Elect Wilson.

Washington.—It cost the Democratic national committee $1,159,446 to carry the election for Wilson and Marshall, according to its final statement of contributions and expenses. Charles R. Crane was the heaviest contributor, with $40,000, closely pressed by Cleveland H. Dodge, $35,000, and Herman Ridder of New York, as treasurer of funds, collected for the committee $39,076. The total of $1,110,959 contributions received by the committee came from 89,854 separte contributors.

Governors Organize.

Richmond, Va.—Permanent organization of the governors of the various states of the United States into an association to be known as the Governors' Conference was effected here at the annual conference of the state executives. Annual meetings of the organization will be held. Its active members will embrace the governors and governors-elect of the various states. Ex-governors will be admitted to the conference as honorary members with all privileges of

STATE BRIEFS.

STRICKLAND RELEASED.

Anniston.—A. A. Strickland, the cotton mill operative who was unable to heed the appeal of his sick mother in Selma because he was in the Anniston jail under charge of stealing $210 from J. H. Cunning, a mill official, was released from custody, Recorder Creen having decided that the evidence against him did not warrant him being held.

HUDDLESTON GRAND WARDEN.

Birmingham. — Expenditures for of Birmingham will be the next grand warden of the Independent Order of Odd Fellows in Alabama, according to the count of votes by the grand master, Walker K. McAdory, and others. He received more votes than all the other six candidates for the position. The grand warden is the first step in the grand lodge official family.

MOBILE"S FIRE LOSS SMALL.

Mobile.—Mobiles flaunting pennants of triumph over what is considered an excellent fire record. The annual report of the fire chief there has just been made public, and therein it is shown that during the fiscal year, ending September 30, the fire loss amounted to only $43,528.24. During the year the total insurance premiums on fire insurance in Mobile totalled $360,000.

SELMA IS NEXT PLACE.

Birmingham.—The next monthly inspection of the Alabama Fire Prevention society, at Selma, January 9, will be the most important yet held by the society. It will be attempted to get every special agent representing every fire insurance company operating in Alabama to be on hand. On account of the holidays, and for other reasons, no meeting of the society will be held in December.

HOPES TO ESTABLISH ALIBI.

Huntsville.—Oliver Osborne, alias Robert Owens, convicted in the law and equity court on a charge of bigamy, has been granted a stay of 10 days during which time he will be given a chance to bring forward new evidence tending to establish his identity. The defendant claims that he will be enabled to establish an alibi.

NEGROES ARE PARDONED.

Montgomery.—Three negro convicts broken in health were given their freedom by an order issued by Governor O'Neal. Two of the three are paralyics, and the third, Squire Thomas, sent from Dallas county to serve a life term for murder, suffered a broken hit in the service of the state, and is crippled for life.

PROMINENT CITIZEN DIES.

Athens.—Dr. John R. Hoffman, aged 82, 60 of which had been spent in Athens, dddied here after a short illness. Deceased had been prominent in the business affairs of Athens, and was a Confederate veteran, having served as surgeon throughout the war between the states.

SOME EAGLE, THIS.

Florence.—An eagle weighing 12 1-2 pounds, and measuring seven feet from tip to tip, was killed on the farm of James George, seven miles north of Florence. The eagle was shot by a negro boy and is the second ever seen in that vicinity.

DOCTORS LOSE IN FIRE.

Demopolis.—Fire in the old National bank building practically gutted the structure and entailed a loss of probably $2500 on Dr. R. B. Walker, dentist, who had offices in the building, and also Dr. W. T. Cockes, whose office adjourned that of Dr. Walker. Dr. Cockes' loss is probably $1200.

FOUR INJURED.

Birmingham.—Four train employes of the Louisville and Nashville were injured, none of them seriously, when a passenger engine from Boyles crashed into a caboose attached to a southbound freight train at the East Birmingham street car crossing.

GRAND JURY MAKES REPORT.

Selma.—The grand jury of the circuit court of Dallas county, which has been in session since the convening of the court three weeks ago, made its final report to Judge Miller of the court. The final report showed that since the inquisitorial body of the court had been convened it had returned a total of 231 indictments. During the days it was in session the grand jury examined 672 witnesses at a cost to the county of $712.60, and the body examined into 326 cases.

TERM OF OFFICE CHANGED.

Huntsville.—The term of office of mayor of the city of Huntsville will extend from October 10 October of each year in the future. The city commissioners have drafted an ordinance to that effect. The length of the term was not fixed by the legislative act which granted the commission. Commissioner R. B. Spalding, who

"APPEAL TO REASON"

(Copyright.)

Do Your Christmas Shopping Early.

THREE SOUTHERNERS FOR THE CABINET

CONGRESSMAN BURLESON SEEMS ASSURED OF BERT

TEXAS MUST BE REWARDED

A Dozen or More Others Are Being Discussed for Other Two Positions. Cleveland Had Three Southerners in Last Cabinet.

Washington.—How many Southern men will Wilson appoint to his cabinet is sharing popularity with speculation as to the personnel of his official family. The consensus of opinion among Democratic senators and representatives is that at least three men will be taken from the South. Cleveland took Hillary A. Herbert of Alabama, Hoke Smith of Georgia and William L. Wilson of West Virginia into his second cabinet.

Of the three Southern men likely to be chosen for cabinet honors the only apparent certain choice is Representative Albert S. Burleson of Texas. Because Texas gave Gov. Wilson 40 votes in the Baltimore convention on every ballot is cited as the prime reason why he should and probably will recognize that state in his cabinet makeup.

As to the other two Southern men likely to be designated there is no preponderance of even speculative opinion. A dozen or more are being discussed and many more are receiving honorable mention.

OFFERS WILSON WARSHIP

Taft Would Allow Successor to Study Panama Canal.

Washington.—President Taft has written a letter to Gov. Wilson offering to place at his disposal a big battleship to make a trip of inspection to the Panama canal some time before Mr. Wilson is inaugurated. The president is of the opinion that his successor would like to know as much as possible about the nation's great engineering feat before he enters office.

Many questions of policy concerning the canal may be looked for in Mr. Wilson's administration, and Mr. Taft decided that it was only fair to the man who takes his place in the White House on March 4 to offer him an opportunity to inspect the canal and gather information at first hand.

TURKS SLAY CHRISTIANS

Villages Are Burned and Women Assaulted by Moslems.

Constantinople.—Letters received from Gallipoli, report terrible excesses by the Turkish troops in that district. The telegraph lines having been cut beyond Gallipoli, the military authorities held the Christian village responsible for the work and ordered a detachment of troops to punish the residents.

The troops burned the houses, held many of the villages for ransom, massacred those who refused to pay, assaulted the women and carried on wholesale pillage. The villgaes of Malgara, Kashen, Karadjali, Aloali, Grabunar and Examili practically were destroyed.

Perishes With Daughter.

New York.—After rescuing his wife and son from their burning home, Melville B. Mendell lost his life in an attempt to save his 14-year-old daughter, Lillian. The girl perished with her father. Mendell, awakened from his sleep by smoke and crackling flames, first carried out his wife, who had been overcome. Then he returned and rescued his 12-year-old son. Neighbors attempted in vain to prevent him from making a second trip into the burning house to save his daughter. When the flames were extinguished the father and daughter were found dead in each other's arms.

Fell Into Whiskey Vat.

Vincennes, Ind.—Herman Biggs fell into a mash vat at the Old Vincennes distillery. He was promptly rescued, but the skin and flesh from his shoulders down were removed. He remained in agony six hours and died.

Seer Era of Great Prosperity.

New York.—Charles M. Schwab, president of the Bethlehem Steel Company, in an interview, declared the

CAROLINA GOVERNOR INDORSES LYNCHING

SOUTH CAROLINIAN IN RAGE WHEN VIEWS REPUDIATED.

REPUDIATION VOTE 14 TO 4

Snapping Fingers in Face of Colleagues, Blease Says He Does Not Care What the Conference Thought of His Views.

Richmond, Va.—The governors' conference unanimously repudiated the recent utterances of Gov. Blease of South Carolina concerning the lynching of negroes. By a vote of 14 to 4 it adopted a resolution declaring against mob violence and for the impartial enforcement of the law. The four governors who opposed the resolution declared themselves as strongly indorsing its purport, but voted "no," because they thought they had no right to reprimand a colleague.

Gov. Blease himself, target of the attack, hotly defended his convictions, snapped his fingers in the face of his colleagues, told them to "go to it," declared that he cared not a whit what the conference said, thought, did, or did not do, and announced that all the resolutions they might ever adopt would not keep him from the governor's chair nor from a seat in the United States senate in 1915 or earlier.

Four times within as many hours, he asserted, his life had been threatened because of his utterances, but this appealed to him as little as the resolution. All of the four threatening letters, Gov. Blease said, he received were anonymous. One was mailed in Richmond, another in Washington, the third in Louisville, and the fourth in Pittsburg. The Washington writer told him he would pay the penalty if he ever came to that city; the Pittsburg writer said: "You will be taken to account on sight for your words;" the Louisville and Richmond missives were not fit for publication.

RIVERS CONGRESS CLOSES

Appropriation of $50,000,000 Annually Asked for Work.

Washington.—Joseph E. Ransdell, senator-elect from Louisiana, was elected president of the National Rivers and Harbors Congress at the closing session.

A plea for the confining of the rivers and harbors bill to appropriations for rivers and harbors projects, without inclusion of conservation projects, was made by J. Hampton Moore, representative in congress from Pennsylvania. Mr. Moore appeared as the authorized spokesman of the Atlantic Deeper Waterways Association, of which he is president.

Resolutions adopted by the congress represented the developments of the waterways policy.

An appropriation of $50,000,000 yearly was the estimated expenditure considered necessary for constructive work.

A perfect through rating and prorating system between railroads and water lines and the establishment of adequate water and rail terminals were advocated.

State or municipal ownership and management of terminals was indorsed.

Watterson's Hands Off.

Washington.—Col. Henry Watterson of Louisville has declined to join Mrs. Martin W. Littleton in her campaign to have congress force Representative Jefferson Levy of New York to sell Monticello, the home of Thomas Jefferson, to the government for a national park.

Pests Attack Sugar.

Washington.—The country's principal sugar supply is in danger of being attacked by dangerous plant diseases and insect pests, according to a bulletin of the department of agriculture.

Spent $665,500 for Teddy.

Washington.—The final statement of the contributions to and expenditures from the Progressive party's presidential campaign fund, filed with the clerk of the house, showed total contributions of $676,672.76 and expenses of $665,500.

Church Union Effected.

Atlanta, Ga.—A basis of union between the Presbyterian Church of the United States and the United Presbyterian Church of America was reached

HURRAH! HURRAH! HURRAH!

NO MORE DANGEROUS CALOMEL FOR ME

Three Cheers for Carswell's Liver Aid the New Liver and Bowel Remedy that Upchurch Drug Co. sells on Money Back if Dissatisfied Plan.

If you are feeling blue, tired out, constipated, have sour stomach, indigestion, malaria, upset liver, coated tongue or bad breath there is a joyful surprise waiting for you after the first dose of CARSWELL'S LIVER AID, a purely vegetable liquid remedy that is causing thousands to desert dangerous calomel and bringing health and strength back to them.

It's a wonderful remedy, so pleasant and harmless that children as well as grown up people take it without any bad after effects. It treats the liver and bowels gently but firmly and drives out the poisonous gases and accumulated waste thoroughly.

You can get a large bottle at Upchurch Drug Co. for only 50 cents, and if you aren't delighted, your money back. Ask for CARSWELL'S LIVER AID. 1

THE BUSY WOMAN'S

It begins early, ends late, and is full of work. She often has kidney trouble without knowing it. Her back aches, and she is tired and worn out. Sleeps poorly, is nervous, no appetite. Her bladder gives her trouble too. Foley Kidney Pills will cure all that and make her strong and well. They are the best medicine made for kidney and bladder disorders. Upchurch Drug Co.

A GOOD MARE FOR SALE—PRICE $50.

Perfectly gentle, safe and sound—just what you need for your wife and children to drive, and to help out with farm work, plowing and hauling. An exceptional bargain for any one needing such an animal. P. C. [illegible] Thorsby, Ala.
Dec. 5, 2t

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

Mrs. Henry Bush of Montgomery, is spending several days with her sister Mrs. Hugh Jones.

Mr. J. H. Alred made a business trip to Birmingham Tuesday, and is putting in a nice line of Christmas goods.

Mrs. J. H. Starr of Montgomery was here Tuesday attending court.

Mr. P. D. Wilson went to Birmingham Tuesday on business.

Mr. T. Littlejohn spent Suuday in Montgomery.

Mrs. Hudson and son were in Clanton Tuesday.

Mrs. Bonner and son were here Tuesday.

Mr. Tom Smith visited Clanton Tuesday.

W. W. Duesen of Sylacauga, is visiting Lee Vickers.

Mrs. N. S. Johnson and children visited Montgomery on Monday.

Miss Minnie Muse spent Monday in Montgomery.

Mr. and Mrs. Eugene Evans and son were in Montgomery Monday.

Mr. P. D. Wilson returned on Wednesday after a trip to Birmingham.

Rev. R. J. Mills returned Monday from where he had been attending conference. We are sorry to learn that Brother Mills will be removed from Clanton.

Rev. W. M. Olive is visiting at Selma.

Miss Minnie Muse has received a new line of linen dressers and silk and knitted scarfs.

A fool and his fire cracker are soon parted.

The Rev. Mr. Long of Mt. Creek was in Clanton on Tuesday.

Misses Winnie and Willie Reynolds, who have been attending school at Montevallo are home to spend holidays.

Mr. J. M. Pyron has been quite sick for last week, but we are glad to say he is improving.

Mr. J. T. Blond of Verbena, was here on business Monday.

Ex. Judge A. J. Driver of Chambers county, was here on business Saturday last. Judge Driver was Probate Judge of Chambers county for fourteen consecutive years, and only by a narrow margin was he defeated in the last election.

Fred Olive returned to Birmingham Sunday after spending thanksgiving holidays with his parents.

Mr. and Mrs. J. B. Hicks left Tuesday for their new home in Riderville; we regret very much to give them up.

Miss Bessie Levie, who is now teaching at Verbena, spent Sunday with her cousin, Mrs. Evelin Rylout.

Mrs. Olivu Griffin who has been employed by Mr. Tipton Mullins, left for Montgomery on Tuesday evening.

Miss Blanche Tsidell, who has been quite sick for several days; we are glad she is able to take up her school again.

Dr. O. E. Wilson, formerly of Shorsby, visited us Tuesday. The Doctor is now the contract physician for McArthur Bros., at the big dam at lock 12.

Some surveyors were in town Monday gathering information to make plans for a sewer system. This is the first step toward a very necessary improvement.

The stores are getting ready for the holiday trade and some of the window look very Christmasy. The paint will have to be given to the artistic snow spots in the window of the Gamble-Hardware Co. It is a realistic that one wants to grab one of the guns and go rabbit hunting.

By way of a Christmas present that all will appreciate, L. R. Reynolds has secured the Waverever stock of goods [illegible] Montgomery, and [illegible]

J. C. Jones & Co., of Clanton, have failed and gone into bankruptcy. The stock appraised at $6,357.50, and ten mules and one horse are advertised to be sold on Dec. 14th. The whys and wherefores of bankruptcy are beyond our ken, and we have no comments to make.

If you have the Christmas spirit in any degree, the Alred Drug Co. is ready for you, having provided the choicest goods to meet the wants of every Christmas giver, from a penny doll to expensive gifts. A trip to their store to look at the pretty things is worth while even if you resist the temptation to buy.

Santa Claus' special headquarters for Chilton county this year will be at Thorsby at the store of L. D. Foss & Son. He is especially fond of these good people up there, and they will find he has been very thoughtful of their interests when they go around to said headquarters, as they are bound to do.

A nice line of jewelry brackets, bar pins, ladies watches, silver knives and forks, Seth Thomas clocks—the kind that runs. No fine pictures and clerk to pay for just the same goods and much less prices. If you need the time get you a Rockford; come and see them, they are guaranteed. L. D. POPWELL. 2t

At the Methodist church Sunday morning, the pastor being off at Conference, a special service of song and praise was held under the leadership of Mr. John Stanfield, the superintendent of the Sunday school. A number of songs and hymns were rendered by the Sunday school and choir with some exquisitc instrumental music. The music and singing at this church is of a higher order than that heard in the average church and proves very attractive. The Sunday school seems to be in a flourishing condition. An additiona Bible class for young men was organized Sunday.

Attention is called to the announcement of Marion Institute, at Marion, Ala. This institute has won a very high character as preparing young for the universities, or for their life work.

Cabbage planting time is here. Read the advertisement of the Enterprise Plant Co., at Meggetts, S. C., and get your orders in.

The telegraph war between the Western Union and the L. & N. shows no sign of abatement, and the citizens along the line of the road are practically cut off from telegraphic communication, as the telephone makeshift is very unsatisfactory. It is thought that after a little more battling in the courts the two companies will come to terms and a new contract will be made.

MARRIAGE LICENSES.

The following licenses have been issued from the Probate Judges' office this week:

T. W. Spivey and Lillie Franklin.
R. G. Carter and Maude McGraw.
Oscar Anderson and Rhodie Green.
J. M. Roper and Virgie Cox.
Woodie Pate and Naomi Nelson.
L. L. Blalock and Lula Wells.
Walter R. Morris and Rosella Smith.

ADVERTISED LETTER LIST.

List of letters remaining uncalled for in Clanton office for the week

Mrs. Patsie Kirkland, Mrs. Georgie Brown, Annie Chandler, Dora Daniel, Lottie Ester, Miss N. L. Jones, Mrs. Mary Martin, Miss Mary Parker, Miss Joeyea Adams.

J. A. Brice, Sam McGuire, C. E. McLean, J. N. Ricks.

These letters will be sent to the Dead Letter office Dec. 31, 1912, if not delivered before. In calling for the above, please say "Advertised," giving date of list. P. O. Dudley, P. M.

ED. MARTIN NOT GUILTY

There was a great deal of interest manifested this week in the trial of Ed. Martin, charged with the killing of C. W. Cox last August.

The solicitor was assisted in the prosecution by Messrs. Mullins, Middleton, Reynolds and Latham.

The defence was conducted by Messrs. Gurry and Smith assisted by Col. Felix Smith, of Rockford, Coosa county.

The plea set up was self defense.

The trial began on Tuesday morning and the jury retired at 3:30 Wednesday afternoon.

About eight o'clock in the evening the judge was notified that the jury was ready with the verdict, and the court reassembling, the lury gave in the verdict of "not guilty."

Mr. Martin was released and received the congratulations of many friends.

The cases next to be tried are those of Gene Martin, Jas Oden and Bill Williams, negroes, all charged with murder.

We were unable to get at the docket this week to secure a list of cases tried.

Joined His First Love in Death.

After an absence of over 30 years, a former aged resident of Rainham, Kent, England, returned to the district late the other night, and, groping his way through the tombstones in the local cemetery, found the graves of his first wife and son, and there shot himself. The man, who carried on business in Great Peter street, Westminster, posted a letter from Rainham to his second wife, and his daughter, saying he had gone to join his first wife and son.

Very Old Text-Book of Health.

It is said there are 365 verses in the Old Testament and 240 in the New Testament relating to disease, sickness, their causes, treatment and prevention.

We find the following editorial in the Birmingham Age-Herald of Wednesday.

THE BULL MOOSE CONFERENCE

The progressive, commonly known as the bull moose, party, led by Colonel Roosevelt, encouraged by a large popular vote in November, is looking with enthusiasm and hope to 1916.

The conference in Chicago this week is marked by spirit and cohesiveness. The colonel made a characteristcally vigorous speech in which he let go telling shots at the remnant of the old republican organization and paid his respects to his one time friend, Mr. Root, who manipulated the steam roller in the republican convention for President Taft.

The republican party is defunct. The few leaders that stuck to the machine expect to hold a conference a year hence for the purpose of seeing what can be done to organize, but it seems clear now that the only party with which the democrats will have to reckon in the next presidential election will be the bull moose. It goes without saying that Roosevelt will be the standard bearer again. The third term prejudice, which was strong General Grant's day, did not materialize to any considerable extent in the last campaign, as had been predicted, and in 1916 it may be assumed that it will be altogether a negligible quantity.

The democrats naturally hope that Woodrow Wilson's administration will be a success. If the party remains united, as it should, it will continue in power, but if dissensions occur, as in Cleveland's second administration, Roosevelt will yet reach the White House for a third term. At least that's the way it looks today.

Changing Times in China.

The Temple of Heaven—on account of its floral riches will be converted into a botanical garden.—Pekin Daily News.

The Atlanta Tri-Weekly Constitution, the Weekly Union-Banner and the Speedy Stitcher Awl, herewith shown, all for $1.75. Do not delay.

NEIGHBORHOOD NEWS

AND LETTERS FROM THE PEOPLE

ROCKY MT. ITEMS.

Many changes are being made in this district and more to take place before Christmas.

Mr. Will Northcutt is in his new house which he purchased from J. T. J. Johnson, who we regret is to leave here.

Mr. John Williams, one of our district trustees, will soonmove to his new home, a few miles above the Glass gin which he purchased of Cobb Bros.

Bro. Carrol and family have moved to this district. We are glad to have them here.

Prof. Williams is to move into his pretty home soon which he purchased from Bert Hawkins. We are glad to have him with us and hope to keep him busy in the school house. Mr. Hawkins will rent a building known as the Green place and remain in the district.

Our school is moving on fine, and we are pleased to see new people enter, which increases interest in it.

Hog killing was all the go during the recent cold spell, and many a proud porker was deprived of enjoying the snowy days owing to this raid by the people.

Mr. Enoch Glass has sold his place to Mrs. Mary Glass, and has bought out Henry Cofer.

A uumber of our people are talking good roads and it is our wish that this will not end just in talk. We should fix crossways wherever needed between our homes and the school house for cold wet feet and studying don't go together; and there is danger of winter colds and pneumonia if this is not looked after. So get busy this next week and see that our children have a good path to the school house. The Thanksgiving exercises were successfully carried out regardless of the snow. The children had a jolly good time. The potato races created much amusement and all the winners received small prizes. Pinning on the turkeys head was new to the children and they enjoyed this feature very much, and no doubt they will never forget the teacher, Miss Toinette Woody. Master Bernie Martin got the prize for the longest year of corn, and Enel Robinson and Alridge Wilson had the next longest ears.

Mr. S. R. Woody spent three days here with his daughters, Mrs. F. Williams and Miss Toinette Woody.

The health of our community is good, and the oat crop is looking fine. Citizen.

THORSBY INSTITUTE NOTES.

The enrollment in literary studies has now reached 73. New students enrolled last week were Miss Lyllian Gilbert, Miss Evie Martin and Miss Martha Parker.

We now have an "awkward squad" who meet for marching drill and "setting-up" ou every Wednesday and Friday.

The young women have Physical Culture work under Miss Finch on Tuesday and Friday after school.

The new Boys' Dormitory is now under roof, and it will be ready for occupancy after Christmas vacation. Much of the work on the building is being done by the students.

Prof. George W. Macon, of Howard College, will deliver a lecture on Dec. 14, 7:30 p. m., the subject will be "Building a Life." This lecture was first arranged as a part of the entertainment course but the trustees decided to throw it open to the public free of charge. Prof. Macon will preach at the Baptist Church on Sunday morning, Dec. 15, and will address a meeting of young men at the Institute at 3:00 in the afternoon of Sunday.

A public contest between the two divisions of the Literary Society, the "Reds" and "Blues," will be held Friday night at 7:30 The contest will consist of essays, recitations and debate. The subject for debate is: "Resolved, That capital punishment should be abolished. Music will be furnished by the Institute Chorus.

BETHSALE.

The health of the community is very good.

Mr. R. N. Wilkins and family. Mr. M. L. Billingsley, Mrs. Iola Wilkins and Mrs. Lela Askins went to Montgomery Saturday to visit Mrs. Robert Wilkins, who is in the hospital for treatment.

Mr. and Mrs. J. M. Moore visited R. P. Kendrick and family Sunday.

Misses Bertha and Minnie Moore, and Messrs. A. Bowles, Cleve Patrick and Alphis Moore, visited G. T. Brigowee and family on Sunday.

W. J. Vinson and family have moved to Autauga county.

A Voter.

PROGRAM.

The fifth Sunday meeting of the Unity and Chilton County Association to be held with Shiloh Church, nine miles west of Clanton, Dec. 28 and 29:

Saturday 10 a. m., devotional exercise, T. J. Deason.

10:30. The Needs of the Country Church, S. M. Adams.

11:15. One Hundred Year Missionary Preaching, by P. G. Maness.

DINNER.

1:30. Devotional exercise, W. S. Cox.

1:45. The Young People and their Work, W. H. Connell.

Sunday, 9:45 a. m., Devotional exercise, J. D. Hughes.

10:00. S. S. Work. Harry L. Strickland.

10:45. Condition of the Nations of the World, by W. B Crumpton, of Montgomery.

11:45. The Why and How of Foreign Mission, W. M. Olive.

1:30. p. m. Short talks by the brethren on the needs of the Association.

There will be a meeting of the executive committee on Saturday the 28th in connection with this meeting, each member is urged to be present.

W. M. Olive,
J. J. Stanley,
for the committee.

CARD OF THANKS.

Editor Union-Banner: — Will you please allow us space in your valuable columns to express our sincere thanks to the good citizens and children of Thorsby and community for the elegant Thanksgiving dinner tendered us by them—a movement gotten up by Mrs. Dr. Stabler several years ago, when upon Thanksgiving day she, the school children and many of the good people of the town, would repair to the Poor Farm and hold religious services with the unfortunate inmates—but we are sorry this good lady was not with us, as she no longer resides in Thorsby. She has our loving remembrance. We are poor and unfortunate, but our hearts are full of grattitude to each of the good people and little ones, who were so kind as to send us those splendid cakes, meats and confections on Thanksgiving day, and which we so much enjoyed, and we hope God in his mercy may bless each one of them, and when the great roll is called that we may meet around the great white throne above.

Thorsby should be proud of such citizens as compose the colony, as they are splendid people. We trust that our loving friends may live to enjoy many thanksgiving occasions and that prosperity and happiness be their lot.

Thanking you, Mr. Editor, as well as again tendering our hearty gratitude to the Thorsby people,

We are, respectfully,
W. A. Huckaby and Wife,
Managers of the Poor Farm.

MRS. ELIZABETH ELLISON.

On the 4th inst the death angel visited the home of Rev. F. A. Ellison and took from him the spirit of his beloved mother, Elizabeth Ellison. Weep not, dear children, our Lord in Heaven gave. She was laid at Cane Creek Cemetery. The funeral was preached by Rev. W. P. Lowery.

A CARD OF THANKS.

We wish to return our heartfelt thanks to the good people for their loving kindness shown us during our mother's sickness and death. May God's blessing rest upon each one of you is the prayer of J. E. ELLISON,
Rt. 5, Clanton, Ala.

IN MEMORIAM

Mrs. Eliza Harrison departed this life December 6, 1912. 'Tis so sad to give up our loved ones, but God's will be done. She was a devotnl Christian for 30 years, was a member of Samaritan Baptist church. Though she is gone she is only sleeping in the arms of Jesus. Her memory will be with us until we shall meet her over there where we will be no more parting.

leaves one son and two daughters and a number of grandchildren and friends to mourn her loss. She was laid at rest at Samaria cemetery on Friday, Dec. 6, Rev. A. L. Foshee conducted the funeral services.

"The depths of joy can never be found
That comes to one whose soul is white,
By being washed in Jesus' blood;
And death is never dark but light."

A Friend.

IN MEMORY OF MRS. ANN TAYLOR.

The death angel visited the home of Mr. Reed Taylor on the afternoon of December 2d and wafted away the gentle spirit of his loving wife to the great beyond where there is neither pain nor sorrow. She was laid to rest in Providence cemetery Tuesday afternoon. She joined the church in early life and lived a consecrated Christian until the sting of death overtook her. She was near the age of fifty and leaves a husband and one dauggter and a number of relatives and friends to mourn her departure. She had been an invalid for a number of years. Weep not, for she is at rest. Just live the life that Mrs. Ann lived and you will be assured a home in eternity.

Beautiful to see thy work all done,
Beautiful soul into glory gone,
Beautiful life with its crown now won, God giveth the rest from all sorrow and fears,
Rest from all sighing and tears,
Rest through God's endless wonderful years, at home with the blest,
Beautiful spirit free from all stain, Ours the heartache, the sorrow and pain,
Thine is the glory and infinite gain.
Thy slumber is sweet, Peace on the brow and the eyelids so calm, Peace in the heart beneath the white folded palms, Peace dropping down like a wondrous balm from the head to the feet, It was so sudden and we all dread, How we miss her the beautiful dead; Who'll take the place of the precious one fled? But God knoweth best, He hears the sad cry of the grieved ones that call. Friends, husbands and children, He loves them all. We can trust only sweet best eternity.

Rev. J. D. Hughes conducted the funeral services. A Friend.

CROUPY COUGHS AND WHEEZY COLDS

The quickest simplest way to rid the children of dangerous croupy coughs and wheezy stuffy colds is to give them Foley's Honey and Tar Compound. It gives almost instant relief and stops a cough promptly. It soothes and heals. Contains no opiates. Upchurch Drug Co.

In the District Court of the United States For the Middle District of Alabama. } In Bankruptcy.

In the matter of J. C. JONES & CO. —No. 2284— Bankrupt, Postoffice Clanton, County of Chilton, Alabama.

The aforesaid party having been adjudged a Bankrupt under the Act of Congress entitled "An Act to Establish a Uniform System of Bankruptcy throughout the United States," approved July 1st, 1898, meeting of the Creditors of said Bankrupt is called at the office of the undersigned Referee, in the United States Court House, Montgomery, Alabama, on the 14th day of December, 1912, next, at 10 o'clock, A. M., to make proof of debts and for the election of a Trustee, and such other matters as are necessary and required by the Act of Congress aforesaid.

ASA E. STRATTON, Referee.

CALOMEL GIVES ONLY TEMPORARY RELIEF.

So Powerful It Shocks Liver and Leaves It Weaker Than Before. Dodson's Liver-Tone a Perfect Substitute.

Nearly everybody who has ever tried calomel for constipation or a sluggish liver has found that it gives only a temporary relief. For calomel is such a powerful drug that it shocks and weakens the liver and makes it less able afterward to do its duty than in the first place.

This is one of the reasons why The Upchurch Drug Co. would rather sell Alred Drug Company would rather sell Dodson's Liver-Tone to you than calomel. We know that Dodson's Liver-Tone is a pure vegetable liver tonic that will cure constipation quickly and gently without any danger of bad after-effects. We guarantee it to do this with a guarantee that is simple and fair. If you buy a bottle of Dodson's Liver-Tone for yourself or your children, and do not find that it is a perfect substitute for calomel, then come back to the store and get your money. If you don't get value for your money out of this tonic, it's your right to expect your money back, and we will gladly give it to you.

COUNTY PAPERS AND PARCELS POST.

There is not much doubt that the parcels post will benefit the city merchant. Furthermore the city merchant will seek the country trade and the trade of people in small towns. That is business.

There is one other institution that the parcels post will benefit if the small merchant is to stay in business, and that is the weekly newspaper.

Merchants in small towns and in the country will have to advertise the goods they have. When the city merchant advertises his goods the country merchant must be alert and meet the price and quality. The weekly paper must offer the circulation to both and will then get business from both. A change in old conditions has come.—Birmingham Ledger.

COUGHING AT NIGHT

One bad cough can keep the whole family awake at night. Phil. Disorneau, Schaffer, Mich., says: "I could not sleep on account of a bad cough, and I was very weak. I used Foley's Honey and Tar Compound, and soon the cough left and I slept soundly all night." Upchurch Drug Co.

Fatherly Pride.

"Is he proud of his baby boy?" "Proud of him? I should say he is. Why, he spent two hours yesterday trying to imagine how he'll look in a silk hat!"

ARE YOU BILIOUS?

If you are sallow, have headache, dizziness, loss of appetite, and feel dadly generally, you should use a good aperient and liver regulator, St. Joseph's Liver Regulator has for many years relieved these ailments. It is carefully prepared and is believed by the many people who use it to be the best medicine of its kind on the market. It is made in both liquid and powdered form. Druggists and general dealers sell it, liquid 50 cents a bottle; powered, in tin boxes, 25 cents a box, or five boxes for a dollar.

Uncle Pennywise Says:

The good cook generally marries the man who can't provide the raw materials.—Courier-Journal.

A Prominent New York Politician Near Death

Hon. R. N. Lansing, of Rensselaer, N. Y., Six Times a Member of the Assembly, Tells of Narrow Escape.

"About fifteen years ago I was taken with rheumatism, which affected my heart producing what was called valvular trouble. Three doctors told me I would never do another day's work. While I had many remedies recommended to me I got a bottle of Dr. Miles' Heart Remedy and it helped me inside of 48 hours. At the end of the week I called on my doctor and asked him to examine me. He said I will better than he ever expected to see me and asked if I was taking his medicine. When I told him I was not, but was taking Dr. Miles' Heart Remedy, he said, 'Thank the Lord for Dr. Miles' Heart Remedy.' I continued to take it, and while I realized my heart was damaged as I could not expect a permanent cure, for fifteen years I worked every day, notwithstanding I had been told I would never work again. In July, 1911, I was taken with rheumatism again, and it went to my heart as before. I sent and got one of the Almanac pictures up my life and found I could not live but a few hours. I again took Dr. Miles' Heart Remedy with very satisfactory results, and have not missed a day at business or in the laboratory since January. I feel that Dr. Miles' Heart Remedy has saved my life and cannot recommend it too highly."

Marion Institute

For Walls and Ceilings

PEE-GEE FLATKOATT

The Sanitary, Durable, Flat Oil Finish

For that artistic, harmonious effect which makes home worth living in, use *Pee-Gee Flatkoatt*, the modern wall finish.

Most economical, because when soiled, it can be easily washed or cleaned; it sinks into and becomes part of the plaster, *hardening* and *toughening* with age and lasting as long as the plaster. The plain directions on each can make it easy to apply with perfect success.

Ask our dealer in your town for "*Modern Method of Finishing Walls*," our handsome, beautifully-illustrated book, giving color schemes and practical suggestions. *Free* on request.

Be Happy!

Happy the girl, or woman, who has never suffered from any of the diseases of womanhood! Or, if she has been a sufferer, happy is she if she has learned of the wonderful benefits of Cardui, the woman's tonic!

Cardui is a gentle, tonic remedy, for women's ailments. It is a natural medicine—safe, harmless, purely vegetable. It has been in successful use for more than 50 years. It has cured thousands. It should do the same for you.

TAKE CARDUI The Woman's Tonic

Mrs. Mary Neely, of Denver, Tenn., says, "I think there is no tonic on earth, as good as Cardui. I used it with the very best results. I had backache and nearly everything a woman could suffer with, until I took Cardui. Now, I feel better than I have for two years. I shall always recommend Cardui to other suffering women. I can't praise it too highly. As a medicine for weak, tired, worn-out women, Cardui is safe and reliable. Try it, today.

Subscription price, in advance, per year, $1.00.

Entered April 15, 1903, at Clanton, Ala., as second-class matter, under act of congress of March 3, 1879.

NOTICE TO CORRESPONDENTS: All communications to The Union and Banner must be signed by the writer's real name as well as that name which they wish to put in the paper. Letters must reach the editor Tuesday morning to get in the same week. While we will publish any and all communications complying with these requirements that do not contain any improper language, we are not responsible for the opinions expressed.

PEACE, GOOD WILL TO MEN.

Before our next issue will come the day when over all the world will be commemorated the coming of the message from God to man assuring him that love is the great characteristic of the Father God and thereby laying the foundation for peace in the human heart.

And while this message is for all the world, its application must first be in each individual heart. Take in fully the message of Christ, apply its balm to your own heart, and all the turmoil of the world around you cannot rob you of that peace which is the great gift of God.

This message of love and peace has, in the centuries which have passed since its promulgation, been as a tower of strength to many millions of souls, and the world as a whole has made notable advance toward the standard set up by the Perfect Man who brought the message from God.

But ever remember it is you—personally—who must accept the message and follow the footsteps of the Leader in order to have the full assurance of this peace.

So we wish you, each reader personally, all the happiness that should come from this message of Peace and Good Will.

Some of those who look forward to the day when peace shall reign over the world, are disheartened by the fierce and bitter struggles of the Balkan States with the Turks. It seems, however, that this is one of the most important steps toward universal peace ever taken. It practically removes from Europe the Turk, who has been the great enemy of civilization in all the countries over which he claimed control and will make several free states peopled with an intelligent and hardy race. These states will to a great degree hold a balance of power between the great nations of Europe who through jealousy of one another keep on the verge of war, and there will be more chance for the peace spirit to gain strength among the people—those who are called on to give up their lives when "statesmen" stir up strife.

The true "Christmas Spirit" is that of unselfishness. Spend a little time and energy in making some one else happy and see how you will enjoy it.

What a glorious time it will be when people in this country get over the idea that Christmas is to be "celebrated" by desecrating the day with gunpowder and whiskey.

As the boys want a bit of holiday Christmas week the next issue of the Union-Banner will probably be only a half-sheet—four pages.

Come in and pay your subscription, it is past due and we need it.

FOR SALE

90 acres of land with oak grove frontage, joining the High School property, in Clanton, Ala., at a bargain.

C. REESE MULLINS.

Many merchants in the small towns have dreaded the parcels post, fearing it would throw much of their business into the hands of the department stores. It will only do this where the merchants are not alive to the new conditions. Any merchant who takes the trouble to keep the goods his patrons want, keep them informed of the fact, and is content with reasonable profits, will find that he has an advantage over the department stores at a distance. The postal rate will be less for him, his expenses are less and if he has treated his customers right they will have more confidence in him and will prefer to trade with him. In fact, the merchant who dreads the parcels post deserves to break, the country has no need of him.

On the other hand the people of the country should take pains to deal with the merchants at home who are trying to treat them right. In most cases you can get better goods just as cheaply from your home merchants; get them more quickly and if they don't suit can be exchanged with little trouble. And the profits will be kept at home with people you know and care something about. Don't let the big catalogues fool you.

THE PARCELS POST,

The Parcels Post which for some years has been a subject of discussion, desired by many, dreaded by some, goes into effect January 1st.

Parcels may be sent through it weighing not more than 11 lbs. and not more than 72 inches in circumference, securely packed, stamped with the special stamps provided for the purpose, with the name of the sender written on it, containing anything except alcoholic liquors, poisons, pistols, etc.

The country is divided into zones, fifty miles wide, and the postage varies with the distance,

Five cents for first pound and 1 cent for each additional pound in zone 1.

Five cents for first ponnd and 3 cents for each additional pound in zone 2.

Six cents for first pound and 4 cents for each additional pound in zone 3.

Seven cents for first pound and 5 cents for each additional pound in zone 4.

Eight cents for first pound and 6 cents for each additional pound in zone 5.

Nine cents for first pound and 7 cents for each additional pound in znne 6.

Ten cents for first pound and 9 cents for each additional pound in zone 7.

Twelve cents for first pound and 12 cents for each additional pound in zone 8 and all further points.

From Clanton to anywhere in 50 miles, say Calera or Maplesville, or Montgomery, is in the first zone. Birmingham is in the second.

If you want your rural carrier to bring anything into town, or bring anything from town, it goes at the first rate.

Bear in mind that ordinary postage stamps, such as you use on letters will NOT DO. You MUST put on the special stamps,

You must also find out the zone it is going to and put on the proper amount of stamps.

The instructions say that when you have properly packed, addressed and stamped the parcel, "give it to postal official where you buy stamps." We understand by this that the rural carrier from whom you buy stamps must take the parcel,

THEDORE ROOSEVELT AGAIN A NOMINEE

"It is folly," said Colonel Roosevelt at Chicago last week, "for the republicans to waste time in thinking of any attempt to lure us back into the organization that they have made of such a character that no honest man can be in it."

This defines the attitude of the progressive party towards any Root-Smoot reorganization of the republican party. The progressives seem to expect no further recruits from that party and they are preparing to spend $50,000 a year until 1916 to spread and develop their cult.

To make a long story short, Theodore Roosevelt is today as much the nominee of the progressive party as he will be in 1916. He is actually in the race and he is in it to stay. When the Evangelist Mills proposed last week Colonel Roosevelt as the standard bearer of 1916 the demonstration recalled the days of last August in the Coliseum convention.

It is not often that a presidential campaign is plainly outlined four years in advance. Perhaps a similar instance does not exist in our entire history. There will in the natural course of events be a democratic standard bearer, but there does not seem to be a ray of hope for a republican nominee, and there will perhaps be none. There is small room for one at any rate, and a second overwhelming defeat would put an end to the party that fought out the civil war and then added the dark chapter of reconstruction and the still darker chapter of high protection and trust promotion. The old party is dead. It met its fate somewhat suddenly and unexpectedly, but it cannot truthfully be said that it came undeservedly and without warning. Among the rank and file no mourning badges will be worn. —Birmingham Age-Herald.

WHERE ALABAMA EXCELS.

The fact that J. A. Wand, of Tallapoosa county, has won $1,000 Carnegie cup for the best sample of short staple cotton grown in the United States, has not received the recognition which it deserves.

This is the finest tribute yet paid to the favorable agricultural conditions of Alabama. It shows that the progressive farmer of Alabama can excel his neighbors of other States. It has already been shown that Alabama excels other States in corn growing feats. Several young farmers, members of the Boys' Corn Club organizations of the State, have raised from 200 to 240 bushels on one acre, and this in 1912.

One Alabama girl showed at one of the recent county fairs that she could beat the man who conceived the "57 varieties" of pickles. She exhibited 100 varieties. This in itself is a world record.

So it is, that Alabama hold sthe best records in the growth of three agricultural products—the finest sample of cotton in the United States; the greatest corn yield and the finest canning record.

Steel can be manufactured in Alabama cheaper than in any other State in the Union. Our mineral resources are unknown. Our agricultural possibilities are unlimited. Land is comparatively cheap in Alabama at this time, but in a few years it will cost as much as lands in Indiana, Ohio and Illinois, and will be far more valuable because of the adaptability of Alabama soils and the moisture of Alabama atmosphere—Montgomery Advertiser.

THE GREATEST SALE

EVER PULLED OFF IN THIS MARKET

will take place at my Store, commencing Thursday, Dec. 12, and ending Feb. 1, '13.

I have just purchased the large stock of Goods formerly owned by Mr. Vanderveer, of Montgomery, at less than one half wholesale cost, and they consist of winter goods and must be sold before the season is over, regardless of price.

I have space to mention but a small part of the goods, but the stock consists of General Merchandise, such as Shoes, Clothing, Hats, Gentlemen's and Ladies, Underwear, Calico, Outing, Dress Goods of all kinds. There is in this stock $2,000 worth of Endicott Johnson and Roberts, Johnson & Rand Shoes which were bought last September and are of the latest styles.

In fact, the goods are brand new, nothing old or shoddy. I would mention more prices, but all I ask is a look, and if you are in the market we will sell you.

I will mention just a few prices which will rule as long as the articles last: Sugar, 20 lbs. for $1; Shorts, $1.60 per 100; Pure Middlings in white sacks, $1.85 per 100; Flour, $5.60 per bbl, the same grade I have been selling.

Remember, I still have Genuine TEXAS RED RUST PROOF OATS, right from Howe, Texas. Were not shipped through a jobber, but I bought them direct.

I have a large stock of Stoves, and Harness of all kind, brand new, which will go for less than half wholesale prices.

Wagons, Buggies, Stalk Cutters, Mowers and Reapers.

With every Dollars worth of Goods Sold for Cash I will give a Ticket and on the first day of February, 1913, at 12 o'clock, the lucky number will get a handsome new Domestic Sewing Machine. The second lucky number I will give $10.00 in Merchandise.

The First Ten Ladies that trade Five Dollars worth after ten o'clock Thursday morning, the 12th I will give them ten yards of Calico.

L. H. REYNOLDS

The Home of the Square Deal.

CLANTON - - - ALABAMA

BULL MOOSE ENTHUSIASM

Judge Oscar R. Hundley has returned from Chicago all aglow over the bull moose conference, in which he took part.

"It was a great meeting, the national progressive conference,' said Judge Hundley yesterday.

"Every state in the union except Nevada was represented. Among the things that were stressed was the non-sectional character of the new party. The south is to be treated the same as the north, east or west.

"Colonel Roosevelt was in fine form. He was never in stronger physical or mental condition, and while he did not say that he would be a candidate for the presidency in 1916, it was the unanimous sentiment of the conference that we would nominate him and elect him,

"The old republican party has gone to pieces and the next campaign will be fought out between the democrats and the progressives. I myself think, and it was the opinion of all the others in Chicago, that Roosevelt will easily sweep the country in 1916. —Age-Herald.

THE SECRET TERROR

The haunting fear of sickness and helplessness is the secret of the working man. Health is his capital. Kidney diseases rob a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Upchurch Drug Co.

ROYAL
BAKING POWDER
Adds Healthful Qualities to the Food

Prof. Prescott, of the University of Michigan, testified before the Pure Food Committee of Congress, that the acid of grapes held highest rank as an article of food and he regarded the results from baking with cream of tartar baking powder as favorable to health.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar.

Throw Away Your Calomel
Here's a Better Liver Remedy

Oh! What Joh! Carswell's Liver-Aid Starts Lazy Livers Working in Fine Shape and Ends Constipation, Dizziness and Sick Headache or Money Back. Ask at Upchurch Drug Co.

You don't want calomel! you don't need it. It shocks the liver. It's like taking a heavy club to get action from a horse when a gentle tap from a small whip would do the work better.

You surely do need CARSWELL'S LIVER AID because it not only puts action into your liver, but strength, health and vigor into the whole body as well.

It drives out the poison from your system and does it quickly because it acts on liver, kidneys, bowels and stomach all at once.

It is guaranteed to be a purely vegetable liquid remedy that will forever end the misery of constipation, sick headache, dizziness, malaria and other common ailments without the distress of nausea or griping.

Throw away calomel and get a generous bottle of CARSWELL'S LIVER AID tnday. Its a grand remedy, harmless and pleasant to take and children take it as freely as grown ups. If it doesn't bring joyful satisfaction your money back at Upchurch Drug Co. 2

Dr. Wm. Sadler' author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Compound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs. Upchurch Drug Co.

RESOLUTIONS

By the Baptist Ladies Aid Society of Clanton, Ala., on the death of Mrs. Julia Hester, whu has been a member of our society for near twenty years.

First—In the death of Mrs. Hester our society has lost a valuable member, one who was always faithful in discharging the duties assigned her.

Second—That we love and cherish her memory and by God's help we hope to profit by her Christian life.

Third—That we extend to her relatives our sincere and heartfelt sympathy. We hope they may find comfort in the Savior she loved and trusted, and may remember that though she cannot return, they by God's help may go to her.

Mrs. W. H. Foshee
Mrs. W. L. Mullins } Committee.
Mrs. C. V. Heath

CLANTON MATTERS

LOCAL AND PERSONAL ITEMS

A nice line of jewelry brackets, bar pins, ladies watches, silver knives and forks, Seth Thomas clocks—the kind that runs. No fine pictures and clerk to pay for just the same goods and much less prices. If you need the time get you a Rockford; come and see them, they are guaranteed. L. D. POPWELL.
2t

Mrs. F. W. Hall from Evansville, Ind., is visiting her daughter, Mrs. Arthur Johnson.

Miss Snyder of Birmingham is the charming guest of Mrs. Tipton Mullins this week.

Mesdames John Webb and Laura Buck of Jemison were visitors to Clanton Tuesday.

Mr. P. D. Wilson spent a few days in Birmingham last week.

Miss Estelle Morgan has returned from a visit of several days to relatives in Montgomery

Mr. Robt. Garry of Birmingham who has had a millinery store at the VanDerveer old stand came down Friday and removed the stock to Birmingham He claimed that business was too poor in Clanton to justify his running a store here.

Miss Minnie Marcus of Jemison was a visitor to Clanton Monday and Tuesday.

Miss Eva Scott of Jemison was in town Monday.

Have you visited Higgins' Nice Jewelry Store in looking for that nicest Christmas present you are to give Christmas?

Miss Myrtle Durbin of Jemison was a visitor here Monday.

Miss Minnie Muse has a beautiful line of Holiday Ribbons, drawn work, Dresser Scarfs, Auto Veils, etc., call and see her.

The Fraternal Union of America has organized a lodge here, and meets every first and third Monday night. They have already a good many members and are increasing all the time, so don't fail to join them.

Miss Minnie Muse is closing out her entire stock of millinery at and below cost, call now and be convinced, you will not regret it.

Eugraving free if you buy your nice presents from J. V. Higgins the Jeweler.

At the Baptist church Sunday morning the pastor will preach on "The Prince of Peace."

Mrs. S. J. Watts and Mrs. B. J. Mills went to Montgomery Friday on a shopping tour.

Mrs. Rylant, who had charge of the millinery in the John Vanderveer old stand, has returned to her home at Shelby, preparatory to going to market.

Miss Rose Snider of Birmingham, is spending a few days with Mrs. Tipton Mullins, and many social courtesies have been extended her.

Mrs. N. S. Johnson made a flying trip to Montgomery on Monday.

Mrs. L. H. Reynolds and Willie went to Montgomery Monday on a shopping tour.

Mrs. Roland Taylor, who has been quite ill for a week is slowly improving.

Mr. and Mrs W. P. Crump, of Birmingham visited relatives in town this week.

Mr. N. R. Baker, the State Rural School Supervisor, was in this county last week inspecting schools. He expressed himself gratified with the conditions of the schools.

Hon. S. M. Adams has gone to Florida on a business trip.

Mrs. Tipton Mullins entertained on Thursday night in honor of Miss Snider; the progressive game of 42 was enjoyed, after which delicious refreshments were served. Those present were Misses Willie and Winnie Reynolds, L. E. Morgan, Myrtle Mullins and Floss McGraath, Messrs. Barnie Roberts, Joe Vanderveer, Jr., Tom Falley, Errick Hart and Bill Mullins.

The Society for the prevention of useless Christmas presents would have no protest against the man who makes his family happy by buying some of the many very useful articles to be found in the Gamble Hardware Co's Stores. Everything there is useful and sensible.

You can make a little Christmas money by buying your goods at L. H. Reynold's. In the sale now on the low prices will enable you to buy many things you thought you would have to do without. Go and see and be convinced.

A fine line of Watches, Diamonds, Jewelry. Silverware, Cut Glass, China Ware etc., at Higgins' Jewelry Store, Clanton, Ala.

CIRCUIT COURT.

The court last Thursday held on until late at night and adjourned at one o'clock Friday morning.

Gene Martin, colored charged with murder was convicted of manslaughter and sentenced to three years in the penitentiary.

James Williams, colored, was convicted of murder in the second degree and given forty years.

Bill Oden, colored, was convicted of murder in the second degree and given ten years.

NEIGHBORHOOD NEWS

AND LETTERS FROM THE PEOPLE

THORSBY ITEMS.

Prof. George W. Macon, of Harvard College, preached one of the greatest and most stiring sermons Sunday morning at the Baptist Church that has ever been listened to in Thorsby. He gave a lecture at the institute on Saturday night that was admired by all who heard it. Sunday afternoon he talked to the young men. Professor Herbert expects to have her again ere long. All christian people will welcome his return,

The Baptist Ladies' Aid will meet with Mrs. Ben Franklin on Thursday p. m.

W. B. Tomlin went to Birmingham Thursday.

The contest which was mentioned last week is to be Friday, the 20th. The suuject which is to be debated by the two divisions is very interesting: "Resolved that capital punishment be abolished." Besides the debate there will be essays and recitations. The hour is 7:30 at Bates Hall.

The Institute will open again on 31st December, after ten days vacation.

J. L. Foss and son is enjoying a splendid holiday business and are selling many goods every day. They have choice things to offer their customers, especially on the ten cent counters. Everything that one wanrs, and at Kress prices. They are receiving new goods every day. They offer a beautiful doll as a prize, a ticket is given with every ten cent purchase and the one holding the lucky number is to receive the doll Christmas eve.

Mrs. S. H. Herbert is able to walk about the house after her long illness.

The Twins.

PLEASANT GROVE

It has been quite a while since I saw a piece from this part of the county, but the people are not asleep. What has become of aunt Dinah? Why don't she write again?

Health of this community is very well, only a few cases of sickness.

Rev. P. G. Maness and wife are on the sick list, we certainly hope them a speedy recovery.

We have a fine Sunday school at this place now. Come older men and women and make it an Evergreen Sunday school. The literary school is making fine progress, the teachers we think are sure doing their best this year. Mr. J. J. Hicks and wife are the teachers and they have a full school.

The school has organized a Debating Society, that meets every Friday afternoon at the school house. Mr. J. J. Hicks is president; Miss Willie Walker is secretary of the Society. And we all enjoyed a fine program last Friday afternoon. The program committee never fails to have a good program, and every one on the program came up with their part. We had a debate last Friday, our subject was Resolved, that Woman's Suffrage should be tolerated. Affirmative speakers were Mr. I. M. Hicks, Miss Gladys Shoults and Miss Willie Walker. The negative speakers were Mr. Grover Merchant, Mr. Chancey Bearden and Miss Lillie Lawrence. There were some fine speeches made for both sides, but the judges decided in favor of the negative side having the most points. But Miss Willie Walker, one of the affirmative speakers having the best speech. There were some fine recitations and declamations by the little people. We hope the society will still improve; we are most sure it will.

Miss Lillie Lawrence visited Miss Pearl Ingram Sunday, she reported a most delightful time.

We are so proud to see grandma Hall visiting, she is spending the week with her daughter, Mrs. Sallie Ellis, and her granddaughter, Mrs. Rosa Williams.

Mr. Sam McGee is making calls down the road very regular listen for the wedding bells to ring.

A Society Member.

Hurry up now and and get those presents you want at Alred's Drug Store. Everything to delight the children of all ages. The display in the store is worth going to look at.

COOPER

The health of this community is not so good at present, there seems to be a lot of sickness, mostly lagrippe with some pneumonia. The farmers are all through gathering and cotton has all been ginned and the most of it put on the market. Fall oats seem to be doing fine. Everybody in this community regardless of politics seem to be against a bond issue. Say Mr. Editor, it seems that there is a lot of pie hungry democrats judging by the number of applicants there is for the Post offices in this county. I hear it talked that some of the democrats are in favor of keeping the present Postmaster at Clanton, as he has been one of the best workers they (the democrats) have had ever since he has been P. M. but there are a lot of hungry democrats wanting the job, so I don't look to see them so much united for Mr. Dudley, as they (the Dem's) have been in the past. But they will surely reward him for his obedient service to them. Everybody seems to be watching the political movements of the great Progressive Party, as it is the only party that can or will fill the long felt wants of the common people. So the people are looking ahead with great enthusiasm for the success of the Progressives two and four years hence. With the Republican Party practically dead and the people never expecting anything of benefit from the democrats. It seems that the only hope of the people for the future is the Progressive Party. So Boys let's us all pay our Poll Tax and be in shape to vote the Progressive ticket. A Subscriber.

BAKER SCHOOL HOUSE

On Saturday night, Dec. 21st, the members of the Websterian Literary Society will have a "Mock Trial" at this place. The state charges E. E. Smith with highway robbery. Messrs J. D. Weldon and J. V. Best appears for the defendant, and E. V. Marcus and Hon. W. C. Weldon represents the state.

Earl V. Marcus, Sec.

READING GIRCLE.

The Alabama Teachers' Reading Circle, Chilton county, has been divided into local circles, with secretaries for each as follows: Clanton. J. J. Pickens, Verbena, R. A. Smith; Mineral Springs, J. L. Harris; Stanton, Samuel J. Rayfield; Fairview, Rufus L. Popwell; Jemison, Cecil E. Harris. All teachers are urged to get in touch with their local circle at once and unite their efforts in making this the most successful year in the reading circle's history.

The County Circle will meet again on the first Saturday in February, 1913, in Clanton.

Cecil E. Harris,
County Secretary.

Jemison, Dec. 14.

WHY THE WHITE COUNTIES PROSPER

Mr. Ed. Pinckard, a well known banker and business man of Clanton, was in Montgomery Monday. Chilton County he says, is keeping up the remarkable pace of commercial prosperity which it set ten years ago.

"These white counties are the counties which are going forward commercially and industrially," said Mr. Pinckard. "In these counties the farming is exclusively in the hands of the white men. They not only know how to farm, but they do it with their own hands. It would do some of the Black Belt farmers good to see a few of the farms in Chilton County, where they used to think the land was so poor you could not raise a disturbance on it. I undertake to say that acre for acre of the cultivated land in Chilton will double the crops of the Black Belt, where the land is naturally richer. The difference is that white men cultivate the acres in one section and negroes cultivate the land in another."—Montgomery Advertiser

COUGHING AT NIGHT

One bad cough can keep the whole family awake at night. Phil. Disorneau, Schaffer, Mich., says: "I could not sleep on account of a bad cough, and I was very weak. I used Foley's Honey and Tar Compound, and soon the cough left and I slept soundly all night." Upchurch Drug Co.

"WHERE ARE WE AT?".

The democratic party professes to stand for the "rule of the people."

I have read of Napoleon that "being a Catholic he imprisoned the Pope."

Mere profession is oftimes but the cloak of hypocrisy.

Surely there are some good men in the democratic party. It is generally admitted that notwithstanding profession there are some good men in the church.

It is the party that enlists our attention,

In the Nineties the democratic party of Alabama destroyed the rule of the people of Alabama.

It established by fraud the rule of the minority, which is yet in vogue.

In 1901 the democratic party of Alabama saddled the people, by fraud, with a Constitution overwhelmingly rejected by the people, which is the "law of the land" today.

Under that Constitution, by its many clauses of disfranchisement, not half the white people have since appeared at the polls.

I am simply leading up to a late declaration coming right out of the governor's office.

It has been printed in a leading democratic paper without editorial dissent.

I therefore take it as an advance step of the democratic party to eliminote the people from participation in the state government.

The private secretary of the governor, fresh from a great democratic campaign, gives it as his opinion that state officers should not be elected by the people, but appointed by the governor, as the president appoints his cabinet!

I think it is the democratic ider. inasmuch as no protest or dissent appears in the democratic press.

If so, it is probable that this will be a feature of our next Constitution.

Now should not the "good men" in the democratic party take up the matter promptly and seriously?

It came out of the governor's office. If the governor disapproves of it he has not said so.

It seems to me like a case of calliny out the militia.

It may be democratic, but it smacks of treason to the people.

J. C. Fonville.

OBITUARY.

Died at the home of his mother west of Jemison Guy Rotenberry. His death was caused by an abscess on the brain. He was young, only about 16 years old. His body was laid away in Pleasant Grove cemetery, Rev. Mr. Champion conducting the burial service.

Although his sparkling eyes are closed in death, Death has conquered him the cruel grave holds his remains, we can't hear his voice again, holy writ says the dead know not anything. He is now sleeping,—a dreamless sleep But in due time—the proper time, he will wake up and come back again. His loved ones will know him; happy thought. He is not in eternal bliss now neither is he lost, but he is dead, or asleep, waiting for the call to come forth from the grave. Then he will enter the Judgment, to be tried, and if in that trial his heart is found in harmony with the heavenly kingdom he can live forever. Evil will then be restrained. the glorified church will then be in power, judging the world, the highway of holiness opened up. Then how easy for all the willing ones to make progress toward eternal life. In that bright judgment day sin will not be tolerated. So don't grieve for the dear ones that are gone. They have escaped the unparalleled coming trouble. Before them are blessings untold if their hearts will submit to righteousness. We know this is surely good news to the bereaved. Its firm foundation is the fact that the Redeemer gave himself a ransom for all. Your darling boy will come back, he will still be Guy Rotenberry. By and by there will be no more death, death will cease. Don't think God will not pity earth's sorrowing ones, in due time he will bring all of the dead from their graves and the glory to follow will eclipse all troubles. Among the restored millions will be found Guy Rotenberry. One of his friends.

CROUPY COUGHS AND WHEEZY COLDS

The quickest simplest way to rid the children of dangerous croupy coughs and wheezy stuffy colds is to give them Foley's Honey and Tar Compound. It gives almost instant relief and stops a cough promptly. It soothes and heals. Contains no opiates. Upchurch Drug Co.

Man the Only Reasoning Animal.

Men act according to knowledge and reasoning ability. Other animals act by instinct born with them, and upon which they never improve. Birds build the same kind of nests right along. Men are always using their ability to improve their houses. Instinct is the name for the inferior kind of knowledge the lower orders of creation naturally possess. In some cases, as with dogs, horses, etc., this can be increased by careful training or even by imitation.

ARE YOU BILIOUS?

If you are sallow, have headache, dizziness, loss of appetite, and feel dadly generally, you should use a good aperient and liver regulator. St. Joseph Liver Regulator has for many years relieved these ailments. It is carefully prepared and is believed by the many people who use it to be the best medicine of its kind on the market. It is made in both liquid and powdered form. Druggists and general dealers sell liquid 50 cents bottle; powder in tin boxes, 2 doses 25 cents, five boxes for $1.00.

Wise Says:

The man who generally marries the girl who can't provide the raw materials.—Courier-Journal.

To Head-Off a Headache

Nothing to Better Than

Dr. Miles' Anti-Pain Pills

They Give Relief Without Bad After-Effects

"It gives me great pleasure to offer a word of recommendation for Dr. Miles' Anti-Pain Pills, as there are thousands suffering unnecessarily from headache. I was afflicted intermittently for years with headache and after other remedies failed, I tried Dr. Miles' Anti-Pain Pills. For the past ten years I have carried them constantly with me, getting instant relief by using one or two on the approach of headache. They are also effective for neuralgia, giving immediate relief." C. M. BROWN, Rutherville, Ia.

Bad Spells

"I suffered, during girlhood, from womanly weakness," writes Mrs. Mollie Navy, of Walnut, N. C. "At last, I was almost bed-ridden, and had to give up. We had three doctors. All the time, I was getting worse. I had bad spells, that lasted from 7 to 28 days. In one week, after I gave Cardui a trial, I could eat, sleep, and joke, as well as anybody. In 8 weeks, I was well. I had been an invalid for 5 weary years! Cardui relieved me, when everything else failed."

TAKE CARDUI The Woman's Tonic

If you are weak and ailing, think what it would mean, to you, to recover as quickly as Mrs. Navy did. For more than 50 years, this purely vegetable, tonic remedy, for women, has been used by thousands of weak and ailing sufferers. They found it of real value in relieving their aches and pains. Why suffer longer? A remedy that has relieved and helped so many, is ready, at the nearest drug store, for use, at once, by you. Try it, today.

HUMAN HAIR ROOT
Showing Dandruff Germs At Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow

Restores Gray Hair to Natural Color

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR ARE A SURE SIGN OF DESTRUCTIVE GERMS.

Wyeth's Sage and Sulphur Hair Remedy not only kills the dandruff germs and prevents baldness, but it also restores faded and gray hair to natural color.

Don't Experiment With Old Fashioned Hair Dyes but save your hair and restore it to natural color and luxuriance by using Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell Sage and Sulphur under guarantee that the money will be refunded if it fails to do exactly as represented.

PRICE 50c AND $1.00 AT ALL DRUGGISTS

All genuine dependable does not begin to mean just the attempt and we will send you a large bottle, postpaid, prepaid.

WYETH CHEMICAL COMPANY, 74 CORTLANDT STREET, NEW YORK

FREE A 50c Cake of Wyeth's Sage and Sulphur Toilet Soap Free to anyone who will send us this advertisement with 10c in stamps to cover cost of wrapping and mailing the soap.

English "Hunting Parson."

The Rev. Lawrence Capel Cure, rector of Abbess Roding, whose death is announced, was known throughout West Essex as the "hunting parson." He invariably wore the old-fashioned smock and tall hat and was a familiar figure at the meets of the Essex hounds, which he attended regularly though in his seventy-eighth year.—London Evening Standard.

Royal Wit Made.

"Professor," said Miss Skylight, "I want you to suggest a theme to write for me. I have thought of journalism—" "What use your own inclinations?" "Oh, my dear young man! throbs and palpitates with an ambition to give the world a life-work that shall be marvelous in its scope, and weirdly entrancing in the vastness of its structural beauty!" "Woman you're born to be a milliner."

VOL. 1 THE UNION 10th Year CLANTON, ALABAMA, THURSDAY DECEMBER 26, 1912 THE BANNER 20th Year

IS IT A CINCH?

Commissioner Kolb is reparted as saying that he can beat Walter D. Seed for governor and that Comer will not run. We suppose from that saying that the contract to run has already been let to Kolb and Seed, and that if any one else desires to run they will have to take the sub-contract of lieutenant governor. One newspaper writing on the subject seems to have a vague notion that the people will have something to say about the matter and that occurrences in the past century will not be counted in the 1914 campaign.—Rockford Chronicle.

One of the poorest investments of public money is a school house that stands idle half of the year asserts the Southern Agriculturist. Lengthen the school term—use the building as a social neighborhood center—open it as a reading room for the children during the long winter evenings—do anything rather than let it fall down from disuse. An unused building, like an unused muscle, is the quickest to decay.—Ex

---

FOURTH CLASS POSTMASTERS

Congressman Blackmon of Anniston has started a petition to be presented to the next President of the United States in March, asking him to revoke the order of President Taft placing nearly 36,000 fourth class postmasters on the classified list. The petition will be signed by all, or nearly all, democratic members of both branches of Congress, and the question involved will thus be brought directly to the attention of the new President.

The republican party has been in power nearly 16 years, and the attempt to reserve to republicans 36,000 offices in the face of a democratic victory, is in itself a stupendous piece of office grabbing wholly foreign to the spirit of civil service reform. Governor Wilson is no doubt a civil service reformer, but this need not make him a supporter of a political trick to keep in office for life 36,000 republicans.

In the south the order of President Taft is particularly distressing the minor postoffices in this section had been filled without reference to the wishes of the people, and yet Mr. Taft proposed to keep those southern appointees for life. Public sentiment in the south will strongly resent this, and surely the coming President will give the subject a hearing that will embrace all the circumstances of the case from a southern point of view.—Age-Herald

---

PRIMARIES FOR POSTMASTER.

Our neighboring town, LaFayette, set the pace by holding the first primary election for postmaster last week. This is Congressman Heflin's home town and five of his close friends were applicants for the postmastership. Mr. Heflin suggested a primary to decide the question. Mr. J. Fraser was nominated and will therefore receive Mr. Heflin's endorsement.—Dadeville Spo-Cash.

This would be a good plan for universal adoption, provided it were made non-political and all citizens are allowed to vote for the man who had the best business qualifications for the office.

HOW IS THE FARMER WITHOUT MONEY TO GET A START?

"Yes," we can imagine some reader saying, "it is true enough—what you say about the disadvantages of working with one horse and inefficient equipment, and about the little profit to be made from tending poor land. I believe all this, too. But, how am I, with a small, poor farm, or perhaps no farm at all, with only one mule, with poor equipment, with a family to support, with no surplus capital, to get ahead; what can I do to make the money I must have to get the things I need?"

This is a perfectly proper question to ask—even if it is not the sort of question anyone can answer with much precision.

There are a great many questions to which no confident answer can be given, and often they are questions like this one, of vital importance. Because we cannot from our own knowledge tell the inquirer just what to do, we are not excused, however, from trying to help him find out for himself what he ought to do.

In the first place, we feel safe in saying that any able-bodied man, who does not meet with some serious mischance, can by steady work and careful management get out of the one-horse class, and get a farm of his own. We do not say it will be easy for him to do this, for often it will not; but, barring unusually serious accidents, it can be done. This is the first thing necessary for the man to have ambition and confidence in himself.

The next thing necessary, is for him to be willing to work. Good old-fashioned hard licks still count and always will. Yet we have all known men who worked hard and seemed to try hard to get ahead and still remained poor. Good management is necessary as well as hard work The man who works his muscles to exhaustion and lets his mind idle is not likely to accomplish much.

A whole lot of farmers, too, to speak frankly, make this very mistake. They don't do enough down-right earnest thinking about their work; they imagine that the physical labor of farming is the only kind of which they are capable. We do not believe this. Thought counts as well as action, and the man who, when he has a hard problem before him, does not put his mind to work on it, just like he puts his body to work when he has a log or a stump to get out of the way of his plow, is only half working. The mind grows by exercise just as the muscles do, and the man who is not willing to think "until his head hurts," to find out what is best for him to do is likely to have an undeveloped and flabby brain.

It is not necessary for the farmer to imagine, however, that he must work out all of his problems for himself. If he waits to do that, most of them will never be solved. The poor man who wishes to get ahead should be a reading man. He should read about his work—in farm papers, in experiment station and national department bulletins, in books on agriculture as he gets able to buy them. Such reading, if done with judgment, has a direct cash value. It will bring in the dollars.

For example, every man who has read The Progressive Farmer for a year knows that it is not a safe plan to depend on one crop alone; that it does not pay to plant crops in a poorly prepared seed-bed; that he can get nitrogen for his corn and cotton by the growing of clover and cowpeas, much cheaper than he can by buying it in a fertilizer.

The man with little capital has these facts at his command. He wants to apply them. A man not have to have two horses, or improved implements to enable him to rotate his crops. They make it easier for him, of course, just as it is easier for him to make a good seed-bed and his crops properly with two-horse implements. Yet he can take his one-horse tools and do good work. The man with one horse and one pig needs as much to study how to feed these animals, and needs to care for them just as faithfully, as does the man with a barn full of stock. The horse and pig may mean more to the first man than whole herds and flocks to the other.

So again, it is just as important for the man with a ten-acre crop to buy his fertilizer to advantage as it is for the man with hundreds of acres. And, if he will study the subject, he can find right here a help to getting ahead, just as he will have here a hindrance to his progress if he is guided only by guesswork or force of habit.

So, once more, the man with only a few acres of land can care for that land, and feed and fatten it, and make it profitable to cultivate, just as readily as can the man with thousands of acres, and he needs to do it just as much.

In short, the way for the poor farmer to become a well-to-do farmer is for him to be a good farmer. He will not, of course, be able to do everything just as he wishes, or to follow the very best methods always. Few people are. He can certainly pay attention to the essentials of good farming, and do what he does well and for a purpose.

Right here let us say that, in our opinion, the ambitious man with small capital should buy a home if he possibly can. If he cannot do this, he can rent a place for a term of years. The man who has to move every year or two has a poor chance to get ahead, and, as one of our correspondents says this week, it is cheaper to pay interest than rent. This one definite piece of advice we can give along with the rather general statements already made: The thing for the poor man to do is to buy a home of his own. If it is only ten acres, it will give something to work on and to put his savings into, as well as standing and credit in the community.

This suggests another thought. Our poor and ambitious farmer should avoid debt as he would the "Old Harry," if that debt be for luxuries or for living expenses. One of the great curses of the South has been the dependence of so many farmers upon a crop yet unmade for their daily subsistance. The man who would get ahead must not get in the habit of eating and wearing out things he has not yet paid for, and certainly must not mortgage his future for mere pleasures or dissipation.

This warning against debt does not apply, however, to debts of investments. Indeed, we believe in debts of this kind. If a man can buy a piece of land on credit, make enough off of it to pay the interest and something on the land, and can thus furnish himself a home which may be increasing in value all the time, he should certainly do it. Such a debt is a sign of thrift and enterprise, and the opportunity to make such a purchase is open to any man of good reputation in almost any community in the South.

So, if a horse is needed, or an implement, or anything which will enable him to make enough more money than he could without it to be able to pay for it in a reasonable time, he should buy that thing, and not be afraid of the debt. A debt of this kind is an investment; one of the kind first mentioned is a burden which must be carried and from which no return can be expected.

Finally, let us say that there is, we believe, a chance for any man, however poor, if he has ambition, energy, and a good character, to start in farming, make a decent living and become financially independent. He cannot do this, however, unless he gives attention to saving, as well as to earning, and unless he puts brain as well as muscle into his work, and adopts the methods and practices of good farming.—Progressive Farmer.

Always Fights and Changes.

It is a mistake that our times are harder and more hurried than those of our grandfathers. Every age is to itself an age of battle and change.

ALABAMA'S TAX LAWS.

It is not necessary for the people of Alabama to be told that the Advertiser has opposed the State back tax law; it opposed the law when it was first passed during the administration of Governor Johnston, and it has opposed it steadily since. The Advertiser then regarded it a blow at local self-government and an instrument by which a State administration could reach into a county and collect taxes which the local officials would be unwilling to assess except by compulsion. The law has been widened by each succeeding legislature, and its purpose and results now are quite plain.

The Supreme Court, in a Jefferson county case, has decided that the State Tax Commission has the right to revise the action of a county board of revenue, or court of county commissioners, either in lowering or raising taxes. This decision, made under the law and no criticism of the court is intended, is bound to accentuate the general dissatisfaction throughout Alabama with the present taxing methods. It is safe to predict that, now that the law in reference to state back tax law is clearly before the people, it will be materially modified by the next legislature.

Alabama, through its legislature, says in effect, the people of the state are capable of local self-government in every matter except in the assessment and collection of taxes; they can be trusted for the selection of their own officers, for the making of their own town and city laws, and for regulating matters of government within their own counties, but on taxation they are incapable. Taxation must be in the hands of a centralized body situated at the State capitol which can and will exercise its power in any and every county whenever it sees fit. Such is the law as it exists today.

When the power to assess taxes by local officials and local laws is taken away, it is time for the people of Alabama to seriously consider the effects of this heavy blow at local self-government. The Advertiser believes that instead of striking down local self-government and instead of lodging all taxation powers with a taxation board at the capitol, the hands of the local officials should be strengthened. They should be given new power and they should be held more strictly accountable for an equitable assessment on all property in their counties. The property owner should be subjected to stronger restrictions in giving in his taxes and penalties should be inflicted for false swearing. In short where taxes are inadequately assessed the evil should be corrected at its source; it cannot be corrected by another evil—the evil involved in building up a centralized power for the state, at the expense of local authority and local power. The next legislature will revise the state taxing laws—that can be depended upon, if the people of Alabama retain their sound common sense. —Montgomery Advertiser.

The evil complained of was brought about by the power-seeking ring which rules the democratic party in the state, and never will be remedied as long as that party remains in power.

IRON ORE IN CHILTON

Mountain Creek, Ala, Dec. 20. —The iron ore industry has been increased in this neighborhood during the last few days very much. The Rev. S. H. Long has an interest in some mines near this place, which he is at this time developing and intends to increase the working force in the near future. The ore from these mines is shipped from this point and Verbena. Mr. Long owns some ore bearing lands which he has reason to believe are very productive.—Ledger.

Pay your poll tax.

A CABINET OF ALL SORTS

Washington, Dec. 18.—The Washington Post this morning says: "Democratic leaders from all over the country are endeavoring to persuade President-elect Wilson to make his cabinet representative of all the different elements of the party.

"It can be stated on high authority that not only is William J. Bryan practically certain to be a member of the next cabinet, but that Mr. Bryan himself is doing his best to bring about the appointment of his one-time political foe, Representative Oscar W. Underwood of Alabama to a cabinet portfolio.

"The purpose of Mr. Wilson and the party leaders who are closest to him is not only to perfect an organization that will safely weather the storm of tariff revision during the next eight months, but which will be a solid, smoothly working political machine that can get more than half of the popular vote in the next presidential election.

"The democratic leaders in Congress are not trying to fool themselves about the election last November. Only Monday night, in a speech at the Raleigh hotel, Representative J. Mitchell Palmer, democratic national committeeman for Pennsylvania and one of the Wilson pre-convention managers, said that the democrats should not forget that Mr. Wilson will be a minority president.

"'We will probably have to fight only one party four years from now,' said Mr. Palmer, 'and we will find it harder to win. We did not win the presidency last November. The Republicans threw it away and we picked it up.'

"Representative Underwood on the same occasion said: "The fate of the democratic party will be decided during the next six months."

COUNTY CONVICTS AND THE ROADS

Jefferson county's greatest need is good roads. Pogress has been made in road building hereabouts during the past two years, but we must have more hard roads and better roads, and the new board of revenue gives promise of substantial accomplishment in this direction.

Members of the board and the engineer of Jefferson county who visited Atlanta this week for the purpose of inspecting the roads of Fulton county and investigating the system by which the county convicts build and keep in repair the splendid highways of that section return full of enthusiasm. They found the Fulton county roads, guttered and curbed and covered with asphalt binder, in practically faultless condition.

That county has been working convicts about 25 years. The system has been perfected and the results have been more than satisfactory. The Fulton county roads are the pride of the people and have made the highway approaches to Atlanta famous.

The first cost of establishing convict camps in Fulton county was large but the results have fully justified that cost. The visit of the members of the Jefferson county board should and doubtless will bear fruit. Our county convicts should have been put to work on the roads instead of hired to mine operators long ago. Let us loose no time now in following Fulton county's example. There is no reason whatever why Jefferson county should not have as fine a road system as the county in which Atlanta is situated. The board of revenue will receive every encouragement in striking out [illegible]

THE LAND OF OPPORTU

That Alabama and the [illegible] are being looked upon as a land of opportunity by all tions there can be no doub the mind of any close obser Never before in her history the resources and prospect the South been considered such widespread interest.

The opening of the Pana Canal will turn the great bull traffic of the East, North middle West southward. ready men of capital s great opportunities for [illegible] ments here and are taking a vantage of them. Homeseeke are now coming from every se tion of the country into son portion of the South. Thousand of acres of land in Alabama wi be put into cultivation, new home built and fertile farms opened the next two years. This count is coming into that prominen that nature has so well adapt her to occupy. She is destin to become one of the most de sely populated and richest se tions of our country, because her agricultural and mineral re sources and advantages of wate powers for building up vast man ufactures of different kind.— Dixie Manufacturer.

EGGS SENT BY MAIL GO THROUGH WITHOUT THE SLIGHTEST INJURY

Washington, Dec. 14—Demonstrating the possibilities of the parcels post, a carton of eggs, shipped by mail from Oklahoma City, a distance of 1,500 miles, was received uninjured today by Postmaster General Hitchcock. Shipments of eggs by mail cannot be made by the public until January, when the parcels post becomes operative. The postal authorities were pleased with the successful experiment. The eggs wrapped in cotton and paper and placed one in each of the divisions found in the ordinary egg carton, were merely marked "Merchandise" and received the usual treatment accorded ordinary mail matter. Eggs, however, according to the rules promulgated for the conduct of the new service, must be marked "Eggs" and naturally will be carefully handled. After New Year's daily delivery of eggs to the city residents from the country will be the rule rather than the exception.

BILLIONS FOR PENSIONS.

Since June 30, 1902, when there were 999,446 pensioners, the largest number ever on the Government rolls, there has been a steady decline. At the end of the last fisical year, according to Secretary Fisher's annual report, there were 860,294, the smallest number in twenty-one years.

But while the pension figures have reached the lowest mark in two decades, the amount expended for pensions this year, owing to the General-Service bill passed last spring, will be the largest in the history of this country. Last year the Government paid out about $155,000,000; for this year the appropriation is $164,500,000, and Secretary Fisher asks $20,500,000 more for 1914.

It is more than forty-seven years since the close of the civil war. Probably no soldier or sailor who served ninety days is now less than sixty-two or is barred by reason of age from receiving the minimum pension of $13 a month. In those forty-seven years the Government has disbursed for pensions $4,284,422,719.65, and of the 860,294 pensioners on the rolls last June, nearly 40 per cent were widows and dependents, the best possible answer to politicians who for campaign [illegible]

odbye to 1912, and many
ks for blessings it brought.

esolutions don't amount to
h as a general thing, but if
ll resolve to make an effort
w abiding in every par-
ular this year Chilton will be
e of the most desirable coun-
s to live in the state possesses,
she is already one of the
lthiest and most prosperous.

In making your plans for the
ps this year don't neglect that
st important of all crops, the
ldren we raise. Take an
rest in all school matters and
he home and social life of the
ldren. The greatest draw-
ck to country living comes
m the neglect of these matters.
there is unruliness and dissat-
action among the young the
ult lies at home and can be
rrected there.

The lack of social enjoyment
d relaxation tends to narrow
nd harden the country life till
many cases it becomes un-
earable to the young and spirit-
d and they are drawn to the
ities and their best energies lost
o the real good of the world.
This need not be if the older
people took more interest in the
leasures of social enjoyment
nd were companions of their
children in their pleasures. Let
each neighborhood arrange for
social gatherings in which all
ages can take part and it will
have a wonderful influence over
the characters of the children.
There is no better way to dis-
countenance rowdyism and gen-
eral looseness among the young.

To this end why not make
more use of the school houses,
yes, and even churches, as places
for social entertainment. We
believe God will be better served
in a building used to make people
happy and contented in this
world than if it be used only oc-
casionally to keep them in fear
the next.

And, by the way, good roads
will do a lot towards bringing
about a more social spirit in the
country. Make it so that any
me in the year a drive of a few
miles to the gathering place is a
leasure and the gatherings will
e more frequent. Think that
er, and let's settle on some
n by which every neighbor-
d in the county can have its
d roads, and then let's use
em.

of the democrats, hampered as they are by rings and "interests," to carry out the desired reforms will but consolidate and fill up the ranks of the progressive party which will work solely in the interests of the people as a whole.

PAY YOUR POLL TAX.

Remember this must be paid by February 1st or you are cut off from voting next year.

It is a shame that any man should lose the privilege of suffrage by neglecting to comply with this law. Be a man, ready to take your place among men. Don't put it off—you have only a month.

WAR WITH MEXICO A POSSIBILITY.

Washington, Dec. 10.—Having informed Mexico in language that cannot be misconstrued that the time has come to cease harrassing American citizens south of the Rio Grande, and to stop destroying their property, the United States today took the first step leading to the enforcement of the ultimatum.

Orders were issued to Brig. General Steever, commanding the American forces along the border, to keep a sharp watch for any disturbances in the district, and messages were sent to the commandants of several army posts in the west and southwest apprising them of the ultimatum to Mexico and warning them that their men might be called at any moment to proceed to the border.

The navy department at the request of Secretary Knox also held the first squadron of the Atlantic fleet in readiness to return to Mexican waters, where they recently visited on a "friendly mission." While it is not thought that the presence of war vessels would have much effect in awing the rebels, who are several hundred miles in the jungles inland, it is considered that their appearance at Vera Cruz and other Mexican ports would convince President Madero that the United States means business.

Meanwhile the state department will do everything in its power to close the threatened breach amicably. Ambassador Henry Dane Wilson, who will return to his post in Mexico City next week will carry with him President Taft's reply to Madero's evasive and almost insulting note of a fortnight ago, in which the Mexican government declared that the Americans iniured in Mexico only got what they deserved.

At the close of the reply of the United States will be the declaration that this government had tired of the Mexican "manana" method of dealing with questions of foreign policy and intends to intervene south of the border and forcibly to protect its citizens.

President Taft, it was said today, understands that such a movement would mean war, but he has decided that open hostilities would be preferable to the underhand guerilla warfare now being made against Americans, and of course he will use the army to back up his demand for prompt and complete restitution for injuries.

Consular reports to the state department today showed a continuance of the anti-American spirit in Mexico. John Morres, an American citizen is reported to have been captured by Mexican bandits only 25 miles from Juarez. He is being held for ransom. A large number of Americans at Cananea are in danger of their lives from 1000 Mexican miners who are on strike. While the local authorities claim to be able to suppress the uprising, state department officials noted today that the federal garrison is only about one-

THE CHILTON COUNTY FAIR ASSOCIATION

This Association held their annual meeting last week. A very satisfactory report of last year's work was made. All premiums and expenses were paid and a dividend on the capital stock of 10 per cent. was declared.

The following officers were elected for the ensuing year:

W. H. Conway, President.

M. D. Foshee, Vice President and Business Manager.

G. O. Foshee, Secretary and Treasurer.

Board of Directors — Grady Reynolds, Chairman, E. H. Mims, W. H. Robinson, J. M. Smith, M. J. Calloway.

Committee on Catalogue—M. D. Foshee, G. O. Foshee, S. E. Bruce, Mrs. J. D. Thacker, Grady Reynolds.

It is proposed to get out the catalogues early this year, so that the premiums may be known of in time to prepare for them.

The Association intends to make the fair this year better than any they have ever held.

THE SECRET TERROR

The haunting fear of sickness and helplessness is the secret of the working man. Health is his capital. Kidney diseases sab a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Upchurch Drug Co.

ALABAMA BOY AWARDED HARVARD SCHOLARSHIP.

Cambridge, Mass., Dec. 23.—Among the students announced in the Harvard list of scholarship awards today is Carey S. Johnson, of Dadeville, Ala., in group two. He received the Howard Gardner Nichols scholarship. This scholarship was founded in 1897, in memory of his son, for whom the scholarship is named. It pays $250 a year. Johnson is a graduate of the Marion Institute.

Dr. Wm. Sadler' author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially wheu they "hang on." Foley's Honey nd Tar Compound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs Upchurch Drug Co.

FARM FOR RENT,

Near Mt. Creek, 80 acres land, 22 acres open. Good 4-room house, plenty of out houses. Will rent or lease at a bargain. Address J. J. Archer, Deatsville, Ala., R. 2, Box 93.

Why cough? Stop it!

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a medicine for coughs and colds, a regular doctor's medicine. Sold for seventy years. Use it! Ask your doctor if this is not good advice.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

THE GREATEST SALE

EVER PULLED OFF IN THIS MARKET

will take place at my Store, commencing Thursday, Dec. 12, and ending Feb. 1, '13.

I have just purchased the large stock of Goods formerly owned by Mr. Vanderveer, of Montgomery, at less than one half wholesale cost, and they consist of winter goods and must be sold before the season is over, regardless of price.

I have space to mention but a small part of the goods, but the stock consists of General Merchandise, such as Shoes, Clothing, Hats, Gentlemen's and Ladies, Underwear, Calico, Outing, Dress Goods of all kinds. There is in this stock $2,000 worth of Endicott Johnson and Roberts, Johnson & Rand Shoes which were bought last September and are of the latest styles.

In fact, the goods are brand new, nothing old or shoddy. I would mention more prices, but all I ask is a look, and if you are in the market we will sell you.

I will mention just a few prices which will rule as long as the articles last: Sugar, 20 lbs. for $1; Shorts, $1.60 per 100; Pure Middlings in white sacks, $1.85 per 100; Flour, $5.60 per bbl, the same grade I have been selling.

Remember, I still have Genuine TEXAS RED RUST PROOF OATS, right from Howe, Texas. Were not shipped through a jobber, but I bought them direct.

I have a large stock of Stoves, and Harness of all kind, brand new, which will go for less than half wholesale prices.

Wagons, Buggies, Stalk Cutters, Mowers and Reapers.

With every Dollars worth of Goods Sold for Cash I will give a Ticket and on the first day of February, 1913, at 12 o'clock, the lucky number will get a handsome new Domestic Sewing Machine. The second lucky number I will give $10.00 in Merchandise.

The First Ten Ladies that trade Five Dollars worth after ten o'clock Thursday morning, the 12th I will give them ten yards of Calico.

L. H. REYNOLDS

The Home of the Square Deal.

CLANTON - - - ALABAMA

OLDEST VETERAN AT SOLDIER'S HOME DIES.

Mountain Creek, Dec. 24.—Charles Diggers, aged 103 years, died at the Soldier's Home today and was buried in the cemetery attached to the Home farm. He was a veteran of the civil war and the Seminole Indian war. He participated in the defense of New Orleans when Jackson defeated the British in 1815. He was near 50 years old when he entered the Confederate ranks where he served until the close of the war. He was totally blind for 16 years previous to his death and sought refuge at the Soldier's Home when he had turned his 100th year.

TASTE, SMELL AND HEARING RESTORED

A Simple, Harmless Remedy Quickly Relieves Catarrhal Deafness.

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

Unlike internal medicines which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic Balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, smell and improves the hearing. More than this, it strengthens the weakened and diseased tissues, thus protecting you against a return of the trouble. This remedy will cure a cold in a day, and prevent its becoming chronic or resulting in catarrh.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders which only cause additional irritation. Don't waste time on them. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner.

Mothers should give the children Ely's Cream Balm for colds and croup. It is perfectly harmless, and pleasant to take.

THE SAFETY

of the money on deposit with this Bank is guarded by as careful conservative a Board of Directors as you will find anywhere.

That our people appreciate this conservatism, this care for the safety of their money, is evidenced by the continued increase in our deposits and the growth of our general business.

The management given the affairs of this Bank by our Board of Directors speaks well for the future of the Bank and the prosperity of our patrons.

The United States Government deposits with us. Why not you?

Orders were issued to Brig. General Steever, commanding the American forces along the border, to keep a sharp watch for any disturbances in the district, and messages were sent to the commandants of several army posts in the west and southwest apprising them of the ultimatum to Mexico and warning them that their men might be called at any moment to proceed to the border.

The navy department at the request of Secretary Knox also held the first squadron of the Atlantic fleet in readiness to return to Mexican waters, where they recently visited on a "friendly mission." While it is not thought that the presence of war vessels would have much effect in awing the rebels, who are several hundred miles in the jungles inland, it is considered that their appearance at Vera Cruz and other Mexican ports would convince President Madero that the United States means business.

Meanwhile the state department will do everything in its power to close the threatened breach amicably. Ambassador Henry Dane Wilson, who will return to his post in Mexico City next week will carry with him President Taft's reply to Madero's evasive and almost insulting note of a fortnight ago, in which the Mexican government declared that the Americans iniured in Mexico only got what they deserved.

At the close of the reply of the United States will be the declaration that this government had tired of the Mexican "manana" method of dealing with questions of foreign policy and intends to intervene south of the border and forcibly to protect its citizens.

President Taft, it was said today, understands that such a movement would mean war, but he has decided that open hostilities would be preferable to the underhand guerilla warfare now being made against Americans, and of course he will use the army to back up his demand for prompt and complete restitution for injuries.

Consular reports to the state department today showed a continuance of the anti-American spirit in Mexico. John Morres, an American citizen is reported to have been captured by Mexican bandits only 25 miles from Juarez. He is being held for ransom. A large number of Americans at Cananea are in danger of their lives from 1000 Mexican miners who are on strike. While the local authorities claim to be able to suppress the uprising, state department officials noted today that the federal garrison is only about one-fifth the strength of the strikers.

THE CHILTON COUNTY FAIR ASSOCIATION

This Association held their annual meeting last week. A very satisfactory report of last year's work was made. All premiums and expenses were paid and a dividend on the capital stock of 10 per cent. was declared.

The following officers were elected for the ensuing year:

W. H. Conway, President.

M. D. Foshee, Vice President and Business Manager.

G. O. Foshee, Secretary and Treasurer.

Board of Directors — Grady Reynolds, Chairman, E. H. Mims, W. H. Robinson, J. M. Smith, M. J. Calloway.

Committee on Catalogue—M. D. Foshee, G. O. Foshee, S. E. Bruce, Mrs. J. D. Thacker, Grady Reynolds.

It is proposed to get out the catalogues early this year, so that the premiums may be known of in time to prepare for them.

The Association intends to make the fair this year better than any they have ever held.

THE SECRET TERROR

The haunting fear of sickness and helplessness is the secret o' the working man. Health is his capital. Kidney diseases sab a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Upchurch Drug Co.

ALABAMA BOY AWARDED HARVARD SCHOLARSHIP.

Cambridge, Mass., Dec. 23.—Among the students announced in the Harvard list of scholarship awards today is Carey S. Johnson, of Dadeville, Ala., in group two. He received the Howard Gardner Nichols scholarship. This scholarship was founded in 1897, in memory of his son, for whom the scholarship is named. It pays $250 a year. Johnson is a graduate of the Marion Institute.

Dr. Wm. Sadler' author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey nd Tar Compound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on It will avert danger of serious results and cure quickly. No harmful drugs Upchurch Drug Co.

FARM FOR RENT,

Near Mt. Creek, 80 acres land, 22 acres open. Good 4-room house, plenty of out houses. Will rent or lease at a bargain. Address J. J, Archer, Deatsville, Ala., R. 2, Box 93.

Why cough? Stop it!

Stop coughing! Coughing rasps and tears. Stop it! Coughing prepares the throat and lungs for more trouble. Stop it! There is nothing so bad for a cough as coughing. Stop it! Ayer's Cherry Pectoral is a medicine for coughs and colds, a regular doctor's medicine. Sold for seventy years. Use it! Ask your doctor if this is not good advice.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia. We wish you would ask your doctor about correcting your constipation by taking laxative doses of Ayer's Pills.

Made by J. C. Ayer Co., Lowell, Mass.

THE GREATEST SALE

EVER PULLED OFF IN THIS MARKET will take place at my Store, commencing Thursday, Dec. 12, and ending Feb. 1, '13.

I have just purchased the large stock of Goods formerly owned by Mr. Vanderveer, of Montgomery, at less than one half wholesale cost, and they consist of winter goods and must be sold before the season is over, regardless of price.

I have space to mention but a small part of the goods, but the stock consists of General Merchandise, such as Shoes, Clothing, Hats, Gentlemen's and Ladies, Underwear, Calico, Outing, Dress Goods of all kinds. There is in this stock $2,000 worth of Endicott Johnson and Roberts, Johnson & Rand Shoes which were bought last September and are of the latest styles.

In fact, the goods are brand new, nothing old or shoddy. I would mention more prices, but all I ask is a look, and if you are in the market we will sell you.

I will mention just a few prices which will rule as long as the articles last: Sugar, 20 lbs. for $1; Shorts, $1.60 per 100; Pure Middlings in white sacks, $1.85 per 100; Flour, $5.60 per bbl, the same grade I have been selling.

Remember, I still have Genuine TEXAS RED RUST PROOF OATS, right from Howe, Texas. Were not shipped through a jobber, but I bought them direct.

I have a large stock of Stoves, and Harness of all kind, brand new, which will go for less than half wholesale prices.

Wagons, Buggies, Stalk Cutters, Mowers and Reapers.

With every Dollars worth of Goods Sold for Cash I will give a Ticket and on the first day of February, 1913, at 12 o'clock, the lucky number will get a handsome new Domestic Sewing Machine. The second lucky number I will give $10.00 in Merchandise.

The First Ten Ladies that trade Five Dollars worth after ten o'clock Thursday morning, the 12th I will give them ten yards of Calico.

L. H. REYNOLDS

The Home of the Square Deal.

CLANTON - - - ALABAMA

OLDEST VETERAN AT SOLDIER'S HOME DIES.

Mountain Creek, Dec. 24.—Charles Diggers, aged 108 years, died at the Soldier's Home today and was buried in the cemetery attached to the Home farm. He was a veteran of the civil war and the Seminole Indian war. He participated in the defense of New Orleans when Jackson defeated the British in 1815. He was near 50 years old when he entered the Confederate ranks where he served until the close of the war. He was totally blind for 16 years previous to his death and sought refuge at the Soldier's Home when he had turned his 100th year.

TASTE, SMELL AND HEARING RESTORED

A Simple, Harmless Remedy, Quickly Relieves Catarrhal Deafness.

The thousands who suffer the miseries of colds and catarrh and claim they have never found a cure can get instant relief by simply anointing the nostrils with Ely's Cream Balm.

Unlike internal medicines which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic Balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, smell and improves the hearing. More than this, it strengthens the weakened and diseased tissues, thus protecting you against a return of the trouble. This remedy will cure a cold in a day, and prevent its becoming chronic or resulting in catarrh.

Nasal catarrh is an inflammation of the membrane lining the air passages and cannot be reached by mixtures taken into the stomach, nor can it be cured by snuffs and powders which only cause additional irritation. Don't waste time on them. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner.

Mothers should give the children Ely's Cream Balm for colds and croup. It is perfectly harmless, and pleasant to take.

THE SAFETY

of the money on deposit with this Bank is guarded by as careful conservative a Board of Directors as you will find anywhere.

That our people appreciate this conservatism, this care for the safety of their money, is evidenced by the continued increase in our deposits and the growth of our general business.

THORSBY ITEMS.

At the last meeting of the town council James W. Collins was elected marshal of Thorsby. The council also authorized the mayor to have a five inch well put in to supply the town with water.

Mr. Calvin Pugh was the guest of Mayor Bice Sunday.

Friday night the debate between the two divisions of the Helen Keller Literary Society showed very deep thought and study on the part of the students. The recitations and essays as well as the music were fine. The students did credit to the themselves and to the school.

Saturday night the public school children gave an entertainment at Bates Hall which showed much patience and tact on the part of the teachers who drilled them.

The Sundayschool at Pates Chapel had a tree Christmas eve. The school has just elected officers for the ensuing year. W. B Tomlin resigned as superintendent and J. T. Blow was elected in his place. Mayor Bice was elected assistant superintendent. Miss Annie Coleman resigned as secretary and Mrs. Simonton resigned as teacher of the Bible class on account of the long walk during the winter weather.

Rev. E. W. Butler preached at the Congregational church Sunday.

Mr. Northrop was down frnm Birmingham for a few days. The Twins.

FROM BEAT TWO.

Editor Union-Banner—The health of this community is good, nothing special happening, all having a good time for Christmas.

I notice the Press wants to know what the progressive folks are going to tell the "deer peepul" about the dems giving us good prices for our cotton. I would like for him to tell the dear peosle what the democrats have got to do with it, as they are not in power. It seems that some think the people have no sense at all. He pawed and bellowed "nigger" all through the campaign and it did no good; then he tried to make the penple believe that because the penple paid in their taxes this fall that the tale about the county being out of money was false. Did not everybody know that taxes were due to be paid in this fall? but does that make up for last spring and summer? Now I am nnt throwing at our county officers, for I believe they did the best they could, although they may have made mistakes, as we all make them. I don't believe the Press wants the people to understand the facts as they are in Chilnn, but they knew them before they knew him.

Let me ask all tne farmers to jnin the Union and help to carry on the good work which is so beneficial to all concernod, and this reaches everybody and every avocation in the county. We need good farmers and it is high time we begin to think about Patsy and the kids. Farmer.

ARE YOU BILIOUS?

If you are sallow, have headache, dizziness, loss of appetite, and feel dadly generally, you should use a good aperient and liver regulator. St. Joseph's Liver Regulator has for many years relieved these ailments. It is carefully prepared and is believed by the many people who use it to be the best medicine of its kind on the market. It is made in both liquid and powdered form. Druggists and general dealers sell it, liquid 50 cents a bottle; powered, in tin boxes, 25 cents a box, or five boxes for a dollar.

CLANTON MATTERS
LOCAL AND PERSONAL ITEMS

Miss Ellen Stanley is back at home again.

Mr. Guy H. Gerald, of Maplesville, was in town Friday.

Misses Sallie Belle Dunn and Mary Cook, of Evergreen, are spending the holidays with their aunt, Mrs. S. J. Watt.

Ex-Judge Driver, of Chambers county, was in town Monday.

Miss Bessie Vanderveer, who has been away at school, is spending the holidays with her parents.

Mr. John B. Moore, of Montevallo, was in town Saturday.

Misses Ruth, Kate and Maud Mullins who have been attending College at Livingston, are home for the holidays.

Miss Mary Carr Gibson, of Verbena, was in town Thursday.

Mr. Geo. R. Moore, of Aldrich, was here on business Friday.

Mr. J. B. Williams, of Montevallo, was here on legal business Friday.

Mr. J. E. Johnson, of Verbena, was in town Thursday.

Miss Esther Show, of Jemison, has accepted a position with Tax Collector J. N. Dennis.

Miss Emma Lowery who has been in the employ of Mr. M. D. Foshee during the busy court weeks, has returned home.

Mr. and Mrs. J. H. Blankenship, of Birmininghamm, visited her father, Mr. J. H. Willoughby, this week.

Hon. S. M. Adams has returned from his trip to Florida in order to take his family to their home in Dade City where they will spend the winter.

Mr. and Mrs. A. E. Garner, of Dothan, are visiting her sister, Mrs. Pinckard.

THE BUSY WOMAN'S

It begins early, ends late, and is full of work. She often has kidney trouble without knowing it. Her back aches, and she is tired and worn out. Sleeps poorly, is nervous, no appetite. Her bladder gives her trouble too. Foley Kidney Pills will cure all that and make her strong and well. They are the best medicine made for kidney and bladder disorders. Upchurch Drug Co.

CHRISTMAS IN CLANTON.

The day was ideal, clear and bright and not very cold. The streets were quiet, except for an occasional fire cracker. All the citizens were enjoying in their own homes the festivilets that mark the great Nativity. All the youngsters seemed happy as they should be on their own day.

CHRISTMAS TREES

At the Baptist and Methodist Churches on Christmas eve the children of the Sunday schools had handsome trees, loaded with gifts for all. The opening exercises at both churches were very interesting, the music and singing being particularly iine and the children well drilled in their parts.

FIRE-CRACKER NEARLY PUTS OUT BOY'S EYE

Christmas morning Erle, the young son of E. M. Pinckard, was seriously injured by the explosion of a fire-cracker in his face, thrown by some one unknown. His left eye caught the force of the explosion and was badly hurt. At first it was thought he would have to lose his eye, but this morning there seems to be a prospect of saving it, which his many friends hope will be the case.

WELCOME VISITORS

The following have paid this office a visit this week:

J. W. Collins, Rt. 4.
C. C. Mitchell, Rt. 6.
Mrs. S. E. Foshee, Thorsby.
H. L. Foshee, Thorsby.
J. W. Shaw, Montevallo.
L. F. Martin, Jemison.
M. O. Culp, Clanton.
J. P. Nix, Thorsby.
Jl P. Dykes, Calera.
W. J. Dennis, Clanton.
E. C. Davenport, Jemison.
T. C. Jones, Maplerville.
P. C. Dennis, Montgomery.

WHY ALLOW FIRE-CRACKERS IN TOWN?

Now, while the annoyance and danger of the promiscuous shooting of fire-crackers on the streets is fresh in their minds, is a good time for the town council to take action which will stop or lessen the evil. Many towns have done this, adding greatly to the comfort of their citizens. One effective way is to put a heavy license tax on the sale of fire works. Another is to forbid the use of the public streets for the nuisance. It's up to the council now to stop it.

COUGHING AT NIGHT

One bad cough can keep the whole family awake at night. Phil. Disorneau, Schaffer, Mich., says: "I could not sleep on account of a bad cough, and I was very weak. I used Foley's Honey and Tar Compound, and soon the cough left and I slept soundly all night." Upchurch Drug Co

MARRIAGE LICENSES.

The following licenses have been issued from the Probate Judges' office this week:

L. H. Lowery and Emma Pate
J. M. Barnett and Fannie Thompson
Arthur Busby and Clara Green
Harvey N. Culp and Eula Mims
W. M. Pairett and Cordie Payton
J. H. Henson and Lizzie Rasberry
R. S. Burnett and Alsy L. Minor
Clifford Driver and Gladys Courtney
Leander Mims and Viola Cleckler
O. O. Patterson and Etta Smith
Will Hayes and Maude Barrett
G. L. Giles and Katie Bell Carter
R. M. Hubbard and Iver E. Glasscock

CROUPY COUGHS AND WHEEZY COLDS

The quickest simplest way to rid the children of dangerous croupy coughs and wheezy stuffy colds is to give them Foley's Honey and Tar Compound. It gives almost instant relief and stops a cough promptly. It sooths and heals. Contains no opiates. Upchurch Drug Co.

HENSON-RASBERRY

At the home of the brides parents, on Sunday, December 22, by Rev. W. M. Olive, Mr. J. H. Henson, of Rome, Ga., and Mrs. Lizzie Rasberry. The bride is the daughter of Mr. J. H. Willoughby, living near Clanton, and has a large circle of friends. The groom is in business at Rome, where they will make their home.

CHILTON BOYS TO ATTEND CORN SCHOOL

Monday Mrs. Robinson, of Auburn, representing the, National Corn Exposition held in Columbia, S. C., was here, bringing to the attention of the county officials and citizens the fact that the county was entitled to send the three boys who have made the best corn crops in the county to the Exposition School which will be held there the week begining January 27, 1912.

The boys will be taken care of while there by the Exposition authorities, and besides the opportunity of seeing all the best at this country is doing in agricultural work, will receive a valuable course of instruction in corn growing and other farm work.

The total expense of sending the three boys will be $104.00. Of this the county commissioners agreed to furnish $83.50 and the citizens of Clanton $20.50.

The boys entitled to the honor are Ed. Smith of Jemison, Jim Jones, of Clantou and Willie Parks, of Verbena, they having raised the largest corn crops at the lowest price.

It is hoped that the boys will all accept the offer. They will have the time of their lives and come back full of knowledge and enthusiasm which they will impart to the other boys in the county and the Corn Club movement will take on greater force. The money spent will be a good investment for the county, bringing in a big dividend in corn next fall.

It's a splendid remedy for sick headache, malaria and kidney troubles. Get it from Upchurch Drug Co. for only 50c a bottle. They guarantee CARSWELL'S LIVER-AID.

WROTE GIRL OF PLAN TO DIE

Young Woman Hurries to the Place and Hears Shot—Man Will Recover.

South Orange, N. J.—Writing a note to the girl he loved but could not marry because he has a wife living, and stating therein that he intended to kill himself, Julian Dillon, twenty-two years old, sent a bullet into his shoulder. The note, which was written to Miss Marie Blanchet, advised her of the place he had chosen to end his life, so she, with Miss Marie Donnelly, a companion, hurried to the place in order to prevent the act.

As the two young women approached, Dillon waved his hand from a distance and disappeared into the woods. Then they heard a shot. Charles Stinstny of Vose avenue happened along, and discovered Dillon lying in the bushes. He sent for the police. The wounded man was taken to the Orange Memorial hospital, where the bullet was extracted with little trouble. He is expected to recover. He told the police it was an accident, but he will probably be placed under arrest on his recovery.

Dillon is the son of wealthy parents, both of whom are dead, but he never shared in the estate because he married, a few years ago, a chorus girl. It is reported here that his wife deserted him when she found that he would not have wealth. He has been living at the Hotel Belmont, New York, making frequent trips to South Orange and paying attention to Miss Blanchet.

GIRL AND BEAR SURF PALS

Dared by Companion, Young Woman Braves the Waves With Bruin at Venice, Cal.

Los Angeles, Cal.—Miss Anna Fredericks, a pretty beach girl, went swimming through the breakers at Venice accompanied by a half-grown cinnamon bear.

For a while it looked as if the great seal of California had come to life and had gone forth for a paddle in the ocean.

Miss Fredericks was one of the thousands of bathers along the ocean front. She was clad in an attractive silk bathing suit and was accompanied by several friends, when R. I. Pierce of Pasadena strolled by leading two half-grown cinnamon bears which he secured in northern California when the bears were only a few weeks old.

"I dare you to take one of the bears in swimming," said a friend to Miss Fredericks.

The young woman took the dare. Her escort, after futile attempts at dissuasion, secured one the bears. The little animal was quite tame and trotted down to the surf line with Miss Fredericks.

Thousands of beach visitors thronged the water front to watch the novel performance. At first the little bear snorted and fussed as the spray splashed over his nose, but finally with a little grunt, he ducked into the breakers and followed the leash which Miss Fredericks carried.

Old Tree of Historic Interest.

Sir Sidney Pocock, J. P., has just disposed of his residence, Charlton Court, Shepperton-on-Thames, Middlesex, England, in the kitchen garden of which is a very old mulberry tree bearing a tablet with the following inscription: "During the reign of Charles II, a fox was hunted from Windsor park and took refuge in this tree, where it was killed. The king, who was present at the kill, expressed a wish that the tree should be preserved to commemorate the longest run on record."

Love Element in Writer's Lives.

Alfred de Musset's love for irresponsible George Sand gave his thoughts such an extraordinary elevation that he wrote many brilliant poems in consequence. Chaucer sang the praises of many queens, but his one great love was Philippa Picard de Roet, the Lady-in-Waiting to Queen Anne of Bohemia. He waited nine years to marry her, but made it a matter of complaint in several poems.

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them:

"Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is excellent and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection.

The rich chocolate flavor and absence of other taste, make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist. A box of 25 doses costs only 25 cents. Never sold in bulk.
MILES MEDICAL CO., Elkhart, Ind.

Cloth Made From Seaweed.

By a process recently developed in England a very desirable cloth is made from the fiber of posidonia australis, a species of seaweed found in the southern seas. Experiments made at Manchester university show that the fiber, after treatment, is soft, pliable, strong, much like wool in its disposition to curl and twist, and easy to spin in its raw state. It takes dye well, except green.

EASY AND SURE WAY TO CURE COLDS

Don't Neglect a Cold, Ely's Cream Balm Will Stop It In the Sneezing Stage.

A cold generally attacks the weakest part, affecting the eyes and ears in some and producing nasal catarrh and throat troubles in others. A cold is due to an inflammation of the membrane lining the air passages, and may be promptly cured with a little Ely's Cream Balm, which immediately relieves the inflammation and all the distressing symptoms, such as sneezing, coughing, running at the nose and eyes, hoarseness, sore throat, fever and headache. One reason why this pure, antiseptic Balm acts so quickly is because it is applied directly to the tender, sore surfaces.

Even in severe, chronic cases of catarrh, Ely's Cream Balm never fails to quickly and effectually check the poisonous discharge which clogs the head and throat, causing the disgusting hawking, spitting and blowing of the nose. This remedy not only drives out the disease, but heals and strengthens the weakened membranes, thus ending catarrh.

Catarrh is a filthy, disgusting disease. Don't put up with it another day. Get a 50 cent bottle of Ely's Cream Balm from your druggist and see how quickly you will be relieved. It is superfluously Complete.

Locomotive's Diet.

Young Freddie is a natural student and observer, and he is especially interested in railway matters. The other day, waiting with his mother in a train mysteriously "held up" at a wayside station, Freddie pondered: "Mamma, I guess this is where the engine gets its dinner. They feed it on coal, hot water and matches, and I guess they let it have all the hot air it wants for dessert."

FROST PROOF CABBAGE & LETTUCE PLANTS
Grown in the Open Air.

We are prepared to ship from now until April 1st, the finest assortment of Cabbage Plants tied in bunches of fifty, (50), correctly counted, with an Extra Hundred Plants FREE to each thousand purchased. These Plants are arised from FROST PROOF SEED which are grown especially for us on Long Island, New York. Our Plants are sprayed with Lime and made free from Germs. Our prices are $1.50 per thousand delivered, count guaranteed and prompt shipments.

We refer you to Peoples Bank, Charleston, S. C., as to our reliability, also to Post Master and Express Agents, Meggets, South Carolina.

Our LettucePlants are Frost Proof

also, and we will put on at same figures. We want agents to handle our Plants at each Station. Write and secure agency.

The Enterprise Plant Co., MEGGETS, S. C.

The largest Potato, Plant and Cabbage Farm in the South. Fifty acres devoted in South Carolina and Florida to Plants alone.

Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

TAKE CARDUI The Woman's Tonic

We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable, tonic medicine, for women.

Cardui relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it.

MOLASSES AS A STOCK FEED

W. C. Stader, Vinegrove, Kentucky, writes: "What do you know about the value of black strip or low grade molasses as a feed, and how much should be fed?"

The Experiment Station Bulletin No. 118, of the Massachusetts Experiment Station, Amherst, Mass., gives a very complete digest of the subject of molasses as a feed. The conclusions do not seem to be very satisfactory regarding its value. Where it can be obtained cheaply, and where the grains are high priced, it probably has a place in the feeds. It is sometimes fed by diluting it with water so that stock will drink it, but generally it is used to give cheaper feeds more palatability; that is, it can be mixed with chopped straw or other coarse hay and stock will eat this to get the molasses. It is also used to quite an extent with alfalfa meal.

Its principal feeding constituent is the sugar or carbo-hydrates, and the conclusion of the Bulletin seems to be that these can be bought more cheaply in such feeds as corn than in the molasses. However, it would be well for you to find out what it would cost you in your locality before deciding as to feeding or not feeding it. At the present prices of other feeds, we are inclined to believe you will find that an investment in molasses for a feed will not be a profitable one.

Yours very truly,
I H C SERVICE BUREAU.

LAYING TILE IN QUICKSAND

Reply to M. E. Barton, Mishawaka, Indiana: "Will you please give me a little information on laying tile on a farm that has a quicksand bottom, also a little advice on killing out smartweed?"

This is quite a difficult proposition, and we believe the only way that results can be obtained is to use some durable timber and lay a board in the bottom of the ditch on which the tile can be laid to keep it from getting out of line. You would need a board about the same width as the tile, that is, for 4-inch tile a 1x4 board would be sufficient. At the points where the boards join, a short piece 12 or 14 inches long should be placed below so that there would not be a possibility of the tile becoming disjointed by one end of the board settling.

If you can get a considerable fall, the sand will probably not bother in filling up the tile, but if you cannot get a fall of three or four inches per 100 feet, it would be best, if possible, to fill in about the tile with clay or some other soil through which the water would seep and at the same time keep out the sand.

As to smartweed, we believe if you get your land properly drained you will not be bothered with this pest, as it only grows in soil that contains too much water for the proper growth of ordinary crops. If draining does not do it, we are sure that you can get rid of it by cultivation. A few crops of corn will help rid your land of this pest.

Yours very truly,
I H C SERVICE BUREAU.

OCTOBER REMINDERS

Arrange sheds and mows to feed shredded fodder to the stock—if you have never done so you will be pleased with results, especially with the fine lot of manure you have to spread.

Hay stacks in meadows adjoining corn fields should be fenced now in order to give free range to our stock just as soon as the corn is husked. To dig post holes in frozen ground is not what we call a "snap."

To furnish food for the world is an accomplishment worthy of great praise, but it is not our whole duty—remember that Tuesday, November 5, is election day.

See that the seed corn which you have carefully selected and hung up or put on racks to dry is not subjected to freezing weather. Sudden weather changes may happen any time—we should guard against these.

Pasturing alfalfa or clover too late is bad practice, to say the least. These crops, when cut or pastured close, are apt to be winter killed.

Are you making a record and ordering the needed repairs for the various machines as they are stored for the winter?

FARM CROPS

Stable Manure Supplies Many Plant Food Elements and Adds Humus to the Soil—Calcium Should be Applied

Howard Eldridge, Porterville, New York, writes as follows: "I am a farmer living in Erie county, New York. The soil raises very good crops in everything excepting wheat and oats. The average yield of this grain for the past few years has been fifteen or twenty bushels to the acre, as compared to fifty bushels to an acre a few years ago. How can this land be improved?"

The principal plant food elements are nitrogen, phosphorus, potassium and calcium. These are necessary for the production of crops. If any one of these elements is deficient, it will mean that the crop production will be lessened. Continuous cropping without rotation, combined with poor cultivation, is bound to result in decreased yields.

The nitrogen can be replenished by growing leguminous crops, such as clovers, cowpeas, soy beans, vetches, etc. Also, by applying stable manure or plowing under a legume as a green manuring crop. By doing this you not only supply nitrogen to your soil but you improve its physical condition by adding vegetable matter.

Very few soils require potassium. This is especially so of sandy soils although if the soil is not in good physical condition, the potassium may not be available, but if you supply the vegetable matter either in the form of green manure or stable manure, it will tend to make the potassium available.

It may be necessary to supply phosphorus in the form of a commercial fertilizer, which may be done by using finely ground phosphate rock, providing the soil is in the proper physical condition. The phosphate rock will cost you only about half as much and contains practically twice as much phosphorus as acid phosphate. The best way of handling rock phosphate is to spread it in the stables with the bedding or to scatter it on the manure pile. The decaying of the stable manure will tend to render the phosphorus available.

The other principle element, which is especially important if you expect to grow leguminous crops such as clover and alfalfa, is calcium. This may be supplied by the use of finely ground limestone rock. The need of calcium is shown by the presence of horse sorrel, and the failure of legumes to grow.

There is another way of determining the acidity of the soil or the lack of calcium by the use of litmus paper, which may be purchased at any drug store. Place the moist soil around the litmus paper for ten or fifteen minutes. If the blue paper is turned to a pink or reddish color, it will indicate that your soil requires lime. Finely ground limestone may be applied at the rate of from one to eight tons to the acre, depending upon how badly your soil needs calcium, but the usual application varies from one to four tons.

The other factors which enter into crop production are the selecting of good seed and the preparing of the soil. It is possible that the seed that you are using has become somewhat run out and needs to be replaced by pure seed. Combine with this the preparation of a good seed bed—which is very important in order to obtain a satisfactory yield of small grain.

Yours very truly,
I H C SERVICE BUREAU.

HARVESTING ALFALFA

Reply to John McGeary, Canehill, Arkansas

"Can you tell me when to cut alfalfa so as not to injure the succeeding crop? When is the best time to harvest red clover for hay?"

The usual practice is to cut alfalfa when about one-tenth of the plants are in bloom, and if cut at this stage there will not be so much danger of injuring the next crop as if permitted to stand longer. From the standpoint of feeding value it will not depreciate to any extent until the field is practically in full bloom.

Red clover should be harvested when the plants are in bloom. If cut before this time it will be difficult to cure because of the amount of moisture clover contains when green, while on the other hand, if permitted
